Important Notice

The information contained in the Calendar is correct at the time of publication. Certain information, and in particular that relating to fees, admission regulations and papers, is subject to a continuous process of review. The University

therefore reserves the right to change its policies, procedures, statutes, regulations, papers and any other content of the Calendar at any time. Any alterations and amendments to the Calendar will be reflected in the web version, which is the authoritative version.

Unless specifically stated otherwise, all policies, procedures, statutes and regulations printed in the Calendar are effective from 1 January 2015 and supersede those in any prior Calendar. Matters concerning enrolment and examinations apply to the academic year for which the student is formally enrolled for the relevant paper(s).

While in most cases there are no specific time limits for completing qualifications, over the years the degree structures and papers may change in response to developments in their areas. Occasionally core papers or requirements are changed or discontinued.

Candidates will have their overall programmes of study confirmed as meeting the requirements for the award of a qualification on the basis of the relevant regulations in the Calendar in their final year of study. However, if the regulations have changed since the candidate first enrolled for the qualification, the relevant Dean or Head, or equivalent, may decide in individual cases, under the *Personal Programmes of Study Regulations* and the *Delegation of Powers Statute*, to vary or waive particular requirements. Students who are uncertain about whether papers passed under previous regulations will meet current requirements should consult the relevant Dean or Head, or equivalent.

Detailed transitional regulations will be printed in the Calendar from time to time if substantial changes are made to the structure of a particular qualification.

Personal Programmes of Study Regulations

These regulations apply to candidates beginning their studies in 2023. Candidates who first enrolled in a qualification prior to 2023 are eligible to complete that qualification either under the regulations which applied at the time of first enrolment or the regulations which apply at the time of re-enrolment. Candidates who are resuming their studies for a qualification after an extended absence are advised to consult the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies concerned at the time of re-enrolment regarding the requirements for completion. However, where there have been significant changes in the structure of a qualification or content of the major or specified programme during the candidate's absence, the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies may prescribe a specific programme of study which will be deemed to satisfy the requirements for completion of the qualification.

1. **Title**

These are the Personal Programmes of Study Regulations 2012.

2. **Date of effect**

These regulations are effective from 1 January 2013.

3. **Delegation of powers**

The powers and authority of the Academic Board referred to in these regulations have been delegated in certain matters under the [Delegation of Powers Statute 2014](#).

4. **Definitions**

In these regulations

paper means a segment of work in a particular subject and is identified by means of a unique code number. Papers are delivered through lectures, tutorials, practicals and such other coursework as may be required by the department concerned

programme of study means the selection of papers taken by a candidate in any one academic year for a particular qualification

restricted papers are either in effect the same papers e.g. one of which was taught in the past with a different paper code, or they share a significant amount of common content. Candidates may therefore receive credit for only one of the papers listed. Restricted papers may not necessarily be used to satisfy prerequisite or corequisite requirements

a **prerequisite** must be passed before a candidate may enrol in the paper for which the prerequisite is specified. (A paper for which a Restricted Pass (RP) has been awarded will not be accepted as meeting the prerequisite requirements for any other paper unless the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies in which the other paper is offered approves otherwise)

a **corequisite** must be taken either prior to or concurrently with the paper for which the corequisite is specified

internal assessment means all or some of the following: essays, assignments and reports of various kinds, practical work, work in tutorials and/or seminars and tests

a **field** means a general area of academic study that includes a number of related subjects

a **subject** is a grouping of papers with a common academic theme, defined in terms of the listings under individual subject headings in the University of Waikato [Catalogue of Papers](#). A department may offer more than one subject

a **major** means a principal area of study a candidate has chosen for a bachelors degree and is selected from those listed in the relevant degree regulations. A candidate is required to take a defined and substantial number of papers in the major at a range of levels up to and including 300 or 400 level

a **minor** means an additional subject to the major and is a requirement of some bachelors degrees

a **supporting subject** means an additional subject to the major, usually of at least 60 points in a single minor subject

a **specialisation** means a recognised pathway within a qualification or major which provides an area of focus within the qualification or major

points is the term used to express the student workload of a paper or programme. A normal full-time academic year comprises 120 points or 1.0 EFTS (Equivalent Full-time Student)

5. Application

These regulations apply to undergraduate certificates, undergraduate diplomas, bachelors degrees, bachelors with honours degrees, graduate certificates, graduate diplomas, postgraduate certificates, postgraduate diplomas, masters degrees and individual paper credits.

6. Admission and re-entry

(1) In order to be eligible to be enrolled at the University of Waikato, candidates must meet the requirements of Section 255 of the Education and Training Act 2020.

- (2) The criteria for admission to the University of Waikato in a given year are determined by the Council and are set out in the [Admission Statute 2016](#).
- (3) The criteria for admission to a particular qualification in a given year are determined by the Academic Board and are set out in the [Criteria for Admission to Particular Qualifications](#) and the qualification regulations.
- (4) To ensure that a candidate is adequately prepared for a graduate qualification, the Academic Board will require relevant papers in the relevant subject or subjects of the qualifying bachelors degree to have been passed at grades which it deems appropriate.
- (5) Candidates are usually required to have majored in their bachelors degree in the main subject to be presented for a graduate degree. This requirement may be waived in cases where no more than one or two papers in a given subject are proposed to be incorporated into the candidate's graduate degree.
- (6) In exceptional circumstances, based on academic merit, candidates who have no more than 30 points left to complete the requirements of a qualifying degree may be permitted to enrol in a graduate degree, provided that they have completed all of the requirements of the major or main subject of the qualifying degree. The graduate degree will not be deemed to have been completed until the qualifying degree has also been completed.
- (7) The Academic Board may approve limitations on enrolment for programmes or papers due to insufficiency of staffing or resources. Limitations and the criteria for selection are published in the [Limitations Statute](#).
- (8) A candidate who has been awarded a particular qualification in one major or subject may only be re-admitted to the same qualification in another major or subject.
- (9) The criteria for re-entry for returning students are determined by the Academic Board and are set out in Part 3 of the [Criteria for Admission to Particular Qualifications](#).
- (10) In addition, the Academic Board may decline to re-enrol a candidate whose progress during the preceding year or years has not been to the satisfaction of the Academic Board.

7. Enrolment in a programme of study

- (1) The Academic Board may prescribe qualifying or additional papers which must be passed by a candidate either prior to, or concurrently with, the minimum requirements for a qualification. Qualifying or additional papers may be required if the candidate is considered by the Academic Board to be inadequately prepared in a core subject area.
- (2) Enrolment in a programme of study or paper is subject to the approval of the Academic Board. Such approval will be determined on the basis of the candidate's academic background as well as staffing and resources.
- (3) The personal programme of study of every candidate is subject to the approval of the Academic Board.
- (4) The papers for qualifications and their prescriptions are defined in the University of Waikato [Catalogue of Papers](#). Before enrolling for a paper, candidates must meet any

requirements specified in the relevant prescription unless approved otherwise by the Academic Board.

- (5) Particular regulations governing qualifications may be varied or waived by approval of the Academic Board.

8. **Maximum student workload**

- (1) The normal maximum full-time student workload for an academic year (excluding C trimester) is 120 points.
- (2) For the purposes of calculating workload, a paper that runs for the duration of two full trimesters has a workload equivalent to half of its points value during each of the trimesters in which it is taught.
- (3) The normal maximum full-time student workload for C trimester is 45 points.
- (4) Approval of the Academic Board is required for a candidate to enrol in a programme of study which has a workload equivalent to more than the normal maximum full-time workload.

9. **Completion of a qualification**

- (1) The minimum requirements for the completion of a qualification are defined in the relevant regulations.
- (2) With the approval of the Academic Board, a candidate may be permitted to complete the requirements of a qualification in less than the minimum period of enrolment prescribed in the relevant regulations. Approval will depend on the candidate's academic record and on the availability of suitable teaching and supervision arrangements.

10. **Eligibility for Honours or Distinction**

In order to qualify for Honours or Distinction in a particular qualification, a candidate may be required to complete the requirements within a prescribed time period of first enrolling for the qualification.

11. **Dissertations and theses**

- (1) The *Dissertations and Theses Regulations 2020* governing the presentation of dissertations and theses apply in these regulations and any dissertation or thesis required for a graduate qualification must be presented in accordance with these regulations.
- (2) Enrolment in a dissertation or thesis, or a qualification which requires the completion of a dissertation or thesis, is subject to the availability of a suitable supervisor for the dissertation or thesis.
- (3) For dissertations and theses, one or more supervisors will be appointed by the Academic Board. If the chief supervisor is also an examiner of the dissertation or thesis, at least one other examiner (who is not also a supervisor) will be appointed.
- (4) A dissertation or thesis must embody the results obtained by the candidate in an investigation relating to some branch of the subject or subjects being presented, or, with the approval of

the Academic Board, shall take some other form proposed by the candidate's supervisors and approved by the relevant Head of School or Dean concerned. The chief supervisor or sole supervisor will be required to certify that the dissertation or thesis embodies the candidate's own work carried out under the supervisor's direct supervision.

- (5) Dissertations and theses are assessed in terms of the points value they represent.

12. **Date for submission of dissertations, theses and research reports**

- (1) The deadline for the submission of any dissertation or research report will be 4.00pm on the last working day of the paper occurrence which completes the candidate's enrolment in the total points required for the dissertation or research report.
- (2) The deadline for the submission of any thesis will be 11.59pm on the last day of the paper occurrence which completes the candidate's enrolment in the total points required for the thesis.
- (3) Candidates who expect that they will not submit their dissertation, thesis or research report by the due date may apply to the relevant Head of School or Dean or delegated authority for an extension of time without the requirement for re-enrolment, provided that the application for an extension is lodged prior to the deadline for submission.
- (4) Extensions will not normally be awarded for periods of more than 21 days beyond the relevant due date.
- (5) Candidates who do not submit their dissertation, thesis or research report by the due date, and who have not applied for and been awarded an extension, will be required to re-enrol for a minimum period to be determined by the relevant Head of School or Dean or delegated authority and will be liable for a further payment of tuition and any other fees and charges for the period of re-enrolment.

13. **Resubmission of dissertations and theses**

- (1) A dissertation or thesis for a graduate qualification that receives a narrow fail may be returned to the candidate with the offer of an opportunity to revise and re-submit. The decision to offer such an opportunity is at the discretion of the relevant Head of School or Dean and is based on a number of factors, including the likelihood that the revision will be successful, and the availability of suitable supervisors and examiners.
- (2) An offer by a Head of School or Dean under subsection 13(1) of these regulations will be in writing, and any conditions attached to the offer will be explicit. The period allowed for the revision will be no more than the equivalent of one trimester and the deadline for submission will be prescribed. If the offer to revise and submit is accepted, the candidate will be eligible to receive a maximum grade of C and, in the case of a masters degree, will not be eligible for the award of Honours.
- (3) A candidate's acceptance of an offer to revise and re-submit and associated conditions must be in writing. The candidate must then re-enrol for the equivalent of one trimester and pay fees accordingly. For administrative and fees purposes, the candidate will enrol for the particular enrolment period in which the deadline for re-submission falls.

- (4) A 'provisional fail' is recorded against the first dissertation or thesis enrolment for the period of revision. The 'provisional fail' grade is replaced by a final grade (either a fail grade or a C grade, depending on the outcome), after the revision and re-examination processes are concluded.
- (5) The opportunity to revise and re-submit a particular dissertation or thesis may be offered to a candidate only once.

14. **Credit - transfer credit and cross credit**

- (1) **Transfer credit** means credit towards a University of Waikato qualification for papers passed at another tertiary institution.
- (2) **Cross credit** means credit towards a University of Waikato qualification for papers passed towards another University of Waikato qualification.
- (3) A candidate who has passed papers at an appropriate level at the University of Waikato or another tertiary institution may apply for credit in respect of those papers towards a University of Waikato qualification.
- (4) Applications for credit must be submitted on the online qualification application, together with the prescribed fee.
- (5) Applications for credit from another institution must be accompanied by a verified copy of an academic record. If the original document is not in English, the academic record must be accompanied by an official English translation of the record. The University reserves the right to request an original copy of an academic record.
- (6) The policy on the level and amount of credit which may be awarded from a completed qualification is determined by the Academic Board and is set out below:
 - (a) Credit from a completed qualification is normally only available towards a bachelors degree.
 - (b) Credit is not normally awarded from a completed graduate or postgraduate qualification.
 - (c) Credit from a completed qualification will normally be limited to no more than one third of the completed qualification.
 - (d) Credit towards a University of Waikato bachelors degree from a completed qualification will normally be limited to no more than one third of the University of Waikato degree. For the purposes of this regulation, one third of a bachelors degree is considered to be 120 points at 100 and 200 levels, including a maximum of 60 points at 200 level. Where appropriate, the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies may, at their discretion, permit 20 further points at 100 or 200 level to be credited towards a four-year bachelors degree where the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies deems a paper to be relevant to the candidate's programme of study.
 - (e) Credit will not normally be awarded for 300 or 400 level papers required for a major in an undergraduate degree.

- (f) No paper may count towards more than two qualifications.
- (7) The decision to award credit in individual cases will be made by the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies.
- (8) In making decisions on credit, the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies will consider the relevance and level of the papers completed, the regulations of the University of Waikato qualification concerned, and the credit guidelines maintained by the Student Services.
- (9) Regardless of the total number of papers which an applicant has passed at other institutions, the total credit awarded will not be more than half of the total requirement of the University of Waikato qualification concerned, unless this is approved under subsections 14(10) or 14(11) of these regulations.
- (10) In individual cases, the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies or delegated authority may vary subsection 14(9) of these regulations and award credit for up to two thirds of the University of Waikato qualification concerned.
- (11) In individual cases, the Education Committee, under delegated authority of the Academic Board, may award credit for more than two thirds of a University of Waikato qualification, or for more than half of an undergraduate degree that includes 300 and/or 400 level papers for a major.
- (12) Applicants wishing to appeal a Pro Vice-Chancellor's or the Dean of the Faculty of Māori and Indigenous Studies decision on credit may apply to the Director of Student Services.
- (13) The consideration of an appeal will involve the Pro Vice-Chancellor or the Dean of the Faculty of Māori and Indigenous Studies concerned being requested to reconsider the decision. Further appeals against the outcome of a reconsideration will be referred to the Education Committee for consideration on behalf of the Academic Board.
15. **Completion of a University of Waikato qualification at another New Zealand university**
A candidate who, based on the assessment of the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies, has completed the major part of a qualification at the University of Waikato and then moved to another district may, in some cases, complete the University of Waikato qualification by taking the remaining papers at another university in New Zealand. Prior approval of the specific papers, in writing, must be obtained from the Director of Student Services of this University and the prescribed charge paid. The candidate must advise the Registrar of the other university of the purpose of the enrolment and the papers concerned must be taken on a Certificate of Proficiency (COP) basis at that university. The candidate's academic record will not be transferred.
16. **Completion of a qualification of another New Zealand university at the University of Waikato**

A candidate who has completed the major part of a qualification at another New Zealand university may, in some cases, be permitted by that university to complete the qualification by passing specified papers at the University of Waikato. Any such approval must be given in writing by the 'home' university and the candidate will take the papers concerned on an Individual Paper Credit (IPC) basis at the University of Waikato. The candidate's academic record will not be transferred.

The University of Waikato

The University of Waikato/Te Whare Wānanga o Waikato was established in 1964 by the people of the region to enhance their social well-being, and to create a sustainable economic future for the region. The University's motto 'Ko Te Tangata' (for the people) symbolises our commitment to our region, and our role under the Treaty of Waitangi. It also emphasises the importance we place on people and that we exist for the benefit of our people.

From modest beginnings, the University now provides an educational experience that is multi- and interdisciplinary, comprehensive, research-led and student-focused to prepare graduates for careers and leadership in a global marketplace. High-quality teaching is a cornerstone of the University of Waikato and we have a student population of approximately 12,500, of who more than 3,700 complete a qualification annually.

The University of Waikato is committed to the region, but is an internationally connected, relevant and recognised university, creating and disseminating knowledge to the world and transferring global expertise to New Zealand. We are committed to meaningful partnerships and to providing leadership in research, scholarship and education that is highly relevant to the needs and aspirations of iwi and Māori communities. The University of Waikato is a national university, but with a focus on meeting the needs of its primary region – the central North Island, with campus facilities in the Waikato and Bay of Plenty, but also encompassing Hawke's Bay, Taranaki, East Coast and Northland.

The University is also a global institution sustaining on-going interactions and partnerships with international researchers and institutions. It services the needs of the Pacific, nation and region through engagement with iwi, industry, business, communities and government. In this way it fulfils its mission to connect and create and disseminate knowledge, and to create enhanced economic, sustainable and social outcomes in New Zealand and around the world.

Approximately 1,500 full-time staff are employed at the University of Waikato and it makes a major contribution to the New Zealand economy, particularly in the Waikato and Bay of Plenty regions. The University is a major driver of the Waikato region's prosperity, contributing nearly \$800 million in revenue to the Waikato economy last year, and \$938 million for the New Zealand economy. That figure is expected to reach \$1 billion in the next two years. Every dollar spent by the University resulted in \$1.31 of flow-on revenue, and every job at the University generates another 1.2 jobs in New Zealand.

It is widely recognised that future economic growth and wealth in the Waikato and the Bay of Plenty depend heavily on the educational success of our people, and the creation of knowledge to drive innovation. These in turn depend on strong connections between the University and the communities we serve. Located as we are in the heart of Waikato Tainui country and on Tainui land, we are committed to working in partnership with Māori and towards the needs of iwi. As part of the Bay of Plenty Tertiary Education Partnership, with Bay of Plenty Polytechnic, Te Whare Wānanga o Awanuiārangi and Waiariki Institute of Technology, we are progressing plans to build a new tertiary education and research facility in the Tauranga CBD to increase its capacity to deliver targeted research and tertiary education.

The University's Vision for the future has three key themes: Excellence, Distinctiveness and International Connectedness. We are committed to delivering a world-leading education and research portfolio, providing a full and dynamic university experience which is distinctive in character, and pursuing strong local and international linkages to advance knowledge.

We are building for this future on a foundation of excellence in teaching and research. Our students are taught in a research-intensive environment, by world leaders in their fields. We foster excellence in learning and scholarship, and as the creators of world-changing knowledge, we encourage our students to be leaders and innovators. We produce critical-thinking, future-focused graduates who are globally competitive and we do this by attracting and nurturing academic staff who are internationally connected and benchmarked and by providing world-class facilities. We are located in our region but we are working internationally to produce excellence in educational and research outcomes.

Our size allows us to focus on interdisciplinary programmes and solutions, provide professionally oriented study on and offshore, and ensure our students benefit through entrepreneurship and international placements resulting from our strong drive for internationalisation.

And we are already reaping the rewards of our focus on excellence. In 2014, the UK-based Times Higher Education rankings of the top universities under 50 years old placed the University of Waikato 44th in the world - top in New Zealand. The University of Waikato is also ranked in the top 2% of all universities in the world by Times Higher Education.

The University has a strong reputation for its excellent and innovative approach to student learning support and a track-record of effectiveness in supporting students in the transition into university study, particularly Māori, Pacific and first-generation tertiary students. We provide strong and accessible pathways from schools to university, and we work closely with polytechnics and wānanga to increase progression into degree-level study. As well as offering effective learning support to all students, Waikato Pathways College, in the Faculty of Education, offers English language and foundation programmes that are specially tailored to the needs of international students.

The University of Waikato invests heavily in the pastoral care of our students. The development and well-being of every student as an individual, and as a 'whole person', is an important dimension of the University's uniqueness. The Halls of Residence on campus, where pass rates of students are significantly higher than average, are a clear example of the University's focus on a supportive learning environment. Our campus environment in Hamilton is shared with the wider community, and we work closely with the Hamilton City Council and other local government agencies in the region to foster a dynamic student culture.

The University invests heavily in capital programmes to support learning, teaching and research and enhance the student learning experience. Our Student Centre, which opened in 2011, provides a 'first-stop-shop' for services to students; a Halls of Residence refurbishment programme is underway; and construction began in 2014 for a new Law and Management building. Meanwhile, the University of Waikato has entered into a partnership with the locally-based Avantidrome which will give staff and students access to top-level sports facilities and enhanced research and consultancy opportunities.

Several strands are brought together at the University of Waikato to deliver excellence, distinctiveness and international connectedness. Key among these is developing innovative researchers and providing world-changing

research; a focus on internationalisation; supportive and relevant national and regional partnerships; sustainability in what we do paired with a culture of innovation, entrepreneurship and leadership across the organisation; and delivering a refined and future-proofed curriculum that keeps at its heart a world-class student experience.

Of great importance to us is our desire and drive to use relevant and responsive research to deliver a range of benefits to the region and nation, and to partner with Māori. Already on our journey we have embedded interdisciplinary and multi-disciplinary programmes at the University and we place great emphasis on our research platforms including research centres and institutes. It is this interdisciplinary approach that is vital to helping solve national and global issues such as food supplies, population growth and decline, and access to clean water. We must maintain a focus on blue-sky research but also embrace a culture that allows for knowledge transfer to partners and to commercial markets. It is this that makes us a connected and connecting University that benefits our students, our staff, our region and our nation.

In 2015, following our jubilee year, it is obvious that the future for the University of Waikato is exciting. Our financial base is sound and we have mapped out for ourselves a clear and agreed framework for well-informed strategic investment decisions over the medium-term. We embrace our responsibility to future generations to build on what has been achieved during our first 50 years. We will continue to work closely with our stakeholders to create effective engagement and play an increasingly distinctive role in teaching and research. We are proud of the way in which our institution is strongly connected to the solving of national problems. We are proud of our region, and equally proud of our evolution into a truly New Zealand institution which, as our motto reflects, supports our country's nation-building policies and reflects our nation's identity.

The Faculties and School of Studies

The University comprises the Faculties of Arts and Social Sciences, Computing and Mathematical Sciences, Education, Law, Management, and Science and Engineering, and the School of Māori and Pacific Development.

The **Faculty of Arts and Social Sciences** encourages its students to be flexible, self-directed, and lifelong learners. It fosters excellence in learning and scholarship and encourages and provides opportunities for students to become critical thinkers, communicators, facilitators and innovators for change and caring individuals. It offers a wide range of qualifications from undergraduate certificates, diplomas and degrees through to masters and doctorate degrees. Academic and research excellence underpin learning and teaching in programmes designed to foster creativity, critical thinking, active learning and a unique combination of social responsibility, theory and advanced practical skills in a variety of specialist disciplines. Added to these, graduates gain a theoretical and practical understanding of people and society, and a broad knowledge of culture, society and history that provides a global focus and the capacity for judgement and creativity in an international community. Programmes incorporate explicit pathways into the workforce as well as to higher degrees.

Students may choose from more than 30 subject areas within our general undergraduate and postgraduate qualifications. The **Faculty of Education** provides degree programmes in teacher education, sport and leisure studies, counselling, human development and education studies. It distinguishes itself among other education schools through its tradition and reputation for innovation, leadership and research.

The Faculty was the first teacher's college of education in New Zealand to merge with a University, the first to offer a degree in sport and leisure studies, the first to offer a teacher education programme online, and the first to offer a masters degree in initial teacher education.

The Faculty has a strong commitment to research informed practice with two institutes: the Wilf Malcolm Institute of Educational Research (WMIER) and the Institute of Professional Learning (IPL); and four research centres: the Early Years Research Centre (EYRC), the Educational Leadership Research Centre (ELRC), the Centre for Global Studies in Education (CGSE); and the Technology, Environmental, Mathematics, and Science Education Research Centre (TEMS).

The Faculty of Education offers a portfolio of qualifications at undergraduate, graduate, and postgraduate levels. Three and four-year degree programmes in teacher education, along with one-year graduate diploma programmes and one-year masters degrees in teacher education, prepare competent, knowledgeable and critically reflective beginning teachers. These programmes have New Zealand Teachers Council approval, enabling graduates to register as teachers in New Zealand. A range of specialist postgraduate certificates, diplomas and masters degrees provide qualified teachers with programmes that are practice-related and designed for professionals. The Sport and Leisure Studies programmes cover a broad range of topics such as outdoor adventure experiences, health-related fitness and performing arts. They provide graduates with a framework that critically examines the political, cultural, social, and economic forces that influence people's behaviour in relation to sport and leisure. The Faculty also offers majors in Education Studies and Human Development involving critical inquiry into the theories and practices of lifelong education and the study of human development across the life span. Counsellor Education programmes take a distinctive orientation emphasising what are often called narrative approaches in counselling and therapy. The Master of Counselling is approved by the New Zealand Association of Counsellors.

Further information is available on the website: <http://education.waikato.ac.nz>.

Short-term language teacher training courses such as CELTA are available for students intending to work as language teachers in New Zealand or overseas. Short-term courses are also offered to universities and high school groups from around the world who wish to study English in tailor-made programmes. The College is an accredited and award winning IELTS testing centre, and short-term IELTS preparation courses are also available.

Further information is available on the website: www.waikato.ac.nz/smpd.

The **Waikato Management School** is the business school of choice, respected nationally and internationally for its influential practice, relevant research, quality teaching and commitment to excellence. At the heart of its business is transformation - its purpose is to transform minds, careers and organisations. International connections mean that teaching and research is always at the cutting-edge of best business practice and the School's engagement with commercial and professional stakeholders mean students are learning practical knowledge skills. Waikato Management School students go on to become leaders in the public and private sector, graduating with essential business skills and knowledge. They have the ability to think critically and carefully and to act responsibly and ethically.

The School is a member of an elite group of business schools that have earned "Triple Crown" status - an international

acknowledgment of excellence in business education. It is accredited by AACSB International (the US based Association to Advance Collegiate Schools of Business), the world's longest established assessor of business education, EQUIS (European Quality Improvement System) and AMBA (The Association of MBAs). Only 1% of the world's business schools have met the strict standards of all three accreditation bodies and earned this distinction of excellence.

The Waikato Management School offers both general and specialist management undergraduate qualifications, as well as specialist masters programmes with either a professional or research focus on Management Studies, Electronic Commerce and/or Professional Management. It also offers general management masters degrees that develop comprehensive management and leadership skills: a Master of Business and Management for recent graduates and a Master of Business Administration for participants with management experience.

The University's Commitment to the Treaty of Waitangi

The University's Māori identity and heritage are essential elements of our institution's distinctiveness. The University's Māori Plan and Investment Plan outline the specific programmes which underpin the University's commitment to Māori and the Treaty of Waitangi. The general areas of priority include:

- building on the University's reputation for making a unique and significant contribution to the educational success of Māori,
- enhancing the teaching and research capacity of Māori academic staff, with a focus on leadership and academic excellence,
- providing a distinctive University of Waikato experience for both staff and students which draws on kaupapa Māori and the heritage of our region,
- positioning the University as a leader in research relevant to the needs and aspirations of iwi and Māori communities.

As reflected in our Charter and Vision, the University has been committed to the Treaty of Waitangi from the outset. We are determined to build on this commitment and on our reputation as a leader in partnership with Māori - to further enhance the relevance and value of the University to Māori communities and to the nation as a whole.

Important Notice

The information contained in the Calendar is correct at the time of publication. Certain information, and in particular that relating to fees, admission regulations and papers, is subject to a continuous process of review. The University therefore reserves the right to change its policies, procedures, statutes, regulations, papers and any other content of the Calendar at any time. Any alterations and amendments to the Calendar will be reflected in the web version, which is the authoritative version.

Unless specifically stated otherwise, all policies, procedures, statutes and regulations printed in the Calendar are effective from **1 January 2023** and supersede those in any prior Calendar. Matters

concerning enrolment and examinations apply to the academic year for which the student is formally enrolled for the relevant paper(s).

While in most cases there are no specific time limits for completing qualifications, over the years the degree structures and papers may change in response to developments in their areas. Occasionally core papers or requirements are changed or discontinued.

Candidates will have their overall programmes of study confirmed as meeting the requirements for the award of a qualification on the basis of the relevant regulations in the Calendar in their final year of study. However, if the regulations have changed since the candidate first enrolled for the qualification, the relevant Pro Vice-Chancellor or the Dean of the Faculty of Māori and Indigenous Studies, or equivalent, may decide in individual cases, under the [Personal Programmes of Study Regulations](#) and the [Delegation of Powers Statute](#), to vary or waive particular requirements. Students who are uncertain about whether papers passed under previous regulations will meet current requirements should consult the relevant Pro Vice-Chancellor or the Dean of the Faculty of Māori and Indigenous Studies, or equivalent.

Detailed transitional regulations will be printed in the Calendar from time to time if substantial changes are made to the structure of a particular qualification.

Limitations Statute

Limitations on enrolments can be established under section 224(5) of the Education Act 1989 where the Council is satisfied that it is necessary to do so because of insufficiency of staff, accommodation or equipment, or section 224(12) where the Council has established places for foreign students in a programme whose continued availability is dependent on the fees payable by foreign students enrolled in it. The Council has delegated authority to approve limitations under section 224(5) to the Academic Board.

Schedule of Limitations on Enrolments for 2015

Limitations under Section 224(5) of the Education Act 1989

Ministry-funded enrolments will be limited in a manner that allows the University to meet the Government's expectations with respect to its approved Mix of Provision for the year in question.

Applications from Ministry-funded students who meet the University's published deadlines for applications to enrol, as well as the admission, entry, re-entry and programme approval criteria for the relevant qualifications and papers, will be accepted according to the priority groups listed below until the relevant Faculty/School of Studies achieves its Mix of Provision target at the relevant level.

If places are still available after the published deadlines for applications to enrol, Ministry-funded students who have not met those deadlines, but who meet the admission, entry, re-entry and programme approval criteria for the relevant qualifications and papers, will be accepted in order of application, up until the relevant targets have been met.

Undergraduate (Bachelors, Undergraduate and Graduate Certificates and

2. Students who have previously been enrolled at the University of Waikato, commencing taught postgraduate study or returning (after a gap in study) to continue a postgraduate qualification.
Students new to the University of Waikato.

Research Postgraduate (Doctoral, MPhil, Masters 594 theses)

Change of Enrolment Regulations

1. Title

These are the Change of Enrolment Regulations 2012.

2. Date of effect

These regulations are effective from 1 January 2013.

3. Definitions

In these regulations

change of enrolment means any of the following changes to the programme of study in which a student has originally enrolled for a given teaching period:

- the **addition** of a paper, with payment of the prescribed fees
- the **deletion** of a paper, with refund of the prescribed fees (the paper is deleted from the student's academic record)
- **withdrawal** from a paper, without refund of any fees (the paper remains on the student's academic record, annotated as 'withdrawn')
- **change** of qualification, major or specified programme.

iWaikato means the computer system, accessible to enrolled students, which enables them to apply for change of enrolment on the internet.

4. Application

These regulations apply to papers at 0, 100, 200, 300, 400, 500 and 700 levels.

