WELCOME
NAU MAI
At the University of Waikato, we look forward to providing you with the essential learning foundations you require to achieve your career and life goals.

You will find the University of Waikato offers a distinctive community that sets us apart from others. Our campuses in Hamilton and Tauranga reflect the unique nature of these two growing regions. Not only do we offer quality learning environments, but some of the country’s best mountains, beaches, lakes and natural reserves are on our doorstep for you to enjoy.

At the University of Waikato, we value the many cultures represented within our diverse student body. We believe our Māori and Pacific student offerings are the strongest in New Zealand, while our partnership with Zhejiang University City College in Hangzhou, China, provides a strong link into Asia. For students who want international study opportunities and when travel is more freely available, we offer numerous options with top universities around the world.

We place great emphasis on providing a high-quality learning environment for all students, utilising technology and being flexible to the needs of students when circumstances change.

In 2022 we will open The Pā at our Hamilton campus, an innovative and versatile new facility that will transform the on-campus experience for students, staff, visitors and the broader community.

The Pā will provide a new main entrance to the campus, and will include a student hub (with food outlets and social learning spaces) and a new University marae. You will be among the first to enjoy The Pā when it opens and we can’t wait to show you.

The University of Waikato Student Services team provides excellent support while you study with us. We want to ensure that you not only gain the knowledge you require to succeed in your career, but that you will also enjoy the full university experience we offer.

University of Waikato graduates are known for making a big difference in the world around them and we look forward to helping you do the same as you embark on your learning and career goals with us.

Ngā mihi nui,
Professor Neil Quigley
Vice-Chancellor
The University of Waikato main campus is located in Hamilton, a young and multicultural city, rich in Māori history. Hamilton has a population of almost 170,000 people, and is home to the Kingitanga. Located on the banks of the Waikato River, Hamilton boasts magnificent parks and gardens, funky street art and a vibrant café culture and nightlife.

OUR BEAUTIFUL CAMPUS
The Hamilton campus covers 65 hectares of beautiful park-like grounds and lakes and provides a safe environment for students to live, study and socialise. The gardens and grounds attract a range of sports teams for practice and tournaments, and provide a venue for many community activities. The Village Green is the hub of student life and is a popular venue for many student events. Facilities on campus include student accommodation, cafés, a gym, pharmacy, and student health service, plus Hamilton’s CBD is only a 10-minute drive away.

SOCIAL LIFE
No matter what you’re interested in or what season it is, Hamilton has it covered. There are food, music, arts and cultural events, and most nightclubs have free entry.
Annual events include Balloons over Waikato and our Local Night Bites, held on campus. Claudelands Arena also plays host to a range of expos, events and concerts throughout the year. Hamilton has a number of amazing cafés with great coffee, local produce, and wonderful atmospheres.

EXPLORE AND TRAVEL
Hamilton and its surrounding areas offer bike trails, surf beaches and award-winning restaurants. Hamilton itself is a gateway to many of the beautiful features of the Waikato region, including a world-famous left-hand surf break at Raglan and the Hobbiton movie set at Matamata. Tourist hotspot Rotorua is a short drive away, where you can wander through Whakarewarewa Forest (The Redwoods), explore geothermal parks, or if you’re feeling adventurous try out the luge or the zorb. For skiers, the high-quality slopes of Whakapapa and Turoa on Mount Ruapehu are only a few hours’ drive away.

DID YOU KNOW?
Hamilton was awarded Most Beautiful Large City in the 2020 Keep New Zealand Beautiful Awards.
The Pā is an innovative and versatile new facility, due for completion in mid - late 2022.

The Pā will become the new main entrance to the Hamilton campus from Hillcrest Road, creating a true sense of arrival at the University. It will include a student hub and new University marae. The complex will strengthen the overall capability of the campus to provide for University and community events and will transform the on-campus experience for students.

‘The Pā’ is a reference to the concept of community and location.

Strategically located at the heart of the campus, ‘The Pā’ is designed to promote cohesion and project warmth in welcoming everyone to the University of Waikato. The Pā seamlessly integrates physical form, art works and functional spaces with a cultural narrative that reflects the natural environment, histories and cultures of the region and the University community. The combination of these elements will create a unique sense of place, identity and belonging for all those who use The Pā.

The Student Hub will provide spaces for students to socialise, rest, debate, eat and recharge.

It will be the year-round home of campus life, and will include areas dedicated to students, retail spaces, food outlets and a stage for performances and events. Outside areas include spacious courtyards and walkways with internal elevators and connections to improve accessibility across the core of the campus.

A new University marae complex will be located in the heart of The Pā.

The marae will be distinctively Waikato, and will play a key role in bringing cultural identity and heritage into daily University life. The Wharenui (central meeting house) will be a premier space for the campus community and will accommodate up to 100 people for noho/overnight stays. The Wharenui provides the form and inspiration for the entire Pā complex.

Our Tauranga CBD campus, which opened in 2019, has enhanced the range of qualifications available to students in one of New Zealand’s most sought-after locations.

The University of Waikato led the new CBD campus development on behalf of the Bay of Plenty Tertiary Education Partnership, which includes Toi Ohomai Institute of Technology and Te Whare Wānanga o Awanuiārangi.

The central city campus offers a modern, multipurpose space where students, researchers, the community and industry can work together. Part of an ever-growing educational precinct including state-of-the-art science and engineering labs, a marine science research centre and new aquaculture facility, and high performance sports facility – the campus will develop further as demand grows.

EXPERIENCE A COASTAL LIFESTYLE

The Bay of Plenty region lives up to its name and offers an enviable coastal lifestyle, while still being central to Auckland and Hamilton. Tauranga is the fifth largest and fastest growing city in New Zealand and home to an estimated 145,000 people.

Bustling with arts, cultural, sporting and recreational activities – whether you want to swim or surf the beaches at Mount Maunganui or Pāpāmoa, hike to the summit of Mauao, paddleboard at Pilot Bay, discover native flora and fauna in Otānewainuku forest, dine overlooking the stunning waterfront, or explore the captivating culture and history - Tauranga has everything you need.

THRIVING INDUSTRIES

Tauranga boasts the busiest port in New Zealand by cargo volume, is home to global export giants including Zespri (kiwifruit) and Comvita (Manuka honey), and is prospering in the engineering and robotics sectors. The region offers great opportunities for work placements and future employment.

DISCOVER OUR CULTURAL NARRATIVE

The campus has a cultural narrative built into its frame and woven into its fabric through a series of connected installations and artworks. Designed to bring cultural identity and heritage to the building, the narrative embraces the diversity of our campus community and celebrates our relationships across the Bay of Plenty, Aotearoa, and beyond.

OUR COLLABORATIVE SPACES

Our award-winning CBD campus is designed to promote collaboration and social learning.

The Ground Level offers a variety of study areas, student kitchen, shower facilities and on-campus cafe.

Level 1 comprises The Hub - an open-plan information and student support area, 24-hour computer lab, library, and is home to Te Manawaroa - a multipurpose space for teaching, functions and overnight (noho) stays.

Levels 2 and 3 include teaching spaces, a tiered lecture theatre, and outdoor student deck offering spectacular views across the city and harbour.

Level 4 incorporates dedicated spaces for staff and postgraduate students.

DID YOU KNOW?

Tauranga city centre is undergoing an exciting $250 million transformation, bringing a modern feel to the city.
The University is taking a responsible and sustainable approach to transport planning, focusing on options such as increased public transport, Uber, car sharing and cycling.

If you choose to drive, there is on-campus parking in Hamilton for students at a maximum cost of $2 a day. Students can purchase parking permits for $60 a trimester. At our Tauranga CBD campus, parking is available on the street or in paid public car parks.

Bike racks and showers are available at both campuses for those who choose to cycle.

**BUSES TO THE HAMILTON CAMPUS**

**BUSIT subsidy**

We’ve partnered with the Waikato Regional Council to give students an additional 30% subsidy on the BUSIT card fare, paying only $1.70 per trip on buses within Hamilton. Buses stop regularly at the campus.

**Waikato regional bus services**

The University offers free daily bus services to bring students living in rural Waikato towns (Tokoroa/Putaruru, Te Kuiti/Otorohanga, Te Kauwhata, Thames/Ngātea, Matamata, Te Aroha) to campus. The buses travel Monday to Friday to and from the University during the trimester (excluding the holidays and limited service during exams).

Visit waikato.ac.nz/student-life/getting-to-campus/waikato-bus-services for more information.

**BUSES TO THE TAURANGA CAMPUS**

**Bee Card tertiary concession**

There are local bus services into and around Tauranga city. Don’t forget to pick up your Bee Card, get it registered online and loaded with your tertiary concession to receive cheaper fares.

Visit waikato.ac.nz/student-life/campuses/tauranga-campuses/buses-to-campus for more information.

**Bay of Plenty regional bus services**

The University has partnered with the Bay of Plenty Regional Council and Toi Ohomai Institute of Technology to trial free regional bus services to bring students from Katikati, Rotorua and Whakatāne to Tauranga. The service runs Monday to Friday from February to December (excluding public holidays).

With showers, lockers, kitchen facilities, a café and plenty of chill-out spaces, the CBD campus is set up for students to stay all day and take the bus home.

Visit waikato.ac.nz/student-life/getting-to-campus/bop-bus-services for more information.
The Kaimai Shuttle
A free shuttle service runs between the Tauranga and Hamilton campuses for students who need to travel from one campus to the other for classes, research supervision, or matters related to their university study. The shuttle travels Monday to Friday, four times a day during the teaching weeks of A, B and C trimesters, and a reduced service during the teaching periods G and H. It is WiFi-enabled so valuable study time is not lost during the commute.

Visit waikato.ac.nz/student-life/getting-to-campus/the-kaimai-shuttle for more information.
The University of Waikato will provide you with the skills, knowledge and experience you need to achieve your career and life goals, no matter what study pathway you choose.

With our focus on academic excellence and practical learning, you will become part of a global community of alumni who are known for making a valuable contribution to the world around them.

DID YOU KNOW?

CATHAN MICAH WATSON BOWLER

Iwi: Ngāpuhi, Ngāti Whātua

Bachelor of Management Studies with Honours – BMS(Hons)

I’d heard the Bachelor of Management Studies with Honours (BMS(Hons) degree had a mean reputation, so I thought, this is going to be something special. It has really opened my eyes up to so many new opportunities that I didn’t even know existed.

The extra year of postgraduate study in the BMS(Hons) is really valuable and gives you an edge when you’re applying for jobs.

I also successfully applied for a University of Waikato scholarship called Te Paewai o Te Rangi, which fully covered the cost of my tuition fees for three years.

My favourite subject is definitely Strategic Management, and I decided to combine that with Finance as a double major. Everything you learn is extremely practical, so I know I’ll be able to walk into a business tomorrow and apply all the skills I’ve learned straight away.

I got involved with competing in case competitions in my first year at uni – this is where you’re given several hours to devise a viable business strategy for a real-life business to increase their revenue and profits. In 2019 I got the opportunity to travel to Florida and take part in an international case competition, which was an amazing experience.

I’ve definitely changed and grown as a person since I started university. I’ve learned that I do my best work in the morning, so I’ve learned to be more organised. But I also made sure I had an awesome time at uni and attended all the fun social events, such as WMSSA’s Wine and Cheese Evening.

My advice to future students would be to talk to your lecturers and tutors about all the opportunities available to you, because some amazing doors will open for you.
Gain a globally recognised education and enjoy a unique student experience at the University of Waikato. Through our strong connections with local, national and global industries, we create opportunities for you to apply your knowledge and skills in internationally ranked subjects and real work environments.

**TRIPLE CROWN ACCREDITATION**

Waikato Management School is positioned in the top 1% of business schools globally, having held the prestigious Triple Crown Accreditation from EQUIS, AMBA and AACSB since 2005. This is an international benchmark of excellence in business education.

**STUDENT SATISFACTION**

The 2019 International Student Barometer surveyed over 160,000 international students studying all over the world. More than 90% of the students surveyed who studied at the University of Waikato were satisfied with their experience.

**RESEARCH INSTITUTES**

We have eight research institutes that support research in environmental science, demography and economic analysis, business and leadership, professional learning and development, education, cyber security and Māori and Indigenous development.
OUR INSPIRING RESEARCH

The University of Waikato is committed to using the power of our research and our people to make a significant, positive contribution on both a local and global scale. Our researchers focus on creating meaningful change, inspiring our students along the way.

INNOVATING FOR A BETTER TOMORROW

In 2020 researchers at the University of Waikato secured Ministry of Business, Innovation and Employment (MBIE) funding for four large-scale research projects worth a total of $39.4 million. The projects tackle some of the biggest challenges facing Aotearoa and the world today, including racism, climate change and how we make technology safe and accessible for everyone.

TEAMWORK AT THE CENTRE

At Waikato, we pride ourselves on a cross-disciplinary approach, working across subjects to tackle big issues, such as climate change, effectively. Our students often play a key role in the research projects our staff are leading, gaining unique insights and industry connections along the way, so they can hit the ground running when they graduate.

SOLVING REAL-LIFE PROBLEMS

Our close connections with industry create enviable opportunities for our students through work placements, internships and summer research projects.

For instance, our robotics experts are directly helping to address labour shortages in the horticultural sector and our Artificial Intelligence (AI) team works closely with many organisations, supporting them to reap the benefits of this game-changing technology. These connections bring about myriad opportunities for our students to apply what they are learning to the real world while they study.

SARA BAHR

Fourth-year Computing and Mathematical Science student

Sara received a Summer Research Scholarship to work alongside a large research project team, Ahuora, putting her machine learning knowledge to use to build a digital twin.
Our facilities provide a student-centred learning environment designed to give you all the support you need while you study with us.

**HAMeLTON**

**Student Centre**
Our multi-functional Student Centre at the Hamilton campus is equipped with a library, computer facilities, quiet study areas and a café. The Student Centre is a central hub for student support, combining traditional library resources with high-tech IT facilities.

**Gallagher Academy of Performing Arts**
The Gallagher Academy of Performing Arts at the Hamilton campus is designed for the study of performing arts and is equipped with a concert chamber and a range of teaching and performance spaces. Events, conferences and functions are also held here.

**Cyber Security Lab**
Situated in the School of Computing and Mathematical Sciences in Hamilton, the Cyber Security Lab was one of the first of its kind in New Zealand. The lab’s focus is to develop solutions that enable users to know their data source, and to preserve the privacy and utility of data.

**Sports Science Laboratory**
Located at the Avantidrome (Cambridge), the University of Waikato Sports Science laboratory provides specialist fitness testing services for recreational and high performance athletes, sports teams and schools.

**Esports Arena**
The University of Waikato is committed to leading the way in esports in New Zealand. With the development of the OMEN Esports Arena, the University of Waikato Esports Club, the 2degrees Esports Scholarship for school leavers, high performance team and tournaments and activities, we are providing experiences and career pathways into the rapidly growing esports industry.
TAURANGA

The Hub
In Tauranga, The Hub provides access to information and services including learning and IT support, a health nurse, Te Toka Māori mentors and the Waikato Students’ Union. Library services and a 24-hour computer lab are available on Level 1.

Coastal Marine Field Station
The Coastal Marine Field Station in Tauranga is the heart of the Bay of Plenty’s thriving marine industry. The facility is involved in coastal marine research and discovery, teaching and environmental monitoring, and has become a major centre of research excellence in the region.

Aquaculture Research Facility
The new 1000sqm algal research aquaculture facility in Tauranga is ideally situated for the developing aquaculture economy in the region, while the research being undertaken complements the new Aquaculture major offered at the Tauranga campus.

Science and engineering facilities in Tauranga
Specialist equipment in the new laboratories at the Tauranga campus allow for collaborative learning and research between our science and engineering students and academic staff.

The University of Waikato Adams Centre for High Performance
The Adams Centre in Tauranga is a world-class facility for the nation’s best athletes. It contains all the essential elements required to support elite athletes and prepare them for competition on the world stage, as well as cutting-edge research equipment and facilities. A full suite of sports treatment services is also provided within the centre, including physiotherapy, massage and podiatry.
ON CAMPUS
At both our Hamilton and Tauranga campuses, you’ll find the atmosphere is welcoming and supportive. At our Hamilton campus, grab a bite to eat and relax at the Village Green, or grab a coffee with friends at one of the cafés.

At our Tauranga campus get your coffee fix or have a bite to eat with friends at the on-campus café or chill out between classes in the communal study and social spaces. You can access a range of inner city eateries, bars and shops and you’re just minutes away from the stunning waterfront where you can relax in the park and enjoy views across to Mount Maunganui and Tauranga harbour.

