The NZ Business Benchmarking Survey is an annual financial survey of New Zealand businesses conducted by the University of Waikato. Over the 35 plus years the survey has been running, the University has worked closely with NZ accountants earning the reputation of a trusted independent source of financial information. The benchmarks reported are recognised by practitioners, government agencies and industry commentators as the accepted standard for benchmarking SMEs in NZ.

The financial data analysed in the survey is collected from NZ Accountants and rigorously screened to generate a robust financial survey of NZ businesses. The survey reports provide:

- **A wide range of classifications** are reported, the list of which includes the ANZSIC categories plus additional business specific custom classifications created for the survey. The survey generates over 430 industry classification reports.

- **A comprehensive list of 35 key financial ratios**, including income/cost per person ratios, liquidity, overheads, and personnel numbers (FTE’s).

- **Two levels of reporting** are utilised; aggregate results for the business classification as a whole; and Subgroup breakdown reports based on Total Income, Net Profit per Working Owner, and Location.

- **The range of industry results are displayed** using percentiles (25th, 50th, 75th), to reveal the spread of results returned for each ratio, enabling firms to see where in the industry their results are placed.

- **The results of the three best performing firms**, based on Net Profit per Working Owner, are averaged for each ratio to yield further insights into how these firms have achieved their results.

**Purchasing Reports** - the survey’s reports can be purchased in full or by industry classification:

- The complete publication, includes over 430 industry classification reports for $1,800 + GST

- Individual industry classification reports for $160 + GST

- Custom reports can also be generated, for an additonal cost, where results for a particular geographical area are of interest. This type of report is only available where sample size criteria are met; for confidentiality purposes.

The order form, examples of the reports generated, and a full list of the industry classifications published in the 2017 financial year end report can be accessed on our website at [www.nzbenchmarking.co.nz/reports](http://www.nzbenchmarking.co.nz/reports).

**Contact** - for further information go to [www.nzbenchmarking.co.nz/reports](http://www.nzbenchmarking.co.nz/reports) or contact NZ Business Benchmarking on 07 838 4013 or email mrc@waikato.ac.nz.

2017 NZ Business Benchmarking Industry Reports Available

The following pages are from the Table of Contents of the 2017 NZ Business Benchmarking Survey single-volume publication. Industry classification report page numbers are shown on the following pages for all classifications that have been reported in the full publication. You may access any of the Class and Custom Class reports that are numbered on the following pages via Client Comparison Reports in the Benchmarking software and in some cases summary Group, Subdivision or Division reports are provided as alternative reports where the Class or Custom Class Reports were not published.

How to Read the Following Index Pages

Divisions and Levels in the ANZSIC Hierarchy

The survey reports are listed in this Index according to the Australian and New Zealand Standard Industrial Classification (ANZSIC) 2006 structure. The ANZSIC structure separates businesses into 19 Divisions (lettered A - S), which are listed on the following page. The Divisions are the highest level of the ANZSIC hierarchy, and within each Division the classifications are grouped from the broadest Levels down to the most detailed as follows: Division, Subdivision, Group, Class and Custom Class. For an illustration of how the samples in these levels are combined and reported, see the Business Classification Code Hierarchy section of the publication.

In the Index that follows, the Division letter for each classification is shown on the left with its ANZSIC Level, its unique Code Number and Description beside it. On the corresponding report pages, classifications are then identified by Division letter, Code and Description (e.g. "A 112 - Nursery Production (Outdoors)").

Page Numbering and N/A* in the Index

Page numbers are shown to the right of a classification under each of the two report types where that report has been included in this publication. Where an ANZSIC classification does not appear in the list or is listed but has N/A* instead of a page number next to it, that report has not been included - usually because the sample size was too small. A full list of the 689 Classes and Custom Classes available for the survey including all Group and Subdivision headings is available from www.nzbenchmarking.co.nz/reports.

In most cases, where a classification has business data, but the sample was insufficient to generate a report, the classification name has been included in the index with N/A* in both report columns. Inclusion in the index indicates that the data will be used in a report higher up in the classification hierarchy.

Aggregate and Sub-Group Reports

For an industry classification, the Aggregate Reports show the results of all businesses within that classification while the Sub-Group Reports show the median results side-by-side for each sub-group breakdown available for that classification. See the Presentation of the Results and Sub-Group Criteria/Combinations sections of the publication for more information about these reports.

Searching for Classifications www.nzbenchmarking.co.nz/reports

To search the ANZSIC classifications definitions online, visit www.nzbenchmarking.co.nz/reports where you can link to a webpage to search using key words. Search results provide a full definition, a list of Primary Activities by businesses in the classification, and Exclusions where certain related activities fall into other classifications. This search tool does not include our more narrowly defined Custom Classes that we have added to the list, so it is suggested you then check the following index or the Business Classification Codes PDF list included on the webpage above to see if an even better matched Custom Class has been reported that aligns with the Class you have identified. Custom Classes are listed directly below their related Class.
