## Bachelor of Environmental Planning

### Guidelines:

- 1 The BEP degree consists of 480 points of which at least 360 points must be above 100 level (including at least 120 points at 300 level and 100 points at 400 level).
- 2 Students must complete all the compulsory papers.
- 3 Students complete one Environmental Planning stream comprising 130 points including ENVP408 and a further 110 points of which 80 points must be above 100 level and 40 points above 200 level
- 4 Where List A papers are also required for a planning stream, those may be replaced with electives.
- 5 Students may complete a second major in any undergraduate major subject (which will entail completion of more than the minimum 480 points required for the BEP).
- 6 If a second major is not completed, students must complete 35 points in elective papers, with at least 20 points above 100 level.