ORIENTATION
The University runs an orientation programme at the start of A and B trimesters to give you everything you need to prepare for the year ahead. There are heaps of things new students can get involved in during Orientation, including introductory sessions to your school or faculty, workshops on study skills, campus tours, social events, food, entertainment and more.

SOCIAL SPORT
Social sport is a great way to meet like-minded people and make new friends. Social sport offers indoor and outdoor leagues in netball, touch, futsal and six-a-side soccer.

Visit waikato.ac.nz/sport for more information, including social sport opportunities at both the Tauranga and Hamilton campuses.
SPORTS FACILITIES

Students have access to a wide range of sports facilities at our Hamilton campus, including a 50-metre swimming pool, a dive pool, tennis and netball courts, the largest university sports fields in New Zealand and an indoor cricket facility. In Hamilton, we are also a short drive from the Avantidrome, bush and river walks, rowing facilities and much more.

At our Tauranga campus, there is a range of sport and wellbeing opportunities including interfaculty sport, social sport and yoga. You’ll be spoilt for choice when it comes to bush walks, beach sports and cycle trails in the Bay of Plenty region.

Discounted gym memberships

These are available through our partner gym providers, Unirec, The Gym and Toi Ohomai Aquatic and Fitness Centre.

Email uowspport@waikato.ac.nz for more information.

JOIN A CLUB

Students have many talents and interests, which are expressed in the wide range of clubs and student associations at both of our campuses. Whether you are interested in hockey, cooking, snowboarding, basketball, music, politics, debating or languages, you can get involved and meet other students. And if there isn’t a club to suit you, why not set one up?

Visit wsu.org.nz (cultural and interest clubs) or email uowspport@waikato.ac.nz (sports clubs) for more information.
We are enthusiastic about helping you get the advice and services you need to make sure your time at university is successful and enjoyable.

Visit waikato.ac.nz/go/student-support for more information.

ACADEMIC SUPPORT

Our student learning team can help you with assignment writing, time management, note-taking skills, and test and exam preparation.

Join a workshop or have a face-to-face consultation or visit waikato.ac.nz/students/student-learning for more information.
WAIKATOUNI APP

Once you’re a student your WaikatoUni app has all the support you need during your studies by providing easy access to your University information (upcoming lecture times, papers and grades information, student ID card) and systems (Moodle and MyWaikato), along with maps to help you navigate both campuses.

COMPUTER ACCESS

When you’re fully enrolled, you will be provided with an account to access free WiFi and be able to log in to any computer on campus.

CHILDCARE

You will find a créche and Te Kōhanga Reo o Ngā Kuaka at the Hamilton campus. In Tauranga, there is a range of public, private and kōhunga reo childcare providers to choose from, many close to the CBD campus. Visit campuscreche.co.nz or waikato.ac.nz/māori/kohanga-reo for more information.

CHAPLAINCY

Whether you’re looking to continue your faith, explore your spirituality or join a new group, our chaplaincy service is here to help.

Visit waikato.ac.nz/students/chaplaincy for more information.

TE TOKA A TIRIKAWA MĀORI STUDENT SUCCESS WHĀNAU UNIT

Te Toka whānau leaders are experienced students or kaawhina, who provide a ‘by Māori, for Māori’ service offering holistic, proactive and inclusive support at the Tauranga campus. Whānau leaders have a wealth of academic and institutional knowledge and tips to help you navigate your tertiary journey.

Te Toka whānau leaders are ‘on duty’ on a rostered basis in The Hub, Level 1.

Email te.toka@waikato.ac.nz for more information.

PACIFIC SUPPORT

When you’re on the Hamilton campus, be sure to check out The Conch, our Pacific space to relax, chill out with friends, or work on your latest project. We have dedicated Pacific support staff focused on Pacific success, mentoring and academic support.

INTERNATIONAL STUDENT SERVICES OFFICE

The International Student Services team is available to assist you during your time at the University of Waikato. Staff oversee:

- Orientation for new students
- Immigration and student visa requirements
- Medical and travel insurance
- International student bursaries
- Study abroad and exchange support
- International student events
- General support and pastoral care

Visit waikato.ac.nz/international/international-office/international-student-support or see page 38 for more information.

WAIKATO STUDENTS’ UNION (WSU)

The Waikato Students’ Union is the home of student-led support, engagement and advocacy.

Working closely with the University, the union creates student experiences and activities like Orientation and Clubs Day, helps student clubs to grow and thrive, and ensures your voices are heard on the issues that are important to you.

Visit wsu.org.nz for more information.

RAINBOW ALLIANCE

Recognising the duty of higher education in promoting equality or opportunity and furthering social inclusion, the University provides support services for people who identify as takatāpui and LGBTQI+ (lesbian, gay, bisexual, transgender, queer, intersex, or other gender and sexuality minority groups). The Rainbow Staff/Student Alliance is a group for staff and students and provides a forum for networking, discussion and progression of takatāpui and LGBTQI+ issues.

Email Rainbow.Alliance@waikato.ac.nz for more information.
Study is important but there’s more than just academic life at the University of Waikato. We are dedicated to supporting the health and wellbeing of all our students.

THE WELLBEING HUB
This is a dedicated space at our Hamilton campus for all students where you can relax, catch up with people, study and generally take time to rest and recharge. Call in and make a cup of coffee, relax on the couches and bean bags, play a board game or do a puzzle. You can even have a nap in one of the nap stations. There are also wellbeing talks, mindfulness sessions and creative activities.

Visit waikato.ac.nz/students/wellbeing-hub for more information.

WELLBEING IN TAURANGA
At our Tauranga campus, there are plenty of cosy spaces to unwind or you can enjoy some fresh air in the ātea (courtyard) or Level 3 deck. Our student health nurse, sports coordinator and sport and wellbeing ambassadors regularly host wellness activities and workshops. There is a range of sports and fitness options including free lunchtime yoga during A and B trimesters.

ACCESSIBILITY SERVICES
Accessibility Services aim to provide equity in education, and work to ensure that students with impairments have access to all areas of campus life. All students with an impairment are encouraged to register with Accessibility Services before coming to university, or very early in their studies. This will ensure the right access to support.

Visit waikato.ac.nz/students/accessibility-services for more information.

STUDENT HEALTH
All standard General Practice (GP) doctor and nurse services are available at the Hamilton on-campus Health Centre. The Hamilton campus also has a pharmacy and counselling services. When you are an enrolled student you’ll be able to book appointments with our health professionals via phone or our patient portal.

Our health nurse, based on Level 1, provides a range of health services to students at the Tauranga campus. Physio is available by appointment on campus. Counselling and GP services are available near the campus after referral from the nurse.

Visit waikato.ac.nz/students/health for more information.

COUNSELLING AND MENTAL HEALTH
Counselling and mental health support services are available to help with issues students may face such as loneliness, stress, anxiety and depression, and other aspects of life including relationships and sexuality. A mental health nurse is available to support students with a range of mental health needs or who are experiencing crises.

Visit waikato.ac.nz/students/counselling for more information.
UNIREC

Our Hamilton campus gym, UniRec, is one of the best-equipped gyms in the Waikato region with weights and cardio equipment, group exercise classes, pools, squash courts and a sports hall. Flexible memberships and student discounts are available.

Visit unirec.co.nz for more information.
Gaining work experience while at university gives you a huge advantage when starting your career after graduating.

WORK-INTEGRATED LEARNING

Our work-integrated learning (WIL) papers create a link between academic learning and the practical applications of this learning in the workplace. WIL is a compulsory component of all University of Waikato undergraduate degrees.

Students will acquire, understand and apply essential professional skills that will prepare them for the future workforce, while allowing them to demonstrate their graduate knowledge to employers.

Organisations will benefit from fresh perspectives and ideas and an additional pair of hands; short-cutting future recruitment and providing opportunities for growth. Work integrated learning is a win-win for organisations and students.

Visit waikato.ac.nz/work-integrated-learning for more information.

EMPLOYABILITY PLUS PROGRAMME

The Employability Plus Programme (EPP) gives University of Waikato students the opportunity to gain work-ready skills through volunteer activity, university participation and attending workshops.

EPP is an easy way to connect with dozens of local non-profits, looks great on your CV and is a fun student community to be a part of.

You will receive official recognition of your contributions through EPP which will outline all of the ways you’ve been involved on campus and in the wider community. When you’re job hunting, the practical skills and experience that you’ve gained will help you stand out to prospective employers.

Visit waikato.ac.nz/go/epp for more information.

CAREER ADVICE

Career Development Services provide free advice and support to current students and recent graduates. The careers team can assist with career planning, writing job applications and interview preparation. The services can connect you with employers through career fairs, employer campus visits and promotion of graduate opportunities.

Visit waikato.ac.nz/students/careers for more information.

MyCareer is an online system that allows you to manage your own career development. You can set up a personal profile, book in for workshops and tutorials, make appointments with career advisors, and search and apply for graduate and volunteer opportunities.
ASHLEIGH DICK
Bachelor of Engineering (Honours) (Environmental Engineering)

Environmental Engineer, Stantec, Auckland

Choosing to study at Waikato was the best decision I have made for my career.

The lecturers are fantastic and give up so much time outside of classes to give students the support they need. The degree is structured to have practical and professional development papers in each year which gives experience close to industry standard.

While Waikato offers eight engineering degrees, whatever strand you choose the staff and students all work closely together. This connection is one of the things I think is really special about studying engineering at Waikato. It’s also a place that is very nurturing of innovation, where you feel supported to bounce around big, bold ideas from day one.

I had plenty of highlights during my time at Waikato. One was working on The Wonder Project which aims to inspire children about STEM subjects. As an ambassador I got to visit schools, talk about my studies and jobs and teach students Newton’s Laws of Motion by building rockets with them.

I am also proud to have been selected for the YMCA Y25 programme, which supports 25 young Kiwi women who are passionate about making a difference and who aim to inspire other young women.

My long-term goal is to work abroad in impoverished countries to create sustainable solutions. As an environmental engineer, I believe we need to look more holistically at society, through the lens of poverty and education, to truly effect change for the environment.
Māori students make up nearly a quarter of our total student population, so our Māori students are visible and actively engaged in all aspects of University life. In welcoming you to the University we want you to know that there is another whānau here, a University whānau that is committed to supporting your success.

Māori students have a dedicated leadership role within the Waikato Students’ Union and Māori student groups across the University that provide a Māori voice and presence for programmes of study:

• Te Ranga Ngaku (Management)
• Te Whakahiapo (Law)
• Tūmata Kōkiri (Education)
• Mana Ake (Tauranga)
• Māori and Pacific STEM (Sciences)
• Te Tini o Hakuturi (Environmental Planning)
• Te Waiora (University-wide)

We work hard to provide a range of opportunities across the University that not only support your studies but also enhance your experience while you are with us. Te Kāhui Pīrere is a programme specifically designed to support first-year Māori students while Te Āhurutanga is focused on developing leadership potential. Our hope is that in providing you with a rich and diverse range of learning experiences you will be better prepared to go out into the world, to give back to your whānau and communities and to lead our communities into the future.

We look forward to welcoming you here and supporting the next stage in your life journey. Pai Maarire!

Dr Sarah-Jane Tiakiwai
Deputy Vice-Chancellor Māori

Te Kāhui Pīrere
The University of Waikato’s Te Kāhui Pīrere programme for first-year Māori students aims to empower you early with the tools you need to transition to University and succeed as a Māori student at Waikato. We’ll bring you into the Māori ki Waikato whānau and provide you with the opportunities to connect with new friends, to meet helpful support staff and to learn all you need to know about being a student at Waikato. As a first year student you’re already part of the programme; all you need to do is show up to Māori Orientation ready to do your best. We look forward to meeting you.

For more information please visit our webpage waikato.ac.nz/maori/Te-Kaahui-Piirere/

Te Mata o Te Arero
Ka whakahaerenga ētahi kaupapa reo hei whakakotahi i te hunga e hiakai tonu ana ki te whakamahi, ki te whakapakari rānei, i tō rātou areo Māori. He kaikōrero, he kura reo ētahi o ngā mahi, ā, e puare ana ēnei kaupapa ki te katao. Ahakoa tō matatau ki te reo, ahakoa tō tohu ki te Whare Wānanga, nau mai, tauti mai ki te whakanui i tō tātou reo rangatira.

DID YOU KNOW?
The Faculty of Māori and Indigenous Studies has global recognition as the pinnacle of Indigenous practice.
“There are kaupapa Māori related events held throughout the year and combined with our academic programmes, these activities provide unique opportunities, great memories, life-long friendships and a set of broad-based skills that will equip you for careers and life beyond study.”

Tuatahi Nightingale-Pene,
Te Kāhui Pīrere Programme Coordinator
Māori Student Success
Welcome to the University of Waikato!

I am Dr Keakaokawai (Keaka) Varner Hemi, Assistant Vice-Chancellor Pacific. Our Pacific theme at Waikato is imua. For many of us with roots in the Pacific, imua or words like it are familiar to us. In te reo Māori, i mua atu means “before”. In Samoa, muamua means “to advance”, and also “before” and “unprecedented”. In Tonga, laka atu ki mua means “go forward”. In other places, the words also translate. In Kiribati, tere means “to go forward” while waki can mean “to go forward” but also “to realise”. In Hawai'i, imua can also mean “before” but often means “forward” or “go forward”. In Hawai'i, it is a famous battle cry and motto.

When you come to Waikato, we want you to imua. Wherever you are now – whether honours student, first in your family to attend university, school leaver or mature learner – we want you to go forward, to progress and strive. We also want you to lead from the front, to set an example and to help lift others to do better. We have a great team of dedicated staff and various resources in place to assist your journey. The following staff and resources are all focused on your success Pacific Culture, Community and Support.

**Pacific peer mentoring**
Pacific mentoring services are run through the respective Pacific support services within the divisions/faculties.

**Pacific drop-in sessions**
Our Pacific support staff are available for one-on-one or group meetings in The Conch on request. Email pacificsupport@waikato.ac.nz to make an appointment.

**Pacific academic support**
There are Pacific academic advisors available. Contact your school or division for more information.
BEGINNING THE VOYAGE
Once you are here, our dedicated Pacific student support staff will ensure you are aware of the support available to you and that there is help when you need it – you just have to ask! We run student learning seminars, workshops and drop-ins for academic help. You can also book one-on-one appointments with staff.

SCHOLARSHIPS AND AWARDS
There are scholarships and grants for Pacific students who choose to study at Waikato, including:
- TAPA (Tertiary Achievement in Pacific Ako) Awards
- Edna Money Future Pacific Leaders’ Scholarship
- Pacific Excellence Scholarship

Visit waikato.ac.nz/scholarships for more information.

THE CONCH – OUR PACIFIC SPACE
The Conch is a dedicated space on campus for Pacific students to meet, study, refuel and be cultural. The space is located on Level zero of the Student Centre in Hamilton and is open from 9am – 5pm during the week for students to use for academic and social purposes.

Visit waikato.ac.nz/students/pacific-support for more information.

EVENTS THROUGHOUT THE YEAR
We host a wide range of events on campus throughout the year which offer excellent opportunities for you to get involved, make friends and have fun. These include the Ava Ceremony, Pacific Student Orientation, Pacific Sports Day, Oceania Games, Language Weeks, Independence Days, graduation events and more.

Visit waikato.ac.nz/students/pacific-support or email our Pacific Future Student Advisor at info@waikato.ac.nz for more information.

CHALLENGE THE HORIZON INITIATIVE
This is an initiative for our Pacific Post Grad, Masters and PhD students. We run events such as Fono at the Fale with Dr Aporosa, Higher Learners workshops and Pacific Research Symposia to support the needs of our Higher Learners.

IMUA LEARNER LEADER INITIATIVE
We run a year-long leadership and academic programme for all our Pacific first years that targets key transition points in their tertiary journey and to also set them up to thrive within the tertiary environment.

PACIFIC STUDENT ASSOCIATIONS
There are a number of Pacific student associations on campus where students can network, celebrate community and culture, and be involved in university life. We value Pacific Student Voice – every year the WSU elects a Pacific Director to represent the collective voice of our students.

