Every day’s an Open Day

At Waikato, we pride ourselves on our warm and welcoming culture. That’s why our campuses in Hamilton and Tauranga are open for you to come and check them out.

If you want to get a taste of University of Waikato life, set up an appointment with one of our Future Student Advisers. They’ll assist and direct you to the right person who can give advice on postgraduate study.

Make an appointment by emailing recruitment@waikato.ac.nz or by phoning 0800 WAIKATO.

This publication is correct at time of print.
It has been printed with vegetable-based inks and environmentally responsible papers, supporting the growth of responsible forest management worldwide.
This document is printed throughout on Colotech, which is FSC certified and from responsible sources.
The University of Waikato is committed to reducing its environmental footprint.
The University of Waikato is a reflection of New Zealand culture; we are ambitious, innovative thinkers that let little get in the way of achieving big dreams.

We are a truly global university in the heart of New Zealand and our focus is on the future. We stand proudly on the world stage as an institution that provides a future-focused, international education and plays an active part in global research.

We understand the need for a world-class education that provides you with a full and dynamic university experience. Our students learn from award-winning lecturers and world-leading researchers, so you can be sure you are learning from the best.
If you want to upskill, make a career change, become an expert in your field, add value to your CV, or gain a competitive edge, then postgraduate study is for you.

We offer a number of postgraduate study options, from taught postgraduate (in-class study) to postgraduate research. Our postgraduate students have the opportunity to learn from world-leading teachers and researchers in a supportive learning environment.

Whether you’re looking to advance knowledge or gain competitive advantage in the workforce, a postgraduate qualification from the University of Waikato can get you there.

**Advance your career**

Employers highly value the extra edge and experience that postgraduate study provides. This is especially true in a competitive job market where currency and relevance mean staying on top of industry standards and trends.

In addition to increasing your employability, postgraduate study can offer financial benefits. Graduate Employment Destination Surveys, conducted annually, indicate that graduates who have completed postgraduate qualifications are offered higher salaries.

**Change your career**

Studying for a postgraduate qualification is an ideal way to enter a new career, and is a pathway that offers valuable, practical training, helping you convert to a new field of employment.

**Invest in knowledge**

A postgraduate qualification is an investment in your knowledge and expertise. If you still have the desire to learn and carry out research, a postgraduate course can satisfy your intellectual curiosity.

As well as enabling specialisation in your field, postgraduate study means you can narrow your focus or improve your knowledge of a niche area, which will help you to gain a significant advantage in the workplace or fulfil a personal interest.

**Make a difference**

Postgraduate study provides opportunities for you to make a difference in your community or even the world. With the acquisition of new skills and knowledge, you can explore ways to develop the society we live in for the benefit of all.

---

**RACHEL CARSON**

Graduate Diploma Teaching (Secondary)

“I’ve always been interested in working with young people, so teaching as a career seemed an obvious choice for me. But before I did that, I wanted to hone my skills as a musician, so that I could be the best music teacher around. Doing a Bachelor of Music first, meant I could become an expert in my field. Adding the graduate diploma on top of that means I can be an expert at passing on those skills too. It’s the best of both worlds really – especially because that next level of expertise only takes one year to complete! I’m excited for what’s to come and I already feel a lot more prepared to transition into the workforce than before I started.”
Study in Hamilton

Our main campus is based in the vibrant city of Hamilton, situated in the central North Island and close to Auckland, New Zealand’s largest city, and many other outdoor attractions.

Our on-campus atmosphere is relaxed and friendly, and is equipped with everything you need. We have five cafés, a campus pharmacy, shops, banks, a library, quiet study spaces and a campus crèche.

Affordable living

Compared to other large cities in New Zealand, Hamilton is a very affordable city to live in.

Accommodation

Off-campus

You can expect to pay $100 – $130 a week for a room in a flat within walking distance of the campus.

Self-catered accommodation

Self-catered accommodation for returning and mature students is also available in Student Village (42 rooms), Bryant Hall (20 rooms), College Hall (27 rooms) and Orchard Park (110 rooms).

Transport to campus

We’ve got plenty of on-campus parking for students at a maximum cost of $2 a day. Students can purchase parking permits for $60 a semester. There are also regular buses to and from the campus, and lockable bike storage facilities on-campus.

Facilities on campus

• Campus crèche
• Library
• Student Centre
• Gym and recreation centre (UniRec)
• Cafés
• Banks
• Pharmacy
• Doctors
• Chapel and Prayer rooms
• Post office
• Book shop
• Accommodation
• Outdoor pool

Waikato Students’ Union

The Waikato Students’ Union (WSU) gives students a strong collective voice on campus and nationally. WSU also organises activities during Orientation Week, as well as Clubs’ Day, and musical performances.
Study in Tauranga

The University’s Bay of Plenty campuses offer a growing range of graduate and postgraduate qualifications in one of New Zealand’s most sought after locations – combining beautiful beaches, city life and university study.

Our campuses

The University is based across several locations in the Bay of Plenty: Windermere Campus, Bongard Centre, the Coastal Marine Field Station, the Institute for Professional Learning and the University of Waikato Adams Centre for High Performance. We’re expanding with the development of the University-led CBD campus in the heart of Tauranga City.

Our two primary locations are Windermere Campus and the Bongard Centre, which we share with Bay of Plenty Polytechnic. Windermere Campus is located on the southern side of the city and currently caters for students studying teaching, social work, psychology, social policy and science. The campus provides a wide range of student services and support. Parking is free and buses stop nearby.

The Bongard Centre sits in the heart of the city and currently caters for students studying law, business, and computing. Parking is available in the city and a range of buses stop just down the road.

For more information about the Coastal Marine Field Station and the University of Waikato Adams Centre for High Performance Sport see page 6 or visit uwt.waikato.ac.nz/about-us/our-campuses

Our facilities

There are a wide range of services available to students across our Tauranga campuses including the following.

- Cafes (Windermere and Bongard)
- IT and computer labs (Windermere and Bongard)
- Library (Windermere and Bongard)
- Health services (Windermere and Bongard)
- Aquatic and fitness centre (Windermere Campus)
- Childcare Centre and Kohanga Reo (Windermere Campus)
- Automotive Services (Windermere Campus)
- Beauty Salon (Windermere)

For more information visit uwt.waikato.ac.nz/student-links/campus-services

Programmes on offer

We have a growing range of graduate and postgraduate study options available in Tauranga. Visit uwt.waikato.ac.nz/study-here for a full list of what’s available or download a copy of the Tauranga prospectus at waikato.ac.nz/study/prospectus.shtml

Contact uwt@waikato.ac.nz for more information.

Studying in the Bay

Many classes are taught in person by Tauranga-based lecturers and tutors. Some of our Hamilton-based staff also travel to Tauranga. For other classes, live video-conferencing connects our Tauranga and Hamilton classrooms as they are being taught. Tauranga students have the same access to lectures, study materials and teaching staff as Hamilton-based students.

Accommodation

There are a number of affordable accommodation options available to students in the Bay of Plenty. Visit uwt.waikato.ac.nz/student-links/student-accommodation for details.

New Tauranga CBD Campus

From 2020, students will have even greater options for tertiary study in the Bay with the development of the Tauranga CBD campus. The University-led campus will be shared with other members of the Bay of Plenty Tertiary Education Partnership and will provide new, modern spaces for students. For more information visit waikato.ac.nz/tauranga-campus/
Our world-class facilities

Our first-class facilities will provide you with a student-centred learning environment designed to give you the support you need while you study with us.

Student Centre

Our multi-functional Student Centre on the Hamilton campus is equipped with a café, library services, computer facilities, and quiet study areas. The centre is a central hub of support, combining traditional library resources with hi-tech IT facilities.

For information about student support services available in Tauranga, visit uwt.waikato.ac.nz/student-links

Law and Management Precinct

The new Law and Management precinct on the Hamilton campus houses Te Piringa - Faculty of Law and Waikato Management School’s Centre for Corporate and Executive Education, as well as other student services. It has a five-storey office tower and rooms at a below-ground level that feature a living lawn roof. The tower is linked below ground-level to the existing Management building on Hillcrest Road, and has offices, interview/meeting rooms, a boardroom, computer labs, student services, function areas, reception and research areas, a sunken courtyard and a moot courtroom. Furnishings in the moot courtroom came from the old Manukau District Court and a history of the University dating from 1964 is featured in photographs along a history wall in the stair-well.

Research Institutes

We have six Research Institutes that support world-class research in environmental science, demography and economic analysis, business and leadership, professional learning and development, education, and Māori and indigenous development. They are:

• Environmental Research Institute (ERI)
• National Institute of Demographic and Economic Analysis (NIDEA)
• Institute of Professional Learning (IPL)
• Wilf Malcolm Institute of Educational Research (WMIER)
• Te Kotahi Research Institute (TKRI)

Coastal Marine Field Station

Located in Sulphur Point, Tauranga, the Coastal Marine Field Station is involved in teaching, environmental monitoring, coastal and marine research and discovery. It is part of the Environmental Research Institute.

Gallagher Academy of Performing Arts

The Gallagher Academy of Performing Arts on the Hamilton campus is specifically designed for the performing arts, equipped with a world-class concert chamber and classrooms.

The University of Waikato Adams Centre for High Performance

In partnership with Tauranga City Council, the University of Waikato Adams Centre for High Performance is to become one of New Zealand’s leading providers of research in sport science, health and human performance. The centre, which opened at Blake Park (Mount Maunganui) this year, houses the University’s purpose-built laboratory space, and is equipped with a state-of-the-art environmental chamber that allows for heat manipulation, humidity and altitude for research and acclimatisation purposes.
Living costs

Hamilton and Tauranga are affordable cities to live and study in. Both offer affordable accommodation costs giving you more money to spend on exploring New Zealand, socialising with new friends or supporting your family.

Note: All figures are in NZD $.