Note: Policies and procedures with respect to change of enrolment for 800 (MPhil) and 900 (doctoral) level programmes are available from the Postgraduate Studies Office.

5. Fees

The fees referred to in these regulations are available online at www.waikato.ac.nz/sasd/enrolment/fees.shtml.

6. Teaching periods

The teaching periods referred to in these regulations are defined on page 10 of the University of Waikato Calendar.

7. Programme approval

Any change of enrolment constitutes a change to a programme of study and requires the approval of the Faculty or School of Study.

8. Procedure for change of enrolment

Applications for change of enrolment must be submitted to the Faculty or School of Study that the student is enrolled in for consideration. They need to be submitted through iWaikato. The exceptions are students

- (1) enrolled in articulation programmes - they need to complete specific forms to add University of Waikato papers to their enrolment (or on an Application to Change Enrolment form, available from the Student Centre and the Faculties or School of Studies).

Absence from classes or failure to submit items for assessment does not constitute withdrawal from a paper. A

- (2) student who does not withdraw from a paper using the procedures outlined in these regulations remains enrolled for the paper and remains liable for any prescribed fees.
- (3) Attendance at classes and submission of items for assessment does not constitute enrolment in that paper.

9. Timeframe for change of qualification, major or specified programme

Provided that no changes are made to the selection of papers, a student may apply to change a qualification, major or specified programme at any time.

10. Deadlines for adding papers (with payment of the prescribed fees)

- (1) An application to add a (500 level) thesis must be submitted to the Faculty or School of Studies at least one month before the intended start date for the thesis.

- (3) An application to add a Corporate and Executive Education paper must be submitted to the Waikato Management School at least one month before the start of the paper.

11. Deadlines for substituting papers (with transfer of the prescribed fees)

A student may apply to add a paper in place of a paper being deleted up until the relevant deadline listed in section 12 of these regulations provided that the paper to be added is of the same or lesser points value as the paper to be deleted.

12. Deadlines for deleting papers (with a refund of the prescribed fees)

An application to delete a paper must be submitted to the Faculty or School of Studies by the following deadlines:

	Type of paper	Deadline
(1)	Summer School 1 and 2 papers and C, D etc. papers with teaching periods shorter than 17 weeks	5.00pm on the first Friday of the relevant teaching period
	Semester A and full-year papers	5.00pm on the second Friday of semester A (13 March 2015)
	Semester B papers	5.00pm on the second Friday of semester B (24 July 2015)
	C, D etc. papers with teaching weeks of 17 weeks or longer	5.00pm on the second Friday of the relevant teaching period

Where subjects provide for different levels of proficiency on first enrolment (eg Mathematics, languages), a

- (2) student may apply to transfer, with a transfer of fees, from one paper to a closely related paper in the same subject up until the relevant deadline for withdrawal listed in section 13 of these regulations.

13. Withdrawal from papers (without a refund of the tuition fee)

Unless exceptional circumstances apply (as provided for under section 14 of these regulations), a student who

- (1) withdraws from a paper after the deadline for deletion (see section 12 of these regulations) is not entitled to a refund of the fees for that paper; if the fees have not been paid, the student remains liable for them.

An application to withdraw from a pre-degree or undergraduate paper (0, 100, 200, 300, or 400 levels and Faculty of Education 700 level) after the deadline for deletion (see section 12 of these regulations) must be submitted to the Faculty or School of Studies by the following dates:

	Type of paper	Deadline
(2)	Summer School 1 and 2 papers and C, D etc. papers with teaching periods shorter than 17 weeks	5.00pm on the first Friday of the relevant teaching period
	Semester A and full-year papers	5.00pm on the sixth Friday of semester A (10 April 2015)
	Semester B papers	5.00pm on the sixth Friday of semester B (21 August 2015)
	C, D etc. papers with teaching weeks of 17 weeks or longer	5.00pm on the sixth Friday of the relevant teaching period

- (3) A student may withdraw from a graduate paper (500 or 700 level, excluding Faculty of Education 700 level) after the deadline for deletion (see section 12 of these regulations) at any time before the start of the examination or, if the paper is internally assessed, at any time before the due date for the final item of assessment.

14. Late deletion or withdrawal under exceptional circumstances

Note: *Part 4 of the [Assessment Regulations 2014](#) sets out the University's provisions for special consideration in assessment. Students considering withdrawal from papers because of exceptional circumstances beyond their control are encouraged to seek advice first from their Faculty or School of Study, or from the Assessment and Graduation Office in the Gateway, about whether they might be entitled to special consideration under the [Assessment Regulations 2014](#).*

- If, after the deadline for deletion or withdrawal, a student considers that he or she is unable to complete a
- (1) paper because of exceptional circumstances beyond his or her control, the student may apply in writing to the Head of Student and Academic Services for late deletion or withdrawal.
 - (2) The application must be submitted to the Head of Student and Academic Services and must include an account, with appropriate evidence if available, of the circumstances that prompted the application.
 - (3) Applications under this section are considered and decided by the Head of Student and Academic Services.
 - (4) If the application is approved, the Head of Student and Academic Services may also approve, at his or her discretion, a credit of some or all of the student's fees.

15. Appeals

- (1) A student may appeal against any decision taken under these regulations.
An appeal, comprising a written statement of the circumstances of the appeal, and supporting evidence if available, must be submitted in writing to the Head of Student and Academic Services not more than seven
- (2) days after the date on which the student receives notification of the relevant decision. Late appeals may be accepted at the discretion of the Head of Student and Academic Services.
- (3) Appeals under this section are considered and decided by the Deputy Vice-Chancellor, or his nominee, by delegated authority of the Academic Board.
- (4) A decision by the Deputy Vice-Chancellor is notified in writing and is final.

Regulations Governing Payment of Fees and Charges

Fees and Charges Payable

A student is deemed enrolled and liable for payment of fees upon signing and acceptance of an Enrolment

1. Agreement, Notification of Change, or other document(s) by which acceptance into a paper or papers is formally agreed.
Every person must pay fees and charges (as set out in the [Table of Fees and Charges](#) in the University of Waikato Calendar) according to arrangements and terms agreed at the time of enrolment in the Enrolment Agreement or Notification of Change.
2. Students who do not attend a paper in which they have formally accepted a place will be liable for payment of the fees for that paper, unless the withdrawal procedures as detailed in the [Change of Enrolment Regulations 2012](#) are followed.
3. Unless the Chief Financial Officer determines otherwise, where a student defaults on a payment and does not pay the outstanding amount within 28 days of the due date that student's enrolment will be cancelled.
4. Cancellation of a student's enrolment does not discharge any outstanding debt.
5. Unless special arrangements are agreed by the Chief Financial Officer, the following penalties apply in addition to the cancellation of the student's enrolment while a debt remains outstanding:
 - (a) the student is not entitled to use the Library, attend lectures, participate in laboratory classes, or otherwise make use of university facilities
 - (b) the student's academic results are withheld

- (c) the student may not re-enrol at this university
 - (d) the student is not entitled to have his or her academic record transferred to any other institution
 - (e) the award of any qualification is deferred
 - (f) the student's outstanding debt may be referred to a debt recovery agency for collection. The University also reserves the right to recover any additional costs in relation to this debt collection from the student.
7. A student whose enrolment is cancelled for reasons of non-payment of fees may subsequently apply for reinstatement of enrolment, provided
- (a) the application is submitted to the Chief Financial Officer within four weeks of the date of the cancellation
 - (b) all outstanding fees, charges, and surcharges are paid before or at the time that the application is submitted, and
 - (c) the service charge for the reinstatement of enrolment after cancellation, as prescribed in the [Table of Fees and Charges](#), is paid.
8. An enrolment that is reinstated under this section is deemed to have been continuous.
The tuition and resource fees for a particular paper fall due on the payment date for the semester in which
9. teaching for that paper starts, or, where beginning outside of these semesters, the first day of the teaching period of the particular paper.

Payment by Semester

10. These provisions for payment of tuition and resource fees by semester do not apply to students who pay by Student Loan.
11. Unless the tuition and resource fees are being paid by Student Loan, a student who enrolls for more than one semester may elect to pay tuition and resource fees by semester.
12. Payment dates are prescribed for each of the semesters, namely the S (Summer School 1) semester, A semester and B semester.
13. The tuition and resource fees for a particular paper fall due on the payment date for the semester in which teaching for that paper starts.
Students who have made arrangements to pay by semester and who discontinue any of their papers remain liable
14. for all payments as they fall due, unless they submit an application to delete the relevant paper by the prescribed deadline (see the [Change of Enrolment Regulations 2012](#)).
15. All fees and charges other than tuition and resource fees fall due as part of the students' first payment.
16. A surcharge of 10% or \$100, whichever is lower, will be levied on any fees that are outstanding at the start date of the semester. This applies to Summer School 1, A and B Semester start dates respectively.

Appeals

17. A student may appeal to the Vice-Chancellor against any decision by the Chief Financial Officer under these regulations.

Admission

All students are required to meet the entry requirements for admission, as set out in the [Admission Statute 2014](#). Applicants whose first language is not English are also required to provide satisfactory evidence of English language proficiency, generally in the form of an IELTS or TOEFL examination score, as set out in the [English Language Requirements for Admission](#). Scores can vary according to the qualification sought

International students must apply for admission either online at www.waikato.ac.nz/study/enrol or on the Application to enrol form for new international students, available online at www.waikato.ac.nz/international.

Permanent residents of Australia and New Zealand, Australian citizens, and students from the Cook Islands, Tokelau or Niue who are New Zealand citizens, are treated as New Zealand students and do not need to apply for admission as international students. Enquiries should be directed to the Student Centre.

Please note that to be eligible for domestic tuition fees, permanent residents and citizens of Australia must be living in New Zealand for the duration of the study. Information is available from the [Tertiary Education Commission](#).

All international students enrolling in an undergraduate programme must hold as a minimum requirement, an equivalent university entrance qualification; for example, three passes at grade C or better in the GCE 'A' level examinations. Students who have achieved an equivalent to New Zealand University Entrance through a qualification other than NCEA at Level 3 will have their admission assessed on a case by case basis.¹ Please contact the Student and Academic Services Division for detailed guidelines on admission to the University of Waikato.

- Many of the degrees offered at the University of Waikato have prerequisites on their core papers. Applicants who have not achieved specified prerequisites through their study will be required to take additional papers or*
1. *foundation courses in order to satisfy these prerequisites. Applicants in this situation are advised that not all papers may count towards the completion of the degree and that the programme may take an additional period of time.*

Code of Practice

The University of Waikato has agreed to observe and be bound by the *Code of Practice for the Pastoral Care of International Students*. Copies of the Code are available from the New Zealand Qualifications Authority website <http://www.nzqa.govt.nz/providers-partners/caring-for-international-students/>. Students should refer to the Code of Practice for their specified responsibilities and to the International Student Handbook or this Calendar for University procedures and recommendations.

Pre-paid Tuition Fees Policy

As indicated above, international students are required to pay their tuition fees to the University of Waikato as a pre-lodgement requirement for their student visa application. These funds are held against the student's name until they complete their enrolment in person. This policy details the process for refunding these funds if (i) the student travels to New Zealand and does not complete their enrolment, or (ii) completes the first semester of study and does not enrol in the second semester of study and they have a student visa valid for one year.

- (2) Students are required to supply a verified copy of their passport and student visa, and a copy of their University of Waikato receipt(s) with their application for a refund.
- (3) The University of Waikato will notify INZ that the student has not fulfilled the obligations of their visa by completing their enrolment at the University of Waikato.

- Where a student wishes to attend another institution in New Zealand, the University of Waikato will transfer the pre-paid tuition fees to that institution, upon written confirmation from that institution of the student's intention to study. This should be in the form of a formal letter of offer or invoice which confirms the student's acceptance
- (4) into a qualification. If the student has already paid their tuition fees at the other institution, the University of Waikato will refund the pre-paid tuition fees to the student, upon written confirmation from the other institution that the fees have been paid. It is the student's responsibility to provide the necessary documentation from the other institution.

- (5) Where a student will be returning to their home country, the funds will be refunded in one of two ways:
 - (a) an overseas bank draft sent to the overseas address provided by the student
 - (b) if it is known that the pre-paid tuition fees have been paid by a third party, the refund may be paid back to that third party.
- (6) Where a student is wishing to remain in New Zealand without enrolling at an educational institution, the University of Waikato will refund these funds either
 - (a) upon evidence of a valid INZ visa to remain in New Zealand, or
 - (b) confirmation that INZ has discharged the University of Waikato's duty under the original student visa.
- (7) If a programme of study is cancelled by the University of Waikato, a full refund of pre-paid tuition fees will be made to the student by bank draft.

International Students Refund Administration Charge

International students who withdraw their application or their enrolment before the start date of their programme will receive a 100 percent refund of pre-paid tuition fees less a \$500 Administration Fee. Students who withdraw their application or their enrolment after the start date of their programme but during the period for deletion of papers (refer to Clause 12 of the [Change of Enrolment Regulations 2012](#)), will receive a 100 percent refund of pre-paid tuition fees less a \$2,000 Administration Fee.

Compulsory Medical and Travel Insurance

International students (including group students) must have appropriate and current medical and travel insurance while studying in New Zealand, as stated in the *Code of Practice for the Pastoral Care of International Students*. Under the Immigration New Zealand Policy, this must be at least for the duration of your student visa. Enrolment is dependent on proof of appropriate insurance. To simplify the process of selecting insurance, the University has selected Studentsafe-University (underwritten by Allianz New Zealand) as the preferred insurance policy for all international students. The Studentsafe-University insurance premium will be added to tuition fees at the time of enrolment, resulting in international students being automatically enrolled in the Studentsafe-University insurance scheme. This premium will not be charged if evidence of an alternative compliant insurance policy is provided to the University before the specified deadline (please note there are only a small number of approved alternative compliant policies). For further information please refer to the website <http://www.waikato.ac.nz/students/international>.

Eligibility for Health Services

Most international students are not entitled to publicly funded health services while in New Zealand. If you receive medical treatment during your visit, you may be liable for the full costs of that treatment. Full details on entitlements to publicly funded health services are available through the Ministry of Health, and can be viewed on the website <http://www.health.govt.nz>. The Accident Compensation Corporation provides accident insurance for all New Zealand citizens, residents and temporary visitors to New Zealand, but you may still be liable for all other medical and related costs. Further information can be viewed on the ACC website www.acc.co.nz.

New Zealand Government Scholarships

The New Zealand Aid Programme (NZAP) is the New Zealand Government's International Aid and Development Programme managed by the Ministry of Foreign Affairs and Trade. Education is vital to the New Zealand Aid Programme's mission of supporting sustainable development in order to reduce poverty and contribute to a more secure, equitable and prosperous world. Scholarships are available to citizens from selected developing countries to undertake vocational training or tertiary level study in their home country, in New Zealand, or in the Pacific region. These scholarships enhance the skills, training and knowledge of individuals, and build their capacity to contribute to the sustainable development of key areas in their home country. The eligibility criteria and application process can be found on: <http://www.aid.govt.nz/home>.

New Zealand International Doctoral Research Scholarships (NZIDRS) are funded by the New Zealand Government and administered by Education New Zealand. NZIDRS are open to all countries and entitlements include tuition fees and living allowances. Scholarships are awarded on the basis of academic merit. Further information can be found on the website <http://educationnz.govt.nz/how-we-work/scholarships/nzidrs>.

Student Exchanges between the University of Waikato and Partner Institutions

Communications and External Relations (CER) administers the University's international student exchange programmes and is the central resource of promotional material from partner universities from around the world. Domestic and international students of good academic standing and a minimum grade average of B (GPA:5) may

apply for exchange which would usually be taken after completion of the equivalent of at least two semesters of full-time degree-level study at the University of Waikato. Students may not go on exchange to their home country. Exchange students are expected to be positive ambassadors for the University of Waikato and New Zealand. With prior approval, study completed at the partner University will be credited towards students' University of Waikato qualifications, although this cannot be guaranteed in advance. Further information and the closing dates for exchange applications can be obtained from the Exchange Co-ordinator (CER), Level 1 SUB, Hamilton Campus, or the website <http://www.waikato.ac.nz/students/international/studentexchange>

Strategic Alliances, International Partnerships and Agreements

The University is a forward-looking, innovative institution that welcomes strategic alliances, international partnerships, and agreements. Consideration is given to international institutions that match the University of Waikato profile in terms of reputation, academic standing, and research output.

All proposals for University to University linkages should be discussed in the first instance with the Pro-Vice Chancellor International. Proposals for guaranteed credit agreements need submission of full documentation to Student & Faculty Academic Services, which will refer them to the appropriate academic authority for approval. Partnership proposals are welcome and will be explored on a case by case basis. Memorandums of Understanding should also be submitted as proposals to Student & Faculty Academic Services, which will refer them to the appropriate authority.

Overseas visitors are welcome. Prospective visitors should contact the Communications and External Relations (CER) with full background information about their proposed visit. CER will assist in arranging an itinerary which meets both the visitors' and the University of Waikato's needs.

Intermediate Programmes for Other Universities

Intermediate programmes for entry to the following professional courses at other universities may be taken at the University of Waikato: Engineering (Canterbury), Forestry Science (Canterbury), and Surveying (Otago). Details of requirements are available from the Student and Academic Services Division of this University. Students who wish to take intermediate programmes (except Engineering) for the purpose of applying for admission to professional courses at other universities should ensure that they obtain up-to-date information and approval from the appropriate university for their first year papers at the University of Waikato. Engineering intermediate students do not require such approval unless they wish to take a modified intermediate programme.

In some instances, direct entry to the professional course or exemption from certain papers may be available to candidates with high results in NCEA at Level 3. Enquiries regarding this should be made to the Dean of the Faculty of Science and Engineering prior to enrolment.

Ethical Conduct in Human Research and Related Activities Regulations

Preamble

Any member of the University community who participates in research and specified related activities is required to conduct the research and/or related activities in a manner that conforms with ethical standards set down by the University, by relevant national and international professional bodies, and by the law of the country in which the research is undertaken.

These regulations apply specifically to the following activities: research, teaching, consulting, evaluation, and publications which involve collecting data about and from people and organisations. These regulations also apply to any research where there are ethical issues that are not addressed by the Animal Ethics Committee [Code of Ethical Conduct for the Use of Animals for Research, Testing and Teaching](#) .

Students are referred also to the University's [Student Discipline Regulations 2014](#) in this Calendar and the [Higher Degrees Handbook](#) , as amended from time to time, and the [Guidelines for Professional Practice and Community Contact in the Conduct of University Research or Related Activities](#)  (see Appendix 1 to these regulations).

Staff are referred also to the University's [Staff Code of Conduct](#).

Students and staff are also referred to the resources on [Ethical Conduct in Research and Related Activities](#), available from the [Research & Enterprise Office](#).

Ethical Conduct in Human Research and Related Activities Regulations

1. Title

These are the Ethical Conduct in Human Research and Related Activities Regulations 2008.

2. Purpose

Ethical issues arise when University research and/or related activities involve the interests and rights of others. The purpose of these regulations is to facilitate ethical conduct which respects the rights of people, communities, companies, trusts, and other organisations. These regulations explain the standards of ethical conduct and the procedures that apply for the maintenance and monitoring of these standards. All applications to the University's human research ethics review committees will be reviewed for approval on the basis of their compliance with these regulations.

3. Date of effect

These regulations are effective from 1 July 2008.

4. Scope

- (1) These regulations apply to all
 - (a) staff of the University of Waikato
 - (b) students of the University of Waikato, and
 - (c) any other person authorised to undertake research and/or a related activity on behalf of the University of Waikato, including those employed or contracted in wholly-owned subsidiary entities.
- (2) Research collaborators or partners are expected to apply for approval of their research and/or related activities from their organisation and must also apply to the relevant University of Waikato Faculty or School of Studies or department committee.
- (3) Under these regulations, all research and/or related activities are required to have formal ethics review and approval.
- (4) Applications for approval are not required for normal teaching activities; but are required for specific teaching that involves the participation of a student or students and has the potential for harm (see section 13 of these regulations), or that involves collection of data from students.
- (5) Applications are not required for University teaching evaluations or for University reviews and quality assurance activities; however, such activities do have ethical implications and should be conducted in a professional way consistent with the University *Staff Code of Conduct* and should be consistent with the spirit of these regulations.

5. Definitions

In these regulations

research means an inquiry of an investigative, experimental, or critical nature which is driven by a question, hypothesis, or intellectual position capable of rigorous assessment, and the findings of which are open to scrutiny and formal evaluation. It may include any intellectual or creative work published, exhibited, presented, or performed in a written, spoken, electronic, broadcasting, visual, performance, or other medium

related activities may include teaching, consulting, evaluation, and publication when these activities involve collecting data about and from people and organisations. These activities are defined as follows:

teaching means teaching in lectures, tutorials, demonstrations, and related educational research

consulting means the provision of advice to a client, such advice being based upon the pre-existing professional knowledge and skills of the consultant

evaluation means the systematic collection and analysis of information to make judgements, usually about the effectiveness, efficiency, and/or appropriateness of the research and/or related activity

publication means any intellectual or creative work published, exhibited, presented, or performed in a written, spoken, electronic, broadcasting, visual, performance, or other medium

participant means a live human being or group of live human beings who participate in research and/or related activities whether by observation, questioning, participation in an experiment, provision of specimens or human tissue samples, or by any other means

organisation means a social unit of people systematically arranged and managed to meet a need or to pursue collective goals on a continuing basis. Examples include firms, iwi groupings, schools, and professional societies

researcher means the person undertaking research and/or related activities

harm includes physical, psychological, social, economic, or cultural harm to participants

field research means research conducted in person in a natural setting outside of a laboratory.

6. Application procedures

- (1) A staff member, student, or authorised person must not commence research or a related activity until it has been approved by the appropriate authority and in accordance with these regulations.
- (2) Researchers must submit applications for approval for their research or related activity to one of the delegated Faculty or School of Studies or department committees (see section 22 of and Appendix 2 to these regulations) within the University.
- (3) Where applications are made to an external ethics committee, an application must also be submitted to, and approved by, the relevant delegated committee within the University (see section 22(3) of and Appendix 5 to these regulations).
- (4) Applications for approval of research and/or related activities must be submitted in the form prescribed for the relevant Faculty, School of Studies, department, or unit (see Appendix 3 to these regulations).
- (5) If an ethical issue relating to the research and/or related activity that was not envisaged at the beginning arises during its course, the researcher must stop the research and/or related activity, consult the appropriate authority, and apply for approval. The researcher must not begin the research and/or related activity again until the necessary approval has been obtained.
- (6) For situations where prior, free, express, and informed consent from participants may not be possible, see sections 10 and 11 of these regulations for guidance in making application for approval of the research or a related activity.

7. Responsibility for ethics in research and related activities

- (1) Individual staff, students, and authorised persons are responsible for ensuring their research and/or related activities comply with these regulations.
- (2) If a researcher is a student, the staff member responsible for supervising the student's research must take all reasonable steps to ensure that the student complies with these regulations.
- (3) Paper convenors may apply for ethics approval for an entire paper if it involves students in that paper engaging in research or related activities. Such applications must cover all anticipated research or related activities the student may engage in, and the convenor's, lecturers' and/or tutors' responsibilities. Applications must identify ethical issues and describe practices for addressing them.

8. Value of research or related activities and the public interest

- (1) A researcher must be able to justify to his or her peers the goals and methodology of the research and/or related activity in terms of its reasonably anticipated benefits balanced against any foreseeable risk of harm to the participants.
- (2) A researcher must normally make available the findings of research in the public domain. Any exception to this must be approved in writing by the Deputy Vice-Chancellor, or by a person to whom authority is delegated in writing by the Deputy Vice-Chancellor (see section 10(7) and section 14 of the [Dissertations and Theses Regulations 2014](#)).

9. Informed consent of participants

- (1) Researchers must gain participants' prior, free, express, and informed consent in a culturally and socially appropriate manner, unless in the case of approved exceptions. For proxy consent from authorised representatives, see subsection (4)(e) and (4)(f) of this section of these regulations. Exceptions regarding large sample surveys and similar research methods, some cases of field research, and the possibility of gaining informed consent after data collection are dealt with in sections 10, 11 and 14 of these regulations.
- (2) A researcher must establish explicit processes for reaching agreement with participants. A researcher must not involve a participant in any research and/or related activities unless the researcher is satisfied that the participant has understood the nature of his or her involvement and freely agreed to it in accordance with the principles outlined in this section.
- (3) A researcher must not use explicit or implicit coercion to obtain the agreement, and must not use inducement to obtain the agreement except in accordance with section 18 of these regulations.
- (4) Unless sections 10, 11 or 14 of these regulations apply, a researcher must adhere to the following principles with respect to informed consent of participants:
 - (a) A researcher must inform prospective participants of all information relevant to the decision to participate including
 - (i) their right to decline to participate in the research and/or related activities or any portion or any part of these

- (ii) the form in which the findings will be published
 - (iii) duration and security of data storage
 - (iv) their right to withdraw any information they have provided up until analysis has commenced on their data
 - (v) their right to access and correct personal information
 - (vi) the process for withdrawing information they have provided.
- (b) The more readily identifiable the participants may be, the more formal the consent should be. Where participants are asked to answer questionnaires that might identify them, answer questions in a formal interview, undergo formal tests, or where they are subjected to formal observation and recording procedures, the process for obtaining informed consent, and the form of the consent, should be similarly formal and recorded in writing or some other reproducible form. Where the participation is more anonymous the consent may be less personalised and less explicit (see section 10 of these regulations).
- (c) If the research or related activity involves manipulation of, or intervention in, the physical or psychological state of a participant, the participant's consent, or, if subsection (e) of this section applies, the consent of the person with authorised responsibility for the participant, must be recorded in writing or some other reproducible form.
- (d) Because some research and/or related activities involve collectives, a researcher must recognise the complexities of relationships between individuals and collectives. In some cultures it is common for the leader of a collective to make a decision in respect of participation on behalf of its members. If an individual in a collective wishes to participate or not to participate in the research and/or related activity, regardless of a decision taken on behalf of the collective, the individual's wishes must be respected and all reasonable care taken to ensure that those wishes are also respected by other members of the collective.
- (e) If a prospective participant is reasonably judged incapable of giving informed consent, the researcher must obtain the proxy consent from the person who has responsibility for the prospective participant's welfare, taking particular care to protect the participant's interests and also taking into account any potential conflict of interest between him or her and the person whose consent is required.
- (f) A researcher who seeks the proxy consent of another person on behalf of a prospective participant under subsection (e) of this section must make all reasonable effort to involve the prospective participant him or herself in the process and the decision about consent.
- (g) Staff, students, and other approved persons must obtain informed consent when recording images of participants, participants' possessions, or research and/or related activity in which participants are involved, unless the recording of images is of lawful activity occurring in a public place and is culturally appropriate.
- (h) A researcher must provide the information under subsection (a) of this section plainly and in the language and medium that is appropriate for the prospective participants.
- (i) A researcher must inform participants of their right of access to any data that may have been collected from or about them.
- (j) A researcher must inform participants of their right to complain about the conduct of the research and/or related activity and must also inform them of the process for making a complaint.

10. Large random sample surveys and informed consent

- (1) A researcher who intends to collect data involving large numbers of people is not required to adhere to all the principles concerning informed consent outlined in section 9(4) of these regulations if the research method makes adherence to all these principles impractical or undesirable and if such a requirement is likely to impact adversely on the researcher's ability to generate reliable information.
- (2) However, the researcher must declare and justify an intention not to adhere to the principles in section 9(4) of these regulations in the application for approval submitted under section 6 of these regulations.
- (3) In these situations the researcher must provide the following information, as a minimum, to a participant before the research or related activity begins
- (a) the anticipated length of the research or related activity
 - (b) the general purpose of the research or related activity
 - (c) the forms in which the data might be published
 - (d) an assurance that the participant will not be identified in any publication or dissemination of research findings.

11. Field research and informed consent

- (1) 'Field' research in this context means research conducted in person in a natural setting outside of a laboratory.
- (2) In field research situations, prior, free, express, and informed consent must be gained in a culturally and socially appropriate manner from participants.
- (3) In some forms of field research using such methods as participant observation, participatory research and action research, where obtaining prior, free, express, and informed consent from all participants would be inappropriately intrusive or impractical for social, cultural, or methodological reasons, it is acceptable not to gain such consent.
- (4) However, the researcher must take care to apply other ethical principles, especially minimising the risk of harm to participants and maintaining the anonymity of participants. It may also be appropriate in such cases that informed consent be sought afterwards but prior to the publication of research findings, from people who have in the course of information collection come to the attention of the researcher.

12. Archiving of data, privacy, storage, and use of information

- (1) All non-identifying data (eg data sets and transcripts) used for publication must be securely kept long enough to allow for academic examination, challenge, or peer review. This period would normally be at least five years. Identifying data such as consent forms, photographs, and videos will be securely stored consistent with agreements made under section 9(4)(a) of these regulations. The responsibility for data storage lies with the department or other equivalent academic unit.
- (2) Where the research and/or related activity is conducted in New Zealand, the researcher must comply with the Privacy Act 1993 and the Official Information Act 1982, and must adhere to the following principles consistent with that legislation
 - (a) participants and informants must not be publicly identified or identifiable without their explicit consent
 - (b) participants must be informed (unless sections 10, 11 and 14 of these regulations apply) that they will not be identified in any publication or dissemination of the research findings without their explicit consent
 - (c) researchers must take all reasonable precautions to prevent unauthorised use, access, modification, or disclosure of personal information
 - (d) data identifying participants must not be kept for longer than required for the purpose for which it is collected (see subsection (1) of this section)
 - (e) except in circumstances specified in the relevant legislation, personal information may be used only for the purpose for which it is collected.
- (3) Where the research and/or related activity is conducted in a country other than New Zealand, the researcher must comply with any legislation that applies in that country with respect to privacy and storage of personal information.
- (4) Even where the research and/or related activity is conducted in a country other than New Zealand, the researcher must comply as far as possible with the spirit of the Privacy Act 1993 and the Official Information Act 1982; however, if there are contradictions between the legislation of New Zealand and the other country, the legislation of the other country must prevail.
- (5) A researcher must include in an application submitted under section 4(3) of these regulations a statement about the conditions under which, and the period for which, any personal information collected for the research and/or related activity is to be stored.
- (6) Data must not be made available to persons or for purposes that are not named on the application.

13. Minimisation of harm

- (1) A researcher must make particular effort to identify physical, psychological, social, economic, or cultural harm to participants before seeking their consent to participation.
- (2) A researcher must minimise both the risk of harm to a participant and the potential for negative consequences of the harm.
- (3) 'Harm' in this context includes pain, stress, emotional distress, fatigue, embarrassment, and exploitation.
- (4) Unless it would be impractical or undesirable to do so in the terms described in section 10 of these regulations, a researcher must consult participants to ascertain any risk of harm that they themselves may identify or concerns that they themselves may have.
- (5) If, during the course of the research and/or related activity, it is apparent to the researcher that the risk of harm to the participant is greater than originally envisaged, the researcher must inform the participant and re-evaluate the research and/or related activity in terms of the principles outlined in this section.