The following associations are all run by students:
- Pacific Island Management Students Association
- Pacific Island Parents Students Association
- Pacific Law Students Association
- Papua New Guinea Waikato Students Association
- STEM Pacific and Māori Club
- Waikato University Cook Island Students Association
- Waikato University Fijian Students Association
- Waikato University Kiribati Students Association
- Waikato University Samoan Students Association
- Waikato University Solomon Island Students Association
- Waikato Uni-Tech Tongan Students Association
- Waikato University Tutala Niue Student Association
- Waikato University Tuvalu Students Association
- Waikato University Vanuatu Students Association
STUDY IN NEW ZEALAND
To study at the University of Waikato in Hamilton or Tauranga, you will need an equivalent of a New Zealand University Entrance qualification or to have successfully completed an approved Foundation Studies programme. You must also demonstrate proficiency in written and spoken English. Other requirements may also apply, depending on your proposed course of study or qualification.

Visit waikato.ac.nz/study/enrolment/undergraduate-international to check entry requirements.

INTERNATIONAL STUDENT SERVICES
The University of Waikato has a dedicated International Student Services team available to help you adjust to your new home and experience Kiwi culture. The team oversees international orientation for new students, immigration requirements and student visas, medical and travel insurance, international government scholarships and international student events. They provide student support and referral to appropriate services within the University and community so you can see them about any questions or concerns you may have.

DID YOU KNOW?
*More than 90% of international students surveyed who studied at the University of Waikato were satisfied with their experience.

*The 2019 International Student Barometer
INTERNATIONAL STUDENT ORIENTATION

International students are required to attend a programme of events in the week before classes begin. Orientation is designed to support you with your cultural and academic needs, and helps you become familiar with the University.

VISAS AND IMMIGRATION

Full details of immigration requirements, advice on your rights to work in New Zealand while studying, and reporting requirements are available from Immigration New Zealand, and can be viewed on their website at immigration.govt.nz.

If you currently hold a student visa and you wish to study at the University of Waikato, you may be able to renew your student visa at our Hamilton campus. Contact our International Student Services team for help +64 7 856 2889.

MEDICAL AND TRAVEL INSURANCE

International students must have appropriate and current medical and travel insurance while in New Zealand, as most international students are not entitled to publicly funded health services. If your medical insurance is with Student Safe (our recommended policy), our Student Health Centre at our Hamilton campus will bill the cost of your appointment directly to them provided it is eligible under your policy.

SOCIAL

Trips

Each trimester international students are invited to join day trips around the Bay of Plenty and Waikato regions. These are a great way to meet other international students while enjoying some of the best nature spots in our regions. Tickets go on sale at the start of each trimester, with more information provided during Orientation.

Sport and wellbeing

There are weekly drop-in sport sessions at UniRec (the University gym), where international students can take part in various sports including volleyball, table tennis, badminton and basketball. The Wellbeing Hub at the Hamilton campus offers a range of workshops and events including mindful breathing and book club.

English Club

Each week, all students are welcome to attend English Club where they can meet and chat to other international students.

FEES AND COSTS

As an international student, you are required to pay international fees, and obtain a student visa before enrolment can be completed. Fees must be paid for each course a student is enrolled in.

Visit waikato.ac.nz/study/costs for more information on fees and other costs.

SCHOLARSHIPS AND BURSARIES

We offer a range of options to assist you with funding your studies. These include:

- University of Waikato International Excellence Scholarship
- University of Waikato International Excellence - NZ School Leavers Scholarship
- The University of Waikato Tauranga campus International Bursary
- 20% bursaries for the Hamilton Campus

See page 46 for more information.

DON’T QUITE MEET THE ENTRY OR ENGLISH LANGUAGE REQUIREMENTS?

University of Waikato College at our Hamilton campus offers English language and foundation courses designed to set you up for furthering your university studies.

Visit pathways.waikato.ac.nz for more information.

APPLICATION PROCESS

1. Apply to enrol
2. Receive a formal offer letter
3. Accept your Offer of Place to study
4. Apply for accommodation
5. Pay tuition fees
6. Apply for a student visa

If you have questions email international@waikato.ac.nz.

For more information about being an international student at Waikato visit waikato.ac.nz/study/international or download a copy of our International Prospectus at waikato.ac.nz/go/prospectus.

facebook.com/WaikatoInternational

@waikatointernational

Code of Practice – The University of Waikato observes and is bound by the Code of Practice for the Pastoral Care of International Students. Copies of the Code are available from the New Zealand Qualifications Authority website at nzqa.govt.nz.
Completing part of your study overseas provides a great opportunity to add an international education experience to your degree. There are also a number of virtual programmes and internships available for those who want to gain international experience from the comfort of NZ. You’ll broaden your thinking, break out of your comfort zone, experience new cultures and improve your foreign language skills. All of our University of Waikato OE alumni rate their overseas exchange as one of the best university experiences they had.

As a University of Waikato student you have the opportunity to study overseas for one or two trimesters at one of more than 60 partner universities, including seven top 100 universities. The study you complete overseas will be credited back to your Waikato degree, and you’ll pay Waikato tuition fees (a set fee based on full-time enrolment) instead of costly international fees. You’re also able to receive your student loan and allowance during your exchange. You don’t need to be fluent in the language of the country you’re studying in, as these programmes are designed for students from anywhere in the world, and most offer classes taught in English.

Discover over 100 programmes in more than 20 countries:

- Belgium
- Canada
- China
- Denmark
- England
- Finland
- France
- Germany
- Hong Kong
- Ireland
- Japan
- Malaysia
- Mexico
- New Caledonia
- Norway
- Scotland
- Singapore
- South Korea
- Spain
- Sweden
- Taiwan
- The Netherlands
- United States of America
- Wales

Do you dream of travelling the world?
Are you keen to study in another country?
Choosing the right accommodation will help you transition smoothly to university life, get straight into your studies and start building lifelong memories and friendships. There are a range of accommodation options available for students.

HAMILTON

Halls of Residence

As a resident in one of our fully catered halls you’ll get your own room. It comes furnished with a single bed, mattress, mattress protector, chair, desk, desk light, bookcase, drawers and a wardrobe. All rooms are fully carpeted and centrally heated. Students can bring their own bedding and towels or buy a linen pack to keep.

Residents share bathroom, laundry and kitchenette facilities. Fully catered halls have a dining room where breakfast, lunch and dinner are served. Each of the halls has a lounges with TVs, and computer rooms with quiet study areas.

Visit waikato.ac.nz/go/accommodation for more information.

College Hall
College Hall is the largest and most modern of our Halls of Residence facilities. There are modern lounges on each floor for study and leisure time, along with a large TV projector room designed for the ultimate sports and movie experience. College Hall is located next to the University swimming pool and is also close to the sports fields, cricket nets, and tennis and netball courts.

Student Village
In Student Village students live in pods of six residents. Each pod shares bathroom and kitchenette facilities, and the close living environment creates tight-knit communities with a strong sense of family. The hall is next to UniRec (our University gym) and the Gallagher Academy of Performing Arts. Main lecture theatres are only a short walk away.

Bryant Hall
Bryant Hall is our smallest hall, creating a supportive community of residents and staff who are focused on balancing study and the student lifestyle. Included at Bryant Hall is a Kaupapa Māori floor, Nga Tokoroa-Taingahue and a floor for Pacific students.

Self-catered accommodation
Self-catered accommodation for returning and international students is also available. Students live in cottages and are responsible for their own meals and bills. These accommodation options are Orchard Park and the Silverdale Road Apartments. Self-catered applications from first-year students will be considered under special circumstances, but the majority of first-year students reside in fully catered accommodation.

Residential Assistants
Each hall has a Residential Life Manager, assisted by a team of Residential Assistants (RAs) who ensure the smooth running of the hall and provide you with a positive academic and social environment. RAs are students too, so they know the kinds of issues you’re likely to have and can help you figure them out. Staff are rostered on duty evenings and weekends, so there is always someone available if you have any queries or concerns. There is approximately one RA to every 30 students.

Facilities
- Internet – free Wifi is available in all rooms
- TV lounges
- Computer room
- Games room
- Leisure centre
- Laundry – coin operated machines
- Bike and motorbike sheds
TAURANGA

SELWYN STREET STUDIOS

In Tauranga, our brand-new Selwyn Street Studios accommodation is just a six-minute walk to the University campus.

The 95-bed facility offers students their own studio style room, complete with en suite bathroom. Rooms are fully furnished with a king single bed, wardrobe, desk, chair and bookshelf. There’s a shared kitchenette and lounge on each floor and a large shared kitchen and social space on the ground floor.

Students can bring their own bedding and towels or buy a linen pack to keep.

Apply for accommodation

Applications for accommodation open on 1 August 2021. Apply online at waikato.ac.nz/go/accommodation. You do not need to have been accepted into your study programme to apply.

If you apply by 1 October 2021, you will be considered for a place when we make our first round of offers. Once you have submitted your application, you can check the status of it at any time by visiting waikato.ac.nz/go/accommodation. Offers of places in our Halls of Residence are sent via email.

If you are offered a room, make sure you pay the deposit and administration fee in full and accept your offer online by the due date indicated on your accommodation offer letter. We will continue to make offers after October subject to availability. This could be as late as January/February 2022.
FAQs - Accommodation

Can I stay for half a year or is it full-year only?
Preference is given to students enrolled for a full academic year (February – November). If you are starting your studies in July (Trimester B), accommodation offers will be made subject to availability.

Do I have to move out during the trimester holidays?
No, the room is booked for the entire academic year.

Are meals included?
Meals are included in the fully catered options at Bryant Hall, College Hall and Student Village. Students are provided with three meals a day, seven days a week. There are hot and cold meat options available at lunch and dinner and a vegetarian option.

Our Tauranga accommodation facility is self-catered.

Who cleans my room?
It’s your responsibility to keep your room clean and tidy. In fully catered halls a housekeeper will clean and maintain bathrooms, hallways, lounges and common areas, and will vacuum bedrooms once a week.

Can I have people over to stay?
Residents’ guests are allowed to stay at the discretion of the Residential Life Manager for up to four nights in total per academic year. Overnight guests must be registered with the Duty Residential Assistant by 10pm, and a fee may be charged to the resident.

What electrical equipment am I allowed in my room?
You are allowed to bring laptops, TVs, gaming equipment, stereos, alarm clocks, computers, hair straighteners, hair dryers and curling irons. If you bring your own computer we recommend you use a surge protector. Electric blankets are permitted, provided they have a current safety certificate issued by a qualified electrician within the last six months. You are not allowed to bring heaters, irons, toasters, jugs, grills, microwaves, fridges or other cooking appliances.

Alternative accommodation options
If Halls of Residence aren’t for you, there are alternative accommodation options available.

Homestay
Homestay accommodation is when a student lives with a family in their home while studying. Students will usually have their own room and most meals provided.

Visit waikato.ac.nz/student-life/accommodation/homestay for more information on homestays.

Flatting
The Hamilton campus is located between the suburbs of Silverdale and Hillcrest. Both of these suburbs have houses, studio apartments and flats available for rent. If you live further afield in the Bay of Plenty in the areas of Rotorua, Whakatāne or Katikati, you can use the free regional bus services to get to the Tauranga campus.

The Tauranga campus is located in the Tauranga CBD. The surrounding suburbs of Otūmoetai, Tauranga South and Judea have houses, studio apartments and flats available for rent.
Our scholarships reward academic ability, leadership potential, community spirit, sporting skills, and creative and performing arts talent.

We appreciate the diversity of our student group and provide funding for students from all backgrounds. Scholarships may offer support for fees or accommodation, or may be paid directly to the student. For the most up to date information about what you’re eligible to apply for, how to apply, closing dates and more, visit waikato.ac.nz/scholarships

DID YOU KNOW?
The University of Waikato has over 100 scholarships available.
SCHOLARSHIP APPLICATION PROCESS

1. Use the Scholarships Finder at [waikato.ac.nz/scholarships](http://waikato.ac.nz/scholarships) to see which scholarships you may be eligible for.

2. If you haven’t already applied for a qualification at the University of Waikato, you will need to do this before applying for a scholarship. If you are still deciding what to study, you can change or withdraw at any stage.

3. Read details on the scholarship application process at [waikato.ac.nz/scholarships/Application-Process/](http://waikato.ac.nz/scholarships/Application-Process/)

4. Ensure you tailor your answers to the scholarship selection criteria, and take time to include all other requested items (e.g. names of referees, CV, tailored personal statement).

5. Complete your scholarship application online at [waikato.ac.nz/scholarships](http://waikato.ac.nz/scholarships). Most entrance scholarship applications close 31 August each year.

6. You will receive an electronic notification when your application has been processed and when a decision has been reached by the Selection Panel. This may take up to eight weeks. Please ensure you accept any offers by the date indicated.

For the most up to date information about what you’re eligible to apply for, how to apply, closing dates and more, visit [waikato.ac.nz/scholarships](http://waikato.ac.nz/scholarships) or download the WaikatoUni app to get scholarship application reminders.

Entrance scholarship applications close 31 August

*All scholarships require students to gain University Entrance and admission to their degree; most require full-time study during the tenure of the scholarship. All scholarship information is correct at the time of printing. Visit [waikato.ac.nz/scholarships](http://waikato.ac.nz/scholarships) for the most up to date information about what you’re eligible to apply for, how to apply, closing dates and more.
Fees-Free Policy

The government’s fees-free policy covers one year of full-time study (or 120 points of part-time study) for students who are new to tertiary education, and has no age limit. Almost all University of Waikato courses are eligible for fees-free.

ELIGIBILITY
You are eligible for fees-free study if you:

- Are a New Zealand citizen, or meet New Zealand residency requirements
- Are not enrolled in secondary school when your qualification starts
- Have not undertaken previous study or training of more than 60 credits, except while you were at school

Enrol in an eligible qualification (all of our bachelor’s degrees are eligible).

WHAT’S COVERED?
The fees-free policy has the same coverage as a student loan. It covers:

Tuition fees – fees are charged for each paper you enrol in. Often these paper costs vary between subjects. Tuition fees are set annually by the University.

Compulsory fees – other fees are set by the University to pay for maintenance and services (for example our Student Services Levy).

Visit waikato.ac.nz/go/fees-free or feesfree.govt.nz for more information about fees-free and to check your eligibility.

STUDYLINK
Financial support, such as a student loan or allowance, is available for some students through StudyLink. If you are eligible, the loan will cover tuition fees, and can also cover your living costs. The loan will be interest free for a period of time if you meet specific criteria. An allowance doesn’t need to be paid back.

If you are eligible for fees-free study you can still apply for a student allowance, or for a student loan towards your living and course related costs.

Visit studylink.govt.nz for more information.

SCHOLARSHIPS
Refer to page 46 for more information on University of Waikato scholarships.
KHEY-JHYN MARTIN
IWI: Ngā Rauru
Bachelor of Social Work
Social Worker, Tautoko Mai – Sexual Harm Support, Tauranga

My Uncle Eli started studying at Waikato the year I was born. He was the first in all my whānau to get a degree. He had his own wall in our homestead in Waverley where his graduation photo and science degree were hung up. I used to be cheeky and ask my Nan why I couldn’t have my photo on the wall and she always said to me, ‘You have to do something special to get up on the wall’. I remember wanting my photo on that wall so bad.

I guess, statistically, the odds were stacked against me. A young Māori woman with no University Entrance, moving to a new town, a teenage sweetheart back home - I could’ve easily given up and gone back to Taranaki but I hung in there.

It was hard mahi. It’s a long degree, but it needs to be. It naturally selects the people who will make good social workers. This programme prepares students really well for placement. You have to have a passion for people, you need to be resilient and persevere because you’re dealing with confronting and often negative issues. Once you get through that, there’s so much beauty at the end of it.

Know your ‘why’. My ‘why’ was my whānau - they were always there cheering from the side lines and supporting me unconditionally. That’s what motivated me to stick with it.
Enrol in 5 Easy Steps
TAKE 2 MINUTES TO CREATE A MYWAIKATO ACCOUNT

To get started, go to enrol.waikato.ac.nz and select ‘Create an account’. Ensure that the email address you enter in your MyWaikato account is one that you will use when you start university, as most communications sent from the Admissions Office are done by email.

LOG IN AND APPLY FOR YOUR COURSE

You’ll need to know which qualification you want to study, which subject you want to focus on (your major subject) and which trimester you want to begin study. We may ask you for more information. Some programmes have an additional selection process and/or interview. We aim to respond to applications within one week, however this may take longer during peak periods.

RESPOND TO OFFER OF PLACE

You will be sent an Offer of Place by email if your application is approved. Log into MyWaikato to accept your Offer of Place to let us know you have decided to study your undergraduate degree at the University of Waikato.

