If you are feeling unwell, you shouldn’t be here. If you have Covid-19 symptoms, even if they’re mild, go and get a test. If you are symptomatic you are eligible for a free test at a community testing centre or health provider.

If you test positive for Covid-19, you need to tell the University by filling in the form available on MyWaikato. There’s no shame, your information is confidential and the University will support you while you get better.

Unless you have an exemption, you need to wear a mask in this class. If anyone has forgotten a mask, we have them available *(indicate where)*.

If I maintain a safe distance of 2 metres while I’m teaching, the Ministry of Health permits me to remove my mask so you can understand me clearly. The front row of seats is blocked off to create this distance.

Please make sure you are spread out across the room. Sit in the marked seats only/follow the marked capacity guidance for the table you are at. *(For rooms with fixed seating, students should sit on seats marked with green dots. For rooms with moveable seating, tables are labelled with maximum seating capacity)*.

Please don’t move the furniture around or remove seat markings. This has been configured for safe distancing.

We need to leave the windows and doors open.

Make sure you have scanned into this room using the QR code. If you haven’t, please remember to do so on your way out.

Please avoid congregating outside this room after class.

The Security team is available (07 838 4444) if you need assistance to resolve situations where students without a mask or exemption refuse to wear a mask or leave the class.