Cyber Security Lab
Situated in the Faculty of Computing and Mathematical Sciences in Hamilton, the Cyber Security Lab is one of the first cyber security labs in New Zealand. Major focus points of the Lab are to develop solutions that enable users to know their data provenance, and preserve the privacy and utility of data.

Sport Science Lab
Located at the Avantidrome (Cambridge), the University of Waikato Sports Science Lab provides specialist measurement services to athletes, such as cyclists, triathletes, rowers, kayakers and runners, as well as field testing for team sports.

SHEM RODGER
PhD, Sport and Leisure

“Being able to work closely with top cyclists has been significant in my research on ketone supplementation and its effect on cycling performance. The University of Waikato Sports Science Lab based in the Avantidrome (Cambridge) is equipped with everything I need and is an instrumental component to the work I’m doing.”

LAW BUILDING
STUDENT CENTRE
Student support

At the University of Waikato, we are committed to supporting you along your journey. We have a number of facilities and services available to make sure your time with us is successful.

Library services
The Library, located in the Student Centre on the Hamilton campus, offers specialised study and research assistance through a range of channels. The Library also has a range of guides available to help you learn how to locate and use resources. Tutorials run throughout the year covering topics such as finding academic articles, academic referencing, Zotero, Endnote, Powerpoint, Excel and Word for Thesis Writing.

For more information visit waikato.ac.nz/library

If you’re studying in Tauranga you’ll have access to the Bay of Plenty Polytechnic collections at the Bongard and Windermere campuses. Books for your courses are purchased by the University and stored in the Bongard Library so this is where you will spend most of your time. You can also supplement your reading by requesting books from the University of Waikato Library.

For more information visit waikato.ac.nz/library/services/tauranga

Campus crèche
Situated on the Hamilton campus grounds, the campus crèche caters for children aged three months to six years. Each of the crèche’s centres specialise in working with a specific age group.

For more information visit campuscreche.co.nz/

For information on the Childcare Centre located on Windermere Campus in Tauranga visit www.boppoly.ac.nz/go/childcarecentre. We also have a full immersion Te Reo Māori family programme, Te Kohanga Reo o Poike, for tamariki. For more information visit www.boppoly.ac.nz/go/kohanga-reo

Health and counselling services
We offer a range of health services for all students on our campuses, including counselling, doctors, nurses and healthcare support. Family planning and physiotherapists are available in Tauranga.

The Hamilton campus has an ecumenical chaplain, a Catholic priest and two Muslim prayer rooms. A number of religious student groups are affiliated to the Waikato Students’ Union.

For more information on student health services visit www.boppoly.ac.nz/go/health-centre for Tauranga, and waikato.ac.nz/sasd/health/health.shtml for Hamilton

Academic support
If you need help with your assignments or with study skills, our learning support team can help. We assist with the development of skills such as time management, essay writing, note-taking or exam preparation. You can set up a group session or a one-on-one consultation.

Disability support services
There are many services available, including lecture materials, learning support, alternative examination arrangements, and access to assistive technology. Please be aware there may be a charge for some of the services.

Careers Office
Career Development Services offer free advice to students, recent graduates and alumni. Our team can assist you with career planning, developing your CV and cover letter, interview skills, social media and personal brand. We connect students and graduates with employers through careers fairs and employer campus visits. Career Development Services also deliver Job Readiness initiatives to support international students’ transition from the University to the workplace in New Zealand.

For more information visit waikato.ac.nz/sasd/careers/

IT and computer labs
Students have access to computers in the Library and various locations across the campuses. Students have a profile that they can save and access from any computer on campus.

Postgraduate Students’ Association
The Postgraduate Students’ Association (PGSA) exists to represent all postgraduate interests at the University of Waikato, and works to cultivate a strong postgraduate culture on campus. The association holds a number of events during the year to help support students in postgraduate studies, including writing for theses, postgraduate presentations, and hosting guest speakers who discuss postgraduate matters, and social events.

For more information visit waikato.ac.nz/pgsa/
Graduate and postgraduate scholarships

Waikato offers a range of scholarships for students to help fund study and study-related expenses. There are a number of scholarships offered by the University at a postgraduate level and Faculties also offer their own scholarships.

**University of Waikato Taught Postgraduate Fees Scholarship**

The University of Waikato established this fees scholarship to support students studying at postgraduate level, primarily undertaking coursework. Preference will be given to students on a pathway to research qualifications at the University of Waikato. Awards will be determined on academic merit.

**University of Waikato Summer Research Scholarships**

University of Waikato Summer Research Scholarships provide promising undergraduate, final-year honours and first-year masters degree students the opportunity to experience the challenges and rewards of research.

The Summer Research Scholarships are offered in various disciplines from November to February. The number of scholarships offered in any one year will be determined by the availability of funding and appropriate supervision.

**University of Waikato Masters Research Scholarship**

This scholarship is designed to encourage research, especially in the form of a 90- or 120-point thesis, at the University. The scholarship will cover student tuition and a living stipend.

**University of Waikato Doctoral Scholarship – up to $85,000**

As part of our commitment to postgraduate research, the University of Waikato provides doctoral scholarships for eligible students to undertake a doctoral degree at the University of Waikato. These cover student tuition fees and an annual living stipend.

**University of Waikato Research Institute Scholarships**

The University of Waikato has six flagship Research Institutes each offering a doctoral scholarship and a masters research scholarship.

The Research Institutes support world-class research in environmental science, demography and economic analysis, business and leadership, professional learning and development, education, and Māori and indigenous development.

The doctoral scholarships are worth up to $85,000 for three years and are open to domestic and international students. The masters research scholarships are open to domestic students only. Applicants for both these scholarships are required to study full-time.

**New Zealand National Agricultural Fieldays Sir Don Llewellyn Scholarship – up to $22,000**

The New Zealand National Agricultural Fieldays Sir Don Llewellyn Scholarship was established by the New Zealand National Fieldays Society. The scholarship is founded to assist students to undertake research at the University of Waikato with a specific focus on the agricultural sector.

**Sir William Gallagher Cyber Security Scholarship – up to $25,000**

This scholarship was established in 2015 to support academically talented students studying towards a Master of Cyber Security qualification at the University of Waikato.

Sir William Gallagher is a long-standing supporter of the University of Waikato and Hamilton-based Gallagher is one of the world’s leading technology innovators in physical security systems.

The Sir William Gallagher Cyber Security Scholarship will provide students studying in the Master of Cyber Security programme with both financial support and industry experience through a research project at Gallagher. The scholarship will cover student tuition fees and a living stipend.

**University of Waikato Masters Publications Scholarships**

As part of our commitment to postgraduate research, the University of Waikato provides Masters Publications Scholarships for students who have submitted their 90- or 120-point masters thesis for examination. These scholarships are designed to support students to work with their masters supervisor to complete a co-publication or an approved publication outcome within the context of a research team after submission of their masters thesis. The scholarships are intended to support and enhance research excellence at the University of Waikato.

**University of Waikato Doctoral Publications Scholarships**

As part of our commitment to postgraduate research, the University of Waikato provides Doctoral Publications Scholarships for students who have submitted their soft-bound doctoral thesis for examination. These scholarships are designed to support students to work with their PhD supervisor to complete a co-publication or an approved publication outcome within the context of a research team between submission of their soft-bound doctoral thesis and their oral examination. The scholarships are intended to support and enhance research excellence at the University of Waikato.

To find out more about our scholarships and to apply, visit waikato.ac.nz/scholarships
Our Faculties

Faculty of Arts & Social Sciences
Faculty of Computing & Mathematical Sciences
Te Kura Toi Tangata
Faculty of Education

Te Piringa - Faculty of Law
School of Māori & Pacific Development
Faculty of Science & Engineering
Waikato Management School
The Faculty of Arts & Social Sciences is one of the larger Faculties within the University, and arguably the most diverse. The Faculty places emphasis on offering a comprehensive range of subjects and research areas.

Our Faculty is made up of three Schools: the School of Arts, the School of Social Sciences and the School of Psychology. Across the Faculty we offer over 50 subjects and an enviable range of qualifications. We have more than 140 talented academic staff, including many with international origins or qualifications. Our research portfolio is recognised nationally and internationally, which reflects the quality of our academic staff.

Rankings and accreditations

Subjects in the top 250 QS World University Subject Rankings 2016:

- English Language and Literature
- Geography
- Linguistics
- Media Studies
- Modern Languages
- Sociology

The QS Subject Rankings assess nearly 800 universities around the world on the quality of 30 different subject areas.

National Institute of Demographic and Economic Analysis (NIDEA)

NIDEA’s primary goal is to help inform choices and responses to the demographic, social and economic interactions that are shaping New Zealand’s future.

Mediarena Centre for Research

The Mediarena Centre for Research in Participatory Cultures and Creative Technologies brings together a transdisciplinary community of researchers to work on a broad-based programme of research, aligned with international-scale issues, and concerned with the emergence, impact and futures of technologically-enabled participatory cultures.

Research Units

- Audience Research Unit
- Historical Research Unit
- Learning, Behaviour and Welfare Research Unit
- Māori and Psychology Research Unit

Research Groups

- Traffic and Road Safety Research Group (TARS)
- Waikato Gender Research Network (WGRN)

- Master of Philosophy 40
- Doctor of Philosophy 40
- Doctor of Musical Arts 40

Talk to us if you have any questions. We will help you plan your programme and advise you on degree, subject and entry requirements.

DR FIONA MCCORMACK

Economic and Environmental Anthropologist, Senior Lecturer in the Faculty of Arts & Social Sciences

An expert in the field of economic and environmental anthropology – Dr Fiona McCormack’s comparative work on the social consequences of ITQ fisheries is globally recognised. She is a member of Dartmouth Rights Based Fisheries, an international working group aiming to reclaim coherence in fisheries management. Dr McCormack joined the University of Waikato in 2012 and is the Convenor of the Faculty’s Anthropology programme. Along with her research on fisheries, she also publishes on indigeneity, property and Treaty claims and conducts field research in New Zealand, Hawai’i, Iceland and Ireland. Her recent publications include Engaging with Capitalism: Cases from Oceania and Mauss, Interestedness, and Disinterestedness: Hawaiian and Māori Fisheries.
The Faculty of Computing & Mathematical Sciences is recognised as one of New Zealand’s leaders in this field. We have a strong international reputation for both our research and teaching excellence. Staff are actively involved in a wide range of exciting and innovative research that transcends the boundary between theory and practice.