14. Limitation of deception

- (1) Deception of participants conflicts with the principle of informed consent, but in some research and/or related

activities it may be necessary to withhold information about the purpose of the research and/or related activity or the procedures involved.

- (2) Research and/or related activities involving deception of participants will be approved only if the researcher demonstrates in the application for ethics review that the deception is absolutely essential to the goals of the research and/or related activity.
- (3) A researcher who undertakes research and/or related activities involving deception of a participant must ensure that the participant is provided with an explanation of the true purpose of the research and/or related activity and the reason for the deception as soon as practicable after the participation.

15. **Social and cultural sensitivity**

- (1) A researcher must respect the cultural, social, and language preferences and sensitivities of the participant.
- (2) Where the research and/or related activity potentially affects individuals or groups who are significantly different in culture from the researcher, the researcher must consult an appropriate person before the research and/or related activity begins about appropriate cultural procedures and approaches to the research and/or related activity and about informing the participant or community concerned of the research findings.
- (3) An application for ethics review under these regulations must demonstrate how the researcher has responded to the advice received from the person consulted.
- (4) Appropriate consultation and subsequent responses on matters of social and cultural sensitivity are the responsibility of the researcher.

16. **Exploitation of relationships**

- (1) A researcher must not exploit the relationship between researcher and participant.
- (2) A researcher must resist any initiative by a participant to exploit the relationship between researcher and participant.
- (3) 'Exploitation' in this context means the seeking or obtaining of money, goods, services, favours, information or relationships that have no direct bearing on the stated research and/or related activity aims or data gathering.
- (4) Where a researcher is a staff member and the prospective participant a student, the researcher must not exploit that relationship and must strive to ensure that the student is not disadvantaged through his or her participation or refusal to participate, academically, professionally, or otherwise.

17. **Respect for property rights**

- (1) A researcher must ensure that procedures or publications associated with the research and/or related activity do not infringe legally determined property rights.
- (2) A researcher must ensure that procedures or publications associated with the research and/or related activity do not infringe culturally determined property rights to the extent possible and reasonable in all circumstances.
- (3) Property rights in this context may apply to land, goods, works of art and craft, images, and intangible materials such as spiritual treasures, music, information, and intellectual property (see Appendix 4 of these regulations).
- (4) A researcher must identify and address any issues associated with property rights and ownership of data at the time he or she seeks informed consent and monitor these issues throughout the research process.

18. **Payment for participation**

A researcher must not pay participants for their participation, or arrange for participants to be paid, in money, goods, services, prizes, favours, or in any other form of remuneration or form of hospitality appropriate to the engagement, either directly or indirectly, unless the payment is approved by the appropriate approving authority (see section 22 of and Appendix 2 to these regulations).

19. **Professional codes of ethics**

A researcher must ensure that his or her research or related activity complies with any professional code of ethical practice or standard relevant to the research and/or related activity.

20. **University research and/or related activities in schools and early childhood services**

A researcher involved in research and/or related activities in schools or early childhood services must comply with the [Guidelines for Observation and Research in Schools and Early Childhood Services](#)  (see Appendix 5 to these regulations).

21. **Declaration of potential conflict of interest**

- (1) A researcher must, in an application submitted under section 4 of these regulations, declare any potential conflict of interest.
- (2) 'Conflict of interest' occurs where a researcher or related party is, or is reasonably likely to
 - (a) obtain an unfair, inappropriate, or unethical professional, commercial, or personal advantage as a result of

or in connection with the research and/or related activity

- (b) be in a position in relation to the activity or the participants that could appear to affect the researcher's impartiality in the research and/or related activity;
- (c) obtain a direct or indirect pecuniary benefit or interest as a result of or in connection with the research or related activity.

(3) If the research and/or related activity is commissioned or sponsored, the researcher must ensure that the commission or the sponsorship

- (a) is declared to the participants and in any published findings
- (b) does not compromise the standard or ethics of the research and/or related activity.

22. Authority for ethical approval and monitoring

 - (b) if an examination was prescribed, does not undertake the examination.
- (4) An IC annotation is treated as a fail grade.
- (5) A “ ... ” annotation is used on students’ academic records for theses and papers that may be undertaken over more than one year, and indicates that the enrolment is continuing into a subsequent year.
- (6) A restricted pass (“RP”) grade may be awarded at the discretion of a Board of Examiners or delegated authority for a paper in which the student has achieved
 - (a) borderline performance, or
 - (b) a D grade compensated by overall good performance in the relevant subject or the relevant subject and closely related subjects.

Note: A paper for which a Restricted Pass (RP) has been awarded will not be accepted as meeting the prerequisite requirements for any other paper unless the Dean of the Faculty or School of Studies in which the other paper is offered approves otherwise.

- (7) The NC annotation means “No Credit” and indicates that credit for the paper has been refused as a direct consequence of a finding of misconduct.

21. Conceded credit

 - (a) undertaken the required number of papers for the degree,
 - (b) passed all compulsory papers, and
 - (c) passed all papers required for the major, specified programme or stream,but who has narrowly failed one paper in the final year.
- (2) The award of a conceded credit is based on the candidate’s performance in the bachelors degree as a whole as well as the paper in question.
- (3) The conceded credit is attached to the degree as a whole (and does not affect the fail grade in the paper in question).
- (4) A student may be awarded one conceded credit only in a bachelors degree.

22. Notification of confirmed grades

Confirmed grades are published confidentially, using individual student identity numbers, by noticeboard and/or iWaikato (internet).

Policy on the Use of Māori for Assessment

Statement of Principle

1. In recognition of the status of the Māori language as a tāonga protected under the Treaty of Waitangi, and within the spirit of the Māori Language Act 1987, the University of Waikato endorses the right of its students to use the Māori language in written work for assessment within the University.
2. In keeping with the above and in accordance with its Charter commitments the University seeks to have sufficient suitable staff employed or available throughout its Faculties, Schools of Studies and Departments to ensure that any work submitted in Māori would be assessed in that language by staff competent in the subject under examination and in the Māori language.
3. In the meantime, the use of the Māori language in assessment is subject to conditions set out in this policy statement.

Exceptions

4. There are occasions when, due to the nature of the skills being tested, work submitted for assessment may be required to be in a particular language. In such cases that requirement shall be made explicit in writing, either in the relevant subject entry or prescription in the University of Waikato Calendar or in the paper outline distributed to candidates at the beginning of a paper.

Notice

5. Candidates who intend to present all or part of an examination or piece of internally assessed work in Māori are requested to give notice of their intention of doing so in writing to the Head of Student and Academic Services. This notice of intention is desirable to allow the University the time and opportunity to make proper arrangements for marking including, when necessary, translation and external assessment. If less than 14 days'

notice is given, the material presented in Māori will still be accepted. The processing of it may, however, be delayed and the opportunity to have the script marked in the original language may be reduced.

6. Where a candidate who intends to present material in Māori has given the requested notice of intention, he or she will be informed as soon as reasonably possible, as to whether or not the assessment will be based on translation.

Potential for Delays

7. The University will do its best to make the results of an examination or item of internally assessed work presented in Māori available to the candidate within the ordinary time-frame. However the process of assessment in such cases, possibly including translation, may result in delays in the return of coursework or in the publication of results.

Māori-speaking Paper Examiners

8. The examination or internally assessed work will be assessed in Māori by the examiner for the paper if the examiner is considered by the Professor of Reo and Tikanga or his or her nominee to be linguistically competent to do so.

Co-examiners

9. If the examiner of the relevant paper is not competent to assess in Māori, a co-examiner, competent in both the subject under examination and in Māori, may be appointed to conduct the assessment of work presented in Māori in consultation with the examiner.

Translation

10. If no person is available in the circumstances to assess the work in Māori, a translator will be appointed by the Professor of Reo and Tikanga or nominee in agreement with the appropriate chief examiner. The translator will be asked not to correct errors in the original nor to make any embellishments; however, ambiguities may be pointed out to the examiner. Where necessary the examiner may seek clarification of the translation of the paper from the translator but contact between the student and the translator is prohibited, as is contact between the student and the examiner. The assessment will then be carried out by the examiner of the paper on the basis of the translation.

The University intends that resort to translation be made only when reasonable efforts to find an examiner capable of assessing the work in its original language have been exhausted.

11. In the process of appointing a translator, the University will take all reasonable steps to ensure that the translator is competent in the relevant subject under examination, as well as in the Māori language.

External Assessment

12. If the internal assessment and/or examination script is to be subject to external assessment, the other institution undertaking the external assessment will be requested to indicate whether an external assessor is available to conduct the assessment in Māori. If not, a translation will be obtained for the purpose by the University according to the process explained in sections 10 and 11 of these regulations.

Return of Scripts

13. When any translation is relied upon in the assessment of an examination, a candidate making proper application for the return of a script shall also receive any translation made of the script. When assessed coursework is normally returned to the student, any translation used is likewise to be returned.

Appeals and Reconsiderations

14. An appeal against a decision regarding linguistic or subject competence made under the provisions of sections 8 and 11 of these regulations shall be to the appropriate Pro Vice-Chancellor whose decision shall be final.
15. The regulatory provisions for reconsideration of final grade together with the established appeal provisions will apply, with the addition that the Māori Language Commission is regarded by the Council as the final authority on the accuracy of a translation.

Oral Work

16. The details of this policy apply to written internally assessed work and to examinations. When oral work is assessable, the same principles should apply; however, practicalities may necessitate more restricted policy details, such as a requirement on the candidate to give longer notice or a limitation on the use of Māori where oral work involves interaction with other candidates.

Personal Programmes of Study Regulations

These regulations apply to candidates beginning their studies in 2014. Candidates who first enrolled in a qualification prior to 2014 are eligible to complete that qualification either under the regulations which applied at the time of first enrolment or the regulations which apply at the time of re-enrolment. Candidates who are resuming their studies for a qualification after an extended absence are advised to consult the Dean of the Faculty or School of Studies concerned at the time of re-enrolment regarding the requirements for completion. However, where there have been significant changes in the structure of a qualification or content of the major or specified programme during the candidate's absence, the Dean may prescribe a specific programme of study which will be deemed to satisfy the requirements for completion of the qualification.

1. Title

These are the Personal Programmes of Study Regulations 2012.

2. Date of effect

These regulations are effective from 1 January 2013.

3. Delegation of powers

The powers and authority of the Academic Board referred to in these regulations have been delegated in certain matters under the [Delegation of Powers Statute 2014](#).

4. Definitions

In these regulations

paper means a segment of work in a particular subject and is identified by means of a unique code number.

Papers are delivered through lectures, tutorials, practicals and such other coursework as may be required by the department concerned.

programme of study means the selection of papers taken by a candidate in any one academic year for a

particular qualification.

equivalent papers are in effect the same papers, one of which was taught in the past with a different paper code. **restricted papers** share a significant amount of common content. Candidates may therefore receive credit for only one of the papers listed. Restricted papers may not necessarily be used to satisfy prerequisite or corequisite requirements.

a prerequisite must be passed before a candidate may enrol in the paper for which the prerequisite is specified. (A paper for which a Restricted Pass (RP) has been awarded will not be accepted as meeting the prerequisite requirements for any other paper unless the Dean of the Faculty or School of Studies in which the other paper is offered approves otherwise).

a corequisite must be taken either prior to or concurrently with the paper for which the corequisite is specified.

internal assessment means all or some of the following: essays, assignments and reports of various kinds, practical work, work in tutorials and/or seminars and tests.

a **field** means a general area of academic study that includes a number of related subjects.

a subject is a grouping of papers with a common academic theme, defined in terms of the listings under individual subject headings in the University of Waikato Calendar. A department may offer more than one subject.

a major means a principal area of study a candidate has chosen for a bachelors degree and is selected from those listed in the relevant degree regulations. A candidate is required to take a defined and substantial number of papers in the major at a range of levels up to and including 300 or 400 level.

a supporting subject means an additional subject to the major and is a requirement of some bachelors degrees.

a specialisation means a recognised pathway within a qualification or major which provides an area of focus within the qualification or major.

points is the term used to express the student workload of a paper or programme. A normal full-time academic year comprises 120 points or 1.0 EFTS (Equivalent Full-time Student).

5. Application

These regulations apply to undergraduate certificates, undergraduate diplomas, bachelors degrees, bachelors with honours degrees, graduate certificates, graduate diplomas, postgraduate certificates, postgraduate diplomas, masters degrees and individual paper credits.

6. Admission and re-entry

(1) In order to be eligible to be enrolled at the University of Waikato, candidates must meet the requirements of Section 224 of the Education Amendment Act 1990.

(2) The criteria for admission to the University of Waikato in a given year are determined by the Council and are set out in the [Admission Statute 2008](#).

(3) The criteria for admission to a particular qualification in a given year are determined by the Academic Board and are set out in the [Criteria for Admission to Particular Qualifications](#) and the qualification regulations.

To ensure that a candidate is adequately prepared for a graduate qualification, the Academic Board will require (4) relevant papers in the relevant subject or subjects of the qualifying bachelors degree to have been passed at grades which it deems appropriate.

Candidates are usually required to have majored in their bachelors degree in the main subject to be presented (5) for a graduate degree. This requirement may be waived in cases where no more than one or two papers in a given subject are proposed to be incorporated into the candidate's graduate degree.

In exceptional circumstances, based on academic merit, candidates who have no more than 30 points left to complete the requirements of a qualifying degree may be permitted to enrol in a graduate degree, provided that (6) they have completed all of the requirements of the major or main subject of the qualifying degree. The graduate degree will not be deemed to have been completed until the qualifying degree has also been completed.

(7) The Academic Board may approve limitations on enrolment for programmes or papers due to insufficiency of staffing or resources. Limitations and the criteria for selection are published in the [Limitations Statute](#).

(8) A candidate who has been awarded a particular qualification in one major or subject may only be re-admitted to the same qualification in another major or subject.

(9) The criteria for re-entry for returning students are determined by the Academic Board and are set out in Part 3 of the [Criteria for Admission to Particular Qualifications](#).

(10) In addition, the Academic Board may decline to re-enrol a candidate whose progress during the preceding year or years has not been to the satisfaction of the Academic Board.

7. Enrolment in a programme of study

The Academic Board may prescribe qualifying or additional papers which must be passed by a candidate either

- (1) prior to, or concurrently with, the minimum requirements for a qualification. Qualifying or additional papers may be required if the candidate is considered by the Academic Board to be inadequately prepared in a core subject area.
- (2) Enrolment in a programme of study or paper is subject to the approval of the Academic Board. Such approval will be determined on the basis of the candidate's academic background as well as staffing and resources.
- (3) The personal programme of study of every candidate is subject to the approval of the Academic Board. The papers for qualifications and their prescriptions are defined in the University of Waikato Calendar. Before
- (4) enrolling for a paper, candidates must meet any requirements specified in the relevant prescription unless approved otherwise by the Academic Board.
- (5) Particular regulations governing qualifications may be varied or waived by approval of the Academic Board.

8. **Maximum student workload**

- (1) The normal maximum full-time student workload for an academic year (excluding Summer School) is 120 points.
- (2) For the purposes of calculating workload, a full-year paper has a workload equivalent to half of its points value during each of the two semesters in which it is taught.
- (3) The normal maximum full-time student workload for a Summer School semester is 40 points.
- (4) Approval of the Academic Board is required for a candidate to enrol in a programme of study which has a workload equivalent to more than the normal maximum full-time workload.

9. **Completion of a qualification**

- (1) The minimum requirements for the completion of a qualification are defined in the relevant regulations. With the approval of the Academic Board, a candidate may be permitted to complete the requirements of a qualification in less than the minimum period of enrolment prescribed in the relevant regulations. Approval will
- (2) depend on the candidate's academic record and on the availability of suitable teaching and supervision arrangements.

10. **Eligibility for Honours or Distinction**

In order to qualify for Honours or Distinction in a particular qualification, a candidate may be required to complete the requirements within a prescribed time period of first enrolling for the qualification.

11. **Dissertations and theses**

The *Dissertations and Theses Regulations 2014* governing the presentation of dissertations and theses apply

- (1) in these regulations and any dissertation or thesis required for a graduate qualification must be presented in accordance with these regulations.
- (2) Enrolment in a dissertation or thesis, or a qualification which requires the completion of a dissertation or thesis, is subject to the availability of a suitable supervisor for the dissertation or thesis.
For dissertations and theses, one or more supervisors will be appointed by the Academic Board. If the chief
- (3) supervisor is also an examiner of the dissertation or thesis, at least one other examiner (who is not also a supervisor) will be appointed.
A dissertation or thesis must embody the results obtained by the candidate in an investigation relating to some branch of the subject or subjects being presented, or, with the approval of the Academic Board, shall take
- (4) some other form proposed by the candidate's supervisors and approved by the Dean(s) and Chairperson(s) of department(s) concerned. The chief supervisor or sole supervisor will be required to certify that the dissertation or thesis embodies the candidate's own work carried out under the supervisor's direct supervision.
- (5) Dissertations and theses are assessed in terms of the points value they represent.

12. **Date for submission of dissertations, theses and research reports**

The deadline for the submission of any dissertation, thesis or research report will be 4.00pm on the last

- (1) working day of the paper occurrence which completes the candidate's enrolment in the total points required for the dissertation, thesis or research report.
Candidates who expect that they will not submit their dissertation, thesis or research report by the due date may apply to the Dean or the appropriate staff member(s) with delegated responsibility for Graduate Studies of the Faculty or School of Studies in which they are enrolled for an extension of time without the requirement for re-enrolment, provided that the application for an extension is lodged prior to the deadline for submission.
- (2) Extensions will not normally be awarded for periods of more than 21 days beyond the relevant due date.
Candidates who do not submit their dissertation, thesis or research report by the due date, and who have not applied for and been awarded an extension, will be required to re-enrol for a minimum period to be determined
- (3) by the Dean or the appropriate staff member(s) with delegated responsibility for Graduate Studies of the

Faculty or School of Studies in which they are enrolled and will be liable for a further payment of tuition and any other fees and charges for the period of re-enrolment.

13. Resubmission of dissertations and theses

A dissertation or thesis for a graduate qualification that receives a narrow fail may be returned to the candidate with the offer of an opportunity to revise and re-submit. The decision to offer such an opportunity is at the

- (1) discretion of the Dean of the Faculty or School of Studies that offers the degree, and is based on a number of factors, including the likelihood that the revision will be successful, and the availability of suitable supervisors and examiners.

An offer by a Dean under subsection 13(1) of these regulations will be in writing, and any conditions attached to the offer will be explicit. The period allowed for the revision will be no more than the equivalent of one

- (2) semester and the deadline for submission will be prescribed. If the offer to revise and submit is accepted, the candidate will be eligible to receive a maximum grade of C and, in the case of a masters degree, will not be eligible for the award of Honours.

A candidate's acceptance of an offer to revise and re-submit and associated conditions must be in writing. The candidate must then re-enrol for the equivalent of one semester and pay fees accordingly. For administrative and fees purposes, the candidate will enrol for the particular enrolment period in which the deadline for re-submission falls.

- (3) A 'provisional fail' is recorded against the first dissertation or thesis enrolment for the period of revision. The
- (4) 'provisional fail' grade is replaced by a final grade (either a fail grade or a C grade, depending on the outcome), after the revision and re-examination processes are concluded.

- (5) The opportunity to revise and re-submit a particular dissertation or thesis may be offered to a candidate only once.

14. Credit - transfer credit and cross credit

- (1) **Transfer credit** means credit towards a University of Waikato qualification for papers passed at another tertiary institution.

- (2) **Cross credit** means credit towards a University of Waikato qualification for papers passed towards another University of Waikato qualification.

- (3) A candidate who has passed papers at an appropriate level at the University of Waikato or another tertiary institution may apply for credit in respect of those papers towards a University of Waikato qualification.

- (4) Applications for credit must be submitted on the prescribed form, together with the prescribed fee, to the Credit Office.

Applications for credit from another institution must be accompanied by a verified copy of an academic record.

- (5) If the original document is not in English, the academic record must be accompanied by an official English translation of the record. The University reserves the right to request an original copy of an academic record.

- (6) The policy on the level and amount of credit which may be awarded from a completed qualification is determined by the Academic Board and is set out below:

(a) Credit from a completed qualification is normally only available towards a bachelors degree.

(b) Credit is not normally awarded from a completed graduate or postgraduate qualification.

(c) Credit from a completed qualification will normally be limited to no more than one third of the completed qualification.

Credit towards a University of Waikato bachelors degree from a completed qualification will normally be limited to no more than one third of the University of Waikato degree. For the purposes of this regulation,

(d) one third of a bachelors degree is considered to be 120 points at 100 and 200 levels, including a maximum of 60 points at 200 level. Where appropriate, the Dean may, at his or her discretion, permit 20 further points at 100 or 200 level to be credited towards a four-year bachelors degree where the Dean deems a paper to be relevant to the candidate's programme of study.

(e) Credit will not normally be awarded for 300 or 400 level papers required for a major in an undergraduate degree.

(f) No paper may count towards more than two qualifications.

- (7) The decision to award credit in individual cases will be made by the Dean of the Faculty or School of Studies concerned.

In making decisions on credit, the Dean will consider the relevance and level of the papers completed, the

- (8) regulations of the University of Waikato qualification concerned, and the credit guidelines maintained by the Student and Academic Services Division.

Regardless of the total number of papers which an applicant has passed at other institutions, the total credit (9) awarded will not be more than half of the total requirement of the University of Waikato qualification concerned, unless this is approved under subsections 14(10) or 14(11) of these regulations.

(10) In individual cases, the Dean or delegated authority may vary subsection 14(9) of these regulations and award credit for up to two thirds of the University of Waikato qualification concerned.

(11) In individual cases, the Education Committee, under delegated authority of the Academic Board, may award credit for more than two thirds of a University of Waikato qualification, or for more than half of an undergraduate degree that includes 300 and/or 400 level papers for a major.

(12) Applicants wishing to appeal a Dean's decision on credit may apply to the Head of the Student and Academic Services Division.

The consideration of an appeal will involve the Dean concerned being requested to reconsider the decision.

(13) Further appeals against the outcome of a reconsideration will be referred to the Education Committee for consideration on behalf of the Academic Board.

15. **Completion of a University of Waikato qualification at another New Zealand university**

A candidate who, based on the assessment of the Dean of the candidate's Faculty or School of Studies, has completed the major part of a qualification at the University of Waikato and then moved to another district may, in some cases, complete the University of Waikato qualification by taking the remaining papers at another university in New Zealand. Prior approval of the specific papers, in writing, must be obtained from the Head of the Student and Academic Services Division of this University and the prescribed charge paid. The candidate must advise the Registrar of the other university of the purpose of the enrolment and the papers concerned must be taken on a Certificate of Proficiency (COP) basis at that university. The candidate's academic record will not be transferred.

16. **Completion of a qualification of another New Zealand university at the University of Waikato**

A candidate who has completed the major part of a qualification at another New Zealand university may, in some cases, be permitted by that university to complete the qualification by passing specified papers at the University of Waikato. Any such approval must be given in writing by the 'home' university and the candidate will take the papers concerned on an Individual Paper Credit (IPC) basis at the University of Waikato. The candidate's academic record will not be transferred.

Specialisations

Specialisations provide you with another opportunity to shape your qualification to your interests and needs. They can be used to broaden your knowledge, allow you to focus on an aspect related to your first major, or perhaps provide some cohesion to your elective papers in an area of interest to you. Specialisations meet all of the requirements for a qualification but provide for further specialisation in or beyond the major (bachelors degree), subject (honours or masters degree, graduate certificate, graduate diploma, postgraduate certificate, or postgraduate diploma) or field (undergraduate certificate or undergraduate diploma).

For more information and advice on how a specialisation might fit into your programme of study, talk to a Student Adviser in your Faculty or School of Studies.

Specialisations at degree level

Specialisations at degree level allow students to include complementary study within their overall programme of study. For example, including a language specialisation in a Bachelor of Tourism degree creates a specialised programme in the area of international tourism.

Specialisations available at degree level are:

Advanced Pedagogy

Agribusiness

Chinese Language

Creative Writing

BEd

BBA(Fin), BCMS, BMS, BSc and BSc(Tech)

BA, BBA(Fin), BCS, BECom, BMS, BSocSc and BTour

BA and BMCT

Events Management	BCS, BMS, BSpLS, BTour
French Language	BA, BBA(Fin), BCS, BECom, BMS, BSocSc and BTour
German Language	BA, BBA(Fin), BCS, BECom, BMS, BSocSc and BTour
Health Communication	BCS, BMS
Management Education Abroad	BBA(Fin), BCS, BECom, BMS and BTour
Japanese Language	BA, BBA(Fin), BCS, BECom, BMS, BSocSc and BTour
Māori, Pacific and Indigenous Tourism	BTour
Science International	BSc and BSc(Tech)
Spanish Language	BA, BBA(Fin), BCS, BECom, BMS, BSocSc and BTour
Te Pūtaiao me ngā Take Māori	BSc and BSc(Tech)
Te Reo Māori Language	BBA(Fin), BCS, BECom, BMS and BTour
Technology	BEEd

Specialisations at major or subject level

Specialisations at major or subject level allow students to focus in depth on a particular aspect of that subject. For example, within a Sport and Leisure Studies major, specialisations in Applied Movement Sciences, Movement Cultures, or People, Movement and Professional Practices are available.

Specialisations available at major or subject level are listed under the subject entries in this Calendar.

Specialisations at field level

Specialisations at field level allow students to focus in depth on a particular aspect of that field. For example, within a Diploma of Management, specialisations in Electronic Commerce, Financial Analysis, or Management Studies are available.

Specialisations available at field level are:

Electronic Commerce	Cert(Mgt) and Dip(Mgt)
Financial Analysis	Cert(Mgt) and Dip(Mgt)
Hospitality Management	Dip(Tour)
Management Studies	Cert(Mgt) and Dip(Mgt)
Tourism Management	Dip(Tour)

Enrolment for Individual Paper Credit (IPC)

Students may be permitted to enrol in a paper without enrolling for a particular qualification. This may be because they have no intention of completing a full qualification, or because the paper is being taken for the purposes of qualifying for admission to a specific qualification. Alternatively, the student may be taking the paper for credit towards a qualification at another institution. Enrolments of this nature are recorded as Individual Paper Credit (IPC) enrolments.

Regulations Governing Enrolment for Individual Paper Credit (IPC)

1. A candidate who enrolls on an IPC basis is liable for all fees and charges prescribed for the paper(s) and must meet any requirements specified in the prescription and paper outline.
2. Enrolment on an IPC basis is subject to the approval of the Dean of the Faculty or School of Studies in which the paper is offered.
3. A candidate who has passed a paper taken on an IPC basis may, at a later date, apply to have the paper credited to a University of Waikato qualification. Approval will be based on the regulations for the qualification concerned.
4. A student enrolled on an IPC basis is subject to all general regulations of the University of Waikato.
5. A candidate who completes a paper on an IPC basis will receive official notification of his or her final results from the University of Waikato, and will be eligible to apply for an academic transcript.

Prescriptions for Papers

The following page contains a brief introduction to the subjects and papers offered by the University. Subjects are set out in alphabetical order. A brief description may be given of the content of each paper as well as equivalents and restrictions, prerequisites and corequisites, required book information, and the internal assessment/examination ratio. Students also receive a paper outline when classes start, which provides more detail about the content, reading and assessment requirements for each paper.

In addition to the papers listed, departments may offer 800 and 900 level papers for MPhil and PhD students. Prospective students are advised to consult the Postgraduate Studies Office and the Chairperson of the Department concerned for more information.

The prescriptions refer to the papers which the University expects to offer. The availability of these papers is subject to change if the University encounters unexpected staffing or resource difficulties. For up-to-date details of 2015 offerings, see the online Catalogue of Papers at papers.waikato.ac.nz.

In all cases where it is necessary to cancel papers, the Policy and Procedure for the Cancellation of Papers will apply, as approved by the Academic Board. Copies are available from the Student and Academic Services Division.

In the prescriptions, each paper is identified by an alpha-numeric code.

For example:

HIST107-15B (HAM)	<i>New Zealand Histories: Fresh Perspectives</i>
HIST	This is the subject code. In this case, History.
107	This is the level of the paper, followed by a unique identifier. 100 = 100 level 200 = 200 level 300 = 300 level
15B	This is the year and semester in which the paper is taught.
(HAM)	This is the location where the paper is taught.

A **prerequisite** must be passed before a student may enrol in the paper for which the prerequisite is specified. For example, FREN231 *French Language Intermediate 1* is a prerequisite for FREN232 *French Language Intermediate 2*. Students may not enrol in FREN232 until they have passed FREN231. (A paper for which a Restricted Pass (RP) has been awarded will not be accepted as meeting the prerequisite requirements for any other paper unless the Dean or Director of the Faculty or School of Studies in which the other paper is offered approves otherwise.)

A **corequisite** must be taken in association with the paper for which the corequisite is specified. For example ENEL324 *Optoelectronics* is a corequisite for ENEL382 *High Speed Communications*. You may enrol in ENEL382 only if you have either already passed ENEL324 or are concurrently enrolled in it.

Equivalent papers are in effect the same papers, one of which was taught in the past with a different paper code. For example ACCT331 *Management Accounting* is equivalent to ACCT311 *Management Accounting*. Students who have completed ACCT311 may not receive credit for ACCT331.

Restricted papers share a significant amount of common content. Students may therefore receive credit for only one of the papers listed. For example JAPA101 *Basic Japanese: Part A* is a restriction for JAPA231 *Japanese for Beginners 2: Part A*. Restricted papers may not be used to satisfy prerequisite or corequisite requirements.

The **required books** which may be listed under some of the prescriptions are a conservative list only. Additional required books may be prescribed during the academic year. Lists of recommended reading are usually included in the paper outline provided by the department concerned.

The **internal assessment/examination ratio** is provided for all papers. The ratio indicates how much of the paper is internally assessed and how much is formally examined. The ratio 1:0 means a paper is fully internally assessed, while the ratio 1:1 shows that the assessment for the paper is evenly weighted between internal assessment and an examination. Examinations are scheduled in a formal examination period. All A semester papers which are not fully internally assessed will be examined at mid-year unless otherwise specified. Tests that form part of the internal assessment requirements may be held outside normal lecture hours.

Teaching activities for all undergraduate papers are listed in the Timetable. Teaching activities, including lectures, tutorials, laboratories and workshops, are scheduled to last 50 minutes and begin on the hour until (and including) 12 noon, and at 10 minutes past the hour from 1:10 p.m. This allows a lunch break of 20 minutes from 12:50 p.m. to 1:10 p.m. for students with continuous teaching activity commitments. Normal teaching hours are between 8.00 a.m. and 6.00 p.m.