CHOOSE YOUR PAPERS AND COMPLETE YOUR ENROLMENT

Once enrolment is open (usually the last three months of the previous year), you can choose your papers by logging into MyWaikato. We will contact you at this stage to assist with paper selection and finalising your enrolment.

ACCEPT YOUR ENROLMENT AGREEMENT

Once you receive your Enrolment Agreement by email, you will need to accept it and let us know how you will pay your tuition fees. For the most up to date fees information, search for your qualification online at waikato.ac.nz/study/course-finder

HAMILTON CAMPUS
Gate 1, Knighton Road,
Hamilton 3240

TAURANGA CAMPUS
101-121 Durham Street,
Tauranga 3110
You will be accepted into the University of Waikato if you achieve University Entrance (UE) and meet any additional requirements for your chosen qualification and papers. Specific entry requirements for qualifications can be found on pages 80 – 121.

ADMISSION TO UNIVERSITY

There are multiple ways to gain admission to university. Each qualification has set entry criteria requirements. Our admissions team identifies the most appropriate admission option for you when assessing your submitted application and will contact you if they need more information.

UNIVERSITY ENTRANCE FROM NCEA

To gain admission to university, you must have University Entrance. The chart below outlines how you can get University Entrance from NCEA:

| NUMERACY LEVEL 1 OR HIGHER: | 10 credits from specified achievement standards available through a range of subjects OR from a package of three numeracy unit standards (26623, 26626, 26627 – all three required) |
| LITERACY LEVEL 2 OR HIGHER: | 5 reading credits AND 5 writing credits from the specified list. The credits can come from a range of subjects. For more information go to waikato.ac.nz/go/UEliteracy |
| LEVEL 3: | 14 credits in one approved subject 14 credits in a second approved subject 14 credits in a third approved subject  
Achieve NCEA Level 3 Certificate (60 credits at Level 3 or above and 20 credits from Level 2 or above) |
PART A: A minimum of 120 points on the UCAS Tariff at A or AS Level other than the General Paper, including at least three subjects (other than Thinking Skills) in which no grade is lower than a D.

PART B: Literacy: an E grade or better in any one of AS English Language, Language and Literature in English, Literature in English; a D grade or better will satisfy one of the subject requirements of Part A, or as prescribed for University Entrance with NCEA.

Numeracy: a D grade or better in IGCSE or GCSE mathematics, or any mathematics passed at AS Level; a D grade or better will satisfy one of the subject requirements of Part A, or as prescribed for University Entrance with NCEA.
INTERNATIONAL BACCALAUREATE (IB)
Standard recognised by Universities New Zealand Award of the full IB Diploma (24 points or higher).

OTHER ADMISSION OPTIONS
You may be eligible for admission if:

- You have studied to University Entrance level at an overseas secondary school or at tertiary level (in New Zealand or overseas), or passed examinations that reach the standard for admission to university as recognised by Universities New Zealand. We will assess your study to determine whether it is an acceptable equivalent to the New Zealand University Entrance qualification
- You are under 20 years of age and have been homeschooled and do not have University Entrance
- You successfully complete the Certificate of University Preparation or the Certificate of Attainment in Foundation Studies (see page 60 for more information)
- You have achieved University Entrance (UE) in another form, including UE achieved by examination or accreditation.

DISCRETIONARY ENTRANCE

Students under 20 without University Entrance

If you are over 16 years of age and a New Zealand citizen or permanent resident, you may be eligible for Discretionary Entrance (DE).

Discretionary Entrance is based on NCEA Level 2 results and you must also meet the literacy and numeracy requirements for University Entrance (see University Entrance from NCEA on page 38).

Year 13 students who leave school after 1 June are not eligible to be considered for Discretionary Entrance.

You are assessed on the basis of your academic background and an advisor’s recommendation. If you are still at school, or have left school recently, your school principal must be your advisor. If you have left school, a Future Student Advisor at the university can help you.

SPECIAL ADMISSION

Students over the age of 20

If you left school without University Entrance and will be 20 years of age or over by the first day of the trimester, you may be considered for Special Admission. Factors considered when granting Special Admission are:

- Any other relevant study you might have undertaken
- Your general life experience and preparedness for university study.

Visit waikato.ac.nz/study/enrolment/undergraduate for more information about entry criteria for undergraduate domestic students.

CUP

The Certificate of University Preparation is a one-trimester programme, which can provide students who didn’t quite reach University Entrance with the tools and skills needed to confidently transition into degree-level study. Refer to page 60 for more information.

DID YOU KNOW?

We offer drop-in information sessions which are one-on-one with a Student Advisor who can advise and offer guidance on all aspects of undergraduate study.

*DID YOU KNOW?

If you don’t meet the entry criteria or need further preparation for degree study, we also offer a range of bridging and pathway programmes.

Visit waikato.ac.nz/pathways for more information.

*Information is correct at the time of printing. Visit nzqa.govt.nz for the most up to date list.
## FAQs

### WHEN SHOULD I APPLY?
You can apply online at any time, but we recommend you do so three months before the trimester you’re intending to enrol in starts.

Check out how to get started by creating a [MyWaikato](#) account on page 53.

### DO I NEED TO HAVE UNIVERSITY ENTRANCE BEFORE I APPLY?
No. We encourage all applications to be submitted by December 1 (for A Trimester).

### HOW CAN I FIND OUT MORE ABOUT SCHOLARSHIPS?
The University of Waikato has a huge range of scholarships available for undergraduate and postgraduate students. Head to [waikato.ac.nz/scholarships](#) to see what’s available, the due dates, and what you’re eligible for.

### HOW DO I APPLY FOR A STUDENT LOAN OR STUDENT ALLOWANCE?
You will need to contact StudyLink by visiting [studylink.govt.nz](#). You can do this as soon as you apply to University of Waikato. StudyLink encourages you to apply mid-December the year before study to ensure smoother processing.

### HOW IS THE UNIVERSITY YEAR STRUCTURED?
The academic year is divided into three trimesters – A, B, and C. A Trimester is from March – June, B Trimester is from July – October. Some papers can also be studied during C Trimester, which is from November – February.

### CAN I STUDY MORE THAN ONE SUBJECT?
Yes. This can be done in various ways including a conjoint degree (where you do two bachelor’s degrees at the same time), a single degree with a double major, or doing a degree with a major and a minor.

### CAN I CHANGE MY DEGREE/SUBJECT WHILE STUDYING?
Yes. You can change your degree or subject at any time. The first two weeks of each trimester are considered a ‘trial period.’ If you withdraw within these first two weeks, you can get a full refund of your fees.

### WHAT IS A PAPER?
Think of a paper like a subject in school. The paper will focus on a particular subject that works towards your field of study, or is something you are interested in.

### WHAT IS THE STUDENT ACCOMMODATION LIKE?
On the Hamilton campus there are three Halls of Residence - Bryant Hall, College Hall, and Student Village. These are all fully catered. Bryant Hall is our smallest hall, creating a tight-knit community. College Hall is our largest hall, focussing on providing an energetic environment for our aspirational students. Student Village is unique in that students live in pods of six residents rather than being spread across blocks of 50 – 60 students.

In Tauranga we have the Selwyn Street Studios, self-catered accommodation. With 95 studio-style rooms, complete with en suite bathrooms, the building is located on Selwyn Street, just a six-minute walk to the University campus.

### CAN I VISIT WAIKATO BEFORE I APPLY?
The University of Waikato has Open Days each year for students to come to campus and see what university life is like. Our Hamilton campus Open Day is Friday May 21, 2021. Our Tauranga campus Open Day is Friday 28 May, 2021.
NEED HELP OR MORE INFORMATION?

Future Student Advisor’s

Prospective students, and their families and whānau, can talk to our Future Student Advisor’s about subject and degree choices, the enrolment process, University Entrance requirements and pathways to study. You can also discuss scholarships, accommodation and student support services.

You may want to contact us about campus tours and upcoming information sessions in your area.

HAMILTON CAMPUS
Gate 1, Knighton Road,
Hamilton 3240

TAURANGA CAMPUS
101-121 Durlam Street,
Tauranga 3110
University of Waikato College comprises the University’s foundation and bridging programmes such as the Certificate of University Preparation (CUP), English language programmes for students with English as an additional language, and international study tours for international vocational, professional and academic individuals and groups. The College has a key role in contributing to the distinctiveness, excellence and international connectedness of the University.

**UNIVERSITY PREPARATION AND BRIDGING**

**Certificate of University Preparation (CUP)**

The Certificate of University Preparation programme is a full-time one-trimester programme for students who do not meet the entry requirements for study at a New Zealand university, or who need additional academic preparation. This programme will introduce students to an adult learning environment including lectures, tutorials and workshops. The Certificate of University Preparation is an academically approved qualification that covers skills such as note-taking, research, essay writing, time management and critical thinking. Full-time students should expect to spend about 40 hours a week on study, including attending classes, working on assessments and undertaking revision.

Visit [waikato.ac.nz/study/qualifications/certificate-of-university-preparation](http://waikato.ac.nz/study/qualifications/certificate-of-university-preparation) for more information on entry requirements.

**Preparation for study in New Zealand**

**Diploma in Postgraduate Preparation – Pre-Masters**

From November 2021 the College will deliver a new programme to prepare international students for entry into a choice of six postgraduate programmes; Master of Applied Finance, Master of Business and Management, Master of Digital Business, Master of Management (Marketing), Master of Management (Supply Chain Management), or Master of Professional Accounting. The Diploma will consist of six papers delivered across two trimesters, including English language and academic, personal and professional skills papers, and culminating in a capstone professional project.

**International Diploma (Business and Computer Science)**

From 2021 the College will deliver new programmes to provide pathways for international students into the second year of some bachelor’s degrees. The International Diploma (Business) will be available from March 2021 and will consist of the first year of the Bachelor of Business, with additional supporting papers in academic English and academic study skills. The International Diploma (Computer Science) will be available from 2022 and will provide a similar preparation that leads to selected majors in computing, in the Bachelor of Science and the Bachelor of Computing Science.

**Certificate of Attainment in Foundation Studies (CABS)**

The Certificate of Attainment in Foundation Studies is a full time one or two trimester programme for international students who have not met the academic entry requirements for undergraduate study at a New Zealand university. This programme will teach students skills for successful tertiary study within New Zealand. It includes compulsory English language and elective papers across a range of study areas. Classes include New Zealand students to encourage international students to improve their English and make New Zealand friends.

**Certificate of Attainment in English Language**

The Certificate of Attainment in English Language is a full-time course with daily classes for 10 weeks. There are five intakes each year including one intensive block of daily classes for eight weeks. Students are placed according to a recent English Language test result (such as IELTS) or can be tested prior to starting and placed in an appropriate level from Elementary to Advanced. All students study a core programme that helps them improve their reading, writing, listening and speaking skills. Higher-level classes focus on skills needed for successful university study such as academic writing, listening and note-taking, academic reading and oral presentation skills.

Attaining specific grades in the upper levels of the programme gives students the English language entry requirement to enter Foundation Studies, the International Diploma, and University undergraduate and postgraduate programmes.
General English

General English is a course designed for students to improve their everyday English and is suitable for students preparing to enter the academic English programme. The programme includes core language skills and vocabulary, fluency and accuracy in listening, speaking, reading and writing. General English is a full-time programme of daily classes every week. Students can start every second Monday and study for three weeks to six months (except New Zealand public holidays).

International English Language Testing System (IELTS)

University of Waikato College is an official IELTS Test Centre. The IELTS test is designed to assess the English language ability of candidates who intend to study or work where English is the language of communication. IELTS is recognised by universities and employers in many countries including New Zealand, Australia, Canada, the UK and USA. It is also recognised by professional bodies, immigration authorities and other government agencies. Tests are available in both Tauranga and Hamilton.

Visit pathways.waikato.ac.nz/college/ielts-centre for more information.

Visit waikato.ac.nz/pathways or email pathwaysqueries@waikato.ac.nz for more information about pathway programmes and admission criteria.
Jump Start is a summer programme for undergraduate students new to the University of Waikato. Jump Start begins in January and runs over 4 weeks in the lead up to Trimester A.

Jump Start is particularly beneficial for those who have lower NCEA credits (or equivalent) in core areas such as literacy, maths, and science, those who have been out of study for a while, and those who think they would benefit from easing their way into University. Small classes help with the transition from secondary school to university.

There are several papers to choose from that in many cases can be credited to a bachelor’s degree. There are Jump Start papers available at the Hamilton campus and Tauranga campus.

Benefits of the Jump Start Programme include completing the first paper in a bachelor’s degree, study skills workshops, meeting key teaching and support staff, making friends and becoming familiar with university systems.

COSTS

If eligible, tuition fees will be covered through the fees-free policy. Subsidised accommodation may be available.

ENTRY REQUIREMENTS

To enrol in Jump Start, you need University Entrance or equivalent. Students are encouraged to register when registration opens in October and pre-enrol in their chosen Jump Start paper; places are limited. Once NCEA (or equivalent) results are released in January, your place in Jump Start is confirmed.

Visit waikato.ac.nz/go/jump-start or email jumpstart@waikato.ac.nz for more information.
The Unistart programme gives high school students the opportunity to take university papers while still at secondary school. There are over 50 papers to choose from that can be taken in A or B trimester, with options for studying online or on campus.

**ENTRY REQUIREMENTS**

Unistart is open to all year 12 and 13 secondary school students who have met the criteria for discretionary entrance to university, are between 16 and 20 years old at the start of the Unistart paper, and have approval from their school.

**COSTS**

The University of Waikato Unistart Scholarship covers the cost of up to two Unistart papers. All applicants will automatically be considered for this scholarship after being accepted into the programme. The Unistart programme does not affect fees-free eligibility for full-time study, however it is advised to check feesfree.govt.nz for updates.

**SCHOLARSHIP ELIGIBILITY CRITERIA**

As well as meeting the entry requirements for Unistart, to be eligible for the scholarship you will also need:

- NCEA Level 2 Certificate or above endorsed with Merit or Excellence, and
- NZ citizenship or permanent residency.

Visit [waikato.ac.nz/study/unistart](http://waikato.ac.nz/study/unistart) to learn more about this programme.

Below are some of the subjects we offer papers in for Unistart:

- Arts and Social Sciences
- Computer Science
- Digital Learning
- English
- Economics
- Education and Society
- Geography
- Health, Sport and Human Performance
- International Languages and Cultures
- Language and Literacy Education
- Law
- Māori and Indigenous Studies
- Mathematics
- Music
- Philosophy
- Political Science
- Science
- Screen and Media
"I think it all comes down to motivation. If you really want to do something, you will work hard for it."