**Rankings and accreditations**
Subjects in the top 250 QS World University Subject Rankings 2016:

- Computer Graphic Design Research Group

**Centre for Open Software Innovation (COSI)**
The Centre for Open Software Innovation provides a focus for open software development at the University, promoting and supporting the principles of open development, and showcasing exemplars of open software.

**Machine Learning Group**
Machine learning is concerned with the task of automatically extracting useful information from data. The aim is to identify patterns that can be used to understand the domain from which the data was collected and to make predictions. Our team works on new, more efficient, algorithms for machine learning and data mining as well as new applications. We are well known for a software “workbench” called the Waikato Environment for Knowledge Analysis (WEKA), which contains a large number of machine learning techniques. WEKA is widely used for research, teaching, and commercial applications of machine learning. It has been used to help determine what information dairy farmers use in deciding which cows to keep in their herds, been applied to bioinformatics problems such as gene interaction discovery, and been used for many other applications.

- Master of Philosophy 40
- Doctor of Philosophy 40

An award-winning cyber security expert running New Zealand’s only cyber security lab has the backing of some of the best in the world. Dr Ryan Ko heads CROW (Cyber Researchers of Waikato) and was instrumental in the University of Waikato launching New Zealand’s only masters degree in cyber security. He has been involved in cloud computing from the earliest days, working for HP’s Cloud and Security Lab. He currently serves as part of Cloud Security Alliance (CSA)’s Asia Pacific volunteer leadership as Research Adviser, and is the founder of the CSA Cloud Data Governance Working Group and CSA Cloud Vulnerabilities Working Group. He is also representing the Australasian region in the development of a new global Cloud Security Professional certification with the International Information Systems Security Certification Consortium ((ISC)²).

Dr Ko joined the University of Waikato to tackle cloud security issues from a user viewpoint, rather than a commercial one.

Te Kura Toi Tangata Faculty of Education

Te Kura Toi Tangata Faculty of Education is New Zealand’s premier research-led education institution, offering programmes in education, teacher education, sport and leisure studies, and counsellor education.

We push boundaries and continue to strengthen our teaching and research partnerships with schools and stakeholders to produce quality graduates in areas such as teaching, education, Māori education, leadership, sport and leisure studies, human development and counsellor education.

We pride ourselves on a number of innovative firsts. We were the first to offer early childhood qualifications, and teacher education online programmes. Our masters and PhD research programmes also break new ground. We’re in an environment that lets us be at the cutting edge, and Te Kura Toi Tangata Faculty of Education is determined to be part of these educational developments through the three interconnected disciplines of teaching, research and professional learning.

Rankings and accreditations

Subjects in the top 100 QS World University Subject Ranking 2016:
• Education

The QS Subject Rankings assess nearly 800 universities around the world on the quality of 30 different subject areas.

Research Institutes

Institute of Professional Learning (IPL)

IPL is a bilingual, bicultural professional learning and development organisation that provides research-informed programmes of professional learning and development. The work IPL undertakes contributes to improved professional practice in early childhood centres, kura, schools and tertiary institutions, nationally and internationally.

Wilf Malcolm Institute of Educational Research (WMIER)

WMIER undertakes research that makes a difference to policy and practice in early childhood, primary and secondary schools and tertiary education.

Centres

• Centre for Global Studies in Education (GSE)
• Early Years Research Centre
• Technology, Environmental, Mathematics and Science Education Research Centre (TEMS)
• The Centre for Educational Leadership Research

Qualifications

Bachelor of Teaching with Honours 19
Bachelor of Sport & Leisure Studies with Honours 19
Graduate Certificate in Sport and Leisure Studies 20
Graduate Diploma of Teaching (Early Childhood/Primary or Secondary) 20
Graduate Diploma of Teaching 20
Postgraduate certificates and diplomas 21
Master of Counselling 30
Master of Disability and Inclusion Studies 30
Master of Education 30
Master of Educational Leadership 31
Master of Sport and Leisure Studies 31
Master of Teaching and Learning 31
Master of Philosophy 40
Doctor of Education 40
Doctor of Philosophy 40

Claire’s interest in early childhood education (ECE) began 35 years ago when she enrolled her eldest son as a toddler with the early childhood parent cooperative, Playcentre. Her fascination for young children and their learning has turned into a satisfying and interesting career in early years education.

Claire’s research aims to make a difference to the lives of New Zealand children and is focused on examining which models of professional learning will support teachers to be the best practitioners they can possibly be.

“In recent years this work has been focused around literacy and physical activity. I think children deserve opportunities to grow and develop to their potential and that having access to really excellent teachers is one way to support that ambition.”

Claire’s current research is a project on physical activity in ECEs with four Best Start early childhood centres in Hamilton and Auckland.

Claire has completed a BA in English and Education, MA (Hons, 1st class) and PhD in Education from Massey and has taught education at Massey University, University of Auckland, AUT and the University of Wisconsin-Madison.

Te Piringa - Faculty of Law

Law at the University of Waikato is a rich, challenging subject. Study law and become a champion of rights and a leader of society. Lawyers are critical thinkers, crucial to the smooth functioning of society and upholding a democratic way of life.

At Waikato, we offer world-class training in all core law subjects. Ranked among the top 200 law schools in the world, Te Piringa - Faculty of Law is dedicated to teaching a comprehensive and practical law programme.

Our dynamic approach to education and research, combined with small classes, mentoring programmes and a staff open-door policy, ensures that you’re supported by the best in the business.

We have a large number of optional law papers to choose from, including law of armed conflicts, Māori and indigenous issues law, law of commercial transactions, natural resources and environmental law. Whether studying at undergraduate or graduate level, you will be considering business practices of financial markets, corporations, national and local governments, trusts and iwi. You will be analysing the operation of law in a local, national and global arena and considering social policy and social change.

The challenging and enriching learning experience at graduate level is recognised and appreciated by our students. Te Piringa - Faculty of Law runs the biggest doctoral law programme of any law school in New Zealand.

New Law building

A new multimillion dollar Law building opened earlier this year at our Hamilton campus. This facility has a moot courtroom for law students, computer labs and spaces for you to study and socialise.

Rankings and accreditations

Law is ranked in the top 200 by QS World University Subject Rankings 2016. The QS Subject Rankings assess nearly 800 universities around the world on the quality of 30 different subject areas.

Centre for Environmental, Resources, and Energy Law (CEREL)

CEREL is dedicated to studying environmental and energy law, sustainable development issues and national resource management.

Centre for Māori and Indigenous Governance (MIGC)

MIGC seeks to improve Māori governance generally, whether it concerns Māori trusts and corporations, asset-holding companies, iwi organisations, post-settlement governance entities, marae and hapu committees, and indigenous peoples’ organisations globally.

Double Master of Law (LLM): Waikato + Arizona

If you’re interested in holding two Master of Law (LLM) degrees from internationally highly regarded Faculties of Law, this option could be for you. The University of Waikato Te Piringa - Faculty of Law and the University of Arizona, James E. Rogers College of Law offer an opportunity to complete two Master of Laws degrees in two countries in a shorter period of time. You need to be accepted for an LLM degree with Te Piringa – Faculty of Law to qualify.

Qualifications

Bachelor of Laws with Honours 19
Graduate Diploma in Law 20
Graduate Diploma in Dispute resolution 20
Master of Laws 32
Master of Laws in Māori/Pacific and Indigenous Peoples’ Law 32
Master of Philosophy 40
Doctor of Juridical Science 40
Doctor of Philosophy 40

He’s New Zealand’s leading authority on the laws of war and their implications, and is constantly being called on to comment when there’s international unrest. Syria, Israel, Gaza, Russia, there aren’t many war-torn nations Professor Gillespie hasn’t been asked about by international media.

He has advised the Ministry of Foreign Affairs and Trade and the Department of Conservation on legal and policy matters, and consulted the United Nations, the Commonwealth Secretariat, the European Commission, and governmental, commercial and non-governmental organisations in New Zealand, Australia, United States, United Kingdom, Ireland and Switzerland.

PROFESSOR ALEXANDER GILLESPIE
Legal Expert

lawrecp@waikato.ac.nz

Talk to us if you have any questions. We will help you plan your programme and advise you on degree, subject and entry requirements.
Te Pua Wānanga ki te Ao is unique as the only school of its type in the world. Te Pua Wānanga ki te Ao aims to uplift the people of Aotearoa.

Te Pua Wānanga ki te Ao represents innovation and tradition in teaching, learning and research, and it provides national and international leadership in Māori, Pacific and indigenous issues and sustainable development.

Te Pua Wānanga ki te Ao is distinctive in that it actively promotes Māori, Pacific and indigenous people's cultural and development issues through its teachings, learning, research, conferences and publications. A number of graduate papers are also available online. Staff of Te Pua Wānanga ki te Ao provide leadership and role modelling in teaching, learning, research and administration, and offer a full range of academic opportunities from undergraduate to post-doctoral teaching, learning and research. Believing strongly in its students, the School aims to help, strengthen and support you academically by providing a mentoring service.

Centre for Māori and Pacific Development Research (CMPR)

The strategic goal of the Centre for Māori and Pacific Development Research is to uphold the University’s commitment to the Treaty of Waitangi by becoming a centre of research excellence capable of fostering the self-determination, self-governance and development efforts of indigenous peoples in New Zealand, Australia, and Pacific rim countries.

