IMPORTANT NOTICE

The information contained in this Calendar is correct at the time of publication. Certain information, and in particular that relating to fees, admission regulations and papers, is subject to a continuous process of review. The University therefore reserves the right to change its policies, procedures, statutes, regulations, papers and any other content of this Calendar at any time. Any alterations and amendments to this Calendar will be reflected in the web version, http://calendar.waikato.ac.nz, which is the authoritative version.

Unless specifically stated otherwise, all policies, procedures, statutes and regulations printed in this Calendar are effective from 1 January 2009 and supersede those in any prior Calendar. Matters concerning enrolment and examinations apply to the academic year for which the student is formally enrolled for the relevant paper(s).

While in most cases there are no specific time limits for completing qualifications, over the years the degree structures and papers may change in response to developments in their areas. Occasionally core papers or requirements are changed or discontinued.

Candidates will have their overall programmes of study confirmed as meeting the requirements for the award of a qualification on the basis of the relevant regulations in the Calendar in their final year of study. However, if the regulations have changed since the candidate first enrolled for the qualification, the relevant Dean or Director may decide in individual cases, under the Personal Programmes of Study Regulations and the Delegation of Powers Statute, to vary or waive particular requirements. Students who are uncertain about whether papers passed under previous regulations will meet current requirements should consult the relevant Chairperson of Department, Dean or Director.

Detailed transitional regulations will be printed in the Calendar from time to time if substantial changes are made to the structure of a particular qualification.

The University of Waikato

The University of Waikato/Te Whare Wānanga o Waikato had its origins in 1956, when a small group of visionary individuals began working towards the founding of a university for the people of the South Auckland region. In 1959 a College was established in Hamilton, as a branch of Auckland University, and in 1964 the new University of Waikato enrolled its first students. The official opening ceremony for the University took place in 1965, in the presence of the Governor-General, Sir Bernard Fergusson (later Lord Ballantrae).

From these modest beginnings, on what was largely farmland and with only a handful of staff and temporary buildings, the University of Waikato now provides about 80 qualifications to a student population of approximately 13,000, of whom more than 4,000 complete a qualification annually. In 1998 the University of Waikato started to offer courses in the CBD in Tauranga. Today, the University employs approximately 2000 staff and makes a major contribution to the social and cultural life, as well as the economy, of the Waikato and Bay of Plenty regions.

The Waikato and the Bay of Plenty, with their rich pastures and industrial backbone, are a very significant part of the economy of New Zealand. Education and research in these regions were worth $907 million in 2006, an increase of 52% since 2001. The University’s economic contribution to the Waikato and Bay of Plenty is worth $780 million, and its operations and student expenditure support about 5% of the regional workforce. It is widely recognised that future economic growth and wealth in the Waikato and the Bay of Plenty depend heavily on the educational success of the people, and the creation of knowledge to drive innovation. These in turn depend on strong connections between the University and the communities it serves.

The University has recently embarked on the delivery of an ambitious new Vision for the future. The key themes of the Vision are Excellence, Distinctiveness and International Connectedness. We are committed to delivering a world-class education and research portfolio providing a full and dynamic university experience which is distinctive in character, and pursuing strong international linkages to advance knowledge.

The University of Waikato is building for the future on a foundation of excellence in teaching and research. Our students are taught in a research-intensive environment, by world leaders in their fields. We foster excellence in learning and scholarship, and as the creators of knowledge, we encourage our students to be leaders and innovators. We produce graduates who are globally competitive by ensuring that our academic staff are internationally connected and benchmarked against the best in the world.

Excellence with regard to educational and research outcomes relies on the recruitment, retention and support of world-class staff and the provision of world-class facilities. Academic leadership and a culture of high performance are therefore among the highest investment priorities for the University.

Closely associated with its student focus is the University’s strong reputation for its excellent and innovative approach to student learning support. Its track-record of effectiveness in supporting students in the transition from foundation and bridging programmes is evident in the high rates of transfer into mainstream degree programmes.
and their high retention and success rates. A Pathways College has been established, with its primary objective as the enhancement of access to university study through the provision of outstanding, fresh, relevant and effective pathway programmes that meet the needs of domestic and international students and the expectations of government’s Tertiary Education Strategy. The Pathways programmes are specially tailored to students who intend to pursue degree-level study.

The University of Waikato invests heavily in the pastoral care of its students. The campus environment in Hamilton is shared with the wider community, and the University works closely with the Hamilton City Council and other local government agencies in the region to foster a dynamic student culture. The development and well-being of every student as an individual, and as a ‘whole person’, is an important dimension of the University’s uniqueness. The Halls of Residence on campus, where pass rates of students are significantly higher than average, are a clear example of the University’s focus on a supportive learning environment.

In the period 2007 - 2010, the University will invest over $81 million in a capital programme to support learning, teaching and research. All of this is designed to enhance the student learning experience. A new Student Hub, to centralise all student services, is one of the major new building projects which will be phased in over the next three years.

A core element of our Vision is the development of the institution’s distinctiveness. The University of Waikato is distinctive in three different respects. Firstly, it offers teaching and research excellence across a broad range of subjects. The University’s national leadership in Computer Science, Management, Education and the Sciences has been clearly demonstrated through its top national research rankings in those areas. Secondly, the University has a unique reputation for being student-centred, for treating students as individuals, and demonstrating a genuine concern for their well-being. Thirdly, and in parallel, the University offers a genuinely Aotearoa/New Zealand identity, which extends beyond the excellence of its teaching and research and its student focus, and which is unique in New Zealand. The University of Waikato is aligned unambiguously with an Aotearoa/New Zealand national and cultural identity. Our three composite elements of Sustainability, Māori and Leadership, are infused through all we do, and guide our academic and strategic decision-making.

As stated in our Vision, the University is pursuing strong international linkages to advance knowledge. Over the next few years, it will invest in the establishment of a small number of elite international alliances, through which it will enhance its international reputation and profile, build staff capability through academic collaboration, enhance student learning through shared curriculum development and student exchanges, and collaborate in quality assurance, best practice and benchmarking. International strategic links will bring opportunities to increase research and commercialisation revenue. We will also use these strategic links to support our efforts, in collaboration with our regional business stakeholders, to achieve economic development and transformation outcomes.

Increasing external research investment, from national and international organisations, into the University is fundamental to growing the University’s research capability, capacity and reputation. Effective engagement with industry partners, both directly and through collaborative government-funded research, is also vital for successful knowledge transfer.
Contract research is an opportunity to attract external funding to build and maintain robust research platforms in areas of strategic importance for the University. In turn, these platforms provide leverage for commercialisation activities and contract research for other customers and in other fields. Through UniLink the University is proactive in bringing external investment into University research, and through WaikatoLink the University engages with relevant industries to develop research programmes which offer opportunities for commercial development.

The University of Waikato sits at the heart of a strong regional economy and takes pride in the extent to which we reflect and serve the strengths and interests of our region. Through strong links with iwi and our stakeholders, we ensure that our graduates and researchers have skills, knowledge and understandings that contribute to the ongoing prosperity and economic sustainability of the nation.

In order to develop an effective network of provision the University of Waikato is working closely alongside the polytechnics and wānanga in our region to enhance tertiary education opportunities for our people and to support the region’s social and cultural development and economic sustainability. We are also engaged in plans to collaborate closely with other universities to achieve synergistic benefits where stakeholder need has been established, but is unmet by individual institutions.

The future for the University of Waikato is exciting. Our financial base is sound and we have mapped out for ourselves a clear and agreed framework for well-informed strategic investment decisions over the medium-term. Decisions about the University’s future will be underpinned by the Vision and the key themes of Excellence, Distinctiveness and International Connectedness. We will continue to work closely with our stakeholders and play an increasingly distinctive role at the centre of a network of provision across our region. We are proud of our evolution into a truly New Zealand institution which, as our motto reflects, supports our country’s nation-building policies and reflects our nation’s identity - Ko Te Tangata ('For the People').

The University of Waikato at Tauranga

The University has had a campus in Tauranga since 1999. During 2009 the University will be relocating all staff and teaching to the Bay of Plenty Polytechnic’s Windermere and Bongard campuses. Several functions, including the library, learning support, and some teaching, are already on the Bay of Plenty Polytechnic’s campuses.

Students are able to complete the Bachelor of Business Analysis (Financial), Bachelor of Management Studies, Bachelor of Social Sciences, Bachelor of Social Work, Bachelor of Teaching (Early Childhood), Bachelor of Teaching (Primary) and Bachelor of Tourism degrees in Tauranga. Students can also complete the Diploma in Law, Graduate Diplomas in Accounting and Marketing, the Graduate Diploma of Teaching (Secondary), and the Postgraduate Diploma in Management Studies in Tauranga.

The range of papers taught is not as comprehensive as on the Hamilton campus but is being increased each year. Papers are taught in a variety of ways, including by Tauranga based University of Waikato and Bay of Plenty Polytechnic academic staff and by Hamilton based academic staff teaching by video conference link from Hamilton or by commuting to Tauranga. Students are also able to enrol in web based papers offered from the Hamilton
campus. Some students complete their degrees entirely in Tauranga and some transfer or commute to Hamilton if they want to enrol in papers not available on the Tauranga campus.

A wide variety of Continuing Education courses are also taught in Tauranga. Further information is available on the website: http://uwt.waikato.ac.nz.

The Faculty and Schools of Studies

The University comprises the Faculty of Arts and Social Sciences, and the Schools of Computing and Mathematical Sciences, Education, Law, Management, Māori and Pacific Development, and Science and Engineering.

The Faculty of Arts and Social Sciences offers a wide range of qualifications from undergraduate certificates, diplomas and degrees through to postgraduate research. Subjects taught within the Faculty include the Social Sciences, the Humanities, the Performing Arts and a number of languages. The undergraduate degrees offered are the Bachelor of Arts, Bachelor of Social Sciences, Bachelor of Communication Studies, Bachelor of Music, Bachelor of Social Work and Bachelor of Tourism. The Faculty’s graduate programmes include Bachelor of Arts with Honours, Bachelor of Social Sciences with Honours, Bachelor of Communication Studies with Honours, Bachelor of Music with Honours, Bachelor of Tourism with Honours, Master of Arts, Master of Arts (Applied), Master of Applied Psychology, Master of Environmental Planning, Master of Music, Master of Social Sciences and a number of specialist graduate and postgraduate diplomas. MPhil and PhD research degrees are offered across a range of Arts and Social Sciences subjects, and a Doctor of Musical Arts (DMA) will be available in 2009, subject to approval by the NZVCC’s Committee on University Academic Programmes (CUAP). As well as the expertise gained in their specialist areas, graduates of the Faculty are equipped with essential skills including literacy, communication, reasoning, research, a theoretical and practical understanding of people and society, and a broad knowledge of culture, society and history. Further information is available on the website: http://www.waikato.ac.nz/wfass.

The School of Computing and Mathematical Sciences provides a stimulating and leading-edge environment of quality relevant teaching programmes and world-class research, producing graduates well-fitted for the challenges of the contemporary and future workplace. The School’s research excellence is seen in the 2003 and 2006 rounds of the national PBRF research assessment exercise in which the University of Waikato was ranked first in the subject of ‘Computer Science, Information Technology, Information Sciences’ and in the subject of ‘Pure and Applied Mathematics’.

The School of Computing and Mathematical Sciences offers the four-year Bachelor of Computing and Mathematical Sciences, the three-year Bachelor of Science, and the three-year Bachelor of Computer Graphic Design (in conjunction with the UCOL Whanganui School of Design). The BCMS and BSc provide majors in Computer Science, Mathematics, and Statistics, which prepare students for a range of the many professions that depend on these three disciplines. The BCMS may be awarded with Honours. Students can also study towards a four-year Bachelor of Engineering in Software Engineering within the School of
Computing and Mathematical Sciences in conjunction with the School of Science and Engineering. Advanced degrees offered within the School include the Bachelor of Science with Honours, the Bachelor of Computer Graphic Design with Honours, the Master of Science, the Master of Computer Graphic Design, the Master of Philosophy, and the Doctor of Philosophy. Certificate and diploma programmes at graduate and postgraduate level are also available.

The School of Education provides degree programmes in teacher education, sport and leisure studies, counselling, human development and education studies. It distinguishes itself among other education schools through its tradition and reputation for innovation, leadership and research.

The School was the first college of education in New Zealand to merge with a University, the first to offer a degree in sport and leisure studies, and the first to offer a teacher education programme online. Leading research undertaken by staff through the Wilf Malcolm Institute of Educational Research (WMIER) and the Centre for Science and Technology Education Research (CSTER) informs teaching and has been instrumental in shaping and developing New Zealand’s curriculum, policy and practice. Moreover, in the latest NZ Performance-Based Research Funding results, when university and college of education scores are combined, the School of Education was ranked as number one in Education.

The School of Education offers a portfolio of qualifications at undergraduate, graduate, and postgraduate levels. Three and four-year degree programmes in Teacher Education, along with one-year graduate diploma programmes, prepare competent, knowledgeable and critically reflective beginning teachers. The programmes have New Zealand Teachers Council approval, enabling graduates to register as teachers in New Zealand. A range of specialist postgraduate certificates, diplomas and masters degrees provide qualified teachers with programmes that are practice-related and designed for professionals. The Sport and Leisure Studies programmes cover a broad range of topics such as outdoor adventure experiences, health-related fitness and performing arts. They provide graduates with a framework that critically examines the political, cultural, social, and economic forces that influence people’s behaviour in relation to sport and leisure. The School also offers majors in Education Studies and Human Development involving critical inquiry into the theories and practices of lifelong education and the study of human development across the life span. Counsellor Education programmes take a distinctive orientation emphasising what are often called narrative approaches in counselling and therapy. The Master of Counselling is approved by the New Zealand Association of Counsellors.

The School of Law provides an innovative, student-focused Bachelor of Laws degree in a stimulating academic environment. The School’s founding goals of professionalism, biculturalism, and the study of law in context attract an exciting and diverse group of staff and students. The Law School remains at the forefront in integrating the teaching of law and technology into its LLB degree, and in providing sophisticated information technology
for students. The School of Law is also at the cutting edge in preparing students for real-life practice of law by its integration of practical skills in the degree.

The Law Honours degree is designed to provide academically able students with the opportunity to pursue advanced legal research. The School offers two LLM programmes, MPhil, PhD, SJD, and LLD degrees, and, in conjunction with the Waikato Management School, the Graduate Diploma in Dispute Resolution.

Further information is available on the website: http://www.waikato.ac.nz/law.

The School of Māori and Pacific Development offers programmes in Māori language and linguistics, culture, customs, creative and performing arts, media and communication, Treaty of Waitangi, and development studies. Papers offered in the School lead to the award of the Bachelor of Arts, Bachelor of Communication Studies, or Bachelor of Māori and Pacific Development with a major in Māori and Pacific Development, Māori Media and Communication, Te Reo Māori, or Tikanga Māori. Te Tohu Paetahi is a Te Reo Māori specialisation taught through the medium of Māori with the first year devoted largely to the learning of te reo Māori. The School also offers the Bachelor of Arts with Honours, Master of Arts, Master of Māori and Pacific Development, and a number of graduate and postgraduate certificates and diplomas. The School is noted for its strengths in teaching in the areas of Māori language, tikanga Māori and development studies. There is a strong, and growing, research culture and students may pursue research at masters and doctoral levels (for which a number of scholarships are available) as well as benefiting from opportunities to contribute to the School’s externally funded research and development contracts.

Further information is available on the website: http://www.waikato.ac.nz/smpd.

The School of Science and Engineering offers a range of innovative programmes for the undergraduate degrees of Bachelor of Engineering, Bachelor of Science, and the Bachelor of Science (Technology). The Bachelor of Engineering may be awarded with Honours. Graduate degrees offered include the Master of Engineering, Master of Science, and Master of Science (Technology), all of which may be awarded with Honours. There is also a range of graduate and postgraduate diplomas available. Over 100 students are enrolled in Master of Philosophy and Doctor of Philosophy degrees. The School also operates several academic centres and units including the Honey Research Unit, the Centre for Science and Technology Education Research, the International Global Change Institute, and the Carbon Dating Unit.

Throughout its 36 years, Waikato Management School has distinguished itself among New Zealand business schools by the relevance and rigour of its education and research, and its belief that business and enterprise are most successful when they improve the communities, societies, and nations in which they operate. The School’s commitment to inspiring the world with fresh understandings of sustainable success is achieved through high quality research; excellent teaching; consulting with business; extensive international connections; and the knowledge and values that graduates take into the workforce.
The latest Tertiary Education Commission’s 2006 Performance Based Research Funding (PBRF) report ranked the School first in both the Management, and Accounting and Finance categories.

The School is proud that the quality of its research-led education has been independently endorsed by the world’s three leading accreditation agencies: the Association for the Advancement of Collegiate Schools of Business (AACSB), Association of MBAs (AMBA), and European Quality Improvement System (EQUIS). Together these accreditations are known as the Triple Crown, and it puts the Waikato Management School in a select group of leading business schools worldwide. Less than 1% of business schools globally have earned this distinction of excellence.

Waikato Management School offers a portfolio of undergraduate and postgraduate qualifications ranging from degrees to certificates and diplomas. The Bachelor of Management Studies is a comprehensive four-year degree that is highly ranked by employers. The Bachelor of Business Analysis (Financial) is a specialised three-year degree that focuses on the quantitative areas of management. The Bachelor of Electronic Commerce degree offers students a sound mix of management and technical skills while the Bachelor of Communication Studies teaches students strategic and creative communication solutions. The Bachelor of Tourism focuses students on developing a responsive approach to the needs of the tourism and hospitality industries. Waikato Management School offers Honours degrees to top students, graduate and postgraduate diplomas across 26 subject areas, Masters degrees in Management Studies, Electronic Commerce, and a Master of Business Administration. Researchers in the School supervise PhD students in all the major areas of management and business.

The Waikato Pathways College

The Waikato Pathways College offers educational programmes to enhance access to all levels of university study. The College provides a range of community, adult education, and professional development courses to the general public and arranges lectures, seminars, and conferences on a wide range of topical issues throughout the year. The College also offers a range of general English language courses for people wanting to learn English for everyday life and social purposes. In addition, the Certificate of Attainment in English Language (CertAttainEngLang) programme prepares learners for tertiary study in English-speaking countries. Pre-degree programmes Certificate of Attainment in Foundation Studies (CertAttainFoundSt), Certificate of University Preparation (CUP), and Te Timatanga Hou (TTH) provide pathways for students into university study. Short-term language teacher training courses such as CELTA are available for students intending to work as language teachers in New Zealand or overseas. The College also provides academic support for all tertiary students through workshops, personal tutorials, and online self-access materials.

The University of Waikato Charter

Te nei te Whare Wānanga o Waikato e whakatau nei i ngā īwi o te ao ki roto i te riu o te awa e rere nei, ki runga i te whenua e hora nei, ki raro i te taumaru o ngā maunga whakaruru e tau awhi nei.
Nau mai, haere mai, haere mai.

Mission
To combine the creation of knowledge through research, scholarship and creative works with the dissemination of knowledge through teaching, publication and performance.

Our Special Character
The University of Waikato/Te Whare Wānanga o Waikato offers a uniquely New Zealand model of university education. Our motto, ‘Ko Te Tangata’, which means ‘For the People’, reflects our philosophy that we are in, of, and for the community.

We are defined by
• a genuinely diverse, participative and free-thinking learning environment, which inspires and affirms academic excellence
• our readiness to push back conventional boundaries and develop new approaches to familiar issues
• our commitment to sustainable and inclusive social, economic and environmental development
• our ability to create new New Zealand ideas through our global networks and connections
• our capacity to use science and technology in innovative ways that benefit the nation and ensure environmental sustainability in New Zealand
• our commitment to partnerships with Māori, as intended by the Treaty of Waitangi
• our commitment to kaupapa and tikanga Māori within our campus environment and community
• our commitment to build and enhance the Pacific dimensions of our special character, in the interests of both New Zealand-born and Island-born Pacific people
• our commitment to academic freedom and to public accountability for the exercise of that freedom
• our respect for staff and students and our commitment to their wellbeing
• our commitment to equity of access as a true expression of our respect for the inherent importance of higher education in the personal and professional lives of people individually and collectively.

Our Role and Contribution
The University of Waikato/Te Whare Wānanga o Waikato plays an essential leadership role in the prosperity of our region and our country. Though we are heirs to standards, values and traditions that have evolved over centuries, we are not limited by the past. Our gaze is firmly on the present and future needs of this nation.

We are a New Zealand institution that looks at the world from a New Zealand perspective. We sit at the heart of a community of strong regional partnerships and take pride in the extent to which we reflect and serve the strengths and interests of our region. We embody the spirit of our region—of Waikato.

We are also an international university. We consciously measure our performance against internationally established criteria, and our teachers, researchers and students inspire, and are inspired by, an international community of scholars.

We are committed to the recruitment and retention of world-class staff who excel at teaching, research and management in areas that are of particular strategic value to New Zealand. We pursue a research and research-management strategy that supports our country's nation-building policies and promises a generous return in terms of our nation's identity and the wealth and wellbeing of New Zealanders.

We are committed to the generation of knowledge for its intrinsic value in intellectual and social terms, and because knowledge is an essential driver in the improved performance of the New Zealand economy, the creation of new industries and the sustainable development of our environment. Our research strategy acknowledges our location in the heartland of New Zealand's dairy and forestry industries and the need for innovative research, in collaboration with other research providers, to add value to the output of our primary industries.

We adhere to the concept of a university education that is, by definition, research-led. Through sustained research intensity and the attraction of high levels of external research funding from public sector and industry sources, we aim to maintain a highly competitive research profile which is measured by the quality and productivity of our academic staff.

We are committed to meaningful partnerships under the Treaty of Waitangi and to providing leadership in research, scholarship and education relevant to the needs and aspirations of iwi and Māori communities. We value our relationship with Tainui as mana whenua, and we are committed to the iwi forum of Te Rōpū Manukura as a partner of the University. We are dedicated to supporting our Māori student and staff communities with a focus on leadership and academic excellence.

We are committed, in partnership with our Pacific Island stakeholders, to the establishment of more concerted strategies in support of increased access, participation and achievement by Pacific peoples, for the benefit of Pacific economic aspirations as well as New Zealand's social wellbeing and economic development.
Our focus on our local communities is balanced by our commitment to a culture of internationalisation, which is measured through the diversity of our student and staff profiles, the support and celebration of that diversity, a long-standing pride in our reputation for the pastoral care of our international students, and the measures we take through curriculum, programme design and global networks and connections to expose our students to international influences.

We are committed to the proactive management and stewardship of our resources and assets, through robust planning, strong quality management processes, effective risk identification and consistent performance monitoring and assessment.

Through an organisational culture that is characterised by strong leadership and through effective and harmonious arrangements for governance and management, we ensure proper standards of integrity, conduct and concern for the public interest.

Through the provision of a beautiful and safe campus environment, a culture of optimism, passion for learning, mutual respect, inclusiveness, and fair and equitable work-sharing and rewards, we strive to provide all our staff with opportunities for challenging and professionally rewarding careers.

We will constantly expand our modes of teaching and our links and connections with regional, national and global networks in order to provide varied and flexible learning pathways and support the increasingly diverse needs of our students. Our approach to learning is focused on learning outcomes that enable students to be critical, productive and ethical citizens. We aim to inspire them with Aotearoa—New Zealand understandings of our connected world.

English Translations
Introductory mihi The University of Waikato greets all people from the world into this great valley of the Waikato river, upon the wide expansive lands of the region, and beneath the sheltering mountains that protect us. Welcome, welcome, welcome.

The University’s Commitment
to the Treaty of Waitangi

The University’s Māori identity and heritage are essential elements of our institution’s distinctiveness. The specific programmes which underpin the University’s commitment to Māori and the Treaty of Waitangi are outlined in the Academic and Investment Plans and the University-wide Māori Strategy. The general areas of priority include:

- providing learning opportunities for staff, students, and the wider community to participate in exploring and celebrating our shared heritage and distinctive culture,
- maintaining a strong relationship with Tainui and the Kingitanga,
- building leadership in research, scholarship, and education relevant to the needs and aspirations of iwi and Māori communities,
- supporting Māori students and staff communities with a focus on leadership and academic excellence.

As reflected in our Charter and Vision, the University has been committed to the Treaty of Waitangi from the outset. We are determined to build on this commitment and on our reputation as a leader in partnership with Māori - to further enhance the relevance and value of the University to Māori communities and to the nation as a whole.

Tihe Mauri Ora.

Delegation of Powers Statute

1. This statute may be cited as the Delegation of Powers Statute 2008.

2. The powers of the Council with regard to the determination of detailed regulatory statements governing the following matters are delegated to the Academic Board, in accordance with its terms of reference, under Section 182(2)(b) of the Education Act 1989:
   2.1 Programmes of study and training
   2.2 Entrance to the University or to any paper of study for any degree or other academic qualification and managed entry
   2.3 Limitations on enrolment and managed entry
   2.4 The admission, attendance and discipline of students
   2.5 Examinations and other forms of paper assessment
   2.6 The appointment of examiners, assessors and moderators
   2.7 The granting of fellowships, scholarships, bursaries and prizes
   2.8 The award of honorary degrees and other academic distinctions
   2.9 The use of key support services including computer and library services
   2.10 Any other academic matter.

3. Under Section 222(2) of the Education Act 1989, the Academic Board delegates to the following committees the powers and duties defined in the terms of reference of those committees:
   3.1 Academic Programmes Committee
   3.2 Admission Appeals Committee
   3.3 Boards of Examiners
   3.4 Boards of Studies of the College, Faculty or Schools of Studies
   3.5 Animal Ethics Committee
   3.6 Human Research Ethics Committee
   3.7 Postgraduate Studies Committee
   3.8 Research Committee
   3.9 Scholarships Committee
   3.10 Student Discipline Committee
   3.11 Teaching Quality Committee
   These committees are required under their formal terms of reference to submit regular reports on their activities and decisions to the Academic Board.

4. Under Section 222(2) of the Education Act 1989, the Academic Board delegates to the Deans, or equivalent, authority to approve the personal programmes of study of individual students enrolled in their College, Faculty or School of Studies.
   4.1 The Academic Board also delegates to the Deans, or equivalent, authority to approve variations and waivers of regulations governing qualifications for which individual students are enrolled in their College, Faculty or School of Studies. The Deans, or equivalent, are required to submit to the Academic Board an annual summary report of decisions taken under this authority.
   4.2 Students may appeal to the Admission Appeals Committee against decisions by Deans, or equivalent, concerning admission.
4.3 In respect of decisions by Deans, or equivalent, under this authority concerning matters other than admission, students may appeal to the Academic Programmes Committee.

5. Under Section 222(2) of the Education Act 1989, the Academic Board delegates authority to appoint moderators and assessors to the chief examiner of a paper except where a statutory requirement exists in which case this authority is delegated to the Dean, or equivalent, of the College, Faculty or School of Studies. An annual summary report of appointments made under this delegated authority is required to be submitted to the Academic Board.

6. Under Section 222(2) of the Education Act 1989, the Academic Programmes Committee delegates to the Deputy Vice-Chancellor authority to decide appeals in assessment matters as provided under the Assessment Regulations 2005. The Deputy Vice-Chancellor is required to submit an annual summary report to the Academic Programmes Committee of decisions taken under this delegated authority.

7. Under Section 222(2) of the Education Act 1989, the Academic Board delegates to the Director of the Student and Academic Services Division the authority to approve eligibility for admission to the University for any person under 16 years of age on the first day of semester in which he or she wishes to enrol.

8. Under Section 222(1) of the Education Act 1989, the Council delegates to the following committees the powers and duties defined in the terms of reference of those committees:

8.1 Finance Committee
8.2 Honours Committee
8.3 Risk Management Committee
8.4 Te Rōpū Manukura

These committees are required under their formal terms of reference to submit regular reports on their activities to the Council.
Vice-Chancellor's Special Powers

1. The Vice-Chancellor may give such direction, or make such provision as he or she thinks fit for the relief of undue hardship where it is shown to his or her satisfaction (a) that an alteration or amendment to statutes or regulations involving a change in a course of study or in examination requirements has caused a candidate hardship, or
(b) that official advice has been given and acted upon, and it is later found that a candidate's course is not in accordance with the governing regulations and hardship would be caused if the candidate were to be compelled to comply with the full requirements of the regulations.

2. The Vice-Chancellor may, in consultation with the relevant Dean or Director, give such direction or make such provision as he or she thinks fit where it is shown to his or her satisfaction that an unusual and particular case has arisen concerning a student's enrolment, in consideration of which no relevant provisions or regulations currently apply. The Vice-Chancellor will report to the Academic Board any decisions made under the provisions of this section.

3. The candidate may appeal against the decision of the Vice-Chancellor to the Council, which may make such provision as it thinks fit.
Admission Statute

1. Title
This is the Admission Statute 2008.

2. Date of effect
This statute is effective from 1 January 2009.

3. Application
This statute applies to those seeking admission to the University of Waikato at undergraduate level and higher (100 - 900 levels). It does not apply to those seeking admission to non-assessed or sub-degree level papers or qualifications.

4. General
(1) Unless approved otherwise by the Academic Board, a person who will be under 16 years of age on the first day of the semester in which he or she wishes to enrol is not eligible for admission.
(2) Unless approved otherwise by the Academic Board, a person who is enrolled for full-time instruction in a secondary school or area school is not eligible for admission.
(3) Subject to the Limitations Statute and any academic criteria that may apply with respect to particular papers or qualifications, a person may qualify for admission under any of the following provisions:
   (a) University Entrance
   (b) Discretionary Entrance
   (c) Special Admission
   (d) Admission at entrance level with credit based on previous tertiary study.
(4) In addition to qualifying under section 5 of this statute, the person must also meet the particular academic criteria set out
   (a) in the case of undergraduate qualifications, in the Criteria for Admission to Particular Qualifications
   (b) in the case of graduate and postgraduate qualifications, in the regulations for the relevant qualification.

5. University Entrance
University Entrance means
(a) from 2005: A minimum of 42 credits at Level 3 or higher on the National Qualifications Framework,
   (i) including a minimum of 14 credits at Level 3 or higher in each of two subjects from an approved list, with a further
   (b) 14 credits at Level 3 or higher taken from one or two additional domains or approved subjects
   (ii) and the numeracy requirements of a minimum of 14 credits at Level 1 or higher in the Mathematics or Pangarau on the National Qualifications framework
   (iii) and the literacy requirement of a minimum of 8 credits at Level 2 or higher which show reading and writing skills in English or te reo Māori, are required
(b) From 1993 to 2004: Higher School Certificate and a C grade or higher in each of three New Zealand University Entrance, Bursaries and Scholarships (NZUEBS) subjects; or an A or B bursary
(c) A qualification recognised by the New Zealand Qualifications Authority for University Entrance purposes
(d) From 1986 to 1992: a D grade or higher in each of four NZUEBS subjects
(e) Before 1986: the University Entrance qualification (by accreditation or examination).

6. **Discretionary Entrance**

   (1) from 2005: A person who has undertaken NCEA at Level 3 in three or more approved subjects (in the same year) and failed to gain University Entrance is not eligible to be considered for Discretionary Entrance until the B semester of the following year.

   (2) Admission will be at the discretion of the University, with the proviso that a person who has undertaken Year 13 study beyond 1 June at a New Zealand secondary school may normally not be admitted under the Discretionary Entrance provisions before July in the following year.2

   (3) Otherwise, a person who will be at least 16 years of age and under 20 years of age on the first day of the semester of enrolment who does not meet the University Entrance standard, but
      (a) is a citizen or permanent resident of New Zealand or Australia3, and
      (b) has received secondary schooling to at least New Zealand Year 12 level (or its equivalent overseas) and earned at least 14 credits in an approved subject at Level 2 towards NCEA (or its equivalent), and
      (c) has met the literacy and numeracy standards required for University Entrance, or their equivalents,
      may apply for Discretionary Entrance.

   (4) Approval of an application for Discretionary Entrance is based on
      (a) the applicant’s submission
      (b) the proposed programme of study
      (c) the applicant’s past academic achievements, and
      (d) a statement from an adviser (such as a school principal or a University Student Recruitment Adviser) as to the applicant’s preparedness for university study.

   (5) A person who wishes to apply for Discretionary Entrance must do so as part of the formal enrolment application.

   (6) Applications for Discretionary Entrance are considered and decided by the Dean of the Faculty or School of Studies in which the applicant wishes to enrol, under delegated authority of the Academic Board.

   (7) If Discretionary Entrance is approved, the prescribed fee is payable by the student at enrolment.

   (8) A person whose application for Discretionary Entrance is declined by the relevant Dean may appeal the decision to the Admission Appeals Committee, which is a committee of Council.

   (9) A person whose application for Discretionary Entrance is declined by the Admission Appeals Committee may make a further appeal to the New Zealand Qualifications Authority.

   (10) A person studying at a New Zealand secondary school who is attempting to qualify for University Entrance may apply for Discretionary Entrance in the same year. Any person admitted under this regulation who does not subsequently meet the University Entrance standard during the period enrolled at the University will be required to withdraw from the University and may re-apply for admission at mid-year. Any papers passed during the
period enrolled at the University will not be credited to a qualification until a University Entrance qualification is gained.

7. **Special Admission**

   (1) Applicants are eligible to be considered for Special Admission if they will be at least 20 years of age on the first day of the semester for which they are applying to enrol.

   (2) In exceptional cases, an applicant who does not hold a university entrance qualification and who will not be 20 by the first day of the semester for which admission is sought, may apply for special admission. In assessing whether to grant special admission in exceptional cases, the primary focus will be on the applicant’s level of preparedness for university study.

   (3) Approval of an application for Special Admission is based on

      a) the applicant’s submission
      b) the proposed programme of study
      c) the applicant’s past academic achievements, and
      d) evidence of the applicant’s preparedness for university study.

   (4) A person who wishes to apply for Special Admission must do so as part of the formal enrolment application.

   (5) Applications for Special Admission are considered and decided by the Dean of the Faculty or School of Studies in which the applicant wishes to enrol, under delegated authority of the Academic Board.

   (6) If Special Admission is approved, the prescribed fee is payable by the student at enrolment.

   (7) A person whose application for Special Admission is declined by the relevant Dean may appeal the decision to the Admission Appeals Committee, which is a committee of Council.

8. **Admission at entrance level or with credit from previous study**

   (1) A person may qualify for admission at entrance level, or with credit, on the basis of

      a) having been awarded a qualification which is deemed to be equivalent to University Entrance
      b) having completed previous tertiary study.

   (2) A person who wishes to apply for admission under subsection 8(1) of this statute must do so as part of the formal enrolment application.

   (3) If admission at entrance level or with credit from previous tertiary study is approved, the prescribed fee is payable by the student at enrolment.

   (4) Applications for admission at entrance level or with credit from previous tertiary study are considered and decided by the Dean of the Faculty or School of Studies in which the applicant wishes to enrol, under delegated authority of the Academic Board.

   (5) A person whose application for admission under subsection 8(1) of this statute is declined by the relevant Dean may appeal the decision to the Admission Appeals Committee, which is a committee of Council.

   (6) A person whose application for admission at entrance level is declined by the Admission Appeals Committee may make a further appeal to the New Zealand Qualifications Authority.
9. **Delegation of powers**

   (1) The powers and authority of the Academic Board referred to in this statute have been delegated in certain matters under the *Delegation of Powers Statute 2008*.

**Notes:**

1. *The University of Waikato Certificate of Studies: English at Level 2 or Level 3 is recognised as meeting the literacy requirements of NCEA.*
2. *In special circumstances, the Chair of the New Zealand Vice-Chancellors’ Committee’s Sub-Committee on University Entrance may permit persons who do not fulfil section 6(3)(b) or 6(3)(c) of these regulations to apply for Discretionary Entrance.*
3. *Australian applicants’ most recent year of schooling must have been in New Zealand.*
4. *Amendments to these regulations are subject to approval by the NZVCC’s Committee on University Academic Programmes (CUAP).*
Criteria for Admission to Particular Qualifications

Part 1

Admission to Bachelors Degrees

1. Admission to the
   Bachelor of Arts (BA)
   Bachelor of Business Analysis (BBA)
   Bachelor of Communication Studies (BCS)
   Bachelor of Computing and Mathematical Sciences (BCMS)
   Bachelor of Electronic Commerce (BECom)
   Bachelor of Management Studies (BMS)
   Bachelor of Māori and Pacific Development (BMPD)
   Bachelor of Science (BSc)
   Bachelor of Science (Technology) (BSc(Tech))
   Bachelor of Social Sciences (BSocSc)
   Bachelor of Sport and Leisure Studies (BSpLS)
   Bachelor of Tourism (BTour) degrees

Applicants for the above degrees must fulfil the academic criteria listed below:

1.1 University Entrance
   Applicants who have achieved University Entrance through NCEA will be accepted into the degrees listed above.

1.2 Discretionary Entrance
   Applicants will normally be granted Discretionary Entrance if they have gained a total of at least 80 credits in NCEA at Level 2 in four subjects equivalent to the approved subjects for University Entrance in NCEA at Level 3, with a minimum grade of Merit in at least half of the achievement standards for each subject. Applicants must also have satisfied the numeracy and literacy requirements of University Entrance. Applications must be supported by the applicant’s school principal or a University Student Recruitment Adviser.

1.3 Special Admission
   Applicants will be considered on a case by case basis. Applicants 20 years old and over by the beginning of their programme of study will be accepted, except those that are clearly insufficiently prepared for academic study. Preference may be given to applicants who have successfully completed appropriate Waikato Pathways College bridging courses.

1.4 Admission at entrance level or with credit from previous study for
   Bachelor of Arts (BA)
   Bachelor of Māori and Pacific Development (BMPD)
   Bachelor of Science (BSc) in the School of Science and Engineering
   Bachelor of Science (Technology) (BSc(Tech))
   Bachelor of Social Sciences (BSocSc)
   Bachelor of Sport and Leisure Studies (BSpLS) degrees
1.4.1 Applicants will be considered on a case by case basis bearing in mind patterns of admission which have applied in previous years and the standing of the qualification in New Zealand.6,8

1.4.2 Admission from the University of Waikato Certificate of Attainment in Foundation Studies, or equivalent:
Applicants seeking admission with a Certificate of Attainment in Foundation Studies will be accepted into the qualifications listed above provided that they have achieved
(a) no less than a C grade in any paper, and
(b) a B grade or better in each of CAFS001 and CAFS002 to satisfy the minimum English language requirement for undergraduate study.
Applicants not satisfying these requirements will be assessed on a case by case basis.

1.4.3 Admission from the University of Waikato Certificate of University Preparation:
Applicants who have successfully completed the Certificate of University Preparation with no less than a C grade in any paper will be accepted into the qualifications listed above.
Applicants not satisfying this requirement will be assessed on a case by case basis.

1.4.4 Admission from the University of Waikato Te Tīmatanga Hou Programme:
Applicants who have successfully completed Te Tīmatanga Hou certificate with no less than a C grade in any paper will be accepted into the qualifications listed above.
Applicants who have successfully completed one semester of Te Tīmatanga Hou programme will be considered on a case by case basis.

1.5 Admission at entrance level or with credit from previous study for Bachelor of Business Analysis (BBA)
Bachelor of Communication Studies (BCS)
Bachelor of Computing and Mathematical Sciences (BCMS)
Bachelor of Electronic Commerce (BECom)
Bachelor of Management Studies (BMS)
Bachelor of Science (BSc) in the School of Computing and Mathematical Sciences
Bachelor of Tourism (BTour) degrees

1.5.1 Applicants will be considered on a case by case basis bearing in mind patterns of admission which have applied in previous years and the standing of the qualification in New Zealand.6,7

1.5.2 Admission from the University of Waikato Certificate of Attainment in Foundation Studies, or equivalent:
Applicants seeking admission with a Certificate of Attainment in Foundation Studies will be accepted into the qualifications listed above provided that they have achieved
(a) no less than a C grade in any paper, and
(b) a B grade or better in each of CAFS001 and CAFS002 to satisfy the minimum English language requirement for undergraduate study.
Applicants not satisfying these requirements will be assessed on a case by case basis.

1.5.3 Admission from the University of Waikato Certificate of University Preparation
Applicants who have successfully completed the Certificate of University Preparation and achieved an overall B grade average, with no less than a C grade in any paper, will be accepted into the qualifications listed above.
Applicants not satisfying this requirement will be assessed on a case by case basis.

1.5.4 Admission from the University of Waikato Te Tīmatanga Hou Programme
Applicants who have successfully completed Te Tīmatanga Hou certificate and achieved
(a) an overall B grade average, with no less than a C grade in any paper, and
(b) a B grade or better in TTHO021 and CUPR021
will be accepted into the qualifications listed above.
Applicants who have successfully completed one semester of Te Tīmatanga Hou programme will be considered on a case by case basis.

2. Admission to the
Bachelor of Computer Graphic Design (BCGD) degree
In addition to satisfying the requirements for achieving University Entrance, entry into the BCGD programme in the School of Computing and Mathematical Sciences is available only to applicants who are chosen by the School’s selection process. Applicants must have achieved a minimum of 14 credits in NCEA at Level 2 in Mathematics; in addition, applicants must submit a portfolio and attend an interview as part of the selection process.

Bachelor of Music (BMus) degree
In addition to satisfying the requirements for achieving University Entrance, all applicants for the BMus must have
(a) at least 20 credits in NCEA at Level 2 in Music, or
(b) at least 14 credits in NCEA at Level 3 in Music, or
(c) a Grade 5 Theory pass or better in the Australian Music Education Board, Trinity College or Royal College of Music examinations, or
(d) a music qualification assessed as equivalent.
Entry to the Performance stream will, in addition to the above criteria, require successful completion of an audition.

Bachelor of Social Work (BSW) degree
In addition to satisfying the requirements for achieving University Entrance, all applicants must complete and return a Police Clearance Check (INCIS) form. The University will request a clearance check from the Ministry of Justice for each applicant in order to assess, against the University’s and Social Worker Registration Board’s criteria, whether the applicant is a fit and proper person to practice Social Work.
Selection for entry to the Degree is limited by the number of places available in the programme and papers. Applicants will be interviewed by at least two members of the selection panel, including the Programme Coordinator.
Admission to Teacher Education Programmes
In addition to satisfying the requirements for achieving University Entrance, entry to School of Education programmes in teacher education is available only to applicants who are chosen by the School’s selection panels.

Applicants to the above programmes must satisfy the requirements for admission to university listed below:

2.1 **University Entrance**

2.4.2 **Admission from the University of Waikato Certificate of Attainment in Foundation Studies, or equivalent**
Applicants seeking admission with a Certificate of Attainment in Foundation Studies will be accepted into the BMus provided that they are chosen through the selection process as set out in section 2 of these regulations and have achieved
(a) no less than a C grade in any paper, and
(b) a B grade or better in each of CAFS001 and CAFS002 to satisfy the minimum English language requirement for undergraduate study.
Applications not satisfying these requirements will be assessed on a case by case basis.

2.4.3 **Admission from the University of Waikato Certificate of University Preparation**
Applicants who have successfully completed the Certificate of University Preparation with no less than a C grade in any paper will be accepted provided that they meet the additional criteria for the BMus as set out in section 2 of these regulations.
Applications not satisfying this requirement will be assessed on a case by case basis.
2.4.4 **Admission from the University of Waikato Te Tīmatanga Hou Programme**

Applicants who have successfully completed Te Tīmatanga Hou certificate with no less than a C grade in any paper will be accepted provided that they meet the additional criteria for the BMus as set out in section 2 of these regulations.

2.4.5 Applicants who have successfully completed one semester of Te Tīmatanga Hou programme, and who have met the additional criteria for the BMus as set out in section 2 of these regulations, will be considered on a case by case basis.

2.5 **Admission at entrance level or with credit from previous study for Bachelor of Computer Graphic Design (BCGD) degree**

**Admission to Teacher Education Programmes**

2.5.1 Applicants will be considered on a case by case basis bearing in mind patterns of admission which have applied in previous years and the standing of the qualification in New Zealand.

2.5.2 **Admission from the University of Waikato Certificate of Attainment in Foundation Studies, or equivalent**

Applicants seeking admission with a Certificate of Attainment in Foundation Studies will be accepted into the qualification provided that they are chosen through the selection process for their intended qualification as set out in section 2 of these regulations and have achieved:

(a) no less than a C grade in any paper, and

(b) a B grade or better in each of CAFS001 and CAFS002 to satisfy the minimum English language requirement for undergraduate study.

Applicants not satisfying these requirements will be assessed on a case by case basis.

2.5.3 **Admission from the University of Waikato Certificate of University Preparation**

Applicants who have successfully completed the Certificate of University Preparation and achieved an overall B grade average, with no less than a C grade in any paper, will be accepted provided that they are chosen through the selection process for their intended qualification as set out in section 2 of these regulations.

Applicants not satisfying this requirement will be assessed on a case by case basis.

2.5.4 **Admission from the University of Waikato Te Tīmatanga Hou Programme**

Applicants who have successfully completed Te Tīmatanga Hou certificate and achieved an overall B grade average, with no less than a C grade in any paper, will be accepted provided that they are chosen through the selection process for their intended qualification as set out in section 2 of these regulations.

Applicants who have successfully completed one semester of Te Tīmatanga Hou programme, and who have met the additional criteria for their intended qualification as set out in section 2 of these regulations, will be considered on a case by case basis.
2.6 Admission at entrance level or with credit from previous study for Bachelor of Social Work (BSW) degree.

2.6.1 Applicants will be considered on a case by case basis bearing in mind patterns of admission which have applied in previous years and the standing of the qualification in New Zealand.

2.6.2 Credit of social work theory and practice papers from previous study will be available only within five years of completion.

2.6.3 Admission from the University of Waikato Certificate of Attainment in Foundation Studies, or equivalent

Applicants seeking admission with a Certificate of Attainment in Foundation Studies will be accepted into the BSW provided that they are chosen through the selection process as set out in section 2 of these regulations and have achieved
(a) no less than a C grade in any paper, and
(b) a B grade or better in each of CAFS001 and CAFS002 to satisfy the minimum English language requirement for undergraduate study.

Applicants not satisfying these requirements will be assessed on a case by case basis.

2.6.4 Admission from the University of Waikato Certificate of University Preparation

Applicants who have successfully completed the Certificate of University Preparation with no less than a C grade in any paper will be accepted into the BSW provided that they are chosen through the selection process as set out in section 2 of these regulations.

Applicants not satisfying this requirement will be assessed on a case by case basis.

Applicants who have successfully completed Te Tīmatanga Hou certificate with no less than a C grade in any paper will be accepted into the BSW provided that they are chosen through the selection process as set out in section 2 of these regulations.

Applicants who have successfully completed one semester of Te Tīmatanga Hou programme, and who have met the additional criteria for the BSW as set out in section 2 of these regulations, will be considered on a case by case basis.

3. Admission to the Bachelor of Engineering (BE) degree

3.1 University Entrance

3.1.1 Admission to the BE in the Specified Programmes of Electronic Engineering and Engineering Science

Entry into the BE in the above specified programmes will be guaranteed to applicants who gain University Entrance, including a minimum of 18 credits or more in NCEA at Level 3 in one of either Mathematics with Calculus or Statistics and Modelling. Applicants must also gain at least 14 credits in NCEA at Level 3 in Physics.
3.1.2 Admission to the BE in the Specified Programmes of Biochemical Engineering, Materials and Process Engineering and Mechanical Engineering

Entry into the BE in the above specified programmes will be guaranteed to applicants who gain University Entrance, including a minimum of 18 credits or more in NCEA at Level 3 in one of either Mathematics with Calculus or Statistics and Modelling. Applicants must also gain at least 14 credits in NCEA at Level 3 in both Chemistry and Physics.

3.1.3 Admission to the BE in the Specified Programme of Software Engineering

Entry into the BE in the above specified programme will be guaranteed to applicants who gain University Entrance, including a minimum of 18 credits or more in NCEA at Level 3 in one of either Mathematics with Calculus or Statistics and Modelling. Applicants must also gain at least 14 credits in NCEA at Level 3 in two other approved subjects for University Entrance.

3.1.4 Applicants who gain a total of 120 credits, with an average grade of Merit, in their best five NCEA Level 3 subjects approved for University Entrance may apply to the Dean of Computing and Mathematical Sciences and the Dean of Science and Engineering for an exemption of up to 120 points at 100 level towards a specified programme for the BE.

3.2 Special Admission

Applicants with evidence of successfully completed post-secondary study will normally be accepted. This includes applicants who have successfully completed the Te Tīmatanga Hou programme or another appropriate Waikato Pathways College bridging course.

3.3 Admission at entrance level or with credit from previous study

3.3.1 Applications will be considered on a case by case basis bearing in mind patterns of admission which have applied in previous years and the standing of the qualification in New Zealand.

3.3.2 Admission from the University of Waikato Certificate of Attainment in Foundation Studies, or equivalent

3.3.2.1 Admission to the BE in the Specified Programmes of Electronic Engineering and Engineering Science

Applicants who have successfully completed the Certificate of Attainment in Foundation Studies and achieved
(a) an overall B grade average, including
(b) a B grade in CAFS011 and
(c) a B grade in CAFS004 or CAFS005
(d) at least a C grade in every other paper and
(e) a B grade in CAFS001 and CAFS002 to satisfy the minimum English language requirement for undergraduate study will be accepted into this specified programme. Applicants not satisfying these requirements will be assessed on a case by case basis.
3.3.2.2 Admission to the BE in the Specified Programmes of Biochemical Engineering, Materials and Process Engineering and Mechanical Engineering

Applicants who have successfully completed the Certificate of Attainment in Foundation Studies and achieved:
(a) an overall B grade average, including
(b) a B grade in CAFS010 and
(c) a B grade in CAFS011 and
(d) at least a C grade in every other paper and
(e) a B grade in CAFS001 and CAFS002 to satisfy the minimum English language requirement for undergraduate study
will be accepted into this specified programme. Applicants not satisfying these requirements will be assessed on a case by case basis.

3.3.2.3 Admission to the BE in the Specified Programme of Software Engineering

Applicants who have successfully completed the Certificate of Attainment in Foundation Studies and achieved:
(a) an overall B grade average, including
(b) a B grade in CAFS004 or CAFS005 and
(c) at least a C grade in every other paper; and
(d) a B grade in CAFS001 and CAFS002 to satisfy the minimum English language requirement for undergraduate study
will be accepted into this specified programme. Applicants not satisfying these requirements will be assessed on a case by case basis.

3.3.3 Admission from the University of Waikato Certificate of University Preparation

3.3.3.1 Admission to the BE in the Specified Programmes of Electronic Engineering and Engineering Science

Applicants who have successfully completed the Certificate of University Preparation and achieved an overall B grade average, including a B grade in CUPR007, a B grade in CUPR008, and at least a C grade in every other paper will be accepted. Applicants not satisfying these requirements will be assessed on a case by case basis.

3.3.3.2 Admission to the BE in the Specified Programmes of Biochemical Engineering, Materials and Process Engineering and Mechanical Engineering

Applicants who have successfully completed the Certificate of University Preparation and achieved an overall B grade average, including a B grade in CUPR006, a B grade in CUPR007, and at least a C grade in every other paper, will be accepted. Applicants not satisfying these requirements will be assessed on a case by case basis.
3.3.3.3 Admission to the BE in the Specified Programme of Software Engineering
Applicants who have successfully completed the Certificate of University Preparation and achieved an overall B grade average, including a B grade in CUPR008 and at least a C grade in every other paper, will be accepted.5 Applicants not satisfying these requirements will be assessed on a case by case basis.

3.3.4 Admission from the University of Waikato Te Tīmatanga Hou Programme
3.3.4.1 Admission to the BE in the Specified Programmes of Electronic Engineering and Engineering Science
Applicants who have successfully completed Te Tīmatanga Hou certificate and achieved an overall B grade average, including a B grade in TTHO019, a B grade in each of TTHO017 and CUPR024, and at least a C grade in every other paper, will be accepted.5 Applicants who have successfully completed one semester of Te Tīmatanga Hou programme will be considered on a case by case basis.

3.3.4.2 Admission to the BE in the Specified Programmes of Biochemical Engineering, Materials and Process Engineering and Mechanical Engineering
Applicants who have successfully completed Te Tīmatanga Hou certificate and achieved an overall B grade average, including a B grade in each of TTHO017 and CUPR024, a B grade in each of TTHO019 and CUPR025, and at least a C grade in every other paper, will be accepted.5 Applicants who have successfully completed one semester of Te Tīmatanga Hou programme will be considered on a case by case basis.

3.3.4.3 Admission to the BE in the Specified Programme of Software Engineering
Applicants who have successfully completed Te Tīmatanga Hou certificate and achieved an overall B grade average, including a B grade in each of TTHO017 and CUPR024, and at least a C grade in every other paper, will be accepted.5 Applicants who have successfully completed one semester of Te Tīmatanga Hou programme will be considered on a case by case basis.

4. Admission to all Law papers and programmes10
The School of Law Admissions Committee will have regard to equity considerations in making its decisions, but in all cases those offered places will have demonstrated their academic preparedness for the School’s programme of study. The School does not set aside places for specific groups of applicants.

4.1 University Entrance2
There are a limited number of places in the Law School and a selection process applies. Each applicant will be considered by the School of Law Admissions Committee on a case by case basis. Factors such as academic results in NCEA at Level 3 and other forms of assessment, as well as school
and community involvement and achievements will be taken into account. Applicants will be required to provide supporting evidence of results and achievements with their written statement. All applicants will be required to have satisfied the requirements for achieving University Entrance, including NCEA Level 1 numeracy and Level 2 literacy requirements.

4.2 Discretionary Entrance

Applicants will normally be granted Discretionary Entrance if they have gained a total of at least 80 credits in four subjects at Level 2 in the NCEA equivalent to approved subjects at Level 3 in the NCEA, with a minimum grade of Merit in at least half of the achievement standards for each subject. Applicants must also have satisfied the numeracy and literacy requirements for University Entrance. Applications must be supported by the applicant’s school principal or a University Student Recruitment Adviser, and be approved by the School of Law Admission Committee which will also consider the applicant’s personal statement and their academic preparedness for university law study.

4.3 Special Admission

Applicants will be considered for Special Admission on a case by case basis, having regard to their level of schooling, other relevant study, interests and expertise, experience and skills, and other such information as is available with respect to their academic preparedness, including, where appropriate, the completion of Waikato Pathways College bridging courses.

The School will afford priority to
- applicants with law-related experience
- applicants who have successfully completed a programme of degree level study at a tertiary institution.

4.4 Admission at entrance level or with credit from previous study

4.4.1 Applicants will be considered on a case by case basis bearing in mind patterns of admission which have applied in previous years and the standing of the qualification in New Zealand.

4.4.2 Admission from the University of Waikato Certificate of Attainment in Foundation Studies, or equivalent

Applicants who have successfully completed the Certificate of Attainment in Foundation Studies and achieved at least a B grade average overall, with a B grade or higher in CAFS003 will have guaranteed entry into the Bachelor of Laws programme. Other students are encouraged to apply and will be considered by the School of Law Admissions Committee on a case by case basis, taking account of their level of academic achievement.

4.4.3 Admission from the University of Waikato Certificate of University Preparation

Applicants who have successfully completed the Certificate of University Preparation with at least a B grade average overall, with B grades or higher in CUPR001 and CUPR002 or CUPR021 and CUPR022 and subsequently B grades or higher in all their B semester non-Law degree level papers, will have guaranteed entry into the Bachelor of Laws programme.

Other students are encouraged to apply and will be considered by the School of Law Admissions Committee, on a case by case basis, taking account of their level of academic achievement.
4.4.4 Admission from the Te Tīmatanga Hou programme

Applicants who have successfully completed Te Tīmatanga Hou certificate and achieved at least a B grade average overall, with B grades or higher in TTHO021 and CUPR021, will have guaranteed entry into the Bachelor of Law programme. Other students are encouraged to apply and will be considered by the School of Law Admissions Committee, on a case by case basis, taking account of their level of academic achievement, and the recommendation of the Director of the Waikato Pathways College.

Part 2
Admission to Certificates and Diplomas

5. In addition to the admission criteria set out in the relevant qualification regulations, applicants for certificates and diplomas in the following qualifications must meet specific criteria for admission:

5.1 Postgraduate Certificate in School Principalship (PGCert(SchPrinc))
Applicants must have at least three years full-time equivalent teaching experience.

5.2 Postgraduate Certificate in Tertiary Teaching (PGCert(TertTchg))
Applicants must have at least two years full-time equivalent teaching experience in a tertiary setting.

5.3 Postgraduate Diploma in Interpreting and Translating Māori (PGDip(Int&Trans))
Applicants must satisfy the Dean of the School of Māori and Pacific Development that they have a high standard of proficiency in English and Māori.

Part 3
Re-entry for Returning Students

6. The right to automatic re-entry applies to re-enrolment in the qualification in which students were enrolled in their most recent year of enrolment.

7. Students who gain unrestricted passes in papers worth at least half of the total points they are enrolled in for the year will gain automatic re-entry to their programmes, except in the case of re-entry to the qualifications listed below.

8. Re-entry to Law Programmes

8.1 Students who gain unrestricted passes in papers worth at least half of the total points they are enrolled in and have not failed more than the equivalent of 20 points in Law papers will gain automatic re-entry to their programme.

8.2 The Dean has authority to determine on a case by case basis whether candidates who fail Law papers in a given year may repeat those papers, and whether they may enrol concurrently for more advanced papers in Law.

9. Re-entry to Teacher Education programmes

9.1 Students who gain unrestricted passes in papers worth at least half of the total points they are enrolled in and who satisfactorily complete the professional practice requirements will gain automatic re-entry to their programme.
9.2 Returning students who wish to transfer between teacher education streams will need permission from the Dean of Education.

10. **Re-entry to the Bachelor of Engineering and Bachelor of Science (Technology)**
Students who gain unrestricted passes in either at least 100 points, in the case of full-time students, or in 80% of points attempted, in the case of part-time students, will gain automatic re-entry to their programme.

11. **Re-entry to conjoint degree programmes**
To be eligible for re-entry to the conjoint degree programme students must meet the re-entry requirements for each of the component degrees and satisfy the Dean(s) of the Faculty and/or School(s) of Studies that their academic performance is of a good standard.

---

**Part 4**

**Admission for Transferring Students**

12. Students wishing to transfer from one qualification to another need to meet the general requirements for re-entry for returning students listed in section 7 of these regulations.

13. Additional criteria apply in the case of transfer into the following qualifications.

14. **Transfer into the Bachelor of Business Analysis, Bachelor of Communication Studies, Bachelor of Electronic Commerce, Bachelor of Management Studies and Bachelor of Tourism degrees**
Students will not normally be considered unless they have successfully completed a full-time year of study and obtained a minimum B average.

15. **Transfer into Law programmes**

15.1 The School Admissions Committee will have regard to equity considerations in making its decisions, but in all cases those offered places will have demonstrated their academic preparedness for the School’s programme of study. The School does not set aside places for specific groups of applicants.

15.2 Students will be considered for transfer from another degree or tertiary institution on a case by case basis. Preference will be given to those who obtain the highest grades and whose performance provides evidence of literacy.

15.3 Those who have completed a first degree may apply for exemption from the non-Law requirements of the LLB and will be considered for admission to Law 1 and Law 2 concurrently.

16. **Transfer into the Bachelor of Sport and Leisure Studies**

16.1 There are a limited number of places available for transferring students within the BSpoLS degree and this may vary from year to year.

16.2 Students will be considered for transfer into the BSpoLS degree by the Director of the BSpoLS Programme on a case by case basis. Preference will be given to candidates who have successfully completed a full-time year of study and obtained a B minimum average.

17. **Transfer into Teacher Education programmes**

17.1 Entry to the School of Education programmes in teacher education is available only to applicants who are chosen by the School’s selection panels and who satisfy the requirements for admission to university.
17.2 Students will be considered for transfer from another qualification or tertiary institution by the relevant Programme Selection Committee on a case by case basis.

Part 5
Exclusion for Unsatisfactory Progress from Particular Papers

18. Students who have failed a paper, or any equivalent or substantially similar paper, on a second or subsequent enrolment will be excluded from the paper and will be ineligible to re-enrol in that paper.

Part 6
Appeals

19. A person who
(a) is qualified for admission to the university but who is not accepted into his or her choice of qualification, or
(b) fails to meet the criteria for re-entry to their qualification, or
(c) is excluded from a paper
may apply to the Dean of the Faculty or School of Studies in which the person wishes to enrol for a reconsideration of the Dean’s decision.

20. A person whose application for reconsideration is declined by the relevant Dean may make a further appeal to the Admission Appeals Committee.

21. An appeal, comprising a written statement of the circumstances of the appeal, together with supporting evidence, if available, must be submitted by the student to the Director of the Student and Academic Services Division not more than seven days after the date on which notification of the relevant decision is received.

22. A decision by the Admission Appeals Committee is notified in writing, and is final.

Notes:
1. Many of the degrees offered at the University of Waikato have prerequisites on their core papers. Applicants who have not achieved specified prerequisites through their study in NCEA at Level 2 and Level 3 will be required to take additional papers or foundation courses in order to satisfy these prerequisites. Applicants in this situation are advised that not all papers undertaken may count towards the completion of the degree and that the programme of study may take an additional period of time.
2. Applicants who have achieved an equivalent to New Zealand University Entrance through a qualification other than NCEA at Level 3 will have their admission assessed on a case by case basis.
3. Applicants who have achieved an equivalent to Discretionary Entrance through a qualification other than NCEA at Level 2 will have their admission assessed on a case by case basis.
4. Applicants who have achieved an equivalent to the University of Waikato Certificate of Foundation Studies will have their admission assessed based on an approved guaranteed credit arrangement or on a case by case basis.
5. Many of the degrees offered at the University of Waikato have prerequisites on their core papers. Applicants who have not achieved specified prerequisites through their Foundation Studies programme will be required to take additional papers or
foundation courses in order to satisfy these prerequisites. Applicants in this situation are advised that not all papers undertaken may count towards the completion of the degree and that the programme of study may take an additional period of time.

6. All applicants for the BA, BCGD, BCMS, BMPD, BMus, BSc (in the School of Computing and Mathematical Sciences), BSoSc, BSplS, and BSW, whose admission is on the basis of study completed overseas, where the medium of instruction is not English, are required to provide evidence of a satisfactory level of competence in the use of English language. A TOEFL score of 550 (with at least 5 on the Test of Written English) or an IELTS score of 6.0 (with at least 6.0 in the written band) or above is considered to be evidence of such competence. Other evidence is considered on a case by case basis.

7. All applicants for the BBA, BCS, BECom, BMS, and BTour whose admission is on the basis of study completed overseas, where the medium of instruction is not English, are required to provide evidence of a satisfactory level of competence in the use of English language. A TOEFL score of 550 (with at least 5 on the Test of Written English) or an IELTS score of 6.0 (with no less than 6.0 in any band) or above is considered to be evidence of such competence. Other evidence is considered on a case by case basis.

8. All applicants for the BE, BSc (in the School of Science and Engineering), and the BSc(Tech) whose admission is on the basis of study completed overseas, where the medium of instruction is not English, are required to provide evidence of a satisfactory level of competence in the use of English language. A TOEFL score of 550 or an IELTS score of 6.0 (with no less than 6.0 in any band) is considered to be evidence of such competence. Other evidence is considered on a case by case basis.

9. All applicants to Teacher Education programmes whose admission is on the basis of study completed overseas, where the medium of instruction is not English, are required to provide evidence of a satisfactory level of competence in the use of English language. A TOEFL score of 600 (with at least 5 on the Written Test of English) or an IELTS score of 6.5 (with at least 6.0 in the written band) or above is considered to be evidence of such competence. Other evidence is considered on a case by case basis.

10. All applicants to the School of Law must provide evidence of a satisfactory level of competence in the use of the English language. 14 credits in NCEA at Level 3 in English, 18 credits in NCEA at Level 2 in English, a TOEFL score of 600 (with at least 5 on the Test of Written English) or an IELTS score of 6.5 (with at least 6.0 in the written band) or above is considered to be evidence of such competence. Other evidence is considered on a case by case basis.

11. Amendments to these regulations are subject to approval by the NZVCC’s Committee on University Academic Programmes (CUAP).
Limitations Statute

Limitations on enrolments are allowed under Section 224(5) of the Education Act 1989 where the Council is satisfied that it is necessary to do so because of insufficiency of staff, accommodation or equipment. The Council may then determine the maximum number of students who may be enrolled in a particular programme or paper in a particular teaching period. The Council has delegated this authority to approve limitations to the Academic Board.

Enrolment

Applications to Enrol

Any person who wishes to enrol at the University must submit an application to enrol by the relevant deadline. Applications received after the deadline will still be considered. Students should note that places in some papers will be limited and that preference will be given to applications received by the appropriate deadlines. Application forms are available from the Student Information Centre in the Gateway building, or online. Academic advice is available through the individual College, Faculty or School of Studies.

New Students

Domestic students who have never been enrolled at the University of Waikato should return their applications to the University by 5.00pm on Monday 1 December 2008 for Summer School 1 papers and A semester or full-year papers. Friday 26 June 2009 for students enrolling in B semester papers only.

Domestic applications will still be considered after these dates.

International students who have never been enrolled at the University of Waikato should return their applications to the University by 5.00pm on Monday 1 December 2008 for Summer School 1 papers and A semester or full-year papers. Friday 1 May 2009 for students enrolling in B semester papers only.

Applicants will be advised whether they have gained a place and how to complete their enrolment.

Continuing and Returning Students

Students who have previously enrolled at the University of Waikato should return their applications to the University by 5.00pm on Monday 1 December 2008 for Summer School 1 papers. Friday 16 January 2009 for A semester or full-year papers. Friday 26 June 2009 if enrolling for B semester papers only.

