“Stop Buying the Bullsh*t”

Hon. Sir Roger Douglas, MP.

Singapore as an economic entity fits geographically into the space of Lake Taupo and has no water resources to speak of, but vastly outperforms NZ on a range of important socio-economic indicators. In a light-hearted but hard-hitting talk, Sir Roger will speak of the importance of having the right economic, structural and policy framework.

Sir Roger Douglas was a Minister in two Labour governments, serving as Minister of Finance in the Fourth Labour government. He has been an ACT MP since the last election.

5.30pm social gathering in J2.12. Coffee, tea and fruit juice available.
