HANDY HINT:

It sometimes happens that a reference letter is still missing at the scholarship application deadline.

For most scholarships, reference letters can still be submitted in the four days that follow the closing date.

So, if you know that a reference is missing, don’t make the mistake of abandoning your scholarship application!
Submit your application, and then remind your referee that they need to submit their letter urgently as per the application instructions.

**Requests For Proposals**
Requests for Proposals (RFPs) are calls for research in areas of strategic importance. They included, but are not limited to research that will contribute to an evidence-base for policy and planning. RFPs are released by the HRC as funding opportunities occur throughout the year. [View More]. For example:
- Community-based primary healthcare research
- Research Exploring the Health Implications of the Canterbury Earthquake
- HIV Behavioural Study of African Communities in New Zealand

**Researcher Initiated Proposals**
The majority of HRC funding is awarded through the annual contestable funding round to research ideas that are researcher initiated. A competitive process ensures that high quality and relevant research is supported across four Research Investment Streams. [View More]. For example:
- Emerging Researcher First Grants

**Career Development**
Career development awards help to foster the health research workforce in New Zealand. A range of awards is available to support the career development of emerging health researchers, including Māori and Pacific health researchers undertaking postgraduate qualifications. [View More]. For example:
- The Sir Charles Hercus Health Research Fellowship
- Māori Health Research Career Development Awards
- Pacific Health Research Career Development Awards

**HEERF Scholarships**
Application date: Accepts applications year-round – applications generally considered March/April
Levels: Postgraduate

HEERF makes available annually a series of post graduate research scholarships open to NZ citizens and NZ permanent residence holders. The scholarships are typically linked to heavy engineering industry related research proposals administered by HERA, however scholarship applicants are also able to submit their own research project proposal.

All scholarship research proposals intended for funding through HEERF are required to go through the HERA Research Panel system for evaluation and prior approval before being submitted through the HERA Director to the HEERF Trustees. For further information, visit the website [http://www.hera.org.nz/MainMenu](http://www.hera.org.nz/MainMenu).

**LEARN Fellowships**
No set closing date:
The Livestock Emissions & Abatement Research Network (LEARN) is an international research network focused upon improving the understanding of greenhouse gas emissions from livestock agriculture. The Ministry of
Agriculture and Forestry offers up to nine New Zealand LEARN Fellowships per annum for scientists or technicians from developing countries to work in New Zealand in the area of Livestock Emissions Research. The objectives of the network are to improve the quantification of non-CO2 greenhouse gas emissions from animal agriculture at all scales, and to facilitate the development of cost effective and practical greenhouse gas mitigation solutions.

There are two separate categories available. These are LEARN Work Trainee Awards (tenure up to six months) and LEARN Postdoctoral Fellowships (tenure up to twelve months). There is no set application close date for the Fellowships, instead they are dealt with on a case by case basis by MAF’s advisory panel. It is expected that the majority of applications/nominations will be from/for individuals who have already established links with researchers at the NZ host institution/organisation. All candidates must be registered members of the LEARN Network, and may register at www.livestockemissions.net. The terms and conditions and application form can be downloaded from the Education New Zealand (ENZ) website www.newzealandeducated.com/scholarships.

New Zealand Defence Force Scholarship Schemes
Levels: School Leavers / Undergraduate / Graduate / Postgraduate
The New Zealand Defence Force offers four tertiary scholarship schemes across the three services to Engineering students. The majors in which the NZDF is likely to provide sponsorship are: Mechanical, Electrical, Electronics, Software, Materials, aeronautical Engineering and Mechatronics, however other majors will be considered by the individual services.