Sir Edmund Hillary

**Key**

- M - Available as a minor only
ACCOUNTING
Accountants are business leaders who use their skills to analyse data and explain financial information to their clients, such as profit margins and cash flow. They also help senior managers make strategic business decisions, and can advise on taxation, contracts and assets. Good communication and problem-solving skills are needed.
DEGREES: Bachelor of Business page 105, Bachelor of Management Studies with Honours page 105.
Visit: waikato.ac.nz/study/subjects/accounting

ADULT LEARNING M
The Adult Learning papers equip graduates with the knowledge to work alongside adults in New Zealand tertiary institutions such as adult and community education agencies, polytechnics, private training establishments, wānanga and universities.
AVAILABLE AS A MINOR ONLY.
Visit: waikato.ac.nz/study/subjects/adult-learning

AGRIBUSINESS M
Agribusiness is a critical part of New Zealand’s export-driven economy and is focused on business activities that make up the agricultural supply chain, from farm-gate to plate. Gain the skills to address challenges facing the industry and help farmers create a sustainable competitive advantage in international markets.
AVAILABLE AS A MINOR ONLY.
Visit: waikato.ac.nz/study/subjects/agribusiness

ANIMAL BEHAVIOUR M
Animal Behaviour is the study of behaviour patterns in animals (including humans), and how the behaviour of individuals helps to determine the density and distribution of populations. Knowledge of animal behaviour is of increasing importance in areas such as evolutionary biology, conservation biology, and the efficient and humane management of farm animals.
AVAILABLE AS A MINOR ONLY.
Visit: waikato.ac.nz/study/subjects/animal-behaviour

ANTHROPOLOGY
Anthropology is the study of humanity in all its fantastic diversity and is suited to anyone who is interested in the relationship between people and culture across time and space. Studying Anthropology will challenge students to re-imagine their assumptions about their own societies and cultures and develop a tool kit to critically engage with their changing world.
DEGREES: Bachelor of Arts page 81, Bachelor of Social Sciences pages 82 and 119.
Visit: waikato.ac.nz/study/subjects/anthropology

APPLIED DIGITAL COMMUNICATION
Applied Digital Communication focuses on the design of communication in digital environments. You will be equipped to work in multidisciplinary teams that can combine communication, data, and technologies to understand and address users’ needs in a broad range of digital era environments.
DEGREE: Bachelor of Communication pages 81 and 105.
Visit: waikato.ac.nz/study/subjects/applied-digital-communication

AQUACULTURE
Aquaculture involves studying the underlying reproductive physiology and developmental biology of early life-cycle strategies used by aquatic animal species. This knowledge is examined for its use in the husbandry, breeding and sustainable production of species in aquaculture.
DEGREE: Bachelor of Science pages 93 and 115.
Visit: waikato.ac.nz/study/subjects/aquaculture

BIOCHEMISTRY M
Biochemistry is the study of the chemical processes that occur in living things. Biochemists try to understand the fundamental molecules of life and how they interact in living organisms, in health and disease.
AVAILABLE AS A MINOR ONLY.
Visit: waikato.ac.nz/study/subjects/biochemistry

CHEMICAL AND BIOLOGICAL ENGINEERING
Chemical and Biological Engineering focuses on using process engineering, science and maths principles to transform chemical and biological materials into high-value products and services.
DEGREE: Bachelor of Engineering with Honours page 91.
Visit: waikato.ac.nz/study/subjects/chemical-and-biological-engineering

CHEMISTRY
Chemistry is the science of substances – their structures, properties and reactions that change them into other substances.
DEGREES: Bachelor of Science page 115, Bachelor of Science (Technology) page 115.
Visit: waikato.ac.nz/study/subjects/chemistry

CHINESE
Chinese involves the study of Modern Standard Chinese (Mandarin) and the history, culture and society of imperial and present-day China.
Chinese is available as a pathway within the International Languages and Cultures major, and as a minor. See International Languages and Cultures page 81.
Visit: waikato.ac.nz/study/subjects/chinese
CIVIL ENGINEERING
Civil Engineering deals with the design, construction and improvement of our physical and natural environments. This includes works such as buildings, bridges, dams, roads and supply systems.

DEGREE: Bachelor of Engineering with Honours page 91.
Visit: waikato.ac.nz/study/subjects/civil-engineering

COASTAL PROCESSES
Globally, many people live close to the coast or depend on coastal resources. This subject examines processes and factors that control coastal landforms, resources and hazards, evaluates human effects, and identifies and assesses options to avoid or mitigate adverse impacts.

AVAILABLE AS A MINOR ONLY.
Visit: waikato.ac.nz/study/subjects/coastal-processes

COMMUNICATION DESIGN
Communication Design (also called visual communication design or graphic design) is concerned with visual symbols: the communication of information in words and images across different media.

DEGREE: Bachelor of Design pages 81 and 88.
Visit: waikato.ac.nz/study/subjects/communication-design

COMMUNITY HEALTH
Community Health draws on Māori, indigenous, critical and social perspectives in order to investigate the way health is understood and practised in our society. Students will develop practical skills that will allow them to advocate and take action by enhancing the wellbeing of themselves and their communities.

DEGREE: Bachelor of Health, Sport and Human Performance page 99.
Visit: waikato.ac.nz/study/subjects/community-health

COMPUTER SCIENCE
Computer Science deals with the theory, design, analysis, implementation, efficiency and application of processes that transform information. The fundamental question underlying all of computer science is, “What can be automated?”

DEGREES: Bachelor of Computing and Mathematical Sciences Honours page 87, Bachelor of Computer Science page 87, Bachelor of Science page 115.
Visit: waikato.ac.nz/study/subjects/computer-science

CREATIVE MEDIA
Exploit the power of media-rich creative arts for the purpose of clear, engaging, persuasive and powerful storytelling. Learn how to strategically blend text, images, music, sound, film and performance to achieve your communication goals in a media-rich world.

DEGREE: Bachelor of Communication pages 81 and 105.
Visit: waikato.ac.nz/study/subjects/creative-media

CREATIVE WRITING
Being a great writer will set you up for success in any career path. By studying creative writing you will hone your communication skills to develop professionally, build your confidence and learn to write effectively across a range of genres.

AVAILABLE AS A MINOR ONLY.
Visit: waikato.ac.nz/study/subjects/creative-writing

DATA ANALYTICS
Data Analytics is the intersection of Computer Science and Statistics and is the science of examining data sets with the purpose of drawing conclusions about that information. It is used in a number of industries from healthcare to travel to energy management, to help companies make better decisions as well as verify and disprove existing theories or models.

DEGREES: Bachelor of Computer Science page 87, Bachelor of Computing and Mathematical Sciences with Honours page 87, Bachelor of Science page 115.
Visit: waikato.ac.nz/study/subjects/data-analytics

DIGITAL BUSINESS
Successful businesses of today are also digitally advanced businesses. This subject prepares future managers for a world where disruptive technologies – such as big data, mobile and gamification – will pervade every facet of business, enabling new ways of engaging with customers and improved productivity.

DEGREES: Bachelor of Business page 105, Bachelor of Management Studies with Honours page 105.
Visit: waikato.ac.nz/study/subjects/digital-business

DIGITAL LEARNING
Technology is now part of everyday life and is increasingly becoming part of our learning environments. Digital Learning blends both technical and pedagogical skill sets. It builds knowledge of digital technologies for and in teaching and learning (pedagogical focus) and develops understanding of teaching and learning which will encourage better design, development, deployment and evaluation of such technologies (technical focus). Digital Learning includes a range of papers from the education, computer science, screen and media, and graphic and design disciplines.

DEGREE: Bachelor of Social Sciences pages 82 and 119.
Visit: waikato.ac.nz/study/subjects/digital-learning

DIGITAL MEDIA
The broad focus in the dance minor means that students will enhance their embodied knowledge and engage with interdisciplinary cultural, ethnographic, phenomenological, critical, pedagogical and creative-practice research.

AVAILABLE AS A MINOR ONLY.
Visit: waikato.ac.nz/study/subjects/dance
EARLY CHILDHOOD EDUCATION
See Education page 95.

EARTH SCIENCES
An understanding of earth and ocean sciences is vital if we are to sustainably manage Earth’s energy, water, mineral, soil and coastal resources. Earth Sciences are also the key to predicting and managing natural hazards such as floods, earthquakes, tsunami, landslides and volcanic eruptions.

DEGREES: Bachelor of Science page 93, Bachelor of Science (Technology) page 93.
Visit: waikato.ac.nz/study/subjects/earth-sciences

ECOLOGY AND BIODIVERSITY
Study the incredible diversity and complexity of life. This subject includes the biology, ecology and evolutionary history of life, how organisms interact and survive in terrestrial, aquatic and marine environments, and the conservation and management of natural and modified ecosystems.

DEGREES: Bachelor of Science page 115, Bachelor of Science (Technology) page 115.
Visit: waikato.ac.nz/study/subjects/ecology-and-biodiversity

ECONOMICS
Economics touches almost every aspect of people’s daily lives – from jobs and housing to migration, car prices and the environment. It helps us understand how and why people make the choices they do. Economists use their skills to solve real business problems and help governments make clearer policy decisions.

DEGREES: Bachelor of Arts page 81, Bachelor of Social Sciences pages 82 and 119.
Visit: waikato.ac.nz/study/subjects/economics

EDUCATION
The study of education encompasses a broad range of options that reflect the far reaching nature of the field. Educators are interested in how knowledge, skills and values are constructed, accumulated, and conveyed through formal and informal means.

For teacher education subjects, see Education, page 94.

AVAILABLE AS A MINOR ONLY.
Visit: waikato.ac.nz/study/subjects/education

EDUCATION AND SOCIETY
Education and Society involves studying the social, political, historical and philosophical dimensions of education. It is a crucial subject for anyone who wants to understand how early childhood centres, schools and universities reflect society and might contribute to changing it for the better. This area also covers informal education, and global developments as well as local ones.

DEGREES: Bachelor of Arts page 81, Bachelor of Social Sciences pages 82 and 119.
Visit: waikato.ac.nz/study/subjects/education-and-society

ELECTRICAL AND ELECTRONIC ENGINEERING
Electronic Engineering is concerned with the design, development, manufacture and application of electronic devices, circuits and systems.

DEGREE: Bachelor of Engineering with Honours page 91.
Visit: waikato.ac.nz/study/subjects/electrical-and-electronic-engineering

EMBEDDED SYSTEMS
This course covers the principles and design of embedded systems, including micro-controllers, embedded system architecture, real-time programming and operating systems, and Field Programmable Gate Arrays.

DEGREE: Bachelor of Computer Science page 87.
Visit: waikato.ac.nz/study/subjects/embedded-systems

ENGINEERING
Engineering professionals are solving the world’s problems and leading the way in innovation by improving infrastructure, building smarter technologies and finding alternative energy sources. This is reflected in the programmes offered: Chemical and Biological Engineering, Civil Engineering, Electrical and Electronic Engineering, Environmental Engineering, Materials and Process Engineering, Mechanical Engineering, Mechatronics Engineering, and Software Engineering.

DEGREE: Bachelor of Engineering with Honours page 91.
Visit: waikato.ac.nz/study/subjects/engineering/

ENGLISH
English is the study of language, history and culture. It examines art, aesthetics, meaning and value.

A literary education expands your mind and sharpens your cultural awareness and sensitivity.

DEGREE: Bachelor of Arts page 81.
Visit: waikato.ac.nz/study/subjects/english

ENVIRONMENTAL ENGINEERING
Environmental engineers solve issues of water quality, water supply, waste disposal, soil and air quality, control of noise and more. They evaluate options, assess methods, design equipment and systems, and develop controls to improve use of the fundamental resources in our communities.

DEGREE: Bachelor of Engineering with Honours page 91.
Visit: waikato.ac.nz/study/subjects/environmental-engineering

Key
M Available as a minor only
Environmental Planning is based on the recognition that environmental problems and solutions involve social, economic and cultural dimensions.

Environmental Planning will provide you with knowledge and skills for careers in sustainable development of rural and urban communities, and sustainable management of natural and physical resources.

**DEGREES:** Bachelor of Arts page 81, Bachelor of Environmental Planning page 93, Bachelor of Social Sciences pages 82 and 119.

Visit: waikato.ac.nz/study/subjects/environmental-planning

Environmental Sciences is the interdisciplinary and systematic study of our environment as well as our role in its management. Environmental Sciences can provide the scientific basis for understanding environmental problems, and finding solutions to them.

**DEGREES:** Bachelor of Science pages 93 and 115, Bachelor of Science (Technology) pages 93 and 115.

Visit: waikato.ac.nz/study/subjects/environmental-sciences

The study of Ethics provides an excellent grounding in evaluative theory and reasoning for a professional future in the public service, the health sector, social work, with environmental agencies and in business.

**AVAILABLE AS A MINOR ONLY.**

Visit: waikato.ac.nz/study/subjects/ethics

Finance looks at how individuals and organisations manage their money, shares and other financial assets to generate wealth and help businesses grow. Develop the skills to embark on a financial career in corporate finance, investments, banking, insurance, government, Māori authorities or small business. It will also help you make better decisions for your own financial security.

**DEGREES:** Bachelor of Business page 105, Bachelor of Management Studies with Honours page 105.

Visit: waikato.ac.nz/study/subjects/finance

French is one of the world’s most important languages, being widely used in trade and diplomacy. France’s role in European history and civilisation means that French culture has a worldwide influence.

French is available as a pathway within the International Languages and Cultures major, and as a minor. See International Languages and Cultures page 81.

Visit: waikato.ac.nz/study/subjects/french

Gender and sexuality shape virtually every aspect of our social relations, and contribute fundamentally to our sense of self. Gender and Sexuality Studies is an interdisciplinary subject that looks at identifying and exploring dominant norms, and how these have been reshaped through social change.

**AVAILABLE AS A MINOR ONLY.**

Visit: waikato.ac.nz/study/subjects/gender-and-sexuality-studies

Geographic Information Systems provides students with hands-on understanding of emerging computer technology and applied geographic skills.

**AVAILABLE AS A MINOR ONLY.**

Visit: waikato.ac.nz/study/subjects/geographical-information-systems

Geography matters because it is about basic human relationships: between people and the environment and among people. A clearer grasp of geography can provide insight into environmental problems and help us manage our resources more effectively.

**DEGREES:** Bachelor of Arts page 81, Bachelor of Social Sciences pages 82 and 119.

Visit: waikato.ac.nz/study/subjects/geography

Sustainably managing Earth’s energy and mineral resources, and predicting and managing natural hazards such as earthquakes, landslides and volcanic eruptions requires an understanding of geological materials and processes. This subject focuses on the spatial distribution of Earth’s materials and the processes that produce resources and create hazards.

**AVAILABLE AS A MINOR ONLY.**

Visit: waikato.ac.nz/study/subjects/geology

The study of Ethics provides an excellent grounding in evaluative theory and reasoning for a professional future in the public service, the health sector, social work, with environmental agencies and in business.

**AVAILABLE AS A MINOR ONLY.**

Visit: waikato.ac.nz/study/subjects/ethics
HEALTH
Preventative and holistic health practices are more effective than solely dealing with ill-health. This subject looks at developing graduates with knowledge of health service quality and equity.

All of our qualifications are built on a foundation of cultural competency, multidisciplinary knowledge, interpersonal and collaborative skills, applied biomedical skills, critical thinking, and regional and community engagement.

Health graduates will help address the growing demand in Aotearoa for a workforce that can contribute across the health sector as the industry diversifies into roles with local governments, iwi, community groups, private enterprise, individuals and whānau.

DEGREE: Bachelor of Health page 99.
Visit: waikato.ac.nz/study/subjects/health

HEALTH, SPORT AND HUMAN PERFORMANCE

HISTORY
History is the study of the past to understand the present and its impact on the future. As a history student, you’ll be challenged to ask questions and develop critical enquiry skills that are transferable across many occupations – people working in the media, education, politics, research and business need to know and understand aspects of our past.

DEGREES: Bachelor of Arts page 81, Bachelor of Social Sciences pages 82 and 119.
Visit: waikato.ac.nz/study/subjects/history

HUMAN DEVELOPMENT
Interested in the study of the human lifespan from conception and birth onwards? Human Development investigates how people develop throughout their lives and how cultural and social settings help to shape what is possible.

DEGREES: Bachelor of Arts page 81, Bachelor of Social Sciences pages 82 and 119.
Visit: waikato.ac.nz/study/subjects/human-development

HUMAN PERFORMANCE SCIENCE
The Human Performance Science major represents a distinctive approach to sport and exercise science. It is based on four pillars, namely strength and conditioning, exercise physiology, biomechanics and injury prevention, and psychology. The science of human performance extends beyond high performance sport and includes links to the general population, movement-related professions, exercise, nutrition and physical health.

DEGREE: Bachelor of Health, Sport and Human Performance page 99.
Visit: waikato.ac.nz/study/subjects/human-performance-science

HUMAN RESOURCE MANAGEMENT
Learn how to recruit the right people for new jobs, train and motivate staff to improve an organisation’s performance, and deal with diversity and conflict in the workplace. HR managers also contribute to policies on work-life balance, salaries and rewards, health and safety, and gender equity.

DEGREES: Bachelor of Business page 105, Bachelor of Management Studies with Honours page 105.
Visit: waikato.ac.nz/study/subjects/human-resource-management

HYDROLOGY
This subject examines the natural transport and storage of water on Earth’s surface, including processes affecting weather and climate, the availability of water resources, determination of drought and flood hazards, and human impacts.

AVAILABLE AS A MINOR ONLY.
Visit: waikato.ac.nz/study/subjects/hydrology

INDUSTRIAL DESIGN
Industrial designers shape the world we live in by designing the products we use every day, from items as simple as a toothbrush, through to those as intricate as an aeroplane. The role of the industrial designer is in the design of products that are durable, effective in purpose, and beautiful in appearance.

DEGREE: Bachelor of Design pages 81 and 88.
Visit: waikato.ac.nz/study/subjects/industrial-design

INTERFACE DESIGN
Interface Design investigates the intersection between design and code with respect to information design for contemporary and future screens. User experience (UX) and user interface (UI) design for current and emerging technologies will be taught with the development of digital skills.