Enrolment Dates

Enrolment is not complete until a signed enrolment agreement confirming the intended method of payment of fees option has been received by the University. Students must sign and return their enrolment agreement or accept online by Friday 19 December 2008 for Summer School 1 papers. Friday 27 February 2009 for A semester and full-year papers. Friday 10 July 2009 for B semester papers only.

A $100.00 late enrolment charge may be applied after these dates. Late enrolments will not normally be accepted after Friday 9 January 2009 for Summer School 1 papers. Friday 13 March 2009 for A semester and full-year papers. Friday 24 July 2009 for B semester papers only.
Change of Enrolment Regulations

1. Title
   These are the Change of Enrolment Regulations 2003.

2. Date of effect
   These regulations are effective from 1 January 2004.

3. Definitions
   In these regulations
   change of enrolment means any of the following changes to the programme of
   study in which a student has originally enrolled for a given teaching period:
   • the addition of a paper, with payment of the prescribed fees
   • the deletion of a paper, with refund of the prescribed fees (the paper is de-
     leted from the student’s academic record)
   • withdrawal from a paper, without refund of any fees (the paper remains
     on the student’s academic record, annotated as ‘withdrawn’)
   • change of qualification, major or specified programme.

   iWaikato means the computer system, accessible to enrolled students, which
   enables them to apply for change of enrolment on the internet.

4. Application
   These regulations apply to papers at 0, 100, 200, 300, 400, 500 and 700 levels.
   Note: Policies and procedures with respect to change of enrolment for 800 (MPhil)
   and 900 (doctoral) level programmes are available from the Postgraduate Studies
   Office.

5. Fees
   The fees referred to in these regulations are available online at http://

6. Teaching periods
   The teaching periods referred to in these regulations are defined on page 10 of the
   University of Waikato Calendar.

7. Programme approval
   Any change of enrolment constitutes a change to a programme of study and
   requires the approval of the College, Faculty or School of Studies.

8. Procedure for change of enrolment
   (1) Applications for change of enrolment must be submitted to the College,
       Faculty or School of Studies that the student is enrolled in for consideration.
       They may be submitted either through iWaikato or on an Application to
       Change Enrolment form, available from the Gateway and the College, Faculty
       or Schools of Studies.

   (2) Absence from classes or failure to submit items for assessment does not
       constitute withdrawal from a paper. A student who does not withdraw from
       a paper using the procedures outlined in these regulations remains enrolled
       for the paper and remains liable for any prescribed fees.

   (3) Attendance at classes and submission of items for assessment does not
       constitute enrolment in that paper.
9. **Timeframe for change of qualification, major or specified programme**

Provided that no changes are made to the selection of papers, a student may apply
to change a qualification, major or specified programme at any time.

10. **Deadlines for adding, and deleting papers**

(1) An application to add a paper (with payment of the prescribed fees), or to
delete a paper (with a refund of the prescribed fees) must be submitted to
the College, Faculty or School of Studies or through iWaikato by the
following deadlines:

<table>
<thead>
<tr>
<th>Type of Paper</th>
<th>Deadline</th>
</tr>
</thead>
<tbody>
<tr>
<td>Summer School 1 and 2 papers and C, D etc. papers with teaching periods shorter than 17 weeks</td>
<td>5.00pm on the first Friday of the relevant teaching period</td>
</tr>
<tr>

</tr>
<tr>
<td>C, D etc. papers with teaching weeks of 17 weeks or longer</td>
<td>5.00pm on the second Friday of the relevant teaching period</td>
</tr>
</tbody>
</table>

(2) Where subjects provide for different levels of proficiency on first enrolment
(eg Mathematics, languages), a student may apply to transfer, with a transfer
of fees, from one paper to a closely related paper in the same subject up until
the relevant deadline for withdrawal listed in section 11 of these regulations.

11. **Withdrawal from papers (without a refund of the tuition fee)**

(1) Unless exceptional circumstances apply (as provided for under section 12 of
these regulations), a student who withdraws from a paper after the deadline
for deletion (see section 10 of these regulations) is not entitled to a refund of
the fees for that paper; if the fees have not been paid, the student remains
liable for them.

(2) A student may withdraw from an undergraduate paper (0, 100, 200, 300, or
400 levels and School of Education 700 level) after the deadline for deletion
(see section 10 of these regulations) up until the following dates:

(3) A student may withdraw from a graduate paper (500 or 700 level, excluding School of Education 700 level) after the deadline for deletion (see section 10 of these regulations) at any time before the start of the examination or, if the paper is internally assessed, at any time before the due date for the final item of assessment.

12. **Late deletion or withdrawal under exceptional circumstances**

Note: Part 4 of the Assessment Regulations 2005 sets out the University’s provisions for special consideration in assessment. Students considering withdrawal from papers because of exceptional circumstances beyond their control are encouraged to seek advice first from their College, Faculty or School of Studies, or from the Assessment Office in the Gateway, about whether they might be entitled to special consideration under the Assessment Regulations 2005.

(1) If, after the deadline for deletion or withdrawal, a student considers that he or she is unable to complete a paper because of exceptional circumstances beyond his or her control, the student may apply in writing to the Director of Student and Academic Services for late deletion or withdrawal.

(2) The application must be submitted to the Director of Student and Academic Services and must include an account, with appropriate evidence if available, of the circumstances that prompted the application.

(3) Applications under this section are considered and decided by the Director of Student and Academic Services.

(4) If the application is approved, the Director of Student and Academic Services may also approve, at his or her discretion, a credit of some or all of the student’s fees.

13. **Appeals**

(1) A student may appeal against any decision taken under these regulations.

(2) An appeal, comprising a written statement of the circumstances of the appeal, and supporting evidence if available, must be submitted in writing to the Director of Student and Academic Services not more than seven days after the date on which the student receives notification of the relevant decision. Late appeals may be accepted at the Director’s discretion.

(3) Appeals under this section are considered and decided by the Deputy Vice-Chancellor, or his nominee, by delegated authority of the Academic Board.

(4) A decision by the Deputy Vice-Chancellor is notified in writing and is final.
Regulations Governing Payment of Fees and Charges

Fees and Charges Payable

1. A student is deemed enrolled and liable for payment of fees upon signing and acceptance of an Enrolment Agreement, Notification of Change, or other document(s) by which acceptance into a paper or papers is formally agreed.

2. Every person must pay fees and charges (as set out in the Table of Fees and Charges in the University of Waikato Calendar) according to arrangements and terms agreed at the time of enrolment in the Enrolment Agreement or Notification of Change.

3. Students who do not attend a paper in which they have formally accepted a place will be liable for payment of the fees for that paper, unless the withdrawal procedures as detailed in the *Change of Enrolment Regulations 2003* on pages 96-98 are followed.

4. Unless the Director of Finance determines otherwise, where a student defaults on a payment and does not pay the outstanding amount within 28 days of the due date that student’s enrolment will be cancelled.

5. Cancellation of a student’s enrolment does not discharge any outstanding debt.

6. Unless special arrangements are agreed by the Director of Finance, the following penalties apply in addition to the cancellation of the student’s enrolment while a debt remains outstanding:
   (a) the student is not entitled to use the Library, attend lectures, participate in laboratory classes, or otherwise make use of university facilities
   (b) the student’s academic results are withheld
   (c) the student may not re-enrol at this university
   (d) the student is not entitled to have his or her academic record transferred to any other institution
   (e) the award of any qualification is deferred
   (f) the student’s outstanding debt may be referred to a debt recovery agency for collection. The University also reserves the right to recover any additional costs in relation to this debt collection from the student.

7. A student whose enrolment is cancelled for reasons of non-payment of fees may subsequently apply for reinstatement of enrolment, provided
   (a) the application is submitted to the Director of Finance within four weeks of the date of the cancellation
   (b) all outstanding fees, charges, and surcharges are paid before or at the time that the application is submitted, and
   (c) the service charge for the reinstatement of enrolment after cancellation, as prescribed in the Table of Fees and Charges, is paid.

8. An enrolment that is reinstated under this section is deemed to have been continuous.

9. The tuition and resource fees for a particular paper fall due on the payment date for the semester in which teaching for that paper starts, or, where beginning outside of these semesters, the first day of the teaching period of the particular paper.
Payment by Semester

10. These provisions for payment of tuition and resource fees by semester do not apply to students who pay by Student Loan.

11. Unless the tuition and resource fees are being paid by Student Loan, a student who enrolls for more than one semester may elect to pay tuition and resource fees by semester.

12. Payment dates are prescribed for each of the semesters, namely the S (Summer School 1) semester, A semester and B semester.

13. The tuition and resource fees for a particular paper fall due on the payment date for the semester in which teaching for that paper starts.

14. Students who have made arrangements to pay by semester and who discontinue any of their papers remain liable for all payments as they fall due, unless they submit an application to delete the relevant paper by the prescribed deadline (see the Change of Enrolment Regulations 2003 on pages 96-98).

15. All fees and charges other than tuition and resource fees fall due as part of the students’ first payment.

16. A surcharge of 10% or $100, whichever is lower, will be levied on any fees that are outstanding at the start date of the semester. This applies to Summer School 1, A and B Semester start dates respectively.

Appeals

17. A student may appeal to the Vice-Chancellor against any decision by the Director of Finance under these regulations.
Table of Fees and Charges

Students should also refer to the Regulations Governing Payment of Fees and Charges on page 99.

**Fees**

**Tuition and Resource Fees**

Domestic tuition and resource fees are available from the Student Information Centre in the Gateway and are published in the online Catalogue of Papers at http://papers.waikato.ac.nz. International Students

The following information is a general guide for international students wishing to enrol at the University of Waikato. Further information and application forms are available from Waikato International, first floor, Student Union Building, Hamilton campus.

Telephone: +64 7 838-4439. Fax: +64 7 838-4269. Email: international@waikato.ac.nz. Website: http://www.waikato.ac.nz/international.

Code of Practice

The University of Waikato has agreed to observe and be bound by the Code of Practice for the Pastoral Care of International Students published by the Minister of Education. Copies of the Code of Practice are available on request from this institution or from the New Zealand Ministry of Education website at http://www.minedu.govt.nz. Students should refer to the Code of Practice for their specified responsibilities and to the International Student Handbook for University procedures and recommendations.

Admission

All students are required to meet the entry requirements for admission, as set out in the Admission Statute 2008 on pages 72-74.

International students must apply for admission on the Application to enrol form for new international students, available online or from Waikato International.

Permanent residents of Australia and New Zealand, Australian citizens, and students from the Cook Islands, Tokelau or Niue who are New Zealand citizens, are treated as New Zealand students and do not need to apply for admission as international students.

Enquiries should be directed to the Student and Academic Services Division in the Gateway.

Intending applicants should note the following general points:

1. All international students enrolling in an undergraduate programme must hold as a minimum requirement an equivalent university entrance qualification; for example, three passes at grade C or better in the GCE 'A' level examinations. Students who have achieved an equivalent to New Zealand University Entrance through a qualification other than NCEA at Level 3 will have their admission assessed on a case by case basis. Please contact the Student and Academic Services Division for detailed guidelines on admission to the University of Waikato.

2. Applicants whose first language is not English are required to provide satisfactory evidence of English language proficiency, generally in the form of an IELTS or TOEFL examination score. Scores can vary according to the qualification sought.

Admission to BA, BCGD, BCMS, BMPD, BMus, BSc (in the School of Computing and Mathematical Sciences), BSoCSc and BSpLS

The following minimum scores are considered to be evidence of such competence:

- a TOEFL score of 550 (with at least 5 on the Test of Written English), or
- an IELTS score of 6.0 (with at least 6.0 in the written band), or
- an iBT (Internet Based TOEFL) score of 79-80 with a Writing score of 20.

All other evidence is considered on a case by case basis.
Admission to BCS, BECom, BMS and BTour

The following minimum scores are considered to be evidence of such competence:

• a TOEFL score of 550 (with at least 5 on the Test of Written English), or
• an IELTS score of 6.0 (with no less than 6.0 in any band), or
• an iBT (Internet Based TOEFL) score of 79-80 with a Writing score of 20.

All other evidence is considered on a case by case basis.²

Admission to BE, BSc (in the School of Science and Engineering) and BSc(Tech)

The following minimum scores are considered to be evidence of such competence:

• a TOEFL score of 550, or
• an IELTS score of 6.0 (in all sections of the test), or
• an iBT (Internet Based TOEFL) score of 79-80 with a Writing score of 20.

All other evidence is considered on a case by case basis.²

Admission to BTchg and LLB

The following minimum scores are considered to be evidence of such competence:

• a TOEFL score of 600 (with at least 5 on the Test of Written English), or
• an IELTS score of 6.5 (with at least 6.0 in the written band), or
• an iBT (Internet Based TOEFL) score of 79-80 with a Writing score of 20.

All other evidence is considered on a case by case basis.²

Admission to graduate/postgraduate programmes

The requirements are higher for admission to graduate qualifications (including higher degrees such as the MPhil, PhD, and EdD). It is generally recommended that students have:

• an IELTS score of at least 6.5 overall (including at least 6.0 or better in the writing band), or
• a Paper-based TOEFL score of 577 plus a TWE (Test of Written English) of 5 or better, or
• a Computer-based TOEFL score of 233 plus a TWE (Test of Written English) of 5 or better, or
• an iBT (Internet Based TOEFL) score of 90 with a Writing score of 22.

However, some qualifications, such as the LLD, SJD, MBA, PGDip(SLT), MA(Applied) in Applied Linguistics and MSc in Biological Sciences, require a higher score. The English language proficiency requirements for admission to particular qualifications are at the discretion of the Dean concerned.

Admission to graduate Law qualifications

The following minimum scores are considered to be evidence of such competence:

• a TOEFL score of 600 (with at least 5.5 on the Test of Written English), or
• an IELTS score of 6.5 (with at least 6.0 in the written band), or
• an iBT (Internet Based TOEFL) score of 100 with a Writing score of 22.

All other evidence is considered on a case by case basis.

Admission to GradDipTchg

The following minimum scores are considered to be evidence of such competence:

• a TOEFL score of 600 (with at least 5 on the Test of Written English), or
• an IELTS score of 7.0 (with no less than 7.0 in any band), or
• an iBT (Internet Based TOEFL) score of 100 with a Writing score of 22.

All other evidence is considered on a case by case basis.

Notes:

1. Many of the degrees offered at the University of Waikato have prerequisites on their core papers. Applicants who have not achieved specified prerequisites through their study will be required to take additional papers or foundation courses in order to
satisfy these prerequisites. Applicants in this situation are advised that not all papers may count towards the completion of the degree and that the programme may take an additional period of time.

2. Scores from the computer-based TOEFL test will be considered on a case by case basis. Generally, a computer-based TOEFL score of 213 and an essay writing score of 4.5 will be considered acceptable for admission.

Tuition Fees and Charges
1. International students are required to pay full cost tuition fees. Students should refer to the Table of Fees and Charges on pages 101-103 for other fees and charges that may be applicable.
2. Application for credit from overseas study prior to enrolment $100.00.
3. Application for credit from overseas study after enrolment $50.00.
4. The New Zealand Government has cultural agreements with the French and German Governments that allow French and German students to pay domestic tuition fees at postgraduate level in New Zealand. The agreement with the German Government also allows German students in receipt of a German Academic Exchange Scholarship (DAAD) to study in New Zealand at undergraduate level and pay domestic tuition fees.
5. New international PhD students are eligible for domestic fees for their PhD studies. Conditions apply. For more information see the Postgraduate Studies Office website: http://www.waikato.ac.nz/sasd/postgraduate.

New Zealand Immigration Requirements
1. All international students must hold a valid student permit (or visitor permit for courses of less than three months) for the duration of their studies. Further information regarding the various requirements of Immigration New Zealand (INZ) can be obtained from the nearest New Zealand High Commission, Embassy or INZ Office.
2. An offer of a place at the University does not guarantee that the student will be issued with a student visa.
3. INZ require that tuition fees for the first year of study are pre-paid before a student visa will be issued. Students are also required to provide evidence of additional funds available for living costs of approximately NZ$10,000.
4. The University is required to report to the INZ those students who are not fulfilling the requirements of their student permit.

Pre-paid Tuition Fees Policy
As indicated above, international students are required by the INZ to pre-pay one year’s tuition fees to the University of Waikato in order to be granted a student visa. These funds are held against the student’s name until they complete their enrolment in person. This policy details the process for refunding these funds if (i) the student travels to New Zealand and does not complete their enrolment, or (ii) completes the first semester of study and does not enrol in the second semester of study and they have a student permit valid for one year.
1. All students must apply in writing for a refund of their pre-paid tuition fees to the Director, Student and Academic Services Division.
2. Students are required to supply a verified copy of their passport and student permit, and a copy of their University of Waikato receipt(s) with their application for a refund.

3. The University of Waikato will notify INZ that the student has not fulfilled the obligations of their visa by completing their enrolment at the University of Waikato.

4. Where a student wishes to attend another institution in New Zealand, the University of Waikato will transfer the pre-paid tuition fees to that institution, upon written confirmation from that institution of the student’s intention to study. This should be in the form of a formal letter of offer or invoice which confirms the student’s acceptance into a qualification. If the student has already paid their tuition fees at the other institution, the University of Waikato will refund the pre-paid tuition fees to the student, upon written confirmation from the other institution that the fees have been paid. It is the student’s responsibility to provide the necessary documentation from the other institution.

5. Where a student will be returning to their home country, the funds will be refunded in one of three ways:
   (a) an overseas bank draft sent to the overseas address provided by the student
   (b) an overseas bank draft given to the student which can be banked in the appropriate overseas country, or
   (c) if it is known that the pre-paid tuition fees have been paid by a third party, the refund may be paid back to that third party.

6. Where a student is wishing to remain in New Zealand without enrolling at an educational institution, the University of Waikato will refund these funds either
   (a) upon evidence of a valid INZ permit to remain in New Zealand, or
   (b) confirmation that the INZ has discharged the University of Waikato’s duty under the original student permit.

7. If a programme of study is cancelled by the University of Waikato, a full refund of pre-paid tuition fees will be made to the student by bank draft.

**International Students Refund Administration Charge**

An administration charge of 10%, including GST, is withheld from the refund of pre-paid tuition fees for students who decide not to enrol at the University of Waikato prior to completing their enrolment or during the withdrawal period. A further charge may be imposed to recover Agent Commission paid by the University in relation to the student’s enrolment, in the event that approval is given for the student to withdraw on compassionate or medical grounds.
Intermediate Programmes for Other Universities

Intermediate programmes for entry to the following professional courses at other universities may be taken at the University of Waikato: Engineering (Canterbury), Forestry Science (Canterbury), and Surveying (Otago). Details of requirements are available from the Student and Academic Services Division of this University. Students who wish to take intermediate programmes (except Engineering) for the purpose of applying for admission to professional courses at other universities should ensure that they obtain up to date information and approval from the appropriate university for their first year papers at the University of Waikato. Engineering intermediate students do not require such approval unless they wish to take a modified intermediate programme.

In some instances, direct entry to the professional course or exemption from certain papers may be available to candidates with high results in NCEA at Level 3. Enquiries regarding this should be made to the Dean of the School of Science and Engineering prior to enrolment.
**Student Research Regulations**

**Preamble**
Students who undertake research at any level of study are required to conduct the research in a manner that conforms with requirements and standards set down by the University and, in many cases, by law.

Students are referred to the Resources on Ethical Conduct in Research and Related Activities, available from UNILink at the Research Hub.

**Student Research Regulations**

1. **Title**
   These are the Student Research Regulations 2008.

2. **Date of effect**
   These regulations are effective from 1 January 2009.

3. **Definitions**
   In these regulations
   - **plagiarism** means presenting as one’s own work the work of another, and includes the copying or paraphrasing of another person’s work in an assessment item without acknowledging it as the other person’s work through full and accurate referencing; it applies to research and to assessment (as defined in the Assessment Regulations 2005) presented through a written, spoken, electronic, broadcasting, visual, performance, or other medium
   - **research** means an inquiry of an investigative, experimental or critical nature which is driven by a question, hypothesis, or intellectual position capable of rigorous assessment, and the findings of which are open to scrutiny and formal evaluation; it includes any intellectual or creative work published, exhibited, presented, or performed in a written, spoken, electronic, broadcasting, visual, performance, or other medium
   - **student** means a student enrolled at the University of Waikato
   - **University** means the University of Waikato.

4. **Application**
   These regulations apply to research undertaken by a student as an element of a paper or thesis of the University at any level of study.

5. **Ethical conduct in research**
   A student engaged in research
   - (a) must fairly and fully represent results as he or she honestly perceives them, without falsifying data, fabricating data, claiming results where none have been obtained, or fraudulently changing records
   - (b) must not commit or condone plagiarism
   - (c) must be scrupulously honest in the ascription of authorship, and must not list authors without their permission or attribute work to others who have not in fact contributed to the research
   - (d) must conform with professional standards and codes of ethics relevant to the discipline
   - (e) must exercise integrity and good faith in every aspect of research practice
must comply with the Ethical Conduct in Human Research and Related Activities Regulations when the research involves collecting data about and from people and organisations.

6. **Research or teaching involving the development of low risk genetically modified organisms (GMOs)**
   (1) A student who intends to use or develop low risk genetically modified organisms (GMOs) must first obtain relevant approvals from the Institutional Biological Safety Committee (IBSC) and, having obtained the relevant approvals, must carry out the activity in an approved designated area and in accordance with any conditions attached to the approvals.
   (2) The IBSC, which is located in the Office of Biological Sciences, is established by the Vice-Chancellor in accordance with the requirements of the Hazardous Substances and New Organisms Act 1996, to act under delegated authority from the Environmental Risk Management Authority (ERMA).
   (3) The IBSC is responsible for
      (a) ensuring that all approved activities involving GMOs on university premises have been reported to ERMA
      (b) ensuring that activities involving GMOs take place in approved designated areas
      (c) providing information to students and staff about their responsibilities under the Hazardous Substances and New Organisms Act 1996 and the ERMA Regulations.
   (4) A student engaged in an activity on university premises involving GMOs must comply with any instruction concerning that activity by the IBSC.

7. **Research using live animals**
   (1) Users of live animals for teaching, research, or the production of biologically active agents have ethical and legal responsibility for the welfare of those animals.
   (2) The Animal Ethics Committee is established by the Vice-Chancellor in accordance with the requirements of the Animal Welfare Act 1999, and is responsible for
      (a) ensuring that any experimental procedure involving live animals complies with the Animal Welfare Act 1999 and the University's Code of Ethical Conduct for the Use of Animals for Teaching and Research
      (b) initiating investigations into any suspected non-compliance with the Animal Welfare Act 1999 or the University's Code of Ethical Conduct for the Use of Animals for Teaching and Research
      (c) arbitrating in disputes about use of live animals for teaching and research.
   (3) A student involved in the use of animals for research must comply with
      (a) the University's Code of Ethical Conduct for the Use of Animals for Teaching and Research, or
      (b) any other instruction by the Animal Ethics Committee.

8. **Breaches**
   A breach of these regulations is misconduct under the Student Discipline Regulations 2008.
Ethical Conduct in Human Research and Related Activities Regulations

Preamble
Any member of the University community who participates in research and specified related activities is required to conduct the research and/or related activities in a manner that conforms with ethical standards set down by the University, by relevant national and international professional bodies, and by the law of the country in which the research is undertaken.

These regulations apply specifically to the following activities: research, teaching, consulting, evaluation, and publications which involve collecting data about and from people and organisations. These regulations also apply to any research where there are ethical issues that are not addressed by the Animal Ethics Committee Code of Ethical Conduct.

Students are referred also to the University’s Student Discipline Regulations 2008 in this Calendar and the Handbook for Research Degrees of MPhil, PhD, and EdD at the University of Waikato, as amended from time to time, and the Guidelines for Professional Practice and Community Contact in the Conduct of University Research or Related Activities (see Appendix 1 to these regulations).

Staff are referred also to the University’s Staff Code of Conduct and the Code of Ethics for Academic Staff.

Students and staff are also referred to the Resources on Ethical Conduct in Research and Related Activities, available from UNILink at the Research Hub.

Ethical Conduct in Human Research and Related Activities Regulations
1. Title
These are the Ethical Conduct in Human Research and Related Activities Regulations 2008.

2. Purpose
Ethical issues arise when University research and/or related activities involve the interests and rights of others. The purpose of these regulations is to facilitate ethical conduct which respects the rights of people, communities, companies, trusts, and other organisations. These regulations explain the standards of ethical conduct and the procedures that apply for the maintenance and monitoring of these standards. All applications to the University’s human research ethics review committees will be reviewed for approval on the basis of their compliance with these regulations.

3. Date of effect
These regulations are effective from 1 July 2008.
4. **Scope**

1. These regulations apply to all
   a. staff of the University of Waikato
   b. students of the University of Waikato, and
   c. any other person authorised to undertake research and/or a related activity on behalf of the University of Waikato, including those employed or contracted in wholly-owned subsidiary entities.

2. Research collaborators or partners are expected to apply for approval of their research and/or related activities from their organisation and must also apply to the relevant University of Waikato Faculty or School of Studies or department committee.

3. Under these regulations, all research and/or related activities are required to have formal ethics review and approval.

4. Applications for approval are not required for normal teaching activities; but are required for specific teaching that involves the participation of a student or students and has the potential for harm (see section 13 of these regulations), or that involves collection of data from students.

5. Applications are not required for University teaching evaluations or for University reviews and quality assurance activities; however, such activities do have ethical implications and should be conducted in a professional way consistent with the University Staff Code of Conduct and should be consistent with the spirit of these regulations.

5. **Definitions**

In these regulations

- **research** means an inquiry of an investigative, experimental, or critical nature which is driven by a question, hypothesis, or intellectual position capable of rigorous assessment, and the findings of which are open to scrutiny and formal evaluation. It may include any intellectual or creative work published, exhibited, presented, or performed in a written, spoken, electronic, broadcasting, visual, performance, or other medium.

- **related activities** may include teaching, consulting, evaluation, and publication when these activities involve collecting data about and from people and organisations. These activities are defined as follows:
  - **teaching** means teaching in lectures, tutorials, demonstrations, and related educational research
  - **consulting** means the provision of advice to a client, such advice being based upon the pre-existing professional knowledge and skills of the consultant
  - **evaluation** means the systematic collection and analysis of information to make judgements, usually about the effectiveness, efficiency, and/or appropriateness of the research and/or related activity
  - **publication** means any intellectual or creative work published, exhibited, presented, or performed in a written, spoken, electronic, broadcasting, visual, performance, or other medium

- **participant** means a live human being or group of live human beings who participate in research and/or related activities whether by observation, questioning, participation in an experiment, provision of specimens or human tissue samples, or by any other means
organisation means a social unit of people systematically arranged and managed to meet a need or to pursue collective goals on a continuing basis. Examples include firms, schools, and professional societies.

researcher means the person undertaking research and/or related activities.

harm includes physical, psychological, social, economic, or cultural harm to participants.

field research means research conducted in person in a natural setting outside of a laboratory.

6. Application procedures
   (1) A staff member, student, or authorised person must not commence research or a related activity until it has been approved by the appropriate authority and in accordance with these regulations.
   (2) Researchers must submit applications for approval for their research or related activity to one of the delegated Faculty or School of Studies or department committees (see section 22 of and Appendix 2 to these regulations) within the University.
   (3) Where applications are made to an external ethics committee, an application must also be submitted to, and approved by, the relevant delegated committee within the University (see section 22(3) of and Appendix 5 to these regulations).
   (4) Applications for approval of research and/or related activities must be submitted in the form prescribed for the relevant Faculty, School of Studies, department, or unit (see Appendix 3 to these regulations).
   (5) If an ethical issue relating to the research and/or related activity that was not envisaged at the beginning arises during its course, the researcher must stop the research and/or related activity, consult the appropriate authority, and apply for approval. The researcher must not begin the research and/or related activity again until the necessary approval has been obtained.
   (6) For situations where prior, free, express, and informed consent from participants may not be possible, see sections 10 and 11 of these regulations for guidance in making application for approval of the research or a related activity.

7. Responsibility for ethics in research and related activities
   (1) Individual staff, students, and authorised persons are responsible for ensuring their research and/or related activities comply with these regulations.
   (2) If a researcher is a student, the staff member responsible for supervising the student’s research must take all reasonable steps to ensure that the student complies with these regulations.
   (3) Paper convenors may apply for ethics approval for an entire paper if it involves students in that paper engaging in research or related activities. Such applications must cover all anticipated research or related activities the student may engage in, and the convenor’s, lecturers’ and/or tutors’ responsibilities. Applications must identify ethical issues and describe practices for addressing them.

8. Value of research or related activities and the public interest
   (1) A researcher must be able to justify to his or her peers the goals and methodology of the research and/or related activity in terms of its reasonably anticipated benefits balanced against any foreseeable risk of harm to the participants.
9. **Informed consent of participants**

(1) Researchers must gain participants’ prior, free, express, and informed consent in a culturally and socially appropriate manner, unless in the case of approved exceptions. For proxy consent from authorised representatives, see subsection (4)(e) and (4)(f) of this section of these regulations. Exceptions regarding large sample surveys and similar research methods, some cases of field research, and the possibility of gaining informed consent after data collection are dealt with in sections 10, 11 and 14 of these regulations.

(2) A researcher must establish explicit processes for reaching agreement with participants. A researcher must not involve a participant in any research and/or related activities unless the researcher is satisfied that the participant has understood the nature of his or her involvement and freely agreed to it in accordance with the principles outlined in this section.

(3) A researcher must not use explicit or implicit coercion to obtain the agreement, and must not use inducement to obtain the agreement except in accordance with section 18 of these regulations.

(4) Unless sections 10, 11 or 14 of these regulations apply, a researcher must adhere to the following principles with respect to informed consent of participants:

(a) A researcher must inform prospective participants of all information relevant to the decision to participate including

(ii) their right to decline to participate in the research and/or related activities or any portion or any part of these

(iii) the form in which the findings will be published

(iv) duration and security of data storage

(v) their right to withdraw any information they have provided up until analysis has commenced on their data

(vi) their right to access and correct personal information

(h) The more readily identifiable the participants may be, the more formal the consent should be. Where participants are asked to answer questionnaires that might identify them, answer questions in a formal interview, undergo formal tests, or where they are subjected to formal observation and recording procedures, the process for obtaining informed consent, and the form of the consent, should be similarly formal and recorded in writing or some other reproducible form. Where the participation is more anonymous the consent may be less personalised and less explicit (see section 10 of these regulations).

(i) If the research or related activity involves manipulation of, or intervention in, the physical or psychological state of a participant, the participant’s consent, or, if subsection (e) of this section applies, the consent of the person with authorised responsibility for the participant, must be recorded in writing or some other reproducible form.
(j) Because some research and/or related activities involve collectives, a researcher must recognise the complexities of relationships between individuals and collectives. In some cultures it is common for the leader of a collective to make a decision in respect of participation on behalf of its members. If an individual in a collective wishes to participate or not to participate in the research and/or related activity, regardless of a decision taken on behalf of the collective, the individual’s wishes must be respected and all reasonable care taken to ensure that those wishes are also respected by other members of the collective.

(k) If a prospective participant is reasonably judged incapable of giving informed consent, the researcher must obtain the proxy consent from the person who has responsibility for the prospective participant’s welfare, taking particular care to protect the participant’s interests and also taking into account any potential conflict of interest between him or her and the person whose consent is required.

(l) A researcher who seeks the proxy consent of another person on behalf of a prospective participant under subsection (e) of this section must make all reasonable effort to involve the prospective participant him or herself in the process and the decision about consent.

(m) Staff, students, and other approved persons must obtain informed consent when recording images of participants, participants’ possessions, or research and/or related activity in which participants are involved, unless the recording of images is of lawful activity occurring in a public place and is culturally appropriate.

(n) A researcher must provide the information under subsection (a) of this section plainly and in the language and medium that is appropriate for the prospective participants.

(o) A researcher must inform participants of their right of access to any data that may have been collected from or about them.

(p) A researcher must inform participants of their right to complain about the conduct of the research and/or related activity and must also inform them of the process for making a complaint.

10. **Large random sample surveys and informed consent**

(1) A researcher who intends to collect data involving large numbers of people is not required to adhere to all the principles concerning informed consent outlined in section 9(4) of these regulations if the research method makes adherence to all these principles impractical or undesirable and if such a requirement is likely to impact adversely on the researcher’s ability to generate reliable information.

(2) However, the researcher must declare and justify an intention not to adhere to the principles in section 9(4) of these regulations in the application for approval submitted under section 6 of these regulations.

(3) In these situations the researcher must provide the following information, as a minimum, to a participant before the research or related activity begins

- the anticipated length of the research or related activity
- the general purpose of the research or related activity
- the forms in which the data might be published
- an assurance that the participant will not be identified in any publication or dissemination of research findings.
11. **Field research and informed consent**

(1) ‘Field’ research in this context means research conducted in person in a natural setting outside of a laboratory.

(2) In field research situations, prior, free, express, and informed consent must be gained in a culturally and socially appropriate manner from participants.

(3) In some forms of field research using such methods as participant observation, participatory research and action research, where obtaining prior, free, express, and informed consent from all participants would be inappropriately intrusive or impractical for social, cultural, or methodological reasons, it is acceptable not to gain such consent.

(4) However, the researcher must take care to apply other ethical principles, especially minimising the risk of harm to participants and maintaining the anonymity of participants. It may also be appropriate in such cases that informed consent be sought afterwards but prior to the publication of research findings, from people who have in the course of information collection come to the attention of the researcher.

12. **Archiving of data, privacy, storage, and use of information**

(1) All non-identifying data (eg data sets and transcripts) used for publication must be securely kept long enough to allow for academic examination, challenge, or peer review. This period would normally be at least five years. Identifying data such as consent forms, photographs, and videos will be securely stored consistent with agreements made under section 9(4)(a) of these regulations. The responsibility for data storage lies with the department or other equivalent academic unit.

(2) Where the research and/or related activity is conducted in New Zealand, the researcher must comply with the Privacy Act 1993 and the Official Information Act 1982, and must adhere to the following principles consistent with that legislation

(a) participants and informants must not be publicly identified or identifiable without their explicit consent

(b) participants must be informed (unless sections 10, 11 and 14 of these regulations apply) that they will not be identified in any publication or dissemination of the research findings without their explicit consent

(c) researchers must take all reasonable precautions to prevent unauthorised use, access, modification, or disclosure of personal information

(d) data identifying participants must not be kept for longer than required for the purpose for which it is collected (see subsection (1) of this section)

(e) except in circumstances specified in the relevant legislation, personal information may be used only for the purpose for which it is collected.

(3) Where the research and/or related activity is conducted in a country other than New Zealand, the researcher must comply with any legislation that applies in that country with respect to privacy and storage of personal information.

(4) Even where the research and/or related activity is conducted in a country other than New Zealand, the researcher must comply as far as possible with the spirit of the Privacy Act 1993 and the Official Information Act 1982;
however, if there are contradictions between the legislation of New Zealand and the other country, the legislation of the other country must prevail.

(5) A researcher must include in an application submitted under section 4(3) of these regulations a statement about the conditions under which, and the period for which, any personal information collected for the research and/or related activity is to be stored.

(6) Data must not be made available to persons or for purposes that are not named on the application.

13. Minimisation of harm

(1) A researcher must make particular effort to identify physical, psychological, social, economic, or cultural harm to participants before seeking their consent to participation.

(2) A researcher must minimise both the risk of harm to a participant and the potential for negative consequences of the harm.

(3) ‘Harm’ in this context includes pain, stress, emotional distress, fatigue, embarrassment, and exploitation.

(4) Unless it would be impractical or undesirable to do so in the terms described in section 10 of these regulations, a researcher must consult participants to ascertain any risk of harm that they themselves may identify or concerns that they themselves may have.

(5) If, during the course of the research and/or related activity, it is apparent to the researcher that the risk of harm to the participant is greater than originally envisaged, the researcher must inform the participant and re-evaluate the research and/or related activity in terms of the principles outlined in this section.

14. Limitation of deception

(1) Deception of participants conflicts with the principle of informed consent, but in some research and/or related activities it may be necessary to withhold information about the purpose of the research and/or related activity or the procedures involved.

(2) Research and/or related activities involving deception of participants will be approved only if the researcher demonstrates in the application for ethics review that the deception is absolutely essential to the goals of the research and/or related activity.

(3) A researcher who undertakes research and/or related activities involving deception of a participant must ensure that the participant is provided with an explanation of the true purpose of the research and/or related activity and the reason for the deception as soon as practicable after the participation.

15. Social and cultural sensitivity

(1) A researcher must respect the cultural, social, and language preferences and sensitivities of the participant.

(2) Where the research and/or related activity potentially affects individuals or groups who are significantly different in culture from the researcher, the researcher must consult an appropriate person before the research and/or related activity begins about appropriate cultural procedures and approaches to the research and/or related activity and about informing the participant or community concerned of the research findings.
(3) An application for ethics review under these regulations must demonstrate how the researcher has responded to the advice received from the person consulted.

(4) Appropriate consultation and subsequent responses on matters of social and cultural sensitivity are the responsibility of the researcher.

16. **Exploitation of relationships**
   (1) A researcher must not exploit the relationship between researcher and participant.
   (2) A researcher must resist any initiative by a participant to exploit the relationship between researcher and participant.
   (3) ‘Exploitation’ in this context means the seeking or obtaining of money, goods, services, favours, information or relationships that have no direct bearing on the stated research and/or related activity aims or data gathering.
   (4) Where a researcher is a staff member and the prospective participant a student, the researcher must not exploit that relationship and must strive to ensure that the student is not disadvantaged through his or her participation or refusal to participate, academically, professionally, or otherwise.

17. **Respect for property rights**
   (1) A researcher must ensure that procedures or publications associated with the research and/or related activity do not infringe legally determined property rights.
   (2) A researcher must ensure that procedures or publications associated with the research and/or related activity do not infringe culturally determined property rights to the extent possible and reasonable in all circumstances.
   (3) Property rights in this context may apply to land, goods, works of art and craft, images, and intangible materials such as spiritual treasures, music, information, and intellectual property.
   (4) A researcher must identify and address any issues associated with property rights and ownership of data at the time he or she seeks informed consent and monitor these issues throughout the research process.

18. **Payment for participation**
   A researcher must not pay participants for their participation, or arrange for participants to be paid, in money, goods, services, prizes, favours, or in any other form of remuneration or form of hospitality appropriate to the engagement, either directly or indirectly, unless the payment is approved by the appropriate approving authority (see section 22 of and Appendix 2 to these regulations).

19. **Professional codes of ethics**
   A researcher must ensure that his or her research or related activity complies with any professional code of ethical practice or standard relevant to the research and/or related activity.

20. **University research and/or related activities in schools and early childhood services**
   A researcher involved in research and/or related activities in schools or early childhood services must comply with the Guidelines for Observation and Research in Schools and Early Childhood Services (see Appendix 4 to these regulations).

21. **Declaration of potential conflict of interest**
   (1) A researcher must, in an application submitted under section 4 of these regulations, declare any potential conflict of interest.
(2) ‘Conflict of interest’ occurs where a researcher or related party is, or is reasonably likely to
(a) obtain an unfair, inappropriate, or unethical professional, commercial, or personal advantage as a result of or in connection with the research and/or related activity
(b) be in a position in relation to the activity or the participants that could appear to affect the researcher’s impartiality in the research and/or related activity;
(c) obtain a direct or indirect pecuniary benefit or interest as a result of or in connection with the research or related activity.

(3) If the research and/or related activity is commissioned or sponsored, the researcher must ensure that the commission or the sponsorship
(a) is declared to the participants and in any published findings
(b) does not compromise the standard or ethics of the research and/or related activity.

22. Authority for ethical approval and monitoring

(1) Authority for administering these regulations rests with the University of Waikato Human Research Ethics Committee.

(2) The University of Waikato Human Research Ethics Committee is responsible to the Academic Board for the promotion, review, and monitoring of ethical practice in University research and/or related activities and for monitoring compliance with these regulations.

(3) Each Faculty and School of Studies has one or more committees with responsibility at the Faculty, School of Studies or departmental level, delegated by the University of Waikato Human Research Ethics Committee, for
(a) the approval of research and/or related activities with human participants in the Faculty, School of Studies or department (health and disability research involving human participants must also be approved by a health and disability ethics committee, see Appendix 5 to these regulations);
(b) compliance with these regulations in the Faculty, School of Studies or department
(c) maintaining records of University research and/or related activity with human participants in the Faculty, School of Studies or department in the form required by the University of Waikato Human Research Ethics Committee
(d) reporting to the University of Waikato Human Research Ethics Committee in the form required by that Committee.

(4) The Dean of each Faculty or School of Studies recommends to the University of Waikato Human Research Ethics Committee for approval the committee structure for the respective Faculty or School of Studies, and the Terms of Reference, constitution, membership, and procedures of any committee involved consistent with these regulations (see Appendix 2 to these regulations).

(5) Responsibility for the following matters in any organisational unit outside a Faculty or School of Studies is delegated by the University of Waikato Human Research Ethics Committee to the Director of that unit
(a) ensuring applications for approval of research and/or related activities with human participants in the unit are submitted to the University of Waikato Human Research Ethics Committee
(b) compliance with these regulations in the unit
(c) maintaining records of human research and/or related activities with human participants in the unit in the form required by the University of Waikato Human Research Ethics Committee
(d) reporting to the University of Waikato Human Research Ethics Committee in the form required by that Committee.

(6) A committee at the departmental, Faculty or School of Studies level, or a Director of a unit outside a Faculty or School of Studies, may consult with the University of Waikato Human Research Ethics Committee at any time and may request that the University of Waikato Human Research Ethics Committee review any relevant matter, or review any decision taken under delegated authority.

23. Researcher appeals against decisions concerning applications for approval

(1) Having made an application under these regulations, a researcher may appeal to the University of Waikato Human Research Ethics Committee against any decision taken at the unit, departmental, Faculty or School of Studies level.

(2) A researcher may appeal to the Academic Board against any decision by the University of Waikato Human Research Ethics Committee under these regulations.

(3) The Academic Board may determine its own procedures for hearing and deciding the appeal provided that they conform with the principles of natural justice, and may delegate authority to hear and decide an appeal on its behalf.

(4) The decision of the Academic Board (or delegated authority) on an appeal is final.

24. Addressing concerns and complaints

(1) A concern or complaint about the research and/or related activities to which these regulations apply may be referred to the University of Waikato Human Research Ethics Committee.

(2) If a concern or complaint arises, the University of Waikato Human Research Ethics Committee may require that the relevant research and/or related activity be discontinued until the issue is resolved.

(3) If the University of Waikato Human Research Ethics Committee considers that the issue is sufficiently serious, it may refer the matter to the Vice-Chancellor who may arrange for it to be dealt with as applicable
   (a) under the Student Discipline Regulations 2008, as amended from time to time
   (b) as a breach of the Staff Code of Conduct
   (c) as the Vice-Chancellor thinks fit.

(4) If the University of Waikato Human Research Ethics Committee considers that the issue is not sufficiently serious to be referred to the Vice-Chancellor, it may take informal action, at its discretion, to deal with the complaint or dispute.
25. **Appeal provision**

(1) A person may appeal to the Academic Board against any matters dealt with under section 23 or section 24 of these regulations by the University of Waikato Human Research Ethics Committee under these regulations.

(2) The Academic Board determines its own procedures for hearing and deciding the appeal conforming with the principles of natural justice, and delegates authority to hear and decide an appeal on its behalf.

(3) The decision of the Academic Board (or delegated authority) on an appeal is final.

Dissertations and Theses

Deadlines for the submission of dissertations and theses for graduate qualifications are prescribed in section 12 of the Personal Programmes of Study Regulations. Deadlines for the submission of theses for the MPhil and doctoral degrees are determined on an individual basis. Details about terms of enrolment for these degrees are available from the Postgraduate Studies Office.

General information about the submission of MPhil and doctoral theses is published in the Handbook for Research Degrees of MPhil, PhD and EdD at the University of Waikato, which is available from the Postgraduate Studies Office and online.

Students may obtain details about style, general layout, and important conventions to be followed in writing a thesis (referencing, bibliographies etc.) from their supervisor or Chairperson of Department. The University of Waikato Library also publishes a guide to the presentation and submission of dissertations and theses which is available from the Library and online.

Dissertations and Theses Regulations

1. Title
   These are the Dissertations and Theses Regulations 2006.

2. Date of effect
   These regulations are effective from 1 January 2007.

3. Definitions
   In these regulations
dissertation means a piece of written work that reports on the findings of a theoretical or empirical investigation and is undertaken in accordance with the regulations for an honours or first masters degree
first masters degree means a masters degree except the Master of Philosophy
thesis means a piece of written work undertaken in accordance with the regulations for a first masters degree and equivalent to at least 90 points at 500 level, or a piece of written work undertaken in accordance with the regulations for a Master of Philosophy or doctoral degree. A thesis is externally examined and if passed is considered to embody research of a kind and standard appropriate for the thesis to be lodged permanently in the University Library and University digital repository and is publicly accessible (unless embargoed under section 14 of these regulations).

4. Word limit for dissertations
   The maximum word limit for a dissertation is determined by the Faculty or School of Studies in which the dissertation is undertaken, and published in the Faculty or School of Studies graduate handbook.

5. Word limit for first masters theses
   Unless the Dean of the Faculty or School of Studies in which the thesis is undertaken approves otherwise in the case of an individual student or subject, the maximum word limit for a first masters thesis is 50,000 words.
6. **Word limit for Master of Philosophy (MPhil) theses**
   Unless the Postgraduate Studies Committee approves otherwise in an individual case, the maximum word limit for an MPhil thesis is 50,000 words.

7. **Word limit for doctoral theses**
   Unless the Postgraduate Studies Committee approves otherwise in an individual case, the maximum word limit is
   (a) for a PhD thesis, 100,000 words
   (b) for an EdD or SJD thesis, 60,000 words.

8. **Submission of dissertations**
   (1) When his or her dissertation is ready for examination, the student must submit two copies to the relevant Chairperson of Department.
   (2) Dissertations are not required to be bound, but must be formatted and presented in accordance with relevant Faculty or School of Studies policy as published in the Faculty or School of Studies graduate handbook.
   (3) The relevant Dean may agree to accept part or all of a dissertation solely in digital form, as prescribed in subsections 13(2) and 13(3) of these regulations.

9. **Print format of theses**
   (1) The thesis must be printed
      (a) in 12 pt type
      (b) in 1½ or double spacing
      (c) on A4 paper of at least 60 gsm.
   (2) The thesis may be printed on either one or both sides of the page.
   (3) Margins for all pages (before binding), including those on which photographs or diagrams are mounted, must be as follows:
      (a) inner 40mm
      (b) outer 30mm
      (c) top/bottom 20-25mm.
   (4) Each bound copy of the thesis must include an abstract of no more than 500 words, immediately following the title page and written in a form suitable for publication.

10. **Submission of first masters theses**
    (1) When it is ready for examination, three bound copies of the thesis must be submitted by the student to the Assessment Office.
    (2) The three copies must be fully bound as prescribed in section 12 of these regulations.
    (3) The thesis must be accompanied by a declaration, signed by the student’s chief supervisor, stating
      (a) whether the thesis is, in the supervisor’s opinion, ready for examination, and
      (b) that the thesis embodies the student’s own work, carried out under the supervisor’s direct supervision.
    (4) At the time of submission of the thesis in fully-bound form, the student must also submit a digital copy of the thesis, as prescribed in subsection 13(1) of these regulations.
    (5) The fully-bound copies and digital copy must be accompanied by a declaration signed by the student and the student’s chief supervisor, stating that the fully-bound copies and the digital copy are the same (subject to the provisions of subsections 13(2) and 13(3) of these regulations).
(6) As prescribed in subsections 13(2) and 13(3) of these regulations, the relevant Dean may agree to accept part or all of a thesis solely in digital form.

(7) After a thesis has been examined and passed
   
   (a) one of the fully-bound copies will be lodged permanently in the University Library,
   
   (b) the digital copy will be lodged permanently in the University’s digital repository,

   and, unless the Deputy Vice-Chancellor has approved an embargo under section 14 of these regulations, the printed and digital copies will be publicly accessible.

(8) A fully-bound copy of the thesis is retained by the relevant department.

(9) First masters students are reimbursed by the relevant department for the reasonable cost of the printing and binding of the copy retained by the department.

(10) The third fully-bound copy is returned to the student once the examination process is complete.

11. Submission of MPhil and doctoral theses

(1) When it is ready for examination, two soft-bound copies of the MPhil thesis or three soft-bound copies of the doctoral thesis must be submitted by the student to the Postgraduate Studies Office.

(2) A soft-bound thesis comprises soft covers with either a plastic spiral or staple and tape binding, but in all other respects must be as prescribed in section 12 of these regulations.

(3) The thesis must be accompanied by a declaration, signed by the student’s chief supervisor, stating
   
   (a) whether the thesis is, in the supervisor’s opinion, ready for examination, and
   
   (b) that the thesis embodies the student’s own work, carried out under the supervisor’s direct supervision.

(4) A student must substitute two fully-bound copies before he or she is entitled to have the relevant degree formally conferred.

(5) When the thesis is submitted in fully-bound form the student must also submit a digital copy of the thesis, as prescribed in subsection 13(1) of these regulations.

(6) The fully-bound copies and digital copy must be accompanied by a declaration signed by the student stating that the fully-bound copies and the digital copy are the same (subject to the provisions of subsections 13(2) and 13(3) of these regulations).

(7) The Postgraduate Studies Committee may agree to accept part or all of a thesis solely in digital form, as prescribed in subsections 13(2) and 13(3) of these regulations.

(8) After a thesis has been examined and passed
   
   (a) one of the fully-bound copies will be lodged permanently in the University Library,
   
   (b) the digital copy will be lodged permanently in the University’s digital repository,

   and, unless the Deputy Vice-Chancellor has approved an embargo under section 14 of these regulations, the printed and digital copies will be publicly accessible.
12. Full binding of theses

1. The cover of a fully-bound thesis must be black buckram.
2. The binding must be either sewn or glued.
3. The spine and cover of the binding must be lettered in gold with the initials and name of the author and the title or short title of the thesis.
4. The final dimensions of the bound thesis must be
   (a) width 210-215mm
   (b) length 290-300mm.

13. Digital format

1. The format for submission of
   (a) the digital copy of a thesis required under subsection 10(6) of these regulations or
   (b) the digital form of all, or part, of a dissertation or thesis provided for in subsections 13(2) and 13(3) of these regulations
   is set out in the University publication Writing and Submitting a Dissertation or Thesis at the University of Waikato which is available from the Library's Information Desk or from the Library's website http://www.waikato.ac.nz/library/learning/g_thesis.pdf.
2. The relevant Dean (in the case of a dissertation or first masters thesis) or the Postgraduate Studies Committee (in the case of an MPhil or doctoral degree) may agree to accept a dissertation or thesis solely in digital form, where the nature of the research is such that it is not appropriate for the dissertation or thesis to be submitted in a printed form. Approval of the use of digital format in this way should be sought by the candidate at an early stage of enrolment in the dissertation or thesis.
3. The relevant Dean (in the case of a dissertation or first masters thesis) or the Postgraduate Studies Committee (in the case of an MPhil or doctoral degree) may agree to accept part of a dissertation or thesis solely in digital form, where there are tables of data or other information that are effectively appendices to the dissertation or thesis.
4. Once examined and passed, a thesis, or part of a thesis, which is submitted solely in digital form will be publicly accessible through the University's digital repository, unless embargoed under section 14 of these regulations.

14. Embargoes

1. Because freedom to exchange ideas and to publish acquired knowledge are fundamental to the purposes of a university, restrictions on freedom of access to dissertations and theses are acceptable only in very limited circumstances approved by the Deputy Vice-Chancellor.
2. Embargoes of dissertations or theses, either in part or in full, are subject to written approval of the Deputy Vice-Chancellor.
3. Embargo of a dissertation or thesis is likely to be approved only under the following circumstances:
   (a) if it is pending publication
   (b) if it is pending the filing of a patent
   (c) to allow for a sponsor to comment
   (d) to protect pre-existing commercial secrets of a sponsor
   (e) if there is a pre-existing contractual obligation

(9) A fully-bound copy of the thesis is retained by the relevant department.
(f) if restriction is necessary under the Privacy Act 1993 or the Official Information Act 1982.

(4) An embargo will be approved only for a limited period.

(5) If the Deputy Vice-Chancellor has approved an embargo, only the author, title, abstract and other meta-data of the full digital copy held by the University will be publicly accessible through the University's digital repository.

*Note:*

1. The requirement to submit a digital copy applies to students who enrolled or re-enrolled in a thesis on or after 1 January 2006.

2. **Date of effect**
   These regulations are effective from 1 January 2006.

3. **Definitions**
   In these regulations
   - **assessment** means the internal assessment (details of which are prescribed in the relevant paper outline) and, if one is offered, the examination that a student must undertake in order to be awarded a grade for the paper concerned
   - **chief examiner** means the person appointed by the relevant Dean or Director as the chief examiner for the paper concerned; (the names of chief examiners are available from the Director of Student and Academic Services)
   - **compulsory assessment item** means an assessment item that is identified as compulsory in the relevant paper outline, and that a student must submit in order to be eligible to pass the paper
   - **examination** means the portion of the assessment for a paper that a student undertakes under formally supervised conditions, at a time and place notified by the Director of Student and Academic Services
   - **examiner** means the person or persons designated in the relevant paper outline as the lecturer or convenor of the paper concerned
   - **internal assessment** means the portion of the assessment for a paper that is assigned, supervised and marked internally within the relevant department; it may include assignments, practical work, work in tutorials, seminars, written or oral tests, recitals, performances or attendance requirements
   - **paper outline** means the document distributed by the relevant department providing detailed information about the nature and requirements of the paper
   - **plagiarism** means presenting as one’s own work the work of another, and includes the copying or paraphrasing of another person’s work in an assessment item without acknowledging it as the other person’s work through full and accurate referencing; it applies to assessment presented through a written, spoken, electronic, broadcasting, visual, performance or other medium.
   - **special examination** means an examination prepared and scheduled for a student whose application for special consideration under section 17 of these regulations has been accepted as valid by the Special Consideration Sub-Committee

4. **Application**
   These regulations apply to papers at 0, 100, 200, 300, 400, 500, and 700 levels.

5. **Fees**
   The fees referred to in these regulations are prescribed in the Table of Fees and Charges section of the University of Waikato Calendar.

6. **Eligibility to submit assessment**
   A student must be enrolled for a paper in order to be eligible to submit assessment in it.
7. **Use of particular languages for assessment**
   (1) Unless specified otherwise in the relevant paper outline, students must submit assessment in either English or Māori.
   (2) The presentation of assessment in Māori is subject to the Policy on the Use of Māori for Assessment.

8. **Plagiarism and cheating**
   (1) Guidelines for sourcing and referencing styles appropriate to particular disciplines are available from the College, Faculty or Schools of Studies and the Library.
   (2) Plagiarism is prohibited.
   (3) It is not a defence against a charge of plagiarism for a student to argue that he or she did not act intentionally in appropriating the writing or work of another person; however, the extent to which the student is judged to have plagiarised intentionally, and the level and standard of scholarship that might reasonably be expected of the student, may be factors in the determination of any disciplinary action to be taken against the student.
   (4) Cheating in any matter connected with assessment is prohibited.

9. **Use of the same material for different assessment items**
   Unless approved otherwise by the examiners of the papers concerned, a student must not submit as assessment material that is substantially the same as material submitted as assessment for a different paper.

---

**Part 2**

**Conduct in Examinations**

10. **Presence and identification at examinations**
   (1) A student may attend an examination only if he or she is enrolled for the paper for which it is prescribed.
   (2) A student may not enter an examination to begin an examination after the first 45 minutes.
   (3) Except with the permission of the examination supervisor, a student may not leave an examination room during the first 45 minutes or during the last 15 minutes.
   (4) Students undertaking an examination must sign their examination script and identify themselves to the examination supervisor by producing either
       (a) their student identity card, or
       (b) another form of photo identification that can be authenticated by the examination supervisor.
   (5) A student may not leave the examination room during an examination with the intention of returning unless supervised during the period of absence by the examination supervisor.

11. **Conduct in the examination room**
   (1) A student undertaking an examination must follow the instructions in the examination paper as well as any instructions given by the examination supervisor.
   (2) A cell phone, pager or any other communications or electronic device that
       (a) makes use of an audible alarm, or
       (b) has facilities for transmission or reception of information
       is prohibited in the examination room, unless it is a computer authorised by
an examiner under subsection 11(3) of these regulations.

(3) A student may not bring into the examination room any of the following items unless authorised in writing by the examiner:
   (a) paper
   (b) books
   (c) calculators
   (d) electronic dictionaries
   (e) computers.

(4) If calculators, electronic dictionaries or computers are authorised under subsection 11(3) of these regulations, details of the type and the functions that may be used will be specified by the examiner.

(5) Items brought into an examination room may be subject to scrutiny and their use during the examination may be monitored.

(6) A student undertaking an examination must not
   (a) communicate with another student during the examination
   (b) share material in the examination room.

12. Communications with others about examinations
   (1) A student must not communicate with the examiner about the content of an examination between the time it is undertaken and the notification of confirmed grades.

   (2) A student who wishes to raise an issue about an examination between the time it is undertaken and the notification of confirmed grades may do so by contacting the Director of Student and Academic Services.

Part 3
Special Arrangements for Examinations

13. Applications and procedures
   (1) Applications under this Part are considered and decided by the Special Consideration Sub-Committee, which is a committee of the Academic Programmes Committee.

   (2) The times and places of examinations are notified by the Director of Student and Academic Services.

   (3) A student
      (a) who has a learning or physical disability that is likely to affect his or her performance in an examination,
      (b) who, for any other reason that he or she considers to be compelling, requires a special arrangement to undertake an examination, may apply to undertake the examination at a different time, a different place, or under special conditions.

   (4) The application must be submitted to the Director of Student and Academic Services, on the prescribed form, as soon as practicable after the teaching of the paper has started and the need for the special arrangement has been identified.

   (5) If the need is identified too late to allow for a suitable arrangement to be made by the University, the student will be advised to apply for special consideration under Part 4 of these regulations.

   (6) An application under this Part must be supported by evidence as stipulated on the application form.
A student who makes an application under this Part may be requested by the Special Consideration Sub-Committee to undergo an evaluation by an independent professional person.

The University makes any arrangements and meets any costs for an evaluation under subsection 13(7) of these regulations.

If the Special Consideration Sub-Committee considers that
(a) the circumstances documented in the application are valid according to the criteria set down in subsection 13(3) of these regulations, and
(b) it is practicable to do so given the nature of the circumstances involved and the availability of resources,
it will offer the student a special arrangement.

14. Conditions attached to special arrangements
(1) Unless approved otherwise by the Special Consideration Sub-Committee, a student will not be permitted to undertake an examination at a different time that is more than two days before or after the notified time for other candidates.

(2) A student who accepts an opportunity to undertake an examination at a different time is required to sign a statutory declaration promising not to communicate about the content of the examination with any other person between the time he or she undertakes it and the time it is undertaken by the other candidates.

(3) The Special Consideration Sub-Committee may require, as a condition attached to the offer of a special arrangement, that the student contribute part or all of any associated costs.

Part 4
Special Consideration for Missed Assessment, or Impaired Performance in Assessment

15. Grounds for applications for special consideration
If, due to circumstances beyond his or her control (such as illness, injury, bereavement or trauma),
(a) a student has been prevented from presenting internal assessment,
(b) a student’s performance in internal assessment has been seriously impaired,
(c) a student has been prevented from undertaking an examination,
(d) a student’s performance in an examination has been seriously impaired, or
(e) a student’s ability to prepare for an examination in the two weeks immediately preceding the examination has been seriously impaired,
the student may apply for special consideration.

16. Special consideration in respect of internal assessment
(1) Applications for special consideration in respect of internal assessment are considered and decided by the examiner of the paper for which the assessment is prescribed.

(2) An application for special consideration in respect of internal assessment must be made in writing to the relevant examiner not later than three days after the date on which it is due.

(3) The application must be supported by evidence that is acceptable to the examiner; the evidence may be in the form of
(a) a medical certificate for an illness or injury affecting the period relevant to the particular assessment item, or
(b) evidence of any other circumstance and its effect on the student over the period relevant to the particular assessment item.

(4) If the examiner accepts that the circumstances documented in the application are valid, he or she may
(a) estimate a mark for the assessment item, or
(b) if it is practicable to do so, offer the student an opportunity to submit or repeat the original assessment item or to submit an alternative assessment item.

(5) A student may not be awarded estimated marks under subsection 16(4) of these regulations for more than 33% of the overall internal assessment for a paper.

(6) If the examiner does not offer any of the options under subsection 16(4) of these regulations, the student may apply under the Change of Enrolment Regulations 2003 to withdraw from the paper on medical or compassionate grounds.

(7) A student may appeal to the chief examiner against any decision by an examiner under this section.

(8) An appeal to the chief examiner must be made in writing by the student not more than seven days after he or she has received notification of the relevant decision by the examiner.

(9) Where an examiner is also the chief examiner, a student may appeal directly to the Director of Student and Academic Services under the provisions of section 24 of these regulations.

17. Special consideration in respect of examinations

(1) Applications for special consideration in respect of examinations are considered and decided by the Special Consideration Sub-Committee.

(2) In order to be eligible for special consideration in respect of an examination, a student must have submitted all compulsory items of internal assessment for the relevant paper.

(3) An application for special consideration in respect of an examination must be submitted to the Director of Student and Academic Services on the prescribed form not later than three days after the date of the examination.

(4) The application must be accompanied by evidence of the circumstances relating to the application.

(5) In the case of injury, illness, bereavement or trauma, the evidence required under subsection 17(4) of these regulations must be in the form of a report that relates to a consultation within 24 hours of the examination between the student and a medical practitioner, midwife, dental surgeon or psychologist, or between the student and a counsellor who is recognised for this purpose by the Special Consideration Sub-Committee. (Details of the names of counsellors recognised for this purpose are available from the Director of Student and Academic Services.)

(6) In the case of any circumstance other than those described in subsection 17(5) of these regulations, the evidence must be in the form of a statement of the nature and time of the circumstance, written by the student.
(7) The Director of Student and Academic Services may, at his or her discretion, request the student to submit a statutory declaration affirming details of the circumstances relating to the application.

(8) Where an application is accepted as valid by the Special Consideration Subcommittee, the chief examiner will be requested by the Director of Student and Academic Services to consider the assessment of the student in the relevant paper.

(9) The chief examiner may at his or her discretion
   (a) estimate a grade for the paper, or
   (b) offer the student the opportunity to undertake a special examination.

(10) If the chief examiner does not estimate a grade for the paper under subsection 17(9) of these regulations, and it is not practicable to offer a special examination (either because of the nature of the assessment or the continuing circumstances of the student), the student may apply under the Change of Enrolment Regulations 2003 to withdraw from the paper on medical or compassionate grounds.

(11) Where a student demonstrates to the Director of Student and Academic Services that, because of circumstances beyond his or her control, he or she is not able to accept the offer of a special examination, the student may apply under the Change of Enrolment Regulations 2003 to withdraw from the paper on medical or compassionate grounds.

Part 5
Review of Grade and Return of Examination Script

18. Review of grade
   (1) A student who considers that a mistake has been made in the process of calculating or determining a grade for a paper may apply for a review of a grade.
   (2) An application for review of grade must be submitted by the student on the prescribed form, together with the prescribed fee, to the Director of Student and Academic Services not more than 14 days after receiving notification of the grade.
   (3) The application must be accompanied by all items of internal assessment for the relevant paper that have been returned to the student.
   (4) A review of grade involves a re-marking of all items of assessment that contribute to the final grade, and a re-calculation of marks.
   (5) A review of grade results in a grade either being left unchanged, raised or lowered.
   (6) The fee for a review of grade is refunded if the review results in a change of grade.

19. Return of examination script
   (1) A student may apply for a copy of his or her marked examination script.
   (2) An application for a copy of an examination script must be submitted to the Director of Student and Academic Services on the prescribed form, together with proof of identity, not later than three months after the date of the examination concerned.
   (3) Examination scripts are destroyed by the University after the three-month deadline has elapsed.
Part 6
Grades and Annotations

20. Grades
(1) Grades are confirmed by Boards of Examiners or delegated authorities.
(2) The schedule of grades used by the University and the range of marks represented by each grade is as follows:

Pass Grades

(3) A “…” annotation is used on students’ academic records for theses and papers that may be undertaken over more than one year, and indicates that the enrolment is continuing into a subsequent year.

(4) A restricted pass ("RP") grade may be awarded at the discretion of a Board of Examiners or delegated authority for a paper in which the student has achieved
(a) borderline performance, or
(b) a D grade compensated by overall good performance in the relevant subject or the relevant subject and closely related subjects.

Note: A paper for which a Restricted Pass (RP) has been awarded will not be accepted as meeting the prerequisite requirements for any other paper unless the Dean or Director of the College, Faculty or School of Studies in which the other paper is offered approves otherwise.

(5) An IC annotation means “Incomplete”, and is awarded if a student
(a) does not submit a compulsory assessment item, or
(b) if an examination was prescribed, does not undertake the examination.

(6) An IC annotation is treated as a fail grade.

(7) The NC annotation means “No Credit” and indicates that credit for the paper has been refused as a direct consequence of a finding of misconduct.

21. Conceded credit
(1) A Board of Examiners or delegated authority may award a conceded credit to a candidate for a bachelor’s degree who has
(a) undertaken the required number of papers for the degree,
(b) passed all compulsory papers, and
(c) passed all papers required for the major, specified programme or stream,
but who has narrowly failed one paper in the final year.

(2) The award of a conceded credit is based on the candidate's performance in the bachelors degree as a whole as well as the paper in question.

(3) The conceded credit is attached to the degree as a whole (and does not affect the fail grade in the paper in question).

(4) A student may be awarded one conceded credit only in a bachelors degree.