A **semester** is a period for which students enrol in papers, attend classes and submit assessment items. The University of Waikato has two standard semesters (A and B), which each normally comprise 17 weeks. There are also two intensive summer semesters - Summer School 1 (S semester), normally comprising eight weeks in January/February, and Summer School 2 (T semester), normally comprising six weeks in November/December. The semester period includes teaching as well as any study weeks and an examination period. The exact duration of semesters in a particular year is defined by week numbers in the [Teaching and Assessment Periods](#).

2015: A semester, weeks 10-26
B semester, weeks 29-45
S semester, weeks 2-7
T semester, weeks 46-51

Y semester, weeks 10-45

Some papers have start and end dates which differ from the standard semesters set out above. Papers which extend across both the A and B semesters are annotated as Y papers. Papers which are taught in non-standard periods have a C, D, or E etc. suffix.

The period for which a student is eligible for loans and/or allowances, is calculated on the basis of the exact start and end weeks of papers. Students are advised of the start and end dates of their papers in the relevant paper outlines.

Preamble

At the time they enrol, students are required to sign a Student Declaration agreeing to abide by the regulations of the University of Waikato as published in the University of Waikato Calendar. The Student Discipline Regulations provide the framework for addressing alleged breaches of University regulations by students and for applying penalties where breaches are substantiated.

Members of the University community are entitled to operate and interact in an environment of safety and respect. It is expected that students will act with integrity and demonstrate respect for others.

If differences and disputes arise between members of the University community, it is expected that they will attempt to resolve such conflicts reasonably and co-operatively. Formal procedures should be used only where other methods of resolving conflicts have been ineffective or would be inappropriate.

It is the policy of the University that all discipline procedures conform to the principles of natural justice. The

procedures in these regulations have been adopted to safeguard the rights of individuals in this respect.

Student Discipline Regulations 2014

Part 1 General

1. Title

These are the Student Discipline Regulations 2014.

2. Purpose

The purpose of these regulations is to

- (a) define student misconduct
- (b) explain procedures for making, investigating and resolving complaints of student misconduct, and
- (c) set out the penalties that may be applied where misconduct by a student is substantiated.

3. Date of effect

These regulations are effective from 4 March 2014.

4. Definitions

In these regulations

natural justice means the right to have a decision made by an unbiased decision-maker who observes fair and impartial procedures

student means a student enrolled at the University of Waikato

summary jurisdiction means a process for dealing with a complaint of misconduct, where a designated person has authority, individually, to obtain and hear evidence, arrive at a judgement and, within the terms of that authority as defined in these regulations, impose a penalty

 - (b) in the context of a University activity
 - (c) where the conduct is related directly to the student's status as a student, or
 - (d) where the conduct has the potential to harm unfairly the reputation of the University.
- (3) For the purpose of these regulations, the period during which a student is deemed to be enrolled as a student is defined as the period in a given year from (inclusively) the Monday of the start week of the paper in the student's programme of study that starts earliest in that year, to the Sunday of the end week of the paper that ends last.
- (4) 'Start week' and 'end week' in subsection (3) are defined for Student Loans and Allowances purposes.
- (5) The processes for dealing with complaints of misconduct may extend beyond the period defined in subsection (3).

 - (h) exclude the student from, or limit access to, a designated part or facility of the relevant hall for up to one year.
- (10) Where a student accused of misconduct in a hall chooses to have the matter referred to the Residents' Discipline Committee, the committee must convene as soon as practicable to hear
- (a) the evidence provided by the complainant and the student, and
 - (b) any other evidence, written or oral, that the Residents' Discipline Committee may seek or accept at its discretion, provided that this evidence is disclosed to the student and he or she is given the opportunity to comment on it.
- (11) Written notice of the time, date and place of the hearing of the Residents' Discipline Committee, together with full details of the substance of the complaint, must be sent to the student against whom the complaint has been made at least seven days before the date of the hearing.
- (12) The student answering the complaint may write an answer to the complaint.

- (16) The Head of Student and Academic Services must exercise his or her jurisdiction in the matter as expeditiously as possible.
- (17) The outcome must be communicated to the complainant and the student as expeditiously as possible.

22. Authority of the Vice-Chancellor

- (1) The Vice-Chancellor may exclude a student from the University, or limit access to any designated part, system or facility of the University, if the student has been convicted of a criminal offence and if, in the Vice-Chancellor's judgement, the nature of the offence impinges detrimentally on the University or its staff or

students.

- (2) Whether or not there has been a formal complaint of misconduct, the Vice-Chancellor may, on suspicion of possible misconduct, initiate an investigation of the conduct of a student. Any investigation under this section and any procedure related to that investigation must be consistent with these regulations.
- (3) If, having regard to the security of University property or the best interests of students and staff, the Vice-Chancellor is satisfied that the nature of a complaint is sufficiently serious, the Vice-Chancellor may suspend the student to whom the complaint relates from attendance at any class or programme, or from the campus, until the complaint has been investigated and settled.

23. Authority of Council to withdraw or refuse to grant an academic award

- (1) Council may withdraw or refuse to grant an academic award if it is satisfied that the candidate was guilty of misconduct in relation to the award while enrolled, or otherwise dishonest in relation to the award.
- (2) Council must consult with the Academic Board before taking a decision under this section; the advice of the Academic Board must be based on a recommendation from the Student Discipline Committee.

- (4) The Academic Board must make all reasonable effort to ensure that the candidate concerned receives prior notification of the advice that it intends to give to Council and is given an opportunity to make a written submission directly to Council.
- (5) Council may determine its own procedures for considering a matter under this section provided they conform with the principles of natural justice.
- (6) A decision by Council under this section is final.

24. Annotation of academic records and grades

 - (d) that significant new evidence has become available that could not have been reasonably obtained and presented during the initial process and that could have a material effect on the decision made.
- (5) The Council delegates authority to hear and decide appeals on its behalf to the Student Discipline Appeals Committee, which comprise:
 - (a) two members appointed by and from Council, and

Student Complaints Procedures

Preamble

Consistent with its commitment to excellence, the University has adopted these procedures to assist both students and staff in the resolution of student concerns and complaints constructively, quickly and fairly.

Where minor concerns arise, students are encouraged to take a common-sense approach and raise them directly with the relevant staff, with the aim of resolving them at the lowest possible level and without undue formality. However, where informal discussions have not yielded a satisfactory resolution, or where the matter is more serious, the following procedures provide for a more formal process to be pursued.

Complaints considered through these procedures will be monitored and reviewed to enable the University to continually improve processes and services in support of student learning.

Student and staff rights and responsibilities in relation to these procedures are set out in the appendix.

Procedures

1. Definitions

In these procedures

complaint means a written statement submitted by a student about a matter that requires formal consideration and resolution by the University in the terms set out in these procedures

natural justice means the right to have a decision made by an unbiased decision-maker who observes fair and

impartial procedures.

2. Application and scope

- (1) Subject to subsection (2), these procedures apply to complaints about any aspect of the teaching and learning process and the broad provision made by the University to support that process.
- (2) These procedures may not be used
 - (a) where the complaint can be dealt with under the [Student Discipline Regulations 2014](#) or the [Assessment Regulations 2014](#), or
 - (b) to challenge the academic judgement of examiners.
- (3) Depending on the nature of the complaint, these procedures should be read in conjunction with the [Staff Code of Conduct](#), the [Code of Ethics for Academic Staff](#), and/or the [Code of Practice for the Pastoral Care of International Students](#).
- (4) No action will be taken on malicious or anonymous complaints.
- (5) A complainant must be able to demonstrate that the complaint is brought without malice and is based on evidence that the complainant honestly and reasonably believes to be substantially true. Those responsible for resolving complaints under these procedures must take all reasonable steps to ensure that the complainant is protected against any subsequent recrimination or victimisation.
- (6) Students and staff involved in the consideration and resolution of concerns and complaints have various rights and responsibilities, which are outlined in the appendix to these procedures.

3. Informal resolution of concerns

- (1) Before making formal written complaints, students are encouraged to seek a resolution to any concerns by raising and discussing them informally with the relevant staff member who is most directly associated with the matter.
- (2) A staff member with whom a concern is raised by a student is expected to deal with the matter in an open and professional manner and to take reasonable and prompt action to try to resolve it informally.
- (3) A student who is uncertain about how to seek informal resolution of a concern is encouraged to seek advice from the Group Manager, Student Support Services on 07 856 2889 Ext. 5199 or the Waikato Student Union Advocacy Officer.

4. Formal complaints procedures

- (1) Where it has not been possible to resolve a concern informally, a student may make a formal complaint.
- (2) A student who wishes to make a formal complaint must submit it in writing, on the prescribed form (available online at www.waikato.ac.nz/sasd/files/docs/complaintform.doc ) , to the Dean or Head, or equivalent, who is responsible for the action or matter that has given rise to the complaint.
- (3) The written complaint must be submitted within three months after the occurrence of the action or matter that has given rise to the complaint, unless the Dean or Head, or equivalent, agrees to receive it beyond this timeframe.
- (4) If the complainant prefers not to address the complaint to the person recommended in subsection (2) it may be addressed to the Deputy Vice-Chancellor, who will address the complaint and make a decision in accordance with these procedures.
- (5) A Dean or Head, or equivalent, who receives a student complaint must acknowledge it in writing within three working days. He or she must also lodge the complaint in the relevant Division, Faculty or School of Studies complaints register, using the student ID number as identifier (rather than the student's name), and must maintain a file of all documentation in relation to the consideration of the complaint.
- (6) The Dean or Head, or equivalent, must ensure that any staff member named in the complaint receives a copy as soon as practicable.
- (7) The Dean or Head, or equivalent, must consider the complaint in accordance with the principles of natural justice, and must ensure that all parties to the complaint are accorded the full benefit of those principles.
- (8) The process may include meetings with relevant staff and/or the complainant. Where meetings are held, the parties may, if they wish, be accompanied by a peer support person.

5. Resolution of complaints

- (1) The Dean or Head, or equivalent, must make a decision in relation to the complaint and must notify his or her decision to the parties, in writing, within 28 days of receiving the complaint.
- (2) If the complaint involves a university process or service and if, in the opinion of the relevant Dean or Head, or equivalent, the complaint has substance, the Dean or Head, or equivalent, must arrange for the relevant process or service to be reviewed, with a view to preventing a recurrence and ensuring continued improvement.

6. Appeals

- (1) Any party to a student complaint who is dissatisfied with a decision by a Dean or Head, or equivalent, under these procedures may appeal to the Deputy Vice-Chancellor.
- (2) The appeal must be submitted in writing within 28 days of the letter notifying the decision.
- (3) The Deputy Vice-Chancellor will consider the relevant documentation and may, at his or her discretion, consult the Dean or Head, or equivalent, who made the decision. The Deputy Vice-Chancellor may also interview any parties to the complaint.
- (4) If he or she determines that the complaint process has been conducted in accordance with these procedures and the outcome is appropriate, the Deputy Vice-Chancellor may dismiss the appeal. Otherwise, he or she will decide the appeal in consultation with the relevant Dean or Head, or equivalent, and any other parties. Subject to subsections (6) and (7), the decision of the Deputy Vice-Chancellor under this section is final.
- (5) The Deputy Vice-Chancellor will notify his or her appeal decision in writing to the parties.
- (6) When he or she notifies the parties of the appeal decision, the Deputy Vice-Chancellor will inform the parties of the Ombudsman's role in relation to complaints about government organisations (including universities) that affect people in their personal capacities.
- (7) The Deputy Vice-Chancellor will also inform any staff members who are dissatisfied with a student complaint process of the steps available to them under the University's [Procedure for Resolving Employment Relationship Problems and Personal Grievances](#).
- (8) If the original complaint was addressed to the Deputy Vice-Chancellor under section 4(4), any appeal must be made to the Vice-Chancellor. That appeal will be considered and decided, in accordance with appeal processes consistent with those set out in these procedures, by a nominee of the Vice-Chancellor.

7. Confidentiality

All processes and decisions under these procedures are confidential to the parties and staff directly involved.

8. Annual report to the Academic Board

The Deputy Vice-Chancellor must submit an annual report to the Academic Board, including an overview of student complaints and decisions during the relevant year, together with any consequent recommendations with respect to the teaching and learning process and the provision made by the University to support that process.

- (3) If a password becomes insecure or potentially insecure, a user must, as soon as is practicable, implement a new secure password.
- (4) Users must not cause costs to be incurred
 - (i) by the University without the authority of a system manager, or
 - (ii) by any person or organisation without the consent of that person or organisation.
- (5) Unless they have the authorisation of a system manager, users must not
 - (i) do anything that damages, restricts, jeopardises, impairs or undermines the performance, usability, reliability, confidentiality or accessibility of any digital information system, program, or other stored information or data
 - (ii) access, read, alter, delete or in any other way interfere with, any information, data or files (including electronic mail) held by another person, or attempt to do any of these things, regardless of whether the operating system of the computer permits these acts.
- (6) Users must
 - (i) comply with any instruction by a system manager about the use of the University's computer system
 - (ii) respect the rights of other users with respect to access to computer systems and enjoyment of use

 - (iv) assist, encourage or conceal any unauthorised use, or attempt at unauthorised use, of any computer system.

6. **Use of licensed software**

- (1) Users must comply with the terms of any licence agreement between the University and any third party that governs the use of software.

- (3) Users must not make proprietary software available for use by any other organisation or individual without the authority of the software provider or a system manager.
- (4) A user who intends to distribute outside the University, in whole or in part, an application program containing embedded proprietary software, must first obtain the written permission of the software provider for each instance of distribution.

- (4) The University is not responsible for the content of, or events arising from, communications or interactions between users and others on internet sites where access is not controlled by the University.

8. **Personal use**

Users must not publish online information that is of a personal nature and unrelated to research or career as if it were part of any officially published information; personal information must include a disclaimer that makes clear its unofficial status.

9. **Requirements and authority of system managers**

- (1) System managers are responsible for maintaining security of the systems for which they are responsible, sufficient for authorised users to make effective use of the facilities on those systems and to maintain the integrity of their passwords and any other security mechanisms.

10. **Authority to issue standards**

- (1) The Head of Information and Technology Services has authority to determine and issue standards to ensure appropriate levels of performance, security, compatibility and legal compliance of computer systems.
- (2) Unless he or she judges it necessary to issue a particular standard urgently because of a serious and imminent threat to the operation or security of a computer system, the determination of a standard by the Head of Information and Technology Services is subject to consultation with the University's ICT Committee.
- (3) Where the Head of Information and Technology Services believes on reasonable grounds that a standard issued under this section has been breached, he or she may take any immediate action that he or she thinks appropriate to ensure that system performance, security, compatibility and legal compliance are protected; if he or she considers that the breach is sufficiently serious, the Head of Information and Technology Services may refer the matter to the Vice-Chancellor who may arrange for the matter to be dealt with in the terms provided under section 13(3) of these regulations.

11. **Disclosure of Information**

- (1) In order to exercise the authority provided under section 9 of these regulations, a system manager is entitled to access personal information about a user and the user's activities on the computer system if there are reasonable grounds for suspecting that the user may have breached these regulations.

12. **Complaints**

A dispute or complaint concerning any matter under these regulations may be referred to a system manager who will determine, on the evidence provided by the complainant and any other evidence that the system manager may obtain at his or her discretion, whether there has been a breach of these regulations.

13. **Breaches**

- (1) Where a system manager believes on reasonable grounds that a user has breached these regulations, such that the activities or rights of other users of a computer system or of the University are impeded or prejudiced, the system manager may

Library Regulations

1. Title

These are the Library Regulations 2007.

2. Purpose

These regulations provide a framework for use of the University Library and its resources.

3. Date of effect

These regulations are effective from 1 January 2008.

4. Definitions

In these regulations

library means the Central Library, the Teaching Resources Library and the Law Library, which together comprise the University Library

reader means all persons admitted to the Library under sections 7(1) and (2) of these regulations

item means all types of Library material including, but not limited to, books, journals, laptops and AV material

service desk means the desks situated in the Central and Teaching Resources Libraries.

5. General

(1) Admission to the Library is conditional on observance of these regulations and such directions as may be given from time to time by the University Librarian. All readers are presumed to know these regulations.

(2) All members of the Library staff are empowered to enforce these regulations.

(3) Any infringement of these regulations by a reader may lead to the suspension of her/his use of the Library at the discretion of the University Librarian, or, where appropriate, to disciplinary action under the [Student Discipline Regulations 2014](#).

6. Hours of opening

The Central Library, the Teaching Resources Library and the Law Library are open at the times shown on the Library website. Any variation from these times will be displayed by the entrances to the Central Library and the Teaching Resources Library, and on the [Library website](#).

7. Admission and borrowing

- (1) Borrowing facilities are available to members of the University Council; Honorary Doctors, staff, retired staff and enrolled students of the University; staff and students of other tertiary institutions with whom a reciprocal agreement is in place; and other people whose applications have been approved by the University Librarian. An annual registration fee may apply.
- (2) Other persons may be admitted to the Library for reference and private study in accordance with such arrangements as the University Librarian may, from time to time, determine.
- (3) All students register as borrowers for the current year at enrolment by obtaining a student identity card.
- (4) Library account notifications are sent by email. Changes of email and postal addresses must be notified immediately either via iWaikato or at a Service Desk. Failure to read email, or change email/postal addresses, will not be taken as an excuse for non-receipt of Library correspondence.
- (5) All readers may be required to produce a valid identity card or other identification, acceptable to the University Librarian, at any time when requested by the University Librarian.
- (6) No item may be borrowed from the Library without first having the loan properly recorded. An item to be borrowed must be presented, together with the borrower's University of Waikato identity card, at the Service Desk or self-issue unit. The due date of return for each item borrowed will be indicated and is available online via the reader's Library Account.
- (7) No item will be issued at the Service Desk within 15 minutes of closing time.
- (8) An item will not be issued in the name of another borrower. Any variation to this procedure requires the approval of the University Librarian.
- (9) A borrower shall be held responsible for any loss of, or damage to, an item while borrowed in her/his name and will be required to pay the cost of replacement or repair, together with any fines incurred before reporting the loss, and an administrative charge. This administrative charge will be made whether or not the item is subsequently found or returned. Loss or damage should be reported immediately to the Service Desk or by email to library@waikato.ac.nz . The University Librarian shall determine the amount to be paid.
- (10) At the discretion of the University Librarian a payment made for a lost item may be refunded if the item is subsequently found and returned to the Library.
- (11) Under no circumstances may an item be passed on to another borrower. Fines for resulting inability to respond to recall or overdue notices will be charged to the borrower in whose name the item is issued.
- (12) Items marked 'Not to be Borrowed' are for use in the Library and may not be taken from the Library.
- (13) Library items may be taken out of New Zealand only with the prior permission of the University Librarian. There are special procedures for university students living overseas.

8. Course reserves

Some items, because of heavy demand, are temporarily placed in a separate collection known as Course Reserve. Course Reserve items must be issued before being removed from the Course Reserve Collection. The period for which a Course Reserve item is available to any one borrower may be limited according to the demand for the item, and only one Course Reserve item may be borrowed at a time. A charge per hour or part thereof may be made for the late return of a Course Reserve.

9. Recalls and reserves

- (1) Borrowers may recall or reserve books which are on loan.
- (2) The number of active recalls or reserves that may be submitted by any one borrower will be at the discretion of the University Librarian.

10. Recall notices and fines

- (1) All items are subject to recall at any time and must be returned to the Library by the due date shown on the recall notice, whether this is sent by email, SMS txt or by post. Failure to respond to a recall notice by the due date shown incurs a fine for each item returned after this date, and an additional fine for each subsequent day. Other disciplinary action may also be taken against a borrower who fails to return an item ten days after the recall notice was first sent.
- (2) An item required simultaneously by a number of borrowers is issued for seven days only. If this item is kept beyond the due date of return, fines will be incurred.
- (3) A daily fine will be charged for any item, other than those referred to in sections 10(1) and (2) of these

regulations, which is retained beyond the due date of return. An item not returned within one calendar month of this date will be regarded as lost and the borrower will then be billed for the cost of the item, together with the fines incurred and an administrative charge. This administrative charge will be made whether or not the book is subsequently found or returned.

- (4) The Library is not obliged to notify a borrower when an item is overdue, and a fine will automatically be charged for each item which is retained beyond the due date of return, whether or not a notice has been sent.
- (5) Where fines or invoices remain unpaid, the penalties for non-payment, as set out in the [Regulations Governing Payment of Fees and Charges](#) in the University of Waikato Calendar, will be applied. In addition, Library services may be withheld.

11. **Electronic resources**

Electronic resources made available by the Library may be accessed only by staff and students of the University of Waikato. Students need to be enrolled in at least one paper during Semester or Summer School in order to access electronic resources. The period of access before and after a paper starts or finishes shall be determined by the University Librarian. The electronic resources may be used only for the purposes of research, teaching or private study. Commercial use, defined as use for the purposes of monetary reward (but excluding use in the course of research funded by a commercial organisation) is prohibited. Most electronic resources are subject to a License agreement signed by the Library on behalf of the University. There are limits on the amount of information which can be copied or downloaded. Systematic downloading of content is not allowed, including by software such as website crawlers, harvesters or offline browsers.

12. **Inter-library loan**

An item obtained on inter-library loan is subject to such special conditions as may be imposed by the lending library. A borrower not complying with these will have the privilege of using this service withdrawn.

13. **Conduct of readers**

- (1) Smoking is not permitted in the Library or on the balconies.
- (2) Eating and drinking are permitted in most areas of the Library but any food must be cold, drinks must be in closed containers and all rubbish must be placed in bins and any spills and crumbs cleaned up.
- (3) Discussion and conversation is not permitted in designated Quiet Areas.
- (4) Undue conversation or disturbance (including socialising, use of cell phones or video chat) in designated Study Areas is forbidden.
- (5) No reader shall behave in a noisy or disruptive manner in the Library. Verbal abuse or rude behaviour towards Library staff or other Library users will not be tolerated.
- (6) Places in the Library may not be reserved by leaving items or other articles on seats or reading desks. Such material may be removed by Library staff to the nearest Service Desk.
- (7) Readers shall, when so requested by a member of the Library staff, present for inspection their bags and personal belongings as they leave the Library.
- (8) Readers may be required to satisfy the Library staff that any item taken out of the Library has been properly issued, or is personal property.
- (9) Readers must not misuse, damage or remove any item of furniture or equipment belonging to the Library. Such conduct is regarded as a serious offence, and action may be taken under the [Student Discipline Regulations 2014](#).
- (10) Readers must not mark or in any way damage books belonging to the Library. Such conduct is regarded as a serious offence, and action may be taken under the [Student Discipline Regulations 2014](#).
- (11) The unauthorised removal of an item is regarded as a serious offence, and action may be taken under the [Student Discipline Regulations 2014](#).

14. **Fees, fines and administration costs**

The fees, fines and administration costs of the Library shall be determined from time to time under such arrangements as the University Council shall approve and shall be published annually in the [Table of Fees and Charges](#) section of the University of Waikato Calendar.

Parking and Traffic Regulations

1. Title

These are the Parking and Traffic Regulations 2005.

2. Date of effect

These regulations are effective from 1 January 2006.

3. Definitions

In these regulations

campus means the physical grounds occupied by the University of Waikato

parking attendant means any staff member authorised by the Head of Facilities Management to enforce these regulations.

4. Application

These regulations apply to the driving, riding and parking of vehicles and bicycles on campus, by staff, students and members of the public.

5. Access

(1) Prime access to buildings and other facilities is reserved for pedestrians and disabled persons in wheelchairs. Cyclists are therefore not permitted to ride on access-ways that are signposted, or recognised, as access-ways for pedestrian and wheelchair traffic.

(2) On pedestrian/cyclist dual use access-ways, cyclists must give priority and right of way to pedestrian and wheelchair traffic.

6. Safety and parking

(1) Drivers and cyclists must drive and ride safely at all times. They must obey all traffic and parking signs and markings. They must also comply with any directions given by parking attendants.

- (2) Except with the approval of a parking attendant, no person other than an authorised driver of a University service vehicle may drive, park or ride over a grassed area or footpath.
- (3) While the University makes reasonable provision for vehicle parking, it is under no obligation to make provision for the vehicles of all those wishing to park on the campus.
- (4) The University reserves the right to make a charge for parking facilities.
- (5) Motorcycles and motor scooters may be parked only in the areas signposted for motorcycles and motor scooters.
- (6) Bicycles may be parked only in cycle-racks or purpose-built cycle sheds, and must not be taken into any University building.
- (7) Vehicles owned by current University of Waikato employees and displaying a University parking permit may be parked in signposted 'Permit Holders Only' areas. Otherwise, vehicles may be parked only in 'General Parking' areas.
- (8) All vehicles parked on the campus must be parked in marked bays.
- (9) No person may park a vehicle in the same parking bay for longer than 48 hours without prior permission from a parking attendant.
- (10) A named car park may be used only by the person with the corresponding name or designation.

7. **Parking for people with mobility-related impairments**

Accessible parking spaces (outlined in yellow and displaying the wheelchair symbol) are provided for use by people with mobility-related impairments. These parking spaces may be used only by holders of Operation Mobility permits issued by the CCS or Temporary Mobility Parking Permits issued by the University's Disability Support Service (located at the Medical Centre).

8. **Authority of parking attendants and Security Manager**

- (1) A person who, in relation to a parking or traffic matter, is requested by a parking attendant to provide his or her name or address must do so honestly and within the requested timeframe.
- (2) Parking attendants have authority to issue infringement notices to people who breach these regulations and to immobilise their vehicles. A vehicle that has been immobilised will be released only on payment of the fee prescribed in the infringement notice, or on completion of an "Acknowledgement of Unpaid Fines" form.
- (3) Parking attendants have authority to impose a penalty charge on any person who removes or otherwise interferes with immobilisation equipment.
- (4) If a vehicle is parked in a manner that is dangerous or obstructs access, the Security Manager has authority to arrange for that vehicle to be towed away by a licensed vehicle recovery operator; the cost of retrieving a towed vehicle falls to the owner of the vehicle.

9. **Breaches**

- (1) At the discretion of the Security Manager, an alleged breach of these regulations by a student may be referred to the Vice-Chancellor for investigation under the University's [Student Discipline Regulations 2014](#).
- (2) At the discretion of the Security Manager, an alleged breach of these regulations by a staff member may be referred to the Vice-Chancellor for investigation under the University's [Staff Code of Conduct](#).
- (3) At the discretion of the Security Manager, an alleged breach of these regulations may be referred for investigation to the NZ Police.

10. **Appeals**

- (1) A person may appeal against any decision under these regulations
 - (a) if the decision was made by a parking attendant, to the Security Manager
 - (b) if the decision was made by the Security Manager, to the Head of Facilities Management.
- (2) An appeal under these regulations must be submitted in writing within 14 days of the date of the decision.
- (3) The decision of the Security Manager or the Head of Facilities Management under subsection (1) is final.

Student and Academic Services

Accommodation Services

Halls of Residence

The Accommodation and Conference Services Office assists students to find accommodation in the University's four Halls of Residences: Orchard Park, College Hall, Student Village, and Bryant Hall. Orchard Park is a series of cottages where students cater for themselves. The other Halls are fully-catered although they all have flats where self-catering accommodation is available.

Full details about the Halls of Residence can be obtained from the Accommodation and Conference Services Office. Applications, which can be made online, close on 1 October each year for the following year's accommodation. Late applications and applications made during the course of the year will be considered. Residence is for the duration of the academic year. A new application must be made if students wish to return to the Halls for the following year. A contingency deposit is required at the time of acceptance, and this is refunded, less any charges, at the end of the academic year.

Off-Campus Accommodation

The University owns a block of eight one-bedroom flats in Scotland Place (adjacent to the University) which are available to full-time graduate students. Further information concerning these flats may be obtained from the Accommodation Adviser, who is located in the Accommodation and Conference Services Office. The Accommodation

Adviser has information regarding other accommodation available in Hamilton, and is able to assist students to find private board, houses to rent, flatmates, or flats. The cost of full board in a private home is generally about \$140-\$150 per week around the University area, but can be less if situated further away. Flats and houses are listed in local newspapers and with rental agencies.

The Accommodation Adviser can provide printouts of all types of student housing available in the University area. The room rental cost of sharing a house or flat usually ranges between \$95 and \$105 per week per person.

To avoid major difficulties in finding accommodation, students are advised, if possible, to visit the University prior to the commencement of the academic year to discuss their needs with the Accommodation Adviser.

The Chaplains conduct services, take part in both formal and informal activities on campus, and are readily available to students and staff for counselling and pastoral care. The centre for chaplaincy activities is the Lady Goodfellow Chapel.

Students with Disability

The Disability Support Service works with the rest of the University to remove barriers to learning for students with disability, and to ensure students' learning requirements are being met through the provision of information, support, services and equipment. Prospective students with disability should contact the Disability Support Service well in advance of commencing their studies to ensure that the appropriate supports are able to be put in place. Staff travel to the Windermere campus to meet with Tauranga students on request.

Additional information about support and services is available from the Disability Support Service office in the Student Services Building. Telephone: (07) 838-4719, Facsimile: (07) 838-4282, Email: disability@waikato.ac.nz  or via the website www.waikato.ac.nz/disability.

form of a loan or emergency grant. A Special Assistance Fund may be available to provide grants and loans to students who can demonstrate particular need for assistance in meeting an unexpected cost as a result of their studies. Application forms are available from the Student Finance Adviser in the Accommodation and Conference Services Office.

Class Representative System

The University is committed to strong and effective representation from its students. Student representatives on University committees are either elected by their peers through the Class Representative System or appointed by their relevant faculty and/or subject committee members.

Class Representatives are elected to deal with minor academic matters which arise, and their role is to liaise between the students in the paper and the academic staff who are teaching the paper. They also have the opportunity to participate in the democratic processes of the University.

The Student Support Adviser provides training for Class Representatives and develops resources to assist them in fulfilling their roles. Institute of Professional Learning: Te Whai Toi Tangata

The Institute of Professional Learning (IPL) in the Faculty of Education provides professional learning and development in the broad field of education, both nationally and internationally. This involves both short and long term programmes in areas such as educational leadership, coaching and mentoring, curriculum development, assessment and evaluation, information technology and eLearning, adult education, pedagogy, and policy development. It offers professional learning and development from early childhood education, through the compulsory education sector and into the tertiary level sector.

The Institute engages in the delivery of the 'content' of professional learning but is also concerned with the 'practice' of professional learning. Its work connects professional practice to research and qualifications. A significant portion of the Institute's activities involves partnerships with iwi and other educational providers and programmes are offered in both English and te reo Māori.

The Institute's international linkages are focused in three main areas:

- Work with Ministries of Education from different countries, mainly in the Asia/Pacific region at present, to offer teacher professional development either in-country, or with key staff coming to the Institute.
- Work with academic staff from other Universities, again mainly in the Asia/Pacific region to provide professional learning around tertiary teaching in English and best practice in tertiary teaching pedagogy.
- International research linkages such as those built around the research focused on developing leadership capacity in the education sector.