Qualifications

Bachelor of Arts with Honours – Te toho Taki Paerua
Bachelor of Media and Creative Technologies with Honours – Te Tohu Taki Paerua Pāpaho Toi
Bachelor of Media and Creative Technologies with Honours – Te Tohu Taki Paerua Pāpaho Toi
Postgraduate Certificate – Tohukete
Postgraduate Diploma – Titohu
Postgraduate Diploma in Interpreting and Translating Māori – Te Titohu Whakamāori
Master of Arts
Master of Media and Creative Technologies
Master of Māori and Pacific Development
Master of Philosophy
Doctor of Philosophy

Te Kotahi Research Institute (TKRI)

Te Kotahi Research Institute is the unified vision of Te Rōpū Manukura, a unique advisory body representing all iwi within the University’s region. Te Kotahi Research Institute supports the work of the Pro Vice-Chancellor Māori to sustain iwi relationships and develop the research capacity amongst staff and students while realising the research needs and aspirations of iwi.

ASSOCIATE PROFESSOR MATAMUA (TUHOE)

Director of Research in the School of Māori & Pacific Development

Associate Professor Matamua (Tuho), leads a Marsden-funded project that’s examining Māori beliefs, practices and observations in relation to astronomy, ecology and ritual. “Astronomy was something all Māori did at one time. It was embedded into our history and lives,” says Dr Matamua.

Early cultures centered their beliefs, practices and understandings around the movement of the celestial bodies and linked that to ecological and environmental information.

For their Marsden project, Dr Matamua and his team – Drs Hēmi Whaanga and Ann Hardy from Waikato, Dr Pauline Harris from Victoria and Dr Kaliko Baker from the University of Hawai‘i at Manoa – will be using archaeoastronomy, cultural astronomy, oral histories, semi-structured interviews, surveys and environmental observations to complete their research project. They have about 3000 entries on the database so far, but Dr Matamua estimates they’ll end up with well over 10,000. “I hope that my work will help to develop a new generation of Māori astronomers. We need to ensure the ancient knowledge isn’t lost,” he says.
Faculty of Science & Engineering

The Faculty of Science & Engineering is ideally placed in the centre of New Zealand’s leading scientific region. Our research and our internationally recognised teaching staff are supported by some of the world’s most advanced laboratory equipment. Our graduates go on to pursue rewarding careers both here and overseas, with the knowledge that they are making a difference to the lives of others.

There are two schools in the Faculty (School of Science and School of Engineering) and many active research groups, spanning a wide range of topics.

Our science and engineering graduates are trained to be innovative, multi-skilled, and adaptable. Their career prospects are limited only by their interests and imagination, and our graduates are employed throughout New Zealand and overseas in a wide range of well-paid, interesting and stimulating occupations.

Environmental Research Institute (ERI)
The Environmental Research Institute undertakes multi-disciplinary environmental research across a range of ecosystems to inform policy and practices that will support effective environmental outcomes.

Research Centres
- Centre for Biodiversity and Ecology Research (CBER)
- Energy Research Centre
- International Centre for Terrestrial Antarctic Research (ICTAR)
- Waikato Centre for Advanced Materials (WaiCAM)
- Waikato Radiocarbon Dating Laboratory

Research Units
- Co-operative Education Unit
- Engineering Education Research Unit (EERU)
- Thermophile and Microbial Biochemistry and Biotechnology Unit (TRU)
- Waikato Stable Isotope Unit (WSIU)

Groups
- Cortical Modelling Group
- Coastal Marine Group
- Solar Energy Research Group (SERG)
- Waikato Agritech Group

Qualifications
- Bachelor of Engineering with Honours 19
- Bachelor of Science with Honours 19
- Graduate Certificate and Diplomas 20
- Postgraduate Certificate and Diplomas 21
- Master of Engineering 34
- Master of Science 34
- Master of Environmental Sciences 35
- Master of Science (Research) 35
- Master of Science (Technology) 36
- Master of Philosophy 40
- Doctor of Philosophy 40

COASTAL MARINE FIELD STATION
The Coastal Marine Field Station, part of the University’s Environmental Research Institute, is located in Tauranga and has become a major centre of marine research excellence. The Coastal Marine Field Station is involved in teaching, environmental monitoring, coastal and marine research and discovery.

The Coastal Marine Field Station also has a unique collaboration with the University of Bremen in Germany, called Intercoast (Integrated Coastal Zone and Shelf-Sea Research) which is overseen in New Zealand by Professor Chris Battershill.

TITANIUM ALLOYS AND 3D PRINTING
Professor Brian Gabbitas and his team from the Waikato Centre for Advanced Materials (WaiCAM) have Ministry of Business, Innovation & Employment funding to research novel ways of producing and commercialising high-quality titanium and titanium products in New Zealand.

“One of our projects is looking at how to up-scale the process of using titanium powder to create extruded and forged titanium products,” says Professor Gabbitas.

“This could be used for many products currently made from steel, but which would benefit from having a much lower weight and good corrosion resistance, like marine products for example.”

engineering@waikato.ac.nz
Talk to us if you have any questions. We will help you plan your programme and advise you on degree, subject and entry requirements.
Waikato Management School is a Triple Crown-accredited, world-class business school. We are respected internationally for high-quality teaching, practical student experiences, and industry relevant research.

Social Sciences and Management Faculties are ranked 90th in the world for employer reputation and 122nd overall (QS World University Faculty Rankings by Faculty 2016)

The QS Subject Rankings assess nearly 800 universities around the world on the quality of 30 different subject areas.

Institute for Business Research (IBR)
The Institute for Business Research is known for its cutting-edge research. Staff have a wealth of expertise in areas ranging from innovation to economic impact analysis. Staff within the institute work with industry, government agencies and other organisations to enhance productivity and contribute to sustainable business.

Qualifications
Bachelor of Business Analysis with Honours 19
Bachelor of Communication Studies with Honours 19
Bachelor of Electronic Commerce with Honours 19
Graduate Certificates and Diplomas 20
Postgraduate Certificates and Diplomas 21
Master of Business Administration 37
Master of Business and Management 37
Master of Business and Management – Specialised 37
Master of Electronic Commerce 38
Master of Management Studies 38
Master of Professional Accounting 39
Doctor of Philosophy 40

“Waikato Management School’s Triple Crown accreditation is what makes my MBM stand out from the crowd. It makes it recognised across the globe. The MBM has a series of modules that cover every aspect of what you need to know before starting a business. My favourite part of the degree was the action learning project, where you put everything you’ve learnt into practice. The student culture and atmosphere of Waikato Management School is friendly, and the MBM has taught me how to communicate better, and how to make decisions in critical situations. I have learnt to question the cause and effect of each and every act in a business.”

KEERTHANA SURESH

Bachelors with Honours degrees

At Waikato, we offer a range of programmes so you can build a qualification that fits with your interests, career plans and lifestyle.

Bachelors with honours degrees are one-year full-time programmes normally comprising 120 points and continuing a subject taken as a major in a first or bachelors degree. While the degree is a qualification in its own right, it may also be an intermediate stage leading to a one-year masters degree.

Admission is generally open to students with a B/B+ average in a first degree in the major subject. The degree is awarded with a class of Honours.

For academic entry requirements, see page 44.

For information on individual bachelors with honours degrees, contact the relevant Faculty or School.

List of Honours Degrees

- Bachelor of Arts with Honours
- Bachelor of Business Analysis with Honours – Financial
- Bachelor of Communication Studies with Honours
- Bachelor of Computer Graphic Design with Honours
- Bachelor of Computing and Mathematical Sciences with Honours
- Bachelor of Electronic Commerce with Honours
- Bachelor of Engineering with Honours

- Bachelor of Media and Creative Technologies with Honours
- Bachelor of Music with Honours
- Bachelor of Science with Honours
- Bachelor of Social Sciences with Honours
- Bachelor of Sport and Leisure Studies with Honours
- Bachelor of Teaching with Honours
- Bachelor of Tourism with Honours
Graduate certificates and diplomas

If you are looking to quickly acquire new skills for a new career, a graduate certificate or diploma is a great option for you.

Graduate certificates

Graduate certificates are intended to develop your knowledge and skills in a subject area that is different to your first degree’s major. You may be eligible if you haven’t studied for a degree before if you can demonstrate an interest in the subject area and a satisfactory academic ability. By choosing to study a graduate certificate you can quickly develop career competency in a single subject area.

A graduate certificate is a shorter version of a graduate diploma, is studied at undergraduate level, and can be completed in the equivalent of one semester of full-time study.

Graduate diplomas

Studying a graduate diploma helps you develop knowledge and skills in your chosen subject area which will enable you to undertake a new career or further study.

Graduate diplomas are intended to provide the equivalent of a major in a subject area that is different to your first degree’s major. You may be eligible if you haven’t studied for a degree before if you can demonstrate an interest in the subject area and a satisfactory academic ability.

A graduate diploma is a more in-depth version of a graduate certificate, is studied at undergraduate level, and can be completed in the equivalent of one year (two semesters) of full-time study.

To complete the qualifications, students need to gain 120 points at 100 level (first year papers) or above, including at least 80 points at 300 level (third year papers) or above, in the graduate diploma subjects. At least 80 points must be from one of the subjects shown in this guide (see pages 46–50).

Sample qualification structure

Below are examples of a graduate certificate and graduate diploma programme structure. For information on individual graduate certificates and diplomas, contact the relevant Faculty or School, or visit [waikato.ac.nz/study/postgrad](http://waikato.ac.nz/study/postgrad). To find out more information on graduate certificate and graduate diploma regulations, visit [calendar.waikato.ac.nz/regulations/](http://calendar.waikato.ac.nz/regulations/)

For academic entry requirements, see page 44. For a list of subjects, see pages 46–50. See the glossary on page 51 for some helpful definitions.

- 200 level** 200 level** 200 level**

**Elective**

* From one subject area.