22. **Notification of confirmed grades**

   (1) Confirmed grades are notified annually in writing by mail to the address indicated by the student as his or her examination address.

   (2) Confirmed grades are also published confidentially, using individual student identity numbers, by noticeboard and/or iWaikato (internet).

**Part 7**

**Breaches and Appeals**

23. **Breaches**

   A breach of these regulations is misconduct under the *Student Discipline Regulations 2008*.

24. **Appeals**

   (1) A student may appeal against any decision taken under these regulations.

   (2) An appeal, comprising a written statement of the circumstances of the appeal, together with supporting evidence if available, must be submitted by the student in writing to the Director of Student and Academic Services not more than seven days after the date on which notification of the relevant decision is received.

   (3) Appeals under this section are considered and decided by the Deputy Vice-Chancellor by delegated authority of the Academic Programmes Committee.

   (4) A decision by the Deputy Vice-Chancellor is notified in writing, and is final.
Policy on the Use of Māori for Assessment

Statement of Principle
1. In recognition of the status of the Māori language as a tāonga protected under the Treaty of Waitangi, and within the spirit of the Māori Language Act 1987, the University of Waikato endorses the right of its students to use the Māori language in written work for assessment within the University.
2. In keeping with the above and in accordance with its Charter commitments the University seeks to have sufficient suitable staff employed or available throughout its Schools and Departments to ensure that any work submitted in Māori would be assessed in that language by staff competent in the subject under examination and in the Māori language.
3. In the meantime, the use of the Māori language in assessment is subject to conditions set out in this policy statement.

Exceptions
4. There are occasions when, due to the nature of the skills being tested, work submitted for assessment may be required to be in a particular language. In such cases that requirement shall be made explicit in writing, either in the relevant subject entry or prescription in the University of Waikato Calendar or in the paper outline distributed to candidates at the beginning of a paper.

Notice
5. Candidates who intend to present all or part of an examination or piece of internally assessed work in Māori are requested to give notice of their intention of doing so in writing to the Director of Student and Academic Services. This notice of intention is desirable to allow the University the time and opportunity to make proper arrangements for marking including, when necessary, translation and external assessment. If less than 14 days’ notice is given, the material presented in Māori will still be accepted. The processing of it may, however, be delayed and the opportunity to have the script marked in the original language may be reduced.
6. Where a candidate who intends to present material in Māori has given the requested notice of intention, he or she will be informed as soon as reasonably possible, as to whether or not the assessment will be based on translation.

Potential for Delays
7. The University will do its best to make the results of an examination or item of internally assessed work presented in Māori available to the candidate within the ordinary time-frame. However the process of assessment in such cases, possibly including translation, may result in delays in the return of coursework or in the publication of results.

Māori-speaking Paper Examiners
8. The examination or internally assessed work will be assessed in Māori by the examiner for the paper if the examiner is considered by the Professor of Māori or his or her nominee to be linguistically competent to do so.
Co-examiners
9. If the examiner of the relevant paper is not competent to assess in Māori, a co-examiner, competent in both the subject under examination and in Māori, may be appointed to conduct the assessment of work presented in Māori in consultation with the examiner.

Translation
10. If no person is available in the circumstances to assess the work in Māori, a translator will be appointed by the Professor of Māori or nominee in agreement with the appropriate chief examiner. The translator will be asked not to correct errors in the original nor to make any embellishments; however ambiguities may be pointed out to the examiner. Where necessary the examiner may seek clarification of the translation of the paper from the translator but contact between the student and the translator is prohibited, as is contact between the student and the examiner. The assessment will then be carried out by the examiner of the paper on the basis of the translation.

The University intends that resort to translation be made only when reasonable efforts to find an examiner capable of assessing the work in its original language have been exhausted.

11. In the process of appointing a translator, the University will take all reasonable steps to ensure that the translator is competent in the relevant subject under examination, as well as in the Māori language.

External Assessment
12. If the internal assessment and/or examination script is to be subject to external assessment, the other institution undertaking the external assessment will be requested to indicate whether an external assessor is available to conduct the assessment in Māori. If not, a translation will be obtained for the purpose by the University according to the process explained in sections 10 and 11 of these regulations.

Return of Scripts
13. When any translation is relied upon in the assessment of an examination, a candidate making proper application for the return of a script shall receive also any translation made of the script. When assessed coursework is normally returned to the student, any translation used is likewise to be returned.

Appeals and Reconsiderations
14. An appeal against a decision regarding linguistic or subject competence made under the provisions of sections 8 and 11 of these regulations shall be to the appropriate Pro Vice-Chancellor whose decision shall be final.

15. The regulatory provisions for reconsideration of final grade together with the established appeal provisions will apply, with the addition that the Māori Language Commission is regarded by the Council as the final authority on the accuracy of a translation.

Oral Work
16. The details of this policy apply to written internally assessed work and to examinations. When oral work is assessable, the same principles should apply; however practicalities may necessitate more restricted policy details, such as a requirement on the candidate to give longer notice or a limitation on the use of Māori where oral work involves interaction with other candidates.
Graduation

The University will hold a number of graduation ceremonies in 2009. Graduation will take place in Hamilton during 17 April, 4-7 May, and 22-23 October. There will be a graduation ceremony in Tauranga on 15 May.

All students who have completed the requirements for any of the University’s qualifications can attend a ceremony. Graduation application forms are forwarded to completing students and these must be completed and returned by the due dates stated on the forms.

Further information regarding the 2009 graduation ceremonies can be obtained from the Student and Academic Services Division in the Gateway.

Academic Dress

Academic regalia are as follows:

First Bachelors: Black gown; black hood with gold lining; black mortarboard.

Bachelors with Honours: Black gown; black hood with gold lining and gold border 5 cm in width; black mortarboard.

Masters: Black gown; gold hood with gold lining; black mortarboard.

MPhil: Black gown; crimson hood with crimson lining; black mortarboard.

Chancellor and Vice-Chancellor: Black gown with red velvet facings and gold piping; three red velvet chevrons with gold piping on the sleeves; black Tudor bonnet with gold cord and tassel.

Replacement of Degree/Diploma Certificates

If a degree/diploma certificate has been damaged, destroyed, stolen or lost, application should be made to the Director, Student and Academic Services Division, to have the certificate replaced by forwarding a statutory declaration outlining the circumstances necessitating the replacement of the certificate. Included with the statutory declaration, if appropriate, should be the damaged certificate, or a police or insurance report.

The cost for a replacement certificate is specified in the Table of Fees and Charges on page 102.

3. New qualification offered subject to approval by the NZVCC’s Committee on University Academic Programmes (CUAP).
Qualification Regulations

These regulations apply to candidates beginning their studies in 2009. Candidates who first enrolled in a qualification prior to 2009 are eligible to complete that qualification either under the regulations which applied at the time of first enrolment or the regulations which apply at the time of re-enrolment. Candidates who are resuming their studies for a qualification after an extended absence are advised to consult the Dean or Director of the College, Faculty or School of Studies concerned at the time of re-enrolment regarding the requirements for completion. However, where there have been significant changes in the structure of a qualification or content of the major or specified programme during the candidate’s absence, the Dean or Director may prescribe a specific programme of study which will be deemed to satisfy the requirements for completion of the qualification.

Personal Programmes of Study Regulations

1. Title
   These are the Personal Programmes of Study Regulations 2007.

2. Date of effect
   These regulations are effective from 1 January 2008.

3. Delegation of powers
   The powers and authority of the Academic Board referred to in these regulations have been delegated in certain matters under the Delegation of Powers Statute 2008.

4. Definitions
   In these regulations
   - **paper** means a segment of work in a particular subject and is identified by means of a unique code number. Papers are delivered through lectures, tutorials, practicals and such other coursework as may be required by the department concerned.
   - **programme of study** means the selection of papers taken by a candidate in any one academic year for a particular qualification.
   - **equivalent** papers are in effect the same papers, one of which was taught in the past with a different paper code.
   - **restricted** papers share a significant amount of common content. Candidates may therefore receive credit for only one of the papers listed. Restricted papers may not necessarily be used to satisfy prerequisite or corequisite requirements. A prerequisite must be passed before a candidate may enrol in the paper for which the prerequisite is specified. (A paper for which a Restricted Pass (RP) has been awarded will not be accepted as meeting the prerequisite requirements for any other paper unless the Dean or Director of the College, Faculty or School of Studies in which the other paper is offered approves otherwise.)
   - **corequisites** are pairs or groups of papers which must be taken together.
   - **internal assessment** means all or some of the following: essays, assignments and reports of various kinds, practical work, work in tutorials and/or seminars and tests.
   - **field** means a general area of academic study that includes a number of related subjects.
a subject is a grouping of papers with a common academic theme, defined in terms of the listings under individual subject headings in the University of Waikato Calendar. A department may offer more than one subject.

a major means a principal area of study a candidate has chosen for a bachelors degree and is selected from those listed in the relevant degree regulations. A candidate is required to take a defined and substantial number of papers in the major at a range of levels up to and including 300 or 400 level.

a supporting subject means an additional subject to the major and is a requirement of some bachelors degrees.

a specialisation means a recognised pathway within a qualification or major which provides an area of focus within the qualification or major.

points is the term used to express the student workload of a paper or programme. A normal full-time academic year comprises 120 points or 1.0 EFTS (Equivalent Full-time Student).

5. Application

These regulations apply to undergraduate certificates, undergraduate diplomas, bachelors degrees, bachelors with honours degrees, graduate certificates, graduate diplomas, postgraduate certificates, postgraduate diplomas, masters degrees and individual paper credits.

6. Admission and re-entry

(1) In order to be eligible to be enrolled at the University of Waikato, candidates must meet the requirements of Section 224 of the Education Amendment Act 1990.

(2) The criteria for admission to the University of Waikato in a given year are determined by the Council and are set out in the Admission Statute 2008.

(3) The criteria for admission to a particular qualification in a given year are determined by the Academic Board and are set out in the Criteria for Admission to Particular Qualifications and the qualification regulations.

(4) To ensure that a candidate is adequately prepared for a graduate qualification, the Academic Board will require relevant papers in the relevant subject or subjects of the qualifying bachelors degree to have been passed at grades which it deems appropriate.

(5) Candidates are usually required to have majored in their bachelors degree in the main subject to be presented for a graduate degree. This requirement may be waived in cases where no more than one or two papers in a given subject are proposed to be incorporated into the candidate’s graduate degree.

(6) In exceptional circumstances, based on academic merit, candidates who have no more than 30 points left to complete the requirements of a qualifying degree may be permitted to enrol in a graduate degree, provided that they have completed all of the requirements of the major or main subject of the qualifying degree. The graduate degree will not be deemed to have been completed until the qualifying degree has also been completed.

(7) The Academic Board may approve limitations on enrolment for programmes or papers due to insufficiency of staffing or resources. Limitations and the criteria for selection are published in the Limitations Statute in the University of Waikato Calendar.
(8) A candidate who has been awarded a particular qualification in one major or subject may only be re-admitted to the same qualification in another major or subject.

(9) The criteria for re-entry for returning students are determined by the Academic Board and are set out in Part 3 of the *Criteria for Admission to Particular Qualifications*.

(10) In addition, the Academic Board may decline to re-enrol a candidate whose progress during the preceding year or years has not been to the satisfaction of the Academic Board.

7. **Enrolment in a programme of study**

   (1) The Academic Board may prescribe qualifying or additional papers which must be passed by a candidate either prior to, or concurrently with, the minimum requirements for a qualification. Qualifying or additional papers may be required if the candidate is considered by the Academic Board to be inadequately prepared in a core subject area.

   (2) Enrolment in a programme of study or paper is subject to the approval of the Academic Board. Such approval will be determined on the basis of the candidate’s academic background as well as staffing and resources.

   (3) The personal programme of study of every candidate is subject to the approval of the Academic Board.

   (4) The papers for qualifications and their prescriptions are defined in the University of Waikato Calendar. Before enrolling for a paper, candidates must meet any requirements specified in the relevant prescription unless approved otherwise by the Academic Board.

   (5) Particular regulations governing qualifications may be varied or waived by approval of the Academic Board.

8. **Maximum student workload**

   (1) The normal maximum full-time student workload for an academic year (excluding Summer School) is 120 points.

   (2) For the purposes of calculating workload, a full-year paper has a workload equivalent to half of its points value during each of the two semesters in which it is taught.

   (3) The normal maximum full-time student workload for a Summer School semester is 40 points.

   (4) Approval of the Academic Board is required for a candidate to enrol in a programme of study which has a workload equivalent to more than the normal maximum full-time workload.

9. **Completion of a qualification**

   (1) The minimum requirements for the completion of a qualification are defined in the relevant regulations.

   (2) With the approval of the Academic Board, a candidate may be permitted to complete the requirements of a qualification in less than the minimum period of enrolment prescribed in the relevant regulations. Approval will depend on the candidate’s academic record and on the availability of suitable teaching and supervision arrangements.

10. **Eligibility for Honours or Distinction**

    (1) In order to qualify for Honours or Distinction in a particular qualification, a candidate may be required to complete the requirements within a prescribed time period of first enrolling for the qualification.
11. **Dissertations and theses**
   (1) The *Dissertations and Theses Regulations 2006* governing the presentation of dissertations and theses apply in these regulations and any dissertation or thesis required for a graduate qualification must be presented in accordance with these regulations.
   (2) Enrolment in a dissertation or thesis, or a qualification which requires the completion of a dissertation or thesis, is subject to the availability of a suitable supervisor for the dissertation or thesis.
   (3) For dissertations and theses, one or more supervisors will be appointed by the Academic Board. If the chief supervisor is also an examiner of the dissertation or thesis, at least one other examiner (who is not also a supervisor) will be appointed.
   (4) A dissertation or thesis must embody the results obtained by the candidate in an investigation relating to some branch of the subject or subjects being presented, or, with the approval of the Academic Board, shall take some other form proposed by the candidate’s supervisors and approved by the Dean(s) and chairperson(s) of department(s) concerned. The chief supervisor or sole supervisor will be required to certify that the dissertation or thesis embodies the candidate’s own work carried out under the supervisor’s direct supervision.
   (5) Dissertations and theses are assessed in terms of the points value they represent.

12. **Date for submission of dissertations, theses and research reports**
   (1) The deadline for the submission of any dissertation, thesis or research report will be 4.00pm on the last working day of the paper occurrence which completes the candidate’s enrolment in the total points required for the dissertation, thesis or research report.¹
   (2) Candidates who expect that they will not submit their dissertation, thesis or research report by the due date may apply to the Dean or the appropriate staff member(s) with delegated responsibility for Graduate Studies of the Faculty or School of Studies in which they are enrolled for an extension of time without the requirement for re-enrolment, provided that the application for an extension is lodged prior to the deadline for submission.
   (3) Extensions will not normally be awarded for periods of more than 21 days beyond the relevant due date.
   (4) Candidates who do not submit their dissertation, thesis or research report by the due date, and who have not applied for and been awarded an extension, will be required to re-enrol for a minimum period to be determined by the Dean or the appropriate staff member(s) with delegated responsibility for Graduate Studies of the Faculty or School of Studies in which they are enrolled and will be liable for a further payment of tuition and any other fees and charges for the period of re-enrolment.

13. **Resubmission of dissertations and theses**
   (1) A dissertation or thesis for a graduate qualification that receives a narrow fail may be returned to the candidate with the offer of an opportunity to revise and re-submit. The decision to offer such an opportunity is at the discretion of the Dean of the Faculty or School of Studies that offers the degree, and is based on a number of factors, including the likelihood that
the revision will be successful, and the availability of suitable supervisors and examiners.

(2) An offer by a Dean under subsection 13(1) of these regulations will be in writing, and any conditions attached to the offer will be explicit. The period allowed for the revision will be no more than the equivalent of one semester and the deadline for submission will be prescribed. If the offer to revise and submit is accepted, the candidate will be eligible to receive a maximum grade of C and, in the case of a masters degree, will not be eligible for the award of Honours.

(3) A candidate’s acceptance of an offer to revise and re-submit and associated conditions must be in writing. The candidate must then re-enrol for the equivalent of one semester and pay fees accordingly. For administrative and fees purposes, the candidate will enrol for the particular enrolment period in which the deadline for re-submission falls.

(4) A ‘provisional fail’ is recorded against the first dissertation or thesis enrolment for the period of revision. The ‘provisional fail’ grade is replaced by a final grade (either a fail grade or a C grade, depending on the outcome), after the revision and re-examination processes are concluded.

(5) The opportunity to revise and re-submit a particular dissertation or thesis may be offered to a candidate only once.

14. Credit - transfer credit and cross credit

(1) Transfer credit means credit towards a University of Waikato qualification for papers passed at another tertiary institution.

(2) Cross credit means credit towards a University of Waikato qualification for papers passed towards another University of Waikato qualification.

(3) A candidate who has passed papers at an appropriate level at the University of Waikato or another tertiary institution may apply for credit in respect of those papers towards a University of Waikato qualification.

(4) Applications for credit must be submitted on the prescribed form, together with the prescribed fee, to the Director of Student and Academic Services Division.

(5) Applications for credit from another institution must be accompanied by a verified copy of an academic record. If the original document is not in English, the academic record must be accompanied by an official English translation of the record. The University reserves the right to request an original copy of an academic record.

(6) The policy on the level and amount of credit which may be awarded from a completed qualification is determined by the Academic Board and is set out below:

(a) Credit from a completed qualification is normally only available towards a bachelors degree.

(b) Credit is not normally awarded from a completed graduate or postgraduate qualification.

(c) Credit from a completed qualification will normally be limited to no more than one third of the completed qualification.

(d) Credit towards a University of Waikato bachelors degree from a completed qualification will normally be limited to no more than one third of the University of Waikato degree. For the purposes of this regulation, one third of a bachelors degree is considered to be 120 points at 100 and 200 levels, including a maximum of 60
points at 200 level. Where appropriate, the Dean may, at his or her
discretion, permit 20 further points at 100 or 200 level to be
credited towards a four-year bachelors degree where the Dean
deems a paper to be relevant to the candidate’s programme of
study.

(e) No paper may count towards more than two qualifications.

(7) The decision to award credit in individual cases will be made by the Dean
of the Faculty or School of Studies concerned.

(8) In making decisions on credit, the Dean will consider the relevance and
level of the papers completed, the regulations of the University of
Waikato qualification concerned, and the credit guidelines maintained by
the Student and Academic Services Division.

(9) Regardless of the total number of papers which an applicant has passed at
other institutions, the total credit awarded will not be more than half of
the total requirement of the University of Waikato qualification
concerned, unless this is approved under subsections 14(10) or 14(11) of
these regulations.

(10) In individual cases, the Dean or delegated authority may vary subsection
14(9) of these regulations and award credit for up to two thirds of the
University of Waikato qualification concerned. Credit will not be awarded
for 300 or 400 level papers required for a major in an undergraduate
degree.

(11) In individual cases, the Academic Programmes Committee, under
delegated authority of the Academic Board, may award credit for more
than two thirds of a University of Waikato qualification, or for more than
half of an undergraduate degree that includes 300 and/or 400 level papers
for a major.

(12) Applicants wishing to appeal a Dean’s decision on credit may apply to the
Director of the Student and Academic Services Division.

(13) The consideration of an appeal will involve the Dean concerned being
requested to reconsider the decision. Further appeals against the outcome
of a reconsideration will be referred to the Academic Programmes
Committee for consideration on behalf of the Academic Board.

15. **Completion of a University of Waikato qualification at another New
Zealand university**

(1) A candidate who, based on the assessment of the Dean of the candidate’s
Faculty or School of Studies, has completed the major part of a
qualification at the University of Waikato and then moved to another
district may, in some cases, complete the University of Waikato
qualification by taking the remaining papers at another university in New
Zealand. Prior approval of the specific papers, in writing, must be obtained
from the Director of the Student and Academic Services Division of this
University and the prescribed charge paid. The candidate must advise the
Registrar of the other university of the purpose of the enrolment and the
papers concerned must be taken on a Certificate of Proficiency (COP)
basis at that university. The candidate’s academic record will not be
transferred.
16. **Completion of a qualification of another New Zealand university at the University of Waikato**

(1) A candidate who has completed the major part of a qualification at another New Zealand university may, in some cases, be permitted by that university to complete the qualification by passing specified papers at the University of Waikato. Any such approval must be given in writing by the 'home' university and the candidate will take the papers concerned on an Individual Paper Credit (IPC) basis at the University of Waikato. The candidate's academic record will not be transferred.

7. Candidates must complete the requirements of the major, Professional Education.
8. To complete the requirements of the major, candidates must comply with the requirements of a programme, details of which are prescribed in the School of Education Teacher Education Handbook.

Programmes
- Early Childhood
- Primary
- Secondary
- Qualified Teachers

9. Candidates may not enrol in specific papers until they have passed certain programme requirements, as outlined in the School of Education Teacher Education Handbook.
10. Candidates must also complete at least 80 points above 100 level in an approved subject or subjects other than the major.
11. Candidates may complete a second major in an approved subject.
12. To complete the requirements of a second major, candidates must gain 120 points above 100 level in that major, including 60 points above 200 level. Candidates must also meet any specific requirements prescribed for the major in the relevant subject entry in the University of Waikato Calendar.
13. Candidates may take up to 150 points from outside the field of the Degree.
14. The field of the Degree is defined in Appendix A to these regulations.

Variations

15. Candidates who have met the requirements set out by the New Zealand Teachers Council for registered teachers and who hold an NZQA approved level 5 or level 6 technology qualification prior to enrolment for the Degree may apply to the Dean of Education for exemption of up to 360 points at 100, 200 and 300 levels towards the Degree. Details of further exemptions available may be found in the School of Education Teacher Education Handbook.
16. Candidates who have met the requirements for the award of qualifications listed in Appendix B to these regulations, prior to enrolment for the Degree, may apply to the Dean of Education for exemption of up to 240 points at 100 and 200 levels towards the Degree.
17. The Dean or delegated authority may vary or waive these regulations in individual cases.
Notes:
1. There will be no new intake into this programme in 2009.
2. Enrolment in this programme is limited to candidates who are eligible for the exemption of points as set out under section 15 or section 16 of these regulations.
3. Amendments to these regulations are subject to approval by the NZVCC’s Committee on University Academic Programmes (CUAP).

Appendix A
The field of the Degree is defined as
(a) The papers offered by the School of Education with the following subject codes: ALED, HDCO, MBED, MSTE, PCSS, PROF, SPLS, TEAL, TEDE, TEHD, TEMS, TEPC, TEPC, TESP, and
(b) the following approved papers for technology teachers:
   - BIOL241 Microbiology: Form, Function and Metabolism (20 points)
   - CHEM209 Chemistry: Human Perspectives (20 points)
   - COMP223 Information Discovery (20 points)
   - ENEL205 Analog Electronics and Circuit Analysis (20 points)
   - ENGG180 Foundations of Engineering (15 points)
   - ENGG282 Engineering Design (10 points)
   - ENME380 Mechanical Engineering Design (20 points)
   - ENME480 Advanced Product Development (10 points)
   - ENMP211 Materials 1 (20 points)
   - ENMP213 Mechanics of Materials 1 (20 points)
   - ENMP214 Manufacturing Processes (10 points)
   - ENMP215 Manufacturing Practice (10 points)
   - ENMP221 Process Engineering and Design 1 (20 points)
   - ENMP222 Biotechnology: Food and Bioresources (20 points)
   - ENMP241 Environmental Technology 1 (20 points)
   - ENMP282 Science and Engineering Management A (10 points)
   - ENMP283 Science and Engineering Management B (10 points)
   - ENMP301 Special Topics in Technology (20 points)
   - ENMP322 Biotechnology (20 points)
   - ENMP341 Environmental Technology 2 (20 points)
   - ENMP381 Technological Innovation and Its Management (20 points)
   - TOMG206 Food and Beverage Management (20 points)
   - TOMGZ16 Food and Beverage Management Placement (0 points)

Appendix B
To be confirmed.
Regulations for the Degree of Bachelor of Electronic Commerce (BCom)

1. The Personal Programmes of Study Regulations apply in these regulations.

Admission

2. Candidates for the Degree must have qualified for admission to the University of Waikato and met any criteria set out in the Criteria for Admission to Particular Qualifications.

Requirements for the Degree

17. The Dean or delegated authority may vary or waive these regulations in individual cases.
Appendix

Compulsory Papers
COMP103  Introduction to Computer Science 1 (15 points)
MCOM102  Communication in a Digital Age (15 points)
MKTG151  Introduction to Marketing and International Management (15 points)
MSYS111  E-Business and Supply Chain Management (15 points)
MSYS121  The World of Electronic Commerce (15 points)
MSYS319  Industry Experience 2 (20 points)
STMG191  Introduction to Management (15 points)

Notes:
1. The requirement for demonstrated competency in employment skills is subject to approval by the NZVCC’s Committee on University Academic Programmes (CUAP).
2. This paper has replaced COMP153 Practical Programming as a compulsory paper for the BECom, subject to approval by the NZVCC’s Committee on University Academic Programmes (CUAP).

Regulations for the Degree of Bachelor of Engineering (BE)
1. The Personal Programmes of Study Regulations apply in these regulations.

Admission
2. Candidates for the Degree must have qualified for admission to the University of Waikato and met any criteria set out in the Criteria for Admission to Particular Qualifications.

Requirements for the Degree
3. The normal minimum period of enrolment for completion of the Degree is four years.
4. Candidates must enrol in the School of Computing and Mathematical Sciences or the School of Science and Engineering and follow an approved programme of study.
5. Candidates must gain at least 480 points at 100, 200, 300, and 400 level, with a maximum of 120 points at 100 level and including ENGG482 Engineering Design and Management Project (60 points).
6. Candidates must complete the requirements of a specified programme.
   (a) School of Computing and Mathematical Sciences specified programme
       Software Engineering
   (b) School of Science and Engineering specified programmes
       Biochemical Engineering
       Electronic Engineering
       Engineering Science
       Materials and Process Engineering
       Mechanical Engineering
7. To complete the requirements of a specified programme, candidates must pass the papers prescribed for that programme in the relevant subject entry in the University of Waikato Calendar.
8. Candidates must also satisfy the Dean of Computing and Mathematical Sciences and the Dean of Science and Engineering that they have completed a minimum of 800 hours of industrial experience relevant to their specified programme.

Variations

9. The Dean of Computing and Mathematical Sciences and the Dean of Science and Engineering may waive up to 120 points at 100 level of the degree of Bachelor of Engineering for candidates who have achieved exceptionally high grades in approved subjects in the National Certificate of Educational Achievement (NCEA) qualification at Level 3 or higher or in other qualifications considered by the Academic Board to be equivalent.2

10. Candidates who have completed the requirements for the award of the Bachelor of Science, New Zealand Certificate of Engineering (NZCE), National Diploma in Engineering (NDE), or equivalent qualification, prior to enrolment for the degree of Bachelor of Engineering may apply to the Dean of Computing and Mathematical Sciences and the Dean of Science and Engineering for exemption of up to 240 points at 100 and 200 levels towards the Bachelor of Engineering.

11. The Dean or delegated authority may vary or waive these regulations in individual cases.

Notes:

1. There will be no new intake into this programme in 2009.
2. The waiver of degree requirements is specific to the Bachelor of Engineering and would not be transferable to any other University of Waikato qualification, except the Bachelor of Engineering with Honours in cases where a candidate is subsequently accepted for admission into the Honours degree.
3. Amendments to these regulations are subject to approval by the NZVCC’s Committee on University Academic Programmes (CUAP).

Regulations for the Degree of Bachelor of Laws (LLB)

1. The Personal Programmes of Study Regulations apply in these regulations.

Regulations for the Degree of Bachelor of Science (Technology) (BSc(Tech))

1. The Personal Programmes of Study Regulations apply in these regulations.

Admission

2. Candidates for the Degree must have qualified for admission to the University of Waikato and met any criteria set out in the Criteria for Admission to Particular Qualifications.

Requirements for the Degree

3. The normal minimum period of enrolment for completion of the Degree is four years.

4. Candidates must enrol in the School of Science and Engineering and follow an approved programme of study.

5. Candidates must gain 480 points at 100, 200, 300, and 400 levels, including at least 360 points above 100 level and 80 points, other than from Industry papers, above 200 level.

6. Candidates must complete the requirements of a major.

Majors

- Animal Behaviour
- Biochemistry
- Biological Sciences
- Biotechnology
- Chemistry
- Computer Science
- Earth Sciences
- Electronics
- Environmental Planning
- Environmental Sciences
- Materials and Processing
- Physics

7. To complete the requirements of a major, candidates must gain 120 points above 100 level in that subject, including 60 points above 200 level. Candidates must also meet any specific requirements prescribed for the major in the relevant subject entry in the University of Waikato Calendar.

2. Candidates for the Degree must have
   (a) qualified for the award of the degree of Bachelor of Computing and Mathematical Sciences, Bachelor of Science, or Bachelor of Science (Technology) of the University of Waikato, or
   (b) qualified for the award of a Postgraduate Diploma in a subject listed in section 7 of these regulations, the Postgraduate Diploma in Science Education, or the Postgraduate Diploma in Technology Education of the University of Waikato, or
   (c) qualified for the award of a qualification considered by the Academic Board to be equivalent,
   and
   (d) satisfied the prerequisites for graduate study in the subject(s) being presented for the Degree, at levels considered appropriate by the Academic Board.
3. In exceptional circumstances, based on academic merit and relevant experience, candidates who do not meet the requirements of section 2 of these regulations may be considered for admission subject to the completion of any qualifying papers the Academic Board may prescribe which must be completed either prior to or concurrently.

Requirements for the Degree

4. The normal minimum period of enrolment for completion of the Degree is 24 months.

5. Candidates must enrol in the School of Computing and Mathematical Sciences or the School of Science and Engineering and follow an approved programme of study.

6. Candidates must gain 240 points at 500 level or above.

7. Candidates must complete the requirements of a subject.
   (a) School of Computing and Mathematical Sciences subjects
       Computer Science
       Mathematics
       Statistics
   (b) School of Science and Engineering subjects
       Biological Sciences
       Chemistry
       Earth Sciences
       Electronics
       Materials and Processing¹
       Physics
       Psychology²
       Science and Technology Education

8. To complete the requirements of a subject, candidates must gain at least 120 points in that subject, including any compulsory papers prescribed in the relevant subject entry in the University of Waikato Calendar.

9. Candidates may include
   (a) a thesis equivalent to 90 points, or
   (b) a thesis equivalent to 120 points, or
   (c) a thesis equivalent to 150 points.

10. Candidates may take up to 60 points from outside the field of the Degree.

11. The field of the Degree comprises all the subjects listed in section 7 of these regulations.

12. If a candidate fails a paper or papers (worth not more than 30 points in total), he or she may repeat the paper or papers or take an alternative paper or papers with the same total points value on one occasion only. A candidate who fails a paper or papers worth more than 30 points in total will not be permitted to proceed with the Degree.

Credit Transfers

13. Candidates may credit to the Degree a maximum of 120 points from approved papers passed at an equivalent level towards another University of Waikato qualification or a qualification from another tertiary education provider, provided they do not already count towards a completed qualification.
14. Candidates granted credit under section 13 of these regulations will be eligible for consideration of the award of honours for the Degree, provided that they meet the requirements set out in section 18 of these regulations.

Award of Honours

15. The Degree may be awarded with
   (a) First Class Honours, or
   (b) Second Class Honours (first division), or
   (c) Second Class Honours (second division), or without honours.

16. Candidates who fail a paper will not be eligible for the award of honours.

17. Except with the approval of the Academic Board, the level of honours will be calculated on the basis of the grades of the first 240 points completed by the candidate while enrolled for the Degree.

18. In order to be eligible for consideration for the award of honours, the requirements of the Degree must be completed in not more than 24 consecutive months of full-time study, or, in the case of part-time study, an equivalent period not exceeding four calendar years, from the date of first enrolment in the Degree.

Variations

19. Candidates who have completed the Bachelor of Computing and Mathematical Sciences of the University of Waikato will be exempted from up to 120 points for the Degree.

20. Candidates who have completed one of the following University of Waikato qualifications or for a qualification considered by the Academic Board to be equivalent will be exempted from 120 points for the Degree:
   - Postgraduate Diploma in Science
   - Postgraduate Diploma in Science Education
   - Postgraduate Diploma in Technology Education

21. Candidates granted exemption under section 20 of these regulations will be eligible for consideration for the award of honours for the Degree, provided they relinquish the exempting qualification and complete the requirements of the Degree in not more than 24 consecutive months of full-time study, or, in the case of part-time study, an equivalent period not exceeding four calendar years, from the date of first enrolment in the papers which satisfy the requirements of the Degree.

22. The Dean or delegated authority may vary or waive these regulations in individual cases.

Notes:

1. The name of this subject has changed from Materials and Process Engineering subject to approval by the NZVCC’s Committee on University Academic Programmes (CUAP).

Higher Degree Regulations

Master of Philosophy (MPhil)

The regulations below set down the requirements for award of the MPhil degree.

Formal policies and procedures related to enrolment and examination for the MPhil are set out in the Handbook for Research Degrees of MPhil, PhD and EdD at the University of Waikato, which also includes information about administrative matters and is available from the Postgraduate Studies Office and online.

Both the regulations set out below and the formal policies and procedures set out in the Handbook for the Master of Philosophy and Doctorates at the University of Waikato are administered by the University’s Postgraduate Studies Committee by delegated authority of the Academic Board. Any changes to these regulations, or to the formal policies and procedures, are subject to approval by the Academic Board.

Regulations for the Degree of Master of Philosophy (MPhil)

1. The Degree is awarded to candidates who have successfully completed approved and supervised research, and presented the results lucidly in a thesis which
   (a) critically investigates an approved topic of substance and significance,
   (b) demonstrates expertise in the methods of research and scholarship, and
   (c) displays intellectual independence, and
   (d) makes a substantial original contribution to the subject area concerned and is of publishable quality.

2. To qualify to enrol for the MPhil, a candidate must
   (a) have qualified for the award of a bachelors degree with honours or a masters degree, and must have achieved at least second class honours (first division) or distinction, or
   (b) have passed qualifying papers at a satisfactory level, or
   (c) in exceptional circumstances have produced other evidence to the satisfaction of the Postgraduate Studies Committee that he or she has adequate skills and knowledge to proceed with the proposed research.

3. Applicants for the MPhil must apply on the prescribed form which is available from the Postgraduate Studies Office.

4. Applications for admission to the MPhil and the conditions of enrolment are subject to approval by the Postgraduate Studies Committee under delegated authority of the Academic Board.

5. As one of the preconditions for the approval of an application, the Postgraduate Studies Committee will establish that the necessary supervision and resources can be provided for the chosen topic. If either prior to, or at any time during the study period the University encounters staffing or resource difficulties beyond its control which impact on the availability of resources or supervision for a student’s MPhil research, it will make all reasonable efforts, within budget and staffing constraints, to provide satisfactory arrangements so as not to disadvantage any affected student. Because of the specialist nature of research and supervision at this level, however, the University cannot guarantee that
under such circumstances, a student’s conditions of enrolment will not be subject to change.

6. For each MPhil candidate, the Postgraduate Studies Committee appoints a supervisory panel, one member of which is a continuing staff member of the University and the chief supervisor.

7. Candidates whose applications to enrol for the MPhil are approved by the Postgraduate Studies Committee must enrol in the relevant Faculty or School of Studies and, subject to satisfactory progress, pursue their research for
   (a) at least one year, if they are enrolled on a full-time basis, or
   (b) at least two years, if they are enrolled a part-time or mixed mode basis.

8. Enrolment is approved, in the first instance
   (a) for a maximum of two years if the candidate is enrolled on a full-time basis, or
   (b) for a maximum of four years if the candidate is enrolled on a part-time or mixed mode basis.

9. Candidates may apply to the Postgraduate Studies Committee for extensions of enrolment.

10. The Postgraduate Studies Committee has authority to terminate the enrolment of a candidate at any time if the candidate fails to demonstrate satisfactory progress or comply with any regulations or policies which relate to enrolment for the Degree.

11. A candidate may apply to the Postgraduate Studies Committee for a suspension from enrolment for a maximum of one year. A candidate is not entitled to access to supervision or any University resources during a period of suspension.

12. Candidates must submit six-monthly reports on the progress of their research work.

13. An MPhil thesis may consist of either published or unpublished material, or a combination of both and must be presented within the term of enrolment.

14. A candidate must indicate in the thesis any part that has been used or presented for any other degree.

15. Candidates must comply with the Dissertations and Theses Regulations 2006 which set out the University’s requirements with respect to the submission and presentation of theses.

16. The Postgraduate Studies Committee appoints an examiner who is external to the University and not directly connected with the candidate or the candidate’s research.

17. The Postgraduate Studies Committee makes a final decision on the award of the Degree. On the basis of the final report of the examiner, the Postgraduate Studies Committee will resolve either
   (a) that the thesis be accepted in its present form as fulfilling the requirements for the degree of Master of Philosophy, or
   (b) that the thesis be accepted as fulfilling the requirements for the degree of Master of Philosophy subject to the candidate undertaking minor amendments and/or correcting typographical errors as required by the examiner, to the satisfaction of the chief supervisor, or
(c) that the thesis be accepted subject to the candidate completing substantial amendments to the satisfaction of the examiner or the chief supervisor, provided that these amendments are not so substantial as to necessitate re-submission and are completed within six weeks, or
(d) that an oral examination of the candidate be conducted, and a further report, based on the oral examination, be provided by the examiner to the Postgraduate Studies Committee, or
(e) that the thesis is not acceptable in its present form and will be returned to the candidate, who may revise it and re-submit it for examination after a re-enrolment for a minimum period of six months, or
(f) that the candidate has failed to meet the required standard and that no degree be awarded.

18. A candidate will be permitted to revise and re-submit a thesis only once.
19. Candidates who have concerns about standards of supervision or who wish to appeal against any process or decision of a supervisor, pro-Dean, Dean, or the Postgraduate Studies Committee with respect to their registration or the examination process may do so in writing to the Chairperson of the Postgraduate Studies Committee. If the matter is not resolved by the Chairperson of the Postgraduate Studies Committee to the satisfaction of the candidate, the candidate may refer his or her appeal to the Vice-Chancellor. The Vice-Chancellor will appoint a person or panel to investigate and will make a final decision based on the report of that person or panel.
20. These regulations may be varied or waived by the Postgraduate Studies Committee under delegated authority of the Academic Board.

**Doctor of Philosophy (PhD)**

The regulations below set down the requirements for award of the PhD degree.

Formal policies and procedures related to enrolment and examination for the PhD are set out in the *Handbook for the Research Degrees of MPhil, PhD and EdD at the University of Waikato*, which also includes information about administration matters and is available from the Postgraduate Studies Office and online. Both regulations set out below and the formal policies and procedures set out in the Handbook for the Master of Philosophy and Doctorates at the University of Waikato are administered by the University’s Postgraduate Studies Committee by delegated authority of the Academic Board. Any changes to these regulations, or to the formal policies and procedures, are subject to approval by the Academic Board.

**Regulations for the Degree of Doctor of Philosophy (PhD)**

1. The Degree is awarded to candidates who have successfully completed approved and supervised research, and presented the results lucidly in a thesis which
   (a) critically investigates an approved topic of substance and significance, and
   (b) demonstrates expertise in the methods of research and scholarship, and
   (c) displays intellectual independence, and
   (d) makes a substantial original contribution to the subject area concerned and is of publishable quality.
2. To qualify to enrol for the PhD, a candidate must
   (a) have qualified for the award of a bachelors degree with honours or a
       masters degree, and must have achieved at least second class honours
       (first division) or distinction, or
   (b) have qualified for the degree of Master of Philosophy, or
   (c) have enrolled for the degree of Master of Philosophy and demonstrated
       that he or she is able to transfer to the PhD, or
   (d) have passed qualifying papers at a satisfactory level, or
   (e) in exceptional circumstances have produced other evidence to the
       satisfaction of the Postgraduate Studies Committee that he or she has
       adequate skills and knowledge to proceed with the proposed research.

3. Applicants for the PhD must apply on the prescribed form which is available
   from the Postgraduate Studies Office.

4. Applications to enrol for the PhD and the conditions of enrolment are subject to
   approval by the Postgraduate Studies Committee under delegated authority of
   the Academic Board.

5. As one of the preconditions for the approval of an application to enrol, the
   Postgraduate Studies Committee will establish that the necessary supervision
   and resources can be provided for the chosen topic. If either prior to, or at any
   time during the study period the University encounters staffing or resource
   difficulties beyond its control which impact on the availability of resources or
   supervision for a student’s PhD research, it will make all reasonable efforts,
   within budget and staffing constraints, to provide satisfactory arrangements so
   as not to disadvantage any affected student. Because of the specialist nature of
   research and supervision at this level, however, the University cannot guarantee
   that under such circumstances, a student’s conditions of enrolment will not be
   subject to change.

6. For each PhD candidate, the Postgraduate Studies Committee appoints a
   supervisory panel. Each PhD candidate must have a minimum of two
   supervisors, one of whom is a continuing staff member of the University and the
   chief supervisor. Normally, the second member of the panel is also a continuing
   staff member of the University.

7. Candidates whose applications to enrol for the PhD are approved by the
   Postgraduate Studies Committee must enrol in the relevant Faculty or School of
   Studies and, subject to satisfactory progress, pursue their research for
   (a) at least two years, if they are enrolled on a full-time basis, or
   (b) at least four years, if they are enrolled on a part-time or mixed mode
       basis.

8. Enrolment is approved, in the first instance
   (a) for a maximum of four years if the candidate is enrolled on a full-time
       basis, or
   (b) for a maximum of eight years if the candidate is enrolled on a part-time
       or mixed mode basis.

9. Enrolment of all new candidates for the PhD approved by the Postgraduate
    Studies Committee is conditional for an initial period of six months.
    Confirmation of enrolment by the Postgraduate Studies Committee after the
    initial period of six months is subject to the submission by the candidate of
    (a) an acceptable research plan, and
(b) a report by the supervisors recommending confirmation of enrolment, and
(c) evidence of ethical approval or a statement confirming that it is not required, in accordance with the Ethical Conduct in Human Research and Related Activities Regulations 2008.

10. Candidates may apply to the Postgraduate Studies Committee for an extension to the conditional enrolment period of up to six months. If the candidate’s enrolment is not confirmed within 12 months of initial enrolment it will be terminated.

11. The Postgraduate Studies Committee has authority to terminate the enrolment of a candidate at any time if the candidate fails to demonstrate satisfactory progress or comply with any regulations or policies which relate to enrolment for the Degree.

12. A candidate may apply to the Postgraduate Studies Committee for a suspension from enrolment for a maximum of one year. A candidate is not entitled to access to supervision or any University resources during a period of suspension.

13. Following confirmed enrolment, candidates must submit six-monthly reports on the progress of their research work.

14. A PhD thesis may consist of either published or unpublished material, or a combination of both, and must be presented within the term of enrolment.

15. A candidate must indicate in the thesis any part that has been used or presented for any other degree.

16. Candidates must comply with the Dissertations and Theses Regulations 2006 which set out the University’s requirements with respect to the submission and presentation of theses.

17. The Postgraduate Studies Committee appoints at least two examiners for the candidate’s thesis who are external to the University and not directly connected with the candidate or the candidate’s research.

18. Provided that at least half of the examiners recommend that the thesis be accepted, an oral examination of the candidate is conducted.

19. The Postgraduate Studies Committee makes a final decision on the award of the Degree. On the basis of the final report of the examiners following the oral examination, the Postgraduate Studies Committee may resolve either
(a) that the thesis be accepted in its present form as fulfilling the requirements for the degree of Doctor of Philosophy, or
(b) that the thesis be accepted as fulfilling the requirements for the degree of Doctor of Philosophy, subject to the candidate undertaking minor amendments and/or correcting typographical errors as required by the examiners, to the satisfaction of the chief supervisor, or
(c) that the thesis be accepted subject to the candidate completing substantial amendments to the satisfaction of the examiners or chief supervisor, provided that these amendments are not so substantial as to necessitate re-submission and are completed within six weeks of the oral examination, or
(d) that the thesis is not acceptable in its present form and should be returned to the candidate, who may revise it and re-submit it for examination after a re-enrolment for a minimum period of six months, or
(e) that the thesis not be accepted for the degree of Doctor of Philosophy, but be accepted as fulfilling the requirements for the degree of Master of Philosophy, or
(f) that the candidate has failed to meet the required standard and that no degree be awarded.

20. A candidate may revise and re-submit a thesis only once.

21. A candidate may apply to the Postgraduate Studies Committee at any time between enrolment and submission of the thesis to transfer from a PhD to an MPhil.

22. Candidates who have concerns about standards of supervision or who wish to appeal against any process or decision of a supervisor, pro-Dean, Dean, or the Postgraduate Studies Committee with respect to their registration or the examination process may do so in writing to the Chairperson of the Postgraduate Studies Committee. If the matter is not resolved by the Chairperson of the Postgraduate Studies Committee to the satisfaction of the candidate, the candidate may refer his or her appeal to the Vice-Chancellor. The Vice-Chancellor will appoint a person or panel to investigate and will make a final decision based on the report of that person or panel.

23. These regulations may be varied or waived by the Postgraduate Studies Committee under delegated authority of the Academic Board.

Doctor of Education (EdD)

The regulations below set down the requirements for award of the EdD degree. Formal policies and procedures related to enrolment and examination for the EdD are set out in the Handbook for the Research Degrees of MPhil, PhD and EdD at the University of Waikato, which also includes information about administration matters and is available from the Postgraduate Studies Office or online.

Both regulations set out below and the formal policies and procedures set out in the Handbook for the Master of Philosophy and Doctorates at the University of Waikato are administered by the University’s Postgraduate Studies Committee by delegated authority of the Academic Board. Any changes to these regulations, or to the formal policies and procedures, are subject to approval by the Academic Board.

Regulations for the Degree of Doctor of Education (EdD)

1. The Degree is awarded to candidates who have successfully completed a programme of coursework and research in two parts as follows:
   1.1 Part 1 - Research Portfolio
   Candidates must gain a pass grade in the paper DSOE995 Research Portfolio.
   1.2 Part 2 - Thesis
   Candidates must undertake approved and supervised research, and present the results lucidly in a thesis which
   (i) critically investigates an approved topic of substance and significance, and
   (ii) demonstrates expertise in the methods of research and scholarship, and
   (iii) displays intellectual independence, and
(iv) makes a substantial original contribution to the subject area concerned and is of publishable quality.

2. To qualify to enrol for the EdD, candidates must have qualified for the award of a recognised teaching or allied professional qualification and must produce evidence of at least three years of competent service as an education practitioner. Candidates must also
   (a) have qualified for the award of a bachelors degree with honours or a masters degree, and must have achieved at least second class honours (first division) or distinction, or
   (b) have qualified for the award of the degree of Master of Philosophy, or
   (c) have passed qualifying papers at a satisfactory level, or
   (d) in exceptional circumstances have produced other evidence to the satisfaction of the Postgraduate Studies Committee that he or she has adequate skills and knowledge to proceed with the proposed research.

3. Candidates for the EdD must apply on the prescribed form which is available from the Postgraduate Studies Office.

4. Applications to enrol for the EdD and the conditions of enrolment are subject to approval by the Postgraduate Studies Committee under delegated authority of the Academic Board.

5. As one of the preconditions for the approval of an application to enrol, the Postgraduate Studies Committee will establish that the necessary supervision and resources can be provided for the chosen research topic. If either prior to, or at any time during the study period the University encounters staffing or resource difficulties beyond its control which impact on the availability of resources or supervision for a student’s EdD research, it will make all reasonable efforts, within budget and staffing constraints, to provide satisfactory arrangements so as not to disadvantage any affected student. Because of the specialist nature of research and supervision at this level, however, the University cannot guarantee that under such circumstances, a student’s conditions of enrolment will not be subject to change.

6. Candidates whose applications to enrol for the EdD are approved by the Postgraduate Studies Committee must enrol in the School of Education and, subject to satisfactory progress, pursue their coursework and research for
   (a) at least three years, if they are enrolled on a full-time basis, or
   (b) at least six years, if they are enrolled on a part-time or mixed mode basis.

7. Enrolment is approved, in the first instance
   (a) for a maximum of one year in Part 1 and a maximum of four years in Part 1 and Part 2 if the candidate is registered on a full-time basis, or
   (b) for a maximum of two years in Part 1 and a maximum of eight years in Part 1 and Part 2 if the candidate is registered on a part-time or mixed mode basis.

8. Initial enrolment is in Part 1. When the Dean of the School of Education has confirmed that candidates have passed Part 1 to the prescribed standards, candidates may apply for enrolment in Part 2.

9. On the recommendation of the Dean of the School of Education, candidates who have completed Part 1 but whose results are not yet confirmed may be permitted to apply to the Postgraduate Studies Committee for conditional enrolment in Part 2. Confirmation of enrolment by the Postgraduate Studies
Committee is subject to confirmation that the candidate has passed Part 1 to the prescribed standards.

10. For each candidate who proceeds to Part 2 of the EdD, the Postgraduate Studies Committee appoints a supervisory panel, one member of which is a continuing staff member of the University and the chief supervisor. Normally, a second member of the panel is also a continuing staff member of the University.

11. Candidates are required to maintain continuous enrolment throughout the entire period of their degree.

12. Notwithstanding section 11 of these regulations, candidates may apply to the Postgraduate Studies Committee for three-month periods of suspension of enrolment up to a maximum of one year in Part 1 and one year in Part 2. Candidates are not entitled to access supervision or any University resources during a period of suspension.

13. Candidates may apply to the Postgraduate Studies Committee for extension of enrolment.

14. The Postgraduate Studies Committee has authority to terminate the enrolment of a candidate at any time if the candidate fails to demonstrate satisfactory progress or comply with any regulations or policies which relate to enrolment for the Degree.

15. Candidates enrolled for Part 2 of the EdD must submit six-monthly reports on the progress of their research work.

16. An EdD thesis may consist of either published or unpublished material, or a combination of both, and must be presented within the term of enrolment.

17. Candidates must indicate in the thesis any component that has been used or presented for any other degree.

18. Candidates must comply with the Dissertations and Theses Regulations 2006 which set out the University’s requirements with respect to the submission and presentation of theses.

19. The Postgraduate Studies Committee appoints at least two examiners for the candidate’s thesis who are external to the University and not directly connected with the candidate or the candidate’s research.

20. Provided that at least half of the examiners recommend that the thesis be accepted, an oral examination of the candidate is conducted.

21. The Postgraduate Studies Committee makes a final decision on the award of the Degree. On the basis of the final report of the examiners following the oral examination, the Postgraduate Studies Committee will resolve either

(a) that the thesis be accepted in its present form as fulfilling the requirements of Part 2 for the EdD, or

(b) that the thesis be accepted as fulfilling the requirements of Part 2 for the EdD subject to the candidate undertaking minor amendments and/or correcting typographical errors as required by the examiners, to the satisfaction of the chief supervisor, or

(c) that the thesis be accepted as fulfilling the requirements of Part 2 for the EdD subject to the candidate completing substantial amendments to the satisfaction of all the examiners or the chief supervisor, provided that these amendments are not so substantial as to necessitate re-submission and are completed within six weeks, or
that the thesis is not acceptable in its present form and be returned to
the candidate, who may revise it and re-submit it for examination after a
re-enrolment for a minimum period of six months, or
(e) that the thesis is not acceptable for the EdD but should be accepted as
fulfilling the requirements of the degree of Master of Education or Master
of Philosophy, or
(f) that the candidate has failed to meet the required standard and that no
degree be awarded.

22. Candidates will be permitted to revise and re-submit a thesis only once.
23. Candidates who have completed Part 1 of the Degree, but who have not
qualified to proceed to Part 2 may apply to the Dean of Education to transfer to
the Postgraduate Diploma of Education
24. Candidates may apply to the Dean of the School of Education, at any time
during Part 2 of the EdD before submission of the thesis, to transfer to the MEd.
25. Candidates may apply to the Postgraduate Studies Committee, at any time
during Part 2 of the EdD before submission of the thesis, to transfer to the
MPhil.
26. Candidates who have concerns about standards of supervision or who wish to
appeal against any process or decision of a supervisor, pro-Dean, Dean, or the
Postgraduate Studies Committee with respect to their registration or the
examination process may do so in writing to the Chairperson of the
Postgraduate Studies Committee. If the matter is not resolved by the
Chairperson of the Postgraduate Studies Committee to the satisfaction of the
candidate, the candidate may refer his or her appeal to the Vice-Chancellor. The
Vice-Chancellor will appoint a person or panel to investigate and will make a
final decision based on the report of that person or panel.
27. These regulations may be varied or waived by the Postgraduate Studies
Committee under delegated authority of the Academic Board.

Regulations for the Degree of Doctor of Juridical Science (SJD)
1. The Degree is awarded to candidates who have successfully completed a
programme of coursework and research in two parts as follows:
   1.1 Part 1 - Research Portfolio
       Candidates must gain a pass grade in the paper LAWS995 Research
       Portfolio.
   1.2 Part 2 - Thesis
       Candidates must undertake approved and supervised research, and
       present the results lucidly in a thesis which
       (i) critically investigates an approved topic of substance and
           significance, and
       (ii) demonstrates expertise in the methods of research and
           scholarship, and
       (iii) displays intellectual independence, and
       (iv) makes a substantial original contribution to the subject area and is
           of publishable quality.
2. To qualify to enrol for the SJD, candidates must
   (a) have qualified for the award of a bachelor’s degree with honours or a
       masters degree, and must have achieved at least second class honours
       (first division) or distinction, or
   (b) have qualified for the award of the degree of Master of Philosophy, or
   (c) have passed qualifying papers at a satisfactory level, or
   (d) in exceptional circumstances have produced other evidence to the
       satisfaction of the Postgraduate Studies Committee that he or she has
       adequate skills and knowledge to proceed with the proposed research.

3. Candidates for the SJD must apply on the prescribed form which is available
   from the Postgraduate Studies Office.

4. Applications to enrol for the SJD and the conditions of enrolment are subject to
   approval by the Postgraduate Studies Committee under delegated authority of
   the Academic Board.

5. As one of the preconditions for the approval of an application to enrol, the
   Postgraduate Studies Committee will establish that the necessary supervision
   and resources can be provided for the chosen topic. If either prior to, or at any
   time during the study period the University encounters staffing or resource
   difficulties beyond its control which impact on the availability of resources or
   supervision for a student’s SJD research, it will make all reasonable efforts,
   within budget and staffing constraints, to provide satisfactory arrangements so
   as not to disadvantage any affected student. Because of the specialist nature of
   research and supervision at this level, however, the University cannot guarantee
   that under such circumstances, a student’s conditions of enrolment will not be
   subject to change.

6. Candidates whose applications to enrol for the SJD are approved by the
   Postgraduate Studies Committee must enrol in the School of Law and, subject
   to satisfactory progress, pursue their coursework and research for
   (a) at least three years, if they are enrolled on a full-time basis, or
   (b) at least six years, if they are enrolled on a part-time or mixed mode basis.

7. Enrolment is approved, in the first instance
   (a) for a maximum of one year in Part 1 and a maximum of four years in Part
       1 and Part 2 if the candidate is registered on a full-time basis, or
   (b) for a maximum of two years in Part 1 and a maximum of eight years in
       Part 1 and Part 2 if the candidate is registered on a part-time or mixed
       mode basis.

8. Initial enrolment is in Part 1. When the Dean of the School of Law has
   confirmed that candidates have passed Part 1 to the prescribed standards,
   candidates may apply for enrolment in Part 2.

9. On the recommendation of the Dean of the School of Law, candidates who
   have completed Part 1 but whose results are not yet confirmed may be
   permitted to apply to the Postgraduate Studies Committee for conditional
   enrolment in Part 2. Confirmation of enrolment by the Postgraduate Studies
   Committee is subject to confirmation that the candidate has passed Part 1 to
   the prescribed standards.

10. For each candidate who proceeds to Part 2 of the SJD, the Postgraduate Studies
    Committee appoints a supervisory panel, one member of which is a continuing
    staff member of the University and the chief supervisor. Normally, a second
    member of the panel is also a continuing staff member of the University.
11. Candidates are required to maintain continuous enrolment throughout the entire period of their degree.

12. Notwithstanding section 11 of these regulations, candidates may apply to the Postgraduate Studies Committee for three-month periods of suspension of enrolment up to a maximum of one year in Part 1 and one year in Part 2. Candidates are not entitled to access supervision or any University resources during a period of suspension.

13. Candidates may apply to the Postgraduate Studies Committee for extension of enrolment.

14. The Postgraduate Studies Committee has authority to terminate the enrolment of a candidate at any time if the candidate fails to demonstrate satisfactory progress or comply with any regulations or policies which relate to enrolment for the Degree.

15. Candidates enrolled for Part 2 of the SJD must submit six-monthly reports on the progress of their research work.

16. An SJD thesis may consist of either published or unpublished material, or a combination of both, and must be presented within the term of enrolment.

17. Candidates must indicate in the thesis any component that has been used or presented for any other degree.

18. Candidates must comply with the Dissertations and Theses Regulations 2006 which set out the University’s requirements with respect to the submission and presentation of theses.

19. The Postgraduate Studies Committee appoints at least two examiners for the candidate’s thesis who are external to the University and not directly connected with the candidate or the candidate’s research.

20. Provided that at least half of the examiners recommend that the thesis be accepted, an oral examination of the candidate is conducted.

21. The Postgraduate Studies Committee makes a final decision on the award of the Degree. On the basis of the final report of the examiners following the oral examination, the Postgraduate Studies Committee will resolve either
   (a) that the thesis be accepted in its present form as fulfilling the requirements of Part 2 for the SJD, or
   (b) that the thesis be accepted as fulfilling the requirements of Part 2 for the SJD subject to the candidate undertaking minor amendments and/or correcting typographical errors as required by the examiners, to the satisfaction of the chief supervisor, or
   (c) that the thesis be accepted as fulfilling the requirements of Part 2 for the SJD subject to the candidate completing substantial amendments to the satisfaction of all the examiners or the chief supervisor, provided that these amendments are not so substantial as to necessitate re-submission and are completed within six weeks, or
   (d) that the thesis is not acceptable in its present form and be returned to the candidate, who may revise it and re-submit it for examination after a re-enrolment for a minimum period of six months, or
   (e) that the thesis is not acceptable for the SJD but should be accepted as fulfilling the requirements of the degree of Master of Laws or Master of Philosophy, or
22. Candidates will be permitted to revise and re-submit a thesis only once.
23. Candidates who have completed Part 1 of the Degree, but who have not qualified to proceed to Part 2 may apply to the Dean of the School of Law to transfer to the Master of Laws.
24. Candidates may apply to the Dean of the School of Law, at any time during Part 2 of the SJD before submission of the thesis, to transfer to the LLM.
25. Candidates who have completed Part 1 of the Degree, but who have not qualified to proceed to Part 2 may apply to the Dean of the School of Law to transfer to the Master of Laws.
26. Candidates who have concerns about standards of supervision or who wish to appeal against any process or decision of a supervisor, pro-Dean, Dean, or the Postgraduate Studies Committee with respect to their registration or the examination process may do so in writing to the Chairperson of the Postgraduate Studies Committee. If the matter is not resolved by the Chairperson of the Postgraduate Studies Committee to the satisfaction of the candidate, the candidate may refer his or her appeal to the Vice-Chancellor. The Vice-Chancellor will appoint a person or panel to investigate and will make a final decision based on the report of that person or panel.
27. These regulations may be varied or waived by the Postgraduate Studies Committee under delegated authority of the Academic Board.

Regulations for the Degrees of Doctor of Laws (LLD), Doctor of Literature (DLit) and Doctor of Science (DSc)

1. The degree of Doctor of Laws, Doctor of Literature, or Doctor of Science shall be awarded for original work of special excellence in the appropriate field of knowledge and published in a scholarly journal, monograph, or book available to the general public.
2. A candidate for the degree of Doctor of Laws, Doctor of Literature, or Doctor of Science shall be a graduate of the University of Waikato or of the University of New Zealand or shall have been granted the right to proceed to that degree under the regulations for admission ad eundem statum.
3. No candidate shall present himself or herself for the degree of Doctor of Laws, Doctor of Literature, or Doctor of Science until at least ten years after graduation to his or her first degree.
4. A candidate for the degree shall forward his or her application to the Director of the Student and Academic Services Division accompanied by
   (a) four copies of the published work on which the application is based, one of which shall be bound in the form prescribed for presentation to the Library, and
   (b) a short discourse on the nature of the candidate’s work, and
   (c) a statutory declaration which shall
      (i) state the extent to which the work is the candidate’s own, and (in the case of a conjoint work) identify as clearly as possible which parts are the candidate’s own, and
(ii) state what portion (if any) of the work submitted has been previously presented for a degree or diploma of the University of Waikato or any other university, and

(iii) declare that the work in substantially its present form has not been previously accepted for the award of a degree or diploma in this or any other university and is not being concurrently submitted for a degree or diploma in any other university.

(d) the charge prescribed in the Fees and Charges section published in the University of Waikato Calendar.

5. Upon receiving the application, the Academic Board may at its discretion appoint a moderator who shall submit to the Director of the Student and Academic Services Division a preliminary report on the candidate's work and a recommendation as to whether the examination should proceed or whether the candidate should be advised to withdraw the application. A candidate shall not be obliged to withdraw the application if so advised, but withdrawal upon such advice shall entitle him or her to the refund of two-thirds of the fee (excluding GST) required under section 4(d) of these regulations.

6. If the examination is to proceed, the candidate's work shall be submitted to three examiners appointed by the Academic Board, at least two of whom shall be external to the University. Each examiner shall

(a) report independently on the quality of the work and its value as a significant contribution to learning, and

(b) recommend to the Academic Board whether or not the degree should be awarded, provided that where the recommendation is that the degree should not be awarded the examiner may recommend that the candidate be allowed to re-present his or her work supplemented by additional published work. A re-presentation permitted by the Academic Board under this regulation shall be accompanied by a further full examination charge.

8. The Dean or delegated authority may vary or waive these regulations in individual cases.

Regulations for the Postgraduate Diploma in Psychology (Clinical) (PGDipPsych(Clin))

1. The Personal Programmes of Study Regulations apply in these regulations.

Admission

2. Candidates for the Postgraduate Diploma must have
   (a) normally completed the degree of Bachelor of Social Sciences with Honours of the University of Waikato in Psychology, or a qualification considered by the Academic Board to be equivalent, or
   (b) been granted the right to proceed to the Postgraduate Diploma under the admission ad eundem statum regulations.

3. Candidates for the Postgraduate Diploma must
   (a) be concurrently enrolled in one of the degrees of Master of Social Sciences, Master of Philosophy, or Doctor of Philosophy of the University of Waikato, or a qualification considered by the Academic Board to be equivalent, with a research topic approved by the Chairperson of the Department of Psychology, and shall complete the requirements of the concurrent degree before being eligible for the award of the Postgraduate Diploma, or
   (b) have completed one of the degrees of Master of Social Sciences, Master of Philosophy or Doctor of Philosophy of the University of Waikato, or a qualification considered by the Academic Board to be equivalent, with a research topic approved by the Chairperson of the Department of Psychology.
4. The admission of every candidate for the Postgraduate Diploma shall require the approval of the Chairperson of the Psychology Department.

Requirements for the Postgraduate Diploma

5. The normal minimum period of enrolment for completion of the Postgraduate Diploma is three years.

6. Candidates must enrol in the Faculty of Arts and Social Sciences and follow an approved programme of study.

7. The programme of study of each candidate, including, where appropriate, the concurrent programme of study for the Bachelor of Social Sciences with Honours degree, shall require the approval of the Academic Board.

8. Every candidate for the Postgraduate Diploma shall
   (a) complete 80 points as prescribed in the Psychology entry in the University of Waikato Calendar for the appropriate option and shall pass the appropriate examinations, and
   (b) undertake such practical and placement work as may be prescribed by the Academic Board, and
   (c) undertake an internship of one year’s duration (60 points) in a setting approved by the Academic Board or present evidence, satisfactory to the Academic Board, of equivalent training.

9. The University will endeavour to arrange placements which will allow a candidate to undertake the practical and placement work referred to in sections 8(b) and 8(c) of these regulations but cannot guarantee to make such arrangements in a given year. If an approved internship position cannot be arranged, placement of a student may be deferred, normally for a maximum of 12 months. As placements become available priority will be given to students for whom they have been deferred.

10. Every candidate must, before presenting himself or herself for the final examination for the Postgraduate Diploma, possess a certificate from the Chairperson of the Psychology Department that he or she has satisfactorily completed the requirements of sections 8(b) and 8(c) of these regulations. The procedures and criteria for assessing the personal and professional competencies central to the satisfactory completion of the requirements referred to in sections 8(b) and 8(c) of these regulations shall be as prescribed from time to time in the department’s graduate handbook and the appropriate course outlines.

11. Every candidate for the Postgraduate Diploma shall present himself or herself for such final oral, practical, or other examination as may be required by the Academic Board.

Variations

12. The Dean or delegated authority may vary or waive these regulations in individual cases.

Enrolment for Individual Paper Credit (IPC)

Students may be permitted to enrol in a paper without enrolling for a particular qualification. This may be because they have no intention of completing a full qualification, or because the paper is being taken for the purposes of qualifying for admission to a specific qualification. Alternatively, the student may be taking the paper for credit towards a qualification at another institution. Enrolments of this nature are recorded as ‘Individual Paper Credit’ (IPC) enrolments.