Much of this work involves staff from across the University where specific content knowledge is provided by faculties, and coordination and professional practice input is provided by the IPL.

National Institute of Demographic and Economic Analysis

The National Institute for Demographic and Economic Analysis links together a virtual and evolving community of national and international researchers whose research focus is the interaction of demographic, social and economic processes. Initially founded through collaboration between the University of Waikato's Population Studies Centre, Waikato Management School, and Wellington-based Motu Economic and Public Policy Research Trust, the Institute's primary goal is to help inform choices and responses to the demographic, social and economic interactions that are shaping New Zealand's future. Reflecting this objective, NIDEA's research programme comprises five interconnected themes, and is supported and sustained by a strong capacity-building programme which spans local, national and international workshops, seminars, and postgraduate supervision:

- New Zealand 2050 (A structurally ageing New Zealand)
- New Zealand's regions and communities (A regionally diverse New Zealand)
- New Zealand's individuals, families and households (A socially informed New Zealand)
- Te papa one te tū mai nei (Māori and Indigenous futures)
- New Zealand's oceanic and global context (A globally engaged New Zealand)
- NIDEA Demographic Laboratory (A statistically numerate New Zealand)

NIDEA researchers are currently working on projects with Waikato's Te Kotahi (IWI) institute, Waikato Management School, Massey University, the University of Groningen (Netherlands), and the University of Umeå (Sweden).

Centre for Biodiversity and Ecology Research

The Centre for Biodiversity and Ecology Research facilitates a coordinated, integrated approach to biodiversity and ecology research, consultancy, education and advocacy. CBER's emphasis is on New Zealand's indigenous biodiversity and natural ecosystems because the long history of evolutionary isolation has created highly distinctive and unique biota and ecosystems. CBER describes and assesses biodiversity, researches how organisms and ecosystems function, how genes, biota and ecosystems might be conserved or sustainably managed, and how to restore damaged or degraded ecosystems.

CBER hosts a Ministry of Business, Innovation and Employment funded Outcome Based Investment (OBI) focusing on lake restoration. The lake restoration OBI focuses on harmful algal blooms and pest fish management. Our key research partners are Landcare Research, Geological and Nuclear Sciences, and Scion. Major end-users include the Department of Conservation, NZ Fish and Game, the Ministry for the Environment, Environment Bay of Plenty, and Environment Waikato.

For more information, visit the Centre for Biodiversity and Ecology Research website: cber.bio.waikato.ac.nz, and Lake Ecosystem Restoration New Zealand website: www.LERNZ.co.nz.

Mediarena Centre for Research

The Mediarena Centre for Research in Participatory Cultures and Creative Technologies brings together a transdisciplinary community of researchers to work on a broadly-based programme of activity, concerned with the emergence, impact and futures of technologically-enabled participatory cultures, i.e. the widespread shift from cultural consumption to cultural production, triggered by 'new media', and the development of new forms of content sharing and distribution. The Centre operates across the creative arts and creative practice-based research fields. Particular research interests include the creation of a more open media and cultural space, given the increasingly low barriers to creative expression and civic engagement through digital media, mobile technologies and related practices; the nature of new social connections between creator and consumer, between co-creators, between media and audience; and emerging social practices using creative technologies. The Centre has a facility for graduate and postgraduate practice-based research in the basement of S-block.

Relational Learning Centre

The Relational Learning Centre will build on the theoretical understandings that were developed prior to and during the implementation of the Te Kotahitanga project, from 2001 to 2013. The focus of this project was to improve the educational outcomes for Māori students in mainstream classrooms and schools; thereby reducing the educational disparities that Māori people and the broader nation have struggled with for decades. In the Centre's activities, these understandings will be extrapolated to allow the development of a broad range of research-informed policy and practice responses to the educational disparities associated with the increasing ethnic and cultural diversity and consequent ongoing power imbalances within modern nations. These disparities are the result of inadequate system-level responses to the increasing demand for a significant voice in policy making and power-sharing solutions to educational disparities in education by marginalized populations of indigenous and minoritised peoples. The Centre will provide a setting wherein this dialogic process will provide a focus for the work of a group of national and international scholars in ways that will improve the educational experiences of students currently not well served by education. On the basis of such dialogue, the centre will seek to attract further funding and world-class researchers to allow for the development of further iterative, theory and evidence-based, research and development education reform initiatives, so as to make a significant contribution to the socially-just advancement of Indigenous and minoritised peoples.

Cyber Security Research Group (CROW)

The Cyber Security Researchers of Waikato (CROW) aims to return control of data to data owners, by focusing on research addressing data security from a user-centric perspective. With the emergence of cloud computing technologies and prevalent mobile device usage, we are witnessing the diminishing effectiveness of traditional cyber security approaches such as perimeter defence, intrusion detection and infrastructure hardening. To address this, CROW focuses on six major themes: Provenance, User-Centricity, Visualisation, Economics, Hardware, and Tools & Datasets. Together, these six themes empowers the return of control of data to users, thereby reducing reliance on third-party vendors or trust relationships commonly found in most cyber security contracts today.

Learning, Behaviour and Welfare Research Unit (LBWRU)

The research activity of this group is aimed at advancing the understanding of human and animal behaviour. The research includes application of psychological principles to human behaviour problems and the improvement of animal welfare. Animal models of human learning have a long tradition in the behavioural sciences, and many of the advances in behavioural therapies, especially with children with severe developmental disability have their basis in laboratory research that was conducted with non-human animals. Several members of this Unit actively research areas where there is direct cross over between the experimental analysis of behaviour with animals to the applied analysis of behaviour with humans, such as in the areas of reinforcer preference, self-control, and stimulus generalisation.

Vice-Chancellor's Special Powers

1. The Vice-Chancellor may give such direction, or make such provision as they think fit for the relief of undue hardship where it is shown to their satisfaction
 - (a) that an alteration or amendment to statutes or regulations involving a change in a course of study or in examination requirements has caused a student hardship, or
 - (b) that official advice has been given and acted upon, and it is later found that a student's programme of study is not in accordance with the governing regulations and hardship would be caused if the student were to be compelled to comply with the full requirements of the regulations.
2. The Vice-Chancellor may, in consultation with the relevant Head of School, Director or equivalent, give such direction or make such provision as they think fit where it is shown to their satisfaction that an unusual and particular case has arisen concerning a student's enrolment, in consideration of which no relevant provisions or regulations currently apply.
3. The Vice-Chancellor will report to the Academic Board any decisions made under these special powers.
4. A student may appeal to Council against a decision by the Vice-Chancellor under these special powers.
5. The Council decides appeals and makes any provisions that it considers appropriate.

Qualification Regulations

These regulations apply to candidates beginning their studies in 2023. Candidates who first enrolled in a qualification prior to 2023 are eligible to complete that qualification either under the regulations which applied at the time of first enrolment or the regulations which apply at the time of re-enrolment. Candidates who are resuming their studies for a qualification after an extended absence are advised to consult the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies concerned at the time of re-enrolment regarding the requirements for completion. However, where there have been significant changes in the structure of a qualification or content of the major or specified programme during the candidate's absence, the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies may prescribe a specific programme of study which will be deemed to satisfy the requirements for completion of the qualification.

Policy on the Use of Māori for Assessment

Statement of Principle

1. In recognition of the status of the Māori language as a tāonga protected under the Treaty of Waitangi, and within the spirit of the Māori Language Act 1987, the University of Waikato endorses the right of its students to use the Māori language in written work for assessment within the University.
2. In keeping with the above and in accordance with its Charter commitments the University seeks to have sufficient suitable staff employed or available throughout its Divisions or the Faculty of Māori and Indigenous Studies to ensure that any work submitted in Māori would be assessed in that language by staff competent in the subject under examination and in the Māori language.
3. In the meantime, the use of the Māori language in assessment is subject to conditions set out in this policy statement.

Exceptions

4. There are occasions when, due to the nature of the skills being tested, work submitted for assessment may be required to be in a particular language. In such cases that requirement shall be made explicit in writing, either in the relevant subject entry or prescription in the University of Waikato [Catalogue of Papers](#) or in the paper outline distributed to candidates at the beginning of a paper.

Notice

5. Candidates who intend to present all or part of an examination or piece of internally assessed work in Māori are requested to give at least 14 day's notice of their intention of doing so in writing to the Student Centre. This notice of intention is desirable to allow the University the time and opportunity to make proper arrangements for marking including, when necessary, translation and external assessment. If less than 14 days' notice is given, the material presented in Māori will still

be accepted. The processing of it may, however, be delayed and the opportunity to have the script marked in the original language may be reduced.

6. Where a candidate who intends to present material in Māori has given the requested notice of intention, they will be informed as soon as reasonably possible, as to whether or not the assessment will be based on translation.

Potential for Delays

7. The University will do its best to make the results of an examination or item of internally assessed work presented in Māori available to the candidate within the ordinary time-frame. However the process of assessment in such cases, possibly including translation, may result in delays in the return of coursework or in the publication of results.

Māori-speaking Paper Examiners

8. The examination or internally assessed work will be assessed in Māori by the examiner for the paper if the examiner is considered by the Deputy Vice-Chancellor Māori or their nominee to be linguistically competent to do so.

Co-examiners

9. If the examiner of the relevant paper is not competent to assess in Māori, a co-examiner, competent in both the subject under examination and in Māori, may be appointed to conduct the assessment of work presented in Māori in consultation with the examiner.

Translation

10. If no person is available in the circumstances to assess the work in Māori, a translator will be appointed by the Deputy Vice-Chancellor Māori or their nominee in agreement with the appropriate chief examiner. The translator will be asked not to correct errors in the original nor to make any embellishments; however, ambiguities may be pointed out to the examiner. Where necessary the examiner may seek clarification of the translation of the paper from the translator but contact between the student and the translator is prohibited, as is contact between the student and the examiner. The assessment will then be carried out by the examiner of the paper on the basis of the translation.

The University intends that resort to translation be made only when reasonable efforts to find an examiner capable of assessing the work in its original language have been exhausted.

11. In the process of appointing a translator, the Deputy Vice-Chancellor Māori or their nominee will take all reasonable steps to ensure that the translator is competent in the relevant subject under examination, as well as in the Māori language.

External Assessment

12. If the internal assessment and/or examination script is to be subject to external assessment, the other institution undertaking the external assessment will be requested to indicate whether an external assessor is available to conduct the assessment in Māori. If not, a translation will be obtained for the purpose by the University according to the process explained in sections 10 and 11 of these regulations.

Return of Scripts

13. When any translation is relied upon in the assessment of an examination, a candidate making proper application for the return of a script shall also receive any translation made of the script. When assessed coursework is normally returned to the student, any translation used is likewise to be returned.

Appeals and Reconsiderations

14. An appeal against a decision regarding linguistic or subject competence made under the provisions of sections 8 and 11 of these regulations shall be to the Senior Deputy Vice-Chancellor whose decision shall be final.
15. The regulatory provisions for reconsideration of final grade together with the established appeal provisions will apply, with the addition that the Māori Language Commission is regarded by the Council as the final authority on the accuracy of a translation.

Oral Work

16. The details of this policy apply to written internally assessed work and to examinations. When oral work is assessable, the same principles should apply; however, practicalities may necessitate more restricted policy details, such as a requirement on the candidate to give longer notice or a limitation on the use of Māori where oral work involves interaction with other candidates.

1. **Withdrawal from papers (without a refund of the tuition fee)**

Personal Programmes of Study Regulations

These regulations apply to candidates beginning their studies in 2022. Candidates who first enrolled in a qualification prior to 2022 are eligible to complete that qualification either under the regulations which applied at the time of first enrolment or the regulations which apply at the time of re-enrolment. Candidates who are resuming their studies for a qualification after an extended absence are advised to consult the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies concerned at the time of re-enrolment regarding the requirements for completion. However, where there have been significant changes in the structure of a qualification or content of the major or specified programme during the candidate's absence, the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies may prescribe a specific programme of study which will be deemed to satisfy the requirements for completion of the qualification.

1. Title

These are the Personal Programmes of Study Regulations 2012.

2. Date of effect

These regulations are effective from 1 January 2013.

3. Delegation of powers

The powers and authority of the Academic Board referred to in these regulations have been delegated in certain matters under the [Delegation of Powers Statute 2014](#).

4. Definitions

In these regulations

equivalent papers are in effect the same papers, one of which was taught in the past with a different paper code

restricted papers share a significant amount of common content. Candidates may therefore receive credit for only one of the papers listed. Restricted papers may not necessarily be used to satisfy prerequisite or corequisite requirements

a **prerequisite** must be passed before a candidate may enrol in the paper for which the prerequisite is specified. (A paper for which a Restricted Pass (RP) has been awarded will not be accepted as meeting the prerequisite requirements for any other paper unless the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies in which the other paper is offered approves otherwise)

a **corequisite** must be taken either prior to or concurrently with the paper for which the corequisite is specified

internal assessment means all or some of the following: essays, assignments and reports of various kinds, practical work, work in tutorials and/or seminars and tests

a **field** means a general area of academic study that includes a number of related subjects

a **subject** is a grouping of papers with a common academic theme, defined in terms of the listings under individual subject headings in the University of Waikato [Catalogue of Papers](#). A department may offer more than one subject

a **major** means a principal area of study a candidate has chosen for a bachelors degree and is selected from those listed in the relevant degree regulations. A candidate is required to take a defined and substantial number of papers in the major at a range of levels up to and including 300 or 400 level

a **minor** means an additional subject to the major and is a requirement of some bachelors degrees

a **supporting subject** means an additional subject to the major, usually of at least 60 points in a single minor subject

a **specialisation** means a recognised pathway within a qualification or major which provides an area of focus within the qualification or major

points is the term used to express the student workload of a paper or programme. A normal full-time academic year comprises 120 points or 1.0 EFTS (Equivalent Full-time Student)

5. Application

These regulations apply to undergraduate certificates, undergraduate diplomas, bachelors degrees, bachelors with honours degrees, graduate certificates, graduate diplomas, postgraduate certificates, postgraduate diplomas, masters degrees and individual paper credits.

6. Admission and re-entry

(1) In order to be eligible to be enrolled at the University of Waikato, candidates must meet the

requirements of Section 255 of the Education and Training Act 2020.

- (2) The criteria for admission to the University of Waikato in a given year are determined by the Council and are set out in the [Admission Statute 2016](#).
- (3) The criteria for admission to a particular qualification in a given year are determined by the Academic Board and are set out in the [Criteria for Admission to Particular Qualifications](#) and the qualification regulations.
- (4) To ensure that a candidate is adequately prepared for a graduate qualification, the Academic Board will require relevant papers in the relevant subject or subjects of the qualifying bachelors degree to have been passed at grades which it deems appropriate.
- (5) Candidates are usually required to have majored in their bachelors degree in the main subject to be presented for a graduate degree. This requirement may be waived in cases where no more than one or two papers in a given subject are proposed to be incorporated into the candidate's graduate degree.
- (6) In exceptional circumstances, based on academic merit, candidates who have no more than 30 points left to complete the requirements of a qualifying degree may be permitted to enrol in a graduate degree, provided that they have completed all of the requirements of the major or main subject of the qualifying degree. The graduate degree will not be deemed to have been completed until the qualifying degree has also been completed.
- (7) The Academic Board may approve limitations on enrolment for programmes or papers due to insufficiency of staffing or resources. Limitations and the criteria for selection are published in the [Limitations Statute](#).
- (8) A candidate who has been awarded a particular qualification in one major or subject may only be re-admitted to the same qualification in another major or subject.
- (9) The criteria for re-entry for returning students are determined by the Academic Board and are set out in Part 3 of the [Criteria for Admission to Particular Qualifications](#).
- (10) In addition, the Academic Board may decline to re-enrol a candidate whose progress during the preceding year or years has not been to the satisfaction of the Academic Board.

7. Enrolment in a programme of study

- (1) The Academic Board may prescribe qualifying or additional papers which must be passed by a candidate either prior to, or concurrently with, the minimum requirements for a qualification. Qualifying or additional papers may be required if the candidate is considered by the Academic Board to be inadequately prepared in a core subject area.
- (2) Enrolment in a programme of study or paper is subject to the approval of the Academic Board. Such approval will be determined on the basis of the candidate's academic background as well as staffing and resources.
- (3) The personal programme of study of every candidate is subject to the approval of the Academic Board.
- (4) The papers for qualifications and their prescriptions are defined in the University of

Waikato [Catalogue of Papers](#). Before enrolling for a paper, candidates must meet any requirements specified in the relevant prescription unless approved otherwise by the Academic Board.

- (5) Particular regulations governing qualifications may be varied or waived by approval of the Academic Board.

8. **Maximum student workload**

- (1) The normal maximum full-time student workload for an academic year (excluding C trimester) is 120 points.
- (2) For the purposes of calculating workload, a paper that runs for the duration of two full trimesters has a workload equivalent to half of its points value during each of the trimesters in which it is taught.
- (3) The normal maximum full-time student workload for C trimester is 45 points.
- (4) Approval of the Academic Board is required for a candidate to enrol in a programme of study which has a workload equivalent to more than the normal maximum full-time workload.

9. **Completion of a qualification**

- (1) The minimum requirements for the completion of a qualification are defined in the relevant regulations.
- (2) With the approval of the Academic Board, a candidate may be permitted to complete the requirements of a qualification in less than the minimum period of enrolment prescribed in the relevant regulations. Approval will depend on the candidate's academic record and on the availability of suitable teaching and supervision arrangements.

10. **Eligibility for Honours or Distinction**

In order to qualify for Honours or Distinction in a particular qualification, a candidate may be required to complete the requirements within a prescribed time period of first enrolling for the qualification.

11. **Dissertations and theses**

- (1) The [Dissertations and Theses Regulations 2020](#) governing the presentation of dissertations and theses apply in these regulations and any dissertation or thesis required for a graduate qualification must be presented in accordance with these regulations.
- (2) Enrolment in a dissertation or thesis, or a qualification which requires the completion of a dissertation or thesis, is subject to the availability of a suitable supervisor for the dissertation or thesis.
- (3) For dissertations and theses, one or more supervisors will be appointed by the Academic Board. If the chief supervisor is also an examiner of the dissertation or thesis, at least one other examiner (who is not also a supervisor) will be appointed.
- (4) A dissertation or thesis must embody the results obtained by the candidate in an investigation

relating to some branch of the subject or subjects being presented, or, with the approval of the Academic Board, shall take some other form proposed by the candidate's supervisors and approved by the relevant Head of School or Dean concerned. The chief supervisor or sole supervisor will be required to certify that the dissertation or thesis embodies the candidate's own work carried out under the supervisor's direct supervision.

- (5) Dissertations and theses are assessed in terms of the points value they represent.

12. **Date for submission of dissertations, theses and research reports**

- (1) The deadline for the submission of any dissertation or research report will be 4.00pm on the last working day of the paper occurrence which completes the candidate's enrolment in the total points required for the dissertation or research report.
- (2) The deadline for the submission of any thesis will be 11.59pm on the last day of the paper occurrence which completes the candidate's enrolment in the total points required for the thesis.
- (3) Candidates who expect that they will not submit their dissertation, thesis or research report by the due date may apply to the relevant Head of School or Dean or delegated authority for an extension of time without the requirement for re-enrolment, provided that the application for an extension is lodged prior to the deadline for submission.
- (4) Extensions will not normally be awarded for periods of more than 21 days beyond the relevant due date.
- (5) Candidates who do not submit their dissertation, thesis or research report by the due date, and who have not applied for and been awarded an extension, will be required to re-enrol for a minimum period to be determined by the relevant Head of School or Dean or delegated authority and will be liable for a further payment of tuition and any other fees and charges for the period of re-enrolment.

13. **Resubmission of dissertations and theses**

- (1) A dissertation or thesis for a graduate qualification that receives a narrow fail may be returned to the candidate with the offer of an opportunity to revise and re-submit. The decision to offer such an opportunity is at the discretion of the relevant Head of School or Dean and is based on a number of factors, including the likelihood that the revision will be successful, and the availability of suitable supervisors and examiners.
- (2) An offer by a Head of School or Dean under subsection 13(1) of these regulations will be in writing, and any conditions attached to the offer will be explicit. The period allowed for the revision will be no more than the equivalent of one trimester and the deadline for submission will be prescribed. If the offer to revise and submit is accepted, the candidate will be eligible to receive a maximum grade of C and, in the case of a masters degree, will not be eligible for the award of Honours.
- (3) A candidate's acceptance of an offer to revise and re-submit and associated conditions must be in writing. The candidate must then re-enrol for the equivalent of one trimester and pay fees accordingly. For administrative and fees purposes, the candidate will enrol for the

particular enrolment period in which the deadline for re-submission falls.

- (4) A 'provisional fail' is recorded against the first dissertation or thesis enrolment for the period of revision. The 'provisional fail' grade is replaced by a final grade (either a fail grade or a C grade, depending on the outcome), after the revision and re-examination processes are concluded.
- (5) The opportunity to revise and re-submit a particular dissertation or thesis may be offered to a candidate only once.

14. **Credit - transfer credit and cross credit**

- (1) **Transfer credit** means credit towards a University of Waikato qualification for papers passed at another tertiary institution.
- (2) **Cross credit** means credit towards a University of Waikato qualification for papers passed towards another University of Waikato qualification.
- (3) A candidate who has passed papers at an appropriate level at the University of Waikato or another tertiary institution may apply for credit in respect of those papers towards a University of Waikato qualification.
- (4) Applications for credit must be submitted on the online qualification application, together with the prescribed fee.
- (5) Applications for credit from another institution must be accompanied by a verified copy of an academic record. If the original document is not in English, the academic record must be accompanied by an official English translation of the record. The University reserves the right to request an original copy of an academic record.
- (6) The policy on the level and amount of credit which may be awarded from a completed qualification is determined by the Academic Board and is set out below:
 - (a) Credit from a completed qualification is normally only available towards a bachelors degree.
 - (b) Credit is not normally awarded from a completed graduate or postgraduate qualification.
 - (c) Credit from a completed qualification will normally be limited to no more than one third of the completed qualification.
 - (d) Credit towards a University of Waikato bachelors degree from a completed qualification will normally be limited to no more than one third of the University of Waikato degree. For the purposes of this regulation, one third of a bachelors degree is considered to be 120 points at 100 and 200 levels, including a maximum of 60 points at 200 level. Where appropriate, the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies may, at their discretion, permit 20 further points at 100 or 200 level to be credited towards a four-year bachelors degree where the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies deems a paper to be relevant to the candidate's programme of study.
 - (e) Credit will not normally be awarded for 300 or 400 level papers required for a major in an

undergraduate degree.

- (f) No paper may count towards more than two qualifications.
- (7) The decision to award credit in individual cases will be made by the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies.
- (8) In making decisions on credit, the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies will consider the relevance and level of the papers completed, the regulations of the University of Waikato qualification concerned, and the credit guidelines maintained by the Student Services.
- (9) Regardless of the total number of papers which an applicant has passed at other institutions, the total credit awarded will not be more than half of the total requirement of the University of Waikato qualification concerned, unless this is approved under subsections 14(10) or 14(11) of these regulations.
- (10) In individual cases, the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies or delegated authority may vary subsection 14(9) of these regulations and award credit for up to two thirds of the University of Waikato qualification concerned.
- (11) In individual cases, the Education Committee, under delegated authority of the Academic Board, may award credit for more than two thirds of a University of Waikato qualification, or for more than half of an undergraduate degree that includes 300 and/or 400 level papers for a major.
- (12) Applicants wishing to appeal a Pro Vice-Chancellor's or the Dean of the Faculty of Māori and Indigenous Studies decision on credit may apply to the Director of Student Services.
- (13) The consideration of an appeal will involve the Pro Vice-Chancellor or the Dean of the Faculty of Māori and Indigenous Studies concerned being requested to reconsider the decision. Further appeals against the outcome of a reconsideration will be referred to the Education Committee for consideration on behalf of the Academic Board.
15. **Completion of a University of Waikato qualification at another New Zealand university**
A candidate who, based on the assessment of the Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies, has completed the major part of a qualification at the University of Waikato and then moved to another district may, in some cases, complete the University of Waikato qualification by taking the remaining papers at another university in New Zealand. Prior approval of the specific papers, in writing, must be obtained from the Director of Student Services of this University and the prescribed charge paid. The candidate must advise the Registrar of the other university of the purpose of the enrolment and the papers concerned must be taken on a Certificate of Proficiency (COP) basis at that university. The candidate's academic record will not be transferred.
16. **Completion of a qualification of another New Zealand university at the University of**

Waikato

A candidate who has completed the major part of a qualification at another New Zealand university may, in some cases, be permitted by that university to complete the qualification by passing specified papers at the University of Waikato. Any such approval must be given in writing by the 'home' university and the candidate will take the papers concerned on an Individual Paper Credit (IPC) basis at the University of Waikato. The candidate's academic record will not be transferred.

Ethical Conduct in Human Research and Related Activities Regulations

Preamble

Any member of the University community who participates in research and specified related activities is required to conduct the research and/or related activities in a manner that conforms with ethical standards set down by the University, by relevant national and international professional bodies, and by the law of the country in which the research is undertaken.

These regulations apply specifically to the following activities: research, teaching, consulting, evaluation, and publications which involve collecting data about and from people and organisations. These regulations also apply to any research where there are ethical issues that are not addressed by the Animal Ethics Committee [Code of Ethical Conduct for the Use of Animals for Research, Testing and Teaching](#) .

Students are referred also to the University's [Student Discipline Regulations 2020](#) in this Calendar, and the [Guidelines for Professional Practice and Community Contact in the Conduct of University Research or Related Activities](#)  (see Appendix 1 to these regulations), and the Higher Research Degrees website, as amended from time to time: <http://www.waikato.ac.nz/students/research-degrees/>.

Staff are referred also to the University's [Staff Code of Conduct](#).

Students and staff are also referred to the resources on [Human Research Ethics](#), available from the [Research & Enterprise Office](#).

Ethical Conduct in Human Research and Related Activities Regulations

1. **Title**

These are the Ethical Conduct in Human Research and Related Activities Regulations 2008.

2. **Purpose**

Ethical issues arise when University research and/or related activities involve the interests and rights of others. The purpose of these regulations is to facilitate ethical conduct which respects the rights of people, communities, companies, trusts, and other organisations. These regulations explain the standards of ethical conduct and the procedures that apply for the maintenance and monitoring of these standards. All applications to the University's human research ethics review committees will be reviewed for approval on the basis of their compliance with these regulations.

3. **Date of effect**

These regulations are effective from 1 July 2008.

4. **Scope**

(1) These regulations apply to all

(a) staff of the University of Waikato

(b) students of the University of Waikato, and

(c) any other person authorised to undertake research and/or a related activity on behalf of the University of Waikato, including those employed or contracted in wholly-owned subsidiary entities.

(2) Research collaborators or partners are expected to apply for approval of their research and/or related activities from their organisation and must also apply to the relevant University of Waikato Divisional or Faculty of Māori and Indigenous Studies committee.

(3) Under these regulations, all research and/or related activities are required to have formal ethics review and approval.

(4) Applications for approval are not required for normal teaching activities; but are required for specific teaching that involves the participation of a student or students and has the potential for harm (see section 13 of these regulations), or that involves collection of data from students.

(5) Applications are not required for University teaching evaluations or for University reviews and quality assurance activities; however, such activities do have ethical implications and should be conducted in a professional way consistent with the University *Staff Code of Conduct* and should be consistent with the spirit of these regulations.

5. **Definitions**

In these regulations

research means an inquiry of an investigative, experimental, or critical nature which is driven by a question, hypothesis, or intellectual position capable of rigorous assessment, and the

findings of which are open to scrutiny and formal evaluation. It may include any intellectual or creative work published, exhibited, presented, or performed in a written, spoken, electronic, broadcasting, visual, performance, or other medium

related activities may include teaching, consulting, evaluation, and publication when these activities involve collecting data about and from people and organisations. These activities are defined as follows:

teaching means teaching in lectures, tutorials, demonstrations, and related educational research

consulting means the provision of advice to a client, such advice being based upon the pre-existing professional knowledge and skills of the consultant

evaluation means the systematic collection and analysis of information to make judgements, usually about the effectiveness, efficiency, and/or appropriateness of the research and/or related activity

publication means any intellectual or creative work published, exhibited, presented, or performed in a written, spoken, electronic, broadcasting, visual, performance, or other medium

participant means a live human being or group of live human beings who participate in research and/or related activities whether by observation, questioning, participation in an experiment, provision of specimens or human tissue samples, or by any other means

organisation means a social unit of people systematically arranged and managed to meet a need or to pursue collective goals on a continuing basis. Examples include firms, iwi groupings, schools, and professional societies

researcher means the person undertaking research and/or related activities

harm includes physical, psychological, social, economic, or cultural harm to participants

field research means research conducted in person in a natural setting outside of a laboratory.

6. Application procedures

- (1) A staff member, student, or authorised person must not commence research or a related activity until it has been approved by the appropriate authority and in accordance with these regulations.
- (2) Researchers must submit applications for approval for their research or related activity to one of the delegated relevant Divisional or Faculty of Māori and Indigenous Studies committees (see section 22 of and Appendix 2 to these regulations) within the University.
- (3) Where applications are made to an external ethics committee, an application must also be submitted to, and approved by, the relevant delegated committee within the University (see section 22(3) of and Appendix 5 to these regulations).
- (4) Applications for approval of research and/or related activities must be submitted in the form prescribed for the relevant Division or the Faculty of Māori and Indigenous Studies (see Appendix 3 to these regulations).
- (5) If an ethical issue relating to the research and/or related activity that was not envisaged at the beginning arises during its course, the researcher must stop the research and/or related activity, consult the appropriate authority, and apply for approval. The researcher must not

begin the research and/or related activity again until the necessary approval has been obtained.

- (6) For situations where prior, free, express, and informed consent from participants may not be possible, see sections 10 and 11 of these regulations for guidance in making application for approval of the research or a related activity.

7. **Responsibility for ethics in research and related activities**

- (1) Individual staff, students, and authorised persons are responsible for ensuring their research and/or related activities comply with these regulations.
- (2) If a researcher is a student, the staff member responsible for supervising the student's research must take all reasonable steps to ensure that the student complies with these regulations.
- (3) Paper convenors may apply for ethics approval for an entire paper if it involves students in that paper engaging in research or related activities. Such applications must cover all anticipated research or related activities the student may engage in, and the convenor's, lecturers' and/or tutors' responsibilities. Applications must identify ethical issues and describe practices for addressing them.

8. **Value of research or related activities and the public interest**

- (1) A researcher must be able to justify to their peers the goals and methodology of the research and/or related activity in terms of its reasonably anticipated benefits balanced against any foreseeable risk of harm to the participants.
- (2) A researcher must normally make available the findings of research in the public domain. Any exception to this must be approved in writing by the Senior Deputy Vice-Chancellor, or by a person to whom authority is delegated in writing by the Senior Deputy Vice-Chancellor (see section 10(7) and section 14 of the [Dissertations and Theses Regulations 2015](#)).