DEGREE: Bachelor of Design pages 81 and 88.
Visit: waikato.ac.nz/study/subjects/interface-design

INTERNATIONAL LANGUAGES AND CULTURES
Speaking another language and understanding cultures can increase your potential employability – here and overseas. With advanced language skills you’ll meet the world’s need for multilingual and culturally sensitive speakers, enhancing your business and social skills and preparing you for success in a multicultural work environment. We offer a range of options for studying languages with papers in Chinese, French, Japanese and Spanish. You can choose to major in International Languages and Cultures endorsed in Chinese, French, Japanese or Spanish or take language papers to round off your degree.

DEGREE: Bachelor of Arts page 81.
Visit: waikato.ac.nz/study/subjects/international-languages-and-cultures
INTERNATIONAL MANAGEMENT

International Management deals with business activities that span the globe, connecting different countries and cultures. This brings new opportunities for exporters, as well as risks and challenges.

AVAILABLE AS A MINOR ONLY.
Visit: waikato.ac.nz/study/subjects/international-management

INTERNATIONAL RELATIONS AND SECURITY STUDIES

New Zealand depends on regional and international stability for its security and prosperity. Given the significance of issues such as power relations, global financial crises and the rise of violent extremist non-state actors, International Relations and Security Studies provides you with the opportunity to study various aspects of international law and trade, and to focus on particular regions of concern.

AVAILABLE AS A MINOR ONLY.
Visit: waikato.ac.nz/study/subjects/international-relations-and-security-studies

JAPANESE

Japan is a leading economic world power and has a strong global presence. Its ‘soft power’ influence is seen by the wide acceptance of its manga, anime and pop music. Developing language skills and knowledge of Japan can open up exciting career opportunities.

Japanese is available as a pathway within the International Languages and Cultures major and as a minor. See International Languages and Cultures page 81.

Visit: waikato.ac.nz/study/subjects/japanese

LAW

Studying law is empowering as it affects every aspect of our life. In a world that is constantly changing, employers require graduates with a dynamic skill set and knowledge in an array of areas – the study of law provides a strong foundation of these skills and the ability to apply them in many different ways. Students of law examine why laws are made, who makes them, how they work and how to change them.

DEGREES: Bachelor of Laws page 109, Bachelor of Arts page 81.
You can also study a Diploma in Law.
Visit: waikato.ac.nz/study/subjects/law

LEADERSHIP COMMUNICATION

Develop exceptional communication and people skills to become an effective leader who can help drive meaningful changes within government, business, community groups and other organisations. This subject is a good choice for aspiring managers, and those who wish to develop communication strategies for organisations.

AVAILABLE AS A MINOR ONLY.
Visit: waikato.ac.nz/study/subjects/leadership-communication

LINGUISTICS

Language is a tool we all use instinctively, without necessarily understanding its precise structure. By studying Linguistics, you will gain an inner working knowledge of language design and organisation. You will gain strong proficiency in the science behind language, and a commanding understanding of the English language.

DEGREES: Bachelor of Arts page 81, Bachelor of Social Sciences page 82 and 119.
Visit: waikato.ac.nz/study/subjects/linguistics

MĀORI AND INDIGENOUS STUDIES

Learn how Māori Studies is located in the broader global context of Indigenous Studies; a rapidly emerging area of study and research as Indigenous world views are seen as increasingly important to major issues facing society.

DEGREES: Bachelor of Arts pages 81 and 100, Bachelor of Social Sciences pages 82 and 119.
Visit: waikato.ac.nz/study/subjects/maori-and-indigenous-studies

MARKETING

Marketing is focused on satisfying customer needs and wants. The ability to attract loyal customers for an organisation’s products and services through competitive marketing strategies is key to business success. Learn about building brands, digital marketing, market research, customer analytics, business development and advertising that makes an impact.

DEGREES: Bachelor of Business page 105, Bachelor of Communication pages 81 and 105, Bachelor of Management Studies with Honours page 105.
Visit: waikato.ac.nz/study/subjects/marketing

MATERIALS AND PROCESS ENGINEERING

Materials and Process Engineering combines the study of chemical, mechanical and materials engineering. You will graduate with a wide range of skills for the processing and manufacturing industries.

DEGREE: Bachelor of Engineering with Honours page 91.
Visit: waikato.ac.nz/study/subjects/materials-and-process-engineering

MATERIALS SCIENCE

Materials Science focuses on the understanding of the intrinsic structure of a material and the control of its structure through processing. This subject looks at the relationship with the relevant engineering properties of the three main classes of materials (metals, polymers and ceramics) as well as composites and semiconductors.

DEGREES: Bachelor of Science page 115, Bachelor of Science (Technology) page 115.
Visit: waikato.ac.nz/study/subjects/materials-science
MATHEMATICS
Mathematics provides valuable analytical and problem-solving skills and is important in a range of areas including the sciences, computer science, engineering, statistics and research.

DEGREES: Bachelor of Computing and Mathematical Sciences with Honours page 87, Bachelor of Science page 115.
Visit: waikato.ac.nz/study/subjects/mathematics

MEDIA PRODUCTION
Get the hands-on technical skills you need to work in professional media production studios. Whether your passion is for film and television, podcasting, game design or web media, this subject has it all.

DEGREE: Bachelor of Communication pages 81 and 105.
Visit: waikato.ac.nz/study/subjects/media-production

MECHANICAL ENGINEERING
Mechanical Engineering uses mechanics and energy principles to design, research, develop and manufacture tools, engines, motors and other devices.

DEGREE: Bachelor of Engineering with Honours page 91.
Visit: waikato.ac.nz/study/subjects/mechanical-engineering

MOLECULAR AND CELLULAR BIOLOGY
Molecular and Cellular Biology is an interdisciplinary field combining biochemistry, microbiology, genetics and physiology to study how molecules interact within cells. It explores the basic mechanisms that allow cells to have differentiated properties and coordinate the activities that form the essential systems that define a living cell, providing researchers with crucial insights into the basis of human disease.

DEGREES: Bachelor of Science page 115, Bachelor of Science (Technology) page 115.
Visit: waikato.ac.nz/study/subjects/molecular-and-cellular-biology

MECHATRONICS ENGINEERING
The rapid spread of automated systems into most aspects of life has dominated technological innovations in the 21st century. Mechatronics engineers are trained to be masters of intelligent machines and work across many industries, making the latest “Smart Systems” work for us.

DEGREE: Bachelor of Engineering with Honours page 91.
Visit: waikato.ac.nz/study/subjects/mechatronics-engineering

MUSIC
Waikato offers you the opportunity to study music with leading professional performers, composers, and musicologists. Specialist facilities include the acclaimed Dr John Gallagher Concert Chamber in the University’s Academy of Performing Arts.

DEGREES: Bachelor of Arts page 81, Bachelor of Music page 82.
Visit: waikato.ac.nz/study/subjects/music

NURSING
Our progressive nursing degree will prepare you for a career as a Registered Nurse with a strong understanding of mental health and addictions. The programme is delivered in conjunction with the Waikato District Health Board, and students divide their time between the Hamilton campus and health providers across the Waikato.

DEGREES: Bachelor of Nursing page 99.
Visit: waikato.ac.nz/study/qualifications/bachelor-of-nursing

PACIFIC AND INDIGENOUS STUDIES
This subject focuses on the diverse Pacific region as well as on the histories, experiences and perspectives of Pacific people in New Zealand. Explore the knowledge, language, culture, politics, methods and theory that can be applied in a global context by studying Indigenous issues.

DEGREES: Bachelor of Arts pages 81 and 100, Bachelor of Social Sciences pages 82 and 119.
Visit: waikato.ac.nz/study/subjects/pacific-and-indigenous-studies

PHILOSOPHY
Philosophy is for thinkers and doers. It’s about solving real-life problems, and applying intellectual rigour to how we understand and interact with others, society and the world. Studying philosophy will teach you how to learn, think and write clearly, argue vigorously, and question deeply held assumptions and beliefs.

DEGREES: Bachelor of Arts page 81, Bachelor of Social Sciences page 82 and 119.
Visit: waikato.ac.nz/study/subjects/philosophy

POLITICAL SCIENCE
Studying Political Science involves developing a broad spectrum of political knowledge on both national and international issues – areas that affect all aspects of our lives. You’ll seek answers to some of the most difficult political issues of today and gain skills for many potential career paths.

DEGREES: Bachelor of Arts page 81, Bachelor of Social Sciences pages 82 and 119.
Visit: waikato.ac.nz/study/subjects/political-science

POPULATION STUDIES
Learn about Population Studies through the National Institute for Demographic and Economic Analysis (NIDEA) at the University of Waikato and gain a solid, research-led understanding of the population issues and policies of countries in the Global North and South.

DEGREES: Bachelor of Arts page 81, Bachelor of Social Sciences pages 82 and 119.
Visit: waikato.ac.nz/study/subjects/population-studies
PRIMARY TEACHING
See Education page 95.
Visit: waikato.ac.nz/study/subjects/primary

POUTŪ-MANAHAU POPULATION HEALTH
Poutu-manahau Population Health uses a multidisciplinary approach to understanding hauora as practice, and to examine approaches that contribute to a health system which can revitalise the mana of our communities.
Poutu-manahau Population Health embraces integrative knowledge of theories and analytical approaches (across psychology, health communication and engagement, sociology, economics, epidemiology, and Māori and Indigenous studies) to understand, critique and design health initiatives, policies, practices, interventions and their outcomes.

DEGREE: Bachelor of Health page 99.
Visit: waikato.ac.nz/study/subjects/population-health

POUTŪ-MĀRŌ BIOMEDICAL SCIENCES
Poutu-mārō represents resilience, flexibility, and our desire to seek and weave together knowledge that supports our capacity to balance all aspects of hauora.
Poutu-mārō Biomedical Sciences takes a multifaceted and applied approach to improving the hauora of our communities. It embraces an integrative approach to biomedical sciences (including genetics, biochemistry, molecular biology, anatomy, infection and immunity, pathophysiology) alongside Mātauranga Māori, health communication, and bioethics to develop biomedical understandings and skills that will allow students to work across the health sector.

DEGREE: Bachelor of Health page 99.
waikato.ac.nz/study/subjects/biomedical-sciences

PROJECT MANAGEMENT M
Project managers plan and deliver all aspects of a project from beginning to end, with the goal of adding value to an organisation. You should be solution-focused with the ability to get things done, know how to implement new business processes and identify risks, and have good people skills. Project management skills are transferable across many industries.

AVAILABLE AS A MINOR ONLY.
Visit: waikato.ac.nz/study/subjects/project-management

PSYCHOLOGY
Psychology is the science of how we understand and improve how humans and animals perceive and think. It is the study of how we act, react and interact.

DEGREES: Bachelor of Arts page 110, Bachelor of Science page 110, Bachelor of Social Sciences page 119.
Visit: waikato.ac.nz/study/subjects/psychology

PUBLIC POLICY M
Public Policy looks at how government, not-for-profit organisations, and even individuals and businesses address issues of public concern. Public Policy equips you with the ability to understand and interpret current affairs, deal with government in your future profession or business, work within government, and work for groups that lobby government.

AVAILABLE AS MINOR ONLY.
Visit: waikato.ac.nz/study/subjects/public-policy

PUBLIC RELATIONS
Public Relations is the practice of using strategic communication to enhance an organisation’s reputation, build good relationships with key stakeholders, and shape people’s beliefs and behaviour. It may include media relations, issues and crisis management, organising events, sponsorship and fundraising, and employee relations.

DEGREES: Bachelor of Business page 105, Bachelor of Communication pages 81 and 105, Bachelor of Management Studies with Honours page 105.
Visit: waikato.ac.nz/study/subjects/public-relations

SCREEN AND MEDIA STUDIES
Screen and Media Studies provides an opportunity to analyse and think critically about the media and today’s rapidly evolving media environments, including both traditional and new media.

DEGREES: Bachelor of Arts page 81, Bachelor of Social Sciences pages 82 and 119.
Visit: waikato.ac.nz/study/subjects/screen-and-media-studies

SOCIAL POLICY
Studying Social Policy involves examining the issues that affect people and society. It analyses the policies and practices of politicians, public servants, governments and non-governmental agencies, and how they impact on communities and wider society. It takes a broad and encompassing approach, because social policy impacts on all parts of everyday life – from health and education to families, transport and housing, plus the systems and institutions that support them.

DEGREES: Bachelor of Arts page 81, Bachelor of Social Sciences pages 82 and 119.
Visit: waikato.ac.nz/study/subjects/social-policy

SOCIAL WORK
Social Work is both an academic discipline and a practice-based profession that advocates for social change, social development and social cohesion, in order to empower and liberate people and communities.

DEGREE: Bachelor of Social Work page 119.
Visit: waikato.ac.nz/study/subjects/social-work

SOCIOLOGY
Sociology is the study of society moving beyond assumptions and exploring who we are and our place in the world. Students will study human relationships, how people organise and form groups, and how larger social structures and societies evolve over time.

DEGREES: Bachelor of Arts page 81, Bachelor of Social Sciences pages 82 and 119.
Visit: waikato.ac.nz/study/subjects/sociology
SOFTWARE ENGINEERING

Software Engineering is the scientific, disciplined and quantifiable approach to developing, operating and maintaining complex software systems. These include operating systems, networks, real-time and embedded systems, and distributed and parallel systems, as well as engineering, scientific and business application software.

DEGREE: Bachelor of Engineering with Honours page 91.
Visit: waikato.ac.nz/study/subjects/software-engineering

SOIL SCIENCE

Soils are fundamental to the production of food and other resources consumed by society. This subject identifies and classifies different soils to allow for their sustainable management, and to avoid or mitigate the impacts of changing climate or adverse human activities.

AVAILABLE AS A MINOR ONLY.
Visit: waikato.ac.nz/study/subjects/soil-science

SPANISH

Spanish is the second most widely spoken language in the world. It is the language of commerce, banking and diplomacy in most of Latin America and Spain. The Spanish language is of great importance to trade links between New Zealand, Latin America, Spain and the US.

Spanish is available as a pathway within the International Languages and Cultures major, and as a minor. See International Languages and Cultures page 81.
Visit: waikato.ac.nz/study/subjects/spanish

SPORT DEVELOPMENT AND COACHING

The Sport Development and Coaching major provides the opportunity to develop both a sociological and applied understanding of sport and active recreation, in ways that will help you be a leader, educator or coach who makes a difference to others’ experiences of sport, recreation and other forms of physical activity.

DEGREE: Bachelor of Health, Sport and Human Performance page 99.
Visit: waikato.ac.nz/study/subjects/sport-development-and-coaching

STATISTICS

We live in a world where variability is everywhere. To make informed decisions we must understand the nature of variability, and make use of meaningful information. Without data we have to resort to hunches or guesses, neither of which can be relied on. Statistics tells us how to deal with variability, and how to collect and use data so that we can make good decisions.

AVAILABLE AS MINOR ONLY.
See Data Analytics for major options.
Visit: waikato.ac.nz/study/subjects/statistics

STRATEGIC MANAGEMENT

Understand how to develop sustainable growth strategies for businesses that will contribute to their future success in a dynamic global economy. This includes analysis of competitors and industry trends, finding new market opportunities, developing sound plans to see them through, and coordinating resources to improve performance.

DEGREES: Bachelor of Business page 105, Bachelor of Management Studies with Honours page 105.
Visit: waikato.ac.nz/study/subjects/strategic-management

SUPPLY CHAIN MANAGEMENT

Supply chains are essential to business success, as they make company operations more efficient, competitive and responsive to customers’ needs. Gain the skills to design and manage global supply chains of the future – from raw goods through to retail distributors – and take advantage of emerging technologies such as drone deliveries and the ‘physical internet’.

DEGREES: Bachelor of Business page 105, Bachelor of Management Studies with Honours page 105.
Visit: waikato.ac.nz/study/subjects/supply-chain-management

TEACHING

Waikato offers teaching qualifications that cover early childhood, primary and secondary education. We offer a balanced curriculum of theory and practice and take pride in producing graduates who are among the best-prepared in New Zealand. Teaching can lead to many other career options.

DEGREE: Bachelor of Teaching page 95.
Visit: waikato.ac.nz/study/qualifications/bachelor-of-teaching/

TE REO MĀORI/MĀORI LANGUAGE

As an Indigenous and official language of Aotearoa/New Zealand, learning te reo Māori is crucial to the contemporary growth of our country. It is also an opportunity to increase your potential and marketability, as both te reo Māori and tikanga Māori are increasingly viewed as essential attributes for a functioning workplace.