Regulations Governing Enrolment for Individual Paper Credit (IPC)

1. A candidate who enrols on an IPC basis is liable for all fees and charges prescribed for the paper(s) and must meet any requirements specified in the prescription and paper outline.
2. Enrolment on an IPC basis is subject to the approval of the Dean or Director of the College, Faculty or School of Studies in which the paper is offered.
3. A candidate who has passed a paper taken on an IPC basis may, at a later date, apply to have the paper credited to a University of Waikato qualification. Approval will be based on the regulations for the qualification concerned.
4. A student enrolled on an IPC basis is subject to all general regulations of the University of Waikato.
5. A candidate who completes a paper on an IPC basis will receive official notification of his or her final results from the University of Waikato, and will be eligible to apply for an academic transcript.
Prescriptions for Papers

The following pages contain a brief introduction to the subjects and papers offered by the University. Subjects are set out in alphabetical order. A brief description may be given of the content of each paper as well as equivalents and restrictions, prerequisites and corequisites, required book information, and the internal assessment/examination ratio. Students also receive a paper outline when classes start, which provides more detail about the content, reading and assessment requirements for each paper.

In addition to the papers listed, departments may offer 800 and 900 level papers for MPhil and PhD students. Prospective students are advised to consult the Postgraduate Studies Office and the Chairperson of the Department concerned for more information.

The prescriptions refer to the papers which the University expects to offer. The availability of these papers is subject to change if the University encounters unexpected staffing or resource difficulties.

In all cases where it is necessary to cancel papers, the Policy and Procedure for the Cancellation of Papers will apply, as approved by the Academic Board. Copies are available from the Student and Academic Services Division.

In the prescriptions, each paper is identified by an alpha-numeric code. For example:

HIST107-09B (HAM)  New Zealand Histories: Fresh Perspectives
HIST 107 This is the subject code. In this case, History.
09B This is the year and semester in which the paper is taught.
(HAM) This is the location where the paper is taught.

A prerequisite must be passed before a student may enrol in the paper for which the prerequisite is specified. For example, FREN231 French Language Intermediate 1 is a prerequisite for FREN232 French Language Intermediate 2. Students may not enrol in FREN232 until they have passed FREN231. (A paper for which a Restricted Pass (RP) has been awarded will not be accepted as meeting the prerequisite requirements for any other paper unless the Dean or Director of the College, Faculty or School of Studies in which the other paper is offered approves otherwise.)

A corequisite must be taken in association with the paper for which the corequisite is specified. For example ENEL324 Optoelectronics is a corequisite for ENEL382 High Speed Communications. You may enrol in ENEL382 only if you have either already passed ENEL324 or are concurrently enrolled in it.

Equivalent papers are in effect the same papers, one of which was taught in the past with a different paper code. For example ACCT331 Management Accounting is equivalent to ACCT311 Management Accounting. Students who have completed ACCT311 may not receive credit for ACCT331.
Restricted papers share a significant amount of common content. Students may therefore receive credit for only one of the papers listed. For example JAPA101 Basic Japanese: Part A is a restriction for JAPA231 Japanese for Beginners 2: Part A. Restricted papers may not be used to satisfy prerequisite or corequisite requirements.

The required books which may be listed under some of the prescriptions are a conservative list only. Additional required books may be prescribed during the academic year. Lists of recommended reading are usually included in the paper outline provided by the department concerned.

The internal assessment/examination ratio is provided for all papers. The ratio indicates how much of the paper is internally assessed and how much is formally examined. The ratio 1:0 means a paper is fully internally assessed, while the ratio 1:1 shows that the assessment for the paper is evenly weighted between internal assessment and an examination. Examinations are scheduled in a formal examination period. All A semester papers which are not fully internally assessed will be examined at mid-year unless otherwise specified. Tests that form part of the internal assessment requirements may be held outside normal lecture hours.

Teaching activities for all undergraduate papers are listed in the Timetable. Teaching activities, including lectures, tutorials, laboratories and workshops, are scheduled to last 50 minutes and begin on the hour until (and including) 12 noon, and at 10 minutes past the hour from 1:10 p.m. This allows a lunch break of 20 minutes from 12:50 p.m. to 1:10 p.m. for students with continuous teaching activity commitments. Normal teaching hours are between 8.00 a.m. and 6.00 p.m.

A semester is a period for which students enrol in papers, attend classes and submit assessment items. The University of Waikato has two standard semesters (A and B), which each normally comprise 17 weeks. There are also two intensive summer semesters - Summer School 1, normally comprising 8 weeks in January/February, and Summer School 2, normally comprising 6 weeks in November/December. The semester period includes teaching as well as any study weeks, and an examination period. The exact duration of semesters in a particular year is defined by week numbers in the Teaching and Assessment Periods on page 10.

2009:  
A semester, weeks 10-26  
B semester, weeks 29-45  
Summer School 1, weeks 2-9  
Summer School 2, weeks 46-51

Some papers have start and end dates which differ from the standard semesters set out above. Papers which extend across both the A and B semesters are annotated as Y papers. Papers which are taught in non-standard periods have a C, D, or E etc. suffix.

The period for which a student is eligible for loans and/or allowances, is calculated on the basis of the exact start and end weeks of papers. Students are advised of the start and end dates of their papers in the relevant paper outlines.

**Accounting**

Accounting is a common language of business and underpins almost all business and organisational activities. An understanding of the role of accounting in providing and interpreting information for decision-making in organisations is important for all managers, regardless of their area of specialisation. The academic requirements of the New Zealand Institute of Chartered Accountants can be satisfied with an appropriate selection of papers.

Accounting is available as a major for the BBA(Fin) and BMS. Accounting may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled. The requirements for the BBA(Fin) and BMS majors are prescribed in the Waikato Management School Student Handbook.

To complete a second major in Accounting for degrees other than the BBA(Fin) and BMS, students must gain 120 points above 100 level in Accounting, including ACCT209, either ACCT202 or ACCT231, and at least 60 points above 200 level.

**Note on Assessment:** To be eligible to pass these papers students should normally achieve a minimum grade of D in the internal assessment and the final examination, and an overall grade of C.

**Note:** Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Accounting papers at 200 level, and at least 180 points, including 60 points at 200 level, in any subject(s) before enrolling in Accounting papers at 300 level.

Agribusiness

Agribusiness incorporates all business and associated organisations that are part of the agricultural sector. In a small, remote economy such as New Zealand successful agribusiness relies on the ability to understand the operation of competitive global markets, sustainable farm systems, international marketing and the management of complex and extended supply chains. Agribusiness builds knowledge and skills in management and economics of particular relevance to the agribusiness sector.

A Graduate Diploma in Agribusiness is available. The requirements for the Graduate Diploma are prescribed in the Waikato Management School Student Handbook.

American Studies

The American continent, from Canada to Chile, includes the world’s most powerful nation and a variety of different cultures. Papers in American Studies inform students about the cultures, the history, the literature, and the politics of the countries that make up the Americas. American Studies is an interdisciplinary programme combining papers from four areas:

- English, Music, Screen and Media Studies, Theatre Studies
- History
- Political Science, Public Policy, Sociology
- Latin America (SPAN205, SPAN305 and SPAN390)

American Studies is available as a major for the BA. American Studies may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in American Studies, students must gain 120 points above 100 level in American Studies, including at least 60 points above 200 level. It is recommended that students intending to major or complete a supporting subject in American Studies include ENGL108 or HIST105 in the first year of their programme of study.

Students should plan their individual programmes in consultation with the Convenor of American Studies.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in American Studies papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in American Studies papers above 200 level.

Animal Behaviour

Animal Behaviour is the study of behaviour patterns in animals (including humans), and of how the behaviour of individuals helps to determine the density and distribution of populations. A knowledge of animal behaviour is of increasing importance in areas such as evolutionary biology, conservation biology, and the efficient and humane management of farm animals. Animal Behaviour is available as a major for the BSc and BSc(Tech). Animal Behaviour may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled. To complete a major in Animal Behaviour, students must gain 120 points above 100 level in Animal Behaviour, comprising BIOL234, PSYC206, PSYC225, either PSYC226 or PSYC227, BIOL333, BIOL338 and PSYC314. It is recommended that students intending to major in Animal Behaviour include STAT121 and STAT221 in their programme of study.

Note on Assessment: Māori language tutorials can be arranged on request, subject to the availability of tutors. However, because of the technical nature of the terminology and accepted international practice, this subject requires that assessment for all papers be presented in English.

Anthropology

Broadly speaking, Anthropology can be defined as ‘the study of humanity’. Anthropologists at the University of Waikato are particularly concerned with sociocultural anthropology - the comparative study of the whole range of human societies and cultures, from tribal and peasant through to industrial and global. Here, the distinguishing methodology is the ‘ethnographic’ or ‘face-to-face’ study of specific communities and lifeways. The Pacific region, with its diverse societies and cultures, is the main focus of teaching and research in Anthropology.

Anthropology is available as a major for the BA and BSocSc. Anthropology may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Anthropology, students must gain 120 points above 100 level in Anthropology, including ANTH203 and at least 60 points above 200 level. It is recommended that students intending to major in Anthropology include ANTH101 and ANTH102 in the first year of their programme of study in order to meet prerequisites for study at 200 level and above. With the specific approval of the Subject Convenor of Anthropology, Department of Societies and Cultures, students may include TOST300.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Anthropology papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Anthropology papers above 200 level.

Arts and Language Education

Arts and Language Education is concerned with the study of teaching and learning English, art, music, dance and drama in the early childhood, primary and secondary education sectors. Subject studies in art, children’s literature, music, dance and drama are also offered to enhance the knowledge base of students in these areas. In addition, the Department offers a postgraduate programme in language and literacy education.

Papers with the subject code ALED are Subject Studies papers and may be taken by any student, with the approval of the appropriate Dean. Papers with the subject code TEAL are Professional Education papers and are only available to students enrolled in a School of Education teacher education programme.

Note: The (NET) offerings may include an on-campus component.

Asian Studies

With a dramatic increase in our exports to Asian countries (from 12% in 1970 to about 40% today, and likely to be 60% by 2010), it has become imperative for young New Zealanders to study the culture, society and languages of our Asian neighbours. Asian Studies is an interdisciplinary subject concerned with the study of Asia in its various aspects. Asian Studies is available as a major for the BA and BSoCSc. Asian Studies may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Asian Studies, students must gain 120 points above 100 level in Asian Studies, including at least 60 points above 200 level. Students must include one of CHIN203, CHIN303, JAPA205 (before 2008), JAPA208, or JAPA209. It is recommended that students intending to major in Asian Studies include HUMA101, POLS104 and either ASIA102 or ASIA103 in the first year of their programme of study. Students are encouraged to consider taking one of the Asian languages as a supporting subject. In exceptional circumstances, and with the approval of the Convenor of the Asian Studies programme, students may include up to two Asian language papers in the Asian Studies major.

To complete a supporting subject in Asian Studies, students must include at least one of CHIN203, CHIN303, JAPA205 (before 2008), JAPA208, or JAPA209. At the discretion of the Convenor of Asian Studies, one Asian language paper may be counted towards Asian Studies as a supporting subject.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Asian Studies papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Asian Studies papers above 200 level. There will be no new intake into the Asian Studies major in 2009; however it is available as a supporting subject.

Biochemical Engineering

The Biochemical Engineering programme covers the production and processing of biochemicals and related materials, including the design and operation of bioreactors and bioseparation processes. The programme consists of the traditional process engineering fundamentals with chemistry, advanced biochemistry and microbiology. This programme provides an excellent basis for a career in the bioprocess, food and pharmaceutical industries focusing on developing highly valuable products.

Biochemical Engineering is available as a specified programme for the BE.

To complete the specified programme in Biochemical Engineering, students must follow the following programme.

Note: Amendments to the Biochemical Engineering programme are subject to approval by the NZVCC’s Committee on University Academic Programmes (CUAP).

**Biochemistry**

Biochemistry is the explanation of life in molecular terms. It involves the study of proteins, lipids, carbohydrates and nucleic acids which are the fundamental molecules of life. Biochemists try to understand how these molecules interact in living organisms, in health and disease. Biochemistry is one of the fastest growing areas of modern science. By taking a combination of papers from both Biological sciences and Chemistry students will gain a solid grounding in the molecular and chemical principles underlying Biochemistry.

Biochemistry is available as a major for the BSc and BSc(Tech). Biochemistry may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled. To complete a major in Biochemistry, students must gain 120 points above 100 level in Biochemistry, comprising BIOL210, BIOL251, CHEM201, BIOL310, BIOL351 and CHEM301. As well as the 100 level prerequisites specified for papers at 200 level and above, it is recommended that students intending to major in Biochemistry include BIOL102, CHEM101 and STAT121 in the first year of their programme of study. BIOL362, CHEM204 and CHEM306 are recommended to be included in students' overall programme of study.

**Note on Assessment:** Māori language tutorials can be arranged on request, subject to the availability of tutors. However, because of the technical nature of the terminology and accepted international practice, this subject requires that assessment for all papers be presented in English.

**Biological Sciences**

Biological Sciences incorporates the major traditional biological disciplines of Botany, Microbiology and Zoology with the interdisciplinary subjects of Biochemistry, Physiology, Genetics, Ecology and Behaviour.

Biological Sciences is available as a major for the BSc and BSc(Tech). Biological Sciences may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Biological Sciences, students must gain 120 points above 100 level in Biological Sciences, including 60 points above 200 level. Students must include at least 15 points in each of molecular biology and organism biology, as outlined in the School of Science and Engineering Undergraduate Handbook. It is recommended that students intending to major in Biological Sciences include BIOL101 and BIOL102 in the first year of their programme of study.

Within the BSc and BSc(Tech) Biological Sciences majors, a specialisation in Restoration Ecology is available. Details of the specialisation requirements can be obtained from the School of Science and Engineering.

Prospective MSc candidates should discuss their 300 level papers with the Chairperson of Biological Sciences in order to ensure that a suitable number and combination of papers are taken.

**Note on Assessment:** Māori language tutorials can be arranged on request, subject to the availability of tutors. However, because of the technical nature of the terminology and accepted international practice, this subject requires that assessment for all papers be presented in English.

**Note:** NCEA Level 3 Biology is recommended for students intending to study Biological Sciences. Students who do not have credits in NCEA Level 3 Biology, or equivalent, are advised to discuss their options with the first-year student mentor. Foundation Biology and Gateway to Science classes provide the prior knowledge required for studying 100 level papers in Biological Sciences.

### 100 level

**BIOL101-09B (HAM) & 09B (SEC)**
Cellular and Molecular Biology
15 Points
An examination of the ultrastructure and function of cells and the energy flow in photosynthesis, respiration and metabolism. Topics include an introduction to microbiology and immunology, DNA as biological information, its transfer and variability, including recombinant DNA, and the principles of evolution.

**Required book(s):** Campbell & Reece Biology 7th edition (Benjamin Cummings)

**Internal assessment/examination ratio:** 1:1

**BIOL102-09A (HAM) & 09A (SEC)**
The Biology of Organisms
15 Points
An introduction to the structure and function of eukaryotes and the principles of ecology. Topics include the diversity and function of protists, fungi, plants and animals; particularly nutrient procurement and processing, gaseous exchange, internal transport, regulation of body fluids, control mechanisms, reproduction and development.

**Required book(s):** Campbell & Reece Biology 7th edition (Benjamin Cummings)

**Internal assessment/examination ratio:** 1:1

200 level

BIOL201-09A (HAM)
Evolution and Diversity of Life
20 Points
This paper examines the evolution and diversity of life. Topics include the history and philosophy of evolutionary thought; present-day evidence of evolution in plant, animal and bacterial taxa; modern methods of analysing this evidence; discussion of the mechanisms of evolution. This paper should be regarded as essential by all students of biology.
Prerequisite(s): BIOL101 or BIOL102
Internal assessment/examination ratio: 1:1

BIOL210-09B (HAM)
Introduction to Genetics
20 Points
A study of DNA and genomes, and the organisation and expression of genes. Topics include mutational and recombinational systems including recombinant DNA technology, Mendelian inheritance, chromosomes, genotype and phenotype and population genetics.
Prerequisite(s): BIOL101
Internal assessment/examination ratio: 1:2

BIOL212-09A (HAM)
Ecology
20 Points
This paper covers the principles of ecology, including adaptation to environment, species interactions, population dynamics, biogeography and conservation ecology. Weekend field trips and computer laboratory work are essential elements.
Prerequisite(s): BIOL101
Required book(s): R.L. Smith and T.M. Smith
Ecology and Field Biology 2001 edition (Benjamin Cummings)
Internal assessment/examination ratio: 1:1

BIOL223-09B (HAM)
Plant Biology and Ecology
20 Points
An introduction to the structure and adaptation of plants, diversity, reproduction and evolution. Laboratory work emphasises practical handling of plants. This paper provides a foundation for advanced plant papers, and complements BIOL226.
Prerequisite(s): BIOL102
Internal assessment/examination ratio: 1:1

BIOL226-09C (BLK)
Flora of Aotearoa/New Zealand
20 Points
A paper for students interested in New Zealand's native and naturalised flora, with an emphasis on identification of plants and plant systematics. A two day field trip will be held as part of this paper.
Internal assessment/examination ratio: 1:0
When Taught: 09C (BLK) weeks 6-26

BIOL227
Flora of the Pacific
20 Points
This paper will not be taught in 2009.

BIOL234-09A (HAM)
Functional Animal Biology
20 Points
A study of the basic principles and mechanisms of the physiology of animals, their environmental adaptations and an introduction to animal behaviour.
Prerequisite(s): BIOL102
Internal assessment/examination ratio: 2:3

BIOL235-09B (HAM)
Humans and Other Mammals: Structure and Function
20 Points
A study of the tissues and organs of the body, the structure and functioning of the nervous and endocrine systems, the musculoskeletal system, digestion, respiration, circulation, reproduction and development. Health and social issues are considered.
Prerequisite(s): BIOL102
Internal assessment/examination ratio: 2:3

BIOL241-09A (HAM)
Microbiology: Form, Function and Metabolism
20 Points
An introduction to the structure, physiology, ecology and taxonomy of bacteria.
Restriction(s): ENMP325
Prerequisite(s): BIOL101 or BIOL102
Required book(s): M.T. Madigan, J.M. Martinko and J. Parker
Brock Biology of Microorganisms 11th edition (Prentice Hall)
Internal assessment/examination ratio: 1:2
BIOL251-09A (HAM)
Biochemistry
20 Points
A foundation paper for biochemistry and a service paper for those specialising in other areas in biology and chemistry. Topics covered include proteins, enzymes, bioenergetics, metabolism, metabolism of amino acids, carbohydrates and lipids and nutrition.
Prerequisite(s): BIOL101 and CHEM102
Internal assessment/examination ratio: 1:1

BIOL271-09C (HAM)
Biology Placement 1
20 Points
This paper requires a period of work experience in an appropriate and approved industry or applied field. Assessment is by written reports and employer feedback. This paper may be counted only towards the BSc(Tech) degree.

300 level

BIOL307-09A (HAM), 09B (HAM), 09C (HAM) & 09Y (HAM)
Special Topic
20 Points
Students carry out an investigation, theoretical and/or practical, in almost any area of biological sciences. Recommended for those considering further degrees. This paper is not normally counted towards the three 300 level papers required for a Biological Sciences major.
Internal assessment/examination ratio: 1:0
Note: Entry into this paper is at the discretion of the Chairperson of Department only.

BIOL308
Research Exercises
20 Points
This paper will not be taught in 2009.

BIOL310-09A (HAM)
Advanced Genetics
20 Points
A study of advanced microbial and eukaryotic genetics, DNA topology, nucleotide sequencing, regulation of gene expression, uses of recombinant DNA technology, and population genetics.
Prerequisite(s): BIOL210
Internal assessment/examination ratio: 1:1

BIOL312-09A (HAM)
Applied Terrestrial Ecology
20 Points
An introduction to a range of terrestrial ecosystems. Topics covered include historical ecology, conservation genetics, conservation ecology, forest ecosystems, wetland ecosystems, special ecosystems, and Antarctic ecosystems. There is a compulsory practical requirement including attendance at field trips.
Prerequisite(s): BIOL212
Internal assessment/examination ratio: 3:2

BIOL313-09B (HAM)
Applied Freshwater Ecology
20 Points
An introduction to the ecology of lakes and rivers. Topics covered include the structure and function of major freshwater communities, fish and fisheries, human impacts and the management of inland waters.
Prerequisite(s): BIOL212
Internal assessment/examination ratio: 2:3

BIOL314-09A (HAM)
Marine Biology and Monitoring
20 Points
An introduction to the structure and function of marine ecosystems. This paper also covers human impacts on marine environments, including fisheries, as well as the design of ecological surveys and experiments. Field trip and practical classes are integral to the course.
Prerequisite(s): BIOL212
Internal assessment/examination ratio: 1:1
BIOL325-09A (HAM)  
Plant Function  
20 Points  
The focus of this paper is on understanding the ecophysiology of plants. Topics covered include photosynthesis and factors that control productivity, including stress effects. A multi-day field trip concentrates on determining the performance of native species.  
Prerequisite(s): BIOL223  
Internal assessment/examination ratio: 1:1  

BIOL326-09B (HAM)  
Advanced Topics in Plant Biology  
20 Points  
This paper will cover advanced aspects of three areas of topical interest such as restoration ecology, plant island biogeography, and ecophysiological responses of plants. This paper is essential to those interested in pursuing a Masters degree in all areas of plant science.  
Internal assessment/examination ratio: 1:1  

BIOL333-09B (HAM)  
Advanced Animal Behaviour  
20 Points  
This paper examines the development, causation, function and evolutionary history of vertebrate and invertebrate behaviour. It applies behavioural information to conservation biology and animal welfare.  
Prerequisite(s): BIOL234  
Internal assessment/examination ratio: 2:3  

BIOL335-09A (HAM)  
Mammalian Physiology  
20 Points  
An examination of selected aspects of mammalian physiology, normally including the physiology of respiration, digestion, muscle, reproduction and lactation.  
Prerequisite(s): BIOL234 or BIOL235  
Internal assessment/examination ratio: 2:3  

BIOL338-09B (HAM)  
Advanced Zoology  
20 Points  
An examination of the evolutionary biology of animals, including structure, function and physiological adaptation to extreme environments.  
Prerequisite(s): BIOL201 or BIOL234  
Internal assessment/examination ratio: 1:1  

BIOL341-09B (HAM)  
Microbial Physiology and Ecology  
20 Points  
A study of the physiology of bacteria with emphasis on their great metabolic diversity and on the unifying principles of energy generation. Includes Archaebacteria and bacteria of extreme environments.  
Prerequisite(s): BIOL241  
Internal assessment/examination ratio: 1:2  

BIOL342  
Applied and Environmental Microbiology  
20 Points  
This paper will not be taught in 2009.  

BIOL351-09A (HAM)  
Advanced Biochemistry  
20 Points  
This paper will examine mechanisms underlying cellular communication and trafficking of proteins between organelles, cellular stress responses, cell death, metabolic regulation in relation to control of enzyme activity and stability as well as human diseases (eg diabetes), mammalian vision, toxicology and inflammation.  
Restriction(s): ENMP425  
Prerequisite(s): BIOL251  
Internal assessment/examination ratio: 1:1  

BIOL362-09C (BLK)  
Molecular Biology and Biotechniques  
20 Points  
This paper examines the molecular biological technologies used to analyse and manipulate DNA, RNA and proteins. It includes coverage of the major recombinant DNA techniques.  
Prerequisite(s): BIOL210 and BIOL251  
Internal assessment/examination ratio: 2:3  
When Taught: 09C (BLK) weeks 18-34  

BIOL370-09C (HAM)  
Biology Placement 2  
20 Points  
This paper requires a period of work experience in an appropriate and approved industry or applied field. Assessment is by written reports and employer feedback. This paper may be counted only towards the BSc(Tech) degree.

Biotechnology

Biotechnology is the application of science and engineering to develop useful products from biological materials. Biotechnology is a very broad area which ranges from cloning to cheese-making. Products include antibiotics, waste management technology and beer. This programme examines the extraction, recovery, and purification of bio chemicals from the meat, dairy, and other industries. It explores technological applications at the industrial level as well as the molecular level.

Biotechnology is available as a major for the BSc and BSc(Tech). Biotechnology may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Biotechnology, students must complete 120 points above 100 level in Biotechnology, comprising 60 points at 200 level and 60 points at 300 level. As well as the 100 level prerequisites specified for papers at 200 level and above, it is recommended that students intending to major in Biotechnology include one or more of BIOL102, CHEM101, STAT121, or a 100 level Mathematics papers in the first year of their programme of study. It is also recommended that students include BIOL210 or ENMP341, and either BIOL362 or ENMP341.

Note on Assessment: Māori language tutorials can be arranged on request, subject to the availability of tutors. However, because of the technical nature of the terminology and accepted international practice, this subject requires that assessment for all papers be presented in English.

Business Futures and Leadership

In all management disciplines knowledge is developing rapidly. Business Futures and Leadership is designed as a broad programme for executives and future leaders that provides practical ways to manage future challenges and issues. It also provides a foundation for academic research in futures in management. The programme covers futures content, appropriate methodologies, and ways of preparing personally and organisationally for uncertain times.

Prescriptions for the PGDip(BusF&L) and MMS

Business Futures and Leadership may be taken as a subject for the MMS. A Postgraduate Diploma in Business Futures and Leadership is also available. The requirements for the subject and Postgraduate Diploma are prescribed in the Waikato Management School Student Handbook.

All students should discuss their programme with the Management Student Centre before enrolling.

Further details of these 500 level papers may be found in the Waikato Management School Student Handbook.

Chemistry

Chemistry is concerned with the properties of substances and materials from an atomic/molecular perspective. Most Chemistry papers involve approximately equal time spent in lectures and in laboratory work so that the theoretical and experimental aspects of the topics may be explored together.

Chemistry is available as a major for the BSc and BSc(Tech). Chemistry may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Chemistry, students must gain 120 points above 100 level in Chemistry, including CHEM201, CHEM202, CHEM203, and three of CHEM301, CHEM302, CHEM303 or CHEM306. It is recommended that students intending to continue on to graduate study in Chemistry include CHEM205 in their programme of study.

Note on Assessment: Māori language tutorials can be arranged on request, subject to the availability of tutors. However, because of the technical nature of the terminology and accepted international practice, this Department requires that all material for assessment for all papers be presented in English.

100 level

CHEM101-09A (HAM) & 09A (SEC)  
Chemical Concepts  
15 Points

The study of chemical concepts fundamental to the sciences and technology. Topics include stoichiometry, states of matter, gas-phase, solution, acid-base and redox equilibria, atomic structure, orbitals and electronic configurations, bonding, and systematic chemistry of the elements.

Prerequisite(s): 14 credits at Level 3 in NCEA Chemistry, or equivalent

Required book(s): Brown et al. Chemistry: the Central Science: a Broad Perspective (Prentice-Hall)

Internal assessment/examination ratio: 1:2

CHEM102-09B (HAM) & 09B (SEC)  
Chemical Change and Organic Compounds  
15 Points

An introduction to physical and organic chemistry with some emphasis on environmental, technological and biological relevance; chemical thermodynamics, reaction kinetics and mechanism, and the common organic functional groups and their typical reactions.

Prerequisite(s): 14 credits at Level 3 in NCEA Chemistry, or equivalent

Required book(s): Brown et al. Chemistry: the Central Science: a Broad Perspective (Prentice-Hall); A molecular model kit is required. This can be purchased through the First Year Laboratory but payment at the Gateway is first required.

Internal assessment/examination ratio: 1:2

CHEM106  
Chemical Hazards: Safety and Legislation  
15 Points

This paper will not be taught in 2009.

ENVS101-09B (HAM)  
Environmental Science  
15 Points

For details see Environmental Sciences ENVS101.

200 level

CHEM201-09B (HAM)  
Organic Chemistry  
20 Points

The study of stereochemistry, reaction mechanisms and reaction intermediates, including their relevance to biological and industrial chemistry. An introduction to carbohydrates, proteins, enzyme mechanism, aromatic chemistry, and proton NMR spectroscopy.

Restriction(s): CHEM221 and CHEM231

Prerequisite(s): CHEM102

Required book(s): J. McMurry Organic Chemistry 6th or 7th edition [Brooks/Cole]; A molecular model kit is required. This can be purchased through the First Year Laboratory but payment at the Gateway is first required.

Internal assessment/examination ratio: 1:1
CHEM202-09A (HAM)
Physical Chemistry
20 Points
A study of chemical thermodynamics including heat engines, entropy, life processes and environmental consequences of technology; phase equilibria, eutectics, alloys, conductance of electrolytes, chemical kinetics, electrochemical cells, batteries, the fuel cell compared to the heat engine and their environmental effects.
Restriction(s): CHEM221 and CHEM232
Prerequisite(s): CHEM102
Required book(s): T. Engel and P. Reid Physical Chemistry (Pearson)
Internal assessment/examination ratio: 1:1

CHEM203-09B (HAM)
Inorganic Chemistry
20 Points
A study of shapes and symmetry of molecules, bonding in diatomics and polyatomics, structure and energetics of ionic solids, other solids, crystal and ligand field approach to complexes, and the chemistry of the transition elements, including biological aspects.
Prerequisite(s): CHEM101 or CHEM204
Required book(s): K.M. Mackay, R.A. Mackay and W. Henderson Introduction to Modern Inorganic Chemistry 5th or 6th edition (Nelson Thornes)
Internal assessment/examination ratio: 1:1

CHEM204-09A (HAM)
Analytical Chemistry and Instrumental Techniques
20 Points
An introduction to analytical instruments and techniques used to determine the levels of various trace and major constituents of environmental, biological, geological and chemical samples.
Prerequisite(s): CHEM101 or CHEM204
Required book(s): R. Kellner et al. Analytical Chemistry (Wiley-VCH); or D.A. Skoog et al. Fundamentals of Analytical Chemistry 8th edition (Thomson)
Internal assessment/examination ratio: 1:0
Note: Students intending to advance to CHEM306 are advised to purchase the text by R. Kellner et al. or D.A. Skoog et al.

CHEM205-09A (HAM)
Introduction to Spectroscopy
20 Points
An introduction to the major methods of molecular spectroscopy used in all fields of chemistry. Special emphasis on nuclear magnetic resonance spectroscopy, Vibrational (Infrared and Raman) spectroscopy and mass spectrometry.
Prerequisite(s): CHEM102 and either CHEM101 or CHEM204
Internal assessment/examination ratio: 1:1

CHEM209-09B (HAM)
Chemistry: Human Perspectives
20 Points
Topics will be selected from the molecular basis of foods and diet; natural products of human utility, ageing, cosmetics; toxicology; organic drugs, inorganic drugs and drug design; drug delivery systems.
Prerequisite(s): CHEM102
Internal assessment/examination ratio: 1:1

CHEM231-09B (HAM)
Principles of Organic Chemistry
10 Points
A study of organic stereochemistry, reaction mechanisms and key reaction intermediates including their relevance to biological and industrial chemistry, and an introduction to aromatic chemistry.
Restriction(s): CHEM201 and CHEM221
Prerequisite(s): CHEM102
Required book(s): J. McMurry Organic Chemistry 6th or 7th edition (Brooks/Cole); A molecular model kit is required. This can be purchased through the First Year Laboratory but payment at the Gateway is first required.
Internal assessment/examination ratio: 2:3
Note: This paper is only available to students enrolled in the Biochemical Engineering programme.

CHEM232-09A (HAM)
Principles of Physical Chemistry
10 Points
A study of chemical thermodynamics, including heat engines, entropy, life processes and the environmental consequences of technology; phase equilibria, eutectics, and conductance of electrolytes.
Restriction(s): CHEM202 and CHEM221
Prerequisite(s): CHEM102
Chemistry

Required book(s): T. Engel and P. Reid Physical Chemistry (Pearson)
Internal assessment/examination ratio: 2:3
Note: This paper is only available to students enrolled in the Biochemical Engineering programme.

CHEM261-09B (HAM) Geochemistry and Environmental Chemistry
20 Points
The origin of the elements. Geochemical cycles, weathering, sedimentation and diagenesis, acid rain, carbon dioxide, ozone, nutrients eutrophication, water quality, and organic geochemistry. Students spend at least three days in the field.
Prerequisite(s): at least 30 points in Chemistry or Earth Sciences
Required book(s): W.S. Broecker How to Build a Habitable Planet (Elfigio); J.E. Andrews, P. Brimblecombe, T.D. Jickells and P.S. Liss An Introduction to Environmental Chemistry (Blackwell Science)
Internal assessment/examination ratio: 1:0

CHEM271-09C (HAM) Chemistry Placement 1
20 Points
This paper requires a period of work experience in an appropriate and approved industry or applied field. Assessment is by written reports and employer feedback. This paper may be counted only towards the BSc(Tech) degree.
Internal assessment/examination ratio: 1:0

300 level

CHEM301-09A (HAM) Advanced Organic Chemistry
20 Points
Advanced aspects of reaction intermediates and stereoelectronic effects, enolates and enamines in synthesis and biosynthesis, carbohydrates, biosynthesis of natural products, and aromaticity, practical carbon NMR spectroscopy and mass spectrometry.
Prerequisite(s): CHEM201
Required book(s): J. McMurry Organic Chemistry 6th or 7th edition (Brooks/Cole)
Internal assessment/examination ratio: 1:1

CHEM302-09B (HAM) Advanced Physical Chemistry
20 Points
Topics include thermodynamics of real systems, surface chemistry, nanotechnology, reaction kinetics and mechanisms, metal corrosion, non-equilibrium electrochemistry, and atomic and molecular structure as revealed by quantum chemistry.
Prerequisite(s): CHEM202
Required book(s): T. Engel and P. Reid Physical Chemistry (Pearson)
Internal assessment/examination ratio: 1:1

CHEM303-09A (HAM) Advanced Inorganic Chemistry
20 Points
A study of heavy transition elements, f-elements, biological inorganic chemistry, aspects of Main Group and organometallic chemistry.
Prerequisite(s): CHEM203
Required book(s): K.M. Mackay, R.A. Mackay and W. Henderson Introduction to Modern Inorganic Chemistry 5th or 6th edition (Nelson Thornes)
Internal assessment/examination ratio: 1:1

CHEM304-09A (HAM), 09B (HAM), 09C (HAM), 095 (HAM) & 09Y (HAM) Special Topics in Chemistry
20 Points
An independent experimental investigation on an approved topic, under staff supervision. Group seminars are presented. Assessment is based on a full written report.
Internal assessment/examination ratio: 1:0
Note: Admission is at the discretion of the Chairperson of Department.

CHEM305-09B (HAM) Environmental, Forensic, Toxicological and Medicinal Chemistry
20 Points
A paper with a selection of topics from heavy metals and organic compounds in the environment; arson, explosives and fingerprint investigations in forensic casework; toxicological effects in humans; anticancer and other drugs.
Prerequisite(s): CHEM201, CHEM209, or both CHEM102 and BIOL251
Internal assessment/examination ratio: 2:3
CHEM306-09B (HAM)  
Advanced Analytical Chemistry  
20 Points  
A theoretical and practical paper involving sampling methods; analysis by gas chromatography, high performance liquid chromatography, mass spectrometry and coupled techniques like gas chromatography-mass spectrometry; specific ion electrodes; radiochemistry. Data analysis and methods.  
Prerequisite(s): CHEM204  
Required book(s): R. Kellner et al. Analytical Chemistry (Wiley-VCH)  
Internal assessment/examination ratio: 3:2

CHEM370-09C (HAM)  
Chemistry Placement 2  
20 Points  
This paper requires a period of work experience in an appropriate and approved industry or applied field. Assessment is by written reports and employer feedback. This paper may be counted only towards the BSc(Tech) degree.  
Internal assessment/examination ratio: 1:0

CHEM371-09C (HAM)  
Chemistry Placement 2  
20 Points  
For details see Chemistry CHEM370.

Prescriptions for the GradCert(Chem) and GradDip(Chem)  
A Graduate Certificate and Graduate Diploma are available to graduates who have not included Chemistry at an advanced level in their first degree.  
For further details, contact the School of Science and Engineering.

Prescriptions for the PGCert(Chem), PGDip(Chem), BSc(Hons), MSc and MSc(Tech)  
Students in masters degrees are normally required to take a thesis and a selection of papers. Enrolment in papers towards the BSc(Hons) is only by invitation of the Chairperson. Candidates for these graduate qualifications should select their papers in consultation with the Chairperson of Department.

Chinese

Chinese consists of language acquisition papers in Modern Standard Chinese (Mandarin) and papers on Chinese history, culture, business communication and society.

Chinese is available as a major for the BA. Chinese may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Chinese, students must gain 120 points above 100 level in Chinese, including CHIN201, CHIN202, CHIN301, CHIN302 and at least 20 further points above 200 level. It is recommended that students intending to major in Chinese include HUMA101 in the first year of their programme of study. Within the BBA(Fin), BCS, BECom, BMS and BTour a Chinese Language specialisation is available, within the BSc and BSc(Tech) a specialisation in Science International in Chinese is available, and within the BMS International Management major a specialisation in Chinese is also available. Details of the specialisation requirements can be obtained from the Faculty of Arts and Social Sciences, School of Science and Engineering or the Waikato Management School.

The language acquisition papers are designed primarily for learners of Modern Standard Chinese as a foreign or second language. Students with prior knowledge of Chinese must consult with Chinese Section staff before enrolling in language acquisition papers. The papers in Chinese history, culture and society are taught in English and are also available to non-language students.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Chinese papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Chinese papers above 200 level.

100 level

ASIA103
Introduction to East Asia
15 Points
This paper will not be taught in 2009.

CHIN101-09A (HAM)
Chinese Language 1: Part A
15 Points
An introductory paper designed for students with no previous knowledge of Chinese. It takes an integrated approach involving all four of the skills of reading, writing, listening and speaking. Students with prior knowledge of Chinese should consult the Convenor of Chinese regarding placement.

Required book(s): L. Xun and K. Zhang New Practical Chinese Reader 1 and Chinese Character Exercise Book for Practical Chinese Reader 1 (Hong Kong Commercial Press)

Internal assessment/examination ratio: 1:0

CHIN102-09B (HAM)
Chinese Language 1: Part B
15 Points
This paper is the continuation of CHIN101 and focuses on the four skills of listening, speaking, reading and writing the Chinese language at an elementary level.

Prerequisite(s): CHIN101

Required book(s): L. Xun and K. Zhang New Practical Chinese Reader 1 and Chinese Character Exercise Book for Practical Chinese Reader 1 (Hong Kong Commercial Press)

Internal assessment/examination ratio: 1:0

HUMA101-09B (HAM)
Old Worlds - New Worlds
15 Points
For details see English HUMA101.
200 level

CHIN201-09A (HAM) Chinese Language 2: Part A 20 Points
This paper is the continuation of CHIN102 and focuses on the four skills of listening, speaking, reading and writing the Chinese language at an intermediate level.
Prerequisite(s): CHIN102
Required book(s): L. Xun and K. Zhang New Practical Chinese Reader 2 (Hong Kong Commercial Press); A.P. Cowie Concise English-Chinese Chinese-English Dictionary (Oxford)
Internal assessment/examination ratio: 1:0

CHIN202-09B (HAM) Chinese Language 2: Part B 20 Points
This paper is the continuation of CHIN201.
Prerequisite(s): CHIN201
Required book(s): L. Xun and K. Zhang New Practical Chinese Reader 2 (Hong Kong Commercial Press); A.P. Cowie Concise English-Chinese Chinese-English Dictionary (Oxford)
Internal assessment/examination ratio: 1:0

CHIN203 Chinese History and Social Institutions 20 Points
This paper will not be taught in 2009.

CHIN204-09B (HAM) Visualising China: Film, Media and Culture 20 Points
This paper offers a critical examination of a number of key aspects of modern and contemporary Chinese culture within a comparative historical framework, including film, television and print media, and the visual arts.
Restriction(s): CHIN204
Internal assessment/examination ratio: 1:0
Note: This paper is taught in English.

300 level

CHIN301-09A (HAM) Chinese Language 3: Part A 20 Points
This paper focuses on advanced Chinese language learning and is a continuation of CHIN202.
Prerequisite(s): CHIN202
Required book(s): L. Xun and K. Zhang New Practical Chinese Reader 3 (Hong Kong Commercial Press)
Internal assessment/examination ratio: 1:0

CHIN302-09B (HAM) Chinese Language 3: Part B 20 Points
This paper is a continuation of CHIN301.
Prerequisite(s): CHIN301
Required book(s): L. Xun and K. Zhang New Practical Chinese Reader 3 (Hong Kong Commercial Press)
Internal assessment/examination ratio: 1:0

CHIN303 Chinese History and Social Institutions 20 Points
This paper will not be taught in 2009.

CHIN304-09B (HAM) Visualising China: Film, Media and Culture 20 Points
For details see Chinese CHIN204. Additional work will be prescribed.
Restriction(s): CHIN204
Internal assessment/examination ratio: 1:0
Note: This paper is taught in English.

CHIN305 Business Communication in Chinese 20 Points
This paper will not be taught in 2009.

CHIN306-09A (HAM) Reading and Translation Skills 20 Points
This paper is designed primarily for native speakers of Chinese and is taught bilingually. It aims to improve students’ bilingual reading skills and to develop students’ ability to translate from and into Chinese and English. Students are also introduced cumulatively and inductively to basic theories and principles of reading and translation skills. Non-native speakers of Chinese should consult with the paper lecturer regarding entry into this paper.
Prerequisite(s): admission for non-native speakers of Chinese is at the discretion of the Convenor of Chinese.
Internal assessment/examination ratio: 1:0
CHIN307
Political and Economic Modernisation in Chinese-speaking Asia
20 Points
This paper will not be taught in 2009.

CHIN313-09A (HAM), 09B (HAM) & 09Y (HAM)
Extended Language Acquisition
20 Points
This paper continues on from CHIN202. It aims to extend students language ability from the intermediate to an advanced level. It is a total immersion paper, taught in a native-speaking environment. Enrolment in this paper is strictly by invitation of the Convenor of Chinese only.
Prerequisite(s): CHIN202
Internal assessment/examination ratio: 1:0

CHIN390-09A (HAM), 09B (HAM) & 09Y (HAM)
Directed Study
20 Points
This paper involves an investigation of a particular topic in the field of Chinese Studies. Enrolment in this paper is at the invitation of the Convenor of Chinese.
Prerequisite(s): CHIN202
Internal assessment/examination ratio: 1:0

Prescriptions for the GradCert(Chin) and GradDip(Chin)
A Graduate Certificate and Graduate Diploma are available to graduates who have not included Chinese at an advanced level in their first degree.
For further details, contact the Faculty of Arts and Social Sciences Office.

Prescriptions for the PGCert(Chin), PGDip(Chin) and BA(Hons)
To be eligible to be considered for enrolment in graduate Chinese papers, a student should normally have at least a B average in either the best three of their 300 level Chinese papers or all their undergraduate Chinese papers.
Students contemplating graduate studies should consult the Convenor of Chinese.

Prescriptions for the MA
To complete an MA in Chinese, students must take either a 120 point thesis, a 90 point thesis and 30 points from approved 500 level papers, or a 60 point dissertation and 60 points in approved 500 level papers.
Students contemplating graduate studies should consult the Convenor of Chinese.

Computer Graphic Design

Computer Graphic Design papers provide a specialised programme of study in computer graphic design, a creative process that utilises art and technology to communicate ideas. The papers offered comprise a core of studio based design skills, together with contemporary computer software and a context of design history and liberal arts.

Computer Graphic Design is available as a specified programme for the BCGD.

To complete the specified programme in Computer Graphic Design, students must complete the CGRD papers listed below, COMP103, COMP125, COMP126, 40 points from COMP223, COMP233, COMP258 or COMP278, 20 points from COMP324, COMP325 or COMP336, a further 15 points at 100 level, a further 20 points at 200 level, and a further 20 points at 300 level.

Note: Amendments to the Computer Graphic Design programme are subject to approval by the NZVCC’s Committee on University Academic Programmes (CUAP).

100 level

CGRD141-09A (HAM)
Design 1
15 Points
This paper develops the student’s ability to recognise and utilise the basic elements and principles of design both two and three dimensionally. It explores topics related to ‘thinking’ and creativity with an emphasis on raising a student’s creativity consciousness and attitude. The work will primarily be abstract in nature and will be resolved in both traditional and computer based media.
Restriction(s): CGRD111
Corequisite(s): CGRD143 and COMP125
Internal assessment/examination ratio: 1:0
Note: This paper is only available to BCGD students. Enrolment in this paper is limited to 60 students.

CGRD142-09B (HAM)
Design 2
15 Points
This paper develops the student’s ability to put into graphic application the basic elements and principles of design. It will also provide an introduction to typography. The emphasis of the study is to apply these basics to 2D and 3D mediums. The work will be resolved in both traditional and computer technology.
Prerequisite(s): CGRD141
Corequisite(s): COMP126
Internal assessment/examination ratio: 1:0
Note: This paper is only available to BCGD students. Enrolment in this paper is limited to 60 students.

CGRD143-09A (HAM)
Graphic Design Study
15 Points
This paper involves theory, informed experimentation and practice. It is designed to broaden a student’s visual vocabulary and improve technical expertise in the area of perceptual drawing and key aspects of colour in design. It will also provide a basic understanding of how to technically and visually create effective photographic images.
Restriction(s): CGRD113
Corequisite(s): CGRD141 and COMP125
Internal assessment/examination ratio: 1:0
Note: This paper is only available to BCGD students. Enrolment in this paper is limited to 60 students.

CGRD151-09A (HAM)
Historical Studies in Design
15 Points
This paper will study critical periods in graphic design history from the invention of writing to the industrial revolution, to the early twentieth century and the development of Modernism. It will focus on formal analysis of text (layout and typography) and image as well as technological change and the social context for design. Students will undertake directed research and be introduced to critical models.
Restriction(s): CGRD132 and CGRD133
Internal assessment/examination ratio: 1:0

Computer Graphic Design 1
20 Points
This paper challenges students to combine their typographic skills and their knowledge of the principles of design in order to practically solve design problems. A combination of exercises and assignments involving research and basic visual communication using type and image will synthesise these designs skills. Throughout the paper the arrangement of typography is treated formally and expressively within specified guidelines.
Prerequisite(s): CGRD142
Internal assessment/examination ratio: 1:0
Note: This paper is only available to BCGD students. Enrolment in this paper is limited to 60 students.

CGRD242-09B (HAM)
Computer Graphic Design 2
20 Points
This paper will enable students to experiment with the application of design principles and research to problem solving exercises and assignments and synthesise design skills with computer based applications. It will enable students to operate with skill and expertise the range of software that will be required for the completion of assignments and be aware of the hardware structure and the functions of its components in relation to specific software.
Equivalent(s): CGRD221
Prerequisite(s): CGRD241
Internal assessment/examination ratio: 1:0
Note: This paper is only available to BCGD students. Enrolment in this paper is limited to 60 students.

CGRD252-09B (HAM)
Critical Studies in Design
20 Points
This paper will cover critical periods in design, with an emphasis on graphic design, from the mid-twentieth century to the present day, including the development of digital media and new technologies. It will focus on formal analysis of text and image as well as the social issues, effects and interactions of design. Students will undertake personal research and use critical models.
Restriction(s): CGRD232
Prerequisite(s): CGRD151
Internal assessment/examination ratio: 1:0

CGRD343-09A (HAM)
Computer Graphic Design 3
20 Points
This paper enables students to apply design elements and principles to multiple digital and physical projects. Students will be encouraged to bring skills gained in other papers to their projects. Students will also undertake an exploration of typography created by electronic means and targeted for existence in electronic space as an integral component of time based media production.
**CGRD311**

Equivalent(s): CGRD311

Prerequisite(s): CGRD242

Internal assessment/examination ratio: 1:0

Note: This paper is only available to BCGD students. Enrolment in this paper is limited to 60 students.

**CGRD344-09A (HAM) & 09B (HAM)**

**Computer Graphic Design 4**

20 Points

This paper enables students to apply principles of design and design elements to systematic information hierarchies, environmental graphics, advanced publications and multimedia documents. The paper will allow students to explore the relationship between theory and practice, including their own practice, as well as provide methodology and support for research in design.

Equivalent(s): CGRD321

Prerequisite(s): CGRD343

Internal assessment/examination ratio: 1:0

Note: This paper is only available to BCGD students. Enrolment in this paper is limited to 60 students per semester.

**CGRD350-09A (HAM)**

**Intern Project**

20 Points

This paper will induct the design student into the professional environment where the student applies two and three dimensional computer graphic design skills, research methodology and production skills to allocated projects. The relationship between the student and the client is monitored and guided by a tutor who also supervises and guides the student in designing and coordinating aspects of the project.

Prerequisite(s): CGRD242 and either COMP223, COMP233, COMP258, COMP277 or COMP278

Internal assessment/examination ratio: 1:0

Note: This paper is only available to BCGD students. Enrolment in this paper is limited to 60 students.

**CGRD360-09A (HAM) & 09B (HAM)**

**Degree Project**

20 Points

This paper is an opportunity for students to plan, develop and carry out a small scale design project with relative independence. Students are encouraged to collaborate with peers in the learning environment, with members of the professional design industry and/or academic community. An adviser will supervise and guide the student through their project.

Prerequisite(s): CGRD343 and CGRD350

Internal assessment/examination ratio: 1:0

Note: This paper is only available to BCGD students and should be taken in the final semester of study. Enrolment in this paper is limited to 60 students per semester.

Computer Science

Computer Science involves the study of all aspects of computers: their technology, algorithms and programming, underlying theory, and their application.

Computer Science is available as a major for the BCMS, BSc and BSc(Tech). Computer Science may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Computer Science for the BCMS, students must gain 180 points above 100 level in Computer Science, including COMP200, COMP202, COMP203, COMP204, COMP235, at least 120 points above 200 level, and at least 60 points above 300 level.

To complete a major in Computer Science for the BSc and BSc(Tech), students must gain 120 points above 100 level in Computer Science, including COMP200, COMP202, COMP203, COMP204, COMP235, and at least 60 points above 200 level.

As well as the 100 level prerequisites specified for papers at 200 level and above, it is recommended that students intending to major in Computer Science include STAT121 in the first year of their programme of study.

Within the BCMS and BSc the Computer Science major allows students to work towards specialisations. The specialisations include, but are not limited to, Applied Computing, Artificial Intelligence, Computer Technology, Data Mining, Games and Multimedia, Information Systems, Internet Applications, Networks, Software Development. For further details of specialisations, refer to the School of Computing and Mathematical Sciences Handbook.

Note on Assessment: To be eligible to pass these papers students should normally achieve a minimum grade of D in the internal assessment and the final examination, and an overall grade of C.

100 level

COMP103-09A (HAM), 09B (HAM), 09C (HAM) & 09D (HAM)
Introduction to Computer Science 1
15 Points

This paper introduces computer programming in C# - the exciting challenge of creating software and designing artificial worlds within the computer.

Restriction(s): COMP106
Internal assessment/examination ratio: 2:1

Note: This paper is prerequisite for a major in Computer Science. The practical programme must be completed to the satisfaction of the Convenor. COMP103-09C (HAM) and 09D (HAM) are available to STAR students only.

COMP104-09B (HAM), 09C (HAM) & 09S (HAM)
Introduction to Computer Science 2
15 Points

This paper continues from COMP103, expanding upon data organisation and algorithms, and introducing computer architecture, Boolean algebra, assembly language, program analysis and object-oriented programming.

Restriction(s): COMP106, COMP130 and COMP134
Prerequisite(s): COMP103 or relevant computing experience

Internal assessment/examination ratio: 2:1

Note: This paper is a prerequisite for a major in Computer Science. The practical programme must be completed to the satisfaction of the Convenor. COMP104-09C (HAM) is available to STAR students only.
COMP107
Topics in Computer Science
15 Points
This paper will not be taught in 2009.

COMP123-09A (HAM), 09B (HAM) & 09S (HAM)
The Computing Experience
15 Points
This paper introduces a range of computer tools for application in the sciences, the arts and other disciplines. Students tailor the paper to their own needs by selecting sets of exercises to extend their prior knowledge.
Equivalent(s): COMP124
Internal assessment/examination ratio: 1:0
Note: The practical programme must be completed to the satisfaction of the Convenor.

COMP125-09A (HAM) & 09B (HAM)
Visual Computing
15 Points
This paper enables students to operate software packages for the manipulation of visual images and text for use in screen-based applications. Students will be introduced to basic computing concepts and provided with software tutorials and related exercises.
Restriction(s): CGRD112
Internal assessment/examination ratio: 1:0
Note: Enrolment in this paper is limited to 60 students per semester. Entry into COMP125-09B (HAM) is by permission of the Chairperson of Department.

COMP126-09B (HAM)
Computing Media
15 Points
This paper enables students to operate software packages for the manipulation of images and sound to create interactive and animated output. Students will be introduced to relevant computing concepts and provided with software tutorials and related exercises.
Restriction(s): CGRD112
Internal assessment/examination ratio: 1:0

COMP134-09B (HAM)
Software Engineering 1
15 Points
This paper introduces basic software engineering topics, object-oriented programming, computer architecture, Boolean algebra, and assembly language.
Restriction(s): COMP104
Prerequisite(s): COMP103 or COMP130
Internal assessment/examination ratio: 2:1
Note: This paper is compulsory for students in the Software Engineering BE. Admission of other students is at the discretion of the Chairperson of Department.

COMP153-09S (HAM)
Practical Programming
15 Points
This paper introduces the concepts of programming through the use of a visual programming environment, as a means of producing solutions to practical problems.
Internal assessment/examination ratio: 2:1

ENEL111-09A (HAM)
Introduction to Electronics
15 Points
For details see Electronics ENEL111.
200 level

COMP200-09A (HAM)  
Computer Systems  
10 Points  
This paper provides an overview of the operation of computer systems. The central theme is the way in which the hardware and software cooperate to allow the execution of programs written in a high-level language.  
Restriction(s): COMP201  
Prerequisite(s): COMP104, COMP106 or COMP134  
Internal assessment/examination ratio: 1:1

COMP202-09B (HAM)  
Computer Communications  
10 Points  
This paper provides an overview of the technologies and protocols involved in computer communications. Practical work will look at the internet protocols, and include programming exercises using socket interfaces.  
Prerequisite(s): COMP104, COMP106, COMP134 or COMP153  
Internal assessment/examination ratio: 1:1

COMP203-09A (HAM)  
Programming with Data Structures  
10 Points  
This paper introduces programming with data structures using Java. Students learn how to program in Java and become familiar with the design, analysis, and application of commonly-used data structures, including stacks, queues, lists, trees, and sets.  
Restriction(s): COMP206, COMP208 and COMP241  
Prerequisite(s): COMP104 or COMP106  
Internal assessment/examination ratio: 1:0

COMP204-09B (HAM)  
Object-Oriented Program Design  
10 Points  
This paper teaches structure and organisation of programs, design pattern, and Java libraries, including graphical user interfaces and event handling, persistent storage and I/O, networking and multi-threading, and distributed computing.  
Restriction(s): COMP206, COMP209, COMP231 and COMP242  
Prerequisite(s): COMP104  
Internal assessment/examination ratio: 1:0

COMP219-09A (HAM)  
Database Practice and Experience  
20 Points  
This paper provides students with the knowledge and experience of a modern relational client/server database system. Topics include data modelling, client/server computing, SQL, security, consistency, tuning and data integrity.  
Prerequisite(s): COMP103 or COMP153  
Internal assessment/examination ratio: 1:0

COMP223-09A (HAM), 09B (HAM) & 09S (HAM)  
Information Discovery  
20 Points  
This paper enables students to widen their experience of computer software using an intensive laboratory programme. Students select from a variety of themes, including video editing, website design, digital library development, computer game construction, animation and 3D modelling.  
Internal assessment/examination ratio: 1:0

COMP224-09A (HAM)  
Computer Graphic Design  
20 Points  
This paper introduces the basics of computer graphic design, covering topics such as design philosophy, design techniques and elements, typography, colour, designing for screen, and the electronic publishing process.  
Prerequisite(s): COMP103, COMP106, COMP123, COMP130 or COMP153  
Internal assessment/examination ratio: 1:0

COMP233-09B (HAM)  
Internet Applications  
20 Points  
This paper covers the use of and resource creations for the world wide web; installation and management of web sites and network systems; selection, installation and planning of Local Area Networks; protocols and traffic management.  
Prerequisite(s): COMP103, COMP106, COMP130 or COMP153  
Internal assessment/examination ratio: 2:1
COMP234
Hōtuku Māori
20 Points
This paper will not be taught in 2009.

COMP235-09A (HAM)
Logic and Computation
20 Points
An introduction to propositional logic, graphs, trees, and the theory of computation for computer scientists and mathematicians.
Restriction(s): COMP140, COMP240 and MATH258
Prerequisite(s): MATH102
Internal assessment/examination ratio: 1:1 or 0:1, whichever is more favourable for the student

COMP241-09A (HAM)
Software Engineering Development
10 Points
Students will learn how to program in Java and design, analyse, and apply commonly used data structures. Software engineering practices such as unit testing and pre/post specification are introduced.
Restriction(s): COMP203 and COMP231
Prerequisite(s): COMP134
Internal assessment/examination ratio: 1:0
Note: Entry for non-BE students is by permission of the Chairperson of Department.

COMP242-09B (HAM)
Software Engineering Process
10 Points
This paper teaches structure and organisation of programs, design pattern, and Java libraries, including graphical user interfaces and event handling, persistent storage and I/O, networking and multi-threading, and distributed computing.
Restriction(s): COMP204 and COMP244
Prerequisite(s): COMP134
Internal assessment/examination ratio: 1:0
Note: Entry for non-BE students is by permission of the Chairperson of Department.

COMP258-09A (HAM)
Programming Usable Systems
20 Points
This paper is structured around several practical projects that entail the analysis, design and evaluation of small to medium-sized interactive systems. Object-oriented software development techniques and aspects of designing usable software will be introduced.
Prerequisite(s): COMP153, or COMP104 with the permission of the lecturer
Internal assessment/examination ratio: 2:1

COMP271-09C (HAM)
Computer Science Placement 1
20 Points
This paper requires a period of work experience in an appropriate and approved industry or applied field. Assessment is by written reports and employer feedback. This paper may be counted only towards the BCMS, BE or BSc(Tech) degrees.
Internal assessment/examination ratio: 1:0
Note: The work experience period normally takes place after the second year of study. Admission to this paper is at the discretion of the Chairperson of Department.

COMP278-09A (HAM), 09B (HAM) & 09S (HAM)
Interactive Computing
20 Points
This paper provides an opportunity to explore several software applications in depth. It is based on an intensive laboratory programme, where students tailor their choices to their own needs and interests by selecting two themes from a set of modules.
Equivalent(s): COMP277
Prerequisite(s): COMP123 or COMP153
Internal assessment/examination ratio: 1:0
Note: Admission is at the discretion of the Chairperson of Department.

COMP290-09C (HAM)
Directed Study
20 Points
A directed study in a Computer Science topic. Admission is at the discretion of the Chairperson of Department. Students must arrange a supervisor and identify a topic before enrolling.
Internal assessment/examination ratio: 1:0
ENEL211-09A (HAM)
Digital Electronics
20 Points
For details see Electronics ENEL211.

300 level

COMP301-09B (HAM)
Operating Systems
20 Points
The design and implementation of system and safety-critical software; notions of concurrency and synchronisation of threaded and distributed programs; architecture of server/client and operating system software.
Prerequisite(s): COMP200 and one of COMP203, COMP206 or COMP241
Internal assessment/examination ratio: 1:1
Note: The practical programme must be completed to the satisfaction of the coordinator of the paper.

COMP311-09B (HAM)
Computer Systems Architecture
20 Points
This paper considers interaction between computer hardware and software; instruction sets; memory and disk hierarchy, caching and performance; traps and exceptions; performance of compiled code.
Prerequisite(s): COMP200 and one of COMP203, COMP206 or COMP241
Internal assessment/examination ratio: 1:1

COMP312-09A (HAM)
Communications and Systems Software
20 Points
A study of data communications and distributed software; introduction to error detection and correction; communication architectures and protocols; distributed systems and programs; network facilities, interaction and topologies.
Prerequisite(s): COMP202 and one of COMP203, COMP204, COMP206, COMP241 or COMP242
Internal assessment/examination ratio: 1:1

COMP313-09A (HAM)
Programming Languages
20 Points
The design, implementation and use of imperative, functional, object-oriented and logic programming languages. Programming assignments will be done in a variety of new programming languages.
Prerequisite(s): COMP200 and one of COMP203, COMP206 or COMP241
Internal assessment/examination ratio: 1:1

COMP314-09B (HAM)
Software Engineering Project
20 Points
Students work in small groups to build a medium sized software project. They develop requirements and specification, design the system structure and user interface, carry out documentation, implementation and maintenance.
Restriction(s): COMP315 and COMP359
Prerequisite(s): one of COMP203, COMP204, COMP206, COMP241 or COMP242
Internal assessment/examination ratio: 1:0

COMP315-09B (HAM)
Information Systems Development
20 Points
Students address a real world problem by performing systems planning, analysis, design and implementation. Working in groups, they submit reports, conduct reviews, develop prototypes, and make formal presentations at appropriate milestones.
Restriction(s): COMP314
Prerequisite(s): COMP219
Internal assessment/examination ratio: 1:0

COMP316-09A (HAM)
Artificial Intelligence Techniques and Applications
20 Points
This paper is an introduction to artificial intelligence and knowledge representation, including automated reasoning and heuristic search.
Prerequisite(s): one of COMP203, COMP206 or COMP241
Internal assessment/examination ratio: 2:1

Prerequisite(s): at least 60 points at 300 level in Computer Science
Internal assessment/examination ratio: 1:0

COMP436-09B (HAM)  
Advanced Graphics and Computer Games  
15 Points  
A lecture and laboratory-based module on the use of 3D immersive computer game engines. Topics will include 3D modelling, texturing, lighting effects, use of pixel shaders, game physics, scripting of game play, and use of game engines for non-game program development.
Equivalent(s): COMP536
Restriction(s): COMP404 and COMP504
Prerequisite(s): COMP304 and a further 40 points at 300 level in Computer Science
Internal assessment/examination ratio: 1:0

COMP437-09B (HAM)  
User Interfaces for Information Retrieval  
15 Points  
This paper covers the design of interactive systems for end-user retrieval of information from large document repositories such as digital libraries and web-based search engines.
Equivalent(s): COMP537
Prerequisite(s): 60 points at 300 level in Computer Science
Internal assessment/examination ratio: 1:0

COMP438-09B (HAM)  
Topics in Human-Computer Interaction  
15 Points  
This paper will offer advanced topics in Human-Computer Interaction. Topics may include mobile computing, computer supported cooperative work, and information visualisation.
Equivalent(s): COMP538
Restriction(s): COMP425 and COMP525
Prerequisite(s): COMP325 and 40 further points at 300 level in Computer Science
Internal assessment/examination ratio: 1:0

COMP439-09B (HAM)  
Usability Engineering  
15 Points  
This paper covers the design and evaluation of interactive computer systems with a focus on user studies. Topics covered include scenarios, ethnography, designing and performing user studies, and ethical issues involved in studying human-computer interaction.
Equivalent(s): COMP539
Restriction(s): COMP425 and COMP525
Prerequisite(s): COMP325 and 40 further points at 300 level in Computer Science
Internal assessment/examination ratio: 1:0

COMP442-09A (HAM)  
Web Search: Technical and Social Issues  
15 Points  
This paper covers the operation of web search engines, the development of web spam and techniques for combating it, and social issues raised by centralised search engines.
Equivalent(s): COMP542
Restriction(s): COMP417 and COMP517
Prerequisite(s): either COMP204 or COMP242, and 60 points at 300 level in Computer Science
Internal assessment/examination ratio: 1:0
COMP443-09B (HAM)  
Knowledge and Information Management  
15 Points  
One or more special topics in knowledge and information management, at an advanced level.  
Equivalent(s): COMP543  
Restriction(s): COMP417 and COMP517  
Prerequisite(s): 60 points at 300 level in Computer Science  
Internal assessment/examination ratio: 1:0

COMP451-09A (HAM)  
Model-Based Testing  
15 Points  
Learn how to design models of systems, generate tests automatically and automate the execution of the tests.  
Equivalent(s): COMP551  
Restriction(s): COMP424 and COMP524  
Prerequisite(s): either COMP235 or COMP240, and 60 points at 300 level in Computer Science  
Internal assessment/examination ratio: 1:0

COMP452-09B (HAM)  
Model Checking  
15 Points  
Model checkers can automatically check whether reactive systems satisfy crucial properties, using finite-state machines and temporal logic. Students will apply this technology to model and verify safety-critical systems and study the algorithms and data structures to explore very large state-spaces.  
Equivalent(s): COMP552  
Restriction(s): COMP424 and COMP524  
Prerequisite(s): either COMP235 or COMP240, and 60 points at 300 level in Computer Science  
Internal assessment/examination ratio: 1:0

COMP460-09A (HAM), 09B (HAM) & 09C (HAM)  
Turing Topics in Computer Science  
15 Points  
One or more special topics in computer science, at an advanced level.  
Equivalent(s): COMP560  
Prerequisite(s): 60 points at 300 level in Computer Science  
Internal assessment/examination ratio: 1:0

COMP461-09A (HAM), 09B (HAM) & 09C (HAM)  
Von Neumann Topics in Computer Science  
15 Points  
One or more special topics in computer science, at an advanced level.  
Equivalent(s): COMP561  
Prerequisite(s): 60 points at 300 level in Computer Science  
Internal assessment/examination ratio: 1:0

COMP462-09A (HAM), 09B (HAM) & 09C (HAM)  
Grace Hopper Topics in Computer Science  
15 Points  
One or more special topics in computer science at an advanced level.  
Restriction(s): COMP562  
Prerequisite(s): 60 points at 300 level in Computer Science. Admission is at the discretion of the Chairperson of Department.  
Internal assessment/examination ratio: 1:0

COMP477-09B (HAM)  
Report of an Investigation  
20 Points  
A directed investigation and report on an approved project or study topic.  
Restriction(s): COMP420, MATH420 and MATH477  
Prerequisite(s): at least 60 points in Computer Science at 300 level or above  
Internal assessment/examination ratio: 1:0

Prescriptions for the GradCert(CompSc) and GradDip(CompSc)  
A Graduate Certificate and Graduate Diploma are available to graduates who have not included Computer Science at an advanced level in their first degree. For further details, contact the School of Computing and Mathematical Sciences Office.
Prescriptions for the BCMS(Hons), PGCert(CompSc), PGDip(CompSc), BSc(Hons) and MSc

Most 500 level papers correspond to papers taught at 400 level. Students attend the same lectures, but additional assessment may be prescribed for 500 level students. Students in masters degrees are normally required to take a thesis and a selection of papers. Enrolment in papers towards the BSc(Hons) is only by invitation of the Chairperson. Candidates for these graduate qualifications should select their papers in consultation with the Graduate Adviser of the Department of Computer Science.