9. **Informed consent of participants**

- (1) Researchers must gain participants' prior, free, express, and informed consent in a culturally and socially appropriate manner, unless in the case of approved exceptions. For proxy consent from authorised representatives, see subsection (4)(e) and (4)(f) of this section of these regulations. Exceptions regarding large sample surveys and similar research methods, some cases of field research, and the possibility of gaining informed consent after data collection are dealt with in sections 10, 11 and 14 of these regulations.
- (2) A researcher must establish explicit processes for reaching agreement with participants. A researcher must not involve a participant in any research and/or related activities unless the researcher is satisfied that the participant has understood the nature of their involvement and freely agreed to it in accordance with the principles outlined in this section.
- (3) A researcher must not use explicit or implicit coercion to obtain the agreement, and must not use inducement to obtain the agreement except in accordance with section 18 of these regulations.

- (4) Unless sections 10, 11 or 14 of these regulations apply, a researcher must adhere to the following principles with respect to informed consent of participants:
- (a) A researcher must inform prospective participants of all information relevant to the decision to participate including
 - (i) their right to decline to participate in the research and/or related activities or any portion or any part of these
 - (ii) the form in which the findings will be published
 - (iii) duration and security of data storage
 - (iv) their right to withdraw any information they have provided up until analysis has commenced on their data
 - (v) their right to access and correct personal information
 - (vi) the process for withdrawing information they have provided.
 - (b) The more readily identifiable the participants may be, the more formal the consent should be. Where participants are asked to answer questionnaires that might identify them, answer questions in a formal interview, undergo formal tests, or where they are subjected to formal observation and recording procedures, the process for obtaining informed consent, and the form of the consent, should be similarly formal and recorded in writing or some other reproducible form. Where the participation is more anonymous the consent may be less personalised and less explicit (see section 10 of these regulations).
 - (c) If the research or related activity involves manipulation of, or intervention in, the physical or psychological state of a participant, the participant's consent, or, if subsection (e) of this section applies, the consent of the person with authorised responsibility for the participant, must be recorded in writing or some other reproducible form.
 - (d) Because some research and/or related activities involve collectives, a researcher must recognise the complexities of relationships between individuals and collectives. In some cultures it is common for the leader of a collective to make a decision in respect of participation on behalf of its members. If an individual in a collective wishes to participate or not to participate in the research and/or related activity, regardless of a decision taken on behalf of the collective, the individual's wishes must be respected and all reasonable care taken to ensure that those wishes are also respected by other members of the collective.
 - (e) If a prospective participant is reasonably judged incapable of giving informed consent, the researcher must obtain the proxy consent from the person who has responsibility for the prospective participant's welfare, taking particular care to protect the participant's interests and also taking into account any potential conflict of interest between them and the person whose consent is required.
 - (f) A researcher who seeks the proxy consent of another person on behalf of a prospective

participant under subsection (e) of this section must make all reasonable effort to involve the prospective participant themselves in the process and the decision about consent.

- (g) Staff, students, and other approved persons must obtain informed consent when recording images of participants, participants' possessions, or research and/or related activity in which participants are involved, unless the recording of images is of lawful activity occurring in a public place and is culturally appropriate.
- (h) A researcher must provide the information under subsection (a) of this section plainly and in the language and medium that is appropriate for the prospective participants.
- (i) A researcher must inform participants of their right of access to any data that may have been collected from or about them.
- (j) A researcher must inform participants of their right to complain about the conduct of the research and/or related activity and must also inform them of the process for making a complaint.

10. Large random sample surveys and informed consent

- (1) A researcher who intends to collect data involving large numbers of people is not required to adhere to all the principles concerning informed consent outlined in section 9(4) of these regulations if the research method makes adherence to all these principles impractical or undesirable and if such a requirement is likely to impact adversely on the researcher's ability to generate reliable information.
- (2) However, the researcher must declare and justify an intention not to adhere to the principles in section 9(4) of these regulations in the application for approval submitted under section 6 of these regulations.
- (3) In these situations the researcher must provide the following information, as a minimum, to a participant before the research or related activity begins
 - (a) the anticipated length of the research or related activity
 - (b) the general purpose of the research or related activity
 - (c) the forms in which the data might be published
 - (d) an assurance that the participant will not be identified in any publication or dissemination of research findings.

11. Field research and informed consent

- (1) 'Field' research in this context means research conducted in person in a natural setting outside of a laboratory.
- (2) In field research situations, prior, free, express, and informed consent must be gained in a culturally and socially appropriate manner from participants.
- (3) In some forms of field research using such methods as participant observation, participatory research and action research, where obtaining prior, free, express, and informed consent

from all participants would be inappropriately intrusive or impractical for social, cultural, or methodological reasons, it is acceptable not to gain such consent.

- (4) However, the researcher must take care to apply other ethical principles, especially minimising the risk of harm to participants and maintaining the anonymity of participants. It may also be appropriate in such cases that informed consent be sought afterwards but prior to the publication of research findings, from people who have in the course of information collection come to the attention of the researcher.

12. Archiving of data, privacy, storage, and use of information

- (1) All non-identifying data (eg data sets and transcripts) used for publication must be securely kept long enough to allow for academic examination, challenge, or peer review. This period would normally be at least five years. Identifying data such as consent forms, photographs, and videos will be securely stored consistent with agreements made under section 9(4)(a) of these regulations. The responsibility for data storage lies with the department or other equivalent academic unit.
- (2) Where the research and/or related activity is conducted in New Zealand, the researcher must comply with the Privacy Act 1993 and the Official Information Act 1982, and must adhere to the following principles consistent with that legislation
 - (a) participants and informants must not be publicly identified or identifiable without their explicit consent
 - (b) participants must be informed (unless sections 10, 11 and 14 of these regulations apply) that they will not be identified in any publication or dissemination of the research findings without their explicit consent
 - (c) researchers must take all reasonable precautions to prevent unauthorised use, access, modification, or disclosure of personal information
 - (d) data identifying participants must not be kept for longer than required for the purpose for which it is collected (see subsection (1) of this section)
 - (e) except in circumstances specified in the relevant legislation, personal information may be used only for the purpose for which it is collected.
- (3) Where the research and/or related activity is conducted in a country other than New Zealand, the researcher must comply with any legislation that applies in that country with respect to privacy and storage of personal information.
- (4) Even where the research and/or related activity is conducted in a country other than New Zealand, the researcher must comply as far as possible with the spirit of the Privacy Act 1993 and the Official Information Act 1982; however, if there are contradictions between the legislation of New Zealand and the other country, the legislation of the other country must prevail
- (5) A researcher must include in an application submitted under section 4(3) of these regulations a statement about the conditions under which, and the period for which, any personal

information collected for the research and/or related activity is to be stored.

- (6) Data must not be made available to persons or for purposes that are not named on the application.

13. **Minimisation of harm**

- (1) A researcher must make particular effort to identify physical, psychological, social, economic, or cultural harm to participants before seeking their consent to participation.
- (2) A researcher must minimise both the risk of harm to a participant and the potential for negative consequences of the harm.
- (3) 'Harm' in this context includes pain, stress, emotional distress, fatigue, embarrassment, and exploitation.
- (4) Unless it would be impractical or undesirable to do so in the terms described in section 10 of these regulations, a researcher must consult participants to ascertain any risk of harm that they themselves may identify or concerns that they themselves may have.
- (5) If, during the course of the research and/or related activity, it is apparent to the researcher that the risk of harm to the participant is greater than originally envisaged, the researcher must inform the participant and re-evaluate the research and/or related activity in terms of the principles outlined in this section.

14. **Limitation of deception**

- (1) Deception of participants conflicts with the principle of informed consent, but in some research and/or related activities it may be necessary to withhold information about the purpose of the research and/or related activity or the procedures involved.
- (2) Research and/or related activities involving deception of participants will be approved only if the researcher demonstrates in the application for ethics review that the deception is absolutely essential to the goals of the research and/or related activity.
- (3) A researcher who undertakes research and/or related activities involving deception of a participant must ensure that the participant is provided with an explanation of the true purpose of the research and/or related activity and the reason for the deception as soon as practicable after the participation.

15. **Social and cultural sensitivity**

- (1) A researcher must respect the cultural, social, and language preferences and sensitivities of the participant.
- (2) Where the research and/or related activity potentially affects individuals or groups who are significantly different in culture from the researcher, the researcher must consult an appropriate person before the research and/or related activity begins about appropriate cultural procedures and approaches to the research and/or related activity and about informing the participant or community concerned of the research findings.
- (3) An application for ethics review under these regulations must demonstrate how the

researcher has responded to the advice received from the person consulted.

- (4) Appropriate consultation and subsequent responses on matters of social and cultural sensitivity are the responsibility of the researcher.

16. **Exploitation of relationships**

- (1) A researcher must not exploit the relationship between researcher and participant.
- (2) A researcher must resist any initiative by a participant to exploit the relationship between researcher and participant.

The University of Waikato

Te Whare Wānanga o Waikato is committed to academic quality, research excellence and innovative teaching programmes. It prides itself on maintaining internationally relevant, globally significant research and degree programmes while remaining very much a university that keeps the needs of the Waikato and Bay of Plenty the regions at the forefront.

The University of Waikato is distinct from other universities because the Hamilton campus is located on land returned to Waikato-Tainui following the tribe's 1995 settlement with the government. The Tauranga campus, which was opened in early 2019, is situated on Ngāi Tamarāwaho land. This distinctiveness is underpinned by the University's commitment to working in partnership with Waikato-Tainui and the iwi of Tauranga Moana specifically and through the Treaty of Waitangi to all iwi.

Vice-Chancellor Professor Neil Quigley is leading the University through a new phase of development. This includes strengthening programmes to meet national and international skills shortages, addressing global issues, such as water quality, indigenous studies and cyber security, and enhancing teaching and research quality in health and high performance sport.

Research is a key focus for the University. Students are taught in research-intensive environments by experienced lecturers, and much importance is placed on fostering an active research community and producing critical-thinking, future-focused graduates who are globally aware.

The University is the tertiary partner of the Avantidrome in Cambridge and the Adams Centre for High Performance in Mount Maunganui. Staff and postgraduate students based in these facilities work closely with High Performance athletes and the community, to enhance their performance.

The University campus in Tauranga works with tertiary partners in the Bay of Plenty region, Toi Ohomai Institute of Technology and Te Whare Wānanga o Awanuiārangi, to deliver study

programmes and research activity that provide students with pathways to lifelong learning. Tauranga is also home to the University's Coastal Marine Field Station where staff and students undertake research to enhance water quality, increase kaimoana stocks, and improve the environmental impacts on marine life.

The University of Waikato stands proudly on the world stage as an institution providing a future-focused internationally-relevant education and plays an active part in global research. The latest Quacquarelli Symonds (QS) World University Rankings place Waikato 250th and among the top 20% of institutions ranked by QS, with ten subjects ranked in the top 300. In the Times Higher Education (THE) World University Rankings, Waikato sits in the 401-500 band, =3rd in New Zealand.

The University also ranks highly for student satisfaction. The International Student Barometer survey showed more than 90% of international students surveyed who studied at the University of Waikato were satisfied with their experience and over 80% would recommend the University of Waikato to others. International students were particularly satisfied with the University's response to Covid-19, with over 90% of students rating this positively.

Part of the University's success is due to the high priority it places on student pastoral care. The development and wellbeing of every student is an important dimension of the institution's uniqueness. Staff have a strong reputation for excellence and take an innovative approach to student support. Staff have a track-record of effectiveness for supporting students as they transition to university study.

While the University of Waikato has renowned strength in the teaching and research of te reo Māori and tikanga Māori, its Māori teaching and research expertise can also be found across the various disciplines including Māori psychology, business, education, law, social sciences, science and computer science.

The Māori student communities on campus are vibrant and are key contributors to campus events, and there are many University programmes and activities dedicated to supporting Māori student achievement and success.

Over the past few years, the University implemented a new curriculum, which was reviewed and revitalised to ensure teaching continues to be relevant to student, employer and societal needs. As a result, work-integrated learning programmes and compulsory work experience are now included in all undergraduate degrees.

Helping to support students making the transition to university-level study is the University's Study Advising programme which is designed to help new students over their first year of undergraduate study. Every first year student is automatically allocated a dedicated staff member – a Study Advisor. Most Study Advisor's will be from the student's main area of study, but all have roles aimed at helping students to succeed in their study goals.

The University of Waikato is dedicated to supporting student success. Along with the Study Advising Programme, we have a variety of pastoral services, that are available to students to help them achieve their educational goals.

The University's academic units comprises the Division of Arts, Law, Psychology and Social Sciences; Division of Health, Engineering, Computing and Science; Division of Education; Division of Management; Faculty of Māori and Indigenous Studies; and the University of Waikato College.

Te Wānanga o Ngā Kete Division of Arts, Law, Psychology and Social Sciences

The division incorporates Te Kura Toi the School of Arts, Te Kura Whatu Oho Mauri the School of Psychology, Te Kura Aronui the School of Social Sciences and Te Piringa the Faculty of Law, as well as two research institutes, Te Ngira National Institute for Population Research and Te Puna Haumarū The New Zealand Institute for Security and Crime Science. Programmes of study are informed by high level research expertise across the Division and our unique blend of disciplines enables students to engage with research leaders and practitioners on issues of local and global importance.

Our graduates are flexible and creative thinkers, self-directed and highly organised, excellent communicators and team workers, and innovators for change. Programmes incorporate explicit pathways into the workforce as well as to higher degrees. We offer a wide range of qualifications from undergraduate certificates, diplomas and degrees through to masters and doctorate degrees. Academic excellence is the cornerstone of teaching and learning in programmes that develop students' essential skills and expertise.

Te Kura Toi School of Arts provides teaching and research focused on understanding the human condition, the unique ways we experience the world, and the different forms of culture manifested from our ingenuity, imagination, resourcefulness and intellectual creativity. Research covers areas including languages and linguistics, music, dance, theatre and screen and media.

Te Kura Whatu Oho Mauri School of Psychology teaches across a wide range of psychology paths, from neuroscience to social psychology, with specialist graduate pathways including a

Te Kura Aronui School of Social Sciences actively promotes the University's core motto 'For the People'. Through a wide range of subjects and qualifications from undergraduate to postgraduate level, social sciences encourage critical thinking and the analysis of how individuals and groups in society relate to each other. The School's researchers cover disciplines including Anthropology, Geography, Environmental Planning, History, Philosophy, Political Science, Social and Public Policy, Sociology and Social Work.

Te Piringa Faculty of Law's founding goals of professionalism, biculturalism, and the study of law in context attract an exciting and diverse group of staff and students. Research in the Faculty is distinctive and provides an innovative, student-focused Bachelor of Laws (LLB) degree and a BA in Law, two LLM programmes, Diploma in Law, MPhil, PhD, SJD, Magister Juris and LLD degrees, and, in conjunction with the Waikato Management School, the Graduate Diploma in Dispute Resolution. The Faculty's research is inter-disciplinary, doctrinal and theoretical, and makes a significant and lasting contribution to the understanding and development of law internationally and nationally across areas from Māori and indigenous research to international and environmental law.

Te Ngira Institute for Population Research is the Aotearoa New Zealand national institute of demographic and population-focused research. It undertakes research that informs choices and responses to the demographic, social and economic interactions that are shaping the future, and offers undergraduate and postgraduate qualifications in population studies.

Te Puna Haumarū The New Zealand Institute for Security and Crime Science engages in research and teaching that aims to prevent and reduce crime, and increase our security and safety. We achieve these aims by bringing together disciplines from across the university, including computer science, data analytics, law, Māori and indigenous studies, political science, psychology and social policy. We are a partner in the Evidence-Based Policing Centre, and work with a variety of other agencies. We offer undergraduate papers in Security and Crime Science.

Division of Health, Engineering, Computing and Science

The Division incorporates four schools (Health, Engineering, Computing and Mathematical Sciences, and Science), as well as two research institutes, The Environmental Research Institute (ERI) and Te Ipu o te Mahara - The **Artificial Intelligence Institute**.

Te Huataki Waiora School of Health provides qualifications that offer students who are passionate about health, hauora and wellbeing the opportunity to develop knowledge and skills to enhance the lives of individuals and communities. Students have the opportunity to explore new ideas and ways of looking at issues that impact health, wellbeing and performance outcomes, which will prepare them to move into a wide range of employment opportunities. We work closely with partners across the community — such as local DHBs, Sport NZ and regional sports trusts, iwi, community health organisations, and high performance sport — to ensure we are at the forefront of innovation in the

health, human performance, and sports sectors. These collaborative partnerships provide both our students with exciting opportunities to bring the latest theories and practices to life.

Within this context of Te Huataki Waiora Nursing Programmes are accredited by the New Zealand Nursing Council. They provide a responsive and contemporary approach to professional qualifications that lead to registration as a nurse, postgraduate and advanced specialty qualifications and doctoral research. These programmes reflect the priorities of the Waikato and Midland Region incorporating bicultural principles, mental health, lifespan and the care continuum.

The **School of Engineering** offers the full range of professional engineering programmes from the traditional disciplines of Civil, Mechanical, Chemical and Biological, Electrical and Electronic, and Materials and Process Engineering, to the developing areas of Software, Mechatronics¹, and Environmental² Engineering. Undergraduate programmes are available in the Bachelor of Engineering with Honours (BE(Hons)), the Diploma in Engineering Management, and Certificate in Engineering Professional Practice. Five of the programmes are fully accredited by Engineering New Zealand and the Washington Accord.

International Students

The following information is a general guide for international students wishing to enrol at the University of Waikato. Further information is available on the website: www.waikato.ac.nz/study/international/.

Email: international@waikato.ac.nz .

Admission

All students are required to meet the entry requirements for admission, as set out in the [Admission Statute 2016](#). Applicants whose first language is not English or Māori are also required to provide satisfactory evidence of English language proficiency, as set out in the [English Language Requirements for Admission](#). Scores can vary according to the qualification sought.

International students apply for admission online at www.waikato.ac.nz/study/apply

Permanent residents of Australia and New Zealand, Australian citizens, and students from the Cook Islands, Tokelau or Niue who are New Zealand citizens, are treated as New Zealand students and do not need to apply for admission as international students.

Please note that to be eligible for domestic tuition fees, permanent residents and citizens of Australia must be living in New Zealand for the duration of the study. Domestic tuition fees information is available at www.waikato.ac.nz/study/costs/tuition-costs-domestic.

All international students enrolling in an undergraduate programme must hold as a minimum requirement, an equivalent university entrance qualification as set out online at www.waikato.ac.nz/study/enrolment/undergraduate-international.

Many of the degrees offered at the University of Waikato have prerequisites on their core papers. Applicants who have not achieved specified prerequisites through their study will be required to take additional papers or foundation courses in order to satisfy these prerequisites. Applicants in this

situation are advised that not all papers may count towards the completion of the degree and that the programme may take an additional period of time.

Code of Practice

The University of Waikato has agreed to observe and be bound by the *Education (Pastoral Care of Tertiary and International Learners) Code of Practice 2021*. Copies of the Code are available from the New Zealand Qualifications Authority website <https://www.nzqa.govt.nz/providers-partners/tertiary-and-international-learners-code/>.

Students should refer to the Code of Practice for their specified responsibilities and to the International Student Handbook or this Calendar for University procedures and recommendations.

Tuition Fees and Charges

1. International students are required to pay full cost tuition fees. Students should refer to the [Table of Fees and Charges](#) for other fees and charges that may be applicable.
2. New international PhD students may be eligible for domestic fees for their studies. Conditions apply. For more information, see the [Higher Research Degrees](#) website.

New Zealand Immigration Requirements

1. All international students must hold a valid student visa for the duration of their studies. A visitor visa is only valid for courses lasting less than three months in total. Further information regarding the various requirements of Immigration New Zealand (INZ) can be obtained from the Immigration New Zealand website, or the nearest New Zealand High Commission or Embassy.
2. An offer of place at the University of Waikato does not guarantee that the student will be issued with a student visa.
3. International students are required to obtain a student visa before travelling to New Zealand. Students must provide evidence to show they can have enough money to support themselves while they study in New Zealand. The source of fund is considered stable and there are no unexplained lump sum deposits. For more information please see [here](#).
4. The University is required to report to INZ those students who are not fulfilling the requirements of their student visa, which includes completing compulsory course components and passing papers.
5. Full details of immigration requirements, advice on rights to employment in New Zealand while studying, and reporting requirements are available from INZ, and can be viewed on their [website](#).

Pre-paid Tuition Fees Policy

1. As indicated above, international students are required to obtain their student visa and pay their tuition fees before enrolment can be completed. These funds are held against the student's name until they complete their enrolment in person. This policy details the process for refunding these funds if (i) the student travels to New Zealand and does not complete their enrolment, or (ii)

- completes the first trimester of study and does not enrol in the second trimester of study and they have a student visa valid for one year, with the exception of students enrolling in B trimester then A trimester.
2. All students must apply in writing for a refund of their pre-paid tuition fees to the Director of Student Services Division.
 3. Students are required to supply a verified copy of their passport and student visa, and a copy of their University of Waikato receipt(s) with their application for a refund.
 4. The University of Waikato will notify INZ that the student has not fulfilled the obligations of their visa by completing their enrolment at the University of Waikato.
 5. Where a student wishes to attend another institution in New Zealand, the University of Waikato will transfer the pre-paid tuition fees to that institution, upon written confirmation from that institution of the student's intention to study. This should be in the form of a formal letter of offer or invoice which confirms the student's acceptance into a qualification. If the student has already paid their tuition fees at the other institution, the University of Waikato will refund the pre-paid tuition fees to the student, upon written confirmation from the other institution that the fees have been paid. It is the student's responsibility to provide the necessary documentation from the other institution.
 6. Where a student will be returning to their home country, the funds will be refunded in one of two ways:
 - (a) an overseas bank draft sent to the overseas address provided by the student
 - (b) if it is known that the pre-paid tuition fees have been paid by a third party, the refund may be paid back to that third party.
 7. Where a student is wishing to remain in New Zealand without enrolling at an educational institution, the University of Waikato will refund these funds either:
 - (a) upon evidence of a valid INZ visa to remain in New Zealand, or
 - (b) confirmation that INZ has discharged the University of Waikato's duty under the original student visa.
 8. If a programme of study is cancelled by the University of Waikato, a full refund of pre-paid tuition fees will be made to the student by bank draft.

International Students Refund Administration Charge

International students who withdraw their application or their enrolment before the start date of their programme will receive a 100 percent refund of pre-paid tuition fees less a \$500 Administration Fee. Students who withdraw their application or their enrolment after the start date of their programme but during the period for deletion of papers (refer to Clause 12 of the [Change of Enrolment Regulations 2012](#), will receive a 100 percent refund of pre-paid tuition fees less a \$2,000 Administration Fee.

Compulsory Medical and Travel Insurance

International students (including group students) must have appropriate and current medical and travel insurance while studying in New Zealand, as stated in the *Education (Pastoral Care of Tertiary and International Learners) Code of Practice 2021*. Under the Immigration New Zealand policy, this must be at least for the duration of your student visa. Enrolment is dependent on proof of appropriate insurance. To simplify the process of selecting insurance, the University has selected Studentsafe-University (underwritten by Allianz New Zealand) as the preferred insurance policy for all international students. The Studentsafe-University insurance premium will be added to tuition fees at the time of enrolment, resulting in international students being automatically enrolled in the Studentsafe-University insurance scheme. This premium will not be charged if evidence of an alternative compliant insurance policy is provided to the University before the specified deadline (please note there are only a small number of approved alternative compliant policies). For further information please refer to the website <https://www.waikato.ac.nz/study/international>.

Eligibility for Health Services

Most international students are not entitled to publicly funded health services while in New Zealand. If you receive medical treatment during your visit, you may be liable for the full costs of that treatment. Full details on entitlements to publicly funded health services are available through the Ministry of Health, and can be viewed on the website <https://www.health.govt.nz>. The Accident Compensation Corporation provides accident insurance for all New Zealand citizens, residents and temporary visitors to New Zealand, but you may still be liable for all other medical and related costs. Further information can be viewed on the ACC website www.acc.co.nz.

New Zealand Government Scholarships

The New Zealand Aid Programme (NZAP) is the New Zealand Government's International Aid and Development Programme managed by the Ministry of Foreign Affairs and Trade. Education is vital to the New Zealand Aid Programme's mission of supporting sustainable development in order to reduce poverty and contribute to a more secure, equitable and prosperous world. Scholarships are available to citizens from selected developing countries to undertake vocational training or tertiary level study in their home country, in New Zealand, or in the Pacific region. These scholarships enhance the skills, training and knowledge of individuals, and build their capacity to contribute to the sustainable development of key areas in their home country. The eligibility criteria and application process can be found on: <https://www.mfat.govt.nz/en/aid-and-development/new-zealand-government-scholarships/>.

Strategic Alliances, International Partnerships and Agreements

The University is a forward-looking, innovative institution that welcomes strategic alliances, international partnerships, and agreements. Consideration is given to international institutions that match the University of Waikato profile in terms of reputation, academic standing, and research output.

All proposals for university to university linkages should be discussed in the first instance with the International Office. Proposals for guaranteed credit agreements need submission of full

documentation to the International Office which will refer them to the appropriate academic authority for approval. Partnership proposals are welcome and will be explored on a case-by-case basis.

Memorandums of Understanding should also be submitted as proposals to the International Office, which will refer them to the appropriate authority.

Overseas visitors are welcome. Prospective visitors should contact the International Office with full background information about their proposed visit. The International Office will assist in arranging an itinerary which meets both the visitors' and the University of Waikato's needs.

Please contact the International Office.

Specialisations

Specialisations provide you with another opportunity to shape your qualification to your interests and needs. They can be used to broaden your knowledge, allow you to focus on an aspect related to your first major, or perhaps provide some cohesion to your elective papers in an area of interest to you.

Specialisations meet all of the requirements for a qualification but provide for further specialisation in or beyond the major (bachelors degree) or subject (honours or masters degree, graduate certificate, graduate diploma, postgraduate certificate, or postgraduate diploma).

For more information and advice on how a specialisation might fit into your programme of study, talk to a Student Advisor in your Division or the Faculty of Māori and Indigenous Studies.

Specialisations at degree level

Specialisations at degree level allow students to include complementary study within their overall programme of study. Specialisations available at degree level are:

- Advanced Pedagogy BEd
- Technology BEd

Specialisations at major or subject level

Specialisations at major or subject level allow students to focus in depth on a particular aspect of that subject. For example, within the International Languages and Cultures major, specialisations in Chinese, French, Japanese and Spanish are available.

At postgraduate level, for example within the Education subject for the Postgraduate Diploma, a specialisation in Māori Medium Teaching/Te Ropu Paerua are available.

Specialisations available at major or subject level are listed under the subject entries in the [University](#)

Enrolment for Individual Paper Credit (IPC)

Students may be permitted to enrol in a paper without enrolling for a particular qualification. This may be because they have no intention of completing a full qualification, or because the paper is being taken for the purposes of qualifying for admission to a specific qualification. Alternatively, the student may be taking the paper for credit towards a qualification at another institution. Enrolments of this nature are recorded as Individual Paper Credit (IPC) enrolments.

Regulations Governing Enrolment for Individual Paper Credit (IPC)

1. A candidate who enrolls on an IPC basis is liable for all fees and charges prescribed for the paper(s) and must meet any requirements specified in the prescription and paper outline.
2. Enrolment on an IPC basis is subject to the approval of the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies in which the paper is offered.
3. A candidate who has passed a paper taken on an IPC basis may, at a later date, apply to have the paper credited to a University of Waikato qualification. Approval will be based on the regulations for the qualification concerned.
4. A student enrolled on an IPC basis is subject to all general regulations of the University of Waikato.
5. A candidate who completes a paper on an IPC basis will receive official notification of their final results from the University of Waikato, and will be eligible to apply for an academic transcript.

Prescriptions for Papers

The following page contains a brief introduction to the subjects and papers offered by the University. Subjects are set out in alphabetical order. A brief description may be given of the content of each paper as well as equivalents and restrictions, prerequisites and corequisites, required book information, and the internal assessment/examination ratio. Students also receive a paper outline when classes start, which provides more detail about the content, reading and assessment requirements for each paper.

In addition to the papers listed, departments may offer 800 and 900 level papers for MPhil and PhD students. Prospective students are advised to consult with Te Mata Kairangi School of Graduate Research and the Head of School or Dean concerned for more information.

The prescriptions refer to the papers which the University expects to offer. The availability of these papers is subject to change if the University encounters unexpected staffing or resource difficulties. For up-to-date details of 2023 offerings, see the online Catalogue of Papers at papers.waikato.ac.nz.

In all cases where it is necessary to cancel papers, the Policy and Procedure for the Cancellation of Papers will apply, as approved by the Academic Board. Copies are available from the Academic Office.

In the prescriptions, each paper is identified by an alpha-numeric code.

For example:

HISTY107-23A (HAM)

*New Zealand
Histories: Fresh
Perspectives*

HISTY		This is the subject code, in this case History
	107	This is the level of the paper, followed by a unique identifier. 100 = 100 level 200 = 200 level 300 = 300 level
	23A	This is the year and trimester in which the paper is taught.
	(HAM)	This is the location where the paper is taught.

A **prerequisite** must be passed before a student may enrol in the paper for which the prerequisite is specified. For example, JAPAN231 *Basic Japanese 1* is a prerequisite for JAPAN232 *Basic Japanese 2*. Students may not enrol in JAPAN232 until they have passed JAPAN231. (A paper for which a Restricted Pass (RP) has been awarded will not be accepted as meeting the prerequisite requirements for any other paper unless the Pro Vice-Chancellor of the relevant Division or the Dean of the Faculty of Māori and Indigenous Studies in which the other paper is offered approves otherwise).

A **corequisite** must be taken in association with the paper for which the corequisite is specified. For example ENGEE231 *Electrical Circuits* is a corequisite with ENGEN201 *Engineering Maths and Modelling 2*. You may enrol in ENGEE231 only if you have either already passed ENGEN201 or are concurrently enrolled in it.

Equivalent papers are in effect the same papers, one of which was taught in the past with a different paper code. For example ACCT331 *Management Accounting* is equivalent to ACCTN303 *Management Accounting*. Students who have passed ACCT331 may not enrol in and receive credit for ACCTN303.

Restricted papers share a significant amount of common content. Students may therefore receive credit for only one of the papers listed. For example DIGIB200 *Tools for Managing Projects* has a restriction with PRMGT301 *Fundamentals of Project Management*. Restricted papers may not be used to satisfy prerequisite or corequisite requirements.

The **required books** which may be listed under some of the prescriptions are a conservative list only.

Additional required books may be prescribed during the academic year. Lists of recommended reading are usually included in the paper outline provided by the department concerned.

