

The University of Waikato Seeker Doctoral Scholarship was established in 2023 to enable academic staff, or teams of academic staff, to market and recruit the highest quality students for their research team, and thereby increase the quality of doctoral research outcomes and timely completion rates. No set number are available each year as number awarded is dependent on the pool of funding available.

Projects are listed by academic staff under [PhD Opportunities](#) and academic staff will extend an invitation to apply through the [Application to Enrol](#) process. Once students have received an Offer of Place in the Doctoral Programme, applications will be formally reviewed by a predetermined committee (nominators). The committee will forward the nomination to the Scholarships Team who will coordinate consideration and possible approval by the Scholarships Committee and/or Scholarships Executive.