** You may select 100 level papers. This choice would mean you need more than one paper.
Postgraduate certificates and diplomas provide the opportunity for continuing professional development in the same area as an original degree. A postgraduate diploma can often lead to a masters degree.

**Postgraduate certificates**
Postgraduate certificates are available to graduates who wish to build on an earlier degree, and who have appropriate practical, professional or scholarly experience. Some are available only on a part-time basis. The University of Waikato offers specialist postgraduate certificates as well as postgraduate diplomas.

**Postgraduate diplomas**
Postgraduate diplomas generally comprise a one-year full-time programme of graduate papers. They build on attainment in a prior degree and demonstrated practical, professional or scholarly experience.

**Sample qualification structure**
Below are examples of a postgraduate certificate and postgraduate diploma programme structures. For information on individual postgraduate certificates and diplomas, contact the relevant Faculty or School, or visit [waikato.ac.nz/study/postgrad](http://waikato.ac.nz/study/postgrad). Masters degrees

Masters degrees allow you to study a specialised topic and develop advanced knowledge and skills that will significantly enhance your CV and help you stand out in a highly competitive job market.

If you already have a degree in a particular area but want to develop a much more advanced area of specialised focus and set of skills, we have a range of masters degrees that will enable you to do this.

Exercise requirements and completion times vary by Faculty. Masters degrees may be awarded with honours or, in some cases, distinction. The programme may combine taught papers with a research thesis or dissertation, depending on what you choose to study.

Sample qualification structure

Below is an example of a masters programme. For more information about our masters programmes, refer to pages 23 – 39. For further information, contact the relevant Faculty or School, or visit waikato.ac.nz/study/postgrad.

For academic entry requirements, see page 44. See the glossary on page 51 for some helpful definitions.

NATHAN ORR

Master of Management Studies in Management Sustainability

“Postgraduate study let me tailor my studies around sustainability management, an area I was interested in. Working alongside world-leading researchers, I was able to connect with and interview, business leaders from some of New Zealand’s largest firms. This gave me a good look into the sustainability practices of Kiwi businesses and the ‘do’s and don’ts’ of how to communicate those practices. The experience taught me the importance of networking, and that’s how I landed my first job as Business Development Manager for the Waikato Chamber of Commerce. Eventually I’d like to start up my own business or consultancy firm.”
Faculty of Arts & Social Sciences

Master of Applied Psychology (MAppPsy)

This specialist programme enables students to develop a sound understanding of the underlying concepts, principles and guiding values associated with behaviour analysis, community psychology or organisational psychology.

During their study, students will gain hands-on experience in their relevant area through work placements and projects with organisations and community groups.

Depending on your specialty, you may work in a range of settings (including research institutions, private practice, schools, special education settings, universities, health services, business and industry, governmental agencies, and zoos).

2 years (full-time)  
Intakes: March/July

Approximate one-year cost  
$7,298 – $7,772  
Entry requirements: See page 44

UNIVERSITY OF WAIKATO TRAFFIC AND ROAD SAFETY (TARS) LAB

The TARS lab was designed for the TARS Research Group, whose members’ include Associate Professors Nicola Starkey, Robert Isler, Samuel Charlton and John Perrone from the University’s School of Psychology. Founded in 1993, the TARS Research Group has established an international reputation and is an independent provider of quality research for many local and national roading and safety groups.
Master of Arts (MA)

Enrolling in an MA provides the opportunity to engage in independent (but supervised) research in one or more of a very wide range of Arts subjects. Graduating with an MA at an appropriate level is a gateway to a higher research degree or to a variety of careers.

There are programmes within the MA that have networks and relationships with a diverse range of business, community, government, education and not-for-profit. These networks are dynamic and include local and regional networks through to links with national and international bodies. Music and Theatre Studies, for example, have links directly with the public at large through the Gallagher Academy of Performing Arts. History has close links with the New Zealand Historical Association, and English with Creative New Zealand and the Fulbright Foundation.

Many of MA subjects studied by graduates equip them for specific careers:

- A Screen and Media Studies graduate might become a director or producer, a media relations adviser, a media research executive, a professional fundraiser, a public affairs specialist, a public relations consultant or a journalist.
- History graduates might become historians, museum curators, heritage researchers or work in community development (for instance, with tribal authorities).
- Foreign language graduates might work in the diplomatic service or become international marketing managers, trade commissioners, interpreters or translators.

Majors in the MA

- Anthropology
- Chinese
- Education Studies
- English
- French
- Geography
- German
- History
- International Relations and Security Studies
- Japanese
- Mathematics
- Music
- Philosophy
- Political Science
- Psychology
- Screen and Media Studies
- Theatre Studies

Note: Māori Media and Communication, Te Reo Māori and Tikanga Māori can be taken for the MA. Please see the School of Māori & Pacific Development page 15.

BIANCA LAWRIE

Master of Arts, German

“I chose to study languages because languages open you up to different cultures and a different way of thinking. They provide you with a means to understand who you are through comparisons of your own culture to completely different cultures. I like the staff, the environment and the attitudes of the students. The campus is beautiful and the upgraded library is an amazing study space.”
**Master of Arts (Applied) (MA(Applied))**

The MA(Applied) is for people who wish to pursue a career teaching English as a second language. To teach English at university-level in places like Asia, a masters qualification, such as the MA(Applied), is required. The MA(Applied) is also suitable for those working in other areas of language teaching who are contemplating a career shift and wish to work abroad.

Through completing the Postgraduate Diploma in Second Language Teaching (PGDipSLT), which is the pathway into the MA(Applied), students will be exposed to practicums organised by the Applied Linguistics Department and given the opportunity to teach under supervision. The department also has close connections with the University of Waikato’s Pathways College, through assistance with professional development, and the English programme offered through Hamilton’s Wintec.

Graduates of the MA(Applied) are employed in schools and universities in a number of countries, either teaching English or at a management level within a school or education environment.

**Master of Clinical Animal Behaviour (MCAB)**

The Master of Clinical Animal Behaviour is advanced study in the diagnosis and treatment of problem behaviours in animals. The degree provides students with background theoretical knowledge, training in critically appraising relevant literature, and the opportunity to apply their knowledge in practical situations. It also provides the opportunity to undertake independent research in an area relevant to the field of Clinical Animal Behaviour.

Depending on the qualification completed and individuals’ particular interests, graduates of this programme may find employment in a range of animal-related industries and roles, including:

- Advanced animal training
- Animal behaviour consulting
- Animal behaviour research or technician work
- Animal-related organisations, authorities, animal shelters, boarding kennels and catteries
- Zoos

Master of Environment and Society (MEnvSoc)

The MEnvSoc is designed for those with undergraduate qualifications in social sciences, environmental sciences, law, economics or management. Students build on their qualifying degrees to gain advanced knowledge and critical analysis of the many and diverse perspectives applied to understanding and addressing environmental challenges.

The programme draws on a pool of community and professional contributors to provide guest lectures, workshops and host field trips. Possible career paths include policy work (local, regional and national), and working with the Waitangi Tribunal and iwis.

Master of Environmental Planning (MEP)

This is an advanced programme which enables students to extend their knowledge of planning acquired in previous study and to engage in independent research. The qualification is designed to encourage students to develop specialist knowledge, advanced research skills, breadth and depth of understanding, and independent critical judgement in relation to planning practice. The MEP will provide graduates with advanced knowledge and skill in both planning theory and practice enabling them to undertake a wide range of work in professional planning consultancies and local and central government agencies.

The Environmental Planning Programme has the service of a Planning Advisory Group, which consists of experienced planning professionals in the region. In addition to this, the programme draws on an extensive pool of professionals to provide guest lectures, workshops and host field trips. Staff members of the programme are affiliated to the New Zealand Planning Institute and other networks such as the Resource Management Law Association.

Master of Media and Creative Technologies (MMCT)
The MMCT is designed to extend the creative and technical reach of media designers, performers and creators. Alongside taught papers, you will work on a year-long supervised programme where you will develop a major work (or works) that serves as the capstone of your graduate portfolio of creative works. This rich package of high-level career development activities provides MMCT graduates with a distinct edge in an increasingly competitive field, both in New Zealand and overseas.

The programme has close links with Hamilton City Council and with a wide range of communities in the Waikato and across New Zealand. The Gallagher Academy of Performing Arts on campus provides one of the key venues for showcasing the cultural capital of the University and facilitating community involvement in University-based projects while the Mediarena facility provides a cutting-edge digital studio facility for postgraduate students and staff across the creative disciplines and related academic fields.

Graduates are equipped to work in the areas of the performing arts and music as well as audio-visual technicians, film and television editors, animation artists, communications officers, media and cultural analysts and in media publishing.

12–18 months (full-time) Intakes: March/July
Approximate one-year cost $7,298 – $7,772 Entry requirements: See page 44

Master of Music (MMus)
The MMus provides research-led, practice-driven supervision of music composition and performance in preparation for a career as a professional musician. The papers offered towards the MMus have been designed to achieve the following particular outcomes involving mastery of content, acquisition of skills and development of attributes.

Students have a number of opportunities to participate in their respective musical fields in ways that contribute to their emerging professionalism and which also offer significant networking links nationally and internationally.

Graduates can work in a vast array of areas such as broadcasting, multi-screen creation, community development and music.

12 months (full-time) Intakes: March/July
Approximate one-year cost $7,298 – $7,772 Entry requirements: See page 44

JULIA BOOTH
Master of Music, Performance
Opera singer, voice consultant and teacher

“Musical theatre demands a different set of skills – for me, I feel there is more scope and freedom. The music teachers and staff in the Music Department at the University of Waikato are genuinely looking out for your musical interests. It’s a small department, everyone knows each other and you get a lot of opportunities to perform. There is a huge focus on performance.”
Master of Social Sciences (MSocSc)

This is an advanced programme of study in a social science discipline that introduces students to the frontiers of knowledge and research techniques in their chosen field. It builds on their bachelors or honours qualifications and it includes a substantial component of independent investigation and the preparation of a dissertation or thesis.