DEGREE: Bachelor of Arts page 81 and 100.
Visit: waikato.ac.nz/study/subjects/maori-language-te-reo-maori

THEATRE STUDIES

In Theatre Studies you learn about performance, the evolution of theatre and the creation of performance works. The Theatre Studies programme uses a theory-through-practice approach to teaching and learning.

DEGREE: Bachelor of Arts page 81.
Visit: waikato.ac.nz/study/subjects/theatre-studies

Key

M - Available as a minor only
TOURISM AND HOSPITALITY MANAGEMENT

This subject looks at how to design and deliver memorable experiences to international and domestic visitors in the modern digital era. This includes tourism, hotels, resorts and accommodation, bars and restaurants, transport services, leisure activities, and even hospitals and banks. Gain the skills to forecast changes in visitor demand, and manage the social-environmental impacts of tourism and hospitality.

DEGREES: Bachelor of Business page 105, Bachelor of Management Studies with Honours page 105.

Visit: waikato.ac.nz/study/subjects/tourism-and-hospitality-management

WRITING STUDIES

Writing Studies offers a writing-intensive learning experience that will enable you to grow as a writer, no matter where your interest lies. It will equip you with the research skills needed to write convincingly about the past, or create a vivid sense of the contemporary world.

DEGREE: Bachelor of Arts page 81.

Visit: waikato.ac.nz/study/subjects/writing-studies
A major or stream is the main subject of your degree.

Each box represents a paper. Each paper is worth a set number of points – normally 15 points per paper.

If you are studying full time, you will usually take four papers in Trimester A and four papers in Trimester B.

The number of points a student will achieve if they pass all of their papers each year. A typical full-time workload is 120 points a year.

To graduate with a major in a subject, you need to have completed a certain number of points in that subject at various levels, i.e. at 100-, 200- and 300-level for a three-year degree.

Major OR Stream

Elective papers

You may have room in your degree to take papers that aren’t part of your major or compulsory for your degree. These are called elective papers. Electives can be from almost any subject offered by the University.

Minor (optional)

Minors can be taken by completing four papers in the same field of study in place of elective papers. Degrees without electives may not have the option of completing a minor.

Compulsory papers

All of these papers must be taken as part of your degree.
Degree structures (also known as degree planners) show you the papers you need to complete for a particular degree (e.g. BA) and major subject (e.g. English). Most degree structures include specific papers that you have to complete, and papers that give you a choice.

DEGREES

BACHELOR'S DEGREE
• 360 points
• 3 years full time study
A degree is a programme of study which meets the requirements set down by the University to complete a qualification. A Bachelor's degree is awarded to a person who completes their undergraduate studies. Some degrees take longer, such as a Bachelor of Environmental Planning (BEP).

MAJORS
A major is the main subject of your degree, studied up to level 3 or 4. For example, you could do a Bachelor of Arts majoring in Screen and Media Studies, or a Bachelor of Communication majoring in Marketing. For a typical three-year single major, these papers usually total 135 points.

MINOR (OPTIONAL)
This is a subject of interest studied in some depth, but not as much as the major subject. If you don’t take a minor, these papers become electives instead.

ELECTIVE PAPERS
Most degrees have room for papers outside of your major or compulsory papers. These elective papers can be from almost any subject that the university teaches (so long as you meet the entry criteria). This is a chance to step outside your area of study and sample something different.

DOUBLE MAJORS
If you’re interested in studying more than one subject in depth, you can combine two subjects into a degree. A double major is where you study one degree but focus on two different subjects in depth within that degree, for example, a Bachelor of Social Sciences majoring in Psychology and Political Science.

CONJOINT DEGREES
A conjoint degree is where you study two separate bachelor degrees at the same time. This enables you to complete two degrees in a shorter amount of time than if you studied them separately. For example, you could do a Bachelor of Business with a Bachelor of Arts.

CONJOINT DEGREE VS DOUBLE MAJOR
Some programmes are best completed as a double major instead of a conjoint degree. A double major is where you study one degree but focus on two different subjects in depth within that degree. Many degrees allow you to take any major subject as a second major, so you aren’t limited to the majors offered by a single faculty or school.

A conjoint degree is best suited to those wanting to study two very distinct fields, e.g. science and management. However, if the two degrees you want to study are very similar, or if one is of more interest, you might find that a double major better suits your needs. If you start a conjoint programme and decide partway through that it’s not for you, we can adjust your programme to suit you.
SAVANNA HIHA

Iwi: Ngāti Kahungunu ki Te Whanganui-a-Orotu, Ngāi Tahu/Kāi Tahu, Ngāti Rangitiki (Te Arawa)

Bachelor of Laws with Honours

Tauira/Student, Diploma in Te Tohu Paetahi

The seed was planted to study law by a Year 10 teacher who saw my potential and made a point of telling me that I would make a great lawyer one day.

Moving to Hamilton fresh out of high school in Hawkes Bay was huge. I knew nobody and was not familiar with the city at all. It was a daunting time with many moments of feeling like I didn’t belong. However, with the support of new friends and inspiring staff, I found my confidence and my voice and embraced many unique opportunities during my student years.

The Waikato has certainly etched a special place in my heart.

Now I’ve graduated with a Bachelor of Laws with Honours but my journey with the University hasn’t stopped yet. I enrolled in a Diploma in Te Tohu Paetahi to help improve my fluency in Te Reo Māori, to be able to represent myself and Māori more authentically when I enter the workforce.
The arts disciplines are united in their focus on the value of the arts, how they enrich our lives and the civilising role of culture. Studying the arts prepares our graduates to contribute to the wider and measurable impacts the arts have on our economy, health and wellbeing, society and education.

Waikato graduates are in demand for their flexible skills, practical outlook and depth of understanding they bring to their roles. They operate as critical thinkers, capable of generating innovative ideas and responding intelligently to problems, issues or obstacles in work and life.

Our students learn and apply the power of language, literature, screens, music, movement and performance. In doing so, students develop communication skills, creative and design practices that express ideas, develop concepts and promote services.

### Career options:
- Analyst
- Composer
- Editor
- Events Manager
- Foreign Affairs Advisor
- Historian
- Journalist
- Museum Curator
- Orator
- Politician
- Screenwriter
- Television Director or Producer
- Writer

### DID YOU KNOW?
The School of Arts also offers a specialist Bachelor of Music degree, with options of three streams: Academic, Performance or Composition.

### MASTER OF ARTS (APPLIED) MA(Applied)

- **Subject**: Applied Linguistics
- **Location**: Hamilton
- **Duration**: 1 Year
- **Entry Requirements**: Successfully completed a bachelor’s degree with at least a B grade average across the 300-level papers, or equivalent
- **Fees**: $7,098 - $8,505 p/yr

### MASTER OF DESIGN MDes

- **Subject**: Design
- **Location**: Hamilton
- **Duration**: 1.5 Years
- **Entry Requirements**: Successfully completed a BDes with at least a B grade average
- **Fees**: $7,098 - $8,505 p/yr

### MASTER OF MEDIA AND CREATIVE TECHNOLOGIES MMCT

- **Subject**: Screen and Media Studies
- **Location**: Hamilton
- **Duration**: 1.5 Years
- **Entry Requirements**: Successfully completed a relevant bachelor’s degree with a major in a relevant discipline, with at least a B grade average
- **Fees**: $7,098 - $8,505 p/yr

### MASTER OF MUSIC MMus

- **Subject**: Music
- **Location**: Hamilton
- **Duration**: 1 Year
- **Entry Requirements**: Successfully completed the BMus(Hons) with at least second class honours. Present three contrasting pieces (or movements) from at least two different musical periods
- **Fees**: $7,705 - $8,505 p/yr

### MASTER OF PROFESSIONAL WRITING MPW

- **Subject**: Professional Writing
- **Location**: Hamilton
- **Duration**: 1.5 Years
- **Entry Requirements**: Successfully completed a bachelor’s degree with at least a B grade average across the 300-level papers or completed a bachelor’s degree with honours with at least second class honours
- **Fees**: $11,558 - $12,758 p/yr

### MASTER OF SOCIAL SCIENCES MSocSc

- **Subject**: Anthropology
- **Location**: Hamilton
- **Duration**: 1.5 Years
- **Entry Requirements**: Successfully completed a BSocSc or BSocSc(Hons) in the same subject area, with a B average or better
- **Fees**: $7,098 - $8,505 p/yr

**Subjects**

- Anthropology
- Economics
- Education and Society
- Geography
- History
- Human Development
- Māori and Indigenous Studies
- Pacific and Indigenous Studies
- Philosophy
- Political Science
- Population Studies and Demography
- Psychology
- Public Policy
- Social Policy
- Sociology
COMPUTER SCIENCE

Learn from some of the world’s sharpest minds and work alongside computer science experts who are leading cutting-edge research, bringing theory into practice.

We hold an international reputation for our expertise in machine learning, software engineering, human-computer interaction, and our work using the Internet of Things. We have developed open source machine learning tools that have been downloaded more than 10 million times. Our tools and textbooks are used in universities and businesses around the world.

We are also forging new frontiers in cyber security to keep people’s data safe, and working with communities to bring content, like historical records, to life, using our open source digital library system Greenstone.

At Waikato we are passionate about enabling our students to solve real-life problems from day one and we work closely with industry every step of the way, ensuring our students hit the ground running when they graduate.

From mobile app development, to database-driven websites, you will learn how to build user-friendly, efficient solutions to address the most pressing challenges of our time. We also offer a range of programmes in Design, with the option of four different majors, including Interface Design.

There’s never been a better time to study computer science and lead the digital charge.

DID YOU KNOW?
Different flavours of computing include:

Computer Science: our three-year degree programme is highly specialised and tailored to meet the needs of the industry.

Interface Design: with a focus on users and design thinking as part of the Bachelor of Design.

Career options:
- Interactive Media Design
- Programmer
- Software Engineer
- Systems Designer
- Web Developer
- Website Designer
- Software Architect
- Software Developer
- Systems Engineer
- User Experience Designer
- Mobile/app developer
- Network Engineer

RHYS COMPTON
Bachelor of Engineering (Honours) (Software Engineering)

Studying a Masters in New York

After high school I moved from Morrinsville to Palmerston North to study radiography but decided it wasn’t for me. When I made the call to pursue software engineering I chose Waikato as it has a very strong computer science department. Lots of my friends were studying there and Hamilton’s a pretty cheap place to rent which makes student life a bit easier.

One of the biggest benefits of studying at Waikato was the work-integrated learning component of their degrees – internships can be difficult to land otherwise. Every internship gave me a wide range of experience; even if it wasn’t in a subfield I wanted to work in, each one taught me something I use almost everyday in my job.

After graduating, my internship at agri-tech company Rezare Systems led to a job as a software engineer where I did varied work from lower-level coding to higher-level planning and design.

Now, I’m doing my Master’s in Computer Science at New York University and feel that Waikato really set me up for success in this field.
If you’re focused on solving real issues that matter to people and want to design, build and test new products, structures and solutions for the real world, then a Bachelor of Engineering (Hons) at the University of Waikato is for you.

Now, more than ever, the world needs more creative engineers who can take what they know and put that into practice. At Waikato, that’s what we do best. With eight different engineering degree programmes on offer, we lead the way when it comes to high-tech, innovative solutions to real-world problems.

We work with industry every step of the way, so by studying at Waikato you are also preparing yourself to be work-ready when you graduate. Our dedicated team of Work-Integrated Learning (WIL) coordinators will connect you with industry throughout your programme of study, find the right work experience placements for you and even assist with your CV. No other New Zealand university offers such comprehensive assistance.

We also run our own Engineering Design Show for students. This flagship event provides an opportunity to showcase how our students excel in designing, building and testing new products, structures and solutions for the real world.

Whether you choose civil engineering, mechanical engineering or mechatronics, by studying at Waikato you will be industry-ready with an internationally accredited qualification recognised around the world. Join New Zealand’s fastest growing engineering school today.

**Career options:**
- Biochemical Engineer
- Civil Engineer
- Electronic Engineer
- Food Technology Engineer
- Mechanical Engineer
- Product Designer
- Software Engineer

**DID YOU KNOW?**
As part of your development into a professional engineer, you will complete 800 hours of work experience in engineering organisations.

ENVIRONMENT

Help to mitigate climate change, protect and enhance our ecosystems, and inspire vibrant, sustainable urban spaces by studying Environment Sciences or Environmental Planning at the University of Waikato.

The growing human population is expected to exceed 9 billion within the next 40 years. The need to provide for increasing human demands, while protecting and sustainably managing our environment, has never been greater.

A Bachelor of Science with a major in Environmental Sciences at Waikato encompasses biology, earth sciences, and chemistry as well as many other disciplines. It is about understanding and managing human impacts on our land, biodiversity, freshwater, oceans, atmosphere and climate while providing the food, water, energy, and mineral resource needs that are critical to our survival.

You will learn from leading professors and our researchers who are already tackling issues from climate change to biodiversity and conservation.

A Bachelor of Environmental Planning at Waikato will provide you with a solid foundation in professional planning skills and brings together papers from subjects including environmental planning, Māori and Indigenous studies, and geography. With close connections to the wider Waikato region and its wealth of natural resources, our environmental planning programme proves a core foundation and a choice of specialised streams to shape your future career.

This programme is also professionally accredited by the New Zealand Planning Institute (NZPI) – which means when you graduate, you will be work-ready meeting professional standards.

Career options:
- Agricultural Advisor
- Biosecurity Officer
- City Planner
- Coastal Resource Manager
- Community Planner
- Compliance Officer
- Environmental Planner
- Environmental Scientist
- Hydrologist
- Iwi Management Planner
- Oceanographer
- Policy Analyst or Advisor
- Private Consultant
- Project Manager
- Researcher
- Resource Consent Planner

As the leader of Education, Te Kura Toi Tangata School of Education is committed to enhancing education through the three interconnected disciplines of teaching, research and professional learning. Within our diverse communities we offer opportunities for students seeking a rewarding programme of study, and researchers interested in networking with like-minded people.

Inspire the next generation of learners with our initial Teacher Education Programmes that are flexible in their delivery, by enrolling at the Hamilton or Tauranga campuses, or for block/distance online study. Our programmes are based on innovative research and all contain a large component of work-integrated learning. Through our partnerships with schools and early childhood centres, our students are in schools and centres through the entirety of their programme.

Challenge your thinking about the world around us and how education plays a role in the lives of people. The education majors within the Bachelor of Social Sciences deliver a depth and breadth of research-based papers in Human Development, Education and Society, and Digital Learning (see page 119 for more information on these majors).

Improve your skills, knowledge, expertise and career prospects with our Postgraduate and Masters options that are current and relevant, with delivery modes that accommodate in-service teachers and those who are working.

**Career options:**
- Corporate Trainer
- Education Policy Analyst
- Learning Consultant
- Early Childhood, Primary, Intermediate or Secondary School Teacher
- Recruitment Advisor
- Social Worker
- School Counsellor
- Educational Consultant
- Curriculum Developer
- Policy Advisor

**DID YOU KNOW?**
We have over 50 years in teacher education, and have graduates who are making a difference all over the world.

Jake Angus
Iwi: Ngāi Te Rangi, Ngāti Ranginui, Ngāpuhi, Tainui
Bachelor of Teaching (Primary)
Teacher, Ōmokoroa Point School, Tauranga

I’m living proof of the saying, ‘if at first you don’t succeed, try again’.

I started, swapped and, eventually, stopped three programmes of study in Auckland before moving to the Bay of Plenty where I enrolled in Waikato’s teaching degree.

Wanting to have more Māori teachers to help Māori students succeed in education was a huge driving factor for me to study teaching.

Also, as a young takatāpui/gender diverse being, growing up I never saw myself reflected in a teacher or someone I could trust. I want to make a difference by being a positive gender-diverse role model to highlight how we are all human.

Education has kept my mind active and engaged and has been a form of self-care for my mental health. Through education, we can learn, grow and develop into the best possible selves we can be.
Launch a fulfilling career on the frontline, caring for those in need, or open yourself up to New Zealand’s $12 billion sport and leisure industry by studying health or nursing at the University of Waikato.

Hands-on learning in real-life settings is at the heart of our qualifications. Whether you choose to study a Bachelor of Health, Bachelor of Health, Sport and Human Performance or Bachelor of Nursing, you will benefit from our collaborative relationships with some of the country’s top organisations and facilities.

