Principles
5. This policy takes account of the Education Act 1989, which includes provision for Council to delegate its powers to grant scholarships and for those functions and powers to be sub-delegated (section 193(2)(b)); Council has delegated these powers through the Academic Board to Scholarship Selection Panels, the Scholarships Committee and the Scholarships Executive.
6. The primary purpose of the University of Waikato’s portfolio of scholarships is to assist students with their education and to:
   a. attract and retain high quality students
   b. increase research outputs, particularly at postgraduate and doctoral level, and
   c. provide financial assistance to students in circumstances of financial hardship.
7. In order to provide a consistent framework for its portfolio of scholarships, the University operates a central system by which all scholarships are established and considered.
Scholarship Selection Panels, the Scholarships Committee and the Scholarships Executive
8. Scholarships must be granted by a Scholarship Selection Panel, the Scholarships Committee or the Scholarships Executive, as specified under the regulations of the specific scholarship and in accordance with their terms of reference.

Scholarship monitoring, suspension and termination
9. Scholarship recipients will be monitored against the relevant regulations throughout the tenure of the scholarship to ensure that their eligibility to hold the scholarship is maintained.
10. Where a scholarship recipient has failed to meet the standard required to retain a scholarship or where relevant scholarship regulations have been breached, the Scholarships Committee (in the case of undergraduate scholarships) or Scholarships Executive (in the case of postgraduate and doctoral scholarships) has the authority to suspend scholarship payments or terminate the scholarship.
11. Scholarship recipients may appeal to the Scholarships Executive (in the case of undergraduate scholarships) or to the Research Committee (in the case of postgraduate and doctoral scholarships) against any decision to suspend or terminate a scholarship made under clause 10 of this policy.

Externally funded scholarships
13. All externally funded scholarships must be established in writing in the form of a funding agreement, i.e. a contract, memorandum of understanding, memorandum of agreement, gift agreement or donation agreement between the funder and one of the University units or entities set out in clause 14 of this policy; all philanthropic gifts and donations to the University must comply with the Fundraising and Philanthropy Acceptance Policy.

18. All scholarship regulations governing externally funded scholarships must be agreed in writing between the funder and the Chair of the Scholarships Committee prior to advertising the scholarship.
19. Externally funded scholarships are not contracts for research; this must be clearly articulated in the funding agreement established in accordance with clause 13 of this policy.

Intellectual property rights and confidentiality
20. Where the assignment of intellectual property is a pre-condition of the granting of a scholarship the intellectual property must be assigned in accordance with the University’s Intellectual Property Rights Policy.
21. In some cases, where the student work is a subset of a larger project which is likely to result in a commercial outcome, a confidentiality agreement or embargo agreement may also be required.
