**The Sir Paul Callaghan Eureka! Awards**

*Closing date: 30 June 2019*

*Level: Secondary School / Undergraduate*

The Sir Paul Callaghan Eureka! Awards competition challenges secondary school and tertiary undergrads to deliver a 12-minute presentation about how an application of science or technology will benefit New Zealand’s economic, environmental and social wealth and well-being.

To deliver a successful Eureka! presentation contestants will demonstrate:

1. Knowledge of an area of science, technology, engineering or mathematics
2. How their area of knowledge and interest can be (or is being) applied to enable tangible benefit to New Zealand’s economic, environmental and social wealth and well-being, so helping deliver on Sir Paul Callaghan’s ambition for New Zealand
3. The presence and capability to communicate clearly, succinctly and persuasively to a general audience comprising people from business and the political arenas as well as the wider public.

The entry process into the Sir Paul Callaghan Eureka! Awards is split into two forms. In the first form, due at the end of June, you will submit your contact information and in the second form, due one week after the first form closes, you will submit your presentation name and your choice of scholarship. The reason for splitting up entry into contact and presentation information is that you can sign up early and we can remind you when deadlines are coming up but when you first register you may not know what you are going to do your presentation on. Entry into the Sir Paul Callaghan Eureka! Awards is open to all secondary school and undergraduate tertiary students, younger than 25.

**NEW University of Waikato Disability and Active Recreation Doctoral Scholarship**

*Closing date: 30 June 2019*

*Level: Postgraduate*

The University of Waikato is committed to ensuring opportunities for disabled people to participate in sport and active recreation as part of everyday life, and FHSHP aims to establish a reputation as national leaders in Disability/Para Sport. The Scholarship consists of three connected, though discrete, doctoral projects intended to promote different perspectives in supporting and enhancing sport and active recreation provision for disabled people. The project briefs have been determined as part of a collaborative dialogue between The University of Waikato, Halberg Foundation, Paralympics New Zealand, Sport Waikato, Parafed Organisations in New Zealand, and Special Olympics New Zealand. The expectation is that the three successful Scholarship recipients will each undertake one of the discrete projects, whilst working as a member of the broader research programme.

Candidates are expected to extend the understanding of disability sport and active recreation in partnership with the disability sport sector and ‘industry’ stakeholders. Candidates will be encouraged/supported to disseminate findings in high-quality peer-reviewed publications and international conferences. As part of this initiative, candidates will have opportunities to engage in knowledge translation activities with community partners.

HEERF Scholarships

Application date: Accepts applications year-round — applications generally considered March/April
Levels: Postgraduate

HEERF makes available annually a series of post graduate research scholarships open to NZ citizens and NZ permanent residence holders. The scholarships are typically linked to heavy engineering industry related research proposals administered by HERA, however scholarship applicants are also able to submit their own research project proposal.

All scholarship research proposals intended for funding through HEERF are required to go through the HERA Research Panel system for evaluation and prior approval before being submitted through the HERA Director to the HEERF Trustees. For further information, visit the website http://www.hera.org.nz/MainMenu.

LEARN Fellowships

No set closing date:
The Livestock Emissions & Abatement Research Network (LEARN) is an international research network focused upon improving the understanding of greenhouse gas emissions from livestock agriculture. The Ministry of
Agriculture and Forestry offers up to nine New Zealand LEARN Fellowships per annum for scientists or technicians from developing countries to work in New Zealand in the area of Livestock Emissions Research. The objectives of the network are to improve the quantification of non-CO₂ greenhouse gas emissions from animal agriculture at all scales, and to facilitate the development of cost effective and practical greenhouse gas mitigation solutions.

There are two separate categories available. These are LEARN Work Trainee Awards (tenure up to six months) and LEARN Postdoctoral Fellowships (tenure up to twelve months). There is no set application close date for the Fellowships, instead they are dealt with on a case by case basis by MAF's advisory panel. It is expected that the majority of applications/nominations will be from/for individuals who have already established links with researchers at the NZ host institution/organisation. All candidates must be registered members of the LEARN Network, and may register at www.livestockemissions.net. The terms and conditions and application form can be downloaded from the Education New Zealand (ENZ) website www.newzealandeducated.com/scholarships.