If you choose our Bachelor of Health, Sport and Human Performance, you will benefit from our collaborative relationships with leading sports organisations including Sport NZ, local district health boards and iwi groups, NZ Recreation Association, Sport Waikato and High Performance Sport NZ. Delivered at both our Hamilton and Tauranga campuses, students also have access to the University of Waikato Sports Laboratory at the Cambridge Avantidrome and The University of Waikato Adams Centre for High Performance in Tauranga.

Our Bachelor of Nursing is delivered in partnership with the Waikato District Health Board (WDHB) and its clinical partners, combining our high academic standards in a real healthcare setting from day one. At Waikato we also offer more clinical hours than other providers. Both our Bachelor of Nursing and Bachelor of Health are delivered using the concepts of hauora or Māori wellbeing and allow you the opportunity to specialise in areas that urgently require more workers.

You will also benefit from our diverse team of researchers who are changing the way healthcare is delivered in New Zealand and across the world, through our epidemiological research on cancer, diabetes, primary care and rural health.

There has never been a better time to study health, nursing or sport at Waikato and launch an rewarding and dynamic career.

Career options:
- Applied Sports Scientist
- Clinical Laboratory Scientist
- Coach Developer
- Community Sport Officer
- Health and Physical Education Teacher
- Health Promoter
- Health Policy Writer and/or Advisor
- Health Services Management
- Registered Nurse

DID YOU KNOW?
You will get 1,704 hours of practical experience on clinical placements throughout the Nursing programme.

I’ll always believe that the dusty “dead-end” roads of Hokianga will lead me to every place I will stand in the world. I am a descendent of people who created sky and earth and everything in between, people who sailed the seas by stars and people who have exuded prominent leadership in the 20th and 21st centuries. I can do anything.

Māori and Indigenous Studies and Political Science were the focus of my Bachelor of Arts and the lessons learned within each of these subjects have taught me that there is no limit to keep trying to be a better global citizen.

I am confident walking in te ao Māori and te ao Pākehā every day. My undergraduate majors provide a source of knowledge that will enable me to help lead alongside whānau, hapū and iwi who share the same vision of where the future of Aotearoa New Zealand is heading.

DID YOU KNOW?
We have award-winning Te Matatini composers, language teachers, cultural exponents and internationally renowned Indigenous scholars.
I started learning Te Reo Māori in year 11 at Tauranga Boys’ College and decided to continue the journey to becoming a fluent and confident speaker by enrolling in Waikato’s Diploma in Te Tohu Paetahi (TTP).

For me, the acquisition of te reo Māori has enabled me to better connect with relatives who speak the reo, created opportunities for me to make new connections and establish relationships with other reo speakers and has helped me to better understand Māori culture and Māoritanga as a whole.

Aside from being fully immersed in te reo Māori the best part of doing TTP is seeing it through with people who are as passionate about learning as you are. It’s hard to put to words the gratitude I have for this journey.

Learning a language can change the way you perceive life and the world. I believe that doing Te Tohu Paetahi has changed my life and set me up for what is yet to come.

My best advice to get through uni is to look after yourself, know that it is okay to ask for help and enjoy the opportunities that come your way. Simple as these things. Kia kaha, kaua e mate wheke. Me mate ururoa. Okea ururoatia.
The first intensive te reo Māori immersion programme of its kind, Te Tohu Paetahi (TTP) has paved the way for the revitalisation of te reo Māori for 30 years.

Offered at both our Tauranga and Hamilton campuses, you can attain a Diploma in Te Tohu Paetahi or credit the programme towards your first year in a Bachelor of Arts (BA).

The focus of this programme is to provide you with a unique Māori language immersion pathway. Our goal is to produce students who can fluently and competently speak in te reo Māori, no matter their starting level of fluency.

The programme is taught predominantly in te reo Māori and involves taking eight compulsory te reo Māori papers.

The workload in Te Tohu Paetahi is intensive and students attend classes daily, between 9am-3pm, Monday to Friday. This learning environment is unique in a university setting, and fosters whanaungatanga and life-long friendships and networks. Marae noho (marae stays), hākinakina (sports) and social outings are all part of the curriculum in TTP.

If you are interested in beginning your te reo Māori journey with Waikato, please contact the Faculty of Māori and Indigenous Studies on 07 838 4737 or email tetohupaetahi@waikato.ac.nz

For more information or entry requirements scan the qr code or visit waikato.ac.nz.

DID YOU KNOW?

Broadcaster, award-winning writer and TV presenter Scotty Morrison studied Te Tohu Paetahi.
Aim for the stars in your career and enrol at a business school ranked in the top 1% worldwide, thanks to having achieved the prestigious Triple Crown Accreditation. Study at Waikato Management School (WMS) and get the leading-edge business skills you need to help companies adapt, innovate, and succeed in today's global markets.

All of our business and management subjects are ranked in the world's top 201 – 300 in the QS World University Subject Rankings 2020, including Accounting & Finance, Economics, and Business & Management Studies.

Not only will you be gaining a reputable qualification, you will also be learning from the best. Our lecturers are sought-after business consultants, with links to leading companies and government agencies around the world.

Waikato Management School is home to the country’s #1 ranked economics department (PBRF), as well as being a world leader in accounting information systems (BYU).

We also have academic strengths in digital business and supply chain management, and recently opened a brand-new finance trading lab.

Twice yearly, we host the WMS Case Competition, where students become 'consultants' and develop a business strategy for a real company.

Looking to join a club?
WMS has loads of student clubs to get you involved with activities, including the Waikato Management School Students Association (WMSSA), the Māori management student network Te Ranga Ngaku, the Pacific Islands Management Student Association (PIMSA), Beta Alpha Psi, the Women in Business Association (WBA), and the Management Communication Students Association (MCSA).

For more information or entry requirements scan the qr code or visit waikato.ac.nz.

DID YOU KNOW?
Our business school is in the top 1 percent world wide.

Te Piringa Faculty of Law is founded on the core principles of professionalism, biculturalism, and the study of law in context. Our principled approach to teaching Law at Waikato ensures that our graduates are prepared to practice law or pursue other professional careers in a way that meets the diverse demands of peoples across New Zealand and abroad.

Studying Law at Waikato ensures that students are firmly grounded in the core legal subjects (together with company law, dispute resolution, and tikanga Māori) that provide the building blocks for thinking like a lawyer.

In their final year students choose from a selection of elective papers focused on other areas of key legal practice, or our specialised research strengths in the areas of Māori and Indigenous Governance, the Environment, Public Law and Policy, and the Law of New Technologies that underpin our teaching of law in context.

Those students who excel academically in their second and third years will be invited to join our Honours programme where they can push their learning even further.

Career options:
- Solicitor
- Barrister
- Judge
- Policy Analyst & Advisor
- Board Member for Iwi or other organisations
- Legal scholar
- Politician
- Business owner
- Human Resource personnel
- Mediator and Negotiator

T - Tauranga Campus
Psychology is one of the most important and critical topics in modern society. The need for clinical psychologists is acute in Aotearoa New Zealand and the University of Waikato contributes a greater proportion of Māori and Pacific clinical psychologists than any other university in the country.

At Waikato, our areas of specialisation are in the most crucial areas of psychology, where psychology can make a difference to New Zealand society (Māori and community psychology, Clinical psychology, Behavioural psychology and Cognitive psychology). It can also be mixed and matched with other interests to create a truly bespoke degree to precisely target specific interests, with minors possible in any area of Science, Social Sciences and Arts.

Psychology at Waikato is modern, contemporary and focuses on the cornerstones of psychology (Cognitive, Developmental, Brain, Behaviour, Perception and Social psychology). We ensure psychology is scientific and accountable, producing world-leading research in a friendly and welcoming environment. Lecture sizes of our 300-level papers are typically more intimate than other universities, leading to a more personal learning experience.

Our students work alongside internationally respected psychologists to understand and advocate for inclusive communities.

We also have the internationally recognised Māori Psychology Research Unit.

Studying for your Master of Applied Psychology at the University of Waikato allows you to gain an in-depth knowledge of one of three key areas of applied psychology. Gain relevant hands-on experience through work placements and projects, where you’ll be connected with a range of organisations and community groups.

### Career options:
- Behaviour Analyst
- Clinical or Community Psychologist
- Community Programme Coordinator
- Human Resource Advisor
- Private Practitioner
- Research Scientist

Before embarking on university study I was a single parent working at SaveMart. Having always lived on the minimum wage or on welfare, I chose this avenue of study because I was interested in policy evaluation. I felt that the people making policy had no real idea what the impact those policies have on the people who have to live by them.

I’ve had many achievements and opportunities while at Waikato. I was a tutor in social policy for two years, and was honoured to be invited to represent my class as student speaker at our graduation ceremony. The biggest achievement would have to be the amount of personal growth that came from being at university.

My long-term career goal would be to help close the disparity gap for Pacific and Māori in relation to our achievements, whether it be academic, employment or just being happy in themselves. My focus is on empowerment, ability and self-belief.

I believe that everyone has the ability to be, do or have anything they want in this life. I would like to help people realise this for themselves so they can fly.

**DID YOU KNOW?**

Psychology is the most versatile degree at Waikato. It can be taken as a major for the Bachelor of Arts, Bachelor of Social Sciences, and Bachelor of Science - unlike any other university in New Zealand.
Get hands-on experience in our region’s unique ‘living lab’ and enjoy a personalised learning experience, solving real-life challenges from day one, when you study science at the University of Waikato.

Whether you base yourself in Hamilton or our new Tauranga Campus, studying science at Waikato will give you hands-on experience from day one of your degree, as you learn from our world class scientists who are solving real-life problems.

From climate change to ecosystem function and health, to understanding our natural hazards, we need innovative minds and research that transcends disciplinary boundaries to tackle some of the biggest challenges of our time.

The unique ‘living lab’ we have on our doorstep provides ample opportunity for our students to experience enriching field trips and have hands-on experience, particularly in the areas of environmental and marine sciences.

Whether you choose a Bachelor of Science, Bachelor of Science (Tech) or one of our certificates or diplomas, studying at Waikato will give you an internationally recognised science qualification and the practical skills that are in demand by employers.

You will also benefit from our smaller class sizes that allow us to deliver a personalised learning experience in our state-of-the-art laboratories. There has never been a better time to study science at Waikato.

**Career options:**
- Animal Welfare Officer
- Chemical Analyst
- Conservation Ranger
- Environmental Scientist
- Laboratory Manager
- Museum Collections Technician
- Software Developer
- Statistician
- Taxonomist
- Volcanologist
- Water Resource Manager
- Web Architect

DID YOU KNOW?
We take you right to the source, with field trips that might include an overnight stay to gather geothermal samples or a week-long bush camp to examine a region’s flora.

Bachelor of Science
(Environmental Science and Aquaculture)

Current student

There are so many great scholarship opportunities at Waikato. I was fortunate to receive a Sir Edmund Hillary Scholarship for my achievements in water polo. Being able to study at home in Tauranga means I can maintain my sports training schedule and keep my living costs down.

Being close to marine and terrestrial environments is crucial for a marine science student so the Bay of Plenty is the perfect location to study. Having access to world-class researchers and facilities at the Coastal Marine Field Station and new labs at the city campus, is such a bonus.

I want to gain enough valuable knowledge through my degree so that I can apply change to the local environment, helping it to flourish and thrive. My goals are to play water polo at a professional level, and build a career in the growing aquaculture industry.

DID YOU KNOW?
Aquaculture is the world’s fastest growing primary industry and our Aquaculture major in Tauranga is the only one of its kind in New Zealand.
Our programmes of study in the School of Social Sciences equip students with critical thinking skills, enhancing employability and future-proofing their careers against Artificial Intelligence (AI).

At Waikato, our students can work alongside top-rated teachers and internationally respected scholars, across eight majors in the School of Social Sciences: Anthropology, Environmental Planning, Geography, History, Philosophy, Political Science, Social Policy and Sociology. These majors can be taken towards a Bachelor of Arts or a Bachelor of Social Sciences.

The School of Social Sciences also offers two professional four-year degrees: The Bachelor of Environmental Planning and the Bachelor of Social Work.

We offer flexible learning options, providing students with choice in their programmes of study to work around their busy lifestyles. Many of our papers use the latest teaching technology including Panopto and video-conferencing, providing increased variety for students studying across both campuses.

The School’s research-led teaching stands at the intersection of key global and local debates around post-colonialism and indigeneity, growth and sustainability, social justice, emergent identities and institutions. We are interested in the past, current and future use of physical resources and spaces as well as the nonphysical realm of ideas, beliefs, morals, language, and organisations.

Career options:
- Community Health Worker
- Demographer
- Diplomat
- Economist
- Employment Relations Advocate
- Environmental Consultant
- Ethics Advisor
- Human Resource Manager
- Iwi or Māori Resource Development Officer
- Policy Analyst
- Educational Software Developer
- Youth or Family Worker
- Industry Trainer
- Learning Application Development
- Social Services Advocate
- Community Educator

For more information or entry requirements scan the QR code or visit waikato.ac.nz.

DID YOU KNOW?
University of Waikato Social Work graduates are sought after and are successful in gaining employment in a wide range of fields of practice.

Before coming to university I was a full-time labourer but knew I wanted to study. Initially, I wanted to pursue Law but swapped into Social Sciences.

My life experience and knowledge of the University has been valuable in my role as a Te Toka Māori student mentor. I’ve been given many opportunities whilst at uni, including an overseas exchange and joining the Golden Key Society.

I’m continuing my studies at the Tauranga campus with a Master of Social Sciences in Social Policy.

My career goal is to effect change concerning economic inequality, be that as a public servant or in the private sector. Personally, I want to provide a better life for my wife and children.

If you are looking to quickly acquire new specialist skills for a new career or continue professional development in the same area, a graduate or postgraduate certificate or diploma may be for you.

GRADUATE CERTIFICATES AND DIPLOMAS
Graduate certificates and diplomas are intended to develop your knowledge and skills in a subject area that is different from your first degree’s major.

<table>
<thead>
<tr>
<th>GRADUATE CERTIFICATE</th>

</tbody>
</table>

| **DOCTOR OF PHILOSOPHY** PhD                | H F      | 3 Years        | $6,332 - $6,763 p/yr |
| The degree of Doctor of Philosophy is awarded by the University for research carried out under the supervision of at least two staff members. A PhD can also be presented as a PhD with Publication or a PhD with a Creative Practice Component. |          |                |                    |

| **DOCTOR OF EDUCATION** EdD                 | H F      | 3 Years        | $6,332 - $7,559 p/yr |
| Designed specifically for educational professionals, this qualification is a supervised professional research degree designed to provide you with high-quality, advanced research skills to extend your leadership credentials and abilities in education. |          |                |                    |

| **DOCTOR OF HEALTH SCIENCE** DHSc           | H F      | 3 Years        | $6,332 - $6,763 p/yr |
| The Doctor of Health Science is a doctoral-level qualification for health professionals of any discipline who seek to support and extend their professional practice through disciplined research. |          |                |                    |

| **DOCTOR OF JURIDICAL SCIENCE** SJD         | H F      | 3 Years        | $6,332 - $6,763 p/yr |
| The Doctor of Juridical Science is a structured programme that incorporates coursework and independent research. Individually tailored, it'll help you achieve a PhD degree with maximum support. |          |                |                    |

| **DOCTOR OF MUSICAL ARTS** DMA              | H F      | 3 Years        | $6,332 - $6,763 p/yr |
| The Doctor of Musical Arts at Waikato focuses on both performance and research. You’ll be immersed in musical works that have artistic and creative integrity. Your performance of these works will be backed up by a written thesis that sets out your own independent research. |          |                |                    |

| **DOCTOR OF PHILOSOPHY (LAW)** PhDLaw       | H F      | 3 Years        | $6,332 - $6,763 p/yr |
| Turn your ideas into world-changing research. Study the University of Waikato’s advanced, three-year supervised research degree in law. |          |                |                    |

The University of Waikato welcomes enquiries for Higher Doctorates: Doctor of Laws, Doctor of Literature or Doctor of Science.

A Higher Doctorate may be awarded to a candidate who has successfully presented for examination a collection of work, or a specially composed thesis based on such work, which constitutes an original, substantial and distinguished contribution to scholarship and establishes the candidate as an international authority in the particular field of study.

Applications are welcome from those who have an existing or previous association with the University of Waikato, and whose work is related to our areas of teaching and research expertise.

For further details regarding the Doctor of Laws, Doctor of Literature or Doctor of Science, please visit calendar.waikato.ac.nz/regulations/higher/ or contact the School of Graduate Research. sgr@waikato.ac.nz.