The **internal assessment/examination weighting** is provided for all papers. The weighting sets out how much of the paper is internally assessed and how much is formally examined, as percentages of the total mark. The weighting 100:0 means a paper is fully internally assessed, while the ratio 50:50 shows that the assessment for the paper is evenly weighted between internal assessment and an examination. Examinations are scheduled in a formal examination period. All A trimester papers which are not fully internally assessed will be examined at mid-year unless otherwise specified. Tests that form part of the internal assessment requirements may be held outside normal lecture hours.

Teaching activities for all undergraduate papers are listed in the Timetable. Teaching activities, including lectures, tutorials, laboratories and workshops, are scheduled to last 50 minutes and begin on the hour until (and including) 12 noon, and at 10 minutes past the hour from 1:10 p.m. This allows a lunch break of 20 minutes from 12:50 p.m. to 1:10 p.m. for students with continuous teaching activity commitments. Normal teaching hours are between 8.00 a.m. and 6.00 p.m.

A **trimester** is a period for which students enrol in papers, attend classes and submit assessment items. The University of Waikato has two standard trimesters (A and B), which each normally comprise 17 weeks. There are also two intensive summer teaching periods - Summer School 1 (H trimester), normally comprising seven weeks in January/February, and Summer School 2 (G trimester), normally comprising six weeks in November/December. The trimester period includes teaching as well as any study weeks and an examination period. The exact duration of trimesters in a particular year is defined by week numbers in the [Teaching and Assessment Periods](#).

2023:	A trimester	weeks 9-25
	B trimester	weeks 28-44
	C trimester	weeks 46-7
	D trimester	weeks 9-44
	G trimester	weeks 46-50
	H trimester	weeks 1-7

Some papers have start and end dates which differ from the standard teaching periods set out above. Papers which extend across both the A and B trimesters are annotated as D papers. Papers which are taught in non-standard periods have a X, I, or J etc. suffix.

The period for which a student is eligible for loans and/or allowances, is calculated on the basis of the exact start and end weeks of papers. Students are advised of the start and end dates of their papers in the relevant paper outlines.

Student Complaints Procedures

Preamble

Consistent with its commitment to excellence, the University has adopted these procedures to assist both students and staff in the resolution of student concerns and complaints constructively, quickly and fairly.

Where minor concerns arise, students are encouraged to take a common-sense approach and raise them directly with the relevant staff, paper convenor or Dean or Head of School or equivalent with the aim of resolving them at the lowest possible level and without undue formality. However, where informal discussions have not yielded a satisfactory resolution, or where the matter is more serious, the following procedures provide for a more formal process to be pursued.

Complaints considered through these procedures will be monitored and reviewed to enable the University to continually improve processes and services in support of student learning.

Student and staff rights and responsibilities in relation to these procedures are set out in the appendix.

Procedures

1. Definitions

In these procedures

complaint means a written statement submitted by a student about a matter that requires formal consideration by the University under the terms set out in these procedures

natural justice means the right to have a decision made by an unbiased decision-maker who observes fair and impartial procedures.

student means a person enrolled at the University of Waikato.

2. Application and scope

- (1) Subject to subsection (2), these procedures apply to complaints about any aspect of the teaching and learning process and the broad provision made by the University to support that process.
- (2) These procedures may not be used
 - (a) where the complaint can be dealt with under the [Higher Degree Appeals and Complaints Regulations](#), [Student Discipline Regulations](#) or the [Assessment Regulations](#) , or
 - (b) to challenge the academic judgement of examiners.
- (3) Depending on the nature of the complaint, these procedures should be read in conjunction with the [Staff Code of Conduct](#), the [Code of Student Conduct](#), and the [Education \(Pastoral Care of Tertiary and International Learners\) Code of Practice 2021](#) .
- (4) No action will be taken on complaints that are anonymous, frivolous, vexatious or not made in good faith.
- (5) A complainant must be able to demonstrate that the complaint is brought without malice and is based on evidence that the complainant honestly and reasonably believes to be substantially true. Those responsible for resolving complaints under these procedures must take all reasonable steps to ensure that the complainant is protected against any subsequent recrimination or victimisation.
- (6) Students and staff involved in the consideration of complaints have various rights and responsibilities, which are outlined in the appendix to these procedures.

3. Informal resolution of concerns

- (1) Before making formal written complaints, students are encouraged to seek a resolution to any concerns by raising and discussing them informally with the relevant staff member who is most directly associated with the matter.
- (2) A staff member with whom a concern is raised by a student is expected to deal with the matter in an open and professional manner and to take reasonable and prompt action to try to resolve it informally.
- (3) A student who is uncertain about how to seek informal resolution of a concern is encouraged to seek advice from the [Waikato Students' Union Student Support and Advocacy Service](#).

4. Formal complaints procedures

- (1) Where it has not been possible to resolve a concern informally, a student may make a formal complaint.
- (2) A student who wishes to make a formal complaint must submit it in writing, accompanied by evidence, through [My Waikato](#) addressed to the Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent responsible for the area in which the action or matter that has given rise to the complaint occurred or, if requested to be considered under the Tikanga Māori procedure set out under section 5 of these procedures, to the Deputy Vice-Chancellor

Māori; if the complaint is about a Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent, it must be submitted to the Senior Deputy Vice-Chancellor.

- (3) The written complaint must be submitted within three months of the occurrence of the action or matter that has given rise to the complaint unless the Senior Deputy Vice-Chancellor, Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent agrees to receive it beyond this timeframe.
- (4) The Senior Deputy Vice-Chancellor, Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent who receives a student complaint must acknowledge it in writing as soon as practicable (normally within three working days). They must create and maintain a file of all documentation in relation to the consideration of the complaint.
- (5) The Senior Deputy Vice-Chancellor, Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent must consider the complaint in accordance with the principles of natural justice and must ensure that all parties to the complaint are accorded the full benefit of those principles.
- (6) The process of consideration may include meetings with relevant staff, students and the complainant. Where meetings are held, the parties may, if they wish, be accompanied by a support person.
- (7) The Senior Deputy Vice-Chancellor, Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent may refer a matter to the Police if they believe that a crime has been committed and may suspend consideration of a complaint until such time as any associated Police matter has been concluded.

5. **Tikanga Māori**

- (1) The spirit of tikanga is to seek resolutions to complaints in a Māori way that encourages a facilitated open exchange of views in order to achieve a resolution that is agreed by all the parties involved.
- (2) A complaint may only be addressed through the Tikanga Māori process if
 - (a) the complainant, and
 - (b) the person answering the complaint, and
 - (c) the Deputy Vice-Chancellor Māoriagree to the arrangements determined under subsection (3).
- (3) The Deputy Vice-Chancellor Māori is responsible for determining the arrangements for the Tikanga Māori process after discussion with the parties and for informing the parties of the nature and implications of the process.
- (4) If, at any time after having agreed to the arrangements determined under subsection (3) the complainant or the person answering the complaint wish to withdraw from the Tikanga Māori process, they may do so only with the agreement of all other parties listed under subsection (2); in such cases, the complaint will be referred to the Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent responsible for the area in which the action or matter that

has given rise to the complaint occurred; if the complaint is about a Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent it will be referred to the Senior Deputy Vice-Chancellor.

- (5) Under the Tikanga Māori process a resolution is negotiated by the complainant and the person answering the complaint.
- (6) The process is facilitated by the Deputy Vice-Chancellor Māori, assisted by a tikanga panel appointed by the Deputy Vice-Chancellor Māori.
- (7) A resolution negotiated by the complainant and the person answering the complaint is final; there is no right of appeal.
- (8) Section 6, subsections (1) and (2) and section 7 of these procedures do not apply to complaints addressed under the Tikanga Māori process.

6. Resolution of complaints

- (1) The Senior Deputy Vice-Chancellor, Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent must make a decision in relation to the complaint and notify their decision to the parties, in writing, as soon as practicable (normally within 28 days of receiving the complaint).
- (2) When the Senior Deputy Vice-Chancellor, Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent notifies the parties of their decision they must include information on the relevant provision for appeal.
- (3) If the complaint involves a University process or service and if, in the opinion of the Senior Deputy Vice-Chancellor, Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent the complaint has substance, the Senior Deputy Vice-Chancellor, Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent may arrange for the relevant process or service to be reviewed with a view to preventing a recurrence and ensuring continued improvement.
- (4) If the complaint involves a breach of the [Staff Code of Conduct](#) and if, in the opinion of the Senior Deputy Vice-Chancellor, Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent the complaint has substance, the Senior Deputy Vice-Chancellor, Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent may refer the matter to the Director of People and Capability for consideration of formal disciplinary action.

7. Appeals

- (1) A complainant or a person who was the subject of a complaint may appeal to the Senior Deputy Vice-Chancellor against any decision taken by a Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent under section 6 of these procedures.
- (2) If the original complaint was addressed to the Senior Deputy Vice-Chancellor under section 4(2) of these procedures, any appeal of that decision must be made to the Vice-Chancellor. That appeal will be considered and decided by the Vice-Chancellor or their nominee in accordance with appeal processes consistent with these procedures.
- (3) An appeal may only be made on one or more of the following grounds:

- (a) that the process used for addressing the complaint was unfair
 - (b) that the decision reached was manifestly at odds with the evidence
 - (c) that the remedy imposed was manifestly at odds with the misconduct
 - (d) that significant new evidence has become available that could not reasonably have been obtained and presented during the initial process that could have had a material effect on the outcome.
- (4) The appeal must be submitted in writing within 28 days of the date of the letter notifying the decision.
 - (5) The Senior Deputy Vice-Chancellor or the Vice-Chancellor or their nominee will consider the relevant documentation and evidence and may, at their discretion, consult the Pro Vice-Chancellor, Deputy Vice-Chancellor, Director or equivalent who made the decision. The Senior Deputy Vice-Chancellor or the Vice-Chancellor or their nominee may also interview any parties to the complaint.
 - (6) If they determine that the complaint process has been conducted in accordance with these procedures and the outcome is appropriate, the Senior Deputy Vice-Chancellor or the Vice-Chancellor or their nominee may dismiss the appeal. Subject to subsections (8) and (9), the decision of the Senior Deputy Vice-Chancellor or the Vice-Chancellor or their nominee under this section is final.
 - (7) The Senior Deputy Vice-Chancellor or the Vice-Chancellor or their nominee will notify their appeal decision in writing to the parties as soon as practicable.
 - (8) When they notify the parties of the appeal decision, the Senior Deputy Vice-Chancellor or the Vice-Chancellor or their nominee will inform the parties of the [Ombudsman's](#) role in relation to complaints about government organisations (including universities) that affect people in their personal capacities, the [New Zealand Qualifications Authority's](#) grievance procedures available to students under the [Education \(Pastoral Care of Tertiary and International Learners\) Code of Practice 2021](#) , and the [iStudent Complaints](#) financial or contractual dispute resolution service available to international students as relevant.
 - (9) The Senior Deputy Vice-Chancellor or the Vice-Chancellor or their nominee will inform any staff member who is dissatisfied with a student complaint process of the steps available to them under the University's [Procedure for Resolving Employment Relationship Problems and Personal Grievances](#).
8. **Confidentiality**

Waikato Students' Union (WSU)

The Waikato Students' Union is the voice of the student body on campus. The organisation is governed by a group of democratically elected students who listen, speak and act passionately on behalf of students, and have done for over 40 years. The WSU provides support services and consultation for students, clubs, and class reps. They create full weekly student experience programmes - from regular barbecues through to O'Week festivities - and provide an unfiltered platform for student voice through the multi-award-winning Nexus magazine.

Student Support

The WSU has a few key ways in which they support students at the University of Waikato:

Student Engagement

The Student Engagement team manages a network of over 85 rōpū, clubs, and societies as part of the WSU's commitment to an active campus. That network features clubs from every aspect of the University environment. Archetypal clubs such as debating and mooting societies are now joined by gaming clubs, cultural societies, casual hiking clubs, and a range of religious groups. If students can't find a club that fits them, the WSU Student Engagement team is always available to guide them through the process of making their own.

Student Advocacy

Whether it's tenancy, academic or hardship issues, the WSU provide a free, confidential, "no judgement" advocacy service to ensure students are aware of their rights, processes, and know that someone will always have their back. With a comprehensive list of support partners, including Community Law Waikato and Hamilton Budgeting Advisory Trust, WSU Student Advocacy ensures you get the best advice from the right people.

Student Voice

When the WSU was founded, it was based on the principle of ensuring the student voice was heard, and nearly 50 years later, that still remains their driving principle. With a 12-member board comprised entirely of students, including an elected President on the University Council, a dedicated Vice-President Māori, and a new Tauranga and Pacific director, the WSU ensures your voice matters. The Student Voice team assist in the training of class reps and provide a support service called Reo Taurira, carrying out regular consultations on campus issues and working proactively with the University to provide student-focused solutions. With the WSU we are here to ensure your voice is heard.

Student Experience

The WSU has always felt that the University experience should be more than just academics. They have a dedicated Student Experience team providing daily activities on campus, managing student spaces, and cooking free food. The last few years have also seen them develop inter-divisional competitions, expand Orientation and Reorientation weeks, as well as develop programmes for wellness and mental health awareness.

NEXUS

At the heart of the student experience is Nexus. A student magazine that provides its readers with an editorial resource to discover and challenge ideas about news, music, politics, arts, technology, and general student life. Nexus strives to encompass and reflect student culture in all its diversity.

They're constantly on the lookout for writers, artists, creatives, and media enthusiasts. If you're keen to get involved, simply email: editor@nexusmag.co.nz.  For more information visit the Ground Floor of the Students' Union Building (SUB) between 9am to 4pm (Monday to Friday), visit the WSU website: wsu.org.nz, or email wsu@wsu.org.nz .

Cyber Security Research Group (CROW)

The Cyber Security Researchers of Waikato (CROW) aims to return control of data-to-data owners, by focusing on research addressing data security from a user-centric perspective. With the emergence of cloud computing technologies and prevalent mobile device usage, we are witnessing the diminishing effectiveness of traditional cyber security approaches such as perimeter defence, intrusion detection and infrastructure hardening. To address this, CROW focuses on six major themes: Provenance, User-Centricity, Visualisation, Economics, Hardware, and Tools and Datasets. Together, these six themes empowers the return of control of data to users, thereby reducing reliance on third-party vendors or trust relationships commonly found in most cyber security contracts today.

Digital Library Group

The migration of information from paper to electronic media promises to change the whole nature of research and, in particular, the methods by which people locate information. The goal of the New Zealand Digital Library project is to explore the potential of internet based digital libraries. Our vision is to develop systems that automatically impose structure on fundamentally anarchic, uncatalogued, distributed repositories of information, thereby providing information consumers with effective tools to locate what they need and peruse it conveniently and comfortably.

Formal Methods Group

Established in 1998, this is the first Formal Methods laboratory in New Zealand. The work that goes on in this lab is based on the view that programming is at the heart of computer science. It is also based on the view that, as engineers and scientists, we should use the machinery of mathematics to model and reason about the systems that we build before we build them. This is in contrast with the view that programs should be written by trial and error (usually at great expense and with a high likelihood of failure, judged by current experience) with our users ironing out our mistakes for us at their expense. To this end, we are developing languages and tools for modelling systems, for reasoning about those models and for transforming them into code in a way that is guaranteed to preserve meaning and correctness. We do not want to build software that usually works – we want software that always works, and in the way intended by the requirements.

Information Systems and Databases Group

Most of the computer applications you encounter today are in fact Information Systems, that means, systems that manage, store and deliver information to users. Examples are search engines like Google, ticket booking systems, or online stores. Exciting new kinds of applications that we look at in the ISDB group are mobile tourist information systems, memory-aid systems and systems that notify you about changes, eg, in web pages or online shops. Our latest projects are context-aware systems that deliver information to their users depending on a user's location, time of the day, task, or mood.

Machine Learning Group

Machine learning is concerned with the task of automatically extracting useful information from data. The aim is to identify patterns that can be used to understand the domain from which the data was collected and to make predictions. Our team works on new, more efficient, algorithms for machine learning and data mining as well as new applications. We are well known for a software "workbench" called the Waikato Environment for Knowledge Analysis (WEKA), which contains a large number of machine learning techniques. WEKA is widely used for research, teaching, and commercial applications of machine learning.

Transport Research Group (TRG)

Transport affects many aspects of everyday life. In the multi-disciplinary Transport Research Group at the University of Waikato, we are interested in how:

- Transport fosters a strong and sustainable economy;
- Transport can be maintained in a way that supports healthy environments;
- Drivers might respond to changes in vehicle technology; and
- Research findings might inform decision-making in government and industry.

We explore a wide range of different questions in our studies, such as:

- What are public perceptions of connected and autonomous vehicle technologies?
- What policy issues are barriers to more widespread uptake of electric vehicles?
- What are the differences between the ways engineers and the road-using public understand risk?
- How does infrastructure investment in ports contribute to economic development and welfare?
- How can in-vehicle cyber-security help people to access more of their own information about their mobility?

Waikato Public Law & Policy Research Unit

Te Piringa – Faculty of Law at the University of Waikato has an established tradition of outstanding scholarship in Public Law and Policy as demonstrated by the contributions of the Faculty’s founding Dean, Professor Margaret Wilson, and Professor Sir Grant Hammond. Today a significant number of Faculty members continue to have research interests in these fields focused on the Faculty’s founding principles of professionalism, biculturalism, and the study of law in context. Current work in the Faculty covers a wide range of common law jurisdictions, in addition to New Zealand and Pacific Island states, and extends from constitutional and administrative law and theory to giving effect to the principles of the Treaty of Waitangi and Māori and Indigenous governance. The Public Law & Policy Research Unit promotes the widest conception of Public Law and Policy, encompassing administrative law, charity and the regulation of civil society, constitutional law, criminal law and justice, and international law. It was established to fill a clear gap in the interrogation of these policy research areas in an integrated and holistic way.

Dissertations and Theses

Deadlines for the submission of dissertations and theses for graduate qualifications are prescribed in section 12 of the [Personal Programmes of Study Regulations](#).

General information about the submission of MPhil and doctoral theses is published on the Higher Research Degrees [website](#).

Deadlines for the submission of theses for the Master of Philosophy (MPhil) and doctoral degrees - Doctor of Philosophy (PhD), Doctor of Education (EdD), Doctor of Health Science (DHSc), Doctor of Juridical Science (SJD), and Doctor of Musical Arts (DMA) are determined on an individual basis. Details about terms of enrolment for these degrees are available from Te Mata Kairangi School of Graduate Research.

Students may obtain details about style, general layout, and important conventions to be followed in writing a thesis (referencing, bibliographies etc.) from their supervisor or relevant School or Faculty. The University of Waikato Library also publishes a guide to the presentation and submission of dissertations and theses which is available from the Library [website](#).

Dissertations and Theses Regulations

1. Title

These are the Dissertations and Theses Regulations 2020.

2. Date of effect

These regulations are effective from 1 January 2020.

3. Definitions

In these regulations

dissertation means a piece of written work that reports on the findings of a theoretical or empirical investigation and is undertaken in accordance with the regulations for an honours or first masters degree

first masters degree means a masters degree except for the Master of Philosophy (MPhil)

thesis means a piece of written work undertaken in accordance with the regulations for a first masters degree and equivalent to at least 90 points at 500 level, or a piece of written work undertaken in accordance with the regulations for a Master of Philosophy or doctoral degree. Applicants who intend to integrate a creative practice component with their thesis must comply with the Requirements for PhD with a Creative Practice Component, available from Te Mata Kairangi School of Graduate Research. A thesis is externally examined and if passed is considered to embody research of a kind and standard appropriate for the thesis to be lodged permanently in the University's digital repository, Research Commons, and is publicly accessible (unless embargoed under section 12 of these regulations).

4. **Word limit for dissertations**

The maximum word limit for a dissertation is determined by the School of Faculty in which the dissertation is undertaken.

5. **Word limit for first masters theses**

Unless the Head of School or Dean of the School or Faculty in which the thesis is undertaken approves otherwise in the case of an individual student or subject, the maximum word limit for a first masters thesis is 50,000 words.

6. **Word limit for Master of Philosophy (MPhil) theses**

Unless the Postgraduate Research Committee approves otherwise in an individual case, the maximum word limit for an MPhil thesis is 50,000 words.

7. **Word limit for doctoral theses**

Unless the Postgraduate Research Committee approves otherwise in an individual case, the maximum word limit is

- (a) for a PhD thesis, 100,000 words
- (b) for an EdD or SJD thesis, 60,000 words
- (c) for a DMA thesis, 50,000 words.

8. **Submission of dissertations**

- (1) When the dissertation is ready for examination, the student must submit two copies to the relevant Head of School or Dean of the School or Faculty.
- (2) Dissertations are not required to be bound, but must be formatted and presented in accordance with relevant School or Faculty policy.
- (3) The relevant Head of School or Dean may agree to accept part or all of a dissertation solely

in digital form.

9. Submission of first masters theses

- (1) When it is ready for examination, a digital copy of the thesis, which will include an abstract of no more than 500 words, immediately following the title page and written in a form suitable for publication, must be submitted by the student to the Student Centre Team.
- (2) The thesis must be accompanied by a declaration, signed by the student's chief supervisor, stating
 - (a) whether the thesis is, in the supervisor's opinion, ready for examination, and
 - (b) that the thesis embodies the student's own work, carried out under the supervisor's direct supervision, and
 - (c) that evidence of ethical approval or a statement confirming that it is not required, in accordance with the [Ethical Conduct in Human Research and Related Activities Regulations 2008](#) and/or the [Code of Ethical Conduct for the Use of Animals for Research Testing and Teaching 2014](#)  had been provided.
- (3) After a thesis has been examined, passed and returned to a student, the student must, within three weeks, submit a final digital copy of the thesis to the University's digital repository, Research Commons.
- (4) After a thesis has been examined, passed, and submitted in final digital form the digital copy will be lodged permanently in the University's digital repository, and, unless the Deputy Vice-Chancellor Research has approved an embargo under section 12 of these regulations, will be publicly accessible.

10. Submission of MPhil and doctoral theses

- (1) When it is ready for examination, a digital copy of the MPhil thesis or the doctoral thesis, which will include an abstract of no more than 500 words, immediately following the title page and written in a form suitable for publication, must be submitted by the student to Te Mata Kairangi School of Graduate Research.
- (2) The thesis must be accompanied by a declaration, signed by the student's chief supervisor, stating
 - (a) whether the thesis is, in the supervisor's opinion, ready for examination, and
 - (b) that the thesis embodies the student's own work, carried out under the supervisor's direct supervision, and
 - (c) that evidence of ethical approval or a statement confirming that it is not required, in accordance with the [Ethical Conduct in Human Research and Related Activities Regulations 2008](#) and/or the [Code of Ethical Conduct for the Use of Animals for Research Testing and Teaching 2014](#)  had been provided.
- (3) After a thesis has been examined and passed, a student, before being entitled to have the relevant degree formally conferred, must submit in final digital form, the copy to be lodged

permanently in the University's digital repository, Research Commons, and, unless the Deputy Vice-Chancellor Research has approved an embargo under section 12 of these regulations, this copy will be publicly accessible.

- (2) Embargoes of dissertations or theses, either in part or in full, are subject to written approval of the Deputy Vice-Chancellor Research.
- (3) Embargo of a dissertation or thesis is normally approved only under the following circumstances:
 - (a) if it is pending publication

 - (c) to allow a funder to comment
 - (d) to protect pre-existing traditional knowledge of a whanau/hapu/iwi
 - (e) to protect pre-existing commercial agreements
 - (f) if there is a pre-existing contractual obligation
 - (g) if restriction is necessary under the Privacy Act 1993 or the Official Information Act 1982.
- (4) An embargo will be approved only for a limited period.
- (5) If the Deputy Vice-Chancellor Research has approved an embargo, only the author, title, abstract and other meta-data of the full digital copy held by the University may be publicly accessible through the University's digital repository, Research Commons.

Student Complaints Procedures

Preamble

Consistent with its commitment to excellence, the University has adopted these procedures to assist both students and staff in the resolution of student concerns and complaints constructively, quickly and fairly.

Where minor concerns arise, students are encouraged to take a common-sense approach and raise them directly with the relevant staff, paper convenor or Dean or Head of School or equivalent with the aim of resolving them at the lowest possible level and without undue formality. However, where informal discussions have not yielded a satisfactory resolution, or where the matter is more serious, the following procedures provide for a more formal process to be pursued.

Complaints considered through these procedures will be monitored and reviewed to enable the University to continually improve processes and services in support of student learning.

Student and staff rights and responsibilities in relation to these procedures are set out in the appendix.

Any member of the University community who participates in research and specified related activities is required to conduct the research and/or related activities in a manner that conforms with ethical standards set down by the University, by relevant national and international professional bodies, and by the law of the country in which the research is undertaken.

These regulations apply specifically to the following activities: research, teaching, consulting, evaluation, and publications which involve collecting data about and from people and organisations. These regulations also apply to any research where there are ethical issues that are not addressed by the Animal Ethics Committee [Code of Ethical Conduct for the Use of Animals for Research, Testing and Teaching](#) .

Students are referred also to the University's [Student Discipline Regulations 2020](#) in this Calendar, and the [Guidelines for Professional Practice and Community Contact in the Conduct of University Research or Related Activities](#)  (see Appendix 1 to these regulations), and the Higher Research Degrees website, as amended from time to time: <http://www.waikato.ac.nz/students/research-degrees/>.

Staff are referred also to the University's [Staff Code of Conduct](#).

Students and staff are also referred to the resources on [Human Research Ethics](#), available from the [Research & Enterprise Office](#).

Ethical Conduct in Human Research and Related Activities Regulations

1. **Title**

These are the Ethical Conduct in Human Research and Related Activities Regulations 2008.

2. **Purpose**

Ethical issues arise when University research and/or related activities involve the interests and rights of others. The purpose of these regulations is to facilitate ethical conduct which respects the rights of people, communities, companies, trusts, and other organisations. These regulations explain the standards of ethical conduct and the procedures that apply for the maintenance and monitoring of these standards. All applications to the University's human research ethics review committees will be reviewed for approval on the basis of their compliance with these regulations.

3. **Date of effect**

These regulations are effective from 1 July 2008.

4. **Scope**

(1) These regulations apply to all

(a) staff of the University of Waikato

(b) students of the University of Waikato, and

(c) any other person authorised to undertake research and/or a related activity on behalf of the University of Waikato, including those employed or contracted in wholly-owned subsidiary entities.

(2) Research collaborators or partners are expected to apply for approval of their research and/or related activities from their organisation and must also apply to the relevant University of Waikato Divisional or Faculty of Māori and Indigenous Studies committee.

(3) Under these regulations, all research and/or related activities are required to have formal ethics review and approval.

(4) Applications for approval are not required for normal teaching activities; but are required for specific teaching that involves the participation of a student or students and has the potential for harm (see section 13 of these regulations), or that involves collection of data from students.

(5) Applications are not required for University teaching evaluations or for University reviews and quality assurance activities; however, such activities do have ethical implications and should be conducted in a professional way consistent with the University *Staff Code of Conduct* and should be consistent with the spirit of these regulations.

5. **Definitions**

In these regulations

research means an inquiry of an investigative, experimental, or critical nature which is driven by a question, hypothesis, or intellectual position capable of rigorous assessment, and the

findings of which are open to scrutiny and formal evaluation. It may include any intellectual or creative work published, exhibited, presented, or performed in a written, spoken, electronic, broadcasting, visual, performance, or other medium

related activities may include teaching, consulting, evaluation, and publication when these activities involve collecting data about and from people and organisations. These activities are defined as follows:

teaching means teaching in lectures, tutorials, demonstrations, and related educational research

consulting means the provision of advice to a client, such advice being based upon the pre-existing professional knowledge and skills of the consultant

evaluation means the systematic collection and analysis of information to make judgements, usually about the effectiveness, efficiency, and/or appropriateness of the research and/or related activity

publication means any intellectual or creative work published, exhibited, presented, or performed in a written, spoken, electronic, broadcasting, visual, performance, or other medium

participant means a live human being or group of live human beings who participate in research and/or related activities whether by observation, questioning, participation in an experiment, provision of specimens or human tissue samples, or by any other means

organisation means a social unit of people systematically arranged and managed to meet a need or to pursue collective goals on a continuing basis. Examples include firms, iwi groupings, schools, and professional societies

researcher means the person undertaking research and/or related activities

harm includes physical, psychological, social, economic, or cultural harm to participants

field research means research conducted in person in a natural setting outside of a laboratory.

6. Application procedures

- (1) A staff member, student, or authorised person must not commence research or a related activity until it has been approved by the appropriate authority and in accordance with these regulations.
- (2) Researchers must submit applications for approval for their research or related activity to one of the delegated relevant Divisional or Faculty of Māori and Indigenous Studies committees (see section 22 of and Appendix 2 to these regulations) within the University.
- (3) Where applications are made to an external ethics committee, an application must also be submitted to, and approved by, the relevant delegated committee within the University (see section 22(3) of and Appendix 5 to these regulations).
- (4) Applications for approval of research and/or related activities must be submitted in the form prescribed for the relevant Division or the Faculty of Māori and Indigenous Studies (see Appendix 3 to these regulations).
- (5) If an ethical issue relating to the research and/or related activity that was not envisaged at the beginning arises during its course, the researcher must stop the research and/or related activity, consult the appropriate authority, and apply for approval. The researcher must not

begin the research and/or related activity again until the necessary approval has been obtained.

- (6) For situations where prior, free, express, and informed consent from participants may not be possible, see sections 10 and 11 of these regulations for guidance in making application for approval of the research or a related activity.

7. **Responsibility for ethics in research and related activities**

- (1) Individual staff, students, and authorised persons are responsible for ensuring their research and/or related activities comply with these regulations.
- (2) If a researcher is a student, the staff member responsible for supervising the student's research must take all reasonable steps to ensure that the student complies with these regulations.
- (3) Paper convenors may apply for ethics approval for an entire paper if it involves students in that paper engaging in research or related activities. Such applications must cover all anticipated research or related activities the student may engage in, and the convenor's, lecturers' and/or tutors' responsibilities. Applications must identify ethical issues and describe practices for addressing them.

8. **Value of research or related activities and the public interest**

- (1) A researcher must be able to justify to their peers the goals and methodology of the research and/or related activity in terms of its reasonably anticipated benefits balanced against any foreseeable risk of harm to the participants.
- (2) A researcher must normally make available the findings of research in the public domain. Any exception to this must be approved in writing by the Senior Deputy Vice-Chancellor, or by a person to whom authority is delegated in writing by the Senior Deputy Vice-Chancellor (see section 10(7) and section 14 of the [Dissertations and Theses Regulations 2015](#)).