Corporate & Executive Education

The Centre for Corporate & Executive Education offers a range of highly regarded executive and corporate development programmes. These programmes are designed to meet the individual development needs of working managers along with the specific needs of corporate organisations and industry sectors. They are applied programmes that rely on participants bringing and sharing their own experience in the classroom. Executive programmes are generally offered on a ‘cohort’ basis where a group of participants maintains a collaborative learning process throughout the prescribed course of study. Therefore, enrolment into individual papers is often not possible. In most cases it is not possible to cross-credit papers from these applied postgraduate programmes to or from undergraduate or graduate qualifications. All Corporate & Executive Education papers are internally assessed.

Note: Not all papers are taught in any one year. Further information on these programmes is available from the Centre for Corporate & Executive Education at the Waikato Management School. The Centre for Corporate & Executive Education reserves the right to limit enrolment in papers in the interest of protecting the quality of the learning experience for students.

Prescriptions for the MBA

The Waikato Master of Business Administration (MBA) is a premier professional management and leadership qualification that incorporates the cross-functional areas of management with personal growth and leadership development. The programme focuses on the distinctive features of the Waikato MBA - international connectivity, leadership and organisational transformation, value creation and sustainability. The Waikato MBA equips existing managers to step into senior roles, broadens functional specialists’ business understanding and adds best-practice theory to entrepreneurs’ practical knowledge. It advances participants’ strategic understanding of business and the complex issues faced by business leaders in the global environment.

### Prescriptions for the PGDip(PFinPlan)

This programme is designed for practicing financial planners and advisers. The Postgraduate Diploma is web based and supported by a variety of media, including face to face sessions and weekly 'e-chats'. This diploma meets Institute of Financial Advisers (IFA) requirements for Certified Financial Planner (CFP) certification and takes two years to complete.

To complete a Postgraduate Diploma, candidates must pass eight compulsory papers (120 Points).
EXEC530
Business and Legal Environment

Prescriptions for the PGCert(BusRes)
The Postgraduate Certificate is designed for business Masters graduates who plan to undertake advanced business research or proceed to doctoral study. It requires at least one 30 point 500 level paper covering methodology, and one other 30 point 500 level paper from a subject offered by the Waikato Management School.
The Postgraduate Certificate is equivalent to six months’ full-time study. Classes are usually held on Friday afternoons and/or full day Saturdays with the programme offered in alternate years. Alternatively, the Postgraduate Certificate can be taken using internal 500 level classes taught during the regular University semesters.
To be admitted to the programme candidates are required to have an MBA, MMS, MECom, or an equivalent qualification, with a grade average of B+.
The methodology papers available for the Postgraduate Certificate are as follows:

Demography

Demography is concerned with the advanced, empirical analysis of population structure and trends. An important element is the application to social, economic environment and other areas of policy formulation and monitoring. An appreciation of the techniques of demographic research and analysis is essential to the study of both methodology and substantive issues. Entry to the BSocSc(Hons) and MSocSc in Demography is open to suitably qualified graduates in any discipline who have at least one undergraduate Population Studies paper. For those students without this prerequisite, arrangements may be made for a qualifying programme. To be eligible to be considered for enrolment in graduate Demography papers, a student should normally have at least a B average in the best three of their 300 level papers from their undergraduate major and should have a significant research methods component (normally two papers) in that degree. All intending students should discuss their programme with the graduate advisor in the Department of Societies and Cultures.

Prescriptions for the PGCert(Dem), PGDip(Dem) and BSocSc(Hons)

To complete a BSocSc(Hons) in Demography, students must include POP507, POP509, SSRP504, and a minimum of 15 points selected from GEOG507, POP508, POP589, SOCP506 and SOCP507.

- **GEOG507-09B (HAM)**: International Migration Issues 30 Points
  For details see Geography GEOG507.

- **GEOG516-09B (HAM)**: Advanced Development Studies 30 Points
  For details see Geography GEOG516.

  For details see Social Science Research SSRP504.
Prescriptions for the MSocSc

Entry to the MSocSc in Demography is open to suitably qualified candidates who have completed the core papers for the BSocSc(Hons) in Demography.

To complete an MSocSc in Demography, students must take either a 120 point thesis, a 90 point thesis and 30 points from approved 500 level papers, or a 60 point dissertation and 60 points from approved 500 level papers.

Development Studies

Development Studies as an interdisciplinary discipline brings together students from a range of disciplines and experiences to debate, assess, and engage in the discourse of development at a global, national, and local level. Development Studies combines a sound theoretical base with praxis which bodes well for students serious about a rapidly changing world and the impact this has on all facets of development.

Prescriptions for the PGDip(DevSt)

Students are normally required to take the four 500 level papers listed as follows:

Earth Sciences

Earth Sciences offers a broad understanding of Earth’s features and processes and includes a range of branches of the subject, including geology, soil science, hydrology, geomorphology, coastal marine studies, engineering geology and environmental science.

Earth Sciences is available as a major for the BSc and BSc(Tech). Earth Sciences may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Earth Sciences, students must gain 120 points above 100 level in Earth Sciences, including 60 points above 200 level. It is recommended that students intending to major in Earth Sciences include ERTH103 and ERTH104 in the first year of their programme of study.

Students with a special interest in physical geography should consult the Chairperson of Geography and the Chairperson of Earth Sciences before selecting their papers. The majority of papers in Earth Sciences include both laboratory practical and field work. Some also include tutorial or seminar discussion groups.

Further information regarding papers, staff and research details is contained in brochures available from the Departmental Secretary.

**Note on Assessment:** Māori language tutorials can be arranged on request, subject to the availability of tutors. However, because of the technical nature of the terminology and accepted international practice, this Department requires that all material for assessment for all papers be presented in English.

355
ERTH222-09A (HAM)
Stratigraphy and Tectonics
20 Points
This paper covers: stratigraphic procedures, field mapping and map interpretation, introduction to analysis of geological structures, report writing, and computer graphics for earth science applications.
Prerequisite(s): ERTH103 and one of ENVS101, ERTH104 or GEOG103
Internal assessment/examination ratio: 3:2

ERTH233-09A (HAM)
Soils in the Landscape
10 Points
An introduction to the nature and formation of soils and their place in the landscape, their classification, distribution pattern and use as a finite resource in New Zealand.
Restriction(s): ERTH231
Prerequisite(s): two of ENVS101, ERTH103, ERTH104 or GEOG103
Required book(s): B. Clayden and A.E. Hewitt Horizon Notation for New Zealand Soils [ Manaaki Whenua Press]
Internal assessment/examination ratio: 1:1

ERTH234-09B (HAM)
Soil Properties and their Management
10 Points
An introduction to physical, chemical, mineralogical, and biological properties of soils, including analysis and interpretation using laboratory methods, and issues of soil quality, land degradation and sustainable management.
Restriction(s): ERTH231
Prerequisite(s): two of ENVS101, ERTH103, ERTH104 or GEOG103
Internal assessment/examination ratio: 1:1

ERTH242-09B (HAM)
Oceanography
20 Points
This paper explores the nature and origin of the oceans. Topics include: currents, waves, and circulation patterns, ocean/climate interactions, paleoceanography, instrumentation, marine resources.
Prerequisite(s): two of ENVS101, ERTH103, ERTH104 or GEOG103
Internal assessment/examination ratio: 1:1

ERTH245-09A (HAM)
Weather and Climate
10 Points
An introduction to atmospheric processes, including meteorology, precipitation processes, energy exchanges within the hydrosphere and microclimatology, with emphasis on the role of water in earth surface-atmosphere interactions.
Restriction(s): ERTH241
Prerequisite(s): two of ENVS101, ERTH103, ERTH104 or GEOG103
Internal assessment/examination ratio: 1:1

ERTH246-09B (HAM)
Introduction to Hydrology
10 Points
An introduction to the land component of the hydrological cycle and associated human modifications. Topics covered include introduction to groundwater, fluvial processes and landforms, catchment hydrology and hydro power evaluation.
Restriction(s): ERTH241
Prerequisite(s): two of ENVS101, ERTH103, ERTH104 or GEOG103
Internal assessment/examination ratio: 1:1

ERTH251-09A (HAM)
Engineering Geomorphology
10 Points
An introduction to the study of mass wasting processes on hillslopes: classification of mass wasting; processes of rock and soil slope failure and their recognition based on geomorphic evidence; nature and geomorphology of debris flows and debris avalanches; hazard assessment for slope failure.
Restriction(s): ERTH352
Prerequisite(s): two of ERTH103, ERTH104, ENVS101, GEOG103
Internal assessment/examination ratio: 1:1

ERTH271-09C (HAM)
Earth Sciences Placement 1
20 Points
This paper requires a period of work experience in an appropriate and approved industry or applied field. Assessment is by written reports and employer feedback. This paper may be counted only towards the BSc(Tech) degree.
Internal assessment/examination ratio: 1:0
ERTH284-09B (HAM)
Introduction to Environmental Monitoring
10 Points
This paper introduces students to aspects of environmental monitoring within the New Zealand resource management framework, including: principles of environmental monitoring as applied to a range of environments in the Waikato Region; sampling strategies; and data interpretation.
Restriction(s): ERTH284
Prerequisite(s): two of ERTH103, ERTH104, ENVS101, GEOG103
Internal assessment/examination ratio: 1:1

300 level
ERTH311-09A (HAM), 09B (HAM) & 09C (HAM)
Special Topics in Earth Sciences
20 Points
Each student is assigned a research project on which they are expected to spend at least 100 hours and write a written report. This paper is not normally part of an Earth Sciences major and admission is at the discretion of the Chairperson of Department.
Internal assessment/examination ratio: 1:0

ERTH321-09A (HAM)
Volcanology
20 Points
A study of pyroclastic rocks, tephrochronology, physical volcanology, volcanic hazards, crystallisation of rock-forming minerals–phase equilibria, petrology and trace element geochemistry of volcanic rocks, and the origin of magmas.
Prerequisite(s): ERTH221
Internal assessment/examination ratio: 3:2

ERTH322-09B (HAM)
Sedimentary and Petroleum Geology
20 Points
A study of sedimentary processes, depositional environments and associated resources (eg petroleum and coal). Introduction to micropaleontology, diagenesis, sequence stratigraphy and seismic reflection profiles as used in the petroleum industry.
Prerequisite(s): ERTH221 or ERTH222
Internal assessment/examination ratio: 3:2

ERTH333-09A (HAM)
Pedology and Land Evaluation
10 Points
Soil genesis and spatial variability, quantitative soil survey and soil-landscape modelling, soil taxonomy, and the interpretation of soil and land data in a form applicable to land-use planning and management.
Restriction(s): ERTH331
Prerequisite(s): ERTH233
Required book(s): A.E. Hewitt New Zealand Soil Classification 2nd edition (Manaaki Whenua Press)
Internal assessment/examination ratio: 3:2

ERTH334-09B (HAM)
Soil and Land Management
10 Points
Analysis and interpretation of soil properties relating to land and environmental management. Soil fertility, soil water management, land treatment of wastes, soil degradation and remediation, soil nitrogen and phosphorus cycling.
Restriction(s): ERTH331
Prerequisite(s): ERTH234
Internal assessment/examination ratio: 3:2

ERTH343-09A (HAM)
Coastal Geomorphology and Management
20 Points
A study of the geomorphic development of coastal features. Topics include qualitative and semi-quantitative assessments of coastal hazards, impacts of sea-level rise, dredge spoil disposal, stability of coasts, coastal protection and mitigation of hazards.
Prerequisite(s): 40 points at 200 level in Earth Sciences or approved Geography papers
Internal assessment/examination ratio: 3:2

ERTH344-09B (HAM)
Coastal Oceanography and Engineering
20 Points
A study of water movement in estuarine and shelf environments. Methodologies for quantifying processes and responses for coastal planning and management. Evaluation of design conditions for engineering purposes. Introduction to numerical modelling.
Prerequisite(s): ERTH242
Internal assessment/examination ratio: 3:2
ERTH345-09A (HAM)
Catchment Hydrology
10 Points
A study of the measurement, analysis and modelling of surface hydrological processes at the catchment scale, emphasising river flow, evaporation, interception loss and hillslope runoff processes.
Restriction(s): ERTH341
Prerequisite(s): ERTH245 or ERTH246
Internal assessment/examination ratio: 3:2

ERTH346-09B (HAM)
Groundwater and Hydrological Analysis
10 Points
A study of techniques of groundwater data analysis and modelling; general quantitative modelling methods in a range of hydrological situations.
Restriction(s): ERTH341
Prerequisite(s): ERTH246
Internal assessment/examination ratio: 3:2

ERTH352-09A (HAM)
Engineering Geology
10 Points
A study of the nature and mechanics of soil instability, slope erosion processes and the physical properties of earth materials. Mitigation and avoidance of hazards resulting from slope instability and associated erosion processes.
Restriction(s): ERTH251
Prerequisite(s): 40 points at 200 level in Earth Sciences or approved Geography papers
Internal assessment/examination ratio: 3:2

ERTH370-09C (HAM)
Earth Sciences Placement 3
20 Points
For details see Earth Sciences ERTH370.
Internal assessment/examination ratio: 1:0

ERTH384-09B (HAM)
Environmental Monitoring
10 Points
A study of the acquisition of environmental data and their interpretation, principles of environmental measurement and design, use of dataloggers and automatic instrumentation, case study of environmental evaluation.
Restriction(s): ERTH284
Prerequisite(s): 40 points at 200 level in Earth Sciences or approved Geography papers
Internal assessment/examination ratio: 3:2

Prescriptions for the GradCert(EarthSc) and GradDip(EarthSc)
A Graduate Certificate and Graduate Diploma are available to graduates who have not included Earth Sciences at an advanced level in their first degree. For further details, contact the School of Science and Engineering.

Prescriptions for the PGCert(EarthSc), PGDip(EarthSc), BSc(Hons), MSc and MSc(Tech)
Students in masters degrees are normally required to take a thesis and a selection of papers. Normally, only one ENVS coded paper may be taken as part of an Earth Sciences graduate qualification. Enrolment in papers towards the BSc(Hons) is only by invitation of the Chairperson. Candidates for these graduate qualifications should select their papers in consultation with the Chairperson of Department.

Economics

Economics is concerned with the way in which people and institutions make the best decisions to meet their objectives. It is relevant to the everyday life of individuals, businesses and government.

Economics is available as a major for the BBA(Fin), BMS and BSocSc. Economics may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled. The requirements for the BBA(Fin) and BMS majors are prescribed in the Waikato Management School Student Handbook.

To complete a major in Economics for the BSocSc, or as a second major for degrees other than the BBA(Fin) and BMS, students must gain 120 points above 100 level in Economics, including ECON200 and at least 60 points above 200 level. It is recommended that students intending to major in Economics for the BSocSc include STAT160 in their programme of study.

No more than 40 points in FINA coded papers may be included in an Economics major.

Economics can also be taken as a specialisation to a major in Environmental Planning for the BSc, BSc(Tech) and BSocSc, to a major in Mathematics for the BCMS and BSc, or to a major in Statistics for the BSc.

Students intending to continue on to graduate study in Economics must complete an approved paper in macroeconomics, microeconomics and econometrics at 200 level or above. For further details, contact the Department of Economics at the Waikato Management School.

Note on Assessment: To be eligible to pass these papers students should normally achieve a minimum grade of D in the internal assessment and the final examination, and an overall grade of C.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Economics papers at 200 level, and at least 180 points, including 60 points at 200 level, in any subject(s) before enrolling in Economics papers at 300 level.

Prescriptions for the GradCert(Econ) and GradDip(Econ)
A Graduate Certificate and Graduate Diploma are available to graduates who have not included Economics at an advanced level in their first degree. The requirements for the Graduate Certificate and Graduate Diploma are prescribed in the Waikato Management School Student Handbook.

Prescriptions for the BMS(Hons), PGCert(Econ), PGDip(Econ), BBA(Hons)(Fin), BSoSc(Hons), MMS and MSocSc
Economics may be taken as a major for the BMS(Hons) and as a subject for the BBA(Hons)(Fin), BSoSc(Hons), MMS and MSocSc. In addition, Applied Economics and Finance may be taken as a subject for the MMS. A Postgraduate Certificate and a Postgraduate Diploma in Economics are also available. The requirements for the Waikato Management School major, subjects, Postgraduate Certificate and Postgraduate Diploma are prescribed in the Waikato Management School Student Handbook.
Students enrolling in 500 level Economics papers should normally have a minimum of a B average in undergraduate Economics papers, with no less than that in 300 and 400 level Economics papers. All students should discuss their programme with the Management Student Centre before enrolling.
To complete an MSocSc in Economics, students must take either a 120 point thesis, a 90 point thesis and 30 points from approved 500 level papers, or a 60 point dissertation and 60 points from approved 500 level papers.
Further details of these 500 level papers may be found in the Waikato Management School Student Handbook.

Education Studies

Education Studies involves critical inquiry into the social, political, cultural, economic and personal theories and practices of lifelong education. Although its origins are in humanities and social science disciplines such as History, Philosophy, Psychology and Sociology, Education Studies today has close affinities with contemporary interdisciplinary fields exploring issues of social policy, culture, gender, work and leisure. Since education is as much concerned with who we might become as who we already are, it is relevant to all our collective and personal decision-making on questions of justice, rights and freedom.

Education Studies is available as a major for the BA and BSoSc. Education Studies may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Education Studies, students must gain 120 points above 100 level in Education Studies, including 60 points at 200 level, including at least 40 points from PCSS coded papers, one of which is PCSS201, PCSS205 or PCSS231, and 60 points at 300 level, including at least 40 points from PCSS coded papers. As well as the 100 level prerequisites specified for papers at 200 level and above, it is recommended that students intending to major in Education Studies include one or more of HDCO100, HIST107, PHIL150, PSYC102, SMST102, SOCY101, TIKA163 or TIKA164 in the first year of their programme of study.

To complete a supporting subject in Education Studies, students must gain 30 points at 100 level, including PCSS101 and one of HDCO100, HIST107, PHIL150, PSYC102, SMST102, SOCY101, TIKA163 or TIKA164, and at least 40 points above 100 level, including one of PCSS201, PCSS205 or PCSS231.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Education Studies papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Education Studies papers above 200 level. The (NET) offerings may include an on-campus component.

Electronic Business

Electronic Business (E-Business) gives students a hands-on understanding of electronic business. Students gain an appreciation of how information is collected, managed, and used for decision-making purposes, both internally using traditional back office systems, and externally, using the internet.

Electronic Business is available as a major for the BMS. Electronic Business may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled. The requirements for the BMS major are prescribed in the Waikato Management School Student Handbook.

To complete a second major in Electronic Business for degrees other than the BMS, students must gain 120 points above 100 level in Electronic Business, including MSYS212, either MSYS351 or MSYS451, either MSYS358 or MSYS458, and at least 20 further points above 200 level.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Electronic Business papers at 200 level, and at least 180 points, including 60 points at 200 level, in any subject(s) before enrolling in Electronic Business papers at 300 level.

Prescriptions for the BMS(Hons)

Electronic Business may be taken as a major for the BMS(Hons). The requirements for the major are prescribed in the Waikato Management School Student Handbook. Students enrolling in 500 level Electronic Business papers should normally have a minimum of a B average in undergraduate Electronic Business papers, with no less than that in 300 and 400 level Electronic Business papers. All students should discuss their programme with the Management Student Centre before enrolling. Further details of these 500 level papers may be found in the Waikato Management School Student Handbook.

Prescriptions for the GradCert(EBus) and GradDip(EBus)

A Graduate Certificate and Graduate Diploma are available to graduates who have not included Electronic Business at an advanced level in their first degree. The requirements for the Graduate Certificate and Graduate Diploma are prescribed in the Waikato Management School Student Handbook.
Electronic Commerce

Electronic Commerce, or ecommerce as it is often called, is the use of computers and electronic networks to conduct business over the internet or another electronic network. Electronic Commerce is not restricted to large multinational companies. Perhaps the greatest advantage of electronic commerce for smaller companies is ‘global reach’ - the ability to immediately access world markets. Business-to-business electronic commerce provides significant cost reductions and the ability to strengthen relationships with external organisations.

Electronic Commerce is available as a major for the BECom. Electronic Commerce may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled. The requirements for the BECom major are prescribed in the Waikato Management School Student Handbook.

To complete a second major in Electronic Commerce for degrees other than the BECom, students must gain 120 points above 100 level in Electronic Commerce, including ACCT324, COMP219, MSYS212, STMG346, and a further 40 points, including at least 20 points above 200 level, from COMP233, COMP321, COMP333, ECON318, MCOM337, MSYS221, MSYS231, MSYS351, MSYS421, MSYS451, STMG324 or STMG424.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Electronic Commerce papers at 200 level, and at least 180 points, including 60 points at 200 level, in any subject(s) before enrolling in Electronic Commerce papers at 300 level.

Electronic Engineering

The Electronic Engineering programme is based on studies in computer science, electronics, mathematics, and physics. There are papers in design and a major electronic engineering project in the fourth year of study. Extensive experience is attained in computer science and electronic laboratories. Economic and professional training elements are also included. New Zealand’s electronics manufacturing industry is one of the fastest growing industries in the country, and New Zealand has a shortage of skilled people. Companies are targeting niche markets, such as telecommunications and export their products all over the world. The largest number of exporters is in the industrial/commercial field, followed by healthcare, radiocommunications and agriculture.

Electronic Engineering is available as a specified programme for the BE.

To complete the specified programme in Electronic Engineering, students must follow the following programme.

Note: A major in Electronics is also available for the BSc and BSc(Tech).

Year 1

Students must take the following papers and a further 15 points chosen from an elective first year Science paper (not PHYS100). BIOL101, CHEM101, COMP104, or COMP134 are recommended.

Electronics

Electronics is the science and technology concerned with the controlled flow of electrons and other carriers of electric charge. It covers theory, design, and construction of electronic devices, circuits, instruments, or systems.

Electronics is available as a major for the BSc and BSc(Tech). Electronics may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Electronics, students must gain 120 points above 100 level in Electronics, including ENEL205, ENEL211, and at least 60 points above 200 level. It is recommended that students intending to major in Electronics take ENEL111 and PHYS103 in the first year of their programme of study.

Note on Assessment: Māori language tutorials can be arranged on request, subject to the availability of tutors. However, because of the technical nature of the terminology and accepted international practice, this Department requires that all material for assessment for all papers be presented in English.

Note: A specified programme in Electronic Engineering is also available for the BE.

100 level

ENEL111-09A (HAM)
Introduction to Electronics
15 Points
This paper covers basic electronic concepts. Topics covered include circuit laws, passive components, simple active devices, dc and ac circuit analysis, Boolean logic circuits, digital-to-analog and analog-to-digital conversion, and computer architecture.
Prerequisite(s): 14 credits at Level 3 in NCEA Physics, Mathematics with Calculus or Statistics and Modelling, or equivalent
Internal assessment/examination ratio: 1:1
Note: Students are also recommended to enrol in MATH101.

200 level

ENEL205-09B (HAM)
Analog Electronics and Circuit Analysis
20 Points
Topics include advanced dc and ac analysis, transistor amplifiers, feedback in amplifiers, oscillations, and filters. This paper includes a compulsory laboratory component.
Prerequisite(s): ENEL111
Internal assessment/examination ratio: 1:2
Note: A minimum mark of 40% in the examination is normally required in order to receive a passing grade.

ENEL211-09A (HAM)
Digital Electronics
20 Points
This paper covers the theory, design and applications of logic circuits and the technology developments related to digital systems, including an introduction to microprocessors, memories and programmable logic.
Prerequisite(s): ENEL111
Internal assessment/examination ratio: 1:1

ENEL271-09C (HAM)
Electronics Placement 1
20 Points
This paper requires a period of work experience in an appropriate and approved industry or applied field. Assessment is by written reports and employer feedback. This paper may be counted only towards the BSc(Tech) degree.
Internal assessment/examination ratio: 1:0

ENEL284-09B (HAM)
Electricity and Magnetism
10 Points
This paper teaches principles of electromagnetism which are relevant to engineering. It covers the fundamental theory of electric and magnetic fields.
Restriction(s): ENEL281, PHYS201 and PHYS304
Prerequisite(s): ENEL111 and PHYS103
Internal assessment/examination ratio: 1:2
ENEL285-09A (HAM)
Quantum and Solid State Physics
10 Points
This paper teaches principles of modern physics which are relevant to engineering. It covers introductory quantum mechanics and relativity, atomic, molecular and semiconductor physics.
Restriction(s): ENEL281, PHYS202 and PHYS304
Prerequisite(s): PHYS103
Internal assessment/examination ratio: 1:2

300 level

For details see Computer Science COMP311.

ENEL301-09A (HAM), 09B (HAM), 09C (HAM) & 09Y (HAM)
Special Topics in Electronics
20 Points
An independent theoretical, literature or experimental investigation of an electronics topic, supervised by a member of staff. Progress is discussed in group seminars and assessment is based on seminar and poster presentations and a full written report.
Internal assessment/examination ratio: 1:0
Note: Admission is at the discretion of the Chairperson of Department

ENEL312-09A (HAM)
Electromagnetic Waves
20 Points
This paper discusses electromagnetic wave phenomena using classical electromagnetic theory which is applied to a range of engineering applications like transmission lines, waveguides, antennas, electromagnetic interference, and microwave circuits.
Equivalent(s): PHYS312
Prerequisite(s): ENEL284 or PHYS201, and ENGG285 or MATH251
Required book(s): S.M. Wentworth
Fundamentals of Electromagnetics with Engineering Applications (Wiley)
Internal assessment/examination ratio: 1:2
Note: A minimum mark of 40% is required in the examination in order to receive a passing grade.

ENEL317-09B (HAM)
Microprocessor Applications and Control
20 Points
This paper provides an introduction to mechatronics. Topics covered include sensors, transducers, a/d and d/a converters, signal conditioning, systems theory and control theory. This paper includes a compulsory laboratory component in which microcontrollers are interfaced to real-world devices.
Prerequisite(s): COMP103, ENEL205 and ENEL211
Internal assessment/examination ratio: 1:0
Note: A minimum mark of 40% in the internal tests is required in order to receive a passing grade.

ENEL321-09B (HAM)
Application Specific Integrated Circuits
20 Points
This paper considers the design and construction of application-specific integrated circuits with emphasis on VLSI. Topics include silicon and compound semiconductor IC fabrication, design hierarchy, layout, reliability, and testing.
Prerequisite(s): ENEL205 and ENEL211
Internal assessment/examination ratio: 1:1
Note: A minimum mark of 40% is required in the examination in order to receive a passing grade.

ENEL324-09A (HAM)
Optoelectronics
20 Points
This paper discusses the principles of modern optoelectronic components and systems in particular, lasers, semiconductor devices, electro-optic devices and optical fibres. Theoretical as well as practical aspects will be covered.
Prerequisite(s): MATH101 and MATH102, and either ENEL285 or PHYS202
Required book(s): S.O. Kasap Optoelectronics and Photonics (Prentice Hall)
Internal assessment/examination ratio: 1:2
Note: A minimum mark of 40% is required in the examination in order to receive a passing grade.
ENEL370-09C (HAM)
Electronics Placement 2
20 Points
This paper requires a period of work experience in an appropriate and approved industry or applied field. Assessment is by written reports and employer feedback. This paper may be counted only towards the BSc(Tech) degree.
Internal assessment/examination ratio: 1:0

ENEL371-09C (HAM)

High Speed Communications
20 Points
This lecture and laboratory paper presents an introduction to communications theory and its application to wireless and fibre-optic communication systems.
Prerequisite(s): ENGG283 and ENGG285 and either ENEL205 or ENEL211
Corequisite(s): ENEL324
Internal assessment/examination ratio: 1:1

ENEL385-09B (HAM)
Power Electronics
20 Points
This paper covers the theory and practice of power semiconductors, power converters, power management, and protection and variable speed drives.
Restriction(s): ENEL485 and ENEL585
Prerequisite(s): ENEL205 and ENEL211
Internal assessment/examination ratio: 1:1
Note: A minimum mark of 40% in the examination is required in order to receive a passing grade.

Mechatronics
20 Points
This paper covers embedded micro-programming, feedback control, interface to electro-mechanical systems involving gears, motors, belt drives, actuators, and sensors: the enabling technologies of robotics. A series of projects require students to integrate software, control, mechanical and electromotive skills to achieve practical goals.
Restriction(s): ENEL517
Prerequisite(s): ENEL317
Internal assessment/examination ratio: 1:0

ENEL423-09B (HAM)
Electro-optical Instrumentation
20 Points
Theoretical and practical aspects of advanced electro-optical instrumentation will be discussed and applied in practical sessions. Topics include telemeters, interferometers for velocity or vibration detection, optical gyroscopes, optical fibre sensors, and others.
Restriction(s): ENEL322 and ENEL522
Prerequisite(s): ENEL324 and either ENEL312 or PHYS312

Engineering

Engineering involves designing and creating processes, materials and devices. General Engineering papers are taken as part of the Bachelor of Engineering (BE) degree at 100, 200, 300 and 400 levels. The BE and BE(Hons) is available in Biochemical Engineering, Electronic Engineering, Materials and Process Engineering, Mechanical Engineering and Software Engineering.

Students are advised to consult the School of Science and Engineering Undergraduate Handbook for programme requirements.

Note on Assessment: Māori language tutorials can be arranged on request, subject to the availability of tutors. However, because of the technical nature of the terminology and accepted international practice, this Department requires that all material for assessment for all papers be presented in English.

100 level

ENGG180-09A (HAM)
Foundations of Engineering
15 Points
This paper introduces engineering design and the design process, fundamental laws for engineering analysis, accounting principles for mass, energy and money, and the skills of a successful engineer. Includes a design-build-test experience.
Equivalent(s): ENMP101
Internal assessment/examination ratio: 1:1

ENGG200-09C (HAM)
Engineering Placement 1
0 Points
This paper requires a period of work experience in an appropriate and approved industry or applied field. The paper is assessed on the basis of reports on the work done.
Equivalent(s): PLACEMENT1
Internal assessment/examination ratio: 1:0

200 level

ENGG201
Introduction to Engineering for Manufacturing
20 Points
This paper will not be taught in 2009.

ENGG282-09B (HAM)
Engineering Design
10 Points
An introduction to the design process for problem solving. The use of Computer Aided Design (CAD) as a tool in the design process is reinforced using a practical group design exercise.
Restriction(s): ENGG280
Required book(s): N. Cross Engineering Design Methods 3rd edition (Wiley)
Internal assessment/examination ratio: 1:1

ENGG283-09B (HAM)
Engineering Mathematics 1A
10 Points
Linear algebra and matrices with an emphasis on the practical applications of the subject.
Restriction(s): MATH253
Prerequisite(s): MATH101
Internal assessment/examination ratio: 1:0 or 0:1, whichever is more favourable for the student

ENGG284-09A (HAM)
Engineering Mathematics 1B
10 Points
An introduction to theory and solutions for ordinary and partial differential equations.
Restriction(s): MATH255
Prerequisite(s): MATH101 and MATH102
Internal assessment/examination ratio: 1:0 or 0:1, whichever is more favourable for the student
ENGG285-09A (HAM)
Engineering Mathematics 2A
10 Points
An examination of vector calculus and applications, including parametric curves, optimisation, coordinate transformations and integral theorems.
Restriction(s): MATH251
Prerequisite(s): MATH101 and MATH102
Internal assessment/examination ratio: 1:1 or 0:1, whichever is more favourable for the student

ENGG286-09B (HAM)
Engineering Mathematics 2B
10 Points
Mechanics, including systems of particles, rigid bodies and statics.
Restriction(s): MATH256
Prerequisite(s): MATH101 and MATH102
Internal assessment/examination ratio: 1:1 or 0:1, whichever is more favourable for the student

ENGG287-09A (HAM)
Engineering Applications
10 Points
A study of computer programming as a tool for engineering and using computer languages and systems to solve engineering problems.
Restriction(s): ENGG181
Prerequisite(s): PHYS103 and one of COMP103 or COMP106 or COMP153
Internal assessment/examination ratio: 1:1

300 level

ENGG300-09C (HAM)
Engineering Placement 2

ENGG301-09A (HAM), 09B (HAM), 09C (HAM) & 09Y (HAM)
Special Topic in Engineering
20 Points
An independent theoretical, literature or experimental investigation of an engineering topic, supervised by a member of staff.
Internal assessment/examination ratio: 1:0

ENGG340-09A (HAM)
Computer Aided Engineering
20 Points
This paper explains the theory behind key Computer Aided Engineering (CAE) areas and uses advanced computer software to model, predict, and solve real engineering problems.
Equivalent(s): ENSC340
Restriction(s): ENGG440, ENSC440, ENGG540 and ENSC540
Prerequisite(s): ENGG285 or MATH251, and ENGG284 or MATH255
Internal assessment/examination ratio: 1:0

ENGG381-09A (HAM)
Engineering Statistics
20 Points
Aimed specifically at Engineering students, this paper covers statistical models, experimentation for quality design and control, process measurement and improvement, statistical process control and capability, and reliability.
Prerequisite(s): MATH101 and MATH102
Internal assessment/examination ratio: 1:1

ENGG383
Engineering Mathematics 3
20 Points
This paper will not be taught in 2009.

400 level

ENGG401-09A (HAM)
System Control Theory
20 Points
This paper deals with PID feedback control of linear systems using classical as well as state space methods. It is highly computer and project based.
Restriction(s): ENGG501
Prerequisite(s): ENEL317
Internal assessment/examination ratio: 1:0
This paper explains the theory behind key Computer Aided Engineering (CAE) areas and uses advanced computer software to model, predict, and solve real engineering problems.

Prescriptions for the ME
To complete an ME, students must complete the equivalent of 120 points at 500 level.

Prescriptions for the GradDip(Eng)
A Graduate Diploma is available to graduates who have not included Engineering at an advanced level in their first degree. Within the GradDip(Eng), a specialisation in Technology Teaching is available. For further details, contact the School of Science and Engineering.

Prescriptions for the GradDip(Eng)
English

English is about language, history and culture. It is about art and aesthetics, meaning and value. At the University of Waikato, papers are drawn from literatures written in English since medieval times, and from all major English-speaking cultures, especially from the United Kingdom, North America, India, Australia, and New Zealand.

English is available as a major for the BA. English may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in English, students must gain 120 points above 100 level in English, including at least 60 points above 200 level. It is recommended that students intending to major in English include two of ENGL104, ENGL105, ENGL108 or ENGL112 in the first year of their programme of study. The New Zealand Studies paper NZST300 may be counted towards a major in English, as may one of GERM302, SPAN305, and THST207.

Students considering graduate study in English are advised to include a range of modern and historical papers in English in their undergraduate programme of study.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in English papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in English papers above 200 level.

100 level

ENGL104-09B (HAM)
Telling the Story
15 Points
This paper surveys the great story-telling traditions of the English language using tales of creation, chivalry, dragon-slaying, adventure, crime and romance, from the Book of Genesis to Rushdie's *Haroun & the Sea of Stories*.

Internal assessment/examination ratio: 1:1

ENGL105
New Zealand Literature
15 Points
This paper will not be taught in 2009.

ENGL108
American Literature 1: America Now
15 Points
This paper will not be taught in 2009.

ENGL112-09A (HAM)
From Page to Screen: Literature as Text and Film
15 Points
A comparative examination of the techniques used to tell stories by novelists, dramatists and directors.

Internal assessment/examination ratio: 1:1

ENGL113-09A (HAM)
English.Confidence
15 Points
This paper examines the structure of the English language and, by linking structure to practical application, offers support for student writing. This can be a useful preparatory paper for language, linguistics and creative writing papers.

Internal assessment/examination ratio: 1:1

HUMA101-09B (HAM)
Old Worlds - New Worlds
15 Points
This paper is intended to provide students with a background for study within the Department of Humanities. It is a multi-disciplinary paper that has been structured around the metaphor of journey and cultural encounter and will focus on a variety of texts, images and sounds.

Internal assessment/examination ratio: 1:1

200 level

ENGL201
Medieval Literature: An Introduction
20 Points
This paper will not be taught in 2009.
ENGL202
Shakespeare’s Theatre
20 Points
This paper will not be taught in 2009.

ENGL203-09B (HAM)
Global Fictions
20 Points
A study of world fictions written in English in the twentieth and twenty-first century. This paper will explore the way in which the novel has developed since 1900 and will locate each text in its cultural and historical context.
Restriction(s): ENGL221, ENGL222, ENGL223 and ENGL235
Internal assessment/examination ratio: 1:0

ENGL204-09A (HAM)
Comedy
20 Points
This paper provides students with an understanding of the literary genre of comedy and its evolution from Shakespeare to the present day. A range of plays, novels, poems and films will be studied.
Internal assessment/examination ratio: 1:1

ENGL205
New Zealand Literature 2
20 Points
This paper will not be taught in 2009.

ENGL207-09A (HAM)
Biblical and Classical Backgrounds
20 Points
A study of key themes, images and genres that influenced European vernacular literature. The Bible and classical texts are studied in translation.
Internal assessment/examination ratio: 1:1

ENGL208
American Literature 2: Gods and Monsters
20 Points
This paper will not be taught in 2009.

ENGL210
Classical Texts
20 Points
This paper will not be taught in 2009.

ENGL211-09A (HAM)
Food Writing
20 Points
An introduction to food writing and cultural studies via the ‘greats’ of the genre. Written tasks are based on the course readings, on archival research and on personal food memories.
Internal assessment/examination ratio: 1:0

ENGL212-09B (HAM)
The Poetry Code
20 Points
An introduction to traditional poetry, from the English Renaissance to the end of the Victorian Era. Students will learn a wide range of poetic forms, gaining confidence in discussing and presenting poetry.
Internal assessment/examination ratio: 1:1

ENGL214-09B (HAM)
An Introduction to the History of the English Language
20 Points
A survey of the history of the English language from Old English to the present day.
Internal assessment/examination ratio: 1:1

ENGL217-09B (HAM)
Writing and Audience
20 Points
This paper introduces a variety of modes and genres including biography, essays, journalism, letters, poetry and fiction. Assessment includes the opportunity to write creatively as well as critically.
Internal assessment/examination ratio: 1:1

300 level
ENGL301-09A (HAM)
Late Medieval and Early Tudor Writing
20 Points
This paper will focus on attitudes toward authorship, authority and textuality in selected English poetry and prose written during the 15th and early 16th centuries.
Internal assessment/examination ratio: 1:1

ENGL303
Renaissance Literature
20 Points
This paper will not be taught in 2009.
ENGL304

Ravishing Maidens and Errant Knights: Appropriating the Middle Ages
20 Points
This paper will not be taught in 2009.

ENGL306-09S (HAM)
Creative Writing
20 Points
An intensive workshop in which students are encouraged to develop writing skills in a variety of genres through discussion of course readings, workshop exercises and the critique of work in progress.
Internal assessment/examination ratio: 1:0

ENGL307-09B (HAM)
Eighteenth Century Literature
20 Points
An introduction to the Literature of the long Eighteenth Century, from 1688 to 1789, the period from the Glorious Revolution to the French Revolution, from the late Enlightenment to the start of the Romantic Period.
Internal assessment/examination ratio: 1:1

ENGL308-09A (HAM)
American Literature 3: Finding America
20 Points
This paper will focus on the poetry and prose of the nineteenth-century American 'renaissance' and the literature of the Civil War.
Internal assessment/examination ratio: 1:1

ENGL309-09B (HAM)
Going Places: Life, Literature and Travel
20 Points
This paper will examine the relationship between place and self in different forms of life writing - travel, auto/biography, memoir, journal and letter.
Internal assessment/examination ratio: 1:0

**English as a Second Language**

These papers are very useful for improving the skills required for university study by students whose first language is not English. Students who would like to develop their confidence in the skills of speaking, writing, reading and listening in English are encouraged to choose an ESLA paper as one of their elective papers. All papers are supported by the University’s online learning system.

English as a Second Language is available as a supporting subject for the BA, BMPD and BSocSc.

**Note:** Normally, candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in English as a Second Language papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in English as a Second Language papers above 200 level. All papers are fully supported by online web conferencing.

### 100 level

**ESLA101-09A (HAM) & 09B (HAM)**  
**Academic Writing and Research**  
15 Points

This paper introduces students to the academic study culture of Western universities and covers research, writing style, referencing, approaches to different genres of academic writing, techniques for structuring written work and examination approaches.

*Internal assessment/examination ratio: 1:0*  
*Note: Students may credit only one of ALED100 or ESLA101 towards a BA or BSocSc degree.*

**ESLA102-09A (HAM)**  
**Academic Oral Presentation**  
15 Points

This paper focuses on practical skills needed for speaking and listening effectively in university papers. The paper covers procedures for preparing and presenting the most common types of academic presentation and involves preparation skills such as body language, eye contact, visual aids and how to prepare for discussion.

*Internal assessment/examination ratio: 1:0*

### 200 level

**ESLA200-09A (HAM) & 09B (HAM)**  
**Academic Written Discourse**  
20 Points

This paper provides students with advanced written and research skills to learn and study effectively in university papers. The focus is on academic text types and the kinds of skills needed to interpret complex academic reading texts and use the information in written assignments. Students are also required to engage in oral debates to learn how to express personal opinion in university classes.

*Internal assessment/examination ratio: 1:0*

**ESLA201-09B (HAM)**  
**Academic Aural Strategies**  
20 Points

In this paper students will explore practical perspectives on listening skills needed for lectures and tutorials at the university level. Essential note taking skills will also be covered to aid students in their ability to get the best out of university lectures and tutorials.

*Internal assessment/examination ratio: 1:0*

**ESLA202-09A (HAM)**  
**Academic Oral Discourse**  
20 Points

This paper provides students with skills needed to understand and question academic texts. It covers skills in reading and text inquiry and techniques in voicing opinions and questioning views.

*Internal assessment/examination ratio: 1:0*

20 Points
This paper will not be taught in 2009.

ESLA302-09A (HAM)
English as an International Language
20 Points
This paper examines the role and functions of English within the globalisation of communication. It particularly focuses on intercultural encounters within business, education and the media.

*Internal assessment/examination ratio: 1:0*
English Studies

English Studies gives students an opportunity to consider why we read, and why we write, and how to do both effectively and creatively. Using a variety of texts, current literary theory, and dealing with contemporary issues, this subject examines readers’ responses to text, and how those responses may be created. The study of language and literature will enhance the students’ critical apparatus for study in all areas of communication by introducing students to the concepts of literary and language theory. By studying a variety of discourses, they will consider the differences race, nationality and gender may make to the communicative act. English Studies is of interest to anyone preparing for a career in communication.

English Studies is available as major for the BCS. English Studies may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in English Studies, students must gain 120 points above 100 level in English Studies, including ENGL217, either ENGL316 or NZST300, and at least 40 further points above 200 level.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in English Studies papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in English Studies papers above 200 level.

While successful e-commerce (EC) requires innovation, innovation alone does not guarantee success. Budding EC entrepreneurs need more than just technical know-how: they need to understand the global competitive environments and ways to minimise risk and ensure profitability. EC’s short history is littered with stories of great ideas that have failed due to the absence of the necessary business acumen. Strategic planning, alliances and networks are integral to success when competing on the edge in the world of e-business.

A Graduate Diploma in Entrepreneurship and Innovation is available. The requirements are prescribed in the Waikato Management School Student Handbook.

**Note on Assessment:** To be eligible to pass these papers, students should normally achieve a minimum of D in the internal assessment and the final examination, and an overall grade of C.

Environmental Planning

Environmental Planning is a well-established Waikato niche distinguishable from planning programmes available at other New Zealand universities by the requirement for students to gain a significant level of knowledge (to 300 level) in the biophysical environment and associated analytical techniques. Students focus on the core elements of Environmental Planning by taking the planning-specific Geography papers, which form the spine of the major. These papers are complemented by ecology-specific papers in Biology, and papers from the Earth Sciences that enable students to develop specialised knowledge in coastal, water, land or major resource use planning while continuing to develop the good analytical and observational skills needed.

Environmental Planning is available as a major for the BSc, BSc(Tech) and BScSc. Environmental Planning may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Environmental Planning, students must gain at least 120 points above 100 level in Environmental Planning, including BIOL212, GEOG206, 20 points at 200 level from the Earth Sciences papers listed below, GEOG306, and 20 points each from the 300 level Biological Sciences and Earth Sciences papers listed below. It is recommended that students intending to major in Environmental Planning take BIOL102, ERTH102 and GEOG103 in the first year of their programme of study in order to meet prerequisites for study at 200 level. Students seeking to follow a planning career should take the appropriate specialisation attached to the Environmental Planning major. Environmental Planning specialisations are available in Economics, Public Policy, and Resources and Environmental Planning. Details of the specialisation requirements can be obtained from the Faculty of Arts and Social Sciences.

Alternatively, an Environmental Planning major may be combined with another major of the student’s choice, particularly if seeking a career in the environmental policy field.

Prescriptions for the MEP

The Master of Environmental Planning (MEP) is recognised by the New Zealand Planning Institute as meeting the academic requirements for admission to the Institute as a professional planner. To complete an MEP, students must normally complete ENVP501, ENVP502, and ENVP593. ENVP591 may be replaced with an approved elective. ENVP593 may be replaced with ENVP593. Papers approved for the elective may include any 500 level paper that, at the discretion of the Chairperson of Department or Convenor of the programme, can be demonstrated to be relevant to planning. Students should note the prerequisite papers ENVP503, ENVS521 and GEOG505.

Prescriptions for the BSocSc(Hons)

Resources and Environmental Planning is available for the BSocSc(Hons). Completion of the BSocSc(Hons) in Resources and Environmental Planning provides entry to the Masters in Environmental Planning (MEP). To be eligible to be considered for admission to Resources and Environmental Planning papers, students should normally have at least a B average in their 300 level papers or all their undergraduate Environmental Planning papers. Students are required to take the two core papers listed below plus two 500 level papers from Biological Sciences, Earth Sciences, Economics, Geography, Political Science or Public Policy. Students considering progressing to the MEP
should check the prerequisites for entry. Note: Students who have partially completed the specified programme in Resources and Environmental Planning for the BSocSc should contact the Department of Geography, Tourism and Environmental Planning for information on the requirements for completion of this programme.

Environmental Sciences

Environmental Sciences is an interdisciplinary subject and therefore requires study across Biological Sciences, Chemistry, and Earth Sciences, with a focus on ecology, soil and water environments and geochemistry. Environmental Sciences is available as a major for the BSc and BSc(Tech). Environmental Sciences may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Environmental Sciences, students must gain 120 points in Environmental Sciences, including BIOL212, 40 further points at 200 level, at least 20 points at 300 level in each of Biological Sciences and Earth Sciences, and a further 20 points at 300 level, all from the papers listed below. It is recommended that students intending to major in Environmental Sciences include BIOL102 and at least two of ENVS101, ERTH103, ERTH104 or GEOG103 in the first year of their programme of study, as these are prerequisites for papers at 200 level or above. Within the BSc and BSc(Tech) Environmental Sciences majors, specialisations in Environmental Microbiology, Environmental Modelling, Land and Freshwater Environments, and Marine Sciences are available. Details of the specialisation requirements can be obtained from the School of Science and Engineering.

Note on Assessment: Māori language tutorials can be arranged on request, subject to the availability of tutors. However, because of the technical nature of the terminology and accepted international practice, this subject requires that assessment for all papers be presented in English.

Ethics

The study of Ethics provides an excellent grounding in evaluative theory and reasoning for a professional future in the public service, the health sector, social work, with environmental agencies, and in business. Students gain the tools and capabilities they need to become inspirational leaders in their communities and in their working lives, enabling them to feel confident in their capability to reflect on doing “the right thing” and following through on that reflection.

Ethics is available as a major for the BA and BSoSc. Ethics may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Ethics, students must gain 120 points above 100 level in Ethics, including PHIL215, PHIL309, at least 20 points from PHIL217, PHIL218, PHIL219, or MNGT221, and at least 40 further points above 200 level. It is recommended that students intending to major in Ethics include two of PHIL103, PHIL106 and PHIL150 in the first year of their programme of study.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Ethics papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Ethics papers above 200 level.

Finance

Finance is concerned with investment, decision-making where time and risk are key parameters, and financial markets. Papers begin at 200 level, with streams in corporate finance, financial markets and investments. The value of skills in financial analysis is recognised in a number of special purpose interdisciplinary specialisations.

Finance is available as a major for the BBA(Fin) and BMS. Finance may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled. The requirements for the BBA(Fin) and BMS majors are prescribed in the Waikato Management School Student Handbook.

To complete a second major in Finance for degrees other than the BBA(Fin) and BMS, students must gain 120 points above 100 level in Finance, including FINA201, FINA311, FINA312, and at least 20 further points above 200 level.

No more than 40 points in ECON coded papers may be included in a Finance major.

Finance can also be taken as a specialisation to a major in Mathematics in the BCMS and BSc.

Note on Assessment: To be eligible to pass these papers students should normally achieve a minimum grade of D in the internal assessment and the final examination, and an overall grade of C.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Finance papers at 200 level, and at least 180 points, including 60 points at 200 level, in any subject(s) before enrolling in Finance papers at 300 level.

French

The French programme offers papers in language, literature, linguistics, civilisation and translation. Students majoring in French will acquire a good grounding in the core areas of the subject that will prepare them for graduate studies in French. The University has exchange agreements with several French universities, and students are encouraged to undertake a semester of study in France. French may be usefully combined with subjects outside the BA, including Law, Management, Music and Science. Students intending to pursue a career in secondary language teaching should enrol in another language as well. French is available as a major for the BA. French may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in French, students must gain 120 points above 100 level in French, including at least 60 points above 200 level. It is recommended that students intending to major in French include HUMA101 in the first year of their programme of study. Within the BBA(Fin), BCS, BECom, BMS and BTour a French Language specialisation is available, within the BSc and BSc(Tech) a specialisation in Science International in French is available, and within the BMS International Management major a specialisation in French is also available. Details of the specialisation requirements can be obtained from the Faculty of Arts and Social Sciences, School of Science and Engineering or the Waikato Management School.

The point of entry into the French programme depends on previous experience. Those with no previous experience of French take FREN131 and FREN132. Students normally take both papers in a single year and take FREN231 and FREN232 in the following year. Students with some experience of French (Year 11 or equivalent) will begin with FREN132. Students with 14 credits at Level 3 in NCEA French, or equivalent, will gain direct entry into FREN231. Students with excellent results at Level 2 in NCEA French, or equivalent, may, at the discretion of the Convenor of French, begin with FREN231.

Note: Normally, candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in French papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in French papers above 200 level.

Geography

Geography matters because it is about basic human relationships: between people and the environment, between people and other people. A clearer grasp of Geography can provide insight into environmental problems and help us manage our resources more effectively.

Geography is available as major for the BA and BSocSc. Geography may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Geography, students must gain 120 points above 100 level in Geography, including at least 60 points above 200 level. It is recommended that students intending to major in Geography include GEOG101 and GEOG103 in the first year of their programme of study in order to meet prerequisites for study at 200 level. There are five recommended streams for papers at advanced undergraduate level. These streams are:

- Māori Geographies
- Resources and Environmental Planning (REP) and Environmental Planning (EnvPlan)
- Society, Culture and Place
- Technology in Geography (including Geographic Information Systems (GIS))
- Tourism Studies

The streams are recommended only and a major in Geography may be constructed from any 120 points papers meeting the degree regulations. For details on the Environmental Planning and Tourism Studies programmes, refer to the subject entries in this Calendar. Further details on programmes and streams are available from the Department of Geography, Tourism and Environmental Planning.

Most Geography papers include practical work in the laboratory and/or fieldwork. Fieldwork is carried out in weekends or in teaching recess.

**Note:** Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Geography papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Geography papers above 200 level.

German

German is the most widely spoken language in the European union. The German programme offers papers in German language (conversation, composition, grammar), German literature, and culture. The University has exchange agreements with several German universities. German is available as a major for the BA. German may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in German, students must gain 120 points above 100 level in German, including GERM231, GERM233, GERM301, GERM302, and at least 20 further points above 200 level. It is recommended that students intending to major in German include GERM102 and HUMA101 in the first year of their programme of study. Within the BBA(Fin), BCS, BECom, BMS and BTour a German Language specialisation is available, within the BSc and BSc(Tech) a specialisation in Science International in German is available, and within the BMS International Management major a specialisation in German is also available. Details of the specialisation requirements can be obtained from the Faculty of Arts and Social Sciences, School of Science and Engineering or the Waikato Management School.

The point of entry into the German programme depends on previous experience. Those with no previous experience of German take GERM131 and GERM132, followed by GERM231 and GERM233 in the second year, and GERM301 and GERM302 in the third year. Students with some experience of German (Year 11 or equivalent) will begin with GERM132. Students with 14 credits at Level 3 in NCEA German, or equivalent, will gain direct entry into GERM231. Students with excellent results at Level 2 in NCEA German, or equivalent, may, at the discretion of the Convenor of German, begin with GERM231.

Note: Normally, candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in German papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in German papers above 200 level.

Human Resource Management

Human Resource Management (HRM) is concerned with activities and decisions that form the employment relationship. Consideration is given to the impact HRM practices have upon the services of an organisation through the recruitment, selection and training of employees who will be successful in performing their job.

Human Resource Management is available as a major for the BMS. Human Resource Management may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled. The requirements for the BMS major are prescribed in the Waikato Management School Student Handbook.

To complete a second major in Human Resource Management, students must gain 120 points above 100 level in Human Resource Management, including HRMG241, HRMG342, and at least 40 further points above 200 level.

No more than 40 points in STMG coded papers may be included in a Human Resource Management major.

Note on Assessment: To be eligible to pass these papers students should normally achieve a minimum grade of D in the internal assessment and the final examination, and an overall grade of C.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Human Resource Management papers at 200 level, and at least 180 points, including 60 points at 200 level, in any subject(s) before enrolling in Human Resource Management papers at 300 level.

Industrial Relations and Human Resource Management

Industrial Relations and Human Resource Management (IR&HRM) is an interdisciplinary subject designed to prepare students for careers in the broad, ever-changing field of employment relations, human resource management, workplace change, and education and training. The subject also prepares students well for graduate studies. This is achieved by bringing together relevant papers from Education Studies, Human Resource Management, Labour Studies, and Psychology. Industrial Relations and Human Resource Management (IR&HRM) is available as major for the BSoSc. IR&HRM may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in IR&HRM, students must gain 120 points above 100 level in IR&HRM, comprising HRMG241, LBST201, PCSS231, HRMG342, LBST331, and one of HRMG343, PCSS330 or PSYC317. It is recommended that students intending to major in IR&HRM include LBST101, SOCY101 and STMG191 in the first year of their programme of study in order to meet prerequisites for study at 200 and 300 levels. It is also recommended that students complete a supporting subject in Education Studies, Labour Studies or Psychology, or a second major in another social science subject.

To complete a supporting subject in IR&HRM, students must include LBST201 and HRMG342.

Enquiries about undergraduate, diploma and graduate studies in IR&HRM should be directed to the subject Convenor, Michael Law, in the Department of Societies and Cultures.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Industrial Relations and Human Resource Management papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Industrial Relations and Human Resource Management papers above 200 level.

Graduate Study

Students who major in IR&HRM and who have adequate grades may undertake interdisciplinary graduate programmes in the broad area of IR&HRM by enrolling for a BSocSc(Hons) or MSoSc in Labour Studies. Those who double major in IR&HRM and another subject and who meet that subject’s requirements for graduate study will normally be able to enrol in a graduate degree in that subject.

Prescriptions for the GradCert(IR&HRM) and GradDip(IR&HRM)

A Graduate Certificate and Graduate Diploma are available to graduates who have not included Industrial Relations and Human Resource Management at an advanced level in their first degree. Each programme of study for the Graduate Certificate must include LBST201 and HRMG342. Each programme of study for the Graduate Diploma must include LBST201, PCSS231, HRMG342 and LBST331. For further details, contact the Faculty of Arts and Social Sciences Office.
International Management

International Management is the field of management that deals with business activities that cross national boundaries. This encompasses the movement of goods, services, capital, technology and personnel.

International Management is available as a major for the BMS. International Management may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled. Within the BMS International Management major, specialisations in Chinese, French, German, Japanese, Spanish, and Te Reo Māori are available. The requirements for the BMS major and specialisations are prescribed in the Waikato Management School Student Handbook.

To complete a second major in International Management for degrees other than the BMS, students must gain 120 points above 100 level in International Management, comprising MKTG209, STMG311, and a further 80 points, including at least 40 points above 200 level, from ECON200, ECON236, ECON319, ECON336, ECON419, FINA201, MCOM231, MCOM476, MKTG251, MKTG351, MKTG353, STMG315, STMG347, STMG388, STMG412 or STMG416.

Note on Assessment: To be eligible to pass these papers students should normally achieve a minimum grade of D in the internal assessment and the final examination, and an overall grade of C.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in International Management papers at 200 level, and at least 180 points, including 60 points at 200 level, in any subject(s) before enrolling in International Management papers at 300 level.

International Relations and Security Studies

New Zealand depends for its security and well-being on an ordered world. Relations between states and the other major actors in the international arena impact significantly on New Zealand society and politics. International Relations and Security Studies offers students the opportunity of advanced study in security and strategic matters, or in issues of trade and globalisation. There is also the possibility of focusing particularly on the legal, economic or defence implications of contemporary developments in the international arena.

Note: Within the BA and BSoSc Political Science majors, a specialisation in International Relations and Security Studies is available. Details of the specialisation requirements can be obtained from the Faculty of Arts and Social Sciences.

Prescriptions for the PGCert(IRSSSt), PGDip(IRSSSt) and MA

To complete a Postgraduate Diploma, students must complete at least 120 points from the following papers, including at least two of HIST530, LAWS576, POLS502, POLS506, POLS514 or POLS527.

Entry to the MA in International Relations and Security Studies is open to suitably qualified candidates who have completed either a Postgraduate Diploma in International Relations and Security Studies or a bachelor’s degree with honours (first or upper second class). To complete an MA in International Relations and Security Studies, students must complete at least 120 points from the following papers. All candidates must take at least two of HIST530, LAWS576, POLS502, POLS506, POLS514 or POLS527 (unless these have already been taken as part of an earlier qualification) and complete either a dissertation or a thesis.

Japanese

Japanese is taught in the Department of Humanities and consists of language acquisition papers in Japanese and papers on Japanese history, culture and society. The language acquisition papers are designed for learners of Japanese as a foreign or second language. The papers on Japanese history, culture and society are taught in English and are also available to non-language students. Japanese is available as a major for the BA. Japanese may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Japanese, students must gain 120 points above 100 level in Japanese, including at least 60 points above 200 level, and including one of JAPA205 (before 2008), JAPA208, JAPA209, or JAPA307. It is recommended that students intending to major in Japanese include HUMA101 in the first year of their programme of study. Within the BBA(Fin), BCS, BECom, BMS and BTour a Japanese Language specialisation is available, within the BSc and BSc(Tech) a specialisation in Science International in Japanese is available, and within the BMS International Management major a specialisation in Japanese is also available. Details of the specialisation requirements can be obtained from the Faculty of Arts and Social Sciences, School of Science and Engineering or the Waikato Management School.

The point of entry into the Japanese programme depends on previous experience. The language acquisition stream for beginners is normally a four-year programme based on the core papers JAPA131 (this may be waived for students with some knowledge of Japanese) and JAPA132; JAPA231 and JAPA232; JAPA201 and JAPA202; and JAPA301 and JAPA302. The language acquisition stream for students with at least 14 credits at Level 3 in NCEA Japanese, or equivalent, is a three-year programme, based on the core papers JAPA101 and JAPA102; JAPA201 and JAPA202; and JAPA301 and JAPA302. Students with good results at Level 2 in NCEA Japanese, or equivalent, may, at the discretion of the Convenor of Japanese, be admitted to this stream.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Japanese papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Japanese papers above 200 level.

Labour Studies

Labour Studies is an interdisciplinary subject concerned with the world of work and employment, and the social and economic context in which they take place. The subject draws on a number of disciplines in order to provide students with an understanding of contemporary issues. Papers cover a wide range of relevant topics such as the nature of work, industrial relations, labour market issues, workers’ education and training, and international comparisons. Labour Studies is a contributing subject to the major in Industrial Relations and Human Resource Management (IR&HRM).

Labour Studies is available as a major for the BSoSc. Labour Studies may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Labour Studies, students must gain 120 points above 100 level in Labour Studies, including LBST201, LBST202, LBST301, and at least 40 further points above 200 level. It is recommended that students intending to major in Labour Studies include LBST101 and SOCY101 in the first year of their programme of study in order to meet prerequisites at 200 and 300 levels.

To complete a supporting subject in Labour Studies, students must include LBST201 and two other LBST coded papers. Students may include SSRP202 as part of a major or supporting subject in Labour Studies.

Enquiries about undergraduate and graduate programmes in Labour Studies should be directed to the Subject Convenor in the Department of Societies and Cultures.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Labour Studies papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Labour Studies papers above 200 level.

Law

The Rule of Law is a cornerstone of a civilised society. It defines rights and obligations and provides structure to institutions of government and commerce. The LLB programme follows a course of study which, in addition to giving students a broad understanding of legal principles, meets the professional requirements to practice as a barrister and solicitor in New Zealand. Law is available as a major for the LLB. Law may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the School of Law Admissions Committee and the Faculty or School of Studies in which the student is enrolled.

To complete a major in Law for the LLB, students must complete the requirements specified in the LLB regulations.

To complete a second major in Law, students must gain 120 points above 100 level in Law, including at least 60 points above 200 level. Students intending to complete a second major in Law must first gain 40 points at 100 level in Law before enrolling in Law papers at 200 level and above.

The Law programme is structured as follows:

Law 1 introduces students to the legal system, the relationship between culture and the law and legal system, legal reasoning, writing and research, and the constitutional framework

Law 2 introduces the theories of law, the relationship between the state, administrative agencies and the individual, the law of contract, and the law of tort

Law 3 covers the principles of private law and dispute resolution

Law 4 focuses on specialist papers in Law.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Law papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Law papers above 200 level. Students who complete a major in Law towards any undergraduate degree other than the LLB will not be eligible to practice Law.

Linguistics

Linguistics is the scientific study of language in all its facets. Language is a fundamentally important aspect of human life, and impinges on virtually everything that we do. Thus, Linguistics is a study which shares interests with a very wide range of other disciplines, and usefully complements a variety of other subject areas, such as the language subjects, Philosophy, Education, Sociology, Social Anthropology, Psychology and Artificial Intelligence.

Linguistics is available as a major for the BA, BCS and BSoSc. Linguistics may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Linguistics for the BA and BSoSc, students must gain 120 points above 100 level in Linguistics, including LING231, LING301, LING302 and LING304.

To complete a major in Linguistics for the BCS, students must gain 120 points above 100 level in Linguistics, including LING231, LING302, LING304, and 20 further points above 200 level.

It is recommended that students intending to major in Linguistics include LING131 and LING132 in the first year of their programme of study in order to meet prerequisites for study at 200 level and above.

To complete a supporting subject in Linguistics, students must include LING131, LING132 and LING231.

It is recommended that students intending to take Linguistics as a major or supporting subject include a language skills paper in a language other than their first language in their programme of study. Such a paper would not count as a Linguistics paper for the purpose of the degree regulations.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Linguistics papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Linguistics papers above 200 level.

Management Systems

Management Systems includes the separate but related subject areas of Electronic Business, Electronic Commerce, Supply Chain Management, and decision-making. Papers in these areas are designed to give students a practical understanding of how to effectively and efficiently manage and make good decisions regarding the resources of an organization. The use of information technology and the internet are also emphasised for managing and coordinating across and between organisational boundaries.

The subject area of Management Systems exists solely at Postgraduate level. The areas of Electronic Business, Electronic Commerce, and Supply Chain Management exist as majors and graduate diplomas.

Note on Assessment: To be eligible to pass these papers students should normally achieve a minimum grade of D in the internal assessment and the final examination, and an overall grade of C.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Management Systems papers at 200 level, and at least 180 points, including 60 points at 200 level, in any subject(s) before enrolling in Management Systems papers at 300 level.

Manufacturing Management

Manufacturers need people that can be employed as, or work towards, mid and upper management positions who are familiar with key manufacturing management concepts including: automation, decentralised manufacturing, management processes in manufacturing, manufacturing design, management techniques to enhance productivity, quality and sustainability. Students taking this interdisciplinary major will be introduced to manufacturing and engineering and will have the opportunity to study the management of modern manufacturing processes.

Manufacturing Management is available as a major for the BMS. Manufacturing Management may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled. The requirements for the BMS major are prescribed in the Waikato Management School Student Handbook.

Note on Assessment: To be eligible to pass these papers, students should normally achieve a minimum grade of D in the internal assessment and the final examination, and an overall grade of C.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Manufacturing Management papers at 200 level, and at least 180 points, including 60 points at 200 level, in any subject(s) before enrolling in Manufacturing Management papers at 300 level. **Māori and Pacific Development**

Māori and Pacific Development provides students with a critical understanding of the field of development and an introduction to some of the skills necessary for development practice. The core papers focus on the experiences of Māori, Pacific Islands and indigenous peoples in development. Māori and Pacific Development is a cooperative undergraduate programme which brings together expertise from a number of subjects. The programme includes a core of papers from Māori and Pacific Development and electives from Anthropology, Economics, Geography, Pacific Studies, Public Policy, Te Reo Māori and Tikanga Māori.

