

University of Waikato Library: Map Collection

New Zealand: South Island: NZMS 1 one inch topographical maps

The Map Collection of the University of Waikato Library contains a comprehensive collection of maps from around the world with detailed coverage of New Zealand and the Pacific.

NZMS 1 maps of South Island New Zealand are numbered starting with S1 at Cape Farewell and work southward down the island as far south as S184. Papatowai. None of the seven planned Stewart Island maps (S185. Codfish to S191. Pegasus) were ever published. [For an index map see bottom of this document.](#)

Please ask a librarian if you would like to use one.