9. **Informed consent of participants**

- (1) Researchers must gain participants' prior, free, express, and informed consent in a culturally and socially appropriate manner, unless in the case of approved exceptions. For proxy consent from authorised representatives, see subsection (4)(e) and (4)(f) of this section of these regulations. Exceptions regarding large sample surveys and similar research methods, some cases of field research, and the possibility of gaining informed consent after data collection are dealt with in sections 10, 11 and 14 of these regulations.
- (2) A researcher must establish explicit processes for reaching agreement with participants. A researcher must not involve a participant in any research and/or related activities unless the researcher is satisfied that the participant has understood the nature of their involvement and freely agreed to it in accordance with the principles outlined in this section.
- (3) A researcher must not use explicit or implicit coercion to obtain the agreement, and must not use inducement to obtain the agreement except in accordance with section 18 of these regulations.

- (4) Unless sections 10, 11 or 14 of these regulations apply, a researcher must adhere to the following principles with respect to informed consent of participants:
- (a) A researcher must inform prospective participants of all information relevant to the decision to participate including
 - (i) their right to decline to participate in the research and/or related activities or any portion or any part of these
 - (ii) the form in which the findings will be published
 - (iii) duration and security of data storage
 - (iv) their right to withdraw any information they have provided up until analysis has commenced on their data
 - (v) their right to access and correct personal information
 - (vi) the process for withdrawing information they have provided.
 - (b) The more readily identifiable the participants may be, the more formal the consent should be. Where participants are asked to answer questionnaires that might identify them, answer questions in a formal interview, undergo formal tests, or where they are subjected to formal observation and recording procedures, the process for obtaining informed consent, and the form of the consent, should be similarly formal and recorded in writing or some other reproducible form. Where the participation is more anonymous the consent may be less personalised and less explicit (see section 10 of these regulations).
 - (c) If the research or related activity involves manipulation of, or intervention in, the physical or psychological state of a participant, the participant's consent, or, if subsection (e) of this section applies, the consent of the person with authorised responsibility for the participant, must be recorded in writing or some other reproducible form.
 - (d) Because some research and/or related activities involve collectives, a researcher must recognise the complexities of relationships between individuals and collectives. In some cultures it is common for the leader of a collective to make a decision in respect of participation on behalf of its members. If an individual in a collective wishes to participate or not to participate in the research and/or related activity, regardless of a decision taken on behalf of the collective, the individual's wishes must be respected and all reasonable care taken to ensure that those wishes are also respected by other members of the collective.
 - (e) If a prospective participant is reasonably judged incapable of giving informed consent, the researcher must obtain the proxy consent from the person who has responsibility for the prospective participant's welfare, taking particular care to protect the participant's interests and also taking into account any potential conflict of interest between them and the person whose consent is required.
 - (f) A researcher who seeks the proxy consent of another person on behalf of a prospective

participant under subsection (e) of this section must make all reasonable effort to involve the prospective participant themselves in the process and the decision about consent.

- (g) Staff, students, and other approved persons must obtain informed consent when recording images of participants, participants' possessions, or research and/or related activity in which participants are involved, unless the recording of images is of lawful activity occurring in a public place and is culturally appropriate.
- (h) A researcher must provide the information under subsection (a) of this section plainly and in the language and medium that is appropriate for the prospective participants.
- (i) A researcher must inform participants of their right of access to any data that may have been collected from or about them.
- (j) A researcher must inform participants of their right to complain about the conduct of the research and/or related activity and must also inform them of the process for making a complaint.

10. Large random sample surveys and informed consent

- (1) A researcher who intends to collect data involving large numbers of people is not required to adhere to all the principles concerning informed consent outlined in section 9(4) of these regulations if the research method makes adherence to all these principles impractical or undesirable and if such a requirement is likely to impact adversely on the researcher's ability to generate reliable information.
- (2) However, the researcher must declare and justify an intention not to adhere to the principles in section 9(4) of these regulations in the application for approval submitted under section 6 of these regulations.
- (3) In these situations the researcher must provide the following information, as a minimum, to a participant before the research or related activity begins
 - (a) the anticipated length of the research or related activity
 - (b) the general purpose of the research or related activity
 - (c) the forms in which the data might be published
 - (d) an assurance that the participant will not be identified in any publication or dissemination of research findings.

11. Field research and informed consent

- (1) 'Field' research in this context means research conducted in person in a natural setting outside of a laboratory.
- (2) In field research situations, prior, free, express, and informed consent must be gained in a culturally and socially appropriate manner from participants.
- (3) In some forms of field research using such methods as participant observation, participatory research and action research, where obtaining prior, free, express, and informed consent

from all participants would be inappropriately intrusive or impractical for social, cultural, or methodological reasons, it is acceptable not to gain such consent.

- (4) However, the researcher must take care to apply other ethical principles, especially minimising the risk of harm to participants and maintaining the anonymity of participants. It may also be appropriate in such cases that informed consent be sought afterwards but prior to the publication of research findings, from people who have in the course of information collection come to the attention of the researcher.

12. Archiving of data, privacy, storage, and use of information

- (1) All non-identifying data (eg data sets and transcripts) used for publication must be securely kept long enough to allow for academic examination, challenge, or peer review. This period would normally be at least five years. Identifying data such as consent forms, photographs, and videos will be securely stored consistent with agreements made under section 9(4)(a) of these regulations. The responsibility for data storage lies with the department or other equivalent academic unit.
- (2) Where the research and/or related activity is conducted in New Zealand, the researcher must comply with the Privacy Act 1993 and the Official Information Act 1982, and must adhere to the following principles consistent with that legislation
 - (a) participants and informants must not be publicly identified or identifiable without their explicit consent
 - (b) participants must be informed (unless sections 10, 11 and 14 of these regulations apply) that they will not be identified in any publication or dissemination of the research findings without their explicit consent
 - (c) researchers must take all reasonable precautions to prevent unauthorised use, access, modification, or disclosure of personal information
 - (d) data identifying participants must not be kept for longer than required for the purpose for which it is collected (see subsection (1) of this section)
 - (e) except in circumstances specified in the relevant legislation, personal information may be used only for the purpose for which it is collected.
- (3) Where the research and/or related activity is conducted in a country other than New Zealand, the researcher must comply with any legislation that applies in that country with respect to privacy and storage of personal information.
- (4) Even where the research and/or related activity is conducted in a country other than New Zealand, the researcher must comply as far as possible with the spirit of the Privacy Act 1993 and the Official Information Act 1982; however, if there are contradictions between the legislation of New Zealand and the other country, the legislation of the other country must prevail
- (5) A researcher must include in an application submitted under section 4(3) of these regulations a statement about the conditions under which, and the period for which, any personal

information collected for the research and/or related activity is to be stored.

- (6) Data must not be made available to persons or for purposes that are not named on the application.

13. **Minimisation of harm**

- (1) A researcher must make particular effort to identify physical, psychological, social, economic, or cultural harm to participants before seeking their consent to participation.
- (2) A researcher must minimise both the risk of harm to a participant and the potential for negative consequences of the harm.
- (3) 'Harm' in this context includes pain, stress, emotional distress, fatigue, embarrassment, and exploitation.
- (4) Unless it would be impractical or undesirable to do so in the terms described in section 10 of these regulations, a researcher must consult participants to ascertain any risk of harm that they themselves may identify or concerns that they themselves may have.
- (5) If, during the course of the research and/or related activity, it is apparent to the researcher that the risk of harm to the participant is greater than originally envisaged, the researcher must inform the participant and re-evaluate the research and/or related activity in terms of the principles outlined in this section.

14. **Limitation of deception**

- (1) Deception of participants conflicts with the principle of informed consent, but in some research and/or related activities it may be necessary to withhold information about the purpose of the research and/or related activity or the procedures involved.
- (2) Research and/or related activities involving deception of participants will be approved only if the researcher demonstrates in the application for ethics review that the deception is absolutely essential to the goals of the research and/or related activity.
- (3) A researcher who undertakes research and/or related activities involving deception of a participant must ensure that the participant is provided with an explanation of the true purpose of the research and/or related activity and the reason for the deception as soon as practicable after the participation.

15. **Social and cultural sensitivity**

- (1) A researcher must respect the cultural, social, and language preferences and sensitivities of the participant.
- (2) Where the research and/or related activity potentially affects individuals or groups who are significantly different in culture from the researcher, the researcher must consult an appropriate person before the research and/or related activity begins about appropriate cultural procedures and approaches to the research and/or related activity and about informing the participant or community concerned of the research findings.
- (3) An application for ethics review under these regulations must demonstrate how the

researcher has responded to the advice received from the person consulted.

- (4) Appropriate consultation and subsequent responses on matters of social and cultural sensitivity are the responsibility of the researcher.

16. **Exploitation of relationships**

- (1) A researcher must not exploit the relationship between researcher and participant.
- (2) A researcher must resist any initiative by a participant to exploit the relationship between researcher and participant.
- (3) 'Exploitation' in this context means the seeking or obtaining of money, goods, services, favours, information or relationships that have no direct bearing on the stated research and/or related activity aims or data gathering.
- (4) Where a researcher is a staff member and the prospective participant a student, the researcher must not exploit that relationship and must strive to ensure that the student is not disadvantaged through their participation or refusal to participate, academically, professionally, or otherwise.

17. **Respect for property rights**

- (1) A researcher must ensure that procedures or publications associated with the research and/or related activity do not infringe legally determined property rights.
- (2) A researcher must ensure that procedures or publications associated with the research and/or related activity do not infringe culturally determined property rights to the extent possible and reasonable in all circumstances.
- (3) Property rights in this context may apply to land, goods, works of art and craft, images, and intangible materials such as spiritual treasures, music, information, and intellectual property (see Appendix 4 of these regulations).
- (4) A researcher must identify and address any issues associated with property rights and ownership of data at the time they seek informed consent and monitor these issues throughout the research process.

18. **Payment for participation**

A researcher must not pay participants for their participation, or arrange for participants to be paid, in money, goods, services, prizes, favours, or in any other form of remuneration or form of hospitality appropriate to the engagement, either directly or indirectly, unless the payment is approved by the appropriate approving authority (see section 22 of and Appendix 2 to these regulations).

19. **Professional codes of ethics**

A researcher must ensure that their research or related activity complies with any professional code of ethical practice or standard relevant to the research and/or related activity.

20. **University research and/or related activities in schools and early childhood services**

A researcher involved in research and/or related activities in schools or early childhood services must comply with the [Guidelines for Observation and Research in Schools and Early Childhood Services](#)  (see Appendix 5 to these regulations).

21. Declaration of potential conflict of interest

- (1) A researcher must, in an application submitted under section 4 of these regulations, declare any potential conflict of interest.
- (2) 'Conflict of interest' occurs where a researcher or related party is, or is reasonably likely to
 - (a) obtain an unfair, inappropriate, or unethical professional, commercial, or personal advantage as a result of or in connection with the research and/or related activity
 - (b) be in a position in relation to the activity or the participants that could appear to affect the researcher's impartiality in the research and/or related activity;
 - (c) obtain a direct or indirect pecuniary benefit or interest as a result of or in connection with the research or related activity.
- (3) If the research and/or related activity is commissioned or sponsored, the researcher must ensure that the commission or the sponsorship
 - (a) is declared to the participants and in any published findings

22. Authority for ethical approval and monitoring

- (1) Authority for administering these regulations rests with the University of Waikato Human Research Ethics Committee.
- (2) The University of Waikato Human Research Ethics Committee makes recommendations to the Vice-Chancellor through the Academic Board for the promotion, review, and monitoring of ethical practice in University research and/or related activities and for monitoring compliance with these regulations.
- (3) Each Division and the Faculty of Māori and Indigenous Studies has one or more committees with responsibility at the Divisional or Faculty of Māori and Indigenous level, delegated by the University of Waikato Human Research Ethics Committee, for
 - (a) the approval of research and/or related activities with human participants in the relevant Division or the Faculty of Māori and Indigenous Studies (health and disability research involving human participants must also be reviewed by the University of Waikato Human Research Ethics Committee).
 - (b) compliance with these regulations in the relevant Division or the Faculty of Māori and Indigenous Studies
 - (c) maintaining records of University research and/or related activity with human participants in the relevant Division or the Faculty of Māori and Indigenous Studies in the form required by the University of Waikato Human Research Ethics Committee
 - (d) reporting to the University of Waikato Human Research Ethics Committee in the form

required by that Committee.

- (4) The Pro Vice-Chancellor of the relevant Division or the Dean of Faculty of Māori and Indigenous Studies recommends to the University of Waikato Human Research Ethics Committee for approval the committee structure for the respective area, and the Terms of Reference, constitution, membership, and procedures of any committee involved consistent with these regulations (see Appendix 2 to these regulations).
- (5) Responsibility for the following matters in any organisational unit outside a Division or the Faculty of Māori and Indigenous Studies is delegated by the University of Waikato Human Research Ethics Committee to the Director of that unit
 - (a) ensuring applications for approval of research and/or related activities with human participants in the unit are submitted to the University of Waikato Human Research Ethics Committee
 - (b) compliance with these regulations in the unit
 - (c) maintaining records of human research and/or related activities with human participants in the unit in the form required by the University of Waikato Human Research Ethics Committee
 - (d) reporting to the University of Waikato Human Research Ethics Committee in the form required by that Committee.
- (6) A committee at the relevant Division or the Faculty of Māori and Indigenous Studies level, or a Director of a unit outside a Division or the Faculty of Māori and Indigenous Studies, may consult with the University of Waikato Human Research Ethics Committee at any time and may request that the University of Waikato Human Research Ethics Committee review any relevant matter, or review any decision taken under delegated authority.

23. Researcher appeals against decisions concerning applications for approval

- (1) Having made an application under these regulations, a researcher may appeal to the University of Waikato Human Research Ethics Committee against any decision taken at the relevant Divisional or the Faculty of Māori and Indigenous Studies level.
- (2) A researcher may appeal to the Academic Board against any decision by the University of Waikato Human Research Ethics Committee under these regulations.
- (3) The Academic Board may determine its own procedures for hearing and deciding the appeal provided that they conform with the principles of natural justice, and may delegate authority to hear and decide an appeal on its behalf.
- (4) The decision of the Academic Board (or delegated authority) on an appeal is final.

24. Addressing concerns and complaints

- (1) A concern or complaint about the research and/or related activities to which these regulations apply may be referred to the University of Waikato Human Research Ethics Committee.
- (2) If a concern or complaint arises, the University of Waikato Human Research Ethics

Committee may require that the relevant research and/or related activity be discontinued until the issue is resolved.

- (3) If the University of Waikato Human Research Ethics Committee considers that the issue is sufficiently serious, it may refer the matter to the Vice-Chancellor who may arrange for it to be dealt with as applicable
 - (a) under the [Student Discipline Regulations 2020](#), as amended from time to time
 - (b) as a breach of the [Staff Code of Conduct](#)
 - (c) as the Vice-Chancellor thinks fit.

- (2) The Academic Board determines its own procedures for hearing and deciding the appeal conforming with the principles of natural justice, and delegates authority to hear and decide an appeal on its behalf.
- (3) The decision of the Academic Board (or delegated authority) on an appeal is final.

[Part 5: Reporting](#)

Preamble

At the time they enrol, students are required to agree to abide by the regulations of the University of Waikato as published in the University of Waikato Calendar. The Student Discipline Regulations provide the framework for addressing alleged breaches of University regulations by students and for applying penalties where breaches are substantiated.

Members of the University community are entitled to operate and interact in an environment of safety and respect. It is expected that students will act with integrity and demonstrate respect for others.

If differences and disputes arise between members of the University community, it is expected that they will attempt to resolve such conflicts reasonably and co-operatively. Discipline procedures should be used only where other methods of resolving conflicts have been ineffective or would be inappropriate.

It is the policy of the University that all discipline procedures conform to the principles of natural justice. The procedures in these regulations have been adopted to safeguard the rights of individuals in this respect.

Scores can vary according to the qualification sought.

International students apply for admission online at www.waikato.ac.nz/study/apply

Permanent residents of Australia and New Zealand, Australian citizens, and students from the Cook Islands, Tokelau or Niue who are New Zealand citizens, are treated as New Zealand students and do not need to apply for admission as international students.

Please note that to be eligible for domestic tuition fees, permanent residents and citizens of Australia must be living in New Zealand for the duration of the study. Domestic tuition fees information is available at www.waikato.ac.nz/study/costs/tuition-costs-domestic.

All international students enrolling in an undergraduate programme must hold as a minimum requirement, an equivalent university entrance qualification; as set out online at www.waikato.ac.nz/study/enrolment/undergraduate-international.

Many of the degrees offered at the University of Waikato have prerequisites on their core papers. Applicants who have not achieved specified prerequisites through their study will be required to take additional papers or foundation courses in order to satisfy these prerequisites. Applicants in this

situation are advised that not all papers may count towards the completion of the degree and that the programme may take an additional period of time.

Code of Practice

The University of Waikato has agreed to observe and be bound by the *Education (Pastoral Care of Tertiary and International Learners) Code of Practice 2021*. Copies of the Code are available from the New Zealand Qualifications Authority website <https://www.nzqa.govt.nz/providers-partners/tertiary-and-international-learners-code/>.

Students should refer to the Code of Practice for their specified responsibilities and to the International Student Handbook or this Calendar for University procedures and recommendations.

Tuition Fees and Charges

1. International students are required to pay full cost tuition fees. Students should refer to the [Table of Fees and Charges](#) for other fees and charges that may be applicable.
2. New international PhD students may be eligible for domestic fees for their studies. Conditions apply. For more information, see the [Higher Research Degrees](#) website.

New Zealand Immigration Requirements

1. All international students must hold a valid student visa for the duration of their studies. A visitor visa is only valid for courses lasting less than three months in total. Further information regarding the various requirements of Immigration New Zealand (INZ) can be obtained from the Immigration New Zealand website, or the nearest New Zealand High Commission or Embassy.
2. An offer of place at the University of Waikato does not guarantee that the student will be issued with a student visa.
3. International students are required to obtain a student visa before travelling to New Zealand. Students must provide evidence to show they can have enough money to support themselves while they study in New Zealand. The source of fund is considered stable and there are no unexplained lump sum deposits. For more information please see [here](#).
4. The University is required to report to INZ those students who are not fulfilling the requirements of their student visa, which includes completing compulsory course components and passing papers.
5. Full details of immigration requirements, advice on rights to employment in New Zealand while studying, and reporting requirements are available from INZ, and can be viewed on their website at <https://www.immigration.govt.nz>.

Pre-paid Tuition Fees Policy

1. As indicated above, international students are required to obtain their student visa and pay their tuition fees before enrolment can be completed. These funds are held against the student's name until they complete their enrolment in person. This policy details the process for refunding these

- funds if (i) the student travels to New Zealand and does not complete their enrolment, or (ii) completes the first trimester of study and does not enrol in the second trimester of study and they have a student visa valid for one year, with the exception of students enrolling in B trimester then A trimester.
2. All students must apply in writing for a refund of their pre-paid tuition fees to the Director of Student Services Division.
 3. Students are required to supply a verified copy of their passport and student visa, and a copy of their University of Waikato receipt(s) with their application for a refund.
 4. The University of Waikato will notify INZ that the student has not fulfilled the obligations of their visa by completing their enrolment at the University of Waikato.
 5. Where a student wishes to attend another institution in New Zealand, the University of Waikato will transfer the pre-paid tuition fees to that institution, upon written confirmation from that institution of the student's intention to study. This should be in the form of a formal letter of offer or invoice which confirms the student's acceptance into a qualification. If the student has already paid their tuition fees at the other institution, the University of Waikato will refund the pre-paid tuition fees to the student, upon written confirmation from the other institution that the fees have been paid. It is the student's responsibility to provide the necessary documentation from the other institution.'
 6. Where a student will be returning to their home country, the funds will be refunded in one of two ways:
 - (a) an overseas bank draft sent to the overseas address provided by the student
 - (b) if it is known that the pre-paid tuition fees have been paid by a third party, the refund may be paid back to that third party
 7. Where a student is wishing to remain in New Zealand without enrolling at an educational institution, the University of Waikato will refund these funds either:
 - (a) upon evidence of a valid INZ visa to remain in New Zealand, or
 - (b) confirmation that INZ has discharged the University of Waikato's duty under the original student visa.
 8. If a programme of study is cancelled by the University of Waikato, a full refund of pre-paid tuition fees will be made to the student by bank draft.

International Students Refund Administration Charge

International students who withdraw their application or their enrolment before the start date of their programme will receive a 100 percent refund of pre-paid tuition fees less a \$500 Administration Fee. Students who withdraw their application or their enrolment after the start date of their programme but during the period for deletion of papers (refer to Clause 12 of the [Change of Enrolment Regulations 2012](#), will receive a 100 percent refund of pre-paid tuition fees less a \$2,000 Administration Fee.

Compulsory Medical and Travel Insurance

International students (including group students) must have appropriate and current medical and travel insurance while studying in New Zealand, as stated in the *Code of Practice for the Pastoral Care of International Students*. Under the Immigration New Zealand Policy, this must be at least for the duration of your student visa. Enrolment is dependent on proof of appropriate insurance. To simplify the process of selecting insurance, the University has selected Studentsafe-University (underwritten by Allianz New Zealand) as the preferred insurance policy for all international students. The Studentsafe-University insurance premium will be added to tuition fees at the time of enrolment, resulting in international students being automatically enrolled in the Studentsafe-University insurance scheme. This premium will not be charged if evidence of an alternative compliant insurance policy is provided to the University before the specified deadline (please note there are only a small number of approved alternative compliant policies). For further information please refer to the website <https://www.waikato.ac.nz/study/international>.

Eligibility for Health Services

Most international students are not entitled to publicly funded health services while in New Zealand. If you receive medical treatment during your visit, you may be liable for the full costs of that treatment. Full details on entitlements to publicly funded health services are available through the Ministry of Health, and can be viewed on the website <https://www.health.govt.nz>. The Accident Compensation Corporation provides accident insurance for all New Zealand citizens, residents and temporary visitors to New Zealand, but you may still be liable for all other medical and related costs. Further information can be viewed on the ACC website www.acc.co.nz.

New Zealand Government Scholarships

The New Zealand Aid Programme (NZAP) is the New Zealand Government's International Aid and Development Programme managed by the Ministry of Foreign Affairs and Trade. Education is vital to the New Zealand Aid Programme's mission of supporting sustainable development in order to reduce poverty and contribute to a more secure, equitable and prosperous world. Scholarships are available to citizens from selected developing countries to undertake vocational training or tertiary level study in their home country, in New Zealand, or in the Pacific region. These scholarships enhance the skills, training and knowledge of individuals, and build their capacity to contribute to the sustainable development of key areas in their home country. The eligibility criteria and application process can be found on: <https://www.mfat.govt.nz/en/aid-and-development/new-zealand-government-scholarships/>.

Strategic Alliances, International Partnerships and Agreements

The University is a forward-looking, innovative institution that welcomes strategic alliances, international partnerships, and agreements. Consideration is given to international institutions that match the University of Waikato profile in terms of reputation, academic standing, and research output.

All proposals for University to University linkages should be discussed in the first instance with the

International Office. Proposals for guaranteed credit agreements need submission of full documentation to the International Office which will refer them to the appropriate academic authority for approval. Partnership proposals are welcome and will be explored on a case by case basis.

Memorandums of Understanding should also be submitted as proposals to the International Office, which will refer them to the appropriate authority.

Overseas visitors are welcome. Prospective visitors should contact the International Office with full background information about their proposed visit. The International Office will assist in arranging an itinerary which meets both the visitors' and the University of Waikato's needs.

These are the Change of Enrolment Regulations 2012.

2. Date of effect

These regulations are effective from 1 January 2020.

the **addition** of a paper, with payment of the prescribed fees

the **deletion** of a paper, with refund of the prescribed fees (the paper is deleted from the student's academic record)

withdrawal from a paper, without refund of any fees (the paper remains on the student's academic record, annotated as 'withdrawn')

change of qualification, major or specified programme.

MyWaikato means the computer system, accessible to enrolled students, which enables them to apply for change of enrolment on the internet.

4. Application

These regulations apply to papers at 0, 100, 200, 300, 400, 500 and 700 levels.

Note: Policies and procedures with respect to change of enrolment for 800 (MPhil) and 900 (doctoral) level programmes are available from the School of Graduate Research.

5. Fees

The fees referred to in these regulations are available online at www.waikato.ac.nz/study/costs.

6. **Teaching periods**

The teaching periods referred to in these regulations are defined in the [Teaching and Assessment Periods 2022](#) section of the University of Waikato Calendar.

7. **COVID-19**

Pursuant to the COVID-19 Public Health Response (Vaccinations) Order 2021 or any University [COVID-19 vaccination requirement](#), the University may delete a paper from a student's enrolments at any time if:

- (1) the student has not provided and maintained a valid Ministry of Health My Vaccine Pass as evidence of COVID-19 vaccination or exemption, and
- (2) the paper requires the student to undertake a future activity that would breach the COVID-19 Public Health Response (Vaccinations) Order 2021 or any University [COVID-19 vaccination requirements](#).

8. **Programme approval**

Any change of enrolment constitutes a change to a programme of study and requires the approval of the relevant Division or the Faculty of Māori and Indigenous Studies.

9. **Procedure for change of enrolment**

- (1) Applications for change of enrolment must be submitted to the relevant Division or the Faculty of Māori and Indigenous Studies that the student is enrolled in for consideration. They need to be submitted through MyWaikato.

- (3) Attendance at classes and submission of items for assessment does not constitute enrolment in that paper.

10. **Timeframe for change of qualification, major or specified programme**

Provided that no changes are made to the selection of papers, a student may apply to change a qualification, major or specified programme at any time.

11. **Deadlines for adding papers (with payment of the prescribed fees)**

- (2) An application to add an Executive Education paper must be submitted to the Waikato Management School at least one month before the start of the paper.

12. Deadlines for substituting papers (with transfer of the prescribed fees)

A student may apply to add a paper in place of a paper being deleted up until the relevant deadline listed in section 13 of these regulations provided that the paper to be added is of the same or lesser points value as the paper to be deleted.

- (2) Where subjects provide for different levels of proficiency on first enrolment (e.g. Mathematics, languages), a student may apply to transfer, with a transfer of fees, from one paper to a closely related paper in the same subject up until the relevant deadline for withdrawal listed in section 14 of these regulations.

1. **Withdrawal from papers (without a refund of the tuition fee)**

- (1) Unless exceptional circumstances apply (as provided for under section 15 of these regulations), a student who withdraws from a paper after the deadline for deletion (see section 13 of these regulations) is not entitled to a refund of the fees for that paper; if the fees have not been paid, the student remains liable for them.
- (2) An application to withdraw from a pre-degree or undergraduate paper (0, 100, 200, 300, 400 levels or 700 level) after the deadline for deletion (see section 13 of these regulations) must be submitted to the relevant Division or the Faculty of Māori and Indigenous Studies by the following dates:

1. Late deletion or withdrawal under exceptional circumstances

Policy on the Use of Māori for Assessment

Statement of Principle

1. In recognition of the status of the Māori language as a tāonga protected under the Treaty of Waitangi, and within the spirit of the Māori Language Act 1987, the University of Waikato endorses the right of its students to use the Māori language in written work for assessment within the University.
2. In keeping with the above and in accordance with its Charter commitments the University seeks to have sufficient suitable staff employed or available throughout its Divisions or the Faculty of Māori and Indigenous Studies to ensure that any work submitted in Māori would be assessed in that language by staff competent in the subject under examination and in the Māori language.
3. In the meantime, the use of the Māori language in assessment is subject to conditions set out in this policy statement.

Exceptions

4. There are occasions when, due to the nature of the skills being tested, work submitted for assessment may be required to be in a particular language. In such cases that requirement shall be made explicit in writing, either in the relevant subject entry or prescription in the University of Waikato [Catalogue of Papers](#) or in the paper outline distributed to candidates at the beginning of a paper.

Notice

5. Candidates who intend to present all or part of an examination or piece of internally assessed work in Māori are requested to give at least 14 day's notice of their intention of doing so in writing to the Student Centre. This notice of intention is desirable to allow the University the time and opportunity to make proper arrangements for marking including, when necessary, translation and external assessment. If less than 14 days' notice is given, the material presented in Māori will still

be accepted. The processing of it may, however, be delayed and the opportunity to have the script marked in the original language may be reduced.

6. Where a candidate who intends to present material in Māori has given the requested notice of intention, they will be informed as soon as reasonably possible, as to whether or not the assessment will be based on translation.

Potential for Delays

7. The University will do its best to make the results of an examination or item of internally assessed work presented in Māori available to the candidate within the ordinary time-frame. However the process of assessment in such cases, possibly including translation, may result in delays in the return of coursework or in the publication of results.

Māori-speaking Paper Examiners

8. The examination or internally assessed work will be assessed in Māori by the examiner for the paper if the examiner is considered by the Deputy Vice-Chancellor Māori or their nominee to be linguistically competent to do so.

Co-examiners

9. If the examiner of the relevant paper is not competent to assess in Māori, a co-examiner, competent in both the subject under examination and in Māori, may be appointed to conduct the assessment of work presented in Māori in consultation with the examiner.

Translation

10. If no person is available in the circumstances to assess the work in Māori, a translator will be appointed by the Deputy Vice-Chancellor Māori or their nominee in agreement with the appropriate chief examiner. The translator will be asked not to correct errors in the original nor to make any embellishments; however, ambiguities may be pointed out to the examiner. Where necessary the examiner may seek clarification of the translation of the paper from the translator but contact between the student and the translator is prohibited, as is contact between the student and the examiner. The assessment will then be carried out by the examiner of the paper on the basis of the translation.

The University intends that resort to translation be made only when reasonable efforts to find an examiner capable of assessing the work in its original language have been exhausted.

11. In the process of appointing a translator, the Deputy Vice-Chancellor Māori or their nominee will take all reasonable steps to ensure that the translator is competent in the relevant subject under examination, as well as in the Māori language.

External Assessment

12. If the internal assessment and/or examination script is to be subject to external assessment, the other institution undertaking the external assessment will be requested to indicate whether an external assessor is available to conduct the assessment in Māori. If not, a translation will be obtained for the purpose by the University according to the process explained in sections 10 and 11 of these regulations.

Return of Scripts

13. When any translation is relied upon in the assessment of an examination, a candidate making proper application for the return of a script shall also receive any translation made of the script. When assessed coursework is normally returned to the student, any translation used is likewise to be returned.

Appeals and Reconsiderations

14. An appeal against a decision regarding linguistic or subject competence made under the provisions of sections 8 and 11 of these regulations shall be to the Senior Deputy Vice-Chancellor whose decision shall be final.
15. The regulatory provisions for reconsideration of final grade together with the established appeal provisions will apply, with the addition that the Māori Language Commission is regarded by the Council as the final authority on the accuracy of a translation.

Oral Work

16. The details of this policy apply to written internally assessed work and to examinations. When oral work is assessable, the same principles should apply; however, practicalities may necessitate more restricted policy details, such as a requirement on the candidate to give longer notice or a limitation on the use of Māori where oral work involves interaction with other candidates.
