

## **Research Awards**

The University wishes to acknowledge and celebrate our research and researchers. We are seeking nominations for research awards in the following categories:

- Research excellence
- Early career research
- Mātauranga Māori research

The criteria for each award have some aspects in common. Not all criteria are expected to be satisfied for an award, and a holistic assessment will be used to allow for research that spans the breadth of fundamental to applied, individuals to teams.

The common criteria for the awards include evidence of:

- scholarly excellence,
- impact and transformation,
- leadership, including supporting research excellence and impact in others.

## **Additional criteria for Research Award Subcategories**

### **Early career research**

- For an academic within 8 years of completing their PhD
- Allowance will be made for career breaks within the 8 year

### **Mātauranga Māori research**

- Research that is founded in Māori knowledge and world view

## **Excellence in Postgraduate Supervision**

To acknowledge sustained excellence in the supervision of graduate research, including PhD and Research Masters. Criteria include evidence of:

- Encouraging students' development as scholars in their discipline as well as research skills – independence, integrity, ethics, and critical thought.
- Facilitating the timely completion of students' research programs, and high completion rates.
- Supervision portfolio must include evidence of the number and level of supervisions (Masters, PhD, Chief supervisor, second supervisor etc)