Māori and Pacific Development is available as a major for the BA, BMPD and BSocSc. Māori and Pacific Development may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Māori and Pacific Development, students must gain 120 points above 100 level in Māori and Pacific Development, including MPDV200, MPDV300, and a further 40 points above 200 level.

To complete a supporting subject in Māori and Pacific Development, students must include MPDV200 and MPDV300.

Māori Media and Communication

Māori Media and Communication is about gaining an understanding of the historical, political, cultural and social contexts in which media and communication practices develop and operate. It provides the opportunity for students to gain particular in depth understandings of traditional and contemporary forms of Māori communication through Māori media forms including the study of kapa haka, Māori art, Māori film making, the Treaty of Waitangi and other oral traditions. Māori Media and Communication is available as a major for the BA and BCS. Māori Media and Communication may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Māori Media and Communication, students must gain 120 points above 100 level in Māori Media and Communication, including MMAC221, MMAC321, and 40 further points above 200 level.

Materials and Process Engineering

The Materials and Process Engineering programme covers a wide range of skills and contains two engineering disciplines that overlap in many areas. The materials engineer makes critical decisions in selecting the best materials for a particular function; the process engineer makes critical decisions in the processes and utilities required to manufacture the product. For example, materials engineering involves understanding the properties and uses of wood and steel, designing and constructing new filters for sewage treatment, and providing new materials for the energy industry. Process engineering include converting trees into paper and fibre board, iron sand into steel, effluent into drinkable water, and gas into electricity.

Materials and Process Engineering is available as a specified programme for the BE. To complete the specified programme in Materials and Process Engineering, students must follow the following programme.

Note: A major in Materials and Processing is also available for the BSc or BSc(Tech).

**Materials and Processing**

Materials and Processing is an engineering discipline concerned with understanding the characteristics of materials and the processes used to convert materials into products. It includes biotechnology, environmental technology, materials, process engineering and innovation and technology management. The major in Materials and Processing includes properties and uses of materials, processing of these materials, and designing industrial systems.

Materials and Processing is available as a major for the BSc and BSc(Tech). Materials and Processing may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Materials and Processing, students must gain 120 points above 100 level in Materials and Processing, including at least 60 points above 200 level. It is recommended that students include ENGG180, ENMP102, ENMP211, ENMP221, one other 200 level ENMP paper, ENMP311, ENMP321, and one other 300 level ENMP paper in their programme of study.

**Note on Assessment:** Māori language tutorials can be arranged on request, subject to the availability of tutors. However, because of the technical nature of the terminology and accepted international practice, this Department requires that all material for assessment for all papers be presented in English.

**Note:** The name of this subject has changed from Materials and Process Engineering to approval by the NZVCC’s Committee on University Academic Programmes (CUAP). A specified programme in Materials and Process Engineering is also available for the BE.

### 100 level

**ENGG180-09A (HAM)**
**Foundations of Engineering**
15 Points
For details see Engineering ENGG180.

**ENMP102-09B (HAM)**
**Introduction to Materials Science and Engineering**
15 Points
An introduction to the basic laws and concepts of materials science. Topics include: relation of the structure of solids to the physical and mechanical properties of materials and uses of different types of materials.

**Internal assessment/examination ratio:** 1:1

### 200 level

**ENGG282-09B (HAM)**
**Engineering Design**
10 Points
For details see Engineering ENGG282.

**ENMP211-09A (HAM)**
**Materials 1**
20 Points
An introduction to mechanical and physical properties as well as limitations of materials, and processing of these materials. This paper covers metals, alloys, ceramics, polymers, composites and biomaterials.

**Prerequisite(s):** CHEM101, CHEM102 or ENMP102

**Internal assessment/examination ratio:** 1:1

**ENMP213-09B (HAM)**
**Mechanics of Materials 1**
20 Points
This paper covers the use of materials in mechanical design with emphasis on the behaviour of materials under load. It includes a design project.

**Prerequisite(s):** MATH101 or PHYS103

**Internal assessment/examination ratio:** 1:1

**ENMP214-09B (HAM)**
**Manufacturing Processes**
10 Points
A study of the theoretical aspects of manufacturing processes and the basic principles and relationships underlying major manufacturing processes, including machining, casting, mechanical forming and joining.
Prerequisite(s): ENMP102  
Required book(s): E.P. De Garmo et al. Materials and Processes in Manufacturing (Prentice Hall)  
Internal assessment/examination ratio: 1:1

**ENMP215-09B (HAM)**  
**Manufacturing Practice**  
**10 Points**  
An examination of the practical aspects of manufacturing processes, including machining, casting, mechanical forming, welding, and printed board manufacturing.  
Prerequisite(s): ENMP102  
Internal assessment/examination ratio: 1:1

**ENMP221-09A (HAM)**  
**Process Engineering and Design 1**  
**20 Points**  
This paper advances the engineering concepts introduced in the 100-level papers, especially those involving chemical, mechanical or biochemical processes. It includes process design, advanced problem-solving techniques, and material and energy balances. Includes laboratories.  
Prerequisite(s): ENGG180 or ENMP102  
Internal assessment/examination ratio: 1:1

**ENMP222-09B (HAM)**  
**Biotechnology: Food and Bioresources**  
**20 Points**  
An introduction to the physical characteristics and processing of foods and biological materials, biotechnology and bioproducts. This paper has a compulsory laboratory component.  
Prerequisite(s): BIOL101 and a further 15 points at 100 level from Biological Sciences, Chemistry, Engineering, or Materials and Processing  
Internal assessment/examination ratio: 1:1

**ENMP223-09B (HAM)**  
**Thermofluids**  
**20 Points**  
This paper covers transport properties of fluids, including fluid statics and dynamics, and measurement and flow. Thermodynamics, including laws and cycles, and conductive, radiation and convective heat transfer, heat exchangers. Includes laboratories.  
Prerequisite(s): MATH101, PHYS103 or ENMP221  
Internal assessment/examination ratio: 1:1

**ENMP241-09B (HAM)**  
**Environmental Technology 1**  
**20 Points**  
Concepts, theories, methodology, engineering principles involved in using environmental materials, the impact of their use, waste treatment and recycling. Includes case studies and laboratory work.  
Prerequisite(s): 30 points at 100 level in Science and Engineering papers and 15 points at 100 level in either Mathematics or Statistics  
Internal assessment/examination ratio: 1:1

**ENMP271-09C (HAM)**  
**Technology Placement 1**  
**20 Points**  
This paper requires a period of work experience in an appropriate and approved industry or applied field. Assessment is by written reports and employer feedback. This paper may be counted only towards the BSc(Tech) degree.  
Internal assessment/examination ratio: 1:0

**ENMP282-09A (HAM)**  
**Science and Engineering Management A**  
**10 Points**  
A study of management functions and activities, particularly as they relate to the needs of scientists and technologists. Topics include organisational dynamics, innovation, effective written and oral communication and financial management.  
Restriction(s): ENGG280 and ENMP281  
Internal assessment/examination ratio: 1:1

**ENMP283-09B (HAM)**  
**Science and Engineering Management B**  
**10 Points**  
A study of management functions and activities, particularly as they relate to the needs of scientists and technologists. Topics include marketing and total quality management.  
Internal assessment/examination ratio: 1:1

**300 level**

**ENGG340-09A (HAM)**  
**Computer Aided Engineering**  
**20 Points**  
For details see Engineering ENGG340.
ENME351-09A (HAM)
Dynamics and Mechanisms
20 Points
For details see Mechanical Engineering ENME352.

ENME352-09B (HAM)
Machine Dynamics and Control
20 Points
For details see Mechanical Engineering ENME352.

ENME380-09B (HAM)
Mechanical Engineering Design
20 Points
For details see Mechanical Engineering ENME380.

ENMP301-09A (HAM), 09B (HAM),
09S (HAM) & 09Y (HAM)
Special Topics in Technology
20 Points
An independent theoretical, literature or experimental investigation of a technological topic, supervised by a member of staff. Progress is discussed in group seminars and assessment is based on seminar and poster presentations and a full written report.
Internal assessment/examination ratio: 1:0
Note: Admission is at the discretion of the Chairperson of Department

ENMP311-09B (HAM)
Materials 2
20 Points
This paper advances knowledge presented in ENMP211 on structure, property, processing relationships fundamental to materials science and engineering. This paper includes microstructure modification, new materials and applications.
Prerequisite(s): ENMP211
Internal assessment/examination ratio: 1:1

ENMP313-09A (HAM)
Mechanics of Materials 2
20 Points
An examination of the scientific principles and relationships underlying mechanics and performance of materials. This paper covers stress and strain transformations, failure criteria, deflections and angle of twist, stress in bending fatigue and materials testing.
Prerequisite(s): ENMP213
Internal assessment/examination ratio: 1:1

ENMP321-09B (HAM)
Process Engineering and Design 2
20 Points
Advanced design and process technology for chemical, mineral, biological products and food processing. The principles of chemical and biochemical engineering, including designing production systems, process simulation; equipment design and separation technology.
Prerequisite(s): ENMP221
Internal assessment/examination ratio: 1:1

ENMP322-09B (HAM)
Biotechnology
20 Points
An examination of such topics as industrial biotechnology, applications of enzymes and micro-organisms, principles of bioreactor and fermenter design and operation, industrial separations, and purification of biological material.
Prerequisite(s): BIOL251
Internal assessment/examination ratio: 1:1

ENMP323-09A (HAM)
Transport Processes and Unit Operations
20 Points
An examination of the application of heat and mass transport processes to common industrial equipment analysis, design and operation.
Prerequisite(s): ENMP223
Internal assessment/examination ratio: 1:1

ENMP325-09A (HAM)
Engineering Microbiology
20 Points
An introduction to the structure, physiology, ecology and taxonomy of bacteria, with reference to biochemical engineering.
Restriction(s): BIOL241
Prerequisite(s): ENMP221 and either BIOL101 or BIOL102
Internal assessment/examination ratio: 1:2

ENMP341-09A (HAM)
Environmental Technology 2
20 Points
Engineering systems available for environmental issues, including processing, using and protecting water resources, wastewater treatment and disposal, air and atmosphere science and technology, emissions control, energy technology and fuel science.
Prerequisite(s): 30 points at 100 level in Science and Engineering papers

Internal assessment/examination ratio: 1:1

ENMP370-09C (HAM)
Technology Placement 2
20 Points
This paper requires a period of work experience in an appropriate and approved industry or applied field. Assessment is by written reports and employer feedback. This paper may be counted only towards the BSc(Tech) degree.

Internal assessment/examination ratio: 1:0

ENMP371-09C (HAM)
Technology Placement 2
20 Points
For details see Materials and Processing ENMP370.

Internal assessment/examination ratio: 1:0

ENMP372-09C (HAM)
Technology Placement 3
20 Points
For details see Materials and Processing ENMP370.

Internal assessment/examination ratio: 1:0

ENMP381-09B (HAM)
Technological Innovation and its Management
20 Points
This paper consists of lectures, seminars, case studies and assignments covering a variety of topics dealing with industrial technology innovation.

Prerequisite(s): ENMP282 or 20 points at 200 level in a Management subject

Internal assessment/examination ratio: 1:0

400 level

ENGG440-09A (HAM)
Computer Aided Engineering
20 Points
For details see Engineering ENGG440.

ENGG482-09A (HAM), 09B (HAM), 09C (HAM) & 09Y (HAM)
Engineering Design and Management Project
60 Points
For details see Engineering ENGG482.

ENNG492-09A (HAM), 09B (HAM), 09C (HAM) & 09Y (HAM)
Honours Research and Management Project
60 Points
For details see Engineering ENGG492.

ENME480-09A (HAM)
Advanced Product Development
10 Points
For details see Mechanical Engineering ENME480.

ENMP407-09A (HAM) & 09B (HAM)
Materials and Process Engineering Elective
10 Points
An advanced study in materials and processing. Possible options include: advanced composites; metals; bioseparations processing. Sub-topics include: available processing options; effect of material characteristics on processing parameters.

Internal assessment/examination ratio: 1:0

ENMP411-09A (HAM)
Advanced Materials Engineering
10 Points
An advanced study of the relationships between processing and microstructure of engineering materials. Sub-topics include solidification, ceramic processing, joining and repairs of composite materials and powder metallurgy.

Prerequisite(s): ENMP311

Internal assessment/examination ratio: 1:4

ENMP413-09B (HAM)
Materials Performance in Service
10 Points
Students will learn the importance of design to avoid fracture using fracture mechanics, advanced stress analysis, including plasticity and advanced fatigue, and creep behaviour at elevated temperature.

Prerequisite(s): ENMP313

Internal assessment/examination ratio: 1:1
ENMP421-09A (HAM)
Advanced Process Engineering and Control
10 Points
An introduction to applied process control and automation, control hardware dynamics, digital controllers, PLCs, open and closed loop properties of real systems, control loop stability and tuning.
Prerequisite(s): ENME352 or ENMP321
Required book(s): D.E. Seborg, T.F. Edgar and D.A. Mellichamp Process Dynamics and Control (Wiley)
Internal assessment/examination ratio: 2:3

ENMP425-09A (HAM)
Engineering Biochemistry
20 Points
Aspects of biochemistry are covered in depth. Topics include proteins, enzymes, regulation of metabolism, hormonal control, membrane transport, toxicology, vision and muscle.
Restriction(s): BIOL351
Prerequisite(s): BIOL251 and ENMP321
Internal assessment/examination ratio: 1:1

ENMP426-09A (HAM)
Biochemical Engineering
10 Points
This paper covers bioreaction engineering, bioreactor design and analysis, bioprocess modelling, optimisation and costing, applications of mixed cultures, animal, plant, and engineered cells, sterilisation techniques, downstream process design and analysis.
Prerequisite(s): ENMP321 and ENMP322
Corequisite(s): ENMP425
Internal assessment/examination ratio: 1:1

Prescriptions for the GradCert(Mat&Proc) and GradDip(Mat&Proc)
A Graduate Certificate and Graduate Diploma are available to graduates who have not included Materials and Processing at an advanced level in their first degree. Within the GradDip(Mat&Proc), a specialisation in Agricultural and Biosystems is available.
For further details, contact the School of Science and Engineering.

Prescriptions for the PGCert(Mat&Proc), PGDip(Mat&Proc), BSc(Hons), MSc and MSc(Tech)
Students in masters degrees are normally required to take a thesis and a selection of papers. ENMP581 is compulsory for the MSc(Tech). Enrolment in papers towards the BSc(Hons) is only by invitation of the Chairperson. Candidates for these graduate qualifications should select their papers in consultation with the Chairperson of Department.

Mathematics

Mathematics is a language of fundamental importance which underpins many activities of society. It plays a crucial role, both theoretically and practically, in many areas such as science, computing, economics and finance.

Mathematics is available as a major for the BA, BCMS and BSc. Mathematics may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Mathematics for the BA, students must gain 120 points above 100 level in Mathematics, including MATH251, MATH253, MATH311, and at least 40 further points above 200 level. MATH252 is also recommended.

To complete a major in Mathematics for the BCMS, students must gain 180 points above 100 level in Mathematics, including MATH251, MATH252, MATH253, MATH255, MATH311, and at least 100 further points above 200 level, including 60 points above 300 level.

To complete a major in Mathematics for the BSc, students must gain 120 points above 100 level in Mathematics, including MATH251, MATH252, MATH253, MATH255, MATH311, and at least 40 further points above 200 level.

As well as the 100 level prerequisites specified for papers at 200 level and above, it is recommended that students intending to major in Mathematics for the BCMS or BSc include COMP103, COMP104 and STAT121 in the first year of their programme of study. Within the BCMS and BSc Mathematics majors, specialisations in Economics and Finance are available. Details of the specialisation requirements can be obtained from the School of Computing and Mathematical Sciences.

Note on Assessment: To be eligible to pass these papers students should normally achieve a minimum grade of D in the internal assessment and the final examination, and an overall grade of C. Because of the technical nature of the terminology and accepted international protocol, the Department of Mathematics requires that all assessment for all papers be presented in English. Payment for translation will not be available from the Department.

100 level

MATH101-09A (HAM), 09B (HAM), 09C (HAM) & 09D (HAM)
Introduction to Calculus
15 Points
A study of the fundamental techniques of calculus, including differentiation and integration for functions of one real variable, with applications to rate problems, graph sketching, areas and volumes. Applications will be developed for the physical, engineering, biological and management sciences.
Prerequisite(s): MATH165, MATH166, 18 credits at Level 3 in NCEA Mathematics with Calculus or Statistics and Modelling with some Calculus background, or equivalent
Internal assessment/examination ratio: 1:1 or 0:1, whichever is more favourable for the student
Note: MATH101-09C (HAM) and 09D (HAM) are available to STAR students only.

MATH102-09A (HAM), 09B (HAM), 09C (HAM) & 09D (HAM)
Introduction to Algebra
15 Points
A study of the fundamental techniques and applications of algebra including Gaussian elimination, vector and matrix algebra, complex numbers, induction and recursion.
Prerequisite(s): MATH165, MATH166, 18 credits at Level 3 in NCEA Statistics and Modelling or Mathematics with Calculus, or equivalent
Internal assessment/examination ratio: 1:1 or 0:1, whichever is more favourable for the student
Note: MATH102-09C (HAM) and 09D (HAM) are available to STAR students only.
MATH165-09A (HAM) & 09B (HAM) General Mathematics
15 Points
This paper is an introduction to algebra, calculus and applications for students without NCEA Level 3 Mathematics who need a basic knowledge of algebra and calculus. Students who meet the prerequisites of MATH101 and/or or MATH102 should take these papers instead.
Equivalent(s): MATH166
Prerequisite(s): 18 credits at Level 2 in NCEA Mathematics, MATH168, or equivalent
Internal assessment/examination ratio: 1:1 or 0:1, whichever is more favourable for the student
Note: This paper may not be taken concurrently with, or subsequent to obtaining a pass in MATH101 or MATH102.

MATH166-09A (HAM), 09A (TGA) & 09B (HAM) Management Mathematics
15 Points
This paper is an introduction to algebra and calculus for students in Management or Social Sciences without NCEA Level 3 Mathematics. Students who meet the prerequisites of MATH101 and/or MATH102 should take these papers instead.
Equivalent(s): MATH165
Prerequisite(s): 18 credits at Level 2 in NCEA Mathematics, or equivalent, or MATH168
Internal assessment/examination ratio: 1:1 or 0:1, whichever is more favourable for the student
Note: This paper may not be taken concurrently with, or subsequent to obtaining a pass in MATH101 or MATH102.

MATH168-09A (HAM) & 09B (HAM) Preparatory Mathematics
15 Points
Basic algebraic concepts and an introduction to statistics and calculus. Students who meet the prerequisites of MATH165 and/or MATH166 should take these papers instead.
Equivalent(s): MATH165
Prerequisite(s): 18 credits at Level 2 in NCEA Mathematics, or equivalent, or MATH168
Internal assessment/examination ratio: 1:1 or 0:1, whichever is more favourable for the student
Note: This paper may not be taken concurrently with, or subsequent to obtaining a pass in any other 100 level Mathematics or Statistics paper.

200 level

COMP235-09A (HAM) Logic and Computation
20 Points
For details see Computer Science COMP235.

MATH251-09A (HAM) Multivariable Calculus
10 Points
A study of the essential calculus of functions of more than one variable with applications including parametric curves, optimisation, vector partial differential operators, integral theorems and coordinate transformations.
Restriction(s): ENGG285
Prerequisite(s): ECON204, or both MATH101 and MATH102
Internal assessment/examination ratio: 1:1 or 0:1, whichever is more favourable for the student

MATH252-09B (HAM) Elements of Analysis
10 Points
An introduction to the topology of the real line, including convergence of sequences and limits of functions, Rolle’s and Taylor’s theorems, and applications.
Prerequisite(s): MATH101 and MATH102
Internal assessment/examination ratio: 1:1 or 0:1, whichever is more favourable for the student

MATH253-09B (HAM) Linear Algebra
10 Points
A study of the main ideas and techniques of linear algebra with an emphasis on applications of the subject. Matrix transformations in real Euclidean spaces are included in this paper.
Restriction(s): ENGG283
Prerequisite(s): MATH102 or ECON204
Internal assessment/examination ratio: 1:1 or 0:1, whichever is more favourable for the student

MATH255-09A (HAM) Differential Equations
10 Points
An introduction to the theory, techniques and applications of ordinary and partial differential equations. Techniques covered include linear equations, variation of parameters, separation of variables and Fourier series expansions. The important wave, heat diffusion and Laplace equations are considered.
Restriction(s): ENGG284
Prerequisite(s): MATH101 and MATH102
Internal assessment/examination ratio: 1:1 or 0:1, whichever is more favourable for the student

MATH256-09B (HAM)
Classical Mechanics
10 Points
A study of the dynamics of a particle, orbits, systems of particles, potential theory and statistics.
Restriction(s): ENGG286
Prerequisite(s): MATH101 and MATH102
Internal assessment/examination ratio: 1:1 or 0:1, whichever is more favourable for the student

MATH257-09A (HAM)
Computational Mathematics
10 Points
An introduction to computational mathematics including numerical methods for finding zeros of functions, numerical inversion of matrices, solutions to differential equations and numerical integration.
Restriction(s): ENGG181
Prerequisite(s): MATH101 and MATH102
Internal assessment/examination ratio: 1:1 or 0:1, whichever is more favourable for the student

MATH258-09A (HAM)
Introduction to Discrete Mathematics
10 Points
Introductory topics in discrete mathematics including functions, sets, relations, graphs and trees, propositional and predicate logic.
Restriction(s): COMP235 and COMP240
Prerequisite(s): MATH102
Internal assessment/examination ratio: 1:1 or 0:1, whichever is more favourable for the student

MATH259-09B (HAM)
Mathematical Modelling
10 Points
This paper involves the study of basic topics in applied mathematics and mathematical modelling. These topics will be of interest to students studying any form of quantitative science or financial modelling.
Restriction(s): MATH131
Prerequisite(s): MATH101. MATH102 is recommended
Internal assessment/examination ratio: 1:1 or 0:1, whichever is more favourable for the student

300 level

COMP340-09B (HAM)
Reasoning about Programs
20 Points
For details see Computer Science COMP340.

MATH310-09A (HAM)
Algebra and Number Theory
20 Points
An introduction to groups, which have important applications to symmetry, physics and coding theory, as well as many other areas of mathematics. An introduction to number theory for mathematicians, computer scientists, teachers and theoretical physicists.
Restriction(s): MATH312
Prerequisite(s): MATH253
Internal assessment/examination ratio: 1:1 or 0:1, whichever is more favourable for the student

MATH311-09A (HAM)
Advanced Calculus
20 Points
A study of advanced real calculus of one and many variables, real and complex analysis, complex calculus and its applications.
Prerequisite(s): ENGG285 or MATH251, and ENGG283 or MATH253
Internal assessment/examination ratio: 1:1 or 0:1, whichever is more favourable for the student

MATH331-09B (HAM)
Classical Field Theory
20 Points
An introduction to both special and general relativity and to cosmology.
Restriction(s): MATH433, MATH464, MATH465, MATH533, MATH564 and MATH565
Prerequisite(s): a minimum B grade in MATH251, MATH253 and MATH255
Internal assessment/examination ratio: 1:1
MATH334
Classical and Quantum Mechanics
20 Points
This paper will not be taught in 2009.

MATH342-09B (HAM)
Numerical Mathematics
20 Points
This paper covers algorithms for approximation, integration, systems of algebraic equations, ordinary differential equations, partial differential equations, and scientific computation.
Equivalent(s): COMP342
Prerequisite(s): MATH251, MATH252 and MATH253
Internal assessment/examination ratio: 1:1 or 0:1, whichever is more favourable for the student

400 level

MATH401-09B (HAM)
Metric Spaces
15 Points
A study of axioms of a metric space, open and closed sets, cluster points etc; completeness, continuity, connectedness and compactness in metric spaces; construction of Cantor sets; contraction mapping and Baire Category Theorems and applications.
Restriction(s): MATH431, MATH501 and MATH531
Prerequisite(s): MATH311
Internal assessment/examination ratio: 1:0

MATH409
Topics in Number Theory
15 Points
This paper will not be taught in 2009.

MATH411-09A (HAM)
Advanced Algebra
15 Points
Abstract ring theory leading into general algebra with applications to semigroups.
Restriction(s): MATH440, MATH511 and MATH540
Prerequisite(s): MATH310 or equivalent
Internal assessment/examination ratio: 1:0

MATH413-09A (HAM)
Finite Groups
15 Points
An in-depth study of the theory of finite groups.
Restriction(s): MATH513
Prerequisite(s): MATH310 or equivalent
Internal assessment/examination ratio: 1:0

MATH415-09B (HAM)
Topic in Pure Mathematics
15 Points
This paper will study a particular area of pure mathematics.
Restriction(s): MATH515
Prerequisite(s): admission is at the discretion of the Chairperson of Department
Internal assessment/examination ratio: 1:0

MATH434
Classical and Quantum Mechanics
20 Points
This paper will not be taught in 2009.

MATH441-09A (HAM)
Partial Differential Equations 1
15 Points
A selection from the following topics: hyperbolic, elliptic and parabolic partial differential equations, solitons, integrability conditions and exactly solvable evolution equations.
Restriction(s): MATH437, MATH447, MATH537 and MATH541
Prerequisite(s): MATH311
Internal assessment/examination ratio: 1:0

MATH442-09B (HAM)
Partial Differential Equations 2
15 Points
A selection from the following topics: hyperbolic, elliptic and parabolic partial differential equations, solitons, integrability conditions and exactly solvable evolution equations.
Restriction(s): MATH437, MATH447, MATH537 and MATH542
Prerequisite(s): MATH311
Internal assessment/examination ratio: 1:0
MATH466-09Y (HAM)
Fluid Mechanics
30 Points
A study of exact solutions for Navier-Stokes equations, vorticity and boundary layers.
Restriction(s): MATH332, MATH436, MATH466, MATH467, MATH536, MATH566 and MATH567
Prerequisite(s): MATH331
Internal assessment/examination ratio: 1:0

MATH464-09A (HAM)
Special Relativity
15 Points
An introduction to the methods and theory of special relativity.
Restriction(s): MATH333, MATH433, MATH533 and MATH564
Prerequisite(s): MATH311
Internal assessment/examination ratio: 1:0

MATH465-09B (HAM)
General Relativity
15 Points
The theory of gravitational fields and cosmology using the methods of general relativity.
Restriction(s): MATH333, MATH433, MATH533 and MATH565
Prerequisite(s): MATH311
Corequisite(s): MATH464 or MATH564
Internal assessment/examination ratio: 1:0

MATH477-09A (HAM) & 09B (HAM)
Report of an Investigation
20 Points
A directed investigation and report on an approved project or study topic.
Equivalent(s): MATH421
Restriction(s): COMP420, COMP477 and MATH420
Internal assessment/examination ratio: 1:0
Note: This paper is available only to students undertaking a non-honours programme for the BCMS by permission of the Dean.

MATH481-09A (HAM) & 09B (HAM)
Special Topic in Mathematics 1
10 Points
Directed study of a topic in mathematics.
Internal assessment/examination ratio: 1:0
MATH505  
Topics in Analysis and Topology  
15 Points  
This paper will not be taught in 2009.

MATH509  
Topics in Number Theory  
15 Points  
This paper will not be taught in 2009.

MATH511-09A (HAM)  
Advanced Algebra  
15 Points  
Restriction(s): MATH411, MATH440 and MATH540  
Prerequisite(s): MATH310 or equivalent  
Internal assessment/examination ratio: 1:0

MATH512  
Continuous Groups  
15 Points  
This paper will not be taught in 2009.

MATH513-09A (HAM)  
Finite Groups  
15 Points  
Restriction(s): MATH413  
Prerequisite(s): MATH310 or equivalent  
Internal assessment/examination ratio: 1:0

MATH515-09B (HAM)  
Topic in Pure Mathematics  
15 Points  
Prerequisite(s): admission is at the discretion of the Chairperson of Department  
Internal assessment/examination ratio: 1:0

MATH520-09Y (HAM)  
Report of an Investigation  
45 Points  
Restriction(s): COMP520  
Internal assessment/examination ratio: 1:0

MATH534  
Classical and Quantum Mechanics  
30 Points  
This paper will not be taught in 2009.

MATH536-09Y (HAM)  
Fluid Mechanics  
30 Points  
Restriction(s): MATH332, MATH436, MATH446, MATH466, MATH467, MATH566 and MATH567  
Prerequisite(s): MATH331  
Internal assessment/examination ratio: 1:0

MATH541-09A (HAM)  
Partial Differential Equations 1  
15 Points  
Restriction(s): MATH437, MATH441, MATH447 and MATH537  
Prerequisite(s): MATH311  
Internal assessment/examination ratio: 1:0

MATH542-09B (HAM)  
Partial Differential Equations 2  
15 Points  
Restriction(s): MATH437, MATH442, MATH447 and MATH537  
Prerequisite(s): MATH311  
Internal assessment/examination ratio: 1:0

MATH564-09A (HAM)  
Special Relativity  
15 Points  
Restriction(s): MATH333, MATH433, MATH464 and MATH533  
Prerequisite(s): MATH311  
Internal assessment/examination ratio: 1:0

MATH565-09B (HAM)  
General Relativity  
15 Points  
Restriction(s): MATH333, MATH433, MATH465 and MATH533  
Prerequisite(s): MATH311  
Corequisite(s): MATH464 or MATH564  
Internal assessment/examination ratio: 1:0

MATH581-09A (HAM) & 09B (HAM)  
Special Topic in Mathematics 1  
15 Points  
Internal assessment/examination ratio: 1:0

MATH582-09A (HAM) & 09B (HAM)  
Special Topic in Mathematics 2  
15 Points  
Internal assessment/examination ratio: 1:0

MATH591-09C (HAM)  
Dissertation  
30 Points  
Internal assessment/examination ratio: 1:0

MATH592-09C (HAM)  
Dissertation

Mathematics, Science and Technology Education

Mathematics, Science and Technology Education is concerned with the study of teaching and learning mathematics, science and technology in the primary and secondary education sectors. Subject studies in mathematics and science are also offered to enhance the knowledge base of students in these areas. In addition, the Department offers a postgraduate programme in mathematics education.

Papers with the subject code MSTE are Subject Studies papers and may be taken by any student, with the approval of the appropriate Dean. Papers with the subject code TEMS are Professional Education papers and are only available to students enrolled in a School of Education teacher education programme.

Note: The (NET) offerings may include an on-campus component.

100 level

MSTE112-09A (HAM) Mathematics for Primary Teachers 15 Points
A study of basic mathematical concepts and processes that will provide a suitable background for primary teachers of mathematics.

Internal assessment/examination ratio: 1:0
Note: This paper is for BTchg students only. Admission is at the discretion of the Convenor.

TEMS120-09A (HAM), 09B (TGA) & 09C (NET) Learning and Teaching Mathematics 7.5 Points
An introduction to the learning and teaching of mathematics in the primary school curriculum.

Internal assessment/examination ratio: 1:0
When Taught: 09C (NET) weeks 26-45
Note: TEMS120-09C (NET) includes compulsory block periods on campus in Hamilton. This paper is taught partially online.

TEMS121-09A (HAM), 09A (TGA), 09B (HAM) & 09C (NET) Learning and Teaching Science 7.5 Points
An introduction to the learning and teaching of science in the primary school curriculum.

Internal assessment/examination ratio: 1:0
When Taught: 09C (NET) weeks 9-25
Note: TEMS121-09C (NET) includes compulsory block periods on campus in Hamilton.

TEMS122-09A (HAM), 09B (TGA) & 09C (NET) Learning and Teaching Technology 7.5 Points
An introduction to the learning and teaching of technology in the primary school curriculum.

Internal assessment/examination ratio: 1:0
When Taught: 09C (NET) weeks 26-45
Note: TEMS122-09C (NET) includes compulsory block periods on campus in Hamilton.

TEMS140-09Y (HAM) Mathematics Education Y7-11 15 Points
A study of the role of mathematics education in the secondary school curriculum: strategies and issues in planning, teaching and evaluating mathematics learning in Years 7-11.

Prerequisite(s): 30 points at 100 level in Mathematics

Internal assessment/examination ratio: 1:0

TEMS141-09A (HAM) Science Education A Y7-13 15 Points
This paper is an introduction for teaching and learning science at Years 7-13 (levels 4-8 of the national science curriculum) in New Zealand schools. Detailed content is adjusted to meet students’ particular needs.

Prerequisite(s): 30 points at 100 level in Biological Sciences, Chemistry, Earth Sciences or Physics

Internal assessment/examination ratio: 1:0
TEM5142-09B (HAM)
Science Education B Y7-13
15 Points
This paper is an advanced course for teaching and learning science at Years 7-13 (levels 4-8 of the national science curriculum) in New Zealand schools. It builds on the theoretical and pedagogical base introduced in TEM5141.
Prerequisite(s): 30 points at 100 level in Biological Sciences, Chemistry, Earth Sciences or Physics
Internal assessment/examination ratio: 1:0

TEM5146-09A (BLK)
Technology Education Y7-10
15 Points
A study of the role of technology education in the secondary school curriculum: strategies and issues in planning, teaching, and evaluating technology education in Years 7-10.
Prerequisite(s): 30 points at 100 level in a subject that supports the teaching of technology in a secondary school
Internal assessment/examination ratio: 1:0
Note: This paper is taught partially online.

200 level

TEM5220-09A (HAM), 09A (TGA), 09B (HAM) & 09C (NET)
Mathematics Education
20 Points
Further study of the learning and teaching of mathematics at primary/intermediate school levels.
Prerequisite(s): TEM5120
Internal assessment/examination ratio: 1:0
When Taught: 09C (NET) weeks 9-25
Note: TEM5220-09C (NET) includes compulsory block periods on campus in Hamilton. Admission to TEM5220-09B (HAM) is at the discretion of the Chairperson of Department. This paper is taught partially online.

TEM5221-09A (HAM)
Classroom Perspectives in Science Education
20 Points
An advanced paper in science teaching and learning at primary and intermediate school level. Preparation, both philosophically and in terms of resources, for the delivery of quality science programmes in the first two years of teaching.
Prerequisite(s): TEM5121
Internal assessment/examination ratio: 1:0

TEM5224-09B (NET)
Technology Education 2
20 Points
Further study of technology and technology education, including examination of various factors to do with planning, teaching and evaluating technology in primary and intermediate classrooms.
Prerequisite(s): TEM5122
Internal assessment/examination ratio: 1:0

TEM5240-09Y (HAM)
Mathematics Education Y12-13
20 Points
Further study in the teaching and learning of mathematics for Years 12-13.
Prerequisite(s): TEM5140 and two 200 level papers in Mathematics
Internal assessment/examination ratio: 1:0

TEM5243-09Y (HAM)
Physics Education Y11-13
20 Points
Further study in the teaching and learning of physics for Years 11-13.
Prerequisite(s): TEM5142 and 40 points at 200 level in Physics
Internal assessment/examination ratio: 1:0

TEM5244-09Y (HAM)
Chemistry Education Y11-13
20 Points
Further study in the teaching and learning of chemistry for Years 11-13.
Prerequisite(s): TEM5141 and 40 points at 200 level in Chemistry
Internal assessment/examination ratio: 1:0
Mathematics, Science and Technology Education

TEM5245-09Y (HAM)
Biology Education Y11-13
20 Points
Further study in the teaching and learning of biology for Years 11-13.
Prerequisite(s): TEM5141 and 40 points at 200 level in Biological Sciences
Internal assessment/examination ratio: 1:0

TEM5246-09B (BLK)
Technology Education Y11-13
20 Points
Further study in the teaching and learning of technology for Years 11-13.
Prerequisite(s): TEM5146 and 40 points at 200 level in a subject that supports the teaching of technology in a secondary school
Internal assessment/examination ratio: 1:0
Note: This paper is taught partially online.

TEM5287-09Y (HAM)
Special Topic Y11-13
20 Points
Further study in the teaching and learning of a selected area of the secondary school curriculum for Years 11-13.
Note: Admission is at the discretion of the Programme Coordinator and the Chairperson of Department.

TEM5320-09C (NET)
Curriculum Development in Mathematics, Science and Technology Education
20 Points
A critical study of assumptions, theories, ideologies and practices in mathematics, science and technology education. The paper is designed to enhance the role of teachers as school-based curriculum developers.
Prerequisite(s): TEM5220
Internal assessment/examination ratio: 1:0
When Taught: 09C (NET) weeks 8-17
Note: This paper is for students in the BTchg Primary Mixed Media programme and qualified and registered teachers. All students must have prior online learning experience.

TEM5322-09B (HAM)
Innovations in Teaching and Assessing Primary Mathematics
20 Points
A study of the development of children’s mathematical knowledge from the preschool years to the early secondary level. The emphasis is on research and its application to children’s mathematics learning, both in and out of classrooms.
Prerequisite(s): TEM5220
Internal assessment/examination ratio: 1:0

TEM5323-09B (HAM)
Science Today
20 Points
An exploration of recent developments in science and their implications for education.
Prerequisite(s): TEM5121
Internal assessment/examination ratio: 1:0

TEM5324-09C (BLK), 09C (HAM) & 09C (TGA)
Numeracy in the Classroom
20 Points
This paper combines the full programme of Numeracy Project workshops, with extensive academic study of children’s mathematics learning in primary classrooms. The focus is on assessment, quality teaching in mathematics/numeracy, progressions in children’s mathematics learning, and theoretical frameworks underpinning this learning.
Prerequisite(s): TEM5220
Internal assessment/examination ratio: 1:0
When Taught: 09C (BLK) weeks 13-40, 09C (HAM) weeks 9-33 & 09C (TGA) weeks 9-33
TEM340-09A (NET) & 09B (NET)
Technological Knowledge
20 Points
This paper combines with TEM341 to give technology educators a deeper understanding of technology to empower their teaching programmes.
Internal assessment/examination ratio: 1:0

TEM341-09A (NET) & 09B (NET)
Technological Practice
20 Points
This paper combines with TEM340 to give technology educators a deeper understanding of technology to empower their teaching programmes.
Internal assessment/examination ratio: 1:0

TEM387-09Y (HAM)
Special Topic
20 Points
An investigation into a selected area of the secondary school curriculum.
Prerequisite(s): 40 points at 200 level in the School of Education
Internal assessment/examination ratio: 1:0
Note: Admission is at the discretion of the Programme Coordinator and the Chairperson of Department. This paper is taught partially online.

Graduate Programmes
For details about honours, graduate and postgraduate programmes, see the prescriptions for the School of Education Graduate Programmes.
Mechanical Engineering

The Mechanical Engineering programme combines papers in mechanical engineering, science and mathematics to give graduates a good balance between intellectual rigour and engineering practice. This typically prepares graduates for employment in industry and a wide range of other careers. During the first three years, the curriculum includes engineering design as a major theme, which integrates papers in engineering science. In the final year students specialise in areas such as advanced product development and undertake a major design or laboratory-based project.

Mechanical Engineering is available as a specified programme for the BE.

To complete the specified programme in Mechanical Engineering, students must follow the following programme.

**Year 1**

CHEM101-09A (HAM) & 09A (SEC)  
Chemical Concepts  
15 Points  
For details see Chemistry CHEM101.

COMP103-09A (HAM), 09B (HAM), 09C (HAM) & 09D (HAM)  
Introduction to Computer Science 1  
15 Points  
For details see Computer Science COMP103.

ENEL111-09A (HAM)  
Introduction to Electronics  
15 Points  
For details see Electronics ENEL111.

ENGG180-09A (HAM)  
Foundations of Engineering  
15 Points  
For details see Engineering ENGG180.

ENMP102-09B (HAM)  
Introduction to Materials Science and Engineering  
15 Points  
For details see Materials and Processing ENMP102.

MATH101-09A (HAM), 09B (HAM), 09C (HAM) & 09D (HAM)  
Introduction to Calculus  
15 Points  
For details see Mathematics MATH101.

MATH102-09A (HAM), 09B (HAM), 09C (HAM) & 09D (HAM)  
Introduction to Algebra  
15 Points  
For details see Mathematics MATH102.

PHYS103-09B (HAM) & 09B (SEC)  
Physics for Scientists and Engineers 1  
15 Points  
For details see Physics PHYS103.

**Year 2**

ENGG200-09C (HAM)  
Engineering Placement 1  
0 Points  
For details see Engineering ENGG200.

ENGG282-09B (HAM)  
Engineering Design  
10 Points  
For details see Engineering ENGG282.

ENGG283-09B (HAM)  
Engineering Mathematics 1A  
10 Points  
For details see Engineering ENGG283.

ENGG284-09A (HAM)  
Engineering Mathematics 1B  
10 Points  
For details see Engineering ENGG284.

ENMP211-09A (HAM)  
Materials 1  
20 Points  
For details see Materials and Processing ENMP211.

ENMP213-09B (HAM)  
Mechanics of Materials 1  
20 Points  
For details see Materials and Processing ENMP213.
ENMP221-09A (HAM)  
Process Engineering and Design 1  
20 Points  
For details see Materials and Processing ENMP221.

ENMP223-09B (HAM)  
Thermofluids  
20 Points  
For details see Materials and Processing ENMP223.

ENMP282-09A (HAM)  
Science and Engineering Management A  
10 Points  
For details see Materials and Processing ENMP282.

Year 3

ENGG285-09A (HAM)  
Engineering Mathematics 2A  
10 Points  
For details see Engineering ENGG285.

ENGG287-09A (HAM)  
Engineering Applications  
10 Points  
For details see Engineering ENGG287.

ENGG300-09C (HAM)  
Engineering Placement 2  
0 Points  
For details see Engineering ENGG300.

ENME351-09A (HAM)  
Dynamics and Mechanisms  
20 Points  
This paper examines the application of kinetics and kinematics to mechanical systems and provides an introduction to 3-D dynamics.  
Equivalent(s): ENGG351  
Prerequisite(s): PHYS103  
Required book(s): J.L. Meriam and L.G. Kraige  
Dynamics (Wiley)  
Internal assessment/examination ratio: 1:1

ENME352-09B (HAM)  
Machine Dynamics and Control  
20 Points  
This paper covers vibrations in multiple degree of freedom systems, modelling and analysis for design improvements, vibration control, mathematical modelling, time, feedback and frequency response, control actions and controllers.  
Equivalent(s): ENGG352  
Restriction(s): ENEL317  
Prerequisite(s): ENME351  
Internal assessment/examination ratio: 1:1

ENME380-09B (HAM)  
Mechanical Engineering Design  
20 Points  
Aspects of stress analysis and strength of materials are covered with reference to design applications. The design element covers essential machine elements in mechanical design.  
Equivalent(s): ENGG380  
Prerequisite(s): ENGG282 and ENMP213  
Corequisite(s): ENMP313  
Required book(s): J.E. Shigley  
Mechanical Engineering Design (McGraw Hill)  
Internal assessment/examination ratio: 1:1

ENMP214-09B (HAM)  
Manufacturing Processes  
10 Points  
For details see Materials and Processing ENMP214.

ENMP215-09B (HAM)  
Manufacturing Practice  
10 Points  
For details see Materials and Processing ENMP215.

ENMP313-09A (HAM)  
Mechanics of Materials 2  
20 Points  
For details see Materials and Processing ENMP313.

Year 4 (BE)

Students must take ENGG381, ENGG482, ENME480, and 30 points chosen from the remaining papers listed below.

ENGG381-09A (HAM)  
Engineering Statistics  
20 Points  
For details see Engineering ENGG381.

ENGG440-09A (HAM)  
Computer Aided Engineering  
20 Points  
For details see Engineering ENGG440.
ENGG482-09A (HAM), 09B (HAM), 09C (HAM) & 09Y (HAM)
Engineering Design and Management Project
60 Points
For details see Engineering ENGG482.

ENME480-09A (HAM)
Advanced Product Development
10 Points
Uses CAD, CAM, simulation and visualisation to give accelerated time-to-market engineering solutions. The paper includes rapid prototyping and tooling processes, and the impact of design on manufacturability, assembly, product quality, and recycling.
Equivalent(s): ENGG480
Prerequisite(s): ENGG180 and ENGG282
Internal assessment/examination ratio: 1:0

ENMP311-09B (HAM)
Materials 2
20 Points
For details see Materials and Processing ENMP311.

ENMP407-09A (HAM) & 09B (HAM)
Materials and Process Engineering Elective
10 Points
For details see Materials and Processing ENMP407.

ENMP413-09B (HAM)
Materials Performance in Service
10 Points
For details see Materials and Processing ENMP413.

ENMP421-09A (HAM)
Advanced Process Engineering and Control
10 Points
For details see Materials and Processing ENMP421.

Year 4 (BE(Hons))
Students must take ENGG381, ENGG492, ENME480, and 30 points chosen from the remaining papers listed below.

ENGG381-09A (HAM)
Engineering Statistics
20 Points
For details see Engineering ENGG381.

Media Studies

Media Studies provides students with a broad knowledge of the roles that the media have in modern society, as well as providing a solid understanding from which to critique and analyse media messages in terms of their production, distribution, content and audience reception. Graduates of this major will attain a broad critical, creative and applied appreciation of the media in contemporary society.

Media Studies is available as major for the BCS. Media Studies may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Media Studies, students must gain 120 points above 100 level in Media Studies, including SMST207, SMST305, and at least 40 further points above 200 level. It is recommended that students intending to major in Media Studies include SMST101 in the first year of their programme of study and SMST214 in the second year.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Media Studies papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Media Studies papers above 200 level.

Music

Music is available in streams for the BMus and as a major for the BA. Music may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Music for the BA, students must gain 120 points above 100 level in Music, including at least 60 points above 200 level.

To complete a BMus (Academic), students must pass 16 papers in Music, including MUSI112, MUSI115, MUSI117, MUSI119 and MUSI150, and at least three Music streams as set out below.

To complete a BMus (Performance), students must pass 17 papers in Music including MUSI112, MUSI115, MUSI117, MUSI119 and MUSI150. Voice students have the option of replacing MUSI150 with an elective paper. Performance students must complete four streams, namely Chamber Music, Performance, Performance Techniques and Western Music History. Performance Techniques and Performance papers are available only to BMus students who have passed a successful audition in the previous year.

Chamber Music: MUSI121, MUSI221, MUSI321
Composition: MUSI115, MUSI215, MUSI222*, MUSI315, MUSI323*
Digital Music: MUSI140, MUSI240, MUSI340

Māori Musical Instruments in Traditional and Contemporary Contexts (BMus only**): MAOR100 or TIKA163, TIKA241, TIKA341
Māori Song and Dance in Traditional and Contemporary Contexts (BMus only**): TIKA153 or TIKA157, TIKA253 or TIKA257, TIKA357
Performance (BMus only): MUSI120, MUSI220, MUSI320
Performance Techniques (BMus only): MUSI118, MUSI218, MUSI318

Western Music History: MUSI112, MUSI213, MUSI314

* MUSI222 and MUSI323 are additional to the Composition stream and are to be included in ‘Other Music Papers’ as set out in the programme degree planner.

** Students may take one of the Māori Music streams for the BMus, but not both.

Voice students in the Performance stream are encouraged to take THST201 as an elective. It is also recommended that voice students take a European language paper from FREN131, GERM131 or SPAN131.

Enrolment in Performance and Performance Techniques papers is limited, with entry offered on the basis of a competitive audition. The following papers are available for students not enrolled in the Performance stream: MUSI121, MUSI221, MUSI321, MUSI227 and MUSI327. Please note that these papers require an audition and entry is at the discretion of the coordinator.

Note on Assessment: Failure to achieve a pass in any Performance, Performance Techniques, or Chamber Music papers will result in the need to re-audition for entry to Performance or Chamber Music streams. Students wishing to enter the Performance stream at any level will be required to audition.

Note: All students enrolled in first year Music papers are expected to have basic skills in reading and writing music. Some students may be required to attend a weekly tutorial in music theory at the discretion of the Chairperson of Department. Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Music papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Music papers above 200 level. Amendments to the BMus (Performance) are subject to approval by the NZVCC’s Committee on University Academic Programmes (CUAP).

**New Zealand Studies/Akoranga Aotearoa**

New Zealand Studies is an interdisciplinary programme of study which draws together papers about New Zealand history, culture and identity. A core of papers provides common ground for students selecting their programmes from a wide range of subject areas.

New Zealand Studies is available as a major for the BA. New Zealand Studies may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in New Zealand Studies, students must gain 120 points above 100 level in New Zealand Studies, including HIST227, either HIST330 or NZST300, and at least 40 further points above 200 level. It is recommended that students intending to major in New Zealand Studies include either MAOR100 or MAOR111 in the first year of their programme of study.

To complete a supporting subject in New Zealand Studies, students must include either MAOR100 or MAOR111, and HIST227 in their programme of study.

**Note:** Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in New Zealand Studies papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in New Zealand Studies papers above 200 level.

Philosophy

Philosophy is about solving problems, including ethical problems, problems about science, logical
problems and problems about the nature of reality.

Philosophy is available as a major for the BA and BSoCSc. Philosophy may also be taken as a
second major or as a supporting subject within other undergraduate degrees, subject to
academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Philosophy, students must gain 120 points above 100 level in Philosophy,
including PHIL250, PHIL350, and at least 40 further points above 200 level. It is recommended
that students intending to major in Philosophy include at least two 100 level Philosophy papers
in the first year of their programme of study. Students should note that either PHIL102 or
PHIL103 is a prerequisite for PHIL350.

Before proceeding to 300 level Philosophy papers, students are normally expected to have
passed a minimum of four papers in Philosophy, at least two of which are at 200 level. Students
with appropriate professional experience or academic background who do not meet this
requirement may be admitted to PHIL305, PHIL316, PHIL317 and PHIL390.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in
Philosophy papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in
Philosophy papers above 200 level.

Physics

Physics is a branch of science that studies matter, energy, and the relation between them. It aims to understand the entire world, from the sub-atomic to the cosmological. Physics papers cover theoretical and experimental subject areas. A distinctive feature of the physics teaching and research at the University of Waikato is its focus on biophysics and biomedical applications. This emphasis is evident in the papers offered at 300 level and above. Many undergraduate papers include laboratory work.

Physics is available as a major for the BSc and BSc(Tech). Physics may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Physics, students must gain 120 points above 100 level in Physics, including ENEL284, ENEL285, PHYS204, PHYS205, PHYS206, PHYS301, and at least 40 further points above 200 level. ENEL312, ENEL324 or MATH334 (MATH334 and PHYS302 are taught in alternate years and can be substituted for each other) may be counted as Physics papers to satisfy the requirements for a major.

Note on Assessment: Māori language tutorials can be arranged on request, subject to the availability of tutors. However, because of the technical nature of the terminology and accepted international practice, this Department requires that all material for assessment for all papers be presented in English.

Policy, Cultural and Social Studies in Education

Policy, Cultural and Social Studies in Education is concerned with the political, social, and cultural issues in relation to educational systems, theories and curricula in schools and adult education. It is also concerned with the form education should take. Some papers focus on the historical and contemporary contexts in which learning and teaching take place, for example the impact of changing government policies, cultural dynamics, educational theories and wider social change. Other papers focus on how the curriculum at various levels addresses, and has addressed political, social, historical, and cultural questions as topics of study in subjects such as social studies, history, and geography.

Papers with the subject code PCSS are Professional Education and Education Studies papers. Papers with the subject code TEPC are Professional Education papers and are only available for students enrolled in a School of Education teacher education programme. Note: The (NET) offerings may include an on-campus component.

Political Science

In Political Science we study all aspects of political life. We ask such questions as: Why do some crises lead to conflict while others are resolved peacefully? What lessons can we draw from the policy experience of other countries? How ought we to deal with the growing international environmental crisis? Why does democracy survive in some countries and not in others? Can we have both freedom and equality - or must we choose between them? What did the great political thinkers of the past really say?

Political Science comprises four main areas of study. Comparative Politics examines the political institutions and societies of particular countries, and looks at the comparisons and contrasts between them. International Relations focuses on the relations between states, on their foreign policies, and on international organisations like the UN and NATO. Political Theory examines theories about politics and society, and the philosophical and methodological questions that arise in studying political life. Public Policy explores and evaluates the processes by which national, regional and local institutions of the state formulate and implement policies. Students taking political science papers may focus on one or more of these areas, or follow a broader programme reflecting the diverse interests of political science.

Political Science is available as major for the BA and BSocSc. Political Science may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Political Science, students must gain 120 points above 100 level in Political Science, including at least two of POLS201, POLS206, POLS211 or POLS212, and at least 60 points above 200 level. Within the BA and BSocSc Political Science majors, a specialisation in International Relations and Security Studies is available. Details of the specialisation requirements can be obtained from the Faculty of Arts and Social Sciences.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Political Science papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Political Science papers above 200 level.

Population Studies

Population Studies is concerned with the empirical analysis of population structure and trends. The undergraduate programme complements and supports other subjects in the university that are concerned with population by providing training in core concepts, methods and issues. Population Studies is available as a major for the BSocSc. Population Studies may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Population Studies, students must gain 120 points above 100 level in Population Studies, comprising POPS201, SSRP202, 20 points from ECON202, GEOG210, GEOG228, LBST202, SOCP206 or SOCY222, 40 points from POPS302, SOCP303, SSRP307 or POPS390, and 20 points from ECON313, GEOG301 or GEOG328. It is recommended that students intending to major in Population Studies include two of ECON100, GEOG101 or SOCP102 in the first year of their programme of study.

To complete a supporting subject in Population Studies, students must include POPS201 and one of GEOG101, SOCP102 or SOCY101.

Enquiries about the undergraduate programme in Population Studies should be directed to the subject convenor in the Department of Societies and Cultures.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Population Studies papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Population Studies papers above 200 level.

Professional Studies in Education

Professional Studies in Education papers consider theoretical aspects of learning theory, pedagogy, assessment, online communities of learners and educational leadership. The Professional Practice papers link theory and practice in the context of educational institutions, classrooms, learning environments and community. There is a focus on social justice, culturally appropriate research, learning, teaching and assessment, ethics, and information and communication technology. The continuing professional development of practising teachers is also a priority within the qualification structure. Māori and Bilingual Education is concerned with the study of teaching and learning Māori language, protocols, and issues in the context of Māori medium, bilingual and mainstream contexts in primary and secondary education.

Papers with the subject code PROF may be taken by any student, with the approval of the appropriate Dean. Papers with the subject codes TEDE, TEMB and TEPS are Professional Education papers and are only available to students enrolled in a School of Education teacher education programme. The teacher education programme and year for which each paper is intended is indicated after the paper title.

Psychology

Psychology is about understanding the behaviour and cognitive processes of people and animals in their physical, social and organisational environment. As a behavioural science, it examines the way behaviour is learned and can be changed. As a social science, it focuses on individuals within the context of families, organisations and other groups, communities, cultures and societies. As a biological science, it studies the senses (hearing, vision, touch) and how the brain and physiological systems relate to behaviour. As a cognitive science it studies perception, attention, memory, thinking and language understanding. The study of development, personality, learning and motivation are also part of Psychology.

Psychology is available as a major for the BA, BSc and BSocSc. Psychology may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Psychology for the BA and BSocSc, students must gain 120 points above 100 level in Psychology, including PSYC208, 40 points from PSYC225, PSYC226, PSYC227, PSYC228, PSYC229 or PSYC230, and at least 60 points above 200 level. It is recommended that students intending to major in Psychology for the BA and BSocSc include PSYC102 and PSYC103 in the first year of their programme of study in order to meet prerequisites for study at 200 level. It is also recommended that students majoring in Psychology take all 200 level 10 point papers. A Psychology and Management specialisation is available to students wishing to complete a BSocSc Psychology major with an emphasis in Management. Details can be found in the Faculty of Arts and Social Sciences Handbook.

To complete a major in Psychology for the BSc, students must gain 120 points above 100 level in Psychology, including PSYC208, PSYC225, PSYC226, PSYC227, PSYC230, and at least 60 points above 200 level. It is recommended that students intending to major in Psychology for the BSc include PSYC102 and PSYC103 in their programme of study in order to meet prerequisites for study at 200 level. All students intending to proceed to graduate study in Psychology should include PSYC307 in their programme of study, as this is a prerequisite for all graduate study.

Students who are considering studying Psychology are advised to obtain either the Undergraduate or the Graduate Psychology Handbook from the Faculty of Arts and Social Sciences or Psychology Department Office.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Psychology papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Psychology papers above 200 level.

Public Policy

Public Policy papers analyse and evaluate how national, regional and local institutions of the state formulate and implement policies. They discuss theories of organisation, decision-making and administration, public management, and how public officials work and interact with both the public and the political executive. Papers examine policies in the context of political values and culture, economic constraints, political party agendas, and seek to explain how and why particular policies are adopted by governments.

Public Policy is available as a major for the BSocSc. Public Policy may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Public Policy, students must gain 120 points above 100 level in Public Policy, including POLS212 and at least 60 points above 200 level. It is recommended that students intending to major in Public Policy include POLS105 in the first year of their programme of study.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Public Policy papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Public Policy papers above 200 level.

**Public Relations**

Public Relations involves managing relationships between organisations and their publics. Within Public Relations a range of strategic communications are practiced; such as crisis and issues management, event management, sponsorship and fundraising, employee relations, government relations and public affairs. Public Relations professionals work with the media, act as the communication intersection between organisations and their publics, and provide the communication support that an organisation requires to achieve its mission.

Public Relations is available as a major for the BCS and BMS. Public Relations may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled. The requirements for the BCS and BMS majors are prescribed in the Waikato Management School Student Handbook.

To complete a second major in Public Relations for degrees other than the BCS and BMS, students must gain 120 points above 100 level in Public Relations, including MCOM233, MCOM235, MCOM332, MCOM333, and at least 20 further points above 200 level.

**Note on Assessment:** To be eligible to pass these papers, students should normally achieve a minimum grade of D in the internal assessment and the final examination, and an overall grade of C.

**Note:** Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Public Relations papers at 200 level, and at least 180 points, including 60 points at 200 level, in any subject(s) before enrolling in Public Relations papers at 300 level.

Prescriptions for the PGDip(Ed) and MEd

These programmes provide academic and professional development in education. A wide range of options are available and it is possible to plan a programme that is tailored to individual intellectual interests and professional needs.

To complete a PGDip(Ed), students must take 120 points at 500 level from the following list. Students intending to undertake a 120 point thesis for their MEd must include an approved 30 point 500 level research methods paper in their PGDip. Within the PGDip(Ed), specialisations are available in In-service Teacher Educator, Māori Medium Teaching/Te Rōpū Tohu Paerua, or Music Education. Details of the specialisation requirements can be obtained from the School of Education.

To complete an MEd, students must take 120 points at 500 level comprising either a 120 point thesis, or a 90 point thesis and one approved 30 point 500 level research methods paper in their PGDip, or 120 points from approved 500 level papers. Students who have not completed an approved research methods paper in their PGDip (or its equivalent) must include an approved 30 point 500 level research methods paper in their MEd programme.

Candidates who complete an MEd by coursework alone would not ordinarily be permitted to apply for admission directly to doctoral study.

Prescriptions for the PGDip(EdLeadership) and MEdLeadership
This programme is available for people in leadership positions in all education sectors.
To complete a Postgraduate Diploma, students must take 120 points at 500 level, including PROF500 and PROF502, and two of HDCO565, PROF501 or PROF508, PROF504, PROF505, PROF507 or PROF580, or any other approved 500 level paper. Students intending to undertake a 120 point thesis for their MEdLeadership must include an approved 30 point 500 level research methods paper in their Postgraduate Diploma.
To complete an MEdLeadership, students must take 120 points at 500 level, including a 120 point thesis, or a 90 point thesis and one approved 30 point 500 level paper, or a 60 point dissertation and 60 points in approved 500 level papers, or a 30 point dissertation or a 30 point directed study and a 30 point professional education seminar and 60 points in approved 500 level papers, or 120 points in approved 500 level papers. Students who have not completed an approved research methods paper in their Postgraduate Diploma must include an approved 30 point 500 level research methods paper in their MEdLeadership programme.
The Postgraduate Diploma is equivalent to one year’s full-time study. The MEdLeadership is equivalent to one year’s full-time study. Students may complete either programme on a part-time basis. Candidates who complete an MEdLeadership by coursework alone would not ordinarily be permitted to apply for admission directly to doctoral study.

Initial enquiries should be made to the Graduate Studies Office, School of Education.

Science and Technology Education

The Centre for Science and Technology Education Research (CSTER) offers graduate papers in science, environmental and technology education that reflect the substantial body of research already being carried out on this campus, and internationally, which analyses issues such as curriculum development, learning and teaching, and professional development of science, environmental and technology educators. The papers are intended primarily for graduates in sciences, in technology or in education. However candidates who have majored in other areas may also be permitted to take these papers as part of their programmes. Intending students should discuss their programmes with the Director of the Centre.

Note: The (NET) offerings may include an on-campus component.

Screen and Media Studies

Screen and Media Studies provides students with employer-valued skills in research, analysis, communication and critical thinking. It also offers a range of opportunities for the close study of the screen, especially film and television, insights into new technologies, production experiences, including screen writing, and full support for students wishing to take a single interest paper or working through the full major to a higher degree.

Screen and Media Studies is available as a major for the BA. Screen and Media Studies may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Screen and Media Studies, students must gain 120 points above 100 level in Screen and Media Studies, including SMST207, SMST214, SMST302, and at least 40 further points above 200 level. It is recommended that students intending to major in Screen and Media Studies include SMST101 and SMST102 in the first year of their programme of study.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Screen and Media Studies papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Screen and Media Studies papers above 200 level.

Social Enterprise

The ‘third sector’ of modern economies is made up of a large number of organisations that have a social objective as their principal goal. This sector includes: community organisations, sports clubs, cultural/art organisations and museums, religious organisations, iwi and Māori organisations, disability support groups, and many others. These organisations are typically involved in enterprise activities, including marketing, fund-raising, the provision of financial information and performance assessment, human resource management and strategic planning. These papers and programmes will develop advanced management skills for managers and potential managers in the sector, and introduce research and build research skills in the Social Enterprise area.

Social Policy

Social Policy provides students with an interdisciplinary perspective to key social issues of policy concern and opens up possibilities of employment in areas such as governmental social policy agencies, local bodies, non-governmental organisations and the private sector.

Students may choose from a combination of core and elective papers in Economics, Education Studies, Labour Studies, Political Science and Public Policy, Population Studies, Social Science Research, and Sociology which, when combined, offer theoretical and applied approaches to the study of social policy issues.

Social Policy is available as a major for the BSoSc. Social Policy may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Social Policy, students must gain 120 points above 100 level in Social Policy, including SOCP206, SSRP202, SOCP302, SOCP303, SSRP307, and at least 20 further points above 200 level. It is recommended that students intending to major in Social Policy include SOCP102 and SOCY101 in the first year of their programme of study in order to meet prerequisites at 200 and 300 levels.

To complete a supporting subject in Social Policy, students must include two of SOCP102, SOCP206 or SOCP302.

Enquiries about undergraduate programmes in Social Policy should be directed to the subject Convenors in the Department of Societies and Cultures. Enquiries about diploma and graduate programmes in Social Policy should be directed to the Graduate Adviser.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Social Policy papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Social Policy papers above 200 level.

Social Science Research

Social Science Research offers papers which teach the principles of effective design of social science research projects with both quantitative and qualitative approaches, the main issues relating to the collection and analysis of information for social research purposes, the principles of effective research reporting, and important philosophical, theoretical and ethical issues in social science research. Students should note that some other research methodology papers relevant to the programme are available in specific Social Science disciplines. Social Science Research is available as a supporting subject for the BA, BMPD and B SocSc.

Further information and advice is available from the subject Convenor.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Social Science Research papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Social Science Research papers above 200 level.

Prescriptions for the PGCert(SocScRes), PGDip(SocScRes) and B SocSc(Hons)

To be eligible to be considered for enrolment in a B SocSc(Hons) in Social Science Research, a student should normally have at least a B average in either the best three of their 300 level Social Science Research papers or all their undergraduate Social Science Research papers. They should also have a significant
research methods component (normally at least 40 points) in that degree.
To complete a BSocSc(Hons) in Social Science Research, students must take 120 points at 500 level, including SSRP503 and SSRP504, SSRP589 or SSRP590, two of ANTH515, ECON544 or POPS509, at least 15 points from the other papers listed below, and up to 30 points selected from the graduate programme of another BSocSc(Hons) subject.
The Postgraduate Diploma builds on the research strengths developed in an undergraduate degree such as the BSocSc and is oriented to the promotion of a critical awareness of a number of methodological perspectives, methods and techniques from across Social Science disciplines.
To complete a Postgraduate Diploma in Social Science Research, students must take SSRP591, a further 60 points chosen from ANTH515, POPS509, SSRP503, SSRP504 and SSRP505, and up to 30 further points from approved 500 level papers.
Enrolment for the Postgraduate Diploma must be for a minimum of one year, but may be spread over a longer period on a part-time basis.
Further enquiries should be referred to the subject convenor.

Social Work

Social Work is a valuable and necessary profession in our society, particularly as society grows ever more complex. Social Workers enable people to function within society with as much ease as possible. They work to promote self-determination and autonomy and to help people develop to the very best of their intellectual, physical, and emotional potential in society.

Social Work is available as a specified programme for the BSW.

To complete the specified programme in Social Work, students must complete the programme set out below.

For more information, contact the Department of Societies and Cultures, Faculty of Arts and Social Sciences.

Note: Papers with the subject code SOCW are only available to students enrolled in the BSW. The Social Work programme is only available at the University of Waikato at Tauranga.