Faculty members who supervise in the MSocSc have links with a diverse range of business, government, community and other groups that support and provide input into the majors taught in the degree.

Many of the subjects studied by MSocSc graduates equip them for specific careers in government, policy, counselling, tourism, environmental planning, the not-for-profit sectors and humanitarian work.

$7,298 – $7,772

Entry requirements: See page 44
### Faculty of Computing & Mathematical Sciences

#### Master of Computer Graphic Design (MCGD)

The Master of Computer Graphic Design (MCGD) is an advanced degree focusing on graphic design theory, technology and original research. The MCGD provides an opportunity to plan, develop and carry out a large scale design research project working with members of the professional design industry.

To enrol for the MCGD students must have completed a bachelors degree in Computer Graphic Design or equivalent.

#### Master of Cyber Security (MCS)

The Master of Cyber Security (MCS) is the first Cyber Security masters to be offered in New Zealand. Students gain an advanced understanding and knowledge of cyber security from the point of view of preventative security, detection of security breaches, and offensive security (such as computer system penetration testing). In addition, students gain an understanding of cloud computing technologies, computer infrastructure, legal aspects of cyber security and develop the capacity to think innovatively and apply their knowledge to advance professional practice.

To enrol for the MCS students must have completed a bachelors degree in Computer Science or equivalent.

#### Master of Information Technology (MInfoTech)

The Master of Information Technology (MInfoTech) is a new degree jointly awarded with the University of Auckland, through the Auckland ICT Graduate School, which is designed to help students become “industry ready”. Setting the MInfoTech apart from more theoretical qualifications is the high degree of business enterprise and project-based learning it demands. One whole semester will be devoted to an internship with an industry partner, working under supervision on a real-world project.

If you have an undergraduate degree in Computer Science (or equivalent) you can apply for the 180pt programme where a combination of courses are offered that focus on improving ICT skills as well as communication and critical thinking skills. If you have gained the equivalent to an honours degree in Computer Science you can apply for the 120pt MInfoTech.

Master of Counselling (MCouns)
The MCouns is a highly specialised programme and is designed to give students the opportunity to develop advanced professional
counselling skills, well-grounded in social constructionist theories. Students are taught to develop professional attitudes, and
competencies in narrative approaches to counselling. The programme can be completed by coursework alone or a combination of
coursework and research.

Professional practicum experience takes place within community, education or health settings over the two-year programme.
Graduates go on to leadership positions in counselling and counsellor education.

The programme has the following approvals:
• New Zealand Association of Counsellors – for membership purposes
• Ministry of Education – for professional education of school counsellors

| 2 years (full-time) | Intakes: January, February and July
|                   | Applications should be received by 31 October 2016
|                   | $7,298 – $7,772
|                   | Entry requirements: See page 44

Master of Disability And Inclusion Studies (MDInS)
In this programme you will be given the opportunity to blend theory and practice through completion of a guided in-depth research
study in an area of disability/inclusion of your choice. You will be expected to work semi-independently and gain a significant level of
expertise in your chosen subject area.

| 12–18 months (full-time) | Intakes: March/July
|                          | $7,298 – $7,772
|                          | Entry requirements: See page 44

Master of Education (MEd)
This programme is suitable for qualified teachers and other education professionals who wish to further their career and develop
leadership in a particular field of education. Students may specialise in Global Studies in Education, Professional Learning or
Science, Technology, Engineering and Mathematics Education. Or, they may combine taught and research papers in a specialist
area such as Curriculum, Pedagogy, Early Years Education, Māori Education, Maths Education, Arts Education or Language and
Literacy Education.

### Master of Educational Leadership (MEdLeadership)

The MEdLeadership is for aspiring or current educational leaders who want to broaden their understanding of leadership. Significant emphasis is placed on promoting and engendering learning and skills of inquiry that provoke individual and collective work for the common good. There is both an international and national focus on areas that contribute to this programme which includes developing communities of learners who explore leading for social justice, organisational change and development, personal and community leadership growth, and coaching and mentoring. There are opportunities for students to focus their research inquiries in their specified context of interest in current educational issues.

### Master of Sport and Leisure Studies (MSpLS)

The MSpLS is for Sport and Leisure Studies graduates who are interested in completing a research-based qualification. Students will critically examine how political, cultural and economic factors influence the meaning and nature of sport, exercise and leisure and/or how psychological and physiological factors influence performance and movement in sport and exercise settings.

The programme engages a range of quantitative or qualitative methodologies and includes laboratory-based sport and exercise components, and where appropriate, includes working with athletes at the Avantidrome – Home of Cycling, or the new University of Waikato Adams Centre for High Performance. It enhances knowledge, skills and attributes relevant to many forms of employment within sport, exercise and leisure industries and beyond.

### Master of Teaching and Learning (MTchgLn)

The MTchgLn programme is a selective, intensive and innovative programme aimed for those who have a degree but do not yet have a teaching qualification. It is available for high achievers who want to make a real difference for all learners in primary, secondary and Māori-medium classrooms, and can be completed in one calendar year.

Students gain theoretical knowledge of teaching and learning, skills to carry out evidence-based teaching, and learn the teaching-as-inquiry process to monitor student learning. Students spend a large proportion of their time (up to 40 weeks) in local partner schools, enabling theory to be put into practice.

Te Piringa - Faculty of Law

Master of Laws (LLM)
The Master of Laws is an advanced programme which enables students to extend their knowledge of law acquired in their previous study and to gain deeper understanding of a particular area of interest. The programme can be completed in one year through the options of taught or research papers and a combination of the two. The selection of taught papers is updated every year. You will have a choice of papers in public, private and international law.

The LLM degree places a strong emphasis on the development of research skills. Classes are small and taught through seminars. The LLM allows graduates to undertake a wide range of work in specialised legal practices, local and central government agencies, including policy-making and policy-advising. It is also aimed at students who want to go on to further academic study, such as PhD, and a possible future academic career.

<table>

Master of Laws in Māori/Pacific and Indigenous Peoples’ Law (LLM Maori/Pacific Indigenous Peoples’)
Reflecting the University’s geographical location, the LLM (Māori/Pacific and indigenous peoples’) is a specialist degree designed to explore Pacific legal thought and practice. It aims to provide students with the skills to participate actively in the development of Pacific jurisprudence and to enhance global understanding of Pacific legal systems. This programme is taught through specialised papers with an indigenous law content.

Students wishing to study for Master of Laws in Māori/Pacific and Indigenous Peoples’ Law programme are offered the same study options as those who study Master of Laws (LLM). Please see above for more information.

PHOEBE PARSON
Master of Law
“I was attracted by the Te Piringa - Faculty of Law’s ethos – principles inclusiveness and the teaching of law in context relevant to the needs of society. My decision to study law was driven by desire to participate more effectively in the society and my interest in environmental law. Waikato Faculty of Law is amply equipped to support students interested in this area, with its dedicated research centre, and with expert and experienced academic staff. I knew my curiosity would not be satisfied with a Bachelor of Laws degree only. I continue my education with a Master of Law programme for which I am lucky to receive a scholarship from the International Bar Association, and support from the Waikato Regional Council and the University’s Centre for Environmental Resources and Energy Law.”
Master of Māori & Pacific Development (MMPD)

120 point option from an honours degree or equivalent

The Master of Māori and Pacific Development (MMPD) involves two semesters of full-time study or its equivalent in part-time study. It comprises either a 120 point thesis, or a 90 point thesis and 30 points from approved 500 level papers, or a 60 point dissertation and 60 points from approved 500 level papers. At least 60 points must be gained from a single graduate subject.

180 point option from a bachelors degree or equivalent

Students entering the MMPD from a bachelors or equivalent will need to meet the entry requirement below. This requirement, combined with the inclusion of an approved research methodology paper, will underpin successful completion of a significant research project of 60, 90 or 120 points. This pathway involves one full calendar year or one-and-a-half academic calendar years or its equivalent in part-time study. It comprises 180 points of which 60 points are from one subject including an approved research methods paper and any compulsory papers prescribed in the relevant subject must be taken. Either a 120 point thesis, a 90 point thesis, or a 60 point dissertation must also be taken. The MMPD may be awarded with classes of honours.

<table>
<thead>
<tr>
<th>120 point: 12 months (full-time)</th>
<th>Intakes: March / July</th>
</tr>
</thead>
<tbody>
<tr>
<td>180 point: 18 months (full time)</td>
<td></td>
</tr>
</tbody>
</table>

Approximate one-year cost

$7,298 – $7,772

Entry requirements:

120 point option: To gain entry to the MMPD students should normally have qualified for the Postgraduate Diploma in Development Studies or its equivalent, and achieved a satisfactory grade point average across their 300 level papers – normally a B+ or higher.

180 point option: To be admitted to the MMPD directly from a BMPD, BA (or equivalent), students will need to gain a high level of attainment in their relevant 300 level papers, normally an A-.
### Faculty of Science & Engineering

#### Master of Engineering (ME)

This is a one-year research degree (120 points at 500 level) and only available if you have completed a four-year BE(Hons)/BSc(Tech) with significant engineering content. If you are an ME student you can enrol in either a 120 point research thesis or a combination of a 90 point thesis plus 30 points at 500 level.

Topics can come from the following Engineering areas: Biochemical, Chemical, Civil, Electronic, Environmental, Materials, Mechanical, Process, and Software.

<table>

</tbody>
</table>

| Entry requirements: See page 44 |

#### Master of Science (MSC)

An MSc is normally an 18-month full-time programme of study building on the specialisation of the undergraduate degree. It combines taught papers (normally 90 points) with a research thesis (normally 90 points). The balance of theses to taught papers may be altered subject to permission from the graduate co-ordinator in your discipline of choice. The qualification introduces students to the frontiers of knowledge and is taught at a level demonstrably in advance of undergraduate study, which requires students to engage in higher level scholarship. Excellence in MSc study is rewarded by the level of honours attained.

