Background of Scholarship:

Applications are invited for a one-year MSc(research) scholarship (fees and a living stipend) in Computer Science (HCI) and Māori data sovereignty. This is part of an MBIE funded project on collection and use of data from workers in hazardous workplaces (e.g. forestry). The successful applicant should be eligible to enrol in an MSc qualification at the University of Waikato. Experience in running focus groups and user studies would be advantageous as would an understanding of Māori data sovereignty.

Eligibility criteria:
Postgraduate
Full-time
Domestic/PR students

Application documents required:
- CV
- A short statement (one to two paragraphs) addressing your suitability based on the suggested prior experience above.
- Two Academic References