Sociology

Sociology involves analysis of society: that is, how people organise and participate in groups and larger social structures, and how societies change. Sociologists ask questions about society, challenging what is normally taken for granted. Students who major in Sociology develop, not only a good understanding of social structures, social issues and policies, and social change, but also strong research and information literacy skills that prepare them well for employment in many fields.

Sociology is available as a major for the BSoSc. Sociology may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled. Students studying Sociology can take a general Sociology major or can include focused electives from one of the following optional streams:

- Education, Inequality and Society
- Popular Culture
- Sociology of Health and Illness
- Sociology of the Family
- Social Issues, Social Policy and Social Change
- Social Science Research
- Work and Employment

To complete a major in Sociology, students must gain 120 points above 100 level in Sociology, including SOCY204, SSRP202, SOCY301, and at least 40 further points above 200 level. It is recommended that students intending to major in Sociology include SOCY101 and SOCY150 in the first year of their programme of study, in order to meet prerequisites at 200 level, and at least one of LBST303, SOCP302, SOCY304, SOCY311 or SOCY390.

To complete a supporting subject in Sociology, students must include either SOCY101 or SOCY150, SOCY204 and SSRP202.

Further details can be obtained from the departmental handbook and from the Undergraduate Adviser.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Sociology papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Sociology papers above 200 level.

Software Engineering

Software engineering is the scientific, disciplined and quantifiable approach to developing, operating and maintaining complex software systems. These software systems include operating systems, networks, real-time and embedded systems, distributed and parallel systems, as well as engineering, scientific and business application software. The Software Engineering programme at Waikato emphasises the software engineering process, formal methods for software engineering, and human-computer interaction. The programme starts from scratch, and teaches programming skills using C# and Microsoft Visual Studio. The final year project assimilates material taught in the earlier years with material from related disciplines such as electronics and industrial sources. It prepares students well for professional practice as well as continuing, or further, education and research.

Software Engineering is available as a specified programme for the BE.

To complete the specified programme in Software Engineering, students must follow the following programme.

Spanish

The Spanish programme consists of papers in grammar, conversation, composition, Spanish literature and Latin American literature. All literature and language papers beyond SPAN131 are taught in Spanish.

Spanish is available as a major for the BA. Spanish may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Spanish, students must gain 120 points above 100 level in Spanish, including SPAN231, SPAN232, SPAN305, SPAN310, and at least 20 further points above 200 level. It is recommended that students intending to take Spanish as a major include HUMA101 in the first year of their programme of study. Within the BBA(Fin), BCS, BCom, BMS and BTour a Spanish Language specialisation is available, within the BSc and BSc(Tech) a specialisation in Science International in Spanish is available, and within the BMS International Management major a specialisation in Spanish is also available. Details of the specialisation requirements can be obtained from the Faculty of Arts and Social Sciences, School of Science and Engineering or the Waikato Management School.

The point of entry into the Spanish programme depends on previous experience. Those with no previous experience of Spanish take SPAN131 and SPAN132, followed by SPAN231 in the second year. Students with some experience of Spanish (Year 11 or equivalent) will begin with SPAN132. Students with 14 credits at Level 3 in NCEA Spanish, or equivalent, will gain direct entry into SPAN231.

Note: Normally, candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Spanish papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Spanish papers above 200 level.

100 level

HUMA101-09B (HAM)

Sport and Leisure Studies

Sport and Leisure Studies draws on a range of theoretical and applied perspectives to examine the political, cultural, economic and social forces that influence communities and organisations as well as people’s behaviour in relation to sport and leisure. The development of career interests is achieved through the completion of a number of compulsory papers and a selection of a series of other papers suited to the students interests and career aspirations.

Sport and Leisure Studies is available as a major for the BSpLS. Sport and Leisure Studies may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Sport and Leisure Studies, students must gain 60 points from 200 level Sport and Leisure Studies papers, including two of SPLS201, SPLS202, and SPLS203, and 60 points from 300 level Sport and Leisure Studies papers.

Papers with the subject code SPLS are Sport and Leisure Studies papers. Papers with the subject code TESP are Professional Education papers and are only available to students enrolled in a School of Education teacher education programme.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Sport and Leisure Studies papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Sport and Leisure Studies papers above 200 level. The (NET) offerings may include an on-campus component.

SPLS309-09B (HAM)
Professional Skills for Outdoor Education and Adventure Settings
20 Points
This paper offers students the opportunity to develop practical, interpersonal, and ethical skills relevant to outdoor and adventure environments. This is achieved through a combination of personal experience, theoretical learning, and critical reflection.
Prerequisite(s): SPLS209 or SPLS213
Internal assessment/examination ratio: 1:0
Note: Enrolment in this paper is limited to 30 students.

SPLS310-09B (HAM)
Instructing in Sport and Leisure Settings
20 Points
An examination of how the instructional process in a range of physical activities contributes to providing a quality experience.
Prerequisite(s): 40 points at 200 level
Internal assessment/examination ratio: 2:1
Note: This paper is taught partially online.

SPLS311-09A (HAM)
Healthy Communities, Healthy Lifestyles
20 Points
This paper will enable students to develop a critical sociological perspective of health promotion and the relationship between the individual and community and public health policies which may affect the adoption of healthy lifestyles.
Prerequisite(s): 40 points at 200 level in Sport and Leisure Studies
Internal assessment/examination ratio: 1:0

Statistics

Statistics is the science of collecting and interpreting data subject to uncertainty. We live in a world where variability is everywhere. To make informed decisions we must understand the nature of variability, and make use of meaningful information. Without data we have to resort to hunches or guesses, neither of which can be relied on. Statistics tells us how to deal with variability, and how to collect and use data so that we can make good decisions.

Statistics is available as a major for the BSc. Statistics may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Statistics, students must gain 120 points above 100 level in Statistics, including STAT221, STAT226, STAT251, and at least 60 points above 200 level. As well as the 100 level prerequisites specified for papers at 200 level and above, it is recommended that students intending to major in Statistics include COMP103, COMP104 and MATH101 in the first year of their programme of study. ECON304, MATH251 and MATH253 may be counted as Statistics papers to satisfy the requirements for a major. Within the Statistics major, a specialisation in Economics is available. Details of the specialisation requirements can be obtained from the School of Computing and Mathematical Sciences.

Note on Assessment: To be eligible to pass these papers students should normally achieve a minimum grade of D in the internal assessment and the final examination, and an overall grade of C. Because of the technical nature of the terminology and accepted international protocol, the Department of Statistics requires that all assessment for all papers be presented in English. Payment for translation will not be available from the Department.

Strategic Management

Strategic Management is concerned with maximising an organisation’s competitive advantage. The Strategic Management approach is to take a top management view of the organisation which is deemed crucial in creating futures for the firm.

Strategic Management is available as a major for the BMS. Strategic Management may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled. Supply Chain Management

Supply Chain Management (SCM) is the study of the integration of all the value-creating elements in supply, procurement, manufacturing, distribution and logistics processes, from raw material extraction to end-user consumption, usually using information technologies as a main enabler. This subject is closely related to the subject areas of Electronic Business and Management Systems.

Supply Chain Management is available as a major for the BMS. Supply Chain Management may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled. The requirements for the BMS major are prescribed in the Waikato Management School Student Handbook.

To complete a second major in Supply Chain Management for degrees other than the BMS, students must gain 120 points above 100 level in Supply Chain Management, including MSYS277, either MSYS376 or MSYS476, either MSYS377 or MSYS477, and at least 20 further points above 200 level.

Note on Assessment: To be eligible to pass these papers, students should normally achieve a minimum grade of D in the internal assessment and the final examination, and an overall grade of C.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Supply Chain Management papers at 200 level, and at least 180 points, including 60 points at 200 level, in any subject(s) before enrolling in Supply Chain Management papers at 300 level.

**Te Reo Māori/Māori Language**

A programme in Te Reo Māori offers students the opportunity to study Māori language to a high level of competency. Te Reo Māori is available as major for the BA and BMPD. Te Reo Māori may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Te Reo Māori, students must gain 120 points above 100 level in Te Reo Māori, including MAOR313, MAOR314, and at least 20 further points at 300 level. Within the BA and BMPD Te Reo Māori major, a specialisation in Te Tohu Paetahi, total immersion Māori language learning, is available to students who wish to complete their degree mainly in te reo Māori. Two streams, Hukatai and Rehutai, involve intensive language learning in a whānau environment in the first year of study. Within the BBA(Fin), BCS, BCom, BMS and BTour a Te Reo Māori Language specialisation is available, and within the BMS International Management major a specialisation in Te Reo Māori is also available. Details of the specialisation requirements can be obtained from the School of Māori and Pacific Development, School of Science and Engineering or the Waikato Management School.

Theatre Studies

The Theatre Studies programme consists of both practical and theory papers. The practical papers involve group-based studies and focus on both the practice and the theory of performance. The theory papers, while often including practical work, focus more on writing by and about significant theatre practitioners and theatre performance.

Theatre Studies is available as a major for the BA. Theatre Studies may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Theatre Studies, students must gain 120 points above 100 level in Theatre Studies, including at least 60 points above 200 level. ENGL202, MUSI226 and SMST317 may be counted towards a major in Theatre Studies.

Note: Candidates must gain at least 60 points at 100 level, including 30 points in any subject(s) and 30 points in Theatre Studies papers, before enrolling in Theatre Studies papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Theatre Studies papers above 200 level.

Tourism Development

The Tourism Development programme provides a multidisciplinary approach to the issues created by tourism and comprises a mix of core papers on the construction and impacts of tourism as a social process, as well as papers which assist students to explore gender, ethnic, regional, and environmental dimensions of tourism. Skills in environmental planning, social impact assessment, and geographic information systems can be obtained from the wide range of optional elective papers in the specific programme. The adoption of ethical and cooperative approaches to tourism planning, management, business, and tourism research is the intended outcome.

Tourism Development is available as a major for the BTour. Tourism Development may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Tourism Development, students must gain 120 points above 100 level in Tourism Development, including GEOG224, TOST201, TOST300, TOST306, one of ANTH201, ANTH202, GEOG206, GEOG209, GEOG210, GEOG219, GEOG228, SPLS209 or SPLS309, and one of ANTH300 or GEOG306. It is recommended that students intending to major in Tourism Development include GEOG103 in the first year of their programme of study in order to meet prerequisites for study at 200 level.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Tourism Development papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Tourism Development papers above 200 level. The name of this subject has changed from Tourism Resources, Impacts and Planning.

Tourism Management

The study of tourism involves describing, explaining, and forecasting the intentions, activities, and experiences of people in leisure and travel pursuits, as well as understanding the social, cultural, and environmental implications of tourism activity. The rapid growth of domestic and international tourism has led to an increasing demand for graduates who have a functional and critical understanding of tourism in its wider social, cultural, economic, and political contexts. Tourism Management is available as a major for the BMS and BTour. Tourism Management may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled. An undergraduate Diploma in Tourism with a specialisation in Tourism Management is also available. The requirements for the BMS and BTour majors, Diploma, and specialisation are prescribed in the Waikato Management School Student Handbook.

To complete a second major in Tourism Management for degrees other than the BMS and BTour, students must gain 120 points above 100 level in Tourism Management, comprising TOMG200, TOMG202, TOMG203, TOMG301, TOMG304 and TOMG403.

Note on Assessment: To be eligible to pass these papers, students should normally achieve a minimum grade of D in the internal assessment and the final examination, and an overall grade of C.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Tourism Management papers at 200 level, and at least 180 points, including 60 points at 200 level, in any subject(s) before enrolling in Tourism Management papers at 300 level.

Tourism Studies

The Tourism Studies programme aims to develop students’ skills in social and environmental analysis leading to an understanding of the impacts of tourism on natural environments and host communities.

Tourism Studies is available as a major for the BSoSc. Tourism Studies may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Tourism Studies, students must gain 120 points above 100 level in Tourism Studies, including either GEOG206 or GEOG209, GEOG224, TOST201, GEOG301, TOST300 and TOST306. It is recommended that students intending to major in Tourism Studies include ANTH102 and TOST100 in the first year of their programme of study.

To complete a supporting subject in Tourism Studies, students must include TOST100, GEOG224 and TOST201.

It is recommended that students intending to undertake graduate studies for the BSocSc(Hons) or MSocSc build a second major to be the basis of graduate work in tourism.

Enquiries should be directed to the Tourism Studies Coordinator, Department of Geography, Tourism and Environmental Planning.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Tourism Studies papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Tourism Studies papers above 200 level.

Women’s and Gender Studies

Women’s and Gender Studies is an interdisciplinary subject concerned with women’s status in society, the nature of contemporary gender relations, and the social construction of femininity and masculinity. Papers explore a wide range of topics relevant to women, men, and society as a whole. These include media representations of women and men, medical constructions of the body, important health issues, the gendered division of paid and unpaid work, sexuality, violence against women, and difference and ethnicity.

Women’s and Gender Studies is available as a major for the BSoSc. Women’s and Gender Studies may also be taken as a second major or as a supporting subject within other undergraduate degrees, subject to academic approval of the Faculty or School of Studies in which the student is enrolled.

To complete a major in Women’s and Gender Studies, students must gain 120 points above 100 level in Women’s and Gender Studies, including WGST209, WGST211, WGST301, WGST302, and at least 40 further points above 200 level. It is recommended that students intending to major in Women’s and Gender Studies take SOCY101 and WGST101 in the first year of their programme of study.

To complete a supporting subject in Women’s and Gender Studies, students must include WGST101 and at least 35 points selected from SOCY101, WGST209, WGST211, WGST301 or WGST302.

Note: Candidates must gain at least 60 points at 100 level in any subject(s) before enrolling in Women’s and Gender Studies papers above 100 level, and at least 90 points at 100 and 200 level before enrolling in Women’s and Gender Studies papers above 200 level.

Off Campus Papers

The off campus programme aims to provide an opportunity for people who are unable to enrol for papers taught on campus in Hamilton or Tauranga to undertake university studies. The cooperation of polytechnics in some locations where distance education papers are taught in the wider University region assists the programme and also strengthens the links with these institutions. Papers taught off campus are identical in terms of content, assessment and credit weighting to the equivalent papers taught on campus.

The specific papers that the University expects to be able to offer off campus in 2009 and the locations in which they will be taught are listed below. Full details of these papers are set out under the relevant subject entries of this Calendar. These papers will be offered subject to sufficient interest being shown and the availability of staffing and resources.

Pathways Programmes

Short Bridging Courses
The Waikato Pathways College runs a number of short bridging courses including New Start, Bridging for Women, and Quick Start. Varied in length, timing, and content, this group of courses is designed to suit the needs and commitments of a range of adult learners who want to ensure that they are well prepared before beginning tertiary study. Among those who benefit from one or more of these courses are students eligible for discretionary entry or special admission to university, students who are considering tertiary study and students who want to gain support for entry into degree programmes in areas such as Law and Education.

Bridging Science and Mathematics Courses
The Waikato Pathways College offers subject specific bridging programmes in the areas of science and mathematics. Science Foundation runs in February in preparation for semester A and Gateway to Science runs during semester B. These courses are for those who intend to undertake degree-level study in the School of Science and Engineering and would benefit from a pre-entry course in biology, chemistry, physics or mathematics. The College also offers the short course Bridging Mathematics for Psychology for those intending to study in the field of psychology who would benefit from an introduction to mathematics in psychology.

Certificate of Attainment in English Language
Each of the following papers is offered on a full-time basis. There are several intakes for each paper per year, details of which are available directly from the Waikato Pathways College. The papers are taught in Hamilton and Tauranga. A placement test is administered by the Waikato Pathways College in order to determine the level at which a student may enter the programme. The level of admission will depend on the student’s current level of proficiency in English language.

CAEL001
Elementary English 1
43 Points
This paper provides English language training at low-elementary level. It provides basic training in face-to-face communication with an emphasis on the listening and speaking skills necessary in familiar New Zealand social contexts.
Internal assessment/examination ratio: 1:0

CAEL002
Elementary English 2
43 Points
This paper is intended for learners at elementary level and extends the listening and speaking skills developed in CAEL001. The range of linguistic contexts is expanded and there is greater focus on general reading and writing skills.
Internal assessment/examination ratio: 1:0

CAEL003
Pre-Intermediate English
43 Points
This paper builds on the foundations laid down in CAEL001 and CAEL002. Learners’ abilities to use English for communicative purposes are extended and a more integrated approach is taken to developing the four language skills of speaking, listening, reading and writing.
Internal assessment/examination ratio: 1:0

CAEL004
Intermediate English (Academic English)
43 Points
At intermediate level language skills are developed systematically. The range of language functions developed through listening and speaking skills training is extended. Reading and writing skills development begins to focus on academic contexts.
Internal assessment/examination ratio: 1:0
CAEL005
Upper Intermediate English 1 (Academic English)
43 Points
This paper develops effective strategies in managing academic study in western educational contexts. Proficiency is enhanced in areas such as listening, reading and note-taking. Learners are made aware of features of academic texts. The description and comparison of information is explored in the development of writing skills.
Internal assessment/examination ratio: 1:0

CAEL006
Upper Intermediate English 2 (Academic English)
43 Points
At post-intermediate level academic study skills development continues and is extended into areas such as library research projects, summarising and report writing, referencing and recording bibliographies. Training in tutorial and seminar presentation skills is introduced.
Internal assessment/examination ratio: 1:0

CAEL007
Advanced English 1 (Academic English)
43 Points
The reading skills required for project, dissertation and thesis work are further refined and learners explore the organisation of written texts in these areas. Listening and speaking skills development focuses on longer texts.
Internal assessment/examination ratio: 1:0

CAEL008
Advanced English 2 (Academic English)
43 Points
The development of reading and writing skills focuses further on the purposes, structures and style of particular academic texts. More specialised subject content is offered, in consultation with particular groups of learners.
Internal assessment/examination ratio: 1:0

Certificate of Attainment in Foundation Studies
The Certificate of Attainment in Foundation Studies is specially designed to prepare international and permanent resident students from non-English speaking backgrounds for study in a New Zealand university. All students should have achieved an IELTS score of at least 5.5 (or approved equivalent) prior to admission. Candidates must complete the equivalent of 120 points (eight papers). CAFS001, CAFS002 and CAFS003 are compulsory. All students are recommended to include at least one of CAFS004, CAFS005.

CAFS001-09A (HAM), 09A (NET), 09B (HAM), 09B (NET), 09C (HAM) & 09C (NET)

English for Foundation Studies 1
15 Points
This paper provides students with English language development in the areas of reading and writing skills as they relate to their subject area studies.
Internal assessment/examination ratio: 1:0

CAFS002-09A (HAM), 09A (NET), 09B (HAM), 09B (NET), 09C (HAM) & 09C (NET)

English for Foundation Studies 2
15 Points
This paper provides students with further English language development in the areas of reading, writing and speaking with a focus on understanding and producing more complex spoken and written text types.
Prerequisite(s): CAFS001
Internal assessment/examination ratio: 1:0
CAFS003-09A (HAM), 09A (NET), 09B (HAM), 09B (NET), 09C (HAM) & 09C (NET) Language and Learning Skills for Foundation Studies 15 Points
This paper provides students with language skills development in the areas of listening, reading, writing and speaking as they relate to their subject area studies. Attention is paid to the development of research and presentation skills as they relate to the assignment requirements of an English-medium academic learning environment.

Certificate of University Preparation

The Certificate of University Preparation is a pathway programme designed specifically for students from English or Māori speaking backgrounds who have studied at secondary school to year 13 and who narrowly missed gaining University Entrance. Those who are not otherwise eligible for admission to a degree (i.e. do not have University Entrance and who are not eligible for discretionary entrance or special admission), but who want the opportunity to improve their study and learning skills, and to attain an understanding of particular areas of study may also apply. Students enrol in one of two streams, the General stream or the Huarahi Māori stream. Each stream has two compulsory papers. In addition, students choose two elective papers offered within the stream in which they have enrolled. Students may, on the basis of academic advice and approval, be permitted to choose elective papers from the other stream. To complete the Certificate, the two compulsory and two elective papers must be passed. Students who complete the Certificate are guaranteed admission to a degree at this university.

Work Placements

Many of our degrees offer work placement opportunities or projects with businesses and community groups. In most cases, these can count as part of your course work. As well as valuable work experience for your CV, some work placements can lead to employment after graduation. Work placements often happen in your last year of study, so you can apply what you have learned in your earlier years in the real world and receive support from your tutors and lecturers.

As well as the subject-specific work and industry placements described under the relevant subject entries, the work placements listed below are available in 2009.

For more information on how a work placement might fit into your programme of study, talk to a Student Advisor in your Faculty or School of Studies.

Student Discipline Regulations

Preamble
At the time they enrol, students are required to sign a Student Declaration agreeing to abide by the regulations of the University of Waikato as published in the University of Waikato Calendar. The Student Discipline Regulations provide the framework for addressing alleged breaches of University regulations by students and for applying penalties where breaches are substantiated.

Members of the University community are entitled to operate and interact in an environment of safety and respect. It is expected that students will act with integrity and demonstrate respect for others.

If differences and disputes arise between members of the University community, it is expected that they will attempt to resolve such conflicts reasonably and cooperatively. Formal procedures should be used only where other methods of resolving conflicts have been ineffective or would be inappropriate.

It is the policy of the University that all discipline procedures conform to the principles of natural justice. The procedures in these regulations have been adopted to safeguard the rights of individuals in this respect.

Student Discipline Regulations 2008

Part 1
General
1. Title
These are the Student Discipline Regulations 2008.

2. Purpose
The purpose of these regulations is to
(a) define student misconduct
(b) explain procedures for making, investigating and resolving complaints of student misconduct, and
(c) set out the penalties that may be applied where misconduct by a student is substantiated.

3. Date of effect
These regulations are effective from 1 January 2009.

4. Definitions
In these regulations
chief examiner means the person appointed by the relevant Dean as the chief examiner for the paper concerned (the names of the chief examiners are available from the Director of Student and Academic Services) and includes any other person appointed by the Dean as an alternate chief examiner for the sole purpose of exercising summary jurisdiction under these regulations

class means a lecture, tutorial, laboratory, workshop, practical session, practicum, placement, field trip or any other type of learning activity delivered or supervised by a staff member

hall of residence means Bryant Hall, College Hall, Orchard Park or Student Village
internal assessment means the portion of the assessment for a paper that is assigned, supervised and marked internally within the relevant department; it may include assignments, practical work, work in tutorials, seminars, written or oral tests, recitals, performances or attendance requirements
natural justice means the right to have a decision made by an unbiased decision-maker who observes fair and impartial procedures
student means a student enrolled at the University of Waikato
summary jurisdiction means a process for dealing with a complaint of misconduct, where a designated person has authority, individually, to obtain and hear evidence, arrive at a judgement and, within the terms of that authority as defined in these regulations, impose a penalty
University means the University of Waikato.

5. Application
(1) These regulations apply to the conduct of students while they are enrolled as students.
(2) These regulations apply to the conduct of students
(a) on any property or in any facility owned or managed by the University
(b) in the context of a University activity
(c) where the conduct is related directly to the student’s status as a student, or
(d) where the conduct has the potential to harm unfairly the reputation of the University.
(3) For the purpose of these regulations, the period during which a student is deemed to be enrolled as a student is defined as the period in a given year from (inclusively) the Monday of the start week of the paper in the student’s programme of study that starts earliest in that year, to the Sunday of the end week of the paper that ends last.
(4) ‘Start week’ and ‘end week’ in subsection (3) are defined for Student Loans and Allowances purposes.
(5) The processes for dealing with complaints of misconduct may extend beyond the period defined in subsection (3).

Part 2
Misconduct

6. Definition of misconduct
A student commits misconduct if he or she
(a) commits a serious breach of the obligation, shared by staff and other members of the University community, to act towards others reasonably, courteously, considerately and with good faith
(b) behaves in a manner that significantly impedes or subverts the efficient functioning of the University in accordance with its statutory role
(c) behaves in a manner that discredits the University
(d) breaches any regulation published in the University of Waikato Calendar
(e) fails to comply with any reasonable and lawful policy or instruction approved and notified by the Vice-Chancellor, Council, Academic Board, or delegated authority of the Vice-Chancellor, Council or Academic Board
(f) uses University property, resources or funds for other than authorised purposes
(g) incurs liability on the part of the University without authorisation
(h) behaves in a manner that is likely to harm unfairly the reputation or professional prospects of another student or a member of staff
(i) behaves in a manner that jeopardises the health or safety of another person
(j) knowingly misleads the University in any significant matter
(k) encourages, assists, or procures a person to commit misconduct.

7. Discrimination and harassment
(1) The University of Waikato is committed to providing a work and study environment that is free from discrimination and harassment.
(2) A complainant may choose to have discrimination or harassment treated as a formal complaint of misconduct under these regulations.
(3) Discrimination means conduct that results, or is likely to result, in less favourable treatment, or creates, or is likely to create, a less favourable environment, for a person or group of people on any of the prohibited grounds set out in section 21 of the Human Rights Act 1993. The grounds on which discrimination is prohibited under section 21 of the Human Rights Act 1993 (unless any of the exceptions in Part II of the Act apply) are
(a) sex, which includes pregnancy and childbirth
(b) marital status
(c) religious belief
(d) ethical belief
(e) colour
(f) race
(g) ethnic or national origins, which includes nationality and citizenship
(h) disability
(i) age
(j) political opinion
(k) employment status
(l) family status
(m) sexual orientation.
(4) Harassment means serious or persistent interference in the pursuit of work or study of another person, by behaviour that is unwelcome, uninvited and unwarranted. Harassment includes
(a) sexual harassment: verbal or physical behaviour of a sexual nature that is unwelcome, uninvited and unwarranted
(b) racial harassment: the use of language (whether written or spoken), or visual materials, or physical behaviour that
(i) expresses hostility against, or brings into contempt or ridicule, any other person on the ground of the colour, race, or ethnic origins of that person
(ii) is hurtful or offensive to that other person (whether or not that is conveyed to the person complained about), and
(iii) is either repeated, or of such a significant nature, that it has a detrimental effect on that other person.
(5) General information, including examples of the types of behaviour that constitute discrimination and harassment and sources of advice and support on campus, is available from the Director of Student and Academic Services.

8. **Informal methods of dispute resolution**
   (1) As a matter of principle, the University encourages the use of informal methods for resolving disputes, although it is recognised that there are instances in which informal methods are not appropriate or will not be effective.
   (2) Methods of seeking an informal resolution to a complaint include the following:
      (a) the complainant discussing the issue with a third party but not proceeding further
      (b) direct discussions between the parties
      (c) the complainant writing a letter to the other party
      (d) a third party representing the complainant’s concerns on his or her behalf
      (e) discussions between the parties, mediated by a third party
      (f) the complainant changing his or her own position to avoid or accommodate the conflict.
   (3) Within the University there is a network of trained staff and students to assist complainants with informal methods of dispute resolution; further information, including details of contact persons can be obtained from the Director of Student and Academic Services.

9. **Students accused of misconduct subject to discipline procedures**
   (1) A student against whom a complaint of misconduct is made, either by a member of the University or another person, is subject to the discipline procedures set down in Part 3 of these regulations.
   (2) All authority under these regulations must be exercised in accordance with the principles of natural justice.
   (3) Any person who is a party to a complaint of misconduct, or who provides information pertaining to a complaint of misconduct, may be required by the relevant authority to sign a statutory declaration in relation to any aspect of his or her testimony.
   (4) If a person who is a party to a complaint of misconduct fails to respond to a communication by a relevant authority, provided the authority has made all reasonable effort to locate and contact that person and to provide adequate opportunity for a response, the authority may proceed to deal with the complaint at his or her discretion.

**Part 3**

**Procedures for Making, Investigating and Resolving Complaints of Student Misconduct, and Penalties where Misconduct is Substantiated**

10. **Opportunity for preliminary advice**
    (1) A person who considers that a student has committed misconduct may, if that person wishes, first seek preliminary advice from one of the following staff members:
(a) the Director of Student and Academic Services or another relevant divisional director
(b) the Chairperson of the Student Discipline Committee
(c) a relevant Chairperson of Department
(d) a relevant Dean.

(2) A staff member from whom preliminary advice has been sought under subsection (1) must
(a) provide all reasonable assistance and support to the complainant
(b) advise the complainant, on the evidence provided by him or her, whether a formal complaint of misconduct might appropriately be lodged, and
(c) advise the complainant about the appropriate procedures for lodging a formal complaint should the complainant choose to lodge one.

11. Procedures for making a formal complaint
(1) Any person may lodge a formal complaint of misconduct against a student
(a) even if that person has not sought or achieved an informal resolution under section 8, and
(b) even if that person has not sought preliminary advice from a staff member under section 10, and
(c) regardless of any advice given by a staff member under section 10.
(2) A formal complaint of student misconduct must be made in writing
(a) if it relates to student conduct in a Hall of Residence or the Rec Centre, to the Director of Student and Academic Services
(b) if it relates to student conduct in the Library, to the University Librarian
(c) if the complainant is an academic staff member and the complaint involves alleged plagiarism or cheating in a subject where authority has been delegated to a chief examiner under section 15, to the relevant chief examiner
(d) in cases other than (a) (b) or (c), to the Chairperson of the Student Discipline Committee.

12. Preliminary procedure in discipline complaints
(1) Where the Chairperson of the Student Discipline Committee receives a complaint of misconduct against a student, the complaint may be addressed through a tikanga process under section 13.
(2) Unless it is agreed to follow a tikanga process under section 13, the Chairperson of the Student Discipline Committee may
(a) offer summary jurisdiction to the student, or
(b) refer the matter to the Student Discipline Committee.
(3) If the Chairperson of the Student Discipline Committee offers summary jurisdiction, the student may choose either
(a) to accept the offer of summary jurisdiction, or
(b) to have the matter referred to the Student Discipline Committee.

13. Tikanga Māori
(1) The spirit of tikanga is to seek resolutions to complaints in a Māori way that encourages a facilitated open exchange of views, in order to achieve a resolution that is agreed by all the parties involved.
(2) A complaint may only be addressed through a tikanga process if
(a) the complainant
(b) the student answering the complaint
(c) the Chairperson of the Student Discipline Committee, and
(d) the Pro Vice-Chancellor (Māori)
agree to the arrangements determined under subsection (3).

(3) The Pro Vice-Chancellor (Māori) is responsible for determining the arrangements for the tikanga process after discussion with the parties, and is also responsible for informing the parties of the nature and implications of the process.

(4) The process is facilitated by the Pro Vice-Chancellor (Māori), assisted by a tikanga panel appointed by the Pro Vice-Chancellor (Māori).

(5) Where possible, a resolution is negotiated by the complainant and the student answering the complaint; where they are unable to negotiate a resolution between themselves, a resolution is determined by the Pro Vice-Chancellor (Māori) in consultation with the Chairperson of the Student Discipline Committee.

(6) In determining a resolution under subsection (5), the Pro Vice-Chancellor (Māori) is authorised to take any of the actions that are available under summary jurisdiction procedures, as provided in section 14(6).

(7) The Pro Vice-Chancellor (Māori) is responsible for reporting the resolution negotiated or determined under subsection (5), in writing, to the complainant and the student answering the complaint.

(8) The Chairperson of the Student Discipline Committee is responsible for ensuring that all appropriate records relating to the outcome are maintained.

(9) Failure to comply with a resolution negotiated or determined under this section is misconduct.

(10) A resolution negotiated or determined under this section is final; there is no right of appeal.

(11) Subject to the agreement of the Vice-Chancellor, the Pro Vice-Chancellor (Māori) may delegate his or her authority under this section.

14. Summary jurisdiction procedures

(1) Summary jurisdiction is exercised by the Chairperson of the Student Discipline Committee, or, if section 15 applies, a chief examiner.

(2) A student who accepts summary jurisdiction by the Chairperson of the Student Discipline Committee may write an answer to the complaint.

(3) The complainant and the student
   (a) must be given the opportunity to appear and give evidence at a summary jurisdiction meeting with the Chairperson of the Student Discipline Committee
   (b) may be required to attend, at the Chairperson of the Student Discipline Committee’s discretion
   (c) may be accompanied at the meeting by any other person to act as an adviser or support person, subject to any conditions that the Chairperson of the Student Discipline Committee may impose.

(4) Where the Chairperson of the Student Discipline Committee exercises summary jurisdiction, he or she determines whether the student has committed misconduct on
   (a) the evidence provided by the complainant and the student, and
(b) any other evidence, written or oral, that he or she may seek or accept at his or her discretion, provided that this evidence is disclosed to the student and he or she is given the opportunity to comment on it.

(5) The Chairperson of the Student Discipline Committee may decide at any time to take no further action on a complaint of misconduct if, in his or her judgement
   (a) the evidence provided by the complainant is insufficient
   (b) the subject matter of the complaint is trivial
   (c) the complaint is frivolous, vexatious, or not made in good faith, or
   (d) the complaint falls outside the scope of these regulations.

(6) If, having investigated a complaint, the Chairperson of the Student Discipline Committee determines that a student has committed misconduct, he or she may take one or more of the following actions:
   (a) issue to the student a warning containing a statement of the possible consequences if the act or behaviour that provoked the complaint is repeated
   (b) require an undertaking from the student as to future behaviour while enrolled at the University and set in place provisions for monitoring the student’s behaviour in keeping with the undertaking
   (c) require the student to provide any appropriate and available remedy to relieve distress, or repair damage, or correct a mistake
   (d) require the student to make a public or private apology, either written or spoken
   (e) require the student to pay, by a given date, compensation or a fine of up to $500
   (f) suspend the student from attendance at any class or programme for up to one year
   (g) exclude the student from, or limit access to, any designated part or facility of the University for up to one year
   (h) if the misconduct is related to a particular paper or programme of the University,
      (i) require the student to repeat or complete additional assessment
      (ii) refuse or reduce credit for part or all of an individual item of assessment, or refuse credit for a paper as a whole
      (i) require the student to participate in a specified educational and/or training programme related to the misconduct, in terms prescribed by the Chairperson of the Student Discipline Committee and within a prescribed period.

(7) The Chairperson of the Student Discipline Committee must exercise his or her discretion in the matter as expeditiously as possible.

(8) The outcome must be communicated to the complainant and the student as expeditiously as possible.

15. **Delegation of summary jurisdiction to chief examiners**
   (1) The authority of the Chairperson of the Student Discipline Committee to exercise summary jurisdiction under section 14 may be delegated to a chief examiner, provided that
(a) the chief examiner has followed the process prescribed by the Chairperson of the Student Discipline Committee for requesting and exercising that delegated authority
(b) the complaint involves alleged plagiarism or cheating in a 100 or 200 level item of internal assessment which is worth less than 33% of the total assessment for the paper concerned
(c) the student who is the subject of the complaint has not previously been found guilty of misconduct under these regulations, and
(d) the student against whom the complaint is made accepts the delegated authority of the chief examiner.

(2) Where authority to exercise summary jurisdiction is delegated under this section, the chief examiner must follow the summary jurisdiction procedures prescribed by the Chairperson of the Student Discipline Committee.

(3) If, having investigated a complaint under this section, a chief examiner determines that the student has committed misconduct, the chief examiner may take one or more of the following actions:
   (a) issue to the student a warning containing a statement of the possible consequences if the act or behaviour that provoked the complaint is repeated
   (b) require an undertaking from the student as to future behaviour while enrolled at the University and set in place provisions for monitoring the student’s behaviour in keeping with the undertaking
   (c) require the student to repeat or complete additional assessment
   (d) refuse or reduce credit for part or all of an individual item of assessment, or refuse credit for a paper as a whole
   (e) require the student to participate in a specified educational and/or training programme related to the misconduct, in terms prescribed by the Chief Examiner and within a prescribed period.

(4) If, at any time during a summary jurisdiction process, a chief examiner considers that the penalties available to the Chairperson of the Student Discipline Committee may be more appropriate, or for any other reason, the chief examiner may refer the matter back to the Chairperson of the Student Discipline Committee, who will exercise his or her own summary jurisdiction as provided under these regulations.

16. Constitution and jurisdiction of the Student Discipline Committee
(1) The Student Discipline Committee comprises
   (a) the Chairperson, appointed by the Vice-Chancellor, and
   (b) two academic staff members, appointed by the Chairperson of the Student Discipline Committee from a pool of six nominated by the Academic Board, and
   (c) two students, one of whom is enrolled at the graduate or postgraduate level, appointed by the Chairperson of the Student Discipline Committee from a pool of four students, two of whom are enrolled at the graduate or postgraduate level; the pool of four students is appointed by the Chairperson of the Student of the Student Discipline Committee in consultation with the President of the Waikato Students’ Union if membership of the Waikato Students’ Union is compulsory, or the student members of the Academic Board and Council in any other case.
(2) A quorum is the chairperson, one academic staff member and one student member.

(3) Written notice of the time, date and place of the hearing of the Student Discipline Committee, together with full details of the substance of the complaint, must be sent to the student against whom the complaint has been made, at least 14 days before the date of the hearing.

(4) The student answering the complaint may write an answer to the complaint.

(5) Both the complainant and the student answering the complaint
   (a) must be given the opportunity to appear and give evidence at the Student Discipline Committee hearing
   (b) may be required to attend, at the Committee’s discretion
   (c) may be accompanied at the hearing by another person to act as an adviser or support person, subject to any conditions that the Student Discipline Committee may impose.

(6) The Student Discipline Committee must convene as soon as is practicable to hear
   (a) the evidence provided by the complainant and the student, and
   (b) any other evidence, written or oral, that the Committee may seek or accept at its discretion, provided that this evidence is disclosed to the student and he or she is given the opportunity to comment on it.

(7) The Student Discipline Committee may decide at any time to take no further action on a complaint of misconduct if, in its judgement,
   (a) the evidence provided by the complainant is insufficient
   (b) the subject matter of the complaint is trivial
   (c) the complaint is frivolous, vexatious, or not made in good faith, or
   (d) the complaint falls outside the scope of these regulations.

(8) If misconduct is substantiated, the Student Discipline Committee may take one or more of the following actions:
   (a) issue to the student a warning containing a statement of the possible consequences if the act or behaviour that provoked the complaint is repeated
   (b) require an undertaking from the student as to future behaviour while he or she remains enrolled at the University and set in place provisions for monitoring the student’s behaviour in keeping with the undertaking
   (c) require the student to provide any appropriate and available remedy to relieve distress, or repair damage, or correct a mistake
   (d) require the student to make a public or private apology, either written or spoken
   (e) require the student to pay, by a given date, compensation or a fine of up to $1000
   (f) suspend the student from attendance at any class or programme for up to one year
   (g) exclude the student from, or limit access to, any designated part or facility of the University for a specified period of time or permanently
   (h) cancel a student’s enrolment at the University, as a whole or in respect of any paper or programme, for a specified period of time or permanently
   (i) if the misconduct is related to a particular paper or programme of the University,
(i) require the student to repeat or complete additional assessment
(ii) refuse or reduce credit for part or all of an individual item of assessment, or refuse credit for a paper as a whole
(j) require the student to participate in a specified educational and/or training programme related to the misconduct, in terms prescribed by the Student Discipline Committee and within a prescribed period.

(9) The Student Discipline Committee must exercise its jurisdiction in the matter as expeditiously as possible.

(10) The outcome must be communicated to the complainant and the student as expeditiously as possible.

17. **Authority of staff for discipline in classes**
A staff member delivering or supervising a class may dismiss from it, for its duration, any student who, in his or her judgement, has committed misconduct in that class.

18. **Authority of the Dean of Science and Engineering for discipline in laboratories**
The Dean of Science and Engineering may exclude from any laboratory in the School of Science and Engineering, for up to seven days, any student who, in his or her judgement, has committed misconduct in a laboratory in the School.

19. **Authority of the University Librarian for discipline in the Library**
The University Librarian may exclude from the Library, for up to seven days, any student who, in his or her judgement, has committed misconduct in the Library.

20. **Authority of the Director of Student and Academic Services for discipline in the halls of residence**
(1) The Director of Student and Academic Services has authority for order and discipline in the halls of residence and may give instructions as he or she thinks fit in accordance with that authority.

(2) Any instructions by the Director of Student and Academic Services under subsection (1) must:
   (a) be notified individually to each resident to whom they apply, and
   (b) be displayed permanently and conspicuously in an appropriate place in the relevant hall.

(3) Where the Director of Student and Academic Services receives a complaint of misconduct in a hall of residence, he or she may
   (a) refer the matter to the Residents’ Discipline Committee of the hall in which the student resides, or
   (b) offer summary jurisdiction to the student.

(4) If the Director of Student and Academic Services offers summary jurisdiction, the student may choose either
   (a) to accept the offer of summary jurisdiction, or
   (b) to have the matter referred to the relevant Residents’ Discipline Committee.

(5) A student who accepts summary jurisdiction by the Director of Student and Academic Services may write an answer to the complaint.

(6) The complainant and the student
   (a) must be given the opportunity to appear and give evidence at a summary jurisdiction meeting with the Director of Student and Academic Services
(b) may be accompanied at the meeting by any other person to act as an adviser or support person, subject to any conditions that the Director of Student and Academic Services may impose.

(7) Where the student accepts the offer of summary jurisdiction by the Director of Student and Academic Services, the Director determines whether the student has committed misconduct on

(a) the evidence provided by the complainant and the student, and
(b) any other evidence, written or oral, that the Director may seek or accept at his or her discretion, provided that this evidence is disclosed to the student and he or she is given the opportunity to comment on it.

(8) The Director of Student and Academic Services may decide at any time to take no further action on a complaint of misconduct if, in his or her judgement,

(a) the evidence provided by the complainant is insufficient
(b) the subject matter of the complaint is trivial
(c) the complaint is frivolous, vexatious, or not made in good faith, or
(d) the complaint falls outside the scope of these regulations.

(9) If misconduct is substantiated, the Director of Student and Academic Services may take one or more of the following actions:

(a) issue to the student a warning containing a statement of the possible consequences if the act or behaviour that provoked the complaint is repeated
(b) require an undertaking as to future behaviour
(c) require the student to provide any appropriate and available remedy to relieve distress, or repair damage, or correct a mistake
(d) require the student to make a public or private apology, either written or spoken
(e) require the student to pay, by a given date, a sum of up to the equivalent of one week’s board at the relevant hall
(f) require the student to undertake community service work in the relevant hall, of whatever nature the Director thinks fit
(g) exclude the student from the relevant hall for up to one year
(h) exclude the student from, or limit access to, a designated part or facility of the relevant hall for up to one year.

(10) Where a student accused of misconduct in a hall chooses to have the matter referred to the Residents’ Discipline Committee, the committee must convene as soon as practicable to hear

(a) the evidence provided by the complainant and the student, and
(b) any other evidence, written or oral, that the Residents’ Discipline Committee may seek or accept at its discretion, provided that this evidence is disclosed to the student and he or she is given the opportunity to comment on it.

(11) Written notice of the time, date and place of the hearing of the Residents’ Discipline Committee, together with full details of the substance of the complaint, must be sent to the student against whom the complaint has been made at least seven days before the date of the hearing.

(12) The student answering the complaint may write an answer to the complaint.
(13) The complainant and the student
(a) must be given the opportunity to appear and give evidence at the
Residents’ Discipline Committee hearing
(b) may be accompanied at the hearing by another person to act as an
adviser or support person, subject to any conditions that the
Residents’ Discipline Committee may impose.

(14) The Residents’ Discipline Committee may recommend to the Director of
Student and Academic Services at any time that no further action be taken
on a complaint of misconduct if, in its judgement,
(a) the evidence provided by the complainant is insufficient
(b) the subject matter of the complaint is trivial, or
(c) the complaint is frivolous, vexatious, or not made in good faith.

(15) If misconduct is substantiated, the Residents’ Discipline Committee makes a
recommendation to the Director of Student and Academic Services, who,
having taken account of the advice of the Committee, may take one or more
of the actions listed in subsection (9).

(16) The Director of Student and Academic Services must exercise his or her
jurisdiction in the matter as expeditiously as possible.

(17) The outcome must be communicated to the complainant and the student as
expeditiously as possible.

21. Authority of the Director of Student and Academic Services for discipline in the
Rec Centre
The Director of Student and Academic Services may, having taken account of the
advice of the Manager of the Rec Centre, suspend from membership or use of the
Rec Centre for up to one year, any student whom the Manager considers has
committed misconduct in the Centre.

22. Authority of the Vice-Chancellor
(1) The Vice-Chancellor may exclude a student from the University, or limit
access to any designated part, system or facility of the University, if the
student has been convicted of a criminal offence and if, in the Vice-
Chancellor’s judgement, the nature of the offence impinges detrimentally on
the University or its staff or students.

(2) Whether or not there has been a formal complaint of misconduct, the Vice-
Chancellor may, on suspicion of possible misconduct, initiate an
investigation of the conduct of a student. Any investigation under this
section and any procedure related to that investigation must be consistent
with these regulations.

(3) If, having regard to the security of University property or the best interests of
students and staff, the Vice-Chancellor is satisfied that the nature of a
complaint is sufficiently serious, the Vice-Chancellor may suspend the
student to whom the complaint relates from attendance at any class or
programme, or from the campus, until the complaint has been investigated
and settled.

23. Authority of Council to withdraw or refuse to grant an academic award
(1) Council may withdraw or refuse to grant an academic award if it is satisfied
that the candidate was guilty of misconduct in relation to the award while
enrolled, or otherwise dishonest in relation to the award.
(2) Council must consult with the Academic Board before taking a decision under this section; the advice of the Academic Board must be based on a recommendation from the Student Discipline Committee.

(3) The principles and processes followed by the Student Discipline Committee in formulating its recommendation to the Academic Board must be consistent with the principles and procedures outlined in these regulations for the investigation and hearing of allegations of misconduct.

(4) The Academic Board must make all reasonable effort to ensure that the candidate concerned receives prior notification of the advice that it intends to give to Council and is given an opportunity to make a written submission directly to Council.

(5) Council may determine its own procedures for considering a matter under this section provided they conform with the principles of natural justice.

(6) A decision by Council under this section is final.

24. **Annotation of academic records and grades**

(1) Where the assessment of a paper has been affected as a consequence of a finding of misconduct, the student’s academic record will be annotated accordingly, either permanently or for a designated period of time, unless the relevant deciding authority decides that the seriousness of the misconduct does not warrant this.

(2) Where a student fails a paper as a direct consequence of a finding of misconduct, an NC (No Credit) grade will be awarded for that paper.

Part 4

Provisions for Appeal

25. **Provision for appeal to the Chairperson of the Student Discipline Committee**

(1) A student may appeal to the Chairperson of the Student Discipline Committee against any decision taken by

(a) a chief examiner under section 15

(b) a staff member under section 17

(c) the Dean of Science and Engineering under section 18

(d) the University Librarian under section 19.

(2) An appeal must be addressed and submitted in writing to the Chairperson of the Student Discipline Committee (Student and Academic Services Division), together with the prescribed fee; it must include a postal address and must be signed.

(3) An appeal must be received by the Chairperson of the Student Discipline Committee not more than 14 days after the date on which the relevant decision was formally notified, and must include details of the grounds for the appeal.

(4) An appeal may be made only on one or more of the following grounds:

(a) that the process used for addressing the alleged misconduct was unfair

(b) that the decision reached was manifestly at odds with the evidence

(c) that the remedy imposed was manifestly at odds with the misconduct

(d) that significant new evidence has become available that could not reasonably have been obtained and presented during the initial process and that could have a material effect on the outcome.
(5) The student and the authority that made the original discipline decision
(a) must be given the opportunity to appear and give evidence at the
appeal hearing
(b) may be accompanied by another person to act as an adviser or
support person, subject to any conditions that the Chairperson of the
Student Discipline Committee may impose.

(6) The Chairperson of the Student Discipline Committee may
(a) dismiss the appeal and uphold the original decision
(b) vary the decision
(c) require any appropriate and available remedy to settle the appeal.

(7) The Chairperson of the Student Discipline Committee must hear the appeal
as expeditiously as possible.

(8) The outcome must be communicated to the student and the authority that
made the original discipline decision as expeditiously as possible.

(9) The decision of the Chairperson of the Student Discipline Committee on an
appeal is final.

(10) At the discretion of the Chairperson of the Student Discipline Committee, the
fee for an appeal is refunded in full if the appeal is upheld, or in part if the
decision is varied in the student’s favour.

26. **Provision for appeal to Council**

(1) Any party to a complaint of student misconduct (the complainant or the
student who was the subject of the complaint) may appeal to Council
against any decision under these regulations
(a) by the Director of Student and Academic Services
(b) unless it is an appeal decision under section 25, by the Chairperson of
the Student Discipline Committee
(c) by the Student Discipline Committee
(d) by the Vice-Chancellor.

(2) An appeal must be addressed and submitted in writing to the Secretary to
Council (Vice-Chancellor’s Office), together with the prescribed fee; it must
include a postal address and must be signed.

(3) An appeal must be received by the Secretary to Council not more than 14
days after the date on which the relevant decision was formally notified, and
must include details of the grounds for the appeal.

(4) An appeal may be made only on one or more of the following grounds:
(a) that the process used for addressing the alleged misconduct was
unfair
(b) that the decision reached was manifestly at odds with the evidence
(c) that the remedy imposed was manifestly at odds with the misconduct
(d) that significant new evidence has become available that could not
have been reasonably obtained and presented during the initial
process and that could have a material effect on the decision made.

(5) The Council may delegate authority to hear and decide appeals on its behalf
to a sub-committee comprising:
(a) a staff member of the University, nominated by the Vice-Chancellor
on the basis of his or her knowledge of legal processes, who is
Chairperson, and
(b) two members of Council.
At any appeal hearing
(a) the student must be given the opportunity to appear and give evidence and may be accompanied by any other person to act as an adviser or support person, subject to any conditions that the Council may impose.
(b) the complainant may be called upon to appear and give evidence.
(c) the authority that made the original discipline decision must be given the opportunity to appear and give evidence.

The Council or the sub-committee may
(a) dismiss the appeal
(b) allow the appeal
(c) vary the decision
(d) refer the complaint back to the authority that made the decision appealed from, for rehearing.

The Council or the sub-committee may not impose a penalty that could not otherwise be imposed under these regulations.

The Council or the sub-committee must hear appeals as expeditiously as possible.

The outcome of the appeal must be communicated to the student, the complainant and the authority that made the original discipline decision as expeditiously as possible.

The decision of the Council or the sub-committee on an appeal is final.

At the discretion of the Chancellor, the fee for an appeal is refunded in full if the appeal is upheld, or in part if the decision is varied in the student’s favour.

Part 5
Provisions to Delegate Authority

27. Delegation of authority by the Chairperson of the Student Discipline Committee
Subject to the agreement of the Vice-Chancellor, the Chairperson of the Student Discipline Committee may delegate his or her authority under these regulations.

28. Delegation of authority by the Vice-Chancellor
The Vice-Chancellor may delegate his or her authority under these regulations.

Part 6
Monitoring and Reporting

29. Reports to the Academic Board
The Chairperson of the Student Discipline Committee must submit an annual report to the Academic Board, including
(a) an overview of summary jurisdiction decisions taken during the relevant year by the Chairperson of the Student Discipline Committee, chief examiners and any others who have exercised authority delegated by the Chairperson of the Student Discipline Committee
(b) an outline of decisions by the Student Discipline Committee
(c) an overview of decisions through tikanga processes
(d) an outline of appeals heard by the Chairperson of the Student Discipline Committee or his or her delegate
(e) an overview of student discipline matters, including any patterns or trends
(f) a statement about the appropriateness and effectiveness of current regulations, policies and processes concerning student discipline, and
(g) any recommendations with respect to current regulations, policies and processes concerning student discipline.

30. **Reports to Council**
The outcome of any appeal heard by a sub-committee of Council must be reported to Council.

31. **Confidentiality**
Subject to section 24, all processes and decisions under these regulations are confidential to the parties and staff directly involved.
Student Complaints Policy

Preamble

Consistent with its commitment to excellence, the University has adopted this policy to assist both students and staff in the resolution of student concerns and complaints constructively, quickly and fairly.

Where minor concerns arise, students are encouraged to take a common-sense approach and raise them directly with the relevant staff, with the aim of resolving them at the lowest possible level and without undue formality. However, where informal discussions have not yielded a satisfactory resolution, or where the matter is more serious, the following policy provides for a more formal process to be pursued.

Complaints made under this policy will be monitored and reviewed to enable the University to continually improve processes and services in support of student learning.

Student and staff rights and responsibilities in relation to this policy are set out in the appendix to this policy.

Policy

1. Definitions

   In this policy

   complaint means a written statement submitted by a student about a matter that requires formal consideration and resolution by the University in the terms set out in this policy

   natural justice means the right to have a decision made by an unbiased decision-maker who observes fair and impartial procedures.

2. Application and scope

   (1) Subject to subsection (2), this policy applies to complaints about any aspect of the teaching and learning process and the broad provision made by the University to support that process.

   (2) This policy may not be used

      (a) where the complaint can be dealt with under the Student Discipline Regulations 2008, the Assessment Regulations 2005, or the Harassment and Sexual Harassment Policy, or

      (b) to challenge the academic judgement of examiners.

   (3) Depending on the nature of the complaint, this policy should be read in conjunction with the Staff Code of Conduct, the Code of Ethics for Academic Staff, and/or the Code of Practice for the Pastoral Care of International Students.

   (4) No action will be taken on malicious or anonymous complaints.

   (5) A complainant must be able to demonstrate that the complaint is brought without malice and is based on evidence that the complainant honestly and reasonably believes to be substantially true. Those responsible for resolving complaints under this policy must take all reasonable steps to ensure that the complainant is protected against any subsequent recrimination or victimisation.
(6) Students and staff involved in the consideration and resolution of concerns and complaints have various rights and responsibilities, which are outlined in the appendix to the policy.

3. Informal resolution of concerns
   (1) Before making formal written complaints, students are encouraged to seek a resolution to any concerns by raising and discussing them informally with the relevant staff member who is most directly associated with the matter.
   (2) A staff member with whom a concern is raised by a student is expected to deal with the matter in an open and professional manner and to take reasonable and prompt action to try to resolve it informally.
   (3) A student who is uncertain about how to seek informal resolution of a concern is encouraged to seek advice from the Student Support Coordinator (Office of Student Life) or the Student Advocate (Waikato Students’ Union).

4. Formal complaints procedures
   (1) Where it has not been possible to resolve a concern informally, a student may make a formal complaint.
   (2) A student who wishes to make a formal complaint must submit it in writing, on the prescribed form (which is available online at http://www.waikato.ac.nz/sasd/files/docs/complaintform.doc), to the Dean or Director who is responsible for the action or matter that has given rise to the complaint.
   (3) The written complaint must be submitted within three months after the occurrence of the action or matter that has given rise to the complaint, unless the Dean or Director agrees to receive it beyond this timeframe.
   (4) If the complainant prefers not to address the complaint to the person recommended in subsection (2) it may be addressed to the Deputy Vice-Chancellor, who will address the complaint and make a decision in accordance with these procedures.
   (5) A Dean or Director who receives a student complaint must acknowledge it in writing within three working days. He or she must also lodge the complaint in the relevant College, Division, Faculty or School of Studies complaints register, using the student ID number as identifier (rather than the student’s name), and must maintain a file of all documentation in relation to the consideration of the complaint.
   (6) The Dean or Director must ensure that any staff member named in the complaint receives a copy as soon as practicable.
   (7) The Dean or Director must consider the complaint in accordance with the principles of natural justice, and must ensure that all parties to the complaint are accorded the full benefit of those principles.
   (8) The process may include meetings with relevant staff and/or the complainant. Where meetings are held, the parties may, if they wish, be accompanied by a peer support person.

5. Resolution of complaints
   (1) The Dean or Director must make a decision in relation to the complaint and must notify his or her decision to the parties, in writing, within 28 days of receiving the complaint.
(2) If the complaint involves a university process or service and if, in the opinion of the relevant Dean or Director, the complaint has substance, the Dean or Director must arrange for the relevant process or service to be reviewed, with a view to preventing a recurrence and ensuring continued improvement.

6. Appeals

(1) Any party to a student complaint who is dissatisfied with a decision by a Dean or Director under this policy may appeal to the Deputy Vice-Chancellor.

(2) The appeal must be submitted in writing within 28 days of the letter notifying the decision.

(3) The Deputy Vice-Chancellor will consider the relevant documentation and may, at his or her discretion, consult the Dean or Director who made the decision. The Deputy Vice-Chancellor may also interview any parties to the complaint.

(4) If he or she determines that the complaint process has been conducted in accordance with this policy and the outcome is appropriate, the Deputy Vice-Chancellor may dismiss the appeal. Otherwise, he or she will decide the appeal in consultation with the relevant Dean or Director and any other parties. Subject to subsections (6) and (7), the decision of the Deputy Vice-Chancellor under this section is final.

(5) The Deputy Vice-Chancellor will notify his or her appeal decision in writing to the parties.

(6) When he or she notifies the parties of the appeal decision, the Deputy Vice-Chancellor will inform the parties of the Ombudsman’s role in relation to complaints about government organisations (including universities) that affect people in their personal capacities.

(7) The Deputy Vice-Chancellor will also inform any staff members who are dissatisfied with a student complaint process of the steps available to them under the University’s Procedure for Resolving Employment Relationship Problems and Personal Grievances.

(8) If the original complaint was addressed to the Deputy Vice-Chancellor under section 4(4), any appeal must be made to the Vice-Chancellor. That appeal will be considered and decided, in accordance with appeal processes consistent with those set out in this policy, by a nominee of the Vice-Chancellor.

7. Confidentiality

All processes and decisions under this policy are confidential to the parties and staff directly involved.

8. Annual report to the Academic Board

The Deputy Vice-Chancellor must submit an annual report to the Academic Board, including an overview of student complaints and decisions during the relevant year, together with any consequent recommendations with respect to the teaching and learning process and the provision made by the University to support that process.

Appendix

Rights and Responsibilities of Parties to a Student Complaint

Parties to a student complaint have the right to

- be treated with courtesy at all times
- a fair and timely investigation process in accordance with the principles of...
natural justice
• express their points of view without fear of recrimination
• receive full information at all stages of the complaint process
• be advised in writing of all decisions made in relation to the complaint
• appeal the outcome
• in the case of a staff member, avail himself or herself of the Procedure for Resolving Employment Relationship Problems and Personal Grievances.

Parties to a student complaint have a responsibility to
• treat all parties with courtesy at all times
• respect the points of view of others
• respect the rights of all parties to the complaint with respect to confidentiality
• in the case of the complainant, ensure that the complaint is made in good faith and complies with the requirements of the Student Complaints Policy
• provide full and accurate information to the person investigating the complaint
• not take any action that may prejudice the situation or be regarded as an act of recrimination against any other party.
Computer Systems Regulations

1. Title
   These are the Computer Systems Regulations 2005.

2. Purpose
   These regulations provide a framework for the use of the University's computer systems and network, which are provided for use by the University community for teaching, learning and research, and to assist with the administration of the University.

3. Date of effect
   These regulations are effective from 1 January 2006.

4. Definitions
   In these regulations
   computer system means
   (i) any computer system and its peripherals owned or administered by the University, together with any associated electronic or optical data storage systems, and
   (ii) any network, including the internet, intended for the transfer of information in digital form, accessed on University property or through University facilities, and
   (iii) any machine connected by physical or wireless connection to a network administered by the University.
   system manager in relation to a computer system means
   (i) a Dean
   (ii) a Divisional Director
   (iii) the Director of Information and Technology Services.
   University means University of Waikato.
   user means person using a computer system who is
   (i) a staff member of the University, whether employed on a fixed-term, continuing, full-time, part-time or casual basis
   (ii) a student enrolled at the University
   (iii) a person authorised by a system manager to use the system.

5. Requirements of users
   (1) Users must not use or attempt to use a computer system without the authorisation of a system manager.
   (2) Users must take all reasonable precautions to maintain the integrity of passwords and any other security mechanisms.
   (3) If a password becomes insecure or potentially insecure, a user must, as soon as is practicable, implement a new secure password.
   (4) Users must not cause costs to be incurred
      (i) by the University without the authority of a system manager, or
      (ii) by any person or organisation without the consent of that person or organisation.
   (5) Unless they have the authorisation of a system manager, users must not
      (i) do anything that damages, restricts, jeopardises, impairs or undermines the performance, usability, reliability, confidentiality or accessibility of any digital information system, program, or other stored information or data.

773
(ii) access, read, alter, delete or in any other way interfere with, any
information, data or files (including electronic mail) held by another
person, or attempt to do any of these things, regardless of whether the
operating system of the computer permits these acts.

(6) Users must
(i) comply with any instruction by a system manager about the use of
the University's computer system
(ii) respect the rights of other users with respect to access to computer
systems and enjoyment of use
(iii) comply with all applicable New Zealand law, including law on
copyright, privacy, defamation, objectionable material, and human
rights.

(7) Users must not
(i) ignore or breach any lawful and reasonable instruction by a system
manager
(ii) use a computer system in any way that constitutes discrimination,
harassment, or sexual harassment as defined in the University’s Sexual
Harassment and Harassment Policy
(iii) use a computer system in a manner, or for a purpose, which would
bring the University into disrepute, or, if they are staff, which would
otherwise breach the University’s Staff Code of Conduct or Code of
Ethics for Academic Staff
(iv) assist, encourage or conceal any unauthorised use, or attempt at
unauthorised use, of any computer system.

6. Use of licensed software
(1) Users must comply with the terms of any licence agreement between the
University and any third party that governs the use of software.
(2) Users must not make copies of proprietary software unless explicit authority
is granted by either the software provider (for example, where the University
administrates a site licensing agreement) or, where applicable, by a system
manager.
(3) Users must not make proprietary software available for use by any other
organisation or individual without the authority of the software provider or a
system manager.
(4) A user who intends to distribute outside the University, in whole or in part,
an application program containing embedded proprietary software, must first
obtain the written permission of the software provider for each instance of
distribution.
(5) A user who publishes material identifying proprietary software must include
in the publication explicit and accurate identification of the software
provider.

7. Use of internet or other online information repository
(1) Users of the internet facility must conform to any requirements established
and notified by the University for the use of a system or network accessed
over the internet.
(2) Any publication on the internet or other online information repository using
University facilities must
(i) not be designed to mislead or deceive
(ii) not breach the Copyright Act 1994
not promote the personal commercial interests, or political, religious or other personal views of a user or a user’s acquaintances, friends or family in such a manner that it appears to have the endorsement of the University

(iv) conform to lawful and reasonable employer instructions and policies on online publication.

(3) Unless authorised by a system manager, a user must not request or accept payment, in money, goods, services, favours or any other form of remuneration, either directly or indirectly, for any activity using a computer system.

(4) The University is not responsible for the content of, or events arising from, communications or interactions between users and others on internet sites where access is not controlled by the University.

8. Personal use

Users must not publish online information that is of a personal nature and unrelated to research or career as if it were part of any officially published information; personal information must include a disclaimer that makes clear its unofficial status.

9. Requirements and authority of system managers

(1) System managers are responsible for maintaining security of the systems for which they are responsible, sufficient for authorised users to make effective use of the facilities on those systems and to maintain the integrity of their passwords and any other security mechanisms.

(2) System managers are authorised to monitor the activities of users and to inspect files and other information for the specific and sole purpose of ensuring that the provisions of these regulations are being met.

(3) System managers must respect the rights of users to privacy and avoid any unnecessary disruption to the legitimate activities of users.

10. Authority to issue standards

(1) The Director of Information and Technology Services has authority to determine and issue standards to ensure appropriate levels of performance, security, compatibility and legal compliance of computer systems.

(2) Unless he or she judges it necessary to issue a particular standard urgently because of a serious and imminent threat to the operation or security of a computer system, the determination of a standard by the Director of Information and Technology Services is subject to consultation with the University's ICT Strategic and Policy Committee (ISPC).

(3) Where the Director of Information and Technology Services believes on reasonable grounds that a standard issued under this section has been breached, he or she may take any immediate action that he or she thinks appropriate to ensure that system performance, security, compatibility and legal compliance are protected; if he or she considers that the breach is sufficiently serious, the Director of Information and Technology Services may refer the matter to the Vice-Chancellor who may arrange for the matter to be dealt with in the terms provided under section 13(3) of these regulations.
11. Disclosure of Information
(1) In order to exercise the authority provided under section 9 of these regulations, a system manager is entitled to access personal information about a user and the user’s activities on the computer system if there are reasonable grounds for suspecting that the user may have breached these regulations.
(2) A system manager who accesses personal information about a user under these circumstances may provide the information to relevant authorities, including the Police and staff of the University responsible for cost centre management, student discipline and staff discipline.

12. Complaints
A dispute or complaint concerning any matter under these regulations may be referred to a system manager who will determine, on the evidence provided by the complainant and any other evidence that the system manager may obtain at his or her discretion, whether there has been a breach of these regulations.

13. Breaches
(1) Where a system manager believes on reasonable grounds that a user has breached these regulations, such that the activities or rights of other users of a computer system or of the University are impeded or prejudiced, the system manager may
(i) exclude the user from the system for a period not exceeding two weeks
(ii) remove any relevant material
(iii) take any other immediate action that he or she thinks appropriate to protect the integrity of the computer system or the rights of other users.
(2) If a standard issued under section 10 of these regulations has been breached, the matter must be handled by, or in consultation with, the Director of Information and Technology Services.
(3) A system manager who has made a decision under this section may, if he or she considers that the breach is sufficiently serious, refer the matter to the Vice-Chancellor, who may arrange for the matter to be dealt with,
(i) if the user is a student, under the provisions of the Student Discipline Regulations 2008
(ii) if the user is a staff member, under the provisions of the Staff Code of Conduct
(iii) in cases other than (i) or (ii), as the Vice-Chancellor thinks fit.

14. Appeals against decisions by system managers
A user may appeal to the Vice-Chancellor against any action or decision under these regulations by a system manager.
Library Regulations

1. **Title**
   These are the Library Regulations 2007.