### Master of Environmental Sciences (MEnvSci)

A key feature of this degree is the development of scientific and interdisciplinary (cross-faculty) independent research skills, including collection and analysis of data and critical review of the relevant literature. MEnvSci students gain high-level subject knowledge, enhanced critical thinking skills, and practical and/or field based research skills relevant to their major or research area, but in particular, focused on the environmental sciences. Assessment is designed to ensure that students have the opportunity to demonstrate their achievement.

### Master of Science (Research) (MSc(Research))

An MSc(Research) is normally a two-year coherent, advanced programme of study building on the specialisation of the undergraduate degree. It combines taught papers with a research thesis or dissertation and may be completed on a part-time basis. It introduces students to the frontiers of scholarly knowledge at a level demonstrably in advance of undergraduate study. Excellence in MSc(Research) study is rewarded by the level of honours attained.

THE BATTERY ELECTRIC VEHICLE (BEV)

In 2011, University of Waikato engineering students successfully drove the electric car (BEV) from Auckland to Bluff. It took less than two weeks to cover 1700kms. BEV (battery electric vehicle) was built by the students over two semesters under the supervision of Dr Mike Duke. It’s a single-seater commuter vehicle powered by a bank of 10 lithium-ion batteries. The student project was funded by the University of Waikato and a number of local businesses including Splash Monitors and WEL networks.

Master of Science (Technology) (MSc(Tech))

The MSc(Tech) is similar to the MSc, but each programme must include the papers ENMP585 and ENMP586 Industrial Technology and Innovation 1 and 2, and a thesis that reports the results of an investigation relating to an applied or industrial study.

Waikato Management School

**Master of Business Administration (MBA)**

The Waikato MBA is internationally accredited by the Association of MBAs (AMBA), confirming this is a world-class qualification that offers high-quality teaching, content and student interactions.

This highly practical programme equips managers and entrepreneurs with the dynamic capabilities needed to embark on senior leadership positions in New Zealand and overseas. You will understand best practice business theories and learn to implement value-creation strategies that radically transform organisations and the people within them.

This degree covers everything from leading high-performance teams through to commercial law, investment decision-making, logistics and global business and includes an international study tour.

*Note: The Postgraduate Diploma in Management Studies can normally be credited towards Part One of the MBA. PGDipMgtSt starts February and March in Hamilton, and February in Tauranga.*

**Master of Business and Management (MBM)**

The MBM is for graduates who want to successfully enter today’s fast-changing international corporate environment. It provides comprehensive training in management that will complement your undergraduate degree from any discipline. The MBM will give you the skills and knowledge required for a wide range of management and leadership roles in a modern economy. It is designed to ensure that your learning experience is practical, challenging and rewarding. During this degree you will work in teams to develop an entrepreneurial business and take part in a ‘Dragon’s Den’ style competition.

**Master of Business and Management – Specialised (MBM–S)**

MBM students have the option to enhance their professional opportunities by doing three additional months of study (four papers worth 60 points) and specialising in either Accounting, Agribusiness, Finance, International Management or Public Relations. You will gain practical knowledge in a specific field of management. The MBM–Specialist programme starts in March and finishes in May each year (A Semester).

*Note: Students who start in November and wish to continue with the MBM–S will need to take a break over summer.*

Waikato Management School

Master of Electronic Commerce (MECom)

Set yourself up for where the world of electronic commerce is going with specialised postgraduate study in this cutting-edge field. Gain an in-depth understanding of how e-commerce and digital technologies are transforming all aspects of business operations from a management perspective. The MECom is offered in two streams; either research or professional. The professional stream includes an 8–13 week industry internship, making it ideal for students who want to acquire applied knowledge in a business environment. This qualification is available in class or online.

<table>
<thead>
<tr>
<th>12 months (full-time)</th>

Entry requirements: BECom or equivalent. Business or IT degrees or graduate study in another subject area will also be considered. For the Professional stream, you need a B-minus grade average or better. For the Research stream, you need a B grade average or better.

Master of Management Studies (MMS)

If you are looking to continue your specialisation in a management discipline and undertake postgraduate research in a particular area of interest, this programme is designed for you. The MMS normally includes taught and research papers, but can also be taken as a full research degree.

A professional stream of the MMS in Finance is available for those seeking a career in the finance industry. This masters degree will bring you closer to the frontiers of knowledge in your specialist area, and prepare you for roles that require advanced research skills. It will give you an understanding of relevant research methodologies, develop your ability to critically review and synthesise the core theory, perspectives and analytical approaches within your subject area, and provide a pathway to doctoral research.

Study part-time or full-time. Complete either 120 or 180 points, depending on your admission qualification.

Entry requirements: A bachelors degree in business/commerce, or graduate study in a relevant subject area. Research stream: B+ grade average in the subject you wish to study. Professional stream: B grade average.
Master of Professional Accounting (MPAcct)

This intensive programme is designed for students who have never studied accounting before at university. Completing the MPAcct will prepare you for a professional career in accounting and ensure you meet the academic requirements to gain provisional membership of Chartered Accountants Australia and New Zealand (CAANZ), CPA Australia, and the Association of Chartered Certified Accountants (ACCA). This ensures your qualification will be globally recognised.

JAMIE CARSON

Master of Management Studies

“Only at Waikato could I have mixed music festivals and postgraduate studies and turned it into a Masters dissertation.”
Higher Research Degrees

The University of Waikato offers supervised research degrees through the Master of Philosophy (MPhil), Doctor of Philosophy (PhD), the Doctor of Musical Arts (DMA), and professional doctorates in Education (EdD) and Juridical Science (SJD).

Studying for any one of these degrees provides an exciting opportunity to work under the supervision of a team of our research experts. Our academic staff are internationally connected, well resourced, and benchmarked against the best in the world. As creators of knowledge, we encourage our students to be leaders and innovators and, as a result, we produce research masters and doctorate graduates who contribute and compete at a global level in their chosen fields.

For more information on our research supervisions visit waikato.ac.nz/research/expertise/find-expert.shtml

Master of Philosophy (MPhil)

12–18 months – 800 level
This programme requires the completion of a thesis.

Entry requirements
See page 45.

Available within the areas of:
- Arts and Social Sciences
- Computer Science, Mathematics and Statistics
- Education

Doctor of Philosophy (PhD)

Minimum three years full-time
This is a research degree culminating in the presentation of a thesis. You are expected to make an original contribution to knowledge while extending your research skills.

The PhD can be completed as a research thesis, as a PhD with publication, or as a PhD with a creative practice component.

Entry requirements
See page 45.

Available within the areas of:
- Arts and Social Sciences
- Computer Science, Mathematics and Statistics
- Education
- Engineering
- Law
- Māori and Pacific Development
- Management
- Science

Doctor of Education (EdD)

Minimum three years full-time
This is a professional doctorate designed for candidates who are senior practitioners in education. This research degree requires an initial year of coursework prior to undertaking two years of research and thesis writing.

Entry requirements
See page 45.

Doctor of Juridical Science (SJD)

Minimum three years full-time
This is a professional doctorate designed for candidates who are senior practitioners in law. This research degree requires the fulfilment of an individually tailored programme that comprises the Research Portfolio prior to undertaking two years of research and thesis writing.

Entry requirements
See page 45.

Doctor of Musical Arts (DMA)

Minimum three years full-time
Those interested in composition, multimedia work, music technology, electroacoustic music or musicological thesis research may wish to enrol in the DMA. The DMA comprises a performance component (Part 1) and a thesis component (Part 2) which are completed concurrently.

Entry requirements
See page 45.

“Choosing a higher qualification was a step in the right direction for my career. I hope my current research will contribute to an improvement in pastoral drought resilience. I’d like to acknowledge the great support I have received from many of the academics here.”

JACK PRONGER
PhD, Science

NGAHUIA MURPHY
PhD, Arts and Social Sciences

“My research examines censored and marginalised ceremonial traditions related to Māori women through a mana wahine theoretical framework. I hope to provide a space for the multiple voices and stories of Māori women to converge in exploration of our own sacred knowledge traditions related to the whare tangata. This research can be used to foster the self-esteem and cultural identity of Māori women and girls and encourage them to celebrate their own mana and tapu, bequeathed them by their ancestors. It’s an honour and a privilege to be awarded three prestigious scholarships – these being a PhD scholarship from the Health Research Council, the Sir Hugh Kawharu scholarship and the Auckland War Memorial Museum Scholarship. These have been a great help in my research journey.”
How to apply and entry requirements

Tuition fees 43
Application process 43
Postgraduate – Academic entry requirements 44
Tuition fees

Fees are calculated on a per paper basis. In addition to tuition fees, all students are required to pay an annual fee for a number of University services such as Building Levy, and a Student Services Levy. The actual amount each student pays depends on their enrolment, but most full-time students will be required to pay approximately NZD $475 a year. This fee is paid at the time of enrolment.

2017 fees and costs will be available mid-2016. All fees outlined in this publication are subject to final approval by the University.

Please visit waikato.ac.nz/study/money/

Application process

Application process

We recommend applying before the deadlines on the right to allow time to process applications.

Closing date for applications

March intake 2017– 1 December 2016
July intake 2017 – 1 May 2017
Applications received after these dates may be accepted on a case-by-case basis.

How to apply

1. Get the right advice
   There can be different prerequisites or requirements for different qualifications. This is especially relevant if you wish to study for a masters or higher degree. We recommend that prior to application you get academic advice through the individual Faculty or School contacts (see pages 11 – 17) or email recruitment@waikato.ac.nz

2. Apply to enrol
   Once you know what is required, you can submit an application to enrol. Apply online at enrol.waikato.ac.nz

3. Receive an offer of acceptance
   If your application to enrol is accepted, you will be emailed an offer of acceptance and an Enrolment Agreement so that you can complete your enrolment. You will be contacted if you need to provide further information to enable your acceptance.