2. **Purpose**
   These regulations provide a framework for use of the University Library and its resources.

3. **Date of effect**
   These regulations are effective from 1 January 2008.

4. **Definitions**
   In these regulations
   - **library** means the Central Library, the Education Library and the Law Library, which together comprise the University Library
   - **reader** means all persons admitted to the Library under sections 7(1) and (2) of these regulations
   - **book** means all types of Library material
   - **lending desk** means the issue desks situated in the Central, Education and Law Libraries.

5. **General**
   (1) Admission to the Library is conditional on observance of these regulations and such directions as may be given from time to time by the University Librarian. All readers are presumed to know these regulations.
   (2) All members of the Library staff are empowered to enforce these regulations.
   (3) Any infringement of these regulations by a reader may lead to the suspension of her/his use of the Library at the discretion of the University Librarian, or, where appropriate, to disciplinary action under the Student Discipline Regulations 2008.

6. **Hours of opening**
   The Central Library, the Education Library and the Law Library are open at the times shown in the latest edition of the respective Library Guides, and on the Library’s website at http://www.waikato.ac.nz/library/business/hours.shtml. Any variation from these times will be displayed on the notice boards at the entrances to the Central Library and the Education Library, and on the Library’s website.

7. **Admission and borrowing**
   (1) Borrowing facilities are available to members of the University Council; Honorary Doctors, staff, retired staff and enrolled students of the University; staff and students of the Tertiary Education Alliance; and other people whose applications have been approved by the University Librarian. An annual registration fee may apply.
   (2) Other persons may be admitted to the Library for reference and private study in accordance with such arrangements as the University Librarian may, from time to time, determine.
   (3) All students register as borrowers for the current year at enrolment by obtaining a student identity card.
   (4) Library notices are sent to staff and students by email. Changes of email and postal addresses must be notified immediately either via iWaikato or at the Lending Desk. Students who leave their academic year address during study
breaks or vacations must notify the Library of their temporary address during these periods. Failure to read email, or change email/postal addresses, will not be taken as an excuse for non-receipt of Library correspondence.

(5) All readers may be required to produce a valid identity card or other identification, acceptable to the University Librarian, at any time when requested by the University Librarian.

(6) No book may be borrowed from the Library without first having the loan properly recorded. A book to be borrowed must be presented, together with the borrower’s University of Waikato identity card, at the Lending Desk or self-issue unit. The due date of return for each book borrowed will be indicated.

(7) No book will be issued at the Lending Desk within 15 minutes of closing time.

(8) A book will not be issued in the name of another borrower. Any variation to this procedure requires the approval of the University Librarian.

(9) A borrower shall be held responsible for any loss of, or damage to, a book while borrowed in her/his name and will be required to pay the cost of replacement or repair, together with any fines incurred before reporting the loss, and an administrative charge. This administrative charge will be made whether or not the book is subsequently found or returned. Loss or damage should be reported immediately to the Lending Desk. The University Librarian shall determine the amount to be paid.

(10) At the discretion of the University Librarian a payment made for a lost book may be refunded if the book is subsequently found and returned to the Library.

(11) Under no circumstances may a book be passed on to another borrower. Fines for resulting inability to respond to recall or overdue notices will be charged to the borrower in whose name the book is issued.

(12) Most books on the open shelves may be borrowed for a limited period.

(13) Books marked ‘Not to be Borrowed’ are for reference use only and may not be taken from the Library.

(14) New Zealand Official Papers may not in any circumstances be removed from the Library.

(15) Print journals (except those subscribed to by the Waikato Management School or its departments) may be borrowed by staff and students enrolled for graduate courses only.

(16) Maps may be borrowed by staff, graduate students, financial members of the New Zealand Geographical Society, and other approved borrowers of the Map Library. No item may be borrowed from the Map Library without the loan first being properly recorded.

(17) Library books may be taken out of New Zealand only with the prior written permission of the University Librarian. There are special procedures for university students living overseas.

8. **Course reserves**

Some books because of heavy demand are available for use in the Library only and are referred to as Course Reserves. A borrower is required to present her/his University of Waikato identity card when using a Course Reserve. The period for which a Course Reserve is available to any one borrower may be limited according to the demand for the book, and only one Course Reserve may be borrowed at a
time. A charge per hour or part thereof may be made for the late return of a Course Reserve. These books may not be removed from the Library.

9. **Recalls and reserves**
   
   (1) Borrowers may recall or reserve books which are on loan.
   
   (2) The number of recalls or reserves that may be submitted each day by any one borrower will be at the discretion of the University Librarian.

10. **Recall notices and fines**
   
   (1) All books are subject to recall at any time and must be returned to the Library by the due date shown on the recall notice, whether this is sent by email or by post. Failure to respond to a recall notice by the due date shown incurs a fine for each book returned after this date, and an additional fine for each subsequent day. Other disciplinary action may also be taken against a borrower who fails to return a book ten days after the recall notice was first sent.
   
   (2) A book required simultaneously by a number of borrowers is issued for seven days only, depending on the number of borrowers requiring the book. If this book is kept beyond the due date of return, fines will be incurred.
   
   (3) A daily fine will be charged for any book, other than those referred to in sections 10(1) and (2) of these regulations, which is retained beyond the due date of return. A book not returned within one calendar month of this date will be regarded as lost and the borrower will then be billed for the cost of the book, together with the fines incurred and an administrative charge. This administrative charge will be made whether or not the book is subsequently found or returned.
   
   (4) The Library is not obliged to notify a borrower when a book is overdue, and a fine will automatically be charged for each book which is retained beyond the due date of return, whether or not a notice has been sent.
   
   (5) Where fines or invoices remain unpaid, the penalties for non-payment, as set out in the Regulations Governing Payment of Fees and Charges in the University of Waikato Calendar, will be applied. In addition, Library services may be withheld.

11. **Inter-library loan**
   
   A book obtained on Interloan is subject to such special conditions as may be imposed by the lending library. A borrower not complying with these will have the privilege of using this service withdrawn.

12. **Conduct of readers**

   (1) Smoking is not permitted in the Library.
   
   (2) Eating and drinking are not permitted in the Library, other than in areas specifically designated.
   
   (3) Undue conversation or disturbance (including use of cell phones) in the formal reading areas is forbidden.
   
   (4) No reader shall behave in a noisy or disruptive manner in the Library. Verbal abuse or rude behaviour towards Library staff or other Library users will not be tolerated.
   
   (5) Places in the Library may not be reserved by leaving books or other articles on seats or reading desks. Such material may be removed by Library staff to the nearest Lending Desk.
   
   (6) Readers shall, when so requested by a member of the Library staff, present for inspection their bags and personal belongings as they leave the Library.
(7) Readers may be required to satisfy the Library staff that any book taken out of the Library has been properly issued, or is personal property.

(8) Readers must not misuse, damage or remove any item of furniture or equipment belonging to the Library. Such conduct is regarded as a serious offence, and action may be taken under the Student Discipline Regulations 2008.

(9) Readers must not mark or in any way damage books belonging to the Library. Such conduct is regarded as a serious offence, and action may be taken under the Student Discipline Regulations 2008.

(10) The unauthorised borrowing or removal of a book is regarded as a serious offence, and action may be taken under the Student Discipline Regulations 2008.

13. Fees, fines and administration costs
The fees, fines and administration costs of the Library shall be determined from time to time under such arrangements as the University Council shall approve and shall be published annually in the Table of Fees and Charges section of the University of Waikato Calendar.
Parking and Traffic Regulations

1. **Title**
   These are the Parking and Traffic Regulations 2005.

2. **Date of effect**
   These regulations are effective from 1 January 2006.

3. **Definitions**
   In these regulations
   - **campus** means the physical grounds occupied by the University of Waikato
   - **parking attendant** means any staff member authorised by the Director of Facilities Management to enforce these regulations.

4. **Application**
   These regulations apply to the driving, riding and parking of vehicles and bicycles on campus, by staff, students and members of the public.

5. **Access**
   (1) Prime access to buildings and other facilities is reserved for pedestrians and disabled persons in wheelchairs. Cyclists are therefore not permitted to ride on access-ways that are signposted, or recognised, as access-ways for pedestrian and wheelchair traffic.
   (2) On pedestrian/cyclist dual use access-ways, cyclists must give priority and right of way to pedestrian and wheelchair traffic.

6. **Safety and parking**
   (1) Drivers and cyclists must drive and ride safely at all times. They must obey all traffic and parking signs and markings. They must also comply with any directions given by parking attendants.
   (2) Except with the approval of a parking attendant, no person other than an authorised driver of a University service vehicle may drive, park or ride over a grassed area or footpath.
   (3) While the University makes reasonable provision for vehicle parking, it is under no obligation to make provision for the vehicles of all those wishing to park on the campus.
   (4) The University reserves the right to make a charge for parking facilities.
   (5) Motorcycles and motor scooters may be parked only in the areas signposted for motorcycles and motor scooters.
   (6) Bicycles may be parked only in cycle-racks or purpose-built cycle sheds, and must not be taken into any University building.
   (7) Vehicles owned by current University of Waikato employees and displaying a University parking permit may be parked in signposted 'Permit Holders Only' areas. Otherwise, vehicles may be parked only in 'General Parking' areas.
   (8) All vehicles parked on the campus must be parked in marked bays.
   (9) No person may park a vehicle in the same parking bay for longer than 48 hours without prior permission from a parking attendant.
   (10) A named car park may be used only by the person with the corresponding name or designation.
7. **Parking for people with mobility-related impairments**

Accessible parking spaces (outlined in yellow and displaying the wheelchair symbol) are provided for use by people with mobility-related impairments. These parking spaces may be used only by holders of Operation Mobility permits issued by the CCS or Temporary Mobility Parking Permits issued by the University’s Disability Support Service (located at the Medical Centre).

8. **Authority of parking attendants and Security Manager**

   (1) A person who, in relation to a parking or traffic matter, is requested by a parking attendant to provide his or her name or address must do so honestly and within the requested timeframe.

   (2) Parking attendants have authority to issue infringement notices to people who breach these regulations and to immobilise their vehicles. A vehicle that has been immobilised will be released only on payment of the fee prescribed in the infringement notice, or on completion of an "Acknowledgement of Unpaid Fines" form.

   (3) Parking attendants have authority to impose a penalty charge on any person who removes or otherwise interferes with immobilisation equipment.

   (4) If a vehicle is parked in a manner that is dangerous or obstructs access, the Security Manager has authority to arrange for that vehicle to be towed away by a licensed vehicle recovery operator; the cost of retrieving a towed vehicle falls to the owner of the vehicle.

9. **Breaches**

   (1) At the discretion of the Security Manager, an alleged breach of these regulations by a student may be referred to the Vice-Chancellor for investigation under the University’s Student Discipline Regulations 2008.

   (2) At the discretion of the Security Manager, an alleged breach of these regulations by a staff member may be referred to the Vice-Chancellor for investigation under the University’s Staff Code of Conduct.

   (3) At the discretion of the Security Manager, an alleged breach of these regulations may be referred for investigation to the NZ Police.

10. **Appeals**

    (1) A person may appeal against any decision under these regulations

        (a) if the decision was made by a parking attendant, to the Security Manager

        (b) if the decision was made by the Security Manager, to the Director of Facilities Management.

    (2) An appeal under these regulations must be submitted in writing within 14 days of the date of the decision.

    (3) The decision of the Security Manager or the Director of Facilities Management under subsection (1) is final.
Environmental Policy

Purpose

1. The University of Waikato is committed to
   • implementing sustainable practices on its campus environments, which includes practices for their protection and restoration
   • providing leadership locally, nationally and internationally in resource management, conservation, education and partnerships that are essential for society to achieve sustainability
   • meaningful partnerships with Māori under the Treaty of Waitangi, which includes full recognition of the role of Māori as kaitiaki of New Zealand's natural environment.

2. The University seeks to integrate its environmental commitment throughout its teaching and research activities and management actions. The Environmental Policy sets out the framework for doing so.

Principles

3. The Environmental Policy sets out the University's commitment to
   • give full consideration to the sustainable use of resources in all of its management decisions
   • raise awareness of environmental sustainability and environmental matters generally, and encourage understanding and responsibility in the use of resources within its own community and society in general
   • consult appropriately on matters of environmental concern
   • undertake appropriate research and provide leadership in environmental issues
   • develop educational resources and partnerships that will foster sustainable resource management
   • enhance understanding of environmental issues through its teaching and research portfolio
   • contribute to community and government planning, policy development and debate with a view to ensuring that environmental matters are taken into account.

Education and Research

Teaching Activities

4. The University promotes environmental issues and sustainability in its teaching activities by
   • developing papers and components of papers which have a strong emphasis on interdisciplinary studies and partnerships that are required to address sustainability
   • encouraging and supporting staff to incorporate appropriate material on the environment and sustainability into their teaching programmes
   • raising awareness of environmental matters in programmes of staff orientation and development
   • conducting teaching-related activities (e.g. laboratories and field work) in an environmentally sensitive manner.
Research
5. The University promotes appropriate research into environmental matters across a wide range of academic disciplines. It specifically encourages partnerships with government, industry and the community, and promotes interdisciplinary research that provides for tangible outcomes in preservation and restoration of the environment.

Sustainable Resource Management and Conservation
6. The University promotes activities that conserve and enhance its outstanding natural environment and seeks to reduce the environmental impacts that arise from the large transient populations on its campuses.
7. Strategies that the University has in place to ensure sustainable resource management and conservation include:
   • managing the natural environment to enhance indigenous biodiversity
   • promoting participatory approaches in environmental restoration on its campuses
   • managing the built environment to promote sustainability by minimising material, water and energy use, using natural assets, renewable energy and material sources effectively, and selecting resources in an environmentally responsible manner
   • encouraging staff and students to make environmentally responsible transportation decisions in their commuting and work practices
   • minimising output of solid wastes and discharges of liquid wastes and airborne contaminants
   • managing procurement processes to reduce the production of waste by-products and to forge links with suppliers committed to environmental goals that are aligned with this Policy.

Community Involvement and Public Profile
8. The University is proud of its reputation as an environmentally and ecologically responsible institution. It is committed to strengthening and building on this position by encouraging all staff and students to be exemplars of environmental awareness and sustainable practice to the wider community.
9. Strategies that the University has in place to enhance its public profile and encourage community involvement in environmental matters include:
   • promoting environmentally responsible partnerships with the wider community
   • ensuring that it’s teaching and research activities enable all students to become environmentally aware members of the community
   • conducting all research in an environmentally appropriate manner, taking account of its wider environmental implications
   • conducting its internal and external business activities in an environmentally responsible manner.
10. Strategies that the University has in place to demonstrate its commitment to environmental concerns at the local, national and international levels include:
    • promoting environmental responsibility at all levels of the organisation
    • sharing resources and information for community education on environmental matters
    • providing leadership, as appropriate, for the investigation and development of community-based strategies for sustainable resource management.
11. The University seeks ongoing interaction with community groups and community representatives in relation to environmental matters.

Social and Cultural Environment

12. The University of Waikato is committed to promoting a diverse social and cultural environment.

Meeting the Objectives of te Tiriti o Waitangi/Treaty of Waitangi

13. The role of Māori as kaitiaki (caretakers, guardians and resource managers) is given statutory recognition in the Resource Management Act 1991.

14. The responsibilities of kaitiaki are extensive and aimed primarily at maintaining, preserving and enhancing the life-sustaining and supporting capacity, or mauri, of the natural environment.

15. The University promotes full recognition and provision for the understanding of the role of the tangata whenua as kaitiaki of Aotearoa/New Zealand’s natural environment.

16. The Tainui iwi is acknowledged as kaitiaki of the University’s Hamilton campus environment.

17. Strategies that the University has in place to demonstrate its commitment to the role of Māori as kaitiaki of the natural environment include
   • incorporating an understanding of the Treaty of Waitangi and Māori environmental rights, lore and values into academic programmes where appropriate
   • promoting and encouraging greater awareness of the Treaty and Māori rights, lore and values with respect to the environment among staff, students and the wider community
   • encouraging teaching and research into Māori environmental rights, lore and values
   • encouraging collaborative teaching and research with iwi and other Māori organisations
   • encouraging dedicated funding for Treaty/environmental research
   • actively seeking input from Māori/Tangata Whenua into the implementation of the Environmental Policy.

18. In addition to effective management of the natural and built environment, respect and recognition of social and cultural values and rights are essential to achieving a sustainable future.

Objectives Relating to the Social and Cultural Environment

19. The University recognises and respects the unique social and cultural environment of the University community.

20. Strategies that the University has in place to enhance this environment, and to reinforce and respect the social, ethnic and cultural diversity in academic programmes, include
   • promoting the values of collegiality and academic freedom among staff and students, and enhancing awareness of the role of the University as critic and conscience of society (with reference to the Code of Ethics for Academic Staff and the University of Waikato Strategic Plan)
   • encouraging research into the enhancement of social and cultural relationships within the University community and society in general.
Statutory Environmental Responsibilities and Guidelines

21. This Policy has been prepared and guided by codes of legal compliance and recommended guidelines of best practice, as set out under sections 22-25.

Local Agenda 21 (1992)

22. The University seeks to develop appropriate management structures, partnerships and educational initiatives to ensure that Local Agenda 21 is adopted as a routine component of the University’s day-to-day operations. In its broadest sense, Agenda 21 provides a non-binding framework for action to achieve sustainability; it owes its existence to the Rio Declaration formulated at the 1992 United Nations Conference on Environment and Development.

Resource Management Act 1991

23. The University of Waikato embodies the principles of the Resource Management Act (1991) by adopting sustainable management of natural and physical resources in order to enhance its environmental management processes and develop sustainability of resource use.

Te Tiriti o Waitangi/Treaty of Waitangi (1840)

24. The University’s Charter expresses the University’s commitment to meaningful partnerships under the Treaty of Waitangi. A comprehensive statement about the University’s commitment to the Treaty is provided on page 21.

25. Other relevant legislation and local government plans
   • Building Act 1991
   • District Plans
   • Education Act 1989
   • Hazardous Substances and New Organisms Act 1997
   • Health and Safety in Employment Act 1992
   • Regional Plans and Policy Statements
   • University of Waikato Act 1963.

Implementation of Environmental Policy

26. An environmental management system is required to implement the Environmental Policy in a timely, effective and sustainable manner.

27. The University of Waikato undertakes to initiate, implement and regularly review a proactive Environmental Management Plan, which takes into consideration the principles of sustainability, health and safety, and social and cultural diversity.

28. The Environmental Management Plan also ensures that the University successfully and proactively meets the requirements of relevant legislation and local government plans (refer section 25).
Miscellaneous Regulations

Smoke-free Environment
1. Smoking on University premises is governed by the University’s Smoke-free Policy, copies of which are available on request from the Planning, Policy and Information Office and on the web at http://www.waikato.ac.nz/official-info.

Use of Alcohol
2. The use of alcohol on campus is governed by the University’s Policy on the Use of Alcohol on University Premises, copies of which are available on request from the Planning, Policy and Information Office and on the web at http://www.waikato.ac.nz/official-info.

Noise
3. Under delegation of the Vice-Chancellor, the Director of Facilities Management or the Security Manager may give directions from time to time, at his or her discretion, to control excessive noise on University premises and to give effect to any requirements relating to noise in the University’s Environmental Policy, copies of which are available on the web at http://www.waikato.ac.nz/official-info.

Children on Campus
4. The safety and supervision of children on University premises are governed by the University’s Children on Campus Policy, copies of which are available on request from the Planning, Policy and Information Office and on the web at http://www.waikato.ac.nz/official-info.

Freedom from Harassment and Sexual Harassment
5. The University of Waikato is committed to providing a work and study environment that is free from any form of harassment, including sexual harassment. Copies of the University’s Sexual Harassment and Harassment Policy, which assists in the resolution of any harassment complaint made by any member of the University community against any other member, are available on request from the Planning, Policy and Information Office, Harassment Contact People, Student and Academic Services Division, Human Resource Management Division and on the web at http://www.waikato.ac.nz/official-info. The University has a contact network of trained staff and students whose role is to explore options and offer support.

Advertising and Commercial Activities
6. Advertising and commercial activities generally, including hawking and canvassing, affixing of notices to vertical and horizontal surfaces, and the affixing of notices onto motor vehicles, are permitted on University premises only with the specific permission of the Director of Facilities Management, Security Manager or Grounds Manager.

7. Any advertising which is by way of posters or notices is subject to the requirements of regulation 8.

Student Notices
8. Student notices, generally no larger than A3, may be posted on general University noticeboards. Notices that are posted on noticeboards in such a manner that they take up excessive space will be removed.
9. Notices posted on specially labelled noticeboards or other places (such as walls, doors or ceilings, poles and motor vehicles), without the permission of the Director of Facilities Management, will be removed.

Animals
10. No animal may be taken into University buildings without the permission of the Director of Facilities Management.
11. Animals are permitted on the University grounds only if they are under the direct control of their owner and, in the case of dogs, on a short hand-held leash.

Golf
12. Golf is not permitted on University grounds, except under regulation 13.
13. An exception to regulation 12 is made in the case of groups organised through the School of Education, which will make safety arrangements to the satisfaction of the Grounds Manager, the Health and Safety Co-ordinator, and/or Security Manager.

Skateboarding and Roller Skating
14. Skateboarding and the use of inline roller skates on University grounds is not permitted in officially designated and sign-posted areas of the campus where they are considered to be hazardous either to the users or to other people or property or motor vehicle traffic in the vicinity.
15. Any University staff member or contracted employee is entitled to require skateboarders or inline roller skaters to move away from these sign-posted areas.
16. Any University staff member or contracted employee is entitled to require skateboarders or inline roller skaters to move away from any areas of the University grounds if the activity, while not necessarily hazardous, is annoying or disruptive.
17. If the skateboarders or inline roller skaters do not comply with the request of the staff member or contracted employee in relation to sections 14, 15 and 16 of these regulations, then that staff member or contracted employee should call the University security office for additional support in fulfilling their request.

Trespass
18. The authority to issue trespass notices is delegated by the Vice-Chancellor to the Director of Facilities Management, the Group Manager Facilities, and the Security Manager. No one else may issue a trespass notice on behalf of the University without the authority of the Vice-Chancellor.
The University Library

The Library is the University’s gateway to knowledge, providing information and resources for its staff and students. The Library also aims to encourage a culture of lifelong learning and intellectual independence.

Library staff are available to show students and researchers how to find the information they need for their study or research, and to teach them to find information themselves.

The University Library comprises not only the buildings on campus but virtual access to library resources throughout the world. The Law Library is within the Central Library building, which is located at the centre of the campus, and the Education Library is located in building TL in the nearby School of Education.

Library services, resources, and collections include

- knowledgeable and helpful staff
- electronic access (both on and off the campus) to journals, databases, e-books, library catalogues, the internet, exam papers, and other resources
- books, journals, maps, videos, DVDs and newspapers
- theses from the University of Waikato and other institutions
- document access and delivery from other libraries
- places to study, photocopiers, and computers for word processing
- a wireless network, wireless laptops for use within the Library, and network ports for other laptop use.

Brief introductory tours and essential tutorials are offered intensively during the first few weeks of each semester. Tutorial and tour timetables are available on the Library’s website and at Information Desks.

Librarians offer many general and course-specific tutorials as requested by academic staff. They also hold drop-in tutorials each semester. Subject Librarians offer one-to-one research consultations for postgraduate students.

Information and Technology Services

Information and Technology Services (ITS) is an organisation within the University of Waikato that provides and promotes effective vision, planning, development, management and use of technology and information within the University. ITS provides the expertise and resources needed to develop and support computing, telephony, research, teaching and administration activities of the University. Some of ITS services are operated on a cost recovery basis. ITS comprises: Campus Computers, Client Support Services, Information Systems, Infrastructure, Waikato Print and Web Team.

Campus Computers, which now includes the ITS workshop provides a centralised point for all IT related procurement and IT workshop activities. The primary activities are to establish standards for purchasing and reduce Total Cost of Ownership (TCO) for the University. Campus Computers provides the University community with an easy and effective central point of purchasing and repair for all IT related products.

The Client Support Services team consists of Teaching Technology and the Help Desk. Teaching Technology focuses on the use of technology to enhance the University’s teaching activities. It is responsible for the lecture theatre facilities, language laboratories and audio and video recording studios. The central ITS Help Desk provides support to the University for information technology related matters, including the Information Commons in the Library, while Distributed Consultants within the schools offer support to their individual areas.

The Information Systems Group provides systems analysis and data management, system support and programming services in support of the administrative functions of the University.

Infrastructure provides support to the University community by way of programming services, communications technology (including networks, internet, phone and cellphone), computing hardware and software operation, planning, implementation and maintenance of the computer network, both on and off campus.

Waikato Print, including Campus Photography, provides a range of printed products and related services to both the University community and local businesses. Waikato Print has invested heavily in developing a sophisticated digital print network that offers job creation, file management and Print on Demand. Waikato Print is now widely considered to be a market leader in the field of digital printing, and has won international awards for its work. In addition to its printing activities, Waikato Print has a chain of retail operations known as Campus Copy. These stores offer a range of graphic services to all University users as well as members of the public.

The Web Team provides services for the website and the people who contribute to the site. The Web Team develops internet systems, is responsible for a variety of site administration duties, and provides consulting and support for the University.

Information and Technology Services is located in the ITS building, adjacent to the Gate 1 car park.

For more information see http://its.waikato.ac.nz.
**Student and Academic Services**

**Accommodation Services**

**Halls of Residence**
The Accommodation and Conference Services Office assists students to find accommodation in the University's four Halls of Residences, Orchard Park, College Hall, Student Village and Bryant Hall. Orchard Park is a series of cottages where students cater for themselves. The other Halls are fully-catered although they all have flats where self-catering accommodation is available.

Full details about the Halls of Residence can be obtained from the Accommodation and Conference Services Office. Applications, which close on 1 October each year for the following year’s accommodation. Late applications and applications made during the course of the year will be considered. Residence is for the duration of the academic year. A new application must be made if students wish to return to the Halls for the following year. A contingency deposit is required at the time of acceptance, and this is refunded, less any charges, at the end of the academic year.

**Off-Campus Accommodation**
The University owns a block of eight one-bedroom flats in Scotland Place (adjacent to the University) which are available to full-time graduate students. Further information concerning these flats may be obtained from the Accommodation Adviser, who is located in the Accommodation and Conference Services Office.

The Accommodation Adviser has information regarding other accommodation available in Hamilton, and is able to assist students to find private board, houses to rent, flatmates, or flats. The cost of full board in a private home is generally about $140-$150 per week around the University area, but can be less if situated further away. Flats and houses are listed in local newspapers and with rental agencies. The Accommodation Adviser can provide printouts of all types of student housing available in the University area. The room rental cost of sharing a house or flat usually ranges between $85 and $95 per week per person.

To avoid major difficulties in finding accommodation, students are advised, if possible, to visit the University prior to the commencement of the academic year to discuss their needs with the Accommodation Adviser.

**Student Support Services**

**Student Counselling Service**
Counselling staff are located in the Student Services building. Appointments may be made for counselling on any personal, study-related or vocational issue. Seminars are also offered in these areas. Enquiries and appointments may be made in person at the Student Services Reception, or by phoning the Receptionist on (07) 838-4201. A part-time Counsellor is available in Tauranga at the Windermere campus. Appointments can be made at Reception or by phoning (07) 577-0620.
Chaplaincy
An Ecumenical (Interdenominational) Chaplain works on campus, and a part-time Catholic Chaplain visits the University regularly. The Chaplains conduct services, take part in both formal and informal activities on campus, and are readily available to students and staff for counselling and pastoral care. The centre for chaplaincy activities is the Lady Goodfellow Chapel.

Students with Disability
The Disability Support Service works with the rest of the University to remove barriers to learning for students with disability, and to ensure students’ learning requirements are being met through the provision of information, support, services and equipment. Prospective students with disability should contact the Disability Support Service well in advance of commencing their studies to ensure that the appropriate supports are able to be put in place. Staff travel to the Windermere campus to meet with Tauranga students on request.

Additional information about support and services is available from the Disability Support Service office in the Student Services Building. Telephone: (07) 838-4719, Facsimile: (07) 838-4282, Email: disability@waikato.ac.nz or via the website http://www.waikato.ac.nz/disability.

Budget Advice and Emergency Financial Assistance
A free budgeting and financial advisory service is available to students. The Student Finance Adviser, who is located in the Accommodation and Conference Services Office, can assist with information on the costs involved in attending University and the various means of financial support available to students.

Emergency assistance is available to students experiencing severe short-term financial difficulties. This may take the form of a loan or emergency grant. A Special Assistance Fund may be available to provide grants and loans to students who can demonstrate particular need for assistance in meeting an unexpected cost as a result of their studies. Application forms are available from the Student Finance Adviser in the Accommodation and Conference Services Office.

Student Health Service
The Student Health Service is located in the Student Services building (opposite the Recreation Centre) and is staffed by four medical practitioners, four nurses and a Practice Manager. The Student Health Service is open between 8.30am and 5.00pm on weekdays throughout the year. During examination periods the Student Health Service is open until 6.00pm on weekdays and from 8.30am-5.30pm on Saturdays for examination-related issues only.

In cases of genuine emergency, students who consult a general practitioner outside Health Service hours may have the fee partly reimbursed. This emergency service applies within the Hamilton boundaries and during the academic year.

The Student Health Service is available to all students who pay the Student Services Levy. If a student does not have a Community Services Card, a fee of $15.00 will be charged for each visit to the Student Health Service. Other ancillary charges may also apply. Students are eligible to use the Student Health Service between the following dates:

- Summer School 1 enrolment only: 5 January 2009 to 28 February 2009
- A Semester enrolment only: 2 March 2009 to 10 July 2009
B Semester enrolment only 13 July 2009 to 20 November 2009
Summer School 2 enrolment only 9 November 2009 to 18 December 2009
With proof of re-enrolment, full year or B Semester students are eligible to use the Student Health Service until the beginning of A semester in 2010.

Careers and Employment Centre
The Careers Office is located in Student Job Search, next to the National Bank. Staff are available to discuss career prospects and help students make their career choices. Visits by employers are arranged throughout the year, and a series of Careers Fairs are held which promote students to future employers. Students are encouraged to check the Careers website http://www.waikato.ac.nz/sasd/careers for details of workshops, seminars and employer visits.

Class Representative System
The University is committed to strong and effective representation from its students. The Class Representative System has been developed to ensure that student views are reflected through involvement in University processes and participation on University committees where decisions affecting students are made. Student representatives on University committees are either elected through the Class Representative System, or are appointed by the Waikato Students’ Union.

Class Representatives are elected to deal with minor academic matters which arise, and their role is to liaise between the students in the paper and the academic staff who are teaching the paper. They also have the opportunity to participate in the democratic processes of the University.

The Student Support Adviser provides training for Class Representatives and develops resources to assist them in fulfilling their roles. The Adviser, who is located in the Office of Student Life in the Student Services Building (opposite the Recreation Centre), is also available to provide information, advice and support for Class Representatives and for members of staff who deal with Class Representatives.

The Student Support Adviser can be contacted on extension 6264.

Student Recruitment and Enrolment
Course Advice and Planning
The Student Recruitment Office assists students who are unfamiliar with the University or who require assistance to plan their programme of study. Prospective students can obtain information from the Student Information Centre by phone (0800 WAIKATO or (07) 838-4176), email (info@waikato.ac.nz), or in person by calling in to the Hamilton campus (the Gateway), in Tauranga at Windermere, or the Auckland Office (Worldwide Business Centre, Queen Street).

The Student Recruitment Advisers represent the University at regional careers expos, secondary school career evenings, and other events throughout New Zealand. They provide comprehensive information, personal advice sessions and campus tours, which are available by appointment. An Open Day and several information days and evenings are held on campus throughout the year, and details are available on request. Students can explore a range of options - undergraduate study, postgraduate study, bridging courses and pathways programmes – including those that target women, mature students and Māori. Prospective students will also receive information on the range of academic and support services that are available.
Enrolment and General Information for Students
The Student Information Centre team provides information and advice to current and prospective students of the University of Waikato. The Student Information Centre is located downstairs in the Gateway building, University of Waikato, Gate 5, Hillcrest Road, Hamilton. This is the first point of contact for enquiries relating to admission criteria, applying to enrol, other general enrolment matters, examinations timetable and regulations, the payment of fees, handbooks for specific qualifications, ordering an academic transcript, and student ID cards. Current students can check and update their personal details through the iWaikato terminal located at the Student Information Centre. The Centre is open between 8.30am and 5.00pm, Monday to Friday, phone 0800 WAIKATO or (07) 838-4176, or email info@waikato.ac.nz. Tauranga students can also obtain this information at the Windermere campus.

Postgraduate Studies Office
The Postgraduate Studies Office is responsible for all administration associated with research degrees, namely the MPhil, doctoral degrees (PhD, EdD, and SJD) and higher doctorates (DLit, DSc, and LLD). It supports the Postgraduate Studies Committee in the development and implementation of policy concerning postgraduate studies. It also provides information and advice to students who wish to enrol, or who are enrolled, for a postgraduate degree at this University.
Detailed information for postgraduate students, including enrolment guidelines, regulations and staff research expertise, may be found on the Postgraduate Studies website at http://www.waikato.ac.nz/sasd/postgraduate.
The Waikato Pathways College

In addition to its formally assessed programmes, the Waikato Pathways College undertakes the following activities:

Community Education
Continuing Education activities provide a public service, acting as a vehicle to publicise and disseminate University research and knowledge. Equally, the College acts as a link for the community to seek information and knowledge particularly relevant to individual, local, regional and national needs.
A diverse range of professional development programmes are offered to meet the needs of the Waikato business community. These programmes are offered as public sessions and specialised in-house presentations.
A range of bridging courses are offered for adults returning to study, for intending credit course students who are unfamiliar with the university environment and for students intending to enrol or upskill in science.

English Language Programmes
English language programmes are offered for students learning English as an additional language (EAL) who are either resident in New Zealand or from other countries.
The General English programme provides English language studies to students in a more general context, and is available for enrolment on a week by week basis. Specifically designed English courses are available for organised groups from overseas. Language teacher development programmes, including the Cambridge Local Examinations Syndicate Certificate of English Language Teaching to Adults (CELTA) and specially designed short courses for language teachers from overseas are also provided.

Student Learning
Student Learning is actively involved in the fulfilment of the University’s commitment to successful higher education.
Learning Support tutors will help students develop and improve their academic literacy competence. Learning Support is provided through one-on-one appointments, focused workshops, or online self-access materials. Tutors can assist students to interpret assignment requirements, develop tertiary-level writing skills, improve academic reading skills, or prepare for examinations, for example.
The English Language Resource Centre (ELRC) provides students with a range of English language learning materials. The ELRC has a lending library of self-study books to improve English language skills. Example materials include graded readers, reference books, magazines, and easy fiction and non-fiction books.

International English Language Testing System (IELTS) Office
The University of Waikato is the IELTS testing centre for the Waikato region. IELTS is designed to assess the language proficiency of candidates who need to study or work in English. Second language learners can sit the IELTS test at either our Hamilton or Tauranga centres.
Further information is available on the website: http://www.waikato.ac.nz/pathways.
Waikato International

International Student Support
The International Student Support team advises and assists international students by identifying their needs, helping them find solutions, and directing them to appropriate services on and off campus. This includes personal issues, academic support, medical and travel insurance, Student Visa and Permit requirements, orientation, accommodation, and general concerns. Orientation programmes are run for all new international students prior to beginning their studies and regular information sessions are run throughout the academic year. During office hours we have a student lounge with computer access for international students’ use. International Student Advisers are available to see students and appointments can be made at Waikato International; phone +64 7 838 4439, email int.centre@waikato.ac.nz, website http://www.waikato.ac.nz/international.

Compulsory Medical and Travel Insurance
International students must have appropriate and current health and travel insurance while studying in New Zealand, as stated in the Code of Practice for the Pastoral Care of International Students (http://minedu.govt.nz). This must be for the full period of study in New Zealand and enrolment is dependent on proof of appropriate insurance. To simplify the process of selecting insurance, the University has selected Studentsafe-University (underwritten by New Zealand Insurance Limited) as the preferred insurance policy for all international students. The Studentsafe-University insurance premium can be added to tuition fees at the time of enrolment, resulting in international students being automatically enrolled in the Studentsafe-University insurance scheme. This premium will not be charged if evidence of an alternative compliant insurance policy is provided to the University before the specified deadline (please note there are only a small number of approved alternative compliant policies). For further information please refer to the website http://www.waikato.ac.nz/international.

Eligibility for Health Services
Most international students are not entitled to publicly funded health services while in New Zealand. If they receive medical treatment during their visit they may be liable for the full costs of that treatment. Full details on entitlements to publicly funded health services are available through the Ministry of Health, and can be viewed on the website http://www.moh.govt.nz.

The Accident Compensation Corporation (ACC) provides accident insurance for all New Zealand citizens, residents and temporary visitors to New Zealand, but they may still be liable for all other medical and related costs. Further information can be viewed on the ACC website http://www.acc.co.nz.

New Zealand Government Scholarships
New Zealand Development Scholarships (NZDS) and NZAID-funded Commonwealth Scholarships are awarded by the New Zealand Agency for International Development (NZAID) on behalf of the New Zealand Ministry of Foreign Affairs and Trade. Open to designated countries, the scholarships are for postgraduate and undergraduate (limited) study in New Zealand in areas of developmental relevance which will enable students to
make a significant impact on return to their home countries. NZDS Scholarships have two categories; Public and Open. Students can only apply under one of these categories and must be resident in their home country at the time of application. The scholarships cover tuition fees, enrolment/orientation fees, return economy travel, medical insurance, and an allowance to meet course and basic living costs. Limited assistance may be available for dependants in New Zealand for courses of study 18 months or longer.

Further information on the scholarships and eligible countries can be found at http://www.nzaid.govt.nz or http://www.waikato.ac.nz/international.

New Zealand International Doctoral Research Scholarships (NZIDRS) and New Zealand International Undergraduate Fees Scholarships (NZIUFS) are funded by the New Zealand Government and administered by Education New Zealand. NZIDRS are open to all countries and entitlements include tuition fees and living allowances. NZIUFS are open to designated countries and cover tuition fees only. Scholarships are awarded on the basis of academic merit. Further information can be found on the website http://www.newzealandeducated.com/scholarships.

**Waikato International Student Exchange**

Waikato International administers the University’s international student exchange programmes and is the central resource of promotional material from partner universities from around the world. Domestic and international students who are in good academic standing should be eligible to apply for an appropriate exchange after having completed the equivalent of two semesters of full-time degree-level study at the University of Waikato. Students may not go on exchange to their home country. Exchange students are expected to be positive ambassadors for the University of Waikato and New Zealand. With prior approval, study completed at the partner university can be credited towards students’ University of Waikato qualifications, although this cannot always be guaranteed in advance. Further information can be obtained from Waikato International.

**Strategic Alliances, International Partnerships and Agreements**

The University is a forward-looking, innovative institution that welcomes strategic alliances, international partnerships, and agreements. Consideration is given to international institutions that match the University of Waikato profile in terms of reputation, academic standing, and research output.

All proposals for University to University linkages should be discussed in the first instance with the Director, International Strategy and Services.

Proposals for guaranteed credit agreements need submission of full documentation to Waikato International, which will refer them to the appropriate academic authority for approval. Partnership proposals are welcome and will be explored on a case by case basis. Memorandums of Understanding should also be submitted as proposals to Waikato International, which will refer them to the appropriate authority.

Overseas visitors are welcome. Prospective visitors should contact Waikato International with full background information about their proposed visit. Waikato International will assist in arranging an itinerary which meets both the visitors’ and the University of Waikato’s needs.
The Research Hub

The Research Hub is the University’s ‘one-stop-shop’ for research and development. It brings together staff from the Research Office (UNILink and Scholarships), WaikatoLink (technology development and commercialisation) and Postgraduate Studies to form a single centre for providing University research and commercial services to business and the community. The Hub is located on the Ground Floor, B Block, Gate 5, Hillcrest Road, Hamilton.

UNILink

University research contracts are administered by UNILink to ensure that contract terms, objectives, intellectual property (IP), progress reporting, budget and financial matters are professionally managed to protect the interests of the University and its staff. UNILink is also the official interface between staff and external agencies such as the government, commercial and other organisations which seek to contract the University to supply research services. UNILink also services the Research Committee, Human Research Ethics Committee, and the Animal Ethics Committee.

For more information see http://www.waikato.ac.nz/research/unilink.

Scholarships

Scholarships are responsible for all administration associated with scholarships and prizes awarded by the University and outside sponsors. These include University of Waikato Scholarships, and New Zealand Vice-Chancellors’ Committee Scholarships. Students interested in applying for scholarships are encouraged to consult the Scholarships website at http://www.waikato.ac.nz/scholarships and to subscribe to the monthly electronic scholarships newsletter by e-mailing a request to that effect to scholarships@waikato.ac.nz.

The following is a list of scholarships, awards and prizes that are administered in part or fully by the University of Waikato.

For more information see http://www.waikato.ac.nz/scholarships.

WaikatoLink

WaikatoLink Limited is the commercialisation and technology transfer office of the University of Waikato. It is responsible for protecting, managing and commercialising intellectual property generated by the University. Intellectual property can take many forms, including software, hardware, designs, processes or know-how.

All academics should be aware that their research may have commercial applications, whether this is undertaken with industry partners or research collaborators, or by the University alone. The potential to realise these may be lost if these outcomes are not evaluated for market relevance and commercial potential prior to them being made public. Publication of research can take many forms, including journal articles, presentations, media releases, workshops, conference abstracts, and discussions with other people who are not directly involved in the research. WaikatoLink can advise academics on the potential value of their research outcomes and protect these so that results may be published while retaining their potential commercial relevance and value.

Academics and their Schools stand to benefit considerably through commercialisation of their research outcomes, including direct financial benefits, further research and development funding, recognition and linkages with industry, and the satisfaction of seeing research outcomes used in ‘the real world’. Notifying WaikatoLink of research plans and outcomes and protecting these appropriately is key to realising these benefits.

WaikatoLink evaluates research outcomes and concepts disclosed by academics for market potential and, if there is good market potential, determines the most appropriate path to market and drives this commercialisation process. External funding may be required to develop a technology to a commercial form. This may be provided by WaikatoLink or WaikatoLink may seek external funding from partners or investors, including venture capitalists. Commercialisation of intellectual property generated by research can take many forms. Rights to use the intellectual property can be granted to other parties, as a licence or an outright sale, joint ventures with industry partners with complementary strengths may be established, or new companies may be established to take products or services to the market.

University of Waikato technologies successfully commercialised to date include enzyme-based biotechnology products, machine learning software applied to laboratory sample analysis, wireless network technologies and honey-based wound care products.

WaikatoLink is located in the Core Facilities Building on Level One of the Waikato Innovation Park, on Ruakura Road.

For more information see http://www.waikatolink.ac.nz, phone (07) 858-5172, or fax (07) 857-0781.

The Hothouse

The Hothouse is WaikatoLink’s Technology Development Unit; it is primarily focused on undertaking further development work on inventions and research ideas and taking them through to a stage where they are market-ready or investor-ready. The Hothouse places students in a commercial environment which focuses them on these commercial tasks under the experienced guidance of WaikatoLink’s commercial managers.
U Leisure

U Leisure is a limited liability joint venture company of equal shareholding between the Waikato Students’ Union and the University of Waikato. The principal objectives of the company are the establishment and maintenance of facilities for the benefit of students and staff at the University of Waikato, and to act as an agent for sport and recreation.

Recreation Management

The Rec Centre aims to provide quality opportunities to participate in activities. The extensive programme of activities includes:

- Personal training and exercise consultancy with qualified trainers
- Over 40 invigorating and diverse exercise classes per week, including indoor cycling
- Activity courses including yoga, kickboxing, Pilates, and dance
- Two heated endless pools; ideal for performance and resistance training, aqua jogging, vertical aquatic therapy and other deep water exercise.

The continuous investment in facilities and equipment ensures the Rec Centre is a motivating place to be. The facilities include an express gym, an indoor cycling studio, squash courts, a sports hall, aerobics and circuit room, weights room, cardio area, stretch balcony, activities room and a meeting room. The sports hall, activities room and meeting room are available for hire.

For more information see http://www.reccentre.co.nz, phone (07) 838-4177, email reccentre@uleisure.co.nz, or visit the Rec Centre, Gate 1 Knighton Road.

Leisure Management

All sport and recreation facilities on campus are available for both student and community use. Facilities are user pays, but students qualify for discounted charges at competitive rates. U Leisure manages the University’s commitment to sport and recreation. This commitment extends to club sport, high performance athlete assistance, the Blues Awards, the Battle of the Bombays, the international rowing event known as the ‘Gallagher Great Race’, and other University sporting events.

Campus Pool

The complex includes a 50 metre outdoor leisure pool and a dive pool. The season operates from December to March and the pool is accessible through Gate 4, Hillcrest Road.

Don Llewellyn Sports Pavilion

The Pavilion is the building by the tennis courts and sports fields off Silverdale Road at Gate 3B. The Pavilion is the home of official UW Sports and its bar provides an avenue for clubs on campus to socialise. It is also available for functions, 21sts and fundraisers with student discounts being available on hireage. Bookings can be made through the Bar Manager on (07) 856-8411. Netball and tennis courts, squash courts and the fields form part of the Pavilion facilities.

For more information phone (07) 838-4463 or email unisport@waikato.ac.nz.
UW Sport
UW Sport provides an umbrella framework to University of Waikato sports clubs, representative teams and individual athletes. Clubs include traditional sports such as rugby, netball, hockey, basketball and soccer; adventure sports including snow, ski and alpine; and water sports like rowing and waka ama.
For more information see http://www.waikato.ac.nz/living/sports_rec.shtml, phone (07) 838-4463, or email unisport@waikato.ac.nz.

High Performance Sport and Performing Arts
The University is committed to supporting high performance athletes and performers across all disciplines and aims to provide opportunities for students to excel in both academic and sporting/performing arts endeavours. The High Performance Student Manager can offer assistance to students trying to balance their training, competitions and study, is available for liaising with academic staff, scholarship providers and sporting bodies, and provides support to all Hillary Scholars.
For more information phone (07) 838-4264 or email highperformance@waikato.ac.nz.

Workplace Wellness
Workplace Wellness is recognised internationally as being an integral part of work-life balance. The University Wellness programme provided by U Leisure is focused on empowering staff to make informed healthy life choices. This is achieved through an annual Step challenge, a biannual wellness week and wellness consultations.

Event Management
Events managed by U Leisure include the Perry Foundation REV Cycle Festival, Gallagher Great Race, King Street Great Race Ball, R & R Sport Winter Duathlon, ASB Social Sport Leagues, Wallace Corporation University Blues Awards and Staff Golf Day.
For more information phone (07) 838-4462 or email becks@uleisure.co.nz.

Asset Management
The day to day management of U Leisure is effected through a General Manager responsible to a Board of Directors. U Leisure contracts out space to the catering operators in the School of Education, Student Union, Eastside, Oranga buildings and shops. Other buildings managed, wholly or partially, by the company are the Don Llewellyn Sports Pavilion, the Students’ Union Building, the Shops, the Cowshed, and the Rec Centre.
For more information phone (07) 838-4442.

Rooms for Hire
Rooms in the Students’ Union Building and the Don Llewellyn Sports Pavilion are available at a charge (internal or external); however there is no charge for official University clubs. All bookings can be made at U Leisure reception in the Students’ Union Building.

The Campus Cafés
There are nine cafés on campus offering a wide variety of food and drink
- Momento Café - located in the shops
- Bongo Café and Sushi Bar - located in the Oranga shops
- Oranga Foodcourt - three cafés located downstairs in the Oranga building
- SOE Café - located in the centre of the School of Education
- Momento Management Café - located in the Waikato Management School
- The Station Café - located on the east side of Hillcrest Road
- Opus Café - located in the WEL Energy Trust Academy of Performing Arts.
Waikato Students’ Union

The Waikato Students’ Union (WSU) is an incorporated society and a member of the New Zealand Union of Students’ Associations (NZUSA). It is governed by an elected board, who take care of the day-to-day business of representing its members’ interests to the University and the wider community and promoting educational, social, cultural, and sporting life on campus.

Academic Representation and Support

The WSU represents its members’ academic interests by working with the University on such key committees as the University Council, Finance Committee and the Academic Board. At a national level, students’ interests are represented by NZUSA, which is concerned with Student Job Search, government policy on user-pays education, the student loan scheme, and other issues affecting members. The WSU is also a member of the national sporting body University Sports New Zealand.

The WSU provides various scholarships like the WSU Scholarship for cultural contribution, the John Houston Memorial Scholarship for academic/cultural contribution, and the WSU sole parent/caregiver awards. The union also has a small fund to help students whose attendance at university is threatened by financial hardship.

Advocacy

The WSU has an Advocacy Service that provides professional and confidential assistance free to members. The service deals with problems ranging from academic and financial troubles to employment, tenancy and accommodation difficulties.

Other Activities and Services

The WSU represents its members’ sporting, cultural, political, religious and ethnic interests by providing services for clubs and help to members wanting to set up or join a club. Affiliated clubs can apply for grants for a project or to run an event. The union publishes a weekly magazine, Nexus, and a free student diary and wall planner. It also provides other services such as a telephone for free local calls and a Ticketmaster agency which sells tickets to various concerts. Through sponsorship, the union helps students to participate in specific events including the New Zealand University Games and Blues Awards.

The WSU organises Orientation Week at the beginning of A and B semesters to welcome new students on campus. The WSU also promotes and coordinates a range of events and activities including open forums on current and contentious issues.

Through a joint venture with the University, the WSU owns a 50% stake in U Leisure, which controls the Rec Centre and Campus Pools.

The WSU is situated in the Student Union Building (SUB). Office hours are 8.30am to 4.30pm Monday to Friday.

For more information see http://www.wsu.org.nz, or email wsu@wsu.org.nz.
The Golden Key International Honour Society is an international non-profit organisation, which is committed to recognising and promoting academic achievement. Membership in the society lasts a lifetime, and includes many benefits to help its members move forward with their academic careers.

The mission of the society is to recognise and encourage scholastic achievement and excellence in all fields of study, to unite with academic staff and administrators in developing and maintaining high standards of education, to provide economic assistance to outstanding members and to promote altruistic conduct through voluntary service.

Benefits from membership in Golden Key include academic recognition, career assistance, scholarships and awards, publications, leadership positions, community service activities and alumni opportunities.

Golden Key was founded in 1977 in Georgia State University, and has since been joined by over 330 collegiate chapters from Australia, Canada, Malaysia, the United States of America, Puerto Rico, the Virgin Islands, and New Zealand. In 2003 the society celebrated a decade of international development with 30 chapters in the Asia-Pacific region.

The University of Waikato Chapter was founded on 30 October 1999, and has since inducted more than 3,000 members into the society. Membership is extended to the top 15% of undergraduate degree students in the University, and the society forbids discrimination of any kind other than academic merit.

The University of Waikato Chapter’s goals are

- to raise the profile of Golden Key in the community, schools and on campus
- to return benefits to the community
- to maximise the potential of University students.

The Waikato Chapter is involved in many projects, both academic and community service. In 2000, the chapter became involved with the Children of Ex-Soviet Georgia Project and received an award for Best Continuing Chapter Activity at the 2003 Regional Conference in Sydney. Daffodil Day fundraising, tree planting at Hammonds Bush and a Christmas visit to the children’s hospital are regular activities. In 2003 the Chapter rose to Habitat for Humanity’s challenge and built a house on campus in five days, commencing the annual Student Blitz Build. The Chapter held a Careers Fair in 2005 and again in 2006.

Membership into Golden Key can greatly enhance students’ academic careers, and members are well received by many Universities and organisations around the world.

For more information see http://waikato-golden-key.org/.
The University of Waikato Foundation

The University of Waikato Foundation - Te Pou Taunaki - is an independent charitable trust, formed to support and fund the University of Waikato to help it take new New Zealand ideas to the world. The Foundation raises funds to support the strategic objectives of the University. During its last campaign, the foundation raised $11 million for the WEL Energy Trust Academy of Performing Arts, Rec Centre, student scholarships and other projects.

The Foundation is the mechanism by which the University and its constituent parts may receive gifts, sponsorships, donations, bequests, etc. Funds received are distributed by the Board of Trustees at its discretion and according to the wishes of benefactors. Funds may be for particular and stated use, or for the general purposes of the University. Naming rights to University buildings and facilities are also handled by the Foundation.

For more information see http://www.waikato.ac.nz/foundation.

Alumni

The University of Waikato Alumni Relations Programme

The Development Office delivers an annual programme of alumni events, publications and benefits to nourish an on-going relationship between the University and its former students. There are currently 30,000 Waikato alumni that the University is in touch with all over the world, and this number grows by around 3,500 each year.

The University has 39 alumni representatives in 35 cities around the globe who provide a local point of contact for overseas Waikato graduates. The list of alumni branch contacts and news of recent alumni activities is available at http://alumni.waikato.ac.nz/.

Alumni are encouraged to stay in touch and share news of their success with the University of Waikato via the alumni email address: alumni@waikato.ac.nz.

The University of Waikato Alumni Association

The Alumni Association is a membership organisation founded in 1989 with the belief that tertiary education is not a short-term activity but rather a life-long link between students, graduates, staff and their University.

Membership in the Alumni Association is available for a Life Membership fee of $150. The benefits of Life Membership include concession rates at the Rec Centre and the University Library.

Research Centres

Antarctic Research Unit
The Antarctic Research Unit serves to foster interdisciplinary Antarctic research within the University of Waikato, and also serves to maintain continuity between successive annual Antarctic expeditions. Antarctic research is generally undertaken with logistic support from Antarctica New Zealand (http://www.antarcticanz.govt.nz).
For more information see http://earth.waikato.ac.nz/research/units/antarctic.

Centre for Biodiversity and Ecology Research
The Centre for Biodiversity and Ecology Research (CBER) facilitates a coordinated, integrated approach to biodiversity and ecology research, consultancy, education and advocacy. CBER's emphasis is on New Zealand's indigenous biodiversity and natural ecosystems because the long history of evolutionary isolation has created highly distinctive and unique biota and ecosystems. CBER describes and assesses biodiversity, researches how organisms and ecosystems function, how genes, biota and ecosystems might be conserved or sustainably managed, and how to restore damaged or degraded ecosystems.
CBER hosts a Foundation for Research Science and Technology funded Outcome Based Investment (OBI) focusing on lake restoration and FRST-funded projects on urban ecological restoration and resilience of forest remnants. The lake restoration OBI focuses on harmful algal blooms and pest fish management. Our key research partners are Landcare Research, Geological and Nuclear Sciences, and Scion. Major end-users include the Department of Conservation, NZ Fish and Game, the Ministry for the Environment, Environment Bay of Plenty, and Environment Waikato.
CBER is located within the Department of Biological Sciences and most of the staff is housed together in the top floor of R Block, in an area specially developed to facilitate the aims of the Centre. Access is via Gate 9, Hillcrest Road, Hillcrest, Hamilton.
For more information see http://cber.bio.waikato.ac.nz for CBER and http://www.LERNZ.co.nz for Lake Ecosystem Restoration New Zealand.

Centre for Labour and Trade Union Studies
The Centre for Labour and Trade Union Studies was established in 1989 by the University in conjunction with the New Zealand Council of Trade Unions (CTU) and the Trade Union Education Authority (TUEA), which has since been abolished.
The Centre is based in the Department of Societies and Cultures. In addition to normal academic teaching and research, the Centre's staff also provide specific research and advisory services to trade unions and the wider community. The Centre's mission is summarised in its general goals:
(a) to develop Labour Studies as an interdisciplinary academic subject which examines its material from a labour perspective
(b) to foster within the University a climate and academic opportunities and services, both teaching and research, that recognise the distinctive character and needs of working class people and trade unions
(c) to work in partnership with the New Zealand Council of Trade Unions (CTU)
Centre for Māori and Pacific Development Research

The strategic goal of the Centre for Māori and Pacific Development Research is to uphold the University’s commitment to the Treaty of Waitangi by becoming a centre of research excellence capable of fostering and facilitating the self-determination, self-governance and development efforts of indigenous peoples in New Zealand, Australia, and Pacific Rim countries generally. Its research and development activities will be supported and extended through research scholarships, and through the provision of opportunities for emerging scholars to conduct doctoral and post-doctoral research. The Centre aims to form strategic alliances with institutions involved in relevant research activities both within New Zealand and overseas. It also aims to conduct research in collaboration with staff of these institutions, provide an advisory service, and facilitate the dissemination and publication of research and development findings. The Centre works to facilitate academic exchanges, conferences, hui, seminars and convocations. The Centre is also committed to working in the community, particularly on Waitangi claims and resource management issues. In cooperating to support and conduct research and to provide research scholarships, the Centre will build upon the University’s existing reputation for excellence in research on Mātauranga Māori, Te Reo Māori, Tikanga Māori, Māori and Pacific Development, and comparative indigenous studies.

For more information see http://www.waikato.ac.nz/smpd/departments/cmpdr.

Centre for New Zealand Jurisprudence

The mission of the Centre for New Zealand Jurisprudence is to foster legal research, with a particular emphasis on the development of a multidisciplinary and contextual New Zealand jurisprudence. The Centre endeavours to support projects promoting the understanding of law in the international, national, and bicultural contexts. Through this research the Centre will contribute to legal education, legal reform, and the professional practice of law. In particular, the Centre may conduct or commission research. The Centre hosts visiting scholars, organises a regular seminar series, and publishes the refereed Yearbook of New Zealand Jurisprudence annually. The Centre from time to time hosts conferences and colloquia and publishes monographs of those proceedings, lectures or other topics of interest.

For more information see http://www.waikato.ac.nz/law/research/cnj.

Centre for Science and Technology Education Research

The Centre for Science and Technology Education Research (Pokapu Rangahau Pūtaiao me te Mātauranga Hangarau) is jointly administered by the School of Science and Engineering, and the School of Education. It provides a focus for postgraduate teaching, research and development in science, technology and environmental education in the primary, secondary, and tertiary education sectors, as well as in commercial and community environments. The Centre is known throughout New Zealand and internationally for its innovative research and scholarship, and for its emphasis on the use of its research in the informing and development of policy, practice, curriculum and resources. The staff and students of the Centre work in close collaboration with researchers both nationally and internationally, with local schools and industry, and with other educational institutions.

For more information see http://cster.waikato.ac.nz.
**Honey Research Unit**

The Honey Research Unit was established to promote research into the antimicrobial properties, composition and identification of honeys. It also serves as a source of expert knowledge on the composition and properties of honey, providing information and advice to marketers of honey and products containing honey, and information for the public on use of honey as a therapeutic agent. The Unit is funded by WaikatoLink (the University’s commercial arm), the New Zealand honey industry and by various research grants.

For more information see http://bio.waikato.ac.nz/honey.

**International Global Change Institute**

The International Global Change Institute (IGCI) is a semi-autonomous unit hosted by the School of Science and Engineering within the University of Waikato. IGCI focuses on research into managing environmental change at global, regional, and local scales. Key areas of research within its focus include environmental planning and governance, environmental and community outcomes from a Māori perspective, built/historic and natural heritage, biodiversity conservation, integrated risk assessments, model development and climate proofing. The Institute has a large international contact network for promoting work relating to the human dimensions of global environmental change, especially through its professional training programmes. IGCI also runs higher degree programmes (MPhil and PhD) focused on the cross-disciplinary issues of global change. IGCI develops methodologies and tools for global change issues for policy, planning and action in New Zealand and internationally.

For more information see http://www.waikato.ac.nz/igci.

**Management Research Centre**

The Management Research Centre (MRC) is a self-funded business research arm of the Waikato Management School. The MRC acts as a link between the University and the business community, providing practical business services.

The MRC’s objective is to provide research and information services to professional, state and business organisations throughout New Zealand. The Centre carries out benchmarking and business performance comparison surveys for a wide range of industry groups in New Zealand. The annual NZ Business Benchmarking Survey, run for over 27 years, is the MRC’s flagship service. The survey reports financial benchmarks for over 300 business categories, and is recognised by business practitioners and industry commentators as the accepted standard for benchmarking SME’s in New Zealand.

For more information see http://www.management.ac.nz/mrc.

**Population Studies Centre**

The Population Studies Centre generates and co-ordinates research in Population Studies and provides a service function in this field. The Centre is the only such unit in New Zealand, so its functions are national as well as regional. It also has major international and cross-national research interests. Centre staff work in three broad areas: demography, population geography and population economics. Associates of the Centre are drawn from a number of disciplines including Demography, Economics, Education, Geography, History, Psychology, Sociology and Statistics. Research on policy matters related to demographic topics includes the family, labour force and ageing, population redistribution, fertility and reproductive health in both New Zealand and overseas, mortality, the consequences of international migration and population-development issues.

For more information see http://www.waikato.ac.nz/wfass/populationstudiescentre.
**Thermophile and Microbial Biochemistry and Biotechnology Unit**

The Thermophile and Microbial Biochemistry and Biotechnology Unit carries out research primarily on micro-organisms associated with extreme environments. The Unit coordinates fundamental and applied research at this University and elsewhere on thermophilic bacteria, genes and enzymes. Research is predominantly funded by research contracts and collaborations exist with many national and overseas laboratories.

**Waikato Centre for Advanced Materials**

The Waikato Centre for Advanced Materials (WaiCAM) was established in 2002. The Centre’s general goals are

(a) to promote interdisciplinary collaboration among research groups from several departments at the University of Waikato in undertaking current research projects and in developing new research on advanced materials

(b) to organise workshops, seminars and research discussions on advanced materials on a regular basis

(c) to promote the research and postgraduate student training capabilities of the University of Waikato in the areas of materials, nationally and internationally

(d) to establish partnerships and strengthen linkages with New Zealand industry and other materials research groups in New Zealand and overseas.

For more information see http://sci.waikato.ac.nz/waicam.

**Waikato Centre for Applied Statistics**

The Waikato Centre for Applied Statistics is attached to the Department of Statistics in the School of Computing and Mathematical Sciences and serves to foster the development and effective use of statistical methods in research and industry. It carries out applied research, contributes to courses in applied statistics and supplies advice to University and external clients. A number of the Centre’s activities in consulting, research and teaching are carried out in cooperation with statisticians at the Ruakura Research Centre.

**WAND Network Research Group**

The WAND Network Research Group undertakes contract research and consulting in the telecommunications and computer networks field. The Group has a particular specialisation in network measurement, modelling and simulation. The Group also has expertise in wireless sensor networks, rural wireless, VHDL design and simulation, and cluster-based parallel computation.

For more information see http://wand.cs.waikato.ac.nz/.

**Wilf Malcolm Institute of Educational Research**

The Wilf Malcolm Institute of Educational Research was established by the University to undertake, support and disseminate research relating to the broad field of education. The Institute encourages a variety of research in education spanning the years of early childhood and schooling and which may be subject-specific or cross-curricular involving interdisciplinary research teams. The focus is research on learning, teaching, curriculum, cultural and literacy issues and policy. Local studies in classroom research, policy, critiques and reviews are encouraged, as are studies from national and international perspectives. Conferences and seminars are organised by the Institute to inform the academic and
professional communities of research undertaken, and to promote sharing and debate. National and international researchers are encouraged to visit the Institute and collaborate with staff and students in the University of Waikato.

For more information see http://education.waikato.ac.nz/research/WMIER.
Academic, Consultancy and Service Units

Analytical Chemistry Services
The Chemistry Department offers a variety of analytical services to external agencies. Facilities include atomic absorption, infrared, ultra-violet, luminescence, electron spin resonance and nuclear magnetic resonance spectroscopy, along with differential scanning calorimetry, particle sizing, and X-ray powder diffraction. Gas chromatography (GC) and high performance liquid chromatography (HPLC) and the tandem techniques GC-mass spectrometry and HPLS-mass spectrometry are also available.
For more information see http://chem.waikato.ac.nz/services.

Waikato DNA Sequencing Facility
The Waikato DNA Sequencing Facility (WDSF) offers DNA sequencing and fragment analysis services using Amersham MegaBACE and ABI 3130xl capillary DNA sequencing systems. DNA sequencing and genotyping analysis is central to genetic research and studies in molecular biology; the WDSF enables researchers to determine nucleotide sequence information and perform high resolution fragment profiling from many sources.
The Waikato DNA Sequencing Facility serves a broad client base throughout private organisations and public institutions, both nationally and internationally.
For more information see http://bio.waikato.ac.nz/sequence.

Waikato Mass Spectrometry Facility
This facility is part of the School of Science and Engineering. A range of mass spectrometry services is available to external institutions and industrial clients: MALDI-TOF, ESI-MS, ICP-MS, GC-MS. Also available is the Surface Plasmon Resonance (SPR) facility.
For more information see http://www.mass-spec.co.nz.

Waikato Radiocarbon Dating Laboratory
The Waikato Laboratory is a national facility, offering radiocarbon dates by both radiometric methods (liquid scintillation spectrometry by Perkin Elmer Quantulus) and accelerator mass spectrometry. The laboratory is funded from external commercial dating services and is used to support radiocarbon dating and School of Science and Engineering research programmes. Staff in the unit are actively involved in palaeoclimate and archaeological research and have a leading role in international calibration programmes.
For more information see http://www.radiocarbondating.com.

Waikato Stable Isotope Unit
The Waikato Stable Isotope Unit provides internationally accredited measurements of the ratios of the stable isotopes of carbon, nitrogen and oxygen. The Unit has two automated Europa Scientific isotope ratio mass spectrometers connected to dry combustion analysers that can handle 150 samples per day. Service is provided for staff and students interested in tracing these isotopes in natural systems. Other services offered by the Unit are analyses of carbon and nitrogen content in plants, animals, soils, and water. Samples are received from laboratories around the world for both collaborative and commercial work.
For more information see http://bio.waikato.ac.nz/isotope.