4. Complete your enrolment
   You can do this online or by signing your Enrolment Agreement and returning it to the University (return to the Finance Office) by the date specified on the offer of acceptance. You can still enrol if you miss the specified date but there will be a late enrolment charge.

5. Enrolment is accepted
   Your enrolment will not be complete until your Enrolment Agreement has been accepted by you, has been returned and the intended method of payment of fees option has been accepted by the University. Once these tasks are completed, you are officially enrolled!

Note: Application processes for research degrees are generally longer than those of taught programmes. Entry into research degrees is subject to the availability of an appropriate supervisor.

Tip: You can find the University’s important dates for teaching and assessment at waikato.ac.nz/study/dates.shtml
## Academic entry requirements – Graduate/postgraduate

<table>
<thead>
<tr>
<th>Degree type</th>
<th>Definition</th>
<th>Entry requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>Graduate certificate</td>
<td>A graduate certificate is a qualification for graduates who do not have a substantial academic background in a particular subject in their undergraduate degree. It allows them to add a specialisation that is different from their degree major, and prepare for postgraduate study if that is their plan. The course comprises undergraduate papers and normally involves one semester (six months) of study.</td>
<td>A New Zealand bachelors degree with a B (or better) grade average or a qualification considered equivalent.</td>
</tr>
<tr>
<td>Graduate diploma</td>
<td>A graduate diploma is a qualification for graduates who do not have a substantial academic background in a particular subject in their undergraduate degree which allows them to add a specialisation that is different from their degree major, and prepare them for postgraduate study if that is their plan. The course comprises undergraduate papers and normally involves one year of study.</td>
<td>A New Zealand bachelors degree with a B (or better) average or a qualification considered equivalent.</td>
</tr>
<tr>
<td>Graduate Diploma of Teaching (Early Childhood, Primary, Secondary)</td>
<td>The Graduate Diploma of Teaching is usually a specialist one-year qualification, taken in higher level papers, for bachelor degree graduates who want to pursue a teaching qualification.</td>
<td>A recognised bachelors degree. Interview by selection panel (by Skype). Applicants must submit a supplementary application form in addition to an online application. education.waikato.ac.nz/wp-content/uploads/2015/12/Full-TSF-Dec15.pdf</td>
</tr>
<tr>
<td>Bachelors with honours</td>
<td>A bachelors with honours degree is a one-year full-time programme, continuing a subject taken as a major in a first or bachelors degree, for high achieving students. While the degree is a qualification in its own right, it may also be an intermediate stage leading on to a one-year masters degree.</td>
<td>A New Zealand bachelors degree with a B (or better) average in a major in a relevant subject area, or a qualification considered equivalent.</td>
</tr>
<tr>
<td>Postgraduate certificate</td>
<td>A postgraduate certificate meets the needs of graduates who wish to broaden and deepen their knowledge in the subject they studied at undergraduate level. The course comprises postgraduate-level papers and normally involves one semester (six months) of study.</td>
<td>A New Zealand bachelors degree with a B (or better) average in a major in a relevant subject area or a qualification considered equivalent.</td>
</tr>
<tr>
<td>Postgraduate diploma</td>
<td>A postgraduate diploma meets the needs of graduates who wish to broaden and deepen their knowledge in the subject they studied at undergraduate level. The course comprises postgraduate-level papers and normally involves one year of study. A postgraduate diploma can often lead to a masters degree.</td>
<td>A New Zealand bachelors degree with a B (or better) average in a major in a relevant subject area or a qualification considered equivalent.</td>
</tr>
<tr>
<td>Masters degree</td>
<td>A masters degree is made up of postgraduate papers and can be a combination of taught papers and a research dissertation or thesis, providing an advanced level of learning in your chosen field. A masters degree can be either in the same area as your undergraduate study, or in a new area of study (though not for all areas of study). Depending on your chosen course, it can be the equivalent to one or two years of full time study. Note: A Master of Teaching and Leadership is available and has interview selection requirements.</td>
<td>A New Zealand bachelors degree, either three or four years, with advanced study and a B (or better) average in the relevant subject areas or a qualification considered equivalent. Some faculties require an honours degree with a B (or better) average.</td>
</tr>
</tbody>
</table>
### Degree type

<table>
<thead>
<tr>
<th>Degree type</th>
<th>Definition</th>
<th>Entry requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Master of Philosophy (MPhil)</strong></td>
<td>A Master of Philosophy involves a minimum of one year of original research under supervision, culminating in a thesis. The MPhil thesis must demonstrate expertise in the methods of research and scholarship, display intellectual independence, make a substantial contribution to knowledge in a particular field, and contain publishable material.</td>
<td>A New Zealand bachelors degree with honours or a masters degree with a minimum of Second Class Honours (First Division), or Distinction or a qualification considered equivalent. Entrance is at the discretion of the Postgraduate Research Committee.</td>
</tr>
<tr>
<td><strong>Doctor of Education (EdD) and Doctor of Juridicial Science (SJD)</strong></td>
<td>Supervised professional research degrees are designed for candidates with relevant professional experience. These degrees require an initial year of coursework to be successfully completed prior to the development and submission of a supervised thesis.</td>
<td>A New Zealand bachelors degree with honours or masters degree with a minimum of Second Class Honours (First Division) or Distinction or a qualification considered equivalent. Entrance is at the discretion of the Postgraduate Research Committee.</td>
</tr>
<tr>
<td><strong>Doctor of Musical Arts (DMA)</strong></td>
<td>The DMA is a research degree in which the research component is divided equally between research-based performance and a supporting thesis. In addition to a thesis, the student will undertake supervised weekly performance sessions. The DMA will take a minimum of three years to complete and will include public performances. The final assessment will include the thesis (of up to 50,000 words) and a research-based 90 minute public recital.</td>
<td>A New Zealand bachelors degree with honours or masters degree with a minimum of Second Class Honours (First Division), or Distinction or qualification considered equivalent. Applicants must also pass an audition.</td>
</tr>
<tr>
<td><strong>Doctor of Philosophy (PhD)</strong></td>
<td>The PhD is acquired through by the submission of a thesis and can be completed in a minimum of three years, though many students complete in four years. The PhD thesis will critically investigate an approved topic of substance and significance, and make a substantial and original contribution to knowledge.</td>
<td>A New Zealand bachelors degree with honours or masters degree with a minimum of Second Class Honours (First Division) or Distinction or a qualification considered equivalent. Entrance is at the discretion of the Postgraduate Research Committee.</td>
</tr>
</tbody>
</table>

**ADRIENNE PAUL**

**PhD, Law**

“Studying for my PhD in law has been both challenging and rewarding. For my PhD, I’m focusing on Māori spiritual views and concepts in regards to the MV Rena disaster. I am developing environmental tools that better reflect Māori traditions, and looking at whether current legal frameworks have sufficient environmental and cultural protection mechanisms. I chose to study at Te Piringa – Faculty of Law because of the Faculty’s goal to develop the New Zealand legal system in a way that incorporates the best of common law practices and Māori traditions. I was also awarded a University of Waikato Doctoral Scholarship worth $66,000 to help fund my studies.”
Choose your subjects

There are a number of subjects you can take in a graduate or postgraduate qualification. The following pages list the subjects you can choose from.

A

Accounting
Qualifications:
Bachelor of Business – Financial with Honours
Bachelor of Management Studies with Honours
Graduate Certificate
Graduate Diploma
Postgraduate Certificate
Postgraduate Diploma
Master of Management Studies
Master of Professional Accounting

Agribusiness
Qualifications:
Bachelor of Management Studies with Honours
Graduate Diploma
Postgraduate Certificate
Postgraduate Diploma
Master of Management Studies

American Studies

Animal Behaviour
Qualifications:
Graduate Certificate
Graduate Diploma

Anthropology
Qualifications:
Bachelor of Arts with Honours
Bachelor of Social Sciences with Honours
Graduate Certificate
Graduate Diploma
Postgraduate Certificate
Postgraduate Diploma
Master of Arts
Master of Social Sciences

Applied Computing
Also a specialisation within the BSc with a Computer Science major
(See Computer Science)
Qualifications:

Glossary of terms

100, 200, 300, 400 Levels
These refer to the different levels at which papers are taught and are usually associated with years of study. First-year (100 level) papers are more general while fourth-year (400 level) papers are more specialised.

Alumni
All graduates become alumni of the University of Waikato.

Campus
The grounds and buildings of the University are known as the campus.

Electives
These are papers from outside your major which you choose. An elective can be from almost any subject taught within the University.

Faculties/Schools of study
These represent a broad division of learning within the University. Each consists of a number of different departments.

Graduate
A person who has been awarded a university degree. See Alumni.

Lectures
You will be required to attend lectures each week for each of your papers. There may be as many as 300 students in a lecture.

Paper
These are the courses you will study. Each paper is assessed and, on passing, you will gain points towards a qualification.

Points
Degree requirements are expressed in terms of points (e.g., a three-year degree generally requires 360 points). Points bear a direct relationship to workload; one point equates to approximately 10 hours total work; so a student might expect to spend about 150 hours in total for a 15 point paper.

Postgraduate
This refers to study above undergraduate level.

Prerequisite
A prerequisite is a requirement you must have met before you can study a particular paper or enrol in a degree.

Programme of study
The papers that you are enrolled in each year make up your programme of study for that year. Most full-time first-year programmes will include eight papers.

Semester
A semester is a teaching period of approximately 12 weeks. There are two semesters per year. A Semester March – June, and B Semester July – November.

Specialisation
A specialisation is a study theme within a degree that enables you to focus on a particular area of interest, e.g., you can do a Bachelor of Science majoring in Computer Science and with a specialisation in Artificial Computing.

Subject
An area of study, e.g., Accounting, Biology, History.

Supporting subject
This is a subject that is studied in some depth but not in as much depth as the major subject.

Timetable
Your timetable is your programme of lectures and tutorials. You can check your timetable at timetable.waikato.ac.nz
